A meeting of the committee on appointments of the Board of Education will be held to-morrow night when the applications which have been received for the position on the staff of the Collegiate Institute will be considered. The chairman of the committee has received several applications and it is hoped that a suitable teacher will be secured. The committee will also deal with several other matters that have arisen since the opening of the schools.

HONORED PRIEST CROSSES BORDER

Death of Dean O'Connor of Marysville--Was Born in Peterborough

One of the oldest and most prominent priests in the Diocese of Kingston, in the person of, Rev Dean O'Connor, passed away at his late charge at Marysville on Sunday. The deceased was 80 years of age, and was born in Peterborough, where he received his early education. He was ordained to the priesthood fifty-three years ago, the ordination ceremony taking place at Kingston. He labored unceasingly for the cause to which he devoted his life. He was priest in charge of the parishes of Cornwall, Prescott, and at Marysville, where he passed away. The deceased was well known in Peterborough, and Mr. John Shevlin, of this city, is a nephew of the late priest.

The funeral will take place tomorrow at 5.30 p.m., on the arrival of the Port Hope train, and interment will take place in the Roman Catholic Cemetery.

PIONEER CITIZEN CALLED BY DEATH

Mr. James Ames, Edinburgh St. Joins Silent Majority

The hand of death has once more removed one of Peterborough's oldest and most prominent citizens, in the person of Mr. James Ames, who passed away at his late residence, Edinburgh street, yesterday, afternoon at 2.30. For the past three years deceased had been in poor health, and gradually grew worse until the end came. He was 76 years of age and was born in Frome, England. When quite young he came to this country, his father settling in Peterborough. After residing here for some years, the deceased married and moved to Millbrook, where he lived only a short time. He returned to this city of which, for over fifty years he was a prominent resident. For many years he conducted a boot and shoe business on George street where the Bank of Ottawa is now located. He engaged in the manufacture of boots and employed a large number of men, but latterly devoted his time to the retail trade alone. He retired from business seven years ago.

Four years ago he was predeceased by his wife. One daughter, Mrs C H. Fraelick, of this city, and one brother, Rev. Wm. Ames, of Woodstock, are left to mourn his loss.

The late Mr. Ames was a faithful and exemplary member of George-st. Methodist church. Last evening Rev. E. A. Pearson referred with regret to the demise of Mr. Ames. He said that he was a citizen of sterling qualities, highly respected and the community has lost a valued resident.

The funeral will take place tomorrow afternoon at 2.30 o'clock from the family residence, 181 Edinburgh street to the Little Lake cemetery.

OBITUARY

HORACE A. MIX.

Another of the old residents of Glenalda has gone to his reward. Death recently claimed Mr. Horace A. Mix as his victim. Deceased was the oldest son of a large family, and was born in Percy township in the year 1832, being the age of 75 years and 6 months. Mr. Mix was a remarkable man in many ways, surmounting many difficulties and achieving success on a bush farm, on which he located in Chandos township some 22 years ago and by his kindly disposition and hospitality he won for himself a host of friends. He was all his life a Methodist and took an active part in the building up of the church and Sabbath school, which was established by him in this place some 21 years ago. Mr. Mix leaves to mourn his loss, a wife, three brothers and two sisters and a host of friends.

The funeral was conducted by Rev. Mr. McCutcheon, and took place to the Glenalda Methodist cemetery, to await the resurrection morn.

ONE PAIR OF EYES
FOR A LIFETIME
This is the reason we look upon the proper examination of the eyes as a serious thing. If you come to us you can come with the full assurance that you will be told whether you need glasses or not.
We are not in business to "sell glasses." The retention of your patronage and of your commendation are far more valuable to us.
Determining errors of refraction and fitting the proper spectacles and eyeglasses to correct these errors is our whole business.
All our work is guaranteed.

Many Persons Outside the City Will Attend Borden Meeting

In the Grand Opera House on Wednesday Evening Next—Demonstration Will be a Monster One—Reduced Rates on All the Railways.

The executive of the Young Conservative Club and the West Riding Liberal-Conservative Association met on Saturday night to complete a few small details in connection with the visit of Mr. R. L. Borden, the gifted and popular Conservative leader, to Peterborough on Wednesday of this week, Sept. 11th. A reception committee, a hall committee and other committees were appointed. The Grand Opera House will be crowded to the doors with a large and representative audience.

Ladies are particularly invited to attend the Borden meeting on Wednesday night. Seats will be reserved for them and their escorts. Gentlemanly and obliging ushers will be on hand. Music during the evening will be supplied by the Grand Opera House orchestra.

The members of the Liberal-Conservative party have been notified by many persons in adjoining places that they will be here to take part in the big welcome to the Conservative leader. Single fare prevails on all the railways to a distance of 82 miles from Peterborough, the tickets being good to return next day.

Among the speakers will be Messrs. T. Chasse Casgrain, ex-M.P., of Montreal; A. Broder, M.P., of Morrisburg; A. Claude Macdonald, M.P., of Toronto; W. B. Northrup, M.P., of Belleville, and Mr. T. E. Bradburn, M.P.P.

Every citizen should turn out on Wednesda next and join in the welcome to Mr. Borden, who stands for clean elections, a pure and economical administration of public affairs, the overthrow of bribery and corruption for provincial rights and a non-partisan civil service, and many other reforms.

Mr. Borden will be presented with an address of welcome by the Conservative party of the city and county. His visit to Peterborough on Wednesday next will be the second occasion that he has honored Peterborough with his presence. The Conservative leader spoke in the Brock street rink nearly three years ago and he is therefore no stranger to a Peterborough audience.

Another meeting of the executives of the Young Conservative Club and the West Riding Association will be held tomorrow night.

The demonstration on Wednesday night bids fair to be the biggest and most enthusiastic political demonstration ever held in Peterborough.

A Chatham, Ont., despatch says;

The Ontario tour of Mr. R. L. Borden, who will speak in Peterborough on Wednesday night, opened here yesterday, under the most auspicious of circumstances. The leader of the Conservative party of the Dominion encountered the greatest possible enthusiasm everywhere. Amongst those who travelled on the Pullman car from Toronto, were Mr. Claude Macdonell, M.P., Mr W. J Douglas and Mr. J. S. Carstairs, Conservative organizer for the Dominion. There was a big crowd awaiting the arrival of the train at the station, many of whom had made special trips into the city from the surrounding country, in order to hear the addresses of their leader. Awaiting to welcome him were Mr. H. S. Clements, M.P., Mr. J. M. Pike, president of the Liberal-Conservative Association of West Kent; S. B. Arnold, secretary; Geo. W. Sulman, P. H. Bowyer, M.P.P., and a number of other prominent local Conservatives. As the train drew into the station, ringing cheers were raised.

A procession was formed and headed by the band of the 24th Regiment marched to the Opera House, where a huge audience had already taken their seats. The whole route was lined with people, who warmly cheered the Conservative leader. The meeting was at once commenced and Mr. Borden delivered a rousing address, dealing with the points set forth in his Halifax speech. He made some very caustic comments in regard to the filling of the recent Cabinet vacancies, showing the absurdity of the boast of Liberal organs that there were many good men supporting the Government in the House of Commons when Sir Wilfrid Laurier had to go outside to find members for his cabinet. At night there was another great gathering at the Opera House, when again Mr. Borden's exposition of his policy, was received with the greatest enthusiasm. After the meeting a very enjoyable function took place at the residence of Mr. Eugene O'Keefe, the vice-president of the Conservative Association for West Kent. The affair, which was a private one, took the form of a dinner, at which many of the leading Conservatives of the district were present. Amongst the guests were also Mr. Borden, Mr. H S. Clements, M.P., Mr. Claude Macdonell, M.P., and Mr. W. J. Douglas.

Lakefield Young Man Had Both Arms Badly Fractured

Albert Alfreds, an Employee of the Cement Company, Was Whirled Around on the End of a Fast Revolving Shaft.

Whirled around by being caught on the end of a fast revolving shaft Albert Alfreds, an employee of the Lakefield Cement Works, had a narrow escape from death yesterday morning. As it was both of his arms were broken and he received several other severe injuries, which will incapacitate him from work for several months.

The unfortunate young man resides in Lakefield and had been employed in the cement works for some time. Yesterday morning he was doing some urgent work and in moving about in the midst of the machinery his shirt caught on the key in the end of a fast moving shaft, and in an instant he was being whirled around. Another workman stopped the machinery as soon as possible and Alfreds was released. It was found that both arms were broken and other injuries sustained. Drs. Baker and Fraser were called and attended to the young man's injuries, setting the fractured limbs, and doing everything possible to relieve the suffering. The injured man was taken to the residence of Mrs. Kidd, at Lakefield, where he has boarded. He is getting on as well as can be expected, and it was stated today that he will pull through all right. This makes the second bad accident at Lakefield, within two or three days.

Condition of Money Market In England Similar to Here

Mr. Vincent Eastwood Who Has Just Returned From London, Speaks Interestingly of the Situation There.

"The condition of the money market in England is much the same as in Canada," said Mr. Vincent Eastwood, manager of the local branch of the Royal bank, to the Review today. "Money is tight, exceedingly so, and the probabilities are that the condition of the market will be more stringent before the close of the year."

Mr. and Mrs. Eastwood arrived home from England on Saturday after an enjoyable three weeks' trip to the old land. They sailed from Montreal on the Allan turbine steamship on August 15th, and made the return trip on the steamship Etruria of the Cunard line, sailing from Liverpool to New York. Both going and coming they had an enjoyable passage, both the Victorian and Etruria making fast time. Mr. and Mrs. Eastwood spent the major part of their stay in England in London. While there, Mr. Eastwood naturally made enquiries regarding the condition of the money market, and found it in much the same state as in Canada. One prominent business man in London, informed Mr. Eastwood that the high rate for labor is responsible for the stringency in the money market. The cost of production is so high that the efficiency of a dollar has been greatly diminished during the past few years. The same gentleman stated that the only thing that would relieve the situation would be an increased production of gold, and until there was a settlement of the labor trouble in South Africa, and the mines were worked to their fullest extent again, there would not be the necessary increased production of the yellow metal. The production of gold in South Africa has fallen off greatly owing to the differences between labor and capital.

Mr Eastwood believes that a larger production of gold would relieve the situation only temporarily, and that a proper adjustment of the labor question will have to be reached before the situation is put normal again.

Mr. Eastwood states that harvesting is in full swing in England and that business is generally fair. The country, however, is suffering from high and direct taxation, which makes it difficult for business houses to keep afloat unless the profits are very large.

Better Clothes
Men's eyes are opened wide every day as they come and see one of the Largest Stocks of Fall Clothing ever displayed in Peterboro'. Clothing that will please you to see and please you still more to wear.

PRESENTATION OF THE GOLD PIECES

To the Successful Pupils at Entrance Examinations

This morning Master Gerrard Maher, son of Mr. Jos. Maher, of Lang & Maher's, and Miss Bernadette Mcdonald, daughter of Mr. W. H. McDonald, who obtained the highest standing among the pupils of the Separate schools of the city, at the last entrance examinations, were each presented with a five dollar gold piece, generously donated each year to the boy and girl from St. Peter's school and the Convent, respectively, who lead the entrance examination list, by Mr. Jas. Lynch. These clever youngsters are naturally elated over their accomplishment, and their pride is shared in no small degree by their parents.

WILL BE TRIED ON THREE CHARGES

Tomorrow morning at 10 o'clock Arthur G. Lawless, proprietor of the Craig House, Lakefield, will be tried by County Police Magistrate Edmison on the charges of having committed three infractions of the Liquor License Act on August 3rd. The alleged offences are those of selling liquor on the day mentioned above at 6.25, in the afternoon, 6.35 and 6.45.

Another Writ Prevents Sale

Patrick Clunan, of Port Arthur, formerly of Peterborough, has issued a writ against Jas. Kelly and Ed. J. Flaherty to recover damages amounting to $3600 and restraining the defendants from selling, transferring or disposing of, in any way, the Royal Hotel, and goods or chattels thereof. Messrs. O'Connell & Gordon counsel for the plaintiff and R. F. McWilliams, for defendants.

While Playing Beside River Little Boy Fell Into Water

Garfield Elliott, a Sherbrooke St. Child, Had Close Call on Saturday Afternoon—Mishap Took Place Short Distance Above C.P.R. Bridge—Rescued Just in Time.

Garfield Elliot, the two and a half year old son of Mr. R. A. Elliot, 139 Sherbrooke street, had a narrow escape on Saturday afternoon from being drowned. The little chap with his parents came home from Toronto on the noon train where they had been spending a holiday. After dinner, Orville Edgar, a playmate, came along and the two went down to the river to play.

It appears that about half-past three the two lads were leaning over washing their hands, when suddenly young Elliot lost his balance and fell head first into the stream. Orville Edgar ran up and told Mrs. Skates, who resides next door to Mrs. Elliot, about the child falling in. She hurried down to the shore and all that could be seen was the little white tam which the lad wore, floating on the water.

The accident occurred near Mrs. English's boat house, just above the C.P.R. railway bridge. Some gentleman, whose name could not be learned, procured Mrs. English's canoe and went after the little fellow, who by this time had got out quite a distance.

A woollen skirt which the lad wore is said to have prevented the youngster from drowning. The garment did not quickly become soaked with water and thus kept the child from sinking.

Mr. and Mrs. Elliot are very grateful to the young man who rescued their child and also to others who assisted.

ADAMS LADIES' FURNISHING STORE ADAMS

BUSY WEEK IN CIVIC CIRCLES

Mnay Committee Meetings Will be Held—One Tomorrow Night

This will be a busy week in civic circles. In preparation for the council meeting next Monday night several of the committees will meet during the week. The Fire, Water and Light Committee meets tomorrow night and the Board of Works will likely convene on Thursday night and the Manufacturers and Legal Committees will also meet before next Monday night.

At the meeting of the Fire, Water and Light Committee tomorrow night the trouble between the chief of the fire brigade and the manager of the Peterborough Light and Power Company, in connection with the fires in the sawdust banks, will be threshed out. It appears that the brigade does not relish the idea of being called to extinguish the fires in the sawdust piles, three or four times a week.

THE CITY AND VICINITY

HEBREW NEW YEAR.

The Hebrew New Year begins today.

COUNTY TAX SALE.

The County Treasurer's tax sale of lands for arrears of taxes will be held on Wednesday next at ten o'clock. attend if you want some cheap property in the county.

NEW CONCRETE FLOOR.

Mr. R. Gibbs is having a concrete floor put in the front portion of his livery barn. When completed it will be a decided improvement to the premises.

MR. DAVIDSON SPOKE.

Mr. W. A. Davidson, treasurer of the Grafton Company, of Dundas, Ont., was present at the session of the Charlotte street church Sunday school and delivered an interesting address to the scholars and teachers.

CHEMICAL AND HOSE WAGGON.

The chemical and hose waggon that has been constructed for the fire department by Geo. Fitzgerald & Co., is in the paint shop of the above firm and will probably be ready for service in three weeks or a month.

FLOURISHING S.S.

The attendance at the Murray-st. Baptist church is growing rapidly. There has been an increase of over 50 during the past two weeks. Mr. Dunlop, principal of the King Edward public school, has been appointed a teacher of one of the classes.

NOT TOO SHORT.

Foreman Pakenham of the fire hall, remarked this morning, that the rumors to the effect that the fire hall is too short, are unfounded. "Why at the headquarters of the fire department of Toronto, on Bay street, the hall is much shorter," he remarked.

A HANDSOME SIGN.

The Calcutt Brewing & Malting Co. have placed an illuminated sign in front of the Peterborough House. The sign is in the form of a projecting lamp made in the shape of a yacht's pennant. It is about five feet from the pole to the top of the pennant. In the centre in white letters on the carmine glass are the words "Peterborough House" whilst above in a scroll are the words "Calcutt's Ale and Lager."

NOTHING DOING.

There was nothing doing in police court today. It was a good beginning for the first of the week.

THE OLD ROUTE AGAIN

The 7.20 a.m. G.T.R. flyer, which ran from Campbellford last week during the exhibition crush, has resumed its regular route from Peterborough to Toronto.

A FLOWING WELL:

The nineteenth flowing well at St. Thomas waterworks is now flowing over 100,000 gallons a day, and is considered the second best well of the collection. It is 165 feet deep and the driller went through to the rock, this being the first time this has occurred.

KEEP WALKS CLEAR.

Following up the notices to merchants to have them conform with the bylaw and keep their wares from obstructing the walks, Chief O'Neill of Berlin, has served twelve of them with summonses, charging them with infraction of the bylaw.

COMING FAST

Mr. Jas. R. Bell, one of the directors of the Peterborough Industrial Fair, says that the classes are all filling up with surprising rapidity and he predicts a record breaking success for the exhibition if the weather man behaves.

GOOD APPOINTMENT.

Mr. R. J. Matchett on Saturday received his commission as District Deputy Grand Master for Peterborough district, I.O.O.F., Mr. Matchett succeeds Mr. Wm. Hill, who has faithfully and most acceptably filled the position during the past year.

INSPECTED ASYLUMS

Hon. Dr. Willoughby, Dr. Clark, superintendent of Toronto Asylum, and Dr. Ryan, superintendent of Rockwood Asylum, Kingston, have returned from their trip to Europe, whither they went as the representatives of the Provincial Government. They visited the asylums of Great Britain, France and Germany, and studied the methods of treatment in vogue there with a view to obtaining data for use in the asylums of Ontario.

PERSONAL

Mr. Joe Welch of Toronto, formerly of this city, is here on a visit.

Rev. Mr. McKenzie, of the Grove School, Lakefield, is in the city today.

Mr. W. Thackery, Roseneath, has returned home after visiting friends in Peterborough.

Mr. and Mrs. H. Q. Fisk, Water-st. leave tomorrow for Montreal, where Mr. Fisk will attend the sessions of the Canadian Electrical Association, which meets on the 11th, 12th and 13th inst.

Mr. Art. Wood, who has been spending the past four months in Cobalt, returned to the city Saturday evening. He will resume his studies at Queen's, Kingston, in a few weeks.

Our old friend, J. D. Elliot the veteran weaver, has gone to Peterborough, to live with his son, Mr. T. C. Elliot a well known business man in the Electric City. Port Hope's loss will be Peterborough's gain.—Port Hope Guide.

Master Gerrard Maher, who won the boy's five-dollar gold piece presented by Mr. Jas. Lynch for the Catholic pupil obtaining the highest marks at the entrance examinations, is a clever boy and a hard worker. He did not attend school until nearly eight years of age, and is now only twelve.

THE AUTOMATIC DOOR OPENER

Installed at Fire Hall a Most Useful Contrivance

The new automatic door opener at the fire hall will greatly facilitate proceedings in case of an alarm. Immediately an alarm is rung the trip is released and the doors leading from the horses stalls to the front of the building will fly open, being connected by a steel cable with the opener. One electric button will be placed in front of the building for use at night, and when pressed will set the opener in operation thus letting the horses out as soon as possible. The horses will be supplied with double loop tie straps which will be connected with the doors and will slip off them as soon as the latter open. The system described above is in vogue in the Toronto halls, and in those of numerous other large cities.

Panes of glass are being placed in the stall doors, connecting with the front of the building, so that the horses will be able to see out and be prepared when they see firemen rushing around preparatory to a trip.

TUESDAY'S CASH SALE

On Tuesday, Sept. 10, our special sale will consist of the following bargains;

Brittle Bits, similar to Grape Nuts, regular 12 1-2c., for 9c.

22 lbs. Granulated Sugar, $1.00.

E. F. MASON & CO.

CROPS IN THE WEST ARE ALL RIGHT

No Frost to Hurt the Grain—Cutting in Full Swing.

A letter from Battleford, dated Sept. 2nd, to Mr. W. Austin, of the Peterborough-Saskatchewan Land Co., from the manager of the Imperial Land Co., states as follows;—

"Crops are looking fine here. We have had no frost to hurt the grain a particle. Not even the potato vines are damaged. Weather is fine and warm, and it does not look as though we would have frost for some time yet. Cutting has commenced and will be general by the 9th."

CANDY OVERFLOWED AND SCALDED HAND

While assisting in boiling a batch of candy at Demetrie Bros.' store, corner George and Charlotte streets, Kostar Jarvis, local manager of the firm, had his left hand and wrist badly scalded. The candy overflowed and had done the damage before Mr. Jarvis could get his hand away. A doctor attended to his injuries and he will be able to attend to his duties in a day or so.

SILVER JUBILEE OF THE CATHEDRAL

Will be Celebrated on Sunday September 23rd—Visiting Priests.

The silver jubilee of St. Peter's Cathedral will be celebrated on Sunday, the 23rd of September. Pontificial high mass will be sung by His Lordship Bishop O'Connor at 10.30 a.m. and the morning sermon will be preached by Rev. Dr. Teefy of the Basalian Novitiate, Toronto, Ont. At Vespers, Venerable Archdeacon Casey of Lindsay will preach. The sermons on both occasions will be of an appropriate character, and Rev. Father Teefy will deal largely with the history and growth of St. Peter's, since the time Bishop Jamot was first installed years ago.

The occasion of the jubilee will be an auspicious one, and will undoubtedly be attended by many members of the church, who have watched with pride its remarkable growth and development, the widening of its influence and the success of the societies connected with it.

Take a Personal Course at School.

To enable all to learn we teach on cash or instalment plan. We also teach a personal class at school once a month. Class commencing last Tuesday of each month. These lessons teaches how to cut, fit and put together any garment from the plainest shirt waist suit, to the most elaborate dress. The whole family can learn from one course. We have taught over seven thousand dress-making, and guarantee to give five hundred dollars to any one that cannot learn between the age of 14 and 40. You cannot learn dress-making as thorough as this course teaches if you work in shops for years. Beware of imitations as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address:—

SANDERS' DRESS-CUTTING SCHOOL,
31 Erie St., Stratford, Ont., Canada.

Port Hope Ball Team Did the Toboggan Stunt on Saturday

Took a Slide From That Spot So Near the Championship of the League—Peterborough Team Doubled the Score Which was 6-3—Cobourg Will See the Play Off.

Peterborough and Port Hope Baseball teams will play off at Cobourg for the championship of the Midland league next Saturday.

When the Crawfordites squelched the locals at Riverside Park on the last day of August, 1907, they thought they had the league championship nailed down, but they were reckoning a little too fast. And thereon hangs a tale, as "Sandy" Lockington of the Port Hope Guide would say. Manager Johnston and his aggregation of swatsmiths invaded the town by the lake on Saturday afternoon and did things, the principal performance being the scoring of six runs while Port Hope was annexing three. The Peterborough team were accompanied by only a handful of supporters, and it's too bad that there were not more on hand to see the battle royal. For a battle royal it was. With the score a tie, 3—3, at the end of the seventh innings, it was the most exciting moment in the history of Port Hope for many moons. It meant much to both teams. A win for the homesters meant the league championship without further adieu, while the Petes needed the victory to stay in the running and were not to be denied. In the eighth period they corralled two more counters, and took another in the ninth, while the lakesiders were blanked in the eighth and ninth.

As already said, it was a great game, one of the best ever played in the Midland League, in fact. Were the first two games fixed, in order to have a third match and enhanced gate receipts? Did somebody say that? If so the unfortunate fellow had better believe that there is something wrong with his thinking piece. His upper storey needs cleaning out and some general repairing. Have it done at once, old chap, you're not a credit to the town.

To see the way the Crawfordites tried to win, to see the Peterborough nine pulling off stunts that opened the peepers of the spectators to the size of saucers—to see Saturday's game left no doubt but that they were out to win and that there was nothing "crooked" going on. At any rate, the fact that the management of both teams have been paying good money to secure men to strengthen their nines for the final games, is enough to set at rest any wild tales of "fixed" deals. and other rubbish to that effect that is being handed out by some people, who think they know more about baseball and the way to manage a team than a maskinonge does about swimming, or living in water.

The score, as stated above, was 6—3, and the visiting team deserved their victory. They connected with Surphlis for ten hits, including two two-baggers, and what's more, landed safely just when hits were needed. That was one of the points in which the game differed from the one on the previous Saturday. Their fielding and base running were also of championship calibre, and if they play as well next Saturday, it will be the championship for ours. Peterborough had a new twirler, Clements of Toronto, and he was all to the good. Only seven hits were made off his delivery, four of them in the fourth innings. He had both speed and curves, and was putting them across with equal velocity in the last innings, as at the commencement of the game. Incidentally he will be on hand for the big game in Cobourg next Saturday. Perhaps the feature of the game, was Cheatham's one-hand catch of O'Neil's drive in the fifth. There were two men on bases, and the ball seemed travelling for a two-base journey. "Red" was on the job, however, and made one of the prettiest catches ever seen on the Port Hope diamond. Incidentally, the play retired the side. It was Cheatham's big day, for two lovely two-base drives came from his bat.

Jack Connors played the centre garden at the commencement of the game, but his arm is still weak and he had to retire at the end of the fifth. Peterborough had no spare man along, so Dick Turpin of Cobourg, donned a Peterborough uniform, and played right field, Burns going to centre. Corney Burns was to the goods as usual, and scored two runs and had a nice single. Harry Burridge had three singles, and did great work, behind the bat, his throwing to second being a feature. Hickey had two singles and no errors while Anderson again demonstrated himself the best second baseman in the league. Murphy and Haliburton also showed up well, and did everything required of them, well pretty nearly at any rate.

It was no discredit to Port Hope to lose. They played a strong, snappy game, and took their defeat like gentlemen. It was a case of two good teams playing at their best and a great game, resulted.

The attendance was about eight hundred and they certainly got their money's worth. There was not a dull moment from the beginning to the end. Cobourg was well represented, and the folk from the horse show town, rooted lustily for Peterborough, and the Port Hopers made enough noise to drown the roar of Lake Ontario on a windy day.

Surphlis pitched fine ball, having nine strike outs to his credit but he was touched at opportune moments.

Walsh of Toronto, umpired with every satisfaction and no doubt will handle the indicator next Saturday.

SUMMARY.

Below will be found the statistical and innings story of the game,—

Peterborough:

	A.B.	R	H	P.O.	A	E
Burns, rf and cf	5	2	1	3	0	0
Hickey, 1b	5	1	2	9	0	0
Burridge, c	5	2	3	4	3	0
Anderson, 2b	4	1	1	5	3	1
Cheatham, ss	3	0	2	2	3	1
Turpin, rf	2	0	0	1	0	1
Connors, cf	1	0	0	0	0	0
Murphy, lf	4	0	1	1	0	1
Haliburton, 3b	2	0	0	2	1	0
Clements, p	4	0	0	0	4	1
	35	6	10	27	14	5

Port Hope:

	A.B.	R	H	P.O.	A	E
O'Brien, 3b	5	0	0	4	2	2
Benson, cf	3	0	0	0	0	0
O'Neill, c	3	1	2	10	4	0
Ross, lf	4	1	1	0	0	0
O'Hearn, 2b	4	1	1	5	3	1
Brittain, ss	4	0	1	1	0	3
Kolb, 1b	2	0	1	8	1	0
Brown, rf	3	0	0	0	0	0
Surphlis, p	4	0	0	0	0	0
*Walters	1	0	1	0	0	0
	33	3	7	18	12	6

*Walters batted for Brown in the ninth.

Score by innings:

Peterborough.............000201021—6.
Port Hope ....000300000—3.

Earned runs, Peterborough 4, Port Hope 3; two-base hits, Cheatham 2, O'Neil, Ross; 1st base on balls, off Surphlis 3, off Clements 2; struck out, by Surphlis 9, by Clements 3; left on bases, Peterborough 6, Port Hope 7. 1st base on errors, Peterborough 4, Port Hope 5; wild pitch, Surphlis; passed ball, O'Neill; hit by pitcher, Kolb, Benson; sacrifice hit, Connors; double plays, Cheatham to Haliburton, Anderson to Hickey, O'Hearn to Kolb to O'Neill.

BY INNINGS.

By innings—Burns went out, O'Brien to Kolb. Hickey fell by the same route. Burridge singled and stole second and third. Anderson fanned. No runs.

Port Hope—O'Brien went out, Clements to Hickey. Benson struck out, O'Neill was walked, and Ross retired, Cheatham to Hickey.

Second innings — Peterborough — Cheatham got a base on balls, but was caught at second. Connors flew out to Kolb and Murphy struck out. No runs.

Port Hope—O'Hearn made first on Cheatham's error, Brittain flew out to Burridge, and Kolb struck out. O'Hearn was caught at second. No runs.

Third innings — Peterborough — Haliburton got first on O'Brien's error, Clements struck out, Haliburton was caught at third and Burns flew out to O'Brien. No runs.

Port Hope—Brown and Surphlis went out, Clements to Hickey, and O'Brien, on a grounder to Cheatham. No runs.

Fourth innings — Peterborough — Hickey went out, O'Hearn to Kolb; Burridge singled, and Anderson went to first on another muff by Brittain, and Burridge got second on this play. Cheatham hammered out a two-baser and scored Burridge and Anderson. Connors sacrificed, going out O'Hearn to Kolb, and Cheatham was caught at the plate on the double play. Two runs.

Port Hope—Benson flew out to Burns, O'Neill singled and stole second, Ross got a two-bagger and scored O'Neill. O'Hearn singled and scored Ross. O'Hearn stole second, and scored on Brittain's single. Brittain went out at second, and Kolb drew a base on balls. Brown went out, Cheatham to Hickey. Three runs.

Fifth innings — Peterborough — Murphy grounded to O'Hearn and was out at first. Haliburton got a complimentary. Clements struck out but O'Neil dropped the ball and Clements started to run, forcing Haliburton to leave first, where he was caught.

Port Hope—Surphlis flew out to Cheatham, O'Brien lived on Clements' error, and Benson was hit by the ball. With a man on second and third, Cheatham made a sensational catch of a hot drive from O'Neill that was good for two bases. It was the prettiest piece of fielding of the day and even the Port Hopers had to applaud. On getting the ball, he threw to third base and O'Brien was nailed there, retiring the side on the double play. No runs.

Sixth innings — Peterborough — Burns got first on Brittain's error, stole second and made third on a passed ball. Hickey struck out, but Burridge singled, scoring Burns. Anderson singled, Cheatham flew out to Kolb, and Turpin's drive was caught by O'Hearn. One run.

Port Hope—Ross went out, Anderson to Kolb, O'Hearn's fly was dropped by Murphy, and the batter made first, Brittain's drive was caught by Anderson, and with another double play O'Hearn was caught at the first sack. No runs.

Seventh innings — Peterborough — Murphy singled, Haliburton was to the good on O'Brien's error, Clements struck out, and Murphy was caught at second. Burns flew out to Brittain. No runs.

Port Hope—Kolb singled, Brown struck out, Surphlis flew out to Anderson and O'Brien went out, Haliburton to Anderson. No runs.

Eighth innings — Hickey singled, Burridge connected and got first on fielder's choice, an attempt being made to catch Hickey at third, but he beat out the throw. Burridge stole second, and he and Hickey scored on Cheatham's two-bagger. Turpin went out, O'Hearn to Kolb, and Murphy struck out. Two runs.

Port Hope—Benson made first on Anderson's error, but was caught at second. O'Neill got a two-bagger but was nailed at third. Ross flew out to Murphy.

Ninth innings—Haliburton drew a base on balls, but was caught at second. Clements struck out, but Burns singled, and Hickey duplicated and let Burns home. Burridge flew out to O'Brien. One run.

Port Hope—O'Hearn was safe on Turpin's error, Brittain flew out to Burns and Kolb was hit by pitcher. Walters, batting for Brown, singled and filled the bases. Surphlis flew out to Turpin, and O'Brien flew out to Burns, retiring the side with the bases loaded.

NOTES BY THE WAY.

Doubled the score.

Well done boys. Do it again.

Who said the games were "fixed"?

Don't believe anything of the kind.

The poor we have always with us—and some knockers too.

Clements can throw the "spit ball," but did not use it on Saturday.

Manager Crawford did some lusty coaching, but it was no use.

Cobourg people will see a great game next Saturday. They are to be envied.

Happenings in St. Luke's Parish

Harvest Festival Will be Held on September 19th

St. Luke's Parish Church Work, in its September issue, contains the following of local interest;

On September 19th we will celebrate our Harvest Festival. We will thank publicly, our dear Lord, for the many mercies we have received. The Very Reverend Dean Farthing, of St. George's Cathedral, Kingston, will be the special preacher. The God-pleasing part of our festival is, of course, the thankful hearts of the worshipper. Our gratitude to Almighty God must manifest itself, not merely in a lip service, but in very deed must witness to the sincerity of our devotions.

The annual Harvest Festival at St. Mark's, Otonabee, will be held no Sunday, Sept. 29th, both morning and evening. The special preacher has not been secured yet, but very likely it will be either Rev. C. H. Marsh, of Lindsay, or Rev. Wm. Burns, of Hastings. The offering will be devoted to the cause of Missions.

To make a good beginning with our fall and winter work in the church, we invite all our people, especially the communicants, to attend the morning service on Sunday, Sept. 15th, when we will ask God for a special blessing upon our undertakings, and to bestow upon us strength and dedication of self to His service. This service is particularly designed for all active church workers in the various departments of church work.

The services at Nassau have met with much success, and every encouragement is given. We have begun to hold a Sunday school every Sunday at 2.30; the service begins at 3.15.

The Sunday School will resume its afternoon sessions on Sunday, Sept. 15th.

We are glad to learn that Miss Maud Adams has so far recovered from her illness that she was able to leave the hospital. She is making satisfactory progress towards recovery.

Misses Clara Adams, Helen Denne and Marion Denne have passed the Matriculation examinations with credit to themselves and their High School. Miss Helen Denne will pursue her studies at Queen's University, Kingston, while Miss Marion Denne will do so at St. Hilda's College, Toronto, which is in affiliation with Trinity College.

The Archdiaconal Conference of the Archdeaconry of Peterborough will be held at Cobourg on Oct. 21st to 23rd, at St. Peter's church, of which Rev. Canon Spragge is the rector.

The weekly meeting of our Brotherhood of St. Andrew is a source of great spiritual refreshing to the members and, through them, we have no doubt, to the congregation and parish. Mr. Arthur Kingdon, to whose zeal and enthusiasm in church work we owe so much, is the director of the Brotherhood, and he knows well how to interest and to instruct the men. We cannot speak too highly of his good work and the good influence he exerts among the men. May he be richly blessed of God in all his undertakings.

Miss Ethel Pakenham has taken a position as teacher at Rockcroft, north of Buckhorn. We shall miss her very much in many departments of church work, especially in the Mission Band, where she was the indefatigable secretary.

STOCKHOLDERS HOLD MEETING

Port Hope Brewing and Malting Co. Men in Session.

Messrs. J. M. Brooks, R. J. Munro, Alex. Elliott, I. Eastwood, and others, left this morning for Port Hope to attend a special meeting of the stockholders of the Port Hope Brewing and Malting Co.

The principal business of the meeting will be the ratification of the agreement between the stockholders of the company and the Bank of Montreal made at the time that the above bank took over the business of the defunct Ontario Bank.

A STRANGE CANE 'FRAE AULD SCOTIA'

Mr. A. Rountree is the possessor of a curiosity in the shape of a walking stick, presented to him by Mr. R. J. Munro. The latter purchased it while at Glasgow, Scotland where such sticks are bought by tourists as souvenirs. It is a trifle over three feet in length and has a regularly natural grooved surface. A great many people have passed opinions as to what kind of wood it is, but none have made correct guesses. A few thought it was a mullen stalk but it is the stalk of a Scotch thistle.

THEY GOT HERE JUST THE SAME

Circuitous Route to Get Home From Port Hope.

Several members of the Peterborough baseball team, and a few supporters, were somewhat up against it when it came to getting home from Port Hope on Saturday. The game was not over in time to let them get away on the afternoon train and, as there were no freights coming north, it meant staying in the lakeside town until Monday morning. This did not appear to be to the liking of the majority of the bunch, so another way of getting home was decided upon. They bought tickets for Toronto on the Grand Trunk and reached the city shortly after nine o'clock, and there took the C.P.R. train for home, arriving in Peterborough at 12.30.

"It was a long way around, but a sure way home," and manager Art. Johnston is likely to take out a copyright for the route.

HANDSOME FLAG FOR MR. DUNFORD

Owner of Supply Boat "Bobs" Honored by Appreciative Tourists.

Mr. A. L. Dunford, who managed the supply boat "Bobs" so successfully this summer on Stony Lake, was the recipient of a beautiful Canadian flag, 8x10 feet and manufactured from the best English bunting. It was the gift of Dr. and Mrs P. Barnes, Miss Barnes, Mr and Mrs Herbert C. Loomis, Miss Loomis, and Mrs. C. A. Howe, all of Cleveland, Ohio, in acknowledgment and appreciation of Mr. Dunford's services.

WEDDING BELLS

McLEAN—ROGERS

A quiet wedding was solemnized at noon Saturday in St. Thomas' church, Toronto, when Mr. Evan Hamilton McLean, of Belleville, and grandson of the late Archibald McLean, Chief Justice of the Court of Appeal, was married to Margaret, eldest daughter of the late George C. Rogers, of Peterborough, and of Mrs. Rogers, of 96 Washington avenue, Toronto. The Rev. Canon Farncomb, rector of St. Matthew's church, Toronto, officiated, assisted by Rev. C. Ensor Sharp. The bride, who was given away by her uncle, Mr. Edwin Rogers, wore white satin, veiled with Brussels net, the bodice being trimmed with Brussels applique lace. The tulle veil was arranged about a wreath of orange blossom's and she held a large posy of bride's roses. Her two sisters, the Misses Muriel and Georgie Rogers, were bridesmaids, and were dressed alike in yellow mousseline de soie fashioned in kimona style, with wide folds of yellow satin and Irish crochet lace. A large black velvet bow on one side of the bodice corresponded with the black picture hats, and they both held large sprays of golden glow in their hands. Mr. Bertram Adam was best man. A number of the immediate relatives of the bride and bridegroom were in the church, and for these, Mr. Horace Burritt and Rev. Robert Allen acted as ushers. Afterwards they adjourned to Washington avenue, where Mrs. Rogers received them, and where the bride changed her dress and donned a white serge travelling suit, tuscan hat, with brown feather and brown marabout boa. Mr and Mrs. McLean left for a short honeymoon in the East, and will return to Toronto before going to their new home in Newcastle.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. E. F. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

R. M. Guy, of Hamilton, was elected at Brantford, president of the Canadian Letter Carriers' Association.

TUMORS CONQUERED

SERIOUS OPERATIONS AVOIDED

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so sly that frequently its presence is not suspected until it is far advanced.

Mrs. Fannie D. Fox

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, secure Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice if you will write her about yourself. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my periods stopped. Shortly after I felt so badly that I submitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation.

"Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After trying five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my periods around once more, and I am entirely well."—Fannie D. Fox, 7 Chesnut Street Bradford, Pa.

THE PRESS CLUB SAID GOODBYE

Social Gathering in Honor of Mr. C. H Sawle Who Goes to Preston.

There was a pleasant little gathering at McEwen Spence's restaurant on Saturday night, when the members of the Peterborough Press Club met around the festive board to say good-bye to Mr. Chas. H. Sawle, for the past two years city editor of the Peterborough Review. Mr. Sawle has made many friends in the city and as a faithful, energetic and capable newspaper man, who carries with him to his new field of labor in Preston, Ont., the best wishes, not only of his confreres, but many citizens as well. Mr. G. B. VanBlaricom president of the Club, presided, and several speeches were made expressive of regret at the departure of the guest of the evening, and joining in wishing him every success in his new place of residence.

Among those who spoke were Hon. J. R. Stratton, F. H. Dobbin, J. D. Clarke, B. T. Huston, E. S. Clarry, H. Theobald, Percy Crane and others.

Mr Sawle in reply referred to the pleasant time he had spent in this city and the kind relations that had always existed between him and his co-laborers of the fourth estate. He left yesterday for Preston, where he assumes the duties of editor and manager of the Progress, a bright and progressive publication, which will doubtless continue to enjoy a large measure of success under its new management. The Progress was recently purchased by Mr. T. H. Sears, of Toronto, and Mr. Sawle will have full control of the paper.

Iron Mines of North Hastings

Reported That Large Developments Will be Undertaken

A Marmora despatch says;

Four or five experts have been in North Hastings recently looking for iron to supply Canadian and United States furnaces. Several options have been taken in iron properties in the section. Mr. Cole Saunders, managing director of the Eldorado copper mine, and Mr. Wilson, of Rochester, paid a recent visit to the Medina copper mine, near Eldorado, and the report is that they are going to develop the mine to its fullest capacity. New capital has been added, and with this and the excellent working plant already installed, it is thought that the Medina mine will be running full blast in a short time.

Mr. Stephen Wellington, Madoc, who has for some time had a gang of men prospecting on his lot, about five miles from Madoc, made a good discovery of iron pyrites. There are two veins of high-grade pyrites, one being 11 feet 5 inches wide, which will get wider as the shaft is being sunk. There are two defined walls of black schist, also a thin salvage of talc in the walls. The other vein is six feet wide. The ore will run 52 per cent. sulphur. The property is only a mile and a half from the B. Q. Railway. This property is a valuable one, owing to the high percentage of sulphur it carries and the mine being high and dry.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

A young man, believed to be Chas. Boyce, of Elmvale, ended his life with carbolic acid at the Soo Friday.

Dr. Earl Stewart, of Winnipeg house surgeon of the General hospital, died yesterday of typhoid, aged 24.

SATURDAY, SEPT. 7, 1907

NOT HIS UNDERTAKING

One of the interesting features of what may be called the "make-up" of Sir Wilfrid Laurier is illustrated in the "All Red" line. Capitalists looking for a steamship subsidy have asked the right honorable gentleman to contribute a million a year of our money towards their undertaking. Some right honorable gentlemen would have regarded the proposition from the point of view of business and would have spoken of it with historical accuracy. But not so Sir Wilfrid. That right honorable gentleman asks us to believe that he devised the idea himself, and represents that his patriotic spirit impels him to devote the decling years of his life to the task of working it out.

The Quebec speech makes Sir Wilfrid's position clear. It says:—

"During the last five days of the conference I announced a new idea, which has almost become historic—the 'All Red' line.

'My proposition was the establishment at once of fast boats on the Atlantic and the Pacific.

"I am thoroughly convinced that ideas are in the interest of Canada and the Empire, and although I have grown old and white in the service of the country, I am prepared to work with all my energy to further the cause."

It is therefore plain that the right honorable gentleman thought out the scheme in an idle moment, and that he is going to fight it through until the million a year is in the hands of the applicants for the grant. The history of the Grand Trunk Pacific is similarly treated. Mr. Hays wanted a charter for the railway which his company proposed to build. But Sir Wilfrid Laurier's orations intimated that Mr. Hays had nothing to do with the idea. It was Sir Wilfrid Laurier who first thought of the road, and it is Sir Wilfrid Laurier that is building it. Moreover, Sir Wilfrid has dedicated his life to the task of opening up the West, now the home of the savage, to civilization and trade. The right hon. gentleman, it is interesting to recall, has planned many other great projects and is devoting his life to them with as much earnestness as to the other matters of which he has spoken. One of them is commercial annexation to the United States. Of this policy he has told us:

"Every great reform has cost the reformer years of labor, and these years of labor I am prepared to give, and though the Democrats may be defeated in the United States, and though Canadians may grow faint-hearted in Canada, the Liberal party, so long as I have anything to do with it, will remain true to the cause of unrestricted reciprocity until that time is succesdful."

Another is the scheme for free trade. We have the pledge of the right honorable gentleman that he will fight for this policy until it is victorious:

"And now I ask you what is the policy of the Liberal party? I refer to freedom of trade such as exists in England. We shall give you free trade, and although it will be a hard fight, we shall not give in one inch or retrace one step, until we shall have reached the goal, and that goal is the same policy of free trade as it exists in England today."

Still another pledge is separation from Great Britain and the Empire;

"I hold out to my countrymen the idea of independence. If we are true to our record we will again exhibit to the world, the unique, the unprecedented example of a nation achieving its independence by slow degrees, and as naturally as the severing of the ripe fruit from the parent tree.

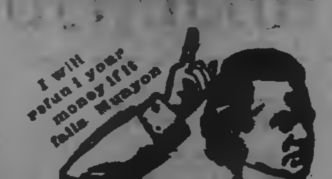
"I have again and again repeated that the goal of my aspiration is the independence of Canada—to see Canada an independent nation in due course of time."

So that the right honorable gentleman has a rather long programme to go through.

He is under promise to sever us from the British Empire by slow process, and at the same time to give us free trade, accompanied by complete or unrestricted reciprocity with the United States. It might be imagined by the uninitiated that a politician who has made separation from the British Crown the goal of his aspirations, and who further has decided, while building the Grand Trunk Pacific, to fight to the last ditch for free trade, and also for unrestricted reciprocity, would not have much time to give to an "All Red" line in the interests of the Empire. But we must not forget that when a gentleman works merely with his imagination he can cover many more objects than can be dealt with by a plain, serious and honest citizen.—Mail and Empire.

RHEUMATISM

MUNYON'S 3X CURES



I will refund your money if it fails Munyon

Think of a remedy that relieves sharp, shooting pains in any part of the body in from one to three hours and effects a perfect cure in a few days.

It purifies the blood. It neutralizes the acid and takes all inflammation and soreness away. Have you a lame or aching back, lumbago or sciatica?

Have you stiff or swollen joints, no matter how chronic? Ask your druggist for Munyon's 3x Rheumatism Cure and see how quickly you will be cured.

If you have any kidney or bladder trouble get Munyon's Special Kidney Cure. Money back if it fails. Munyon's Vitalizer makes weak men strong and restores lost powers.

INSPECTION OF LAWNS

Will Take Place To-morrow—Many Pretty Grounds in City.

It is expected that the annual inspection of lawns and yards in the city by the members appointed by the Horticultural Society, will take place to-morrow. The majority of grounds this year look very pretty and there has been a healthy rivalry in certain parts of the city.

Any person desiring the inspection of his or her grounds should send word to Mr. Beal, the secretary of the committee at once.

Another important decision the Horticultural Society has arrived at is to distribute to the members of the society during the autumn six imported Dutch hyacinth bulbs and six daffodil bulbs. In this way the society is doing an excellent work and deserves the co-operation of all those interested in the culture of plants and flowers.

New Waggon is A Splendid One

Is Now at the Fire Hall—Modern and Well Equipped

The new hook and ladder waggon has arrived at the fire hall and is thoroughly equipped to wage war against the devastating element. It is quite a formidable looking "cart" and is supplied with a forty-five foot extension ladder beneath, a fifty-five extension foot ladder above that, three ladders in the next tier, and two roof or hook ladders on the top, and the usual axes, snags, crowbars, etc. The illumination for night runs will be supplied by four white light lanterns fastened to the top rail. The new hook and ladder waggon is a decided improvement over the old hook and ladder and hose waggon combination, and worthy of any metropolitan fire hall. It is a product of the firm of W. E. Seagrave, Walkerville.

NO MEETING OF HEALTH BOARD

There was to have been a meeting of the Board of Health this morning, but although the notices called for the members to gather at 9.30 o'clock, only Chairman Eyres, Medical Health Officer Bingham and Sanitary Inspector Ball had turned up by ten o'clock, and the meeting was called off.

It is understood that the chairman of the Board is anxious to have something done regarding the prevalence of typhoid fever and wants to have action taken to stamp out the disease.

Sanitary Inspector Ball has made a report to the Water Commissioners in connection with his visit to Stony Lake to determine the cause of the typhoid cases which originated there. The Commissioners will meet this week to consider the report, and decide what action is to be taken.

MARKET SCALES BEING REPAIRED

The market scales are undergoing repairs today and it is certainly not before they need them. They have been in a bad condition for some time and farmers were continually complaining. The roof over the scales is being extended at each end, and is also being shingled, so that when rain falls the works of the scales will be fully protected. The floor, which heretofore, has had several bad holes in it, is receiving some new planks. When the repairs are completed the market scales will be as good as any public scales in the city.

News of the City Churches

CHARLOTTE ST. CHURCH

Rev. Mr. Applegath, of the Hamilton Conference, preached in the Charlotte street Methodist church yesterday and delivered two interesting and instructive addresses.

The Epworth League will hold a meeting this evening. President Horsley will give an address.

The regular weekly prayer meeting will be held on Wednesday night.

ST. ANDREW'S CHURCH

At St. Andrew's church yesterday Mr. J. S. Potter, the sailor's missionary, preached in the morning, and Rev. Dr. Marsh, of Springville, in the evening.

The Elizabeth Bell Mission Society will meet tomorrow, Tuesday afternoon, at 4 o'clock.

The Young Girls' Mission Band will meet tomorrow evening at 8 o'clock.

The regular weekly prayer meeting will be held on Wednesday evening.

On Friday evening at eight o'clock there will be a meeting of the Ladies' Aid Society.

Rev. W. W. McCuaig, of Point Levis, Que., will occupy the pulpit of St. Andrew's church on Sunday next at both services.

ST. PAUL'S CHURCH

The Woman's Foreign Missionary Society of St. Paul's church will meet on Friday afternoon at 3.30 o'clock. As this is the first meeting after the holidays a large attendance is requested.

The regular weekly prayer meeting will be held on Wednesday night. Rev. Dr Talling will continue his addresses on "Communion with God."

KNOX CHURCH

Rev. Mr. Orok, of Cardiff Presbyterian Mission, will occupy the pulpit at both services next Sunday exchanging with the pastor, Rev. Mr. Keith. The nomination of four additional elders will take place two weeks from yesterday. A business and social meeting of the Boy's Club will be held at 7.30 next Friday.

GEORGE STREET CHURCH

The Social Committee will have charge of the Epworth League meeting tonight.

The Woman's Missionary Society meets on Tuesday at 3.30 o'clock.

The Sunday School Committee meet on Friday evening at eight o'clock.

Prayer meeting will be held as usual on Wednesday evening at 8 p.m.

MURRAY STREET CHURCH

The Young People's meeting will be held tonight at eight o'clock.

The Ladies' Mission Circle meet tomorrow afternoon at 3 o'clock.

The Willing Workers meet tomorrow night at 8 o'clock.

Prayer meeting will be held as usual on Wednesday evening at 8 o'clock.

ALL SAINT'S CHURCH

The Women's Guild meet tonight at 7.30 o'clock, also the Girls Guild meet tonight at 7.30.

Tomorrow night a meeting for men will be held at 8 o'clock.

Choir practice will be held on Thursday at eight o'clock.

The Boys' Brigade meet on Friday evening at 7.30 o'clock.

MARK STREET CHURCH

There will be a meeting of the Woman's Missionary Society at 3 o'clock Wednesday afternoon and the usual prayer service Wednesday night. A cottage prayer meeting will be held Friday evening at the residence of Mr. Wilson, Mark street. At 4.15 this afternoon there will be a special meeting of the Mission Band.

Sunday Services St. Paul's Church

Large Congregation Listened to Rev. Dr. Tuftts, Nova Scotian Divine

The congregation of St. Paul's church worshipped in the auditorium yesterday, after holding services for the past two months in the Sunday school room. The alteration and extension of the organ are not nearly completed, in fact the whole instrument has been removed, and is at present being rebuilt in Toronto. The carpets are not yet in place but the walls and ceiling of the edifice have been redecorated and the color scheme of green and cream adds materailly to the interior attractiveness of St. Paul's.

Large congregations were present at both services yesterday. The choir was present for the first time in several weeks, the members occupying the front seats. Mr. John Crane presided at the piano and Miss Helen Davies sang solos that were much appreciated.

Rev. Dr. Tuftts, of Stellarton, N. S. was the preacher. He is a Haligonian, strong, well built, and of splendid appearance—a typical Bluenose. He is an eloquent, earnest and forceful speaker, his discourses being direct, helpful and sympathetic. In the evening he spoke from John, 12th chapter and 21st verse, "Sir, we would see Jesus." His words were followed with the closest attention. Rev. Dr. Tuftts is one of the gentlemen who has been invited to preach for a call. Several others will be heard in the near future.

Will Attend the Training School

Two Popular Salvation Army Ladies Leave This Week

There was a large attendance at the Salvation Army barracks last evening to bid good-bye to Miss Alice Leader and Miss Jennie Butcher, two popular members of the Army, who will leave this week for Toronto where they will enter the Salvation Army Training Home to qualify as officers. They will be absent several months.

Adjutant Wiggins presided and spoke of the gentle Christian character of the departing ladies, who have been faithful members of the Army for several years. He also referred to their noble influence and devoted lives and felt sure that they would make admirable officers.

Miss Leader who came out from the Old Country about a year ago and Miss Butcher, who is a daughter of Mr. M. T. Butcher, also gave short addresses of a farewell nature. They were given an enthusiastic reception and were wished God speed in the new work which they will take up.

24 YEARS NOW IN EVANGELISTIC WORK

Crossley & Hunter Have Begun a Revival Campaign in Durham.

Crossley & Hunter, who are well known in Peterborough, having conducted revival meetings here some years ago, are now holding evangelistic services in Durham. The meetings are held in a rink and are full of interest. Crossley & Hunter are beginning their 24th year together as evangelists.

BISHOP O'CONNOR AT DOWNEYVILLE

The new cemetery of St. Luke's congregation, Downeyville, which is a monument to the zeal of the energetic pastor, Rev. P. J. McGuire, was consecrated Sunday afternoon by His Lordship Bishop O'Connor, of Peterborough. The consecration of the new cemetery took place at three o'clock in the presence of a large gathering.

SPECIAL SERVICES AT THE TABERNACLE

There will be a prayer meeting for the Pentecostal outpouring of the Holy Spirit upon Peterborough every night this week at Bethany Tabernacle at eight o'clock. All interested are cordially invited.

Evangelization of the Sailors

Interesting Sermon by Rev. J. S. Potter at George St. Church

Rev. J. S. Potter, father of Rev. J. G. Potter was in the city over Sunday and preached in three of the city churches. Mr. Potter, who is a missionary to the sailors on the inland waters between Montreal and Lake Huron, spoke in their behalf. In the morning he preached at St. Andrew's, and in the evening at George street Methodist church. In the afternoon he addressed the Sunday school of the Murray street Baptist church.

Rev. Mr. Potter although advanced in years, is still hale and active, and is doing a great work in bringing the gospel of Christ to the sailors on our Canadian waters.

Last evening at George street Methodist church he preached an earnest and inspiring sermon from the words found in the seventeenth verse of the 15th chapter of St. Luke's gospel; "And when He came to Himself He said, how many hired servants of My Father have bread, and I perish with hunger." These were the words of the Prodigal Son, having satisfied himself by spending all he had on the luxuries and pleasures of this world, desirtes to return home to his father. No better resolution could be made by anyone than to return home, said the speaker. There is no better place, and when the Prodigal Son came to himself he realized it. Just so there is no man "himself," and can do without religion.

Rev. Mr. Potter remarked that a little over a year ago Rev. Mr. Born, secretary of the Upper Canada Tract Society, visited Peterborough and addressed George street congregation on the work of that organization. There were many branches of work in the society. There was the work among the miners, the lumber camps, the railway men and the sailors. Each was important, but Mr. Potter chose the latter for his subject last evening. He said that they are all waiting to be told of Jesus Christ and His love for them. They are like the prodigal, not themselves. There are many of them deep in sin, and the missionaries are trying to reach them and get them out of the "swine," as it were.

In the sailors' department of the Society there are at present four missionaries, but up to last November there were five. Rev. Mr. Poe, who worked among the sailors between Port Dalhousie and Port Colborne, for over 38 years, was called away by death.

In Kingston they have a sailor's home, where there is a reading room and chapel, and everything is homelike. In this way the Society endeavors to seek men, irrespective of the creed or nationality, and bring them in hearing of the gospel. It is the connecting link between mothers and their sons, said the speaker.

At Ottawa there are registered 1,345 steamers, and 595 sailing vessels that ply on the waters of Ontario alone. To run these boats it takes 25,000 sailors.

The principles as laid down in the Bible tells us to help our brethren, and it is our duty to help these sailors, continued the missionary. The best work can be done by sailing with these men and being intimate with them. Many a sailor has owed a great deal to the sailor missionaries and to the sailors' home. Many have been turned to salvation, but there is yet a greater work to be done.

The rev. speaker related many interesting experiences in connection with his work, and in closing asked all who felt disposed to do so, to give towards the speading of the gospel among the sailors.

During the offertory Miss Rosser sang very sweetly, "There is a Green Hill Far Away."

CAPTAIN HURD WILL GIVE ADDRESS

Captain Hurd, of Montreal, travelling financial secretary of the Salvation Army, will be in the city tomorrow, and will give an address at the S. A. barracks tomorrow evening which will be illustrated by fifty lime-light views. His subject will be "Rhoda, or the Gypsy Girl's Mission of Love."

Likes His Work in St. Catharines

Still Rev. Dr. Crothers Has Not Forgotten Peterborough

Mr. George H. Williamson, secretary of the Y.M.C.A., to-day received a letter from Rev. Dr. Crothers now pastor of St. Paul's Methodist church in the Garden City. The doctor says he likes St. Kitts very much. The people there have been very kind. The temperance sentiment in that city is very strong. "Still," adds Dr. Crothers, "I have not forgotten Peterborough, and my many friends there and wish that I could have spent ten years in your city."

DUNDAS MAN WAS SPEAKER

At Evangelistic Meeting at the Y. M. C. A. Yesterday.

Mr. W. A. Davidson, treasurer of the Grafton Co., of Dundas, was the speaker at the Y.M.C.A. yesterday afternoon, there being a good attendance of men.

Mr Dundas spoke from the theme, "I will Arise and go to my Father." The address was the plain, common sense deliverance of a business man, and the impression made was most effective.

Mr. Fred Freeland sang "Nearer My God to Thee," in excellent voice, being accompanied by Mrs. Greenslade.

SOCIAL SERVICE WELL ATTENDED

Saturday night's meeting of the Y.M.C.A. Strangers' Fellowship Club was a decidedly interesting and inspiring one.

Mr. Shiner presided in the absence of Mr. Harding.

Committees were appointed for the next three months, and it was decided to entertain the ministers of the city at the meeting on Oct. 5th. Mr. L. Brace very ably led a profitable discussion of Mr. MacLaren's paper on "Social Service."

At the October meeting Mr. B. A Lillie will read a paper on "The Value of the Church to a Man, and the Value of a Man to the Church."

ONLY BROTHER HAS PASSED AWAY

Mr. John Gibson Bereaved—Seventh Death in One Family

Mr. John Gibson, who is employed in the office of Dr. Johnson, V.S., received a telegram from his home in Vancouver on Saturday that his only brother had passed away. Deceased, whose name was Walter, was only ten years of age and his death occurred on Saturday. The cause of his demise was not given in the telegram, but his death must have been somewhat sudden as no mention was made of the little fellow being ill when Mr. Gibson had a letter from his home a few days ago. The boy was a son of Mr. and Mrs. Alex. Gibson who moved from Peterborough to Vancouver about fourteen years ago. Their son's death makes the seventh time that the grim reaper has visited the family. Of eight children only one, Mr. Gibson, of Peterborough, survives, four sons and three daughters having passed away. Much sympathy will be felt for Mr. Gibson in the bereavement he has sustained.

Angus Cameron, an old resident of Carlton Place, was killed in the railway yards there Friday.

Daniel Derbyshire, ex-M.P., for Brockville, is mentioned for the vacancy in the Provincial House.

"STUNG AGAIN" IN PORT HOPE

Cobourg Arranges for Model School to Replace the One at Port Hope

Port Hope has been stung again. A few days ago the Board of Education of that town disbanded the Model School and now Cobourg has come to the front and has made arrangements to open a Model School there. The Port Hope Guide wails over the matter as follows;

"The action of the Public School Board in disbanding the Model School has been the cause for much unfavorable comment. To add to this unpleasant condition of affairs Cobourg has taken advantage of the Port Hope Boards' blunder, and started a class there. The thirty students who had made application to attend our school will now spend their three months in Cobourg, and the eastern town will derive the benefit which should have come to Port Hope. The Cobourg World says that arrangements have been made for a Model Class and it will open next week.

"This gives Cobourg the Port Hope Model School What next will we donate to our eastern neighbors!

"Mr. Gillies received a letter this morning from Cobourg requesting the Government supply of books, which is at present in our school. Mr. Gillies will refer the letter to the School Board, and other sensations are likely to follow.";

BASKETBALL

GOOD PROSPECTS.

Things promise to be lively in basketball circles this winter, and the various teams will organize shortly. The Arrows will hold their first practice this evening and have a likely looking bunch to pick from, the two Cressmans, Miller, Ferguson, Dobbin, Bruce Gillespie, Darling and Donson being available. The Association League will probably be carried out at the Y.M.C.A. again this year, and will be composed of the Arrows, Harriers, Alerts, Tigers and any other teams that may wish to enter.

RUGBY

MEETING TONIGHT.

The committee of the Rugby Club will meet at eight o'clock tonight at the Oriental.

The team will practice next Saturday afternoon at three o'clock. All members and any others who wish to turn out are requested to be on hand.

This is the first practice of the season and it is desirable that as many players as possible, old and new turn out and get into the game early, so that as the season progresses there will be no difficulty in picking a team.

GOLF

A DELIGHTFUL TEA.

A delightful picnic tea was held at the golf club grounds on Saturday afternoon. There was a good attendance and a very pleasant time was spent. During the afternoon mixed foursomes were played and certain handicaps allowed. Another tea will take place at the grounds on Saturday next—in fact there will be a tea each Saturday afternoon during September.

BOWLING

Dr. Moher, head of the Brockville Asylum staff, and formerly of this city, was honored with the following testimonial at a recent meeting of the bowlers of the Island City:—

"We hereby tender our thanks to Dr. Moher for the deep interest he has taken in the formation of this bowling section and for material assistance given in preparing our grounds."

He was referred to in the kindest terms by the club members.

Dr. Moher is a true sport and a favorite in the St. Lawrence town.

PRIZE PRESENTED BY MISS KINGAN

To be Conducted by Ladies of Peterborough Golf Club.

Miss Annie Kingan has kindly presented a prize to be played for by ladies of the Peterborough Golf Club. The following is the first draw to be played off by Saturday, September 14th.

Mrs R S Davidson vs Mrs W H Hill.
Mrs Campbell vs. Miss Dumble.
Miss Moore vs. Miss Gwen Hall.
Miss Fair vs. Miss F Cameron.
Miss Edwards vs. Mrs Coulthard.
Miss Pearse vs. Mrs Gardiner.
Mrs McClellan vs. Mrs Matthews.
Miss P Lundy, a bye.

He Was Kissed by a Princess

But Mr. W. J. Cooper Was Never, Never Married to One

To the Editor of the Review,

Dear Sir,—Kindly correct a mistake which you made in Saturday's issue I was an invited guest at the silver wedding of Mr. and Mrs. D. Oliver, Westcott street and in the course of the evening, I was asked what part of England I came from. I replied that I was a thoroughbred Cockney born within sound of Bow-Bells. In fact, I told them that I was born in Kensington Palace. My mother died two weeks afterwards, and my nurse was the coachman's wife. She had me in the grounds one day and was met by the old Princess Alice, who was blind (a cousin of Queen Victoria), who had heard of the poor little motherless boy, and took me in her arms, passed her hand over my face and kissed me. That is all and you go and say I was born in Buckingham Palace, and was married to a princess. Heaven above! I'll never get over it. At any rate please correct it in as few words as possible.

Yours truly,
W. J. COOPER.

Peterborough,
Sept. 9, 1907.

The first meeting of the Board of the Nova Scotia Technical College took place Friday.

CONTRIBUTION IS MUCH APPRECIATED

Peterborough's Gift to Muskoka Free Hospital Thankfully Received

Mrs. Jas. Kendry received the following letter to-day in acknowledgement of Peterborough's donation to the Muskoka sanitarium. It will be remembered that $116 was raised by selling old rubbers last spring. The following is a copy of the letter:—

Dear Mrs. Kendry,—

I want to take this opportunity of thanking you for the generous cheque of $116.16 that you sent to help in the maintenance of needy patients at the Muskoka Free hospital for consumptives. The gift is particularly pleasing from the fact that it is the outcome of the activities of the school children of your enterprising town. Surely that cause which enlists the sympathy of the mothers and children is one that we ought all to help.

On behalf of our trustees will you give to this acknowledgement such publicity as you think best, for we would like to feel that all who have help to any extent whatever should know how their gifts are appreciated by our trustees.

Believe me,
Very truly yours,
J. S. ROBERTSON,
Sec. Nat. Sanitarium Association.

RETURNS FROM COBALT DISTRICT

Mr. A. Wood Talks Interestingly of Cobalt

Mr. Arthur, Wood, son of County, Crown Attorney R. E. Wood has returned from Cobalt, where he has been for some months, and is the guest of his parents at the Hotel National. Mr. Wood has the honest bronze of Old Sol on his countenance, and looks the orthodox prospector. He has been in the employ of D. O'Connor, one of the "biggest" men in the New Ontario mining world and who is known as the "King of Temagami."

"They certainly were wild for a time," said Mr. Wood, referring to the miners at the time of the recent strike, "and the main source of trouble were the fiery orations of Roadhouse, the socialistic agitator, but everything is comparatively quiet now, and the miners have nearly all returned to work, although a number of them became disgusted with the strike proceedings and left Cobalt altogether. Some of the mines are paying the price asked for by the union workers, and all are granting a material increase on the old scale of wages."

Mr. Wood said that the mine owners had very little trouble in securing help at the time of the strike.

At the door of the miners union hall there is what is known as a "scab list" posted regularly, and those men who give their services for a consideration lower than the standard union price, have their names and those of the claims they are working, written on the list and posted at the doorway.

Everything is running smoothly in Cobalt now and the output of ore is well up to the average. Mr. Wood is of the opinion that the troubles between the mine owners and employers have been amicably adjusted and says great precautions will be taken to prevent a repetition of the troubles, as delays in the mining business result in too great a loss to the owners.

Mr. Wood met Messrs. A. Graham, and John and Dick O'Brien, of this city, who are all located in the "Silver Town," and reports them as being satisfied with the place and its prospects.

At the opening of the fall term of Queen's University, Mr. Wood will resume his studies in mining engineering.

ENJOYABLE TRIP TO OLD COUNTRY

Miss Dela Mater Has Returned After Pleasant Holiday.

Miss F. Dela Mater, supt. of the Nicholls Hospital, has returned home from England and the Continent, where she spent the past two months. She had a most enjoyable trip, visiting many parts of England, including the famous lakes district in Cumberland. Miss Dela Mater has been absent since the 1st of June.

OBTAINS AGENCY

What no doubt will be welcome news to east city residents is the fact that the Toronto evening News can be procured at Mr. A. J. Tovey's drug store. Mr. Tovey has secured the agency for the News and persons on the east side of the river will now not have to cross the bridge to get this journal from the news boys.

KING EDWARD WAS OPENED

248 Pupils on Hand for First Day's School

With an attendance of 248 pupils divided among six rooms, the new King Edward School was opened this morning. The number of scholars on hand was larger than anticipated and clearly showed the necessity of more school accommodation. Six teachers are in charge, each having about forty pupils. Two rooms have been received for the commercial department of the Collegiate Institute, which will likely be shifted to the new school at the beginning of next week.

The pupils attending the King Edward come from the district lying south of Wolfe street. Many of them have been attending the new South Central school but a large percentage are new pupils who are entering the halls of learning for the first time. It was a busy morning at the school Principal Dunlop, and his assistants, and Inspector Walker assigning the pupils to their respective rooms, and getting everything in shape generally.

The staff of the new school is composed of Principal Dunlop and Miss Stubbs, Miss Burns, Miss Pratt and Miss Martin, assistants, and Miss Cameron, who will have charge of the kindergarten department.

The school is splendidly equipped, the class rooms are large, bright and airy, and everything is in fine shape. It is easily the best school in the city.

HAVE MOVED FROM THE OLD PREMISES

Bank of Montreal Will in Future Transact Business in One Office.

The six members of the Bank of Montreal staff, have moved from the old premises of the bank, opposite the police station to their more modern and commodious premises on the northwest corner of Simcoe and Water. All the books and papers from the old building have been transferred. The total staff numbers about a dozen members, and the work will be performed with more convenience and dispatch with all the business centered in the one office. The present office will shortly be enlarged, part of the Hall building on the west side, having been secured.

MACHINE TELEPHONE COMPANY IN LINDSAY

The Lindsay Post says;

Our citizens will learn with some satisfaction that the Machine Telephone Co. which was granted a charter last year by our Council, will commence active operations in the course of a few days.

Mr. Wm. Lytle, superintendent of construction for the company, spent a couple of days here this week, and Mr. Sullivan, his foreman, is now hiring men in town. Sixteen carloads of poles have arrived, and stand for unloading on the C.P.R. switch in the east ward.

ST. LUKE'S CHURCH

The rector gave notice yesterday that all the different societies would resume their meetings again. He urged all members to take up their work with renewed enthusiasm and zeal. He said that he would preach a special sermon next Sunday morning to church workers, whom he invited to attend the Holy Communion in a body.

The Sunday school and Mr. Turner's Bible class will resume their sessions next Sunday at three o'clock.

The meetings during the week will be as follows,—

The Men's Guild will have their first meeting tonight at eight o'clock to make preparations for the winter work. All young men of the congregation are urged to attend.

The Brotherhood of St. Andrew, will meet tomorrow night at eight o'clock.

On Wednesday at three o'clock, the Mother's Guild will re-open its meetings.

The W. A. will meet on Thursday at 2.30.

Choir practice will be held on Thursday at eight o'clock.

HORRIBLE DEATH OF 200 MINERS

Are Cut Off by Flames Which Follow an Explosion

Special to the Review.

San Antonio, Tex., Sept. 9. — Two hundred men are believed to be doomed in Las Esperanzas mine in Mexico, where they are cut off by flames, which followed an explosion yesterday.

Their only hope is that aid will reach them soon.

THE

New Autumn Styles

AT

THE GOLDEN LION

The ne plus ultra of every woman's ideas is not to be had in a store's showings by merely wishing for it. The **Fashions** you see here so early were only to be had at this time by dint of much planning, much trouble and much work.

But the result justifies us

DRESS GOODS

"I always go to Fair's first," says a woman who has been buying Dress Goods all her life, and that a long one. "I can depend on the qualities there. I know if they say a thing is all-wool or fast-black there is not an iota of cotton nor a speck of fadeable dye to be found in it."

The above was overheard on the street the other day, and we must say it pleases us. If she had added that the newest weaves and best selections are always to be found there, it would have been a perfect testimonial. It is easy to see how the stir of the new Autumn Goods is being felt in town.

Among the leading cloths we show may be found the following

NEW FALL SHADES

10 Shades in Browns 9 Shades in Wines Burgandies, Mullberrys, Clarets and Plums 12 Shades of Blues 10 Shades of Greens embracing Myrtle, Reseda, Bottle, Sea Weed and Olive

Fall Term Opens at Conservatory

Bright Outlook for Coming Season

The fall term of the Peterborough Conservatory of Music, commenced yesterday under most favorable conditions. The number of pupils is greater than ever before in the history of the Conservatory, and several finished teachers have been added to the already large and competent staff.

Mr. Rupert Gliddon, the energetic director, deserves much credit for his commendable efforts in giving the public of this city, superior advantages for securing a thorough musical education, and the increasing patronage bestowed upon the Conservatory, augurs well for a successful season from both a material and artistic standpoint. With the present large staff of cultured and painstaking instructors, the prospects are unusually bright.

The following comprise the teaching staff,—

Vocal—Mr. Lautz, Mr. Van der Water, Mr. McCann, Miss Ressor.

Piano—Miss Pollock, Miss Newman, Miss Sisson, Mr. McCann.

Organ and Theory, — Mr. Fairclough.

Violin—Miss Adamson, Miss Hope Miller.

Elocution—Miss Heath.
Harmony—Mr. McCann.
Art—Miss Bennett.
China Painting—Miss Flood.
Banjo—Mr. Mendel.
Guitar—Miss Dobbin.
Banjo—Mr. Mendel.

J. R. Dundas Was Allowed to Go

John R. Dundas came up before Judge Weller at three o'clock and was allowed to go, to appear again on November 12th, when His Honor will consider what punishment will be given him, the sentence to be meted out according to his conduct during the next two months. Dundas promised to appear on November 12th, also to pay back the fifteen dollars, the amount of the forged cheque, and live an honest and upright life.

THE PETERBORO' COLLEGE OF MUSIC

Mrs. W. J. Morrow, F.N.C.M., Principal, opens Monday, Sept. 9th. Intending pupils in vocal and instrumental instruction can arrange for hours between 10 and 12 a.m. and 2 and 9 p.m. 12d

Boards of Health Are Often Failures

Says Dr. Hodgetts—Members Not Properly Qualified

The time is near at hand, when Boards of Health throughout the country must be given greater powers, or else their usefulness will cease.

At present the Board of Health has not power to appoint its executive officers, and therefore is more or less apt to clash with the City Council. Notwithstanding, the local Board has sanitary control of the water in the Otonabee above the intake pipe of the waterworks pump house and up the lakes, the dumping of sewage in the lake and river, goes rapidly on. How long is this going to continue? The Board of Health should have officers to see that its orders are carried out, and its instructions followed up. The following remarks from Dr. Hodgetts, secretary of the Provincial Board of Health in his annual report will be read with interest.—

"The time is ripe for a change in the health laws of the province. The present local Boards of Health are often failures, and properly qualified men, who will devote their time to sanitary administration, should be appointed, while the province should be subdivided into county or other districts, similar to those of the school system.

"In addition, the central system should be organized; the chief health officer, should have a competent staff, consisting of the present officials and a sanitary engineer.

"All water and sewage propositions could and should then receive immediate attention, and need not be held over for two or three months, as now.

"The functions of the Provincial Board of Health should be purely consultative.

"Vaccine and antitoxic serums, including the most important one, antidiphtheritic serum, which is almost a specific remedy, should be distributed free of charge.

"And all these changes should be made if this province is to be kept abreast of the times, for the lives of our people are at stake, and the health of our cities, is the state's wealth, in the highest sense of the word."

Dr. Hodgetts recommends the printing and distribution of Health rules in the different languages of foreigners, who are employed in the province.

Rough Riders Organize To-night

The Rough Riders will hold an organization meeting tonight at the Y.M.C.A. parlors and it is expected that a large number of enthusiasts will be present. All those interested are requested to be present.

Improvements to the Churches

Building Permits That Have Recently Been Issued

A building permit was taken out at the city clerk's office today for a new vestry to St. John's church. The estimated cost is $2,500.

The trustees of Knox church yesterday took out a permit for a new gallery, the cost of which is to be $500.

Robert Pollock has taken out a permit for a new dwelling house. Cost, $500.

The Situation at Vancouver ; Comment of British Press

Attacks on Japanese Caused No Surprise in London.

Outbreak Has Been Long Feared—Yankee Seamen Mobbed by Japs—Sailers Invited Trouble—Attacked Storekeeper—Two Had to Swim to Safety — Japanese Are Exonerated From Blame.

London, Sept. 10.—The news of the attacks on the Japanese and Chinese at Vancouver did not surprise the Colonial and Foreign Office officials here, who had long feared an outbreak against the Asiatics in Western Canada, but they have the greatest confidence in the ability of the Canadians to suppress any disturbances and protect aliens.

At the same time, the officials realize that a most serious problem has arisen, particularly as the feeling appears to be strongest against the subjects of Great Britain's ally, and that it requires the most careful handling, for whatever action is taken is likely to be resented either by the colony or by Japan.

The question has been under consideration for some time by the Imperial authorities, who have used their good offices on numerous occasions to prevent the enactment of anti-Japanese legislation by British Columbia. It is understood that the matter was discussed at length during the recent visit of the Colonial Premiers to London, Australia being as much opposed to the admission of Asiatics as are the Canadians. No steps were taken at the time, however, and the subject was allowed to lapse until the agitations were revived.

All the Cabinet Ministers are out of town, but the Colonial and Foreign Offices are seeking to obtain all the information possible on the subject of the Vancouver outbreak, with the view of taking some action, the nature of which is difficult to surmise.

The Times, whose American correspondent severely and repeatedly denounced the San Francisco hostility to the Japanese, is the only paper commenting on the demonstration against the Japanese and Chinese at Vancouver, B. C. The paper deplores that "it is not at present obvious how a permanent amelioration of the situation is to be effected," attributes the troubles entirely to labor union agitation, and ridicules the idea that a few thousand Japanese are likely to turn British Columbia or California into Mongolian provinces.

The Pall Mall Gazette is the only afternoon newspaper to express an opinion on the subject, and it says directly opposite, saying:

"The Asiatic makes his entry into Canada under the auspices of the great god of cheapness. He comes with an offer to take work at half the rate or less than paid for the white men's labor, an arrangement which none the less can be carried out on a basis which involves a great advance upon the state of remuneration enjoyed in his own country. In competition of this character the Caucasian believes, and all economic reasoning seems to support him, that his own standards of life are certain to be depleted and destroyed."

Not Wanton Depravity.

Continuing, The Pall Mall Gazette points out that the Bellingham and Vancouver outbreaks show "that popular animosities of the racial type are not necessarily the outcome of mere wanton, unprovoked depravity," adding: "It can scarcely occur to the home keeping Englishman how slight an expansive effort on the part of the swarming populations of the far east would suffice to swamp the western states and provinces of the American continent."

Referring to British Columbia, with only three per cent. of its territory populated, The Pall Mall Gazette remarks: "If an unrestricted flood of Asiatics were alloyed to occupy these vacant hospitable acres, it would require but a few years to produce an Oriental predominance in the fairest and richest possession of the British Empire, and, perhaps, deflect the whole course of its civilization and destiny."

In conclusion, The Pall Mall Gazette says: "The issue will not permit of indefinite procrastination. Failing exclusion, the situation demands an alternative policy that will promptly and efficiently circumscribe the dangers of so vividly realized by their prospective victims."

Chinese Buy Revolvers.

Vancouver, Sept. 10.—All Chinese domestic and mill workmen in Vancouver quit yesterday morning and announced their intention of staying in Chinatown until the riot trouble is over.

Chinese boys who sleep in their employers' homes were notified that they must leave immediately or they would be killed. Many instances of this threat being made are given.

When the hardware stores were opened yesterday morning, Chinamen swarmed the sidewalks and crowded the stores immediately. Hundreds of revolvers were sold within a few minutes, and the Chinese carried them by armfuls to Chinatown.

An hour later the police notified the stores to stop selling guns until the trouble was over.

Apolize and Pay.

Ottawa, Sept. 10.—The feeling in official circles in Ottawa is that Canada will have to apologize to Japan and pay for the damage done to Japanese property and for the personal injuries of Japanese in Vancouver. The outbreak is regarded as peculiarly unfortunate, as it took place at a time when the problem of limiting Japanese immigration to Canada had about been solved.

There is a feeling here that there has been too much said on the question of Japanese immigration, both by those opposed to it and by the champions of Japanese rights under the treaty, and that public opinion and prejudices have been unduly excited.

Hon. R. W. Scott, Secretary of State, said yesterday morning that the treaty between Japan and Canada, as ratified by Parliament at its last session, clearly specified that "the subjects of each of the two high contracting parties shall have full liberty to enter, travel or reside in any part of the Dominion, and possessions of the other contracting party, and shall enjoy full and perfect protection for their persons and property."

Mr. Scott noted that the treaty had been adopted by the Canadian Parliament after full and free discussion.

More Trouble Feared.

Vancouver, B. C., Sept. 10.—There were several arrests made yesterday arising out of Saturday night's riots. The police force is being added to, as further outbreaks are feared with the arrival this week of several ship loads of Orientals. These may, however, be landed at Victoria.

U. S. Sailors In Danger.

New York, Sept. 10.—A Tokio despatch to The Herald reports that, while the American cruiser Chattanooga was at Hakodate recently four of her men narrowly escaped injury at the hands of a mob. Two of the men had to swim for it, while the other two were rescued by the police.

Investigation by the ship's officers showed that one of the sailors had made an unprovoked attack upon a Japanese storekeeper, and the Japanese were exonerated.

MUST IMPORT WHEAT.

European Countries Will Need Large Supply of Grain.

Ottawa, Sept. 10.—Canada's agent at Leeds, England, reporting to the Trade and Commerce Department, at Ottawa, says:

The wheat importing countries of Europe are likely to require 536,000,000 bushels this year, as against 448,000,000 last year. In France the crop is about the same as a year ago, and in Scandinavia a trifle bigger, but Germany, which last year took 68,000,000 bushels, will this year require 104,000,000 bushels; Belgium and Holland will need to import 68,000,000 bushels, and Italy about 48,000,000.

Austria-Hungary, instead of having a surplus, as last year, will require to import about 24,000,000 bushels, while the United Kingdom, which last year imported 174,000,000 bushels, expects this year to import 216,000,000 bushels.

Ashore In Fog.

San Francisco, Sept. 10.—The steamer San Gabriey, from San Pedro for Umpqua, in ballast, ran ashore yesterday near Point Reyes, during a heavy fog, and probably will be a total loss.

Stole From Police Inspector.

London, Sept. 10.—Annie Lilian Ellis, a domestic servant, deported from Canada, was sent to jail in Rochester for three months for theft from her employer, a police inspector.

Agent Gagged and Robbed.

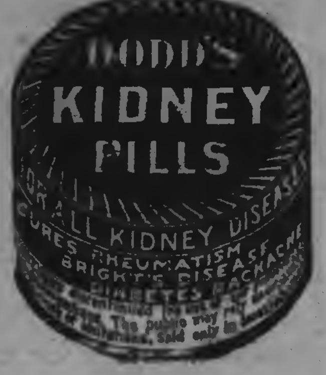
Eldorado, Kas., Sept. 10.—Masked men here early yesterday bound and gagged the Missouri Pacific Railway agent, robbed the safe of $1,300 and escaped.

King Receives Negro.

London, Sept. 10.—Arthur Barclay, the negro President of Liberia, it is announced, was received by King Edward at Buckingham Palace yesterday.

W. J. Strong of Detroit, under arrest at Chatham on a charge of embezzling will fight extradition.

The Lord's Day Alliance of London, will oppose the scheme to have a Sunday street car service.



FIREMAN BADLY HURT

Hurled From Engine Into Field Fifty Feet Away.

Crown Sheet of C. P. R. Locomotive Blown Out—Men Severely Scalded and Burned—Rushed About Field With Clothing In Flames—Explosion Was Terrific — Residents Thought It an Earthquake.

Toronto, Sept. 10.—Thomas B. Miller, a C. P. R. fireman, whose home is at Toronto Junction, was badly injured in his engine near the northern end of Dovercourt road yesterday morning. He was engaged shoveling coal into the firebox when the crown sheet of the boiler blew out with a force that hurled him into a field 50 feet away. The noise of the explosion and the agonized cries of the injured man aroused the people, and they rushed out of their homes to find Miller rushing about the field with his clothes in a blaze. The red hot coals from the firebox had badly burned his hands and face, and his left arm and side was also fearfully scalded by the boiling water, which had spouted from the boiler. The injured man was taken to the Western Hospital, where he is in a serious condition.

In the cab with Miller were Engineer Shaw, who was in charge, and another fireman. Both the latter were somewhat shielded from the flying coals and steam by the end of the boiler, and the latter escaped without any injury. Engineer Shaw, however, was badly scalded about the arms and legs, and had his ankle sprained.

The train was a freight, which had been made up at Havelock, and at the time was on the way from Toronto to Toronto Junction.

TREATMENT OF NEUTRALS.

Articles Objected to by Germany Suppressed by The Hague.

The Hague, Sept. 10.—All the articles concerning the treatment of the subjects of neutral powers in the territory of belligerents, to which Germany objected at the plenary conference last Saturday, were suppressed yesterday by the committee on land war, after a long and interesting discussion.

The delegate of the Grand Duchy of Luxemburg, which, according to the treaty of London of 1887 is neutral territory, introduced a motion, which was unanimously adopted, that the powers urge their subjects when they are in the territory of belligerents to respect the laws regarding the observance of neutrality.

WILL NOT RUN UNLESS—

There Must Be Widespread Demand For Third Term.

New York, Sept. 10.—A special from Honolulu quotes Congressman Longworth, who has just sailed from that port for San Francisco, as saying:

"President Roosevelt will not become a candidate for renomination unless the entire country demands it. He has firmly made up his mind to stick to this course, and only a more widespread demand for him to accept the nomination will alter his determination."

Union of Free Churches.

London, Sept. 10.—(C. A. P.)—Rev. E. B. Meyer has commenced a great national ministry scheme in Leicester, with the idea of uniting all the free churches of Britain and over-sea dominions into one great free church federation for the Empire. Mr. Meyer visits South Africa, Australia and Canada successively, starting next year.

Charged With Smuggling.

Brockville, Sept. 10.—Milo Lawrence, a resident of Waddington, was placed under arrest by Deputy Marshal Smith on a charge of smuggling eggs and wool from Canada into the United States. He was arraigned in Ogdensburg and held for examination under $1,000 bail.

Charles Chamberlain of Hamilton, a coal waggon driver, was fined $10 Saturday for ill-treating a horse.

WILD EXCITEMENT IN SPAIN.

Queen's Auto Confronted In Road by Large Bull.

Madrid, Sept. 10.—An automobile from the royal stables, in which Queen Victoria was driving Sunday from St. Sebastian to Bilbao, was suddenly confronted by a large bull, which planted himself in the roadway immediately in front of the queen's car and compelled the chauffeur to put on the brakes hurriedly, and stop the machine.

No collision appears to have occurred, but her majesty is described as having been greatly frightened by the unexpected meeting with the bull.

As the sudden stopping of the royal automobile threw the machinery into disorder the queen was compelled to resume her journey to Bilbao in another car.

Suspicious Death at Montreal.

Montreal, Sept. 10.—A verdict of manslaughter was brought in by the coroner's jury yesterday against Raoul Poliquin, in connection with the death of Edouard Renaud, a cabman, whose body was brought to the General Hospital in his own cab. The body was covered with blood from a gash on the head, and there was a fracture of the skull.

Constable Kavanagh detained two men, Raoul Poliquin and Jos. Phoenix. The explanation was given that five men were passengers in Renaud's cab on a trip to Back River, and that Renaud had fallen from his rig.

Coroner McMahon told the jury that it was their duty to send Poliquin to the police court for further examination.

Sue Quebec Bridge Builders.

Quebec, Sept. 10.—On Saturday, Davidson & Desrineres instituted eight actions against the Phoenixville Bridge Co., builders of the Quebec bridge, the following relatives of the victims being the plaintiffs: Mrs. Callaghan, $15,000; Mrs. J. Bowen, $15,000; Mrs. J. K. Wordby, $20,000; Theo. P. Hardy, $12,000; Frank Proulx, $12,000; A. L. Joseph, C. Bureau, Mrs. Joseph A. Joneas, Mrs. Alfred Smith, $15,000.

The body of J. L. Wordby, assistant foreman at the Quebec bridge, was recovered Sunday.

Rejects Stolypin's Project.

St. Petersburg, Sept. 10.—Premier Stolypin's project for local self-government, yesterday was rejected by the Zemstvo Congress in Moscow.

The project proposes to replace the communes by small zemstvos, in which persons of all ranks, peasants, priests and landlords, shall co-operate on equal terms, each of these zemstvos exercising police functions.

Good Fishing Season.

Halifax, N. S., Sept. 10.—An unusually good fishing season for the French colony of St. Pierre, Miquelon, has caused great joy. Daily arrivals from the Grand Banks report unlimited quantities of fish, and plenty of bait.

STEAMER STONY LAKE or MAJESTIC

The steamer Stoney Lake will leave Lakefield for the lakes on arrival of the morning train, returning in time to connect with last train for Peterborough.

Steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

MUST PAY ALL DAMAGES

Moroccan Government Held Responsible by French Cabinet.

Indemnities for Massacre, Pillage and Repression of Disorder to Be Fixed by Commission—Germany's Claims Not Likely to Cause Difficulties—Seven Thousand Spanish Troops Held in Readiness.

Paris, Sept. 10.—A special meeting of the Cabinet was held yesterday to consider the Moroccan situation. These conclusions were reached.

(1) The Moroccan Government should be held responsible for the massacre of July 30 at Casablanca, as well as for the damages suffered as a result of the pillage or the repression of disorders.

(2) The indemnities should be fixed by an international commission.

Incidentally this is France's answer to the demands of the German exporters at Casablanca, that France compensate them for the losses they sustained during the bombardment.

The conclusions arrived at are based on the precedent established after the bombardment of Alexandria by the British fleet in 1882.

The Cabinet requested Foreign Minister Pichon to examine the general question of Morocco, and to prepare a note on the subject to be issued as soon as possible.

Must Pay All Damages.

Berlin, Sept. 10.—Germany's reply to the French note relative to the formation of Morocco police from French and Spanish troops, says that Germany assumes that the measure proposed is entirely of provisional character and without prejudice to the terms of the Algeciras convention.

The reply of Germany calls attention to the opinion of the German representative at Tangier, that the appearance of foreign police there and at other Moroccan ports now is likely to [illegible] in the mountain tribes attacking the cities, with consequent danger to the lives and property of Europeans, unless efficient military support for the police is provided.

In regard to the German claims for damages sustained at Casablanca, no difficulties, it is asserted, are likely to arise.

Gibraltar, Sept. 10.—Orders have been received by the Spanish authorities at Algeciras to hold 7,000 men in readiness to embark Sept. 11 for Tangier.

Purely Vegetable.

CURE SICK HEADACHE.

Pure Backing Down.

London, Sept. 10.—(C. A. P.)—Respecting the Newfoundland modus vivendi The Evening Globe says the one solid stipulation worth anything operates against the British. It is that the Imperial Government won't bring into force the provisions of the foreign fishing vessels act. There is no "physically possible" or "reasonable doubt" about that; it is a pure backing down, giving away and throwing overboard of colonial rights.

The Pall Mall Gazette says the Government has been more careful of American susceptibilities than to assure American compliance with British laws.

The Westminster Gazette sees nothing in the modus vivendi prejudicing arbitration.

Cigars Were Smuggled.

Montreal, Sept. 10.—An ingenious method of smuggling cigars into Montreal is under investigation in the police court in connection with the hearing of Maurice Desmares.

It is claimed that boxes of cigars to the number of 10,000 were dropped over the side of incoming steamers into boats which were sent out from St. Helen's Island. These goods were brought over from British and foreign parts by members of the crews, who were evidently in the deal.

In this way the customs officers, who board the steamers at the docks, were avoided.

A Shameful Betrayal.

Ldon, Sept. 10.—The Morning Post declares that the Newfoundland modus vivendi is a shameful betrayal of British honor and Imperial interests, and asks if it does not aggravate the most objectionable features of the 1906 agreement. The Post asks:

"Is there another instance in the whole world of a Government surrendering the right of deciding whether it is 'physically possible' for foreigners entering boundaries of its jurisdiction to conform with its laws."

Wellman Gives Up.

Tromsoe, Norway, Sept. 10.—According to Capt. Isachen, in command of the Norwegian Arctic expedition, which arrived here yesterday, Walter Wellman will probably return here at the end of September, abandoning the attempt to reach the pole in an airship for the present year.

Bishop of Chichester Dead.

London, Sept. 10.—The Bishop of Chichester, the Right Rev. Ernest Roland Wilberforce, D.D., died yesterday at Bembridge, Isle of Wight. He was born in 1840, and was a son of the late Right Rev. Samuel Wilberforce, Bishop of Winchester.

Canada Will Arbitrate.

Ottawa, Sept. 10.—Canada, after negotiations with the Imperial authorities, has consented to refer the Canadian end of the Newfoundland fisheries dispute with the United States, to The Hague conference.

Caledon Victim Delirious.

Flesherton, Sept. 10.—The condition of Andrew Wilson, injured at Caledon on Tuesday last, was not so favorable yesterday. He was delirious at times, while at other times he lay in [illegible]

BRIDGE ENQUIRY OPENS.

Parts of Structure Made by Outside Companies.

Quebec, Sept. 10.—The royal commission, consisting of H. Holgate, J. G. G. Kerry and John Galbraith, appointed to enquire into the cause of the Quebec bridge disaster, opened their investigation yesterday afternoon. Mr. Holgate swore in a couple of stenographers, and, addressing those present, said that it was the intention of himself and his colleagues to make the enquiry as thorough and they would welcome from any source whatever all information as to actual facts pertinent to the investigation. They intended to conduct the examination of witnesses themselves, but would be glad of the assistance of counsel and others appearing for interested parties who might suggest how information might be secured.

Mr. Barnes of Philadelphia said that although Mr. Stuart, K. C., represented the Phoenix Bridge Co., the company would gladly render all the assistance possible.

The company were desirous of the fullest investigation, and if there was anything in possession of the company outside of this jurisdiction which would be useful to the commission it would be at their disposal.

Mr. Davidson, representing the Iron and Steel Bridge Workers' Union, offered all possible assistance and promised to hand in a list of his witnesses to-day.

The only witnesses heard yesterday were Mr. Barthe, secretary of the Quebec Bridge Co., whose evidence was mostly formal, and J. Sterling Deans, who gave the names of the engineers and others responsible for the construction work at Quebec.

The new features of his evidence were the statements that while the Phonix Iron Co. had made all the smaller plates the larger ones had been made by outside mills and the eyebars in Harrisburg. He also said that as an extra measure of precaution, a certain judgment was left to the foremen of the work, which was not usual in such undertakings.

Outside of the engineers already mentioned at the coroner's inquest, the witnesses gave the following list of names of responsible officials of the company on the bridge structure: A. B. Millikam, superintendent of erection work for the Phoenix Bridge Co.; B. A. Ensen, general foreman, and Mr. Matthews, foreman of riveters.

J. M. Oxley Dead.

Toronto, Sept. 10.—Boys the world over will regret to learn of the death of J. Macdonald Oxley of this city, who passed away yesterday. As a contributor to The Boys' Own Paper, his stories of life in the Canadian wilds provided wholesome reading for thousands of juveniles in every clime where the English tongue is spoken.

Mr. Oxley died yesterday in his 53rd year, after a long illness from tuberculosis. He had lived in Toronto since 1900.

Born in Halifax in 1855 and educated at Halifax Grammar School and Dalhousie University, the late Mr. Oxley practiced law in his native city for five years. In 1892 he became manager of the Sun Life Assurance Co., at the head office, Montreal.

He had contributed to over fifty periodicals, including Scribner's, The Forum, North American Review, Cosmopolitan, Youth's Companion and Atlantic Monthly. His articles dealt with a wide range of subjects, in connection chiefly with Canadian history and adventure.

Among the best-known of his two dozen or more books are: "Up Among the Ice Floes," "Diamond Rock," "The Romance of Commerce," and "The Swing by the Sea."

Dr. R. F. Preston Injured.

Carleton Place, Sept. 10.—Dr. R. F. Preston, M. P. P., met with a serious mishap recently while driving home after a professional call. Whether the horse shied or whether in the darkness the wheel got into the hole was not ascertained, but the driver was thrown out unexpectedly upon the road, falling heavily, and although no bones are thought to be broken, he is suffering intense pain in the back and will be laid up for some time.

Whirled Around Shaft.

Sault Ste. Marie, Sept. 10.—Caught by a rapidly revolving shaft while at work in the sawmill of the Lake Superior Corporation, on the Canadian side of the river, yesterday, Tony Gasello, an Italian, was whirled to almost instant death.

When workmen in the vicinity discovered the accident an alarm was immediately given and the machinery stopped. When removed from the shaft the man was breathing his last.

Both Arms Broken.

Peterboro, Sept. 10.—Albert Alfreda, an employe of the Lakefield Portland Cement Works, had a narrow escape from death yesterday.

He was caught on the key of the fast revolving shaft and whirled around several times. A fellow-employe stopped the machinery and Alfreda was released, but both arms were badly fractured. He is in a precarious condition.

Three Die In Hotel Fire.

Charlotte, N. C., Sept. 10.—Fire early yesterday morning destroyed the hotel at Cleveland Springs, N. C., and three persons were burned to death. They are Miss Smith of Ellboro, N. C., and two unidentified negro employes.

Lightning started the fire.

Instantly Killed.

Ottawa, Sept. 10.—Emilien Charron of East Templeton was instantly killed yesterday. He was working in the East Templeton Lumber Co.'s mill yesterday morning, when the hog saw flew from its shaft, striking him on the head.

Must Come Back.

London, Sept. 10.—(C. A. P.)—At Dublin, James A. Robinson was ordered to go back to Winnipeg under the Fugitive Offenders' Act on a charge of fraudulent conversion of $1,000.

Dr. Kenneth N. Mackenzie, aged 23, son of Mrs. Geo. Mackenzie, of St. Thomas, died in Ottawa of diphtheria.

New York Dairy Market.

NEW YORK, Sept. 9.—Butter, strong; receipts, 7741. Creamery, specials, 28c; do., extras, 27½c; do., thirds to firsts, 21c to 27c; state dairy, common to finest, 20c to 26c; process, common to specials, 18c to 24½c, western factory, common to first, 19½c to 22c.

Cheese, strong; receipts, 863. State, full cream, small, colored and white, fine, 13¾c to 14c; do., good, 13c to 13½c; do., common to fair, 11c to 12½c; do., large colored, fine, 13½c; do., white, 13½c to 13¾c; do., common to good, 11c to 13c; skims, 1c to 11½c.

Eggs, steady; receipts, 10,489. State, Pennsylvania and nearby fancy, selected, white, 28c to 30c; good to choice, 24c to 26c; brown and mixed fancy, 24c to 26c; first to extra first, 20c to 23c; western firsts, 21c to 21½c; seconds, 18c to 19½c.

CATTLE MARKETS.

Cables Are Better—Hogs Sharply Lower at United States Markets.

LONDON, Sept. 9.—London cables are firmer at 11½c to 12¾c per lb., dressed weight; refrigerator beef is quoted at 10c per pound.

Toronto Junction Live Stock.

TORONTO JUNCTION, Sept. 9.—Receipts of live stock at the Union Stock Yards, were 1906 cattle, 150 sheep, and 18 calves.

Exporters.

The bulk of the best exporters sold around $5 per cwt., one load, however, of choice cattle sold at $5.25 per cwt.; light medium exporters sold from $4.10 to $4.75. Bulls sold from $3.75 to $4.25 per cwt.

Butchers.

Best butchers' heifers—picked lots—for the local market sold at $4.75 to $5; two lots, $9 and $4 each, were sold by McDonald and Maybee, to Saunders and Newsome, Charlottetown, P. E. I., at $5.40 and $5.50 per cwt. respectively, but they were of as good quality, if not better, than any exporters offered; loads of good butchers sold at $4.25 to $4.60; medium, $3.75 to $4; common, $3.25 to $3.50; canners, $1 to $1.50; cows, at $2 to $3.75 per cwt.

Milch Cows.

About 25 milkers and springers sold at $30 to $60 or an average of $45 for those of fair to good quality.

Feeders and Stockers.

None on sale, but Lunness and Halligan reported that they were open to buy for distillery feeding.

Veal Calves.

Prices were unchanged at $3.50 to $6 per cwt.

Sheep and Lambs.

Export ewes sold at $4.25 to $4.40; lambs at $5 to $6 per cwt.

Hogs.

H. P. Kennedy reports $6.25 for selects, and $6 for lights and fats.

Montreal Live Stock.

MONTREAL, Sept. 9.—(Special.)—The Montreal Stock Yards, west end market, receipts of live stock for the week ending Sept. 7, were 2336 cattle, 2783 sheep and lambs, 4706 hogs and 363 calves, while the supply of local consumption this morning, consisted of 900 cattle, 800 sheep and lambs, 1800 hogs and 200 calves. There were no new developments in the market for cattle since this day week, but the feeling has remained firm at the last advance in prices, owing to the fact that supplies coming forward are smaller, the offerings this morning being 300 head less than a week ago, which had a tendency to strengthen the situation and the prospects are if supplies do not increase to any extent and the present favorable weather continues higher values may rule in the near future. The demand from local and outside buyers was good and an active trade was done in this respect, but business for export account was quiet, as shippers generally had sufficient stock coming forward to fill their freight contracts. Cables from Liverpool on Saturday were firmer in tone, owing to short supplies, but prices show no change from a week ago. Sales of choice beeves were made here at 5c to 5¼c; good at 4½c to 4¾c; fair, at 4c to 4¼c, and lower grades, at 2½c to 3½c per lb. A stronger feeling prevailed in the market for lambs at the latter end of last week, owing to short supplies and prices advanced with sales, at 6⅝c per lb., but as receipts to-day were larger and ample to fill all requirements the above improvement in values was not maintained as the competition between buyers was not so keen, but a good trade was done at 6c to 6¼c per lb. The demand for sheep for export account continues good and as the offerings are comparatively small prices rule steady, with sales at 4c to 4½c per lb. There continues to be a weak feeling in the hog situation and prices show a further decline of 25c per cwt., since this day week. This is attributed principally to the continued weakness in the European markets for Canadian bacon, as cable advices on Saturday from London and Bristol noted a further reduction in prices of a week ago, and the prospects are that values for hogs here will go still lower by the end of the week. At the above reduction there was a fair demand and sales of selected lots were made at $6.50 to $6.60 per cwt., weighed off cars.

East Buffalo Cattle Market.

EAST BUFFALO, Sept. 9.—Cattle—Receipts, 5200 head; strong to 10c higher on good; common, prime steers, $6.25 to $6.75; shipping, $5.50 to $6.15; butchers', $4.50 to $5.75; heifers, $3.60 to $5.50; cows, $3 to $4.60; bulls, $2.75 to $4.60; stockers and feeders, $2.75 to $4.25; stock heifers, $2.50 to $3.50; fresh cows and springers, strong.

Hogs—Receipts, 14,500 head; fairly active; 15c to 20c lower; heavy, $6.50 to $6.75; mixed, $6.80 to $7; yorkers, $7 to $7.10; pigs, $6.75 to $6.90; roughs, $5.25 to $5.50; stags, $4 to $4.75; dairies, $6.25 to $6.85.

Sheep—Receipts, 12,400 head; active; common lambs, slow; lambs, $5 to $7.35; a few, $8; yearlings, $5.75 to $6; wethers, $5.50 to $5.75; ewes, $4.50 to $5; sheep, mixed, $2.50 to $5.25.

Carl Mattern, a German, employed in the C.P.R. shops at Winnipeg was killed by a crane hook on Saturday.

Many Guests at Burleigh Falls

Things are Now Quiet at the Lakes—Trip on "Idaho"

Messrs. Chas. Cavanagh and Jack Fraser spent Sunday and Monday at Stony Lake. They left Saturday evening in their handsome launch, the "Idaho," and made the trip up the Canal to the Victoria House, McCracken's Landing. They report everything very quiet at the lakes, the cottagers having nearly all returned home. The dances at the pavilion have ceased, but the Juniper Island store is still open. It closes next week.

The "Park" hotel at Burleigh Falls is the liveliest spot on the lakes. At present there are forty-one guests chiefly Americans, at this resort. They are remaining late for the fishing and duck shooting. The weather is very fine and there is no better time to spend a holiday than the beautiful balmy September days.

Horse Stolen From Caledonia

Local Police Are on the Outlook

The local police have received notice from Hamilton, that a bay mare, 15 1-2 hands high, with white spot on forehead and small lump on right fore leg at the knee joint, together with a black top buggy, the property of James Johnston, Caledonia, was stolen on the 9th inst. Anyone seeing a horse and buggy answering the above description, will oblige Chief Roszel by communicating with him at once.

Game Being Shot Out of Season

Open Season for Partridge Does Not Open Until Sept. 15th

It is reported that considerable illegal shooting of partridge and several other varieties of game, is going on in the country surrounding Peterborough. For the benefit of local hunters it may be stated that the open season for partridge does not begin until Sept. 15th. Any infractions of the law will be severely punished, if apprehended. The open season for snipe, plovers and sand pipers, opened on the first of September. There is a heavy fine for the infraction of the game laws and the inspectors intend to see that they are observed.

New Orders as to Drill Halls

Cannot be Used Except for Military Purposes

The following notice, which appears in recent militia orders, will be of interest here;—

"It is notified for the information of all concerned, that the use of armories for purposes other than military, will be permitted only under circumstances of a most exceptional nature, and on no occasion if another hall suitable for the purpose for which the armory is required is available."

This means that no fairs, bazars, etc., can be held in the local drill shed.

The Semi-Annual Opening of the J. C. Turnbull Co.'s Ready-to-wear Millinery, Coats, Skirts, Blouses, etc., takes place on Thursday, Sept. 12th, when they will make a showing of all the latest styles in the above lines.

Murdered in Her Home by Burglar

Tragic Fate of Woman at Norfolk, Va.

Special to the Review.

Norfolk, Va., Sept. 10.—Mrs. Mary Lawless Boroschach, wife of Lieut. Frank Ro[illegible], U.S. navy, and sister of Joseph Lawless, former secretary of the Commonwealth of Virginia, was murdered in her home in Portsmouth by an unknown burglar early to-day.

ONE PAIR OF EYES
FOR A LIFETIME

This is the reason we look upon the proper examination of the eyes as a serious thing. If you come to us you can come with the ful full assurance that you will be told whether you need glasses or not.

We are not in business to "sell glasses." The retention of your patronage and of your commendation are far more valuable to us.

Determining errors of refraction and fitting the proper spectacles and eyeglasses to correct these errors is our whole business.

All our work is guaranteed.

Annual Meeting Thursday Next

A Large Turnout is Looked for—"Doc" Shaw May Come Back

The annual meeting of the Rugby Club will be held on Thursday next at the Oriental at 7.45, when the officers for the ensuing year will be elected. Everybody interested, whether from an enthusiast's or player's standpoint, is asked to be on hand. In spite of rumors early in the season, that there was apparently not much material for a good team, those interested, are taking an optimistic view of affairs, and it is thought a strong aggregation can be formed. New players will be given every opportunity to catch a place on the lineup and there is a possibility of securing the services of the incomparable "Doc." Shaw. "Doc' is a tower of strength to any team and his doughty booting will help a great deal, should he come back again.

Directors Meet On Thursday

The directors of the exhibition will meet at Storey & Leary's at 7.30 on Thursday evening next. Every director is asked to be present, as the business will be of an important nature in view of the short time left before the exhibition will be opened.

Judgment in Tobacco Case

Will be Appealed by M. Pappas Who Was Fined $25 for Selling to a Minor

The decision of Police Magistrate Dumble, given in the police court on Saturday last, in the case against M. Pappas for selling tobacco to a minor will be appealled andd proceedings will be taken at once.

Mr. Pappas' states that Mr. Dumble's judgment, in fining him twenty five dollars is quite unfair. He states that it was not proven that the dope was purchased at his store. When every employee of his was brought to court, Reynolds, to whom it was alleged was sold tobacco, did not identify one of them. Mr. Pappas states that Reynolds himself admitted that he was drunk and naturally could not remember who sold him the tobacco. There is good reason for instituting an appeal and it will likely be heard at an early date.

BIRTH

Contracts for New Park St. Church to be Let at Once

Will Cost About $15,000—Building Committee Considered Plans and Specifications Last Might.

The plans and specifications for the Park street Baptist church, arrived yesterday, and were considered at a full meeting of the Building Committee last night. It was a long session, lasting till 11.45.

In the completed plans the church is a perfect picture. The architect has figured on a $10,000 or ten dollar basis for the building, so that when the plumbing, wiring, lighting and furnace, etc., are in, the entire cost will not exceed $15,000. Advertisements for building tenders will be out tomorrow. Tenders may be submitted for the work in bulk, or in parts, as follows:

Stone work for foundation and basement wall, up to the brick work. Then brick work distinct, also carpenter's work, etc. The plans and specifications may be seen any time from today, at the Y.M.C.A.

It was decided to employ Mr. Shear to remove the old building immediately, and steps will be taken for the ceremony of breaking the ground at an early date.

A sub-committee was appointed to draw up advertisements to appear in tomorrow's papers.

Lieut-Col. Miller to Retire From Command This Month

And Will be Succeded as Commanding Officer of the 57th Regiment by Major Arthur Stevenson—Other Changes as a Result.

Lieut.-Col. Miller this month resigns the command of the 57th Regiment, Peterborough Rangers, his five year tenure of office expiring. The colonel is sending his resignation to headquarters at Ottawa and recommending as his successor, Major Arthur Stevenson, who is next in line for the position of commanding officer. As a result of the transfer of Colonel Miller to the Officers Reserve there will be several changes in the rank of the officers of the regiment. Major Clegg, now junior major, will replace Major Stevenson, as senior major, and Capt. G. W. Bennett will become junior major, replacing Major Clegg. It has not yet been announced who will succeed the captaincy to be vacated by Captain Bennett, but there will be several changes all down the line as a result.

LIEUT-COL. MILLER
Who Retires From Command of 57th Regiment This Month

Col. Miller's retirement will be learned ofwith regret by the members of the regiment, as he was a capable, painstaking and obliging officer, and a big improvement has been made in the regiment since he took control five years ago. He has worked hard in the interests of the corps and neglected no opportunity to promote its advancement.

Major Stevenson, who will be the new commanding officer, will no doubt make a worthy successor to Col. Miller. He is an enthusiastic military man, and possesses all the qualities that go to make a successful commanding officer. He is popular with both officers and men and has plenty of energy and enthusiasm.

Considerable Excitement Over Question of Isolation Hospital

Has Been Aroused in Belleville—Paragraph in a Paper About Reported Isolation Hospital in Peterborough the Cause of a Little Stir.

Peterborough's isolation hospital is still in the air. It has been talked of for many, many moons, but nothing definite definite beyond the plans of a proposed $6,000 structure being formally approved by the Board of Health has ever been done, and the question at present seems to be in a state of "inocuous desuetude," as ex-President Grover Cleveland would say.

Arising out of all this, the following from the Belleville Intelligencer will be read with much local interest;—

The Intelligencer was called up on the telephone the other day by Dr. Yeomans, Medical Health Officer.

"Do you wish," he said, to correct a statement which appeared in your columns some time ago, in regard to an isolation hospital in Peterborough?"

"What was it?" he was asked.

"You claimed," was the reply, "that Peterborough had an isolation hospital, which cost only five or six thousand dollars."

"Never did anything of the kind," said the Intelligencer. "Good afternoon."

Since then the story has been set afloat that the Intelligencer had said Peterborough had an isolation hospital, up-to-date, which cost $5,000, whereas, in reality, Peterborough has no isolation hospital at all, and would like to look over Belleville's plans! Now, let us explain this matter:

The following paragraph appeared in this column on Friday, July 26th:

"Belleville is to have a $10,000 isolation hospital. We note by a Peterborough paper that Peterborough is thinking of building a $6,000 hospital. Strange. But then, of course, as Peterborough's population is some 5,000 larger than ours, they will not need so large a building. What do we care for expense, anyhow!"

How any supposedly sensible man could read the above and then spread the report that the Intelligencer claimed there has been an up-to-date isolation hospital built in Peterborough at a cost of $5,000 more than we can understand. It must have been caused by mendacity or stupidity. Or both.

The story, of course, would not be worth noticing were it not for the fact that it rather impeaches our veracity, and, inasmuch as this great family journal is NOT affiliated with the same political party as the Medical Health Officer, veracity is one of the things we pride ourselves on.

The reader will see from the extract reproduced from the Intelligencer that we made no statements in regard to Peterborough isolation hospital, other than what was based upon a statement made by a Peterborough journal. It would be well for Dr. Yeomans, and those whom he inspires, to in future know what they are talking about before opening their mouths. Let us hope his proprofessional knowledge is more accurate than his knowledge of what appears in the Intelligencer.

Supt. Tiffin Visits the City

On Tour of Inspection—Left for Belleville This Afternoon

Mr. W. R. Tiffin, superintendent of the northern division of the Grand Trunk Railway, was in the city today on a tour of inspection of the yards and buildings of the company. He came in his own private car, attached to the Port Hope train this morning. He immediately left on the 8.30 for Lakefield, and returned on the 10 o'clock train from the northern village. He left this afternoon for Belleville and intermediate points.

Slight Accident at Cordage Works

Edward Duffy Received Cut in the Head Yesterday

Edward Duffy, a young man who boards at the City hotel and works at the Cordage company, was the victim of an accident yesterday morning. He was fixing a piece of machinery at the factory and in some way received a bad gash in the head. He had to go to a doctor's to have the injury dressed, but has commenced work again.

Ten Hour Day Is Resumed

Canadian Cord. Co's. Power House in Working Order

The Canadian Cordage Co. have resumed their ten hour day. For some time past employees have been working for eight hours owing to trouble with the company's power house, and power had to be obtained from the Peterborough Light & Power Co., and when the light went on in stores and houses the large amount of power required by the Cordage Co. could not be spared. Now the firm's power plant is in perfect order, hence the resumption of the ten hour day.

WEDDING BELLS

MORMAN—HARWOOD

A quiet wedding was solemnized last evening at the George-st. Methodist parsonage, when Miss Clara Harwood, daughter of Mr. Geo Harwood, of Leamington, Eng., was united in marriage to Mr. Edwin Norman of this city. The ceremony was performed by Rev. E. A. Pearson, and Mr. and Mrs. Wm. Taylor were the only friends present. The bride just arrived from Enngland yesterday, but the groom has been out here since spring. Both were residents of Leamington, Eng.

Mr. and Mrs. Norman will reside in the city.

MEETING WAS INTERESTING

Park St. Young People Hear an Excellent Address

Last night was a busy one at the Park street Baptist church. The finance committee, the building committee, special meeting, and the B. Y.P.U. session. The latter was of more than ordinary interest, being the first of a series of addresses on the attributes of God, given by Rev. A. H. Brace.

It was decided on motion to unite with the Baptist Young People's Societies of the district, and attend in a body, the rally on Monday next at Murray street church.

Mr. Chas. Barrie was appointed to represent Park street church in a short address.

Mr. L. Brace was appointed vice-president to the end of term.

Fall Assizes Open Sept. 30th

The Fall Assizes, Non-Jury Sittings will open at the Court House on Monday, September 30th, before Hon. Mr. Justice McMahon. The Non-Jury Sittings will be held on November 21st, before Hon. Mr. Jusitce Mabee.

PARK ST. CHURCH

The Ladies' Mission Circle will meet tonight in the Park Street Baptist church. Miss M. Mann in the chair.

A public service will be held on Wednesdaay night, under the direction of the pastor. Subject, "Life More Abundant."

On Thursday night, the Quarterly Business meeting will be held when reports from all departments of church work, will be submitted.

An Excursion to Fenelon Falls

The steamer Otonabee left Lakefield to-day with a large number on board bound for Fenelon Falls. The excursion will last two days. It is under the auspices of the farmers of North Dummer and a most enjoyable outing is looked forward to.

Score of Deaths In Switzerland

ROY

Burning Out of A Transformer

Caused Some Excitement on Hunter Street

The burning out of a transformer on one of the poles of the Peterborough Light & Power Company in front of Lynch's drug store, on Hunter street, caused considerable excitement about eight o'clock last night. The blaze continued for about fifteen minutes and a big crown gathered around. The only danger was that the post might take fire, but this did not occur. The lights in the Oriental hotel and several other establishments in the vicinity were out for a time. Repairs were soon made.

LOST

If your clothing has **LOST** its newness send it to "My Valet" and have it Cleaned and Pressed to look like new.

204 Charlotte St. Both Telephones

THE CITY AND VICINITY

EVENTS TO-NIGHT

City Hall—Fire, Water and Light Committee.

Y.M.C.A. hall—Rough Riders football club reorganizes.

Salvation Army Barracks—Illustrated lecture by Capt. Hurd.

FLOUR UP.

Flour has increased 50c a barrel and is now $5.50. It is likely to increase in price so the dealers say.

HOUSE SOLD.

Mr. Clarence Fitzgerald yesterday sold his brick house on George street north, to Mr. F. F. Garden, proprietor of the Garden Printing Co.

AT CASTLE NESBITT.

There are twelve inmates in the county gaol at present. This is about the usual number at this season of the year.

INDUSTRIAL SALE

The Women's Guild and Girls' Guild of All Saint's church will hold an Industrial Sale the third week in December. Further particulars will be given later.

SALE AND ENTERTAINMENT

The Mission Band of Mark street Methodist church met yesterday afternoon in the basement of the church. A large number were present and the president, Mrs. Throop, was in the chair. The band decided to hold a sale and entertainment on November 3rd.

WILL TEACH

Mr. Cecil Carl Forsyth, formerly of Peterborough, will commence a class in the rudiments of music on Saturday morning, Sept. 14th. This class will take up the course required for the first examination in Theory at the Toronto musical institutions, and will be free to all vocal and piano pupils of Mr. Forsyth.—Lindsay Post.

EVERY DAY

Until Oct. 31st, there are special one way colonist rates in effect to points in California, Montana, British Columbia, Oregon, Utah, and Washington, via the Grand Trunk. Full particulars as to rates and routes call on Mr. Bunton, representative of the Grand Trunk in Peterborough.

LAKE-ST. SCHOOL.

The Lake street Separate school will, it is expected, re-open on Monday next. The new addition and alterations will be completed by that date.

FUNERAL TODAY

The funeral of the late Dean O'Connor takes place this evening on the arrival of the G.T.R. train from Port Hope, to the Roman Catholic Cemetery. Archbishop Gauthier will officiate at the grave.

WILL SPEAK.

Rev. Dr. Tuffts, who preached at St. Paul's last Sunday, will remain for the prayer meeting Wednesday night at eight o'clock. He will deliver an address, his topic being "Seeing Face to Face." Dr. Tuffts is an eloquent and forceful speaker.

IT IS STRANGE.

Peterborough has an epidemic of typhoid fever, yet we hear no complaints of their water supply. Belleville's water supply is condemned by our $300 a year medical health officer, yet local doctors says Belleville people are distressingly healthy. Strange!—Belleville Intelligencer.

ARM WAS CUT

Alex Henthorne employed on the building of the new steel boat which is being constructed by the Polson Iron Works, of Toronto, received a bad gash in his right arm yesterday afternoon. He, with another employee, were carrying a piece of sheet iron, and in some way it fell on young Henthorne's arm. The wound was at once attended to, and, fortunately Mr. Henthorne will not be kept from his work.

SOCIAL EVENING

The Social Committee had charge of the Epworth League meeting at George street church last evening, and a very pleasant time was spent. The attendance was one of the largest there has been for some time. Mr McCann, convenor of the Social Committee, was in the chair. The first part of the evening's programme was given to social games, and some very novel and interesting ones were played. Vocal solos were also given by Miss Evelyn Chasty and Mr. Taylor, which were much enjoyed. Cake and ice cream was served, and the evening was brought to a close by the singing of the National Anthem.

PERSONAL

Mrs. R. G. McCulloch, Ludlow Court, River avenue, will receive this afternoon from 4 to 6 for her mother, Mrs. A. McFarlane, of Peterborough, Ont.—Winnipeg Free Press.

Mr John M. Laing, who has been purser on the steamer Caspian during the past season, plying between Kingston, Port Hope and Charlotte, has returned to the city.

Miss Agnes Mercier, of Rochester, N.Y., who has been the guest of her mother, Mrs. N. Mercier, Burnham street, for the past several weeks, returned home yesterday.

Mr. and Mrs. Jas. Acton, and Miss Acton, of Toronto, who have been summering at their cottage at Stony Lake, returned home to-day. They spent the day the guests of Mrs. H. Thompson, Hunter-st.

Mr. and Mrs. John McCrae, of Omemee, were in the city today attending the funeral of the late James Ames, 181 Edinburgh street, which took place this afternoon.

Mr. George K. Martin, inspector of the Imperial Guarantee and Accident Insurance Company of Canada, left to-day for New Brunswick and Nova Scotia on a business trip. He will be absent two months.

The local clergy of the Church of England have received invitations from His Grace, the Archbishop of Toronto, to meet the Right Hon. and Right Rev., the Bishop of London, at a garden party to be held next Saturday at Trinity College.

Mr. Thomas Begley of the Peterborough Trades and Labor Council, left to-day for the West. He will attend the annual convention of the Dominion Trades and Labor Congress in Winnipeg, being the delegate from Peterborough. He will be absent about two weeks.

Captain Guy Rogers, of the 11th Rajputs, India, who has been home on furlough and spending a month with his father, Lt.-Col. H. C. Rogers, left last week for Quebec. He sailed on the 'Empress of Ireland' for England, where he will stay three or four weeks before rejoining his regiment of which he is adjutant, in India.

Mr. Arthur Spellman, proprietor of the Clarrendon House, at Hastings, a popular tourist resort, spent Sunday at the Simpson House, being accompanied by Mrs. Spellman. They have been making a tour of the Kawartha Lakes, spending a few days at Stony Lake, Burleigh, Buckhorn and Bobcaygeon, the latter being Mr. Spellman's boyhood home.—Lindsay Post.

Crop Reports From All Over the World

Poor Progress With Harvest in Great Britain—Big Yield in Italy

Special to J. R. Heintz & Co.

Liverpool, Sept. 10. — Broomhall's weekly foreign crop report says;

United Kingdom. —The weather is favorable, but reports indicate that poor progress has been made in harvesting during the past week. Supplies are very small.

France.—Latest reports confirm a good outlook for the crop. Markets are steadier.

Germany.— The harvesting of wheat has made slow progress, and supplies are extremely small. The demand for foreign grain continues good. The condition of rye continues unsatisfactory and the anxiety regarding a failure of potato crop is increasing.

Hungary. —Favorable rains have fallen, which are beneficial for the corn crop, but this crop has, however, been damaged, but a fair yield is expected.

Roumania.—The corn crop this year will be a short one.

Russia.— There are continued disappointing threshing returns, but our own advices are less unfavorable than others. The weather for oats in the north region continues unfavorable and the seeding of new oats is delayed. The outlook for corn is generally unfavorable.

Italy. —Our correspondent estimates that the wheat crop this year will amount to 32,000,000 more than last year. The crop of 1906 was 161,000,000.

Algeria. —The crop outlook is disappointing.

Standing Trial This Afternoon

J. R. Dundas, who was committed for trial by His Worship Magistrate Dumble at the police court last week on the charge of forging the name of Ald. W. J. Johnston, to a Bank of Ottawa cheque for $15, is today having his trial at the court house. He elected to be tried by Judge Weller and pleaded not guilty. The trial started at three o'clock and Crown Attorney R. E. Wood is conducting the prosecution.

Special Train for Big Game To be Played on Saturday

The sporting attraction of the season in local circles is the championship baseball match at Cobourg on Saturday, between Peterborough and Port Hope. The game decides the championship of the league, each team having won and lost in the first two matches of the final series.

Arrangements were completed today for a special train from Peterborough to Cobourg and the exceptionally low rate of 85c for the return trip has been secured. The train will leave Peterborough at 1.30 o'clock and returning will leave Cobourg at 7.30. This will give plenty of time to have tea after the match and to have a stroll around the town and incidentally it might be stated that Cobourg is one of the prettiest towns in Canada. The Peterborough team for this all important match will be practically the same as last Saturday. Clements will do the twirling and there may be one change in the lineup. It is altogether likely that Manager Crawford will strengthen his aggregation as several weak spots were disclosed in last Saturday's game. A new man will likely replace Brittain at shortstop while Benson and Brown will in all probability be replaced. Brittain had three costly errors on Saturday and Benson and Brown are rather weak with the hickory.

A big crowd will accompany the Peterborough team and the Port Hopers will have the whole town along with them. It is estimated that there will be about 2000 people in attendance and a great contest is assured. Walsh, of Toronto, will handle the indicator, which is an assurance that fair decisions will be given.

Port Hope wanted to have the game played at Diamond Park, Toronto, but have decided to stick to the original agreement to play at Cobourg.

It will be the greatest game played in the Midland league and no matter which team wins they will deserve their victory.

How Port Hope Viewed the Game

Guide Says That Eastern League Ball Was Played

The Port Hope Guide has the following report of Saturday's game, which will be read with interest here:

In the second of a series of three games for the championship of the Midland League, Peterborough defeated Port Hope here on Saturday by a score of 6 to 3. This places the two teams a tie for the leadership of the League, Port Hope having won in Peterborough the week previous. And now a lot of people are confident that the games were fixed. There are many of those "didn't I tell you" fellows about the street today. They were on the inside and knew all about it. We have endeavored to convince the people that the games were being played fairly and squarely, and more on this subject is needless. All we can add is that any person who witnessed the game and is still of the opinion that it was fixed, knows very little about baseball.

The game was one of the best ever witnessed on the local diamond and probably the fastest ever played in the Midland League. It was a hard-fought contest between two evenly matched teams, and notwithstanding the defeat of the local team it was a great game to follow, and all were well pleased with the exhibition. Both teams entered the game with a determination, and every man was on the jump.

We do not wish to lessen the glory of Peterborough's victory in any way, but they won on Saturday because they were lucky. Cheatham's backhand catch of O'Neil's drive in the fifth making a double play and retiring the side, was pure luck and robbed Port Hope of two runs. Then Umpire Walsh's mistake in the eighth innings was disastrous. Burridge bunted to Surphlis and Hickey was on second; Surphlis made an attempt to throw to first, but turned quickly and threw to third and caught Hickey. Walsh was watching first bag and did not see the play, and called Hickey safe. In this unfortunate innings Peterborough tallied two after the side should have been retired. But such is the fortune of war and in the game at Peterborough the week prior, Port Hope had the luck, otherwise the score might have been different. Take away all these lucky strokes and follow these teams closely, and you will find they are very evenly matched. We have the best slab artist, and with all the importations of 1907, we have not seen Surphlis' equal. But the Peterborough nine have the advantage in base running by a large margin. And just here we might say that the dumb base running of Port Hope had much to do with the losing of the game. Time and again with only one man gone, they would start the base stealing game, only to be caught. Harry Burridge is too fast for the chances which Port Hope were taking. Bill O'Brien stole third neat and clean, but Bill is a runner and knows when to go. O'Brien is the man to do the coaching on the first base line, and if runners take his instructions, things will work much better.

But so much for the fault finding and let us look on the bright side. It was Eastern League ball, yes, just as fast as you will see in the Eastern. A great battle between eighteen of the best amateur men of this province. And better than all, it is not over yet. There will be one more game, upon the result of which hangs the fate of the silver mug.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher

Prof. Murray McNeill, assistant professor of mathematics at McGill, goes to Dalhousie to take the chair in mathematics.

WRESTLING

"About the biggest cinch I ever struck," said George Gauthier, the other night, "was when Lorne Galloway and a pal of his, made an offer in Lindsay to give anybody fifty dollars who could stay with him for a certain length of time on the mat. Nobody in Lindsay had the nerve to go on, and as I heard about his game just the day before the affair was to be pulled off, I slipped up and when they came out on the stage with their offer, which they thought no one would take up. As I had thrown Galloway at the opera house here, he was rather surprised when I walked up from the audience. I threw both him and his partner, and then went to the box office and asked for my fifty. They had only taken in a little over $48, so I got the entire receipts of the night and took the next train home. Asked as to whether he intended to stay in the wrestling game, Gauthier declared he had quit it for good.

URF

This is work out day at the Driving Park, and the horses are rounding into good shape for the fairs. Hazel Bell, 2.24; Black Cloud, green, and Peggy, 2.29 1-2, are the string being exercised today.

A HORSEMAN'S COMPLAINT.

A prominent turfman said this morning that the local horsemen have not been supplied with any notices or literature of any kind, regarding the speeding events at the coming exhibition.

"You see," said he, "if we do not have a working knowledge of the particular events, we are considerably at sea ourselves, and not in a position to supply any information to our brother horsemen in other towns."

He was of the opinion that the turfmen should be supplied with the necessary information.

THE BIGGEST HORSE.

Nebraska Queen, the largest mare on earth, is a product of the breeding farm of S. E. Sparks, at Falls City, Neb. Mr. Sparks is to the horse world, what Burbank, the noted Californian, is to the world of vegetables and fruit. It is his purpose to make two big horses grow where one little one grew, and he is doing it. He has raised a number of large horses, but none so large and perfect, as Nebraska Queen. She is 20.1 hands high, eleven feet eight inches in girth, thirty-two inches length of head, nine feet three inches in girth, forty-two inch shoulder, twenty-inch throat, eighty-inch collar and weighs over 2,600 pounds. She is perfect in every proportion, kind, gentle, and intelligent, of beautiful color, and is truly a model horse.

LONGBOAT MAY GIVE EXHIBITION

At Charlotte St. Roller Rink—Management Endeavoring to Secure Him

The management of the Charlotte street roller rink, are endeavoring to secure Tom Longboat, the famous Indian runner, to come to this city and give an exhibition at the roller rink. Arrangements are now under way, and Mr. Sheridan expects that he will come some evening within the next couple of weeks.

There are many in this city who would like to see Longboat, and the move on the part of the management to secure him will no doubt be greatly appreciated by a large number.

A band concert at the roller rink is announced for Friday evening of this week. This is something new in the line of entertainment. The band will play twenty-four selections, that is twice as many as any other night.

Mrs. Mary McQuillan, of Hamilton, widow of the late Robert McQuillan is dead, aged 87.

The New Year of the Jews Fittingly Observed Here

For the First Time in the History of Peterborough—A Day of Great Importance Among the Hebrew People.

Yesterday was the Hebrew New Year and for the first time in the history of Peterborough it was observed here. The Jewish families of this city are those of Messrs. Lastar, Florence and Low, but as it requires the presence of 10 males over the age of 13 years to fittingly observe and solemnize the New Year, and as there are not a sufficient number of Jewish belief in this city to carry out the celebration of the day in the orthodox way two Hebrew gentlemen from Toronto, Mr. Jack Lastar, Mr. B. Lastar's brother, and Mr. J. Book, Mr. Lastar's brother-in-law, came to Peterborough for the occasion, the latter bringing his wife and family also. Rev. Garfengle, a Hebrew divine, also from the Queen City, lead in prayer and praise services.

The occasion of the Jewish New Year is an auspicious one and has been observed by the Jews ever since the time of Moses.

Next Wednesday is also an important day among the Hebrews and is known as a "day of atonement" true believers in the Jewish faith abstaining from either food or water for a period of 26 hours.

There is nothing in the nature of a gala day in connection with the Jewish New Year and "day of atonement," but they are considered very solemn and in fact sacred occasions.

Father and Child Passed Away Within a Very Few Hours

Scarlet fever on Friday carried off Mr. John H. Butler, and his little daughter, Beatrice Kathleen, of 1,888 Brunswick avenue, Toronto. Mr. Butler was a cousin of Mrs. Adam Dawson, of Peterborough, and was well known here. The child, who was three years old, died early in the morning, and the father succumbed at seven o'clock last evening. Mr. Butler was an old and trusted employee of the Gowans, Kent firm, Toronto. He was on the road representing his firm last week, and on Saturday attended the exhibition. After church Sunday evening he complained of sickness, and on arriving at home found his daughter Beatrice also ill. The house was quarantined next day by the Health Department when it was learned that the patients were suffering from scarlet fever.

The funeral of the little girl was held yesterday afternoon. The health officers refused to allow Rev. Canon Macnab, who conducted the service, to venture further than the door. The remains of Mr. Butler were laid to rest Saturday morning at Mount Pleasant cemetery, Toronto.

A widow and three daughters survive Mr. Butler, and he also leaves three brothers, R. J. Butler, Hamilton; Alex. Butler, grain merchant in the city, and Harry Butler, also a traveller, in this city.

The deceased was a Mason and a well known member of the Dominion Lodge, C.O.F.

Woodmen of the World Will Unveil Monuments on Sunday

Impresive Ceremony Will Take Place at Little Lake Cemetery—Tributes to Late Sovereigns Richard Foster and Fred Wyatt—Noted Members of Order Will Take Part.

A beautiful and impressive ceremony will take place at Little Lake cemetery on Sunday afternoon next, Sept. 15th, at the hour of three o'clock, when the members of Sherwood Forest Camp, No. 50, Woodmen of the World, will unveil two handsome granite monuments, erected by the Order, and dedicated to the memory of the late Sovereigns, Richard Foster and Fred. Wyatt.

A large attendance of Sovereigns is expected. The ceremony is a solemn and touching one.

Among the visitors of prominence who will be present and take part in the unveiling will be C. C. Hodgins, M.P.P., of Lucan, Head Counsel Commander; W. C. Fitzgerald, of London, Head Clerk; C. Cinnamon, of Lindsay, Head Advisor; L. H. Taylor, of Brantford, Head Manager; Deputies J. F. Millar, of London; R. Copeland, of Millbrook, and others.

The members of Sherwood Forest Camp will meet at their hall, on Sunday afternoon at 2.30 o'clock, and march to the cemetery in a body, the meeting taking place at three o'clock. The public is cordially invited to attend.

Young People of St. Luke's Will Form an Association

Question Discussed at Meeting of Young Men's Guild Last Night—The Rector Strongly Favors the Plan—Meeting Called for September 20th to Take Active Steps.

The first meeting, after the holidays, of the Men's Guild of St. Luke's church, was held last night. It was attended by a large number of young men, who are determined to make a a success of what they will undertake. Mr. H. C. M. Potter, the president, was in the chair. Rev. Dr. Langfeldt opened the meeting with devotional exercises. The regular business was transacted, reports presented, and practical work discussed. The rector, being called upon, suggested that the young people set to work and form an Anglican Young People's Association. This led to an expression of opinion of all present, and the outcome of it was, that a meeting be held on Friday, September 20, to be attended by all the young men and women of the congregation, to form the A.Y.P.A. In the meantime, the rector will gather information on the subject, and it is hoped that the young people will take this matter up and support the formation of this society. Wherever the A.Y.P.A. has been formed, it has been a success. The principles and aims of this Association are; "Worship, Work, Fellowship, Edification." Weekly meetings will be held, which will be of alternately, of a religious, social, or literary character. The evenings will be spent in the study of religious subjects, debates, essays, papers, scientific and musical subjects, and the pursuit of social intercourse. One of the rules of the A.Y.P.A. is "Honor all men, love the Brotherhood, fear God, honor the King

C.P.R. Engine and Two Cars Left the Rails at Franktown

Late on Saturday night the C.P.R. train which left Ottawa at 11 p.m. was derailed at the small station of Franktown, between Carleton Place and Smith's Falls. The engine, the express and baggage and mail cars, all left the track, and were piled up in the ditch. The engine and tender were on their sides, and the end of the baggage was broken by coming into contact with the tender of the engine. No one was seriously injured, although the people in the Pullman car were thrown out of their berths onto the floor. The engineer and fireman escaped without injury, by jumping.

An engine was sent from Smith's Falls to convey the passenger cars to that station, where a special train was made up and the passenger cars were sent on to Toronto.

The coupling breaking saved the passenger cars from following the engine into the ditch. The cause of the accident is unknown.

There were several Peterborough people on the train, returning from points east, where they had been visiting and on business.

Work on Catholic Church Not to Commence Till Spring

The Review was informed from a reliable source today that work on the new Catholic church, to be erected at the corner of Aylmer and Romaine streets, would not be commenced until next spring. Owing to delay in getting the plans just as they were wanted, and several other matters that required attention, it was found impossible to get the work under way anyways early this season and to start now would mean that the building would have to be left in an unroofed condition during the winter, which is not advisable.

The plans are now complete, however, and the tenders will be awarded so that the work may start early next spring. The church, is to be a very handsome structure, and will be an addition to that portion of the city.

THE WRONG GENUS

A day or two ago when that beautiful Irish play, "The Kerry Gow," was in Peterborough, a member of the company was advertising the attractions by riding around the streets on a horse, the animal being ornamented with a fancy blanket, which bore in large letters "The Kerry Gow." On George street a boy hailed the rider with the remark, "Hey, Mister, that ain't a cow you're on; that's a horse."

Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

"Fruit-a-tives" are the one certain cure for Constipation

because their action is upon the liver, "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a-box—$2.50 for 6 boxes. At all dealers'.

Fruit-a-tives

THE WHEAT HAS ESCAPED FROST

First Shipment Made at Calgary—Weight 84 lbs. to Bushel

Mr. James Edgeumbe, who recently returned from a visit to Calgary, Nanton and other places, in Alberta, says that when he left cutting was just beginning. There had been a slight frost in a few places, but it did no harm whatever. The grain was in fine condition, the wheat in the stalk standing as high as his shoulders, while oats were magnificently headed out. This wheat has not since Mr. Edgeumbe returned been effected by the frost, and harvesting operations have so far progressed that the first shipment of wheat has been made. Today Mr. Edgeumbe received a copy of the Calgary News, which contains the following encouraging item:—

The first shipment of grain for the season was made this morning. It is winter wheat, weighs 64 pounds to the bushel, and was graded No. 1 by Grain Inspector Hill. The wheat is billed for the Columbia Milling Co., Enderby.

Wheat remains at 70 cents for No. 1 hard on the local market.

MUST BE CAREFUL AT THE CURVES

Since the Caledon wreck, the Canadian Pacific Railway has issued circulars to the train crews of the Toronto division, drawing attention anew to curves, grades, etc., and impressing on engineers and conductors the imperative necessity for caution to ensure public safety. — Toronto Star.

Truant Officer After Bad Boys

Mr. George Cochrane, truant officer, is on the war path. Although the season is early the schools having been re-opened a week ago, some boys are inclined to play "hookey" already. The officer ran across two or three cases yesterday which he is investigating.

OBITUARY

DENNIS SCULLY, EMILY.

The death of Mr. Dennis Scully, which occurred at his home in Emily, on Saturday evening, was a shock to his many friends in town and country; although it was generally understood he could not recover, his end was not expected so soon.

The deceased was one of the most respected and best known farmers in Emily. He occupied a position in the township council for over 25 years, and for two years was a member of the Victoria County Council. He was a faithful member of the Catholic church, and always took an active interest in religious matters, and those for the benefit of the neighborhood. His advice and counsel were frequently sought by his neighbors. He leaves five sons—Frank, Dennis, John, William and Joseph, who are all residents of the township and five daughters, to mourn his loss, his wife having predeceased him by some two years. The sympathy of all will go out to the bereaved.

IMPROVEMENTS TO CANOE SLIDE

Canoeists Grateful to Supt. McClellan for What Has Been Done

The canoeists of the city are thankful to Supt. McClellan, of the Trent Canal, for the improvements that have been made to the canoe slide at the Peterborough locks. The canoe slide put in when the locks were built was a very poor affair, and it has been giving everything but satisfaction ever since. The canoe men have been making a loud holler and have succeeded in having their grievance redressed. Recently the slide has been greatly improved, and now there is little fault to be found with it. The steps have been widened and a breakwater put in, so now it is an easy matter to take a canoe through. Needless to say those who canoe on the Otonabee are greatly pleased with what has been done.

TO-MORROW NIGHT'S MEETING

The leader of the Liberal-Conservative party, Mr. Robert Laird Borden, will be in Peterborough tomorrow, Wednesday evening. It will be the second occasion of his visit to this thriving and enterprising city, and the welcome extended him will, in every way, be worthy of the man, and the cause which he espouses. He began his Ontario tour on Saturday and his meetings in this province, promise to be even more successful and enthusiastic than they were in Quebec, and down by the sea, where great crowds gathered to hear the man who is so well fitted for the exalted position of premier and whose policy, as enunciated in his inaugural speech at Halifax, is meeting with hearty accord and support from one end of the Dominion to the other.

The demonstration in the Grand Opera House tomorrow evening will be the grandest political gathering ever held in Peterborough. Turn out and hear the man who has manfully struggled to bring about a higher moral life on the part of those in power, whose statesmanlike utterances and firm stand on all great questions will result in the people of Canada entrusting him with the reins of power at the next election and West Peterborough will assuredly send a representative to support him in his proposed reforms.

Mr. Borden emphasizes three essential features of good government— honest administration, a non-partisan public service and clean elections. These Canada does not possess today—and that she greatly needs them, none but the most unscrupulous and hide-bound partisan will deny.

Mr. Borden's declaration in favor of a reform of the public service, so as to abolish political pull in this important matter, and to render the public services non-partisan, is a very notable departure, and one that should enlist the hearty sympathy and support of every good citizen. The public importance of this reform can scarcely be over-estimated, and the party and administration who carry it out, will be entitled to the lasting gratitude of the country in whose interest they have so honestly labored. Today Canada is far behind other great countries in this matter of the public services. For here everything goes according to political pull, while in Britain the public services are entirely non-partisan and in the United States, such have been the reforms of the last twenty years, that fully three-fourths of the public servants are permanent and independent of party, receiving their appointments entirely through competency after a competitive examination, and holding them solely through continued efficiency. Mr. Borden proposes to put Canada abreast of the best in the world in the matter of an efficient, non-partisan public service.

The declaration in favor of the reform of the election laws so as to secure clean elections, and the conduct of campaigns, with no campaign funds or expenditures, the details of which cannot be published to the world, is a declaration by the Dominion Conservative leader of a policy which had already been adopted and practised by the party, especially by the Conservatives of this province. This, too, is a reform which must win the support of all honest voters, and its imperative public need is manifest from the consideration that no country can have government by the people and for the people, when the elections are conducted after the corrupt manner that has characterized the Laurier regime.

It might also be mentioned that Mr. Borden's treatment of the matter of the Intercolonial or government railways, and of the matters of Public Ownership and Private Corporations, seems to be characterized by that degree of prudence and justice, and also that degree of progressiveness, which must be considered at the present time, the best in the public interests.

The Conservative leader would at the earliest possible moment deliver the Intercolonial, and Government railways generally, from the hand of the partisan and the grafter, and place the operation and management of such properties in the hands of an expert and non-partisan commission; and he would prove by the success of such new management what further steps might wisely be made in the same direction, of the public operation of public utilities.

Hear Mr. Borden at the Grand Opera House tomorrow night and join in the splendid welcome to Canada's next premier.

CABINET MATERIAL

It is a practice for some opponents of the Liberal-Conservative party to shout that Mr. Borden has not material of good and sufficient strength in the Conservative ranks to form a competent cabinet. During the last provincial election the same cry was raised by upholders of the discredited, time-serving and pledge-breaking Ross government against Mr. Whitney, but what is the result? To-day Ontario has the strongest, ablest and most progressive cabinet that this province ever had and Mr. Whitney did not have to fill it with "outsiders," as Sir Wilfrid Laurier has and is doing. This stereotyped contention of certain Liberals is hollow and hypocritical and carries no weight whatever.

Referring to certain criticism made as to the personnel of the two parties Mr. Borden, in his admirable speech at Chatham on Monday, pertinently observed:

"Sir Wilfrid Laurier found it necessary to appoint a new Postmaster-General. Sir William Mulock, the former Postmaster-General, found it impossible on the grounds of ill-health to any longer carry on his duties. Sir Wilfrid Laurier did not however go to any of the gentlemen behind him for a successor. He passed over these great men, these giants of debate, this galaxy of talent and selected a gentleman from outside—Mr Aylesworth. Lately it had happened that the portfolios of Minister of Public Works and Minister of Railways and Canals had become vacant for reasons which he need not enter into that afternoon. Now, in connection with those vacancies, they could imagine what Sir Wilfrid Laurier would endeavor to do in order to fill those vacancies. He would be inclined to assume that Sir Wilfried Laurier would look around amongst the good men he was said to have behind him to find two capable and honest men to fill those portfolios. If he was right in making that assumption the result was not very complimentary to the 130 men who sat behind him on the treasury benches. If this assumption was incorrect, and Sir Wilfrid Laurier was not looking for two such men as he had described, then the assumption was not very complimentary to the gentlemen who had been appointed. When Sir Wilfrid came and looked into the faces of his supporters in the House—these wonders of oratory and statesmanship—for two capable and honest men, he passed on and selected two men from outside. He sincerely hoped that the Liberal press, and especially those organs which depended largely on certain benevolent contributions from the treasury of this country, would explain how it was that these so-called able and honest men behind the treasury benches had been passed over. Now, as to the personnel of the Conservative party in the House of Commons. He could tell them that when the Conservative party framed a Government—as it would do he believed after the next general election, there would be found in the House of Commons men whose names were not perhaps very much in the public eye at present but who would be excellently fitted as members of the Cabinet. He ventured to say that from the Conservative party at present in the House of Commons they could form two better Cabinets than the one on the treasury benches to-day.

We heard the same thing when Mr. Whitney was fighting his battles. They were told Mr. Whitney had not the material with which to form a Cabinet. What had been the result of the Conservative victory in this province? The result had been the formation of one of the ablest Governments ever known in this country, and the placing on the statute books of more useful legislation than in the whole of the thirty years of Liberal regime which preceded that victory.

PEN POINTS.

Hurrah for Mr. Borden and clean elections.

Go to the Grand Opera House tomorrow night.

Down with corruption, graft, scandal and extravagance.

There will be no corruption fund under a Conservative regime.

Turn out tomorrow night and welcome Canada's coming premier.

Are you in accord with the Conservative policy. If not get into line.

Mr. Borden speaks at Cobourg today, Peterborough tomorrow and Dunnville on Thursday.

Which is the greater drawing card —a September wedding or a big fall fair?

Mr. Borden is fighting the battle for a pure government — give him your support.

The Yanks have captured the Palma trophy—but Canada's crack riflemen were only 41 points behind

---

Toronto fair attendance exceeded that of last year, but her base ball team dropped a game to Buffalo yesterday. There is no such thing as constant unalloyed pleasure for any community or individual.

Capacity and character, and not party service or pull should rule in the appointments to public office. Hear what Mr. Borden has to say tomorrow night, on the matter of civil service reform.

The Conservative leader is a staunch upholder of Provincial Rights —for an unimpaired maintenance of all powers of self government, which have been conferred upon the provinces under the constitution.

Three great essentials—honest appropriation and expenditure of public money; decent and competent appointments to public office, and clean elections—Mr. Borden stands for all these and so does every true Canadian, who is unshackled and untrammelled.

The United Statesers have regained the Palma trophy. The English, who held the big shield in the competition at Rockliffe on Saturday, did not exactly Palma Trophy on our friends from across the line, but they put up a rather poor fight for it, being lowest on the list, and 128 points behind the victors.

"Contracts for two more sections of the Trent Valley Canal have been let. The Trent Valley Canal is a fissiparous organism—putting forth new sections as a lobster does claws. — Toronto Star (Grit.)" It was kind of the Star to tell us this, for now we can all understand that, perhaps, this fissiparous propensity aided Hon. A. B. Aylesworth's desire to talk to such an extent as to make that canal break out into mouths all over the country. — Brockville Times.

Carbolic acid should long since have been placed on the prohibited list of poisons, as hardly a day passes that some unfortunate man, woman or child does not fall a victim to it, either accidentally or designedly. The banks require of a stranger that he shall be made known to them before they will cash a cheque presented to them by him, and surely the least that should be required of a druggist is that he should obtain the identification and the signature and address to everyone to whom he sells a poison. Even paris green should be signed for, after identification, at least when it is purchased in a city in small quantities. This is the rule with regard to all poisons in Britain and on the continent of Europe. If it had been the law here innumerable suicides would have been prevented. Poisons are obtainable all too easily, and it is more than time to put a stop to such murderous facility.

The "Gotter Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

A BOY'S DOWNFALL

Who taught him how to steal,
Yet often left him without a meal
Till one day in the race course grown,
Harry found himself in handcuffs bound,
Right before the judge he was brought
But found out for what he did or thought.
For while all eyes were on him cast
He pleaded guilty to the charge, as bold as brass.
"Guilty," said the judge, "of stealing this golden chain,
Then Harry you make my duty clear and plain.
And as you seem so bold and void of shame,
We will now put a stop to your thieving game.
Ten years, we, you to the prison do send,
And hope and trust when your time doth end,
You will come home and your ways and manner mend."
And now in yonder jail, could you just peep in,
You would see a young man sitting pale and thin.
Yes! There he sits, a most painful sight,
With his cloth striped both black and white,
Yes! There he sits and sighs and weeps,
As if his heart was going to break.
But soon the news his parents did hear,
And over their child's misfortune, shed many a tear.
But the parents did not much longer live,
For sorrow and shame their grave had dug.
A few more years they lingered on,
Then silently sank into their tomb,
And now in yonder churchyard, as you go by,
A little stone you there can spy,
Which says to all that pass that way
Here lie the broken-hearted parents of Harry May.

CRAB BRANDON.

Electric Works In Shenectady

Employ 16,000 People—Pittsburg Visitor Speaks of That City

Peterborough is essentially the Electric City of Canada, and in the Canadian General Electric Works here, over 1100 persons find constant employment. It is interesting therefore, to learn of the marvellous development, of the great electric centre in the United States—Schenectady, N.Y. Rev. A. Laird, a noted Presbyterian divine of Pittsburg, was in Peterborough yesterday for a couple of hours. He was returning from a holiday trip. In an interview with a Review reporter, he said:

"Although Schenectady is an old place it is thoroughly up-to-date; much more so, than many of our more pretentious cities. What a relief to find a city of 75,000 inhabitants, without a single steam railroad grade crossing! This certainly indicates that its citizens are alive to their own interests and have a high regard for the safety of those who traffic and travel along their streets. The backbone of the great industrial body of Schenectady, is the mammoth establishment of the General Electric Company, the capital stock of which is placed at $80,000,000, an enormous aggregation of wealth and concentrated enterprise. It owns 275 acres of land gives employment to 16,000 people and pays out weekly for wages and salaries over $800,000. The floor space of the different departments and offices is nearly eighty acres.

"The next largest concern is the American Locomotive Company, employing 6,000 men, and having over one hundred and thirty buildings. Then there is the Schenectady Street Railroad Company, with a capital of $7,000,000 and employing close on six hundred men. These three gigantic concerns, supported by quite a variety of smaller industries, make Schenectady a most thriving and growing city. Most of the skilled workmen earn high wages, and many of them earn their own homes."

Little Boy Fell on Broken Glass

Harold McGregor, East City, Receives a Bad Cut—Another Accident

Harold McGregor, the three-year-old son of Mrs. David McGregor, Driscoll Terrace, East City, was the victim of a rather painful accident the other day. The little chap was playing with his other brothers and sisters in the yard, and suddenly he tripped, and falling on a broken jug, a severe gash was inflicted on the child's nose. Dr. Amys was called and put a few stitches in the wound. Although the child is suffering considerable pain from the cut, he is progressing favorably.

REPORT IS NOT CORRECT

Peterborough Club Has Not Considered Purchase of Bank of Montreal Premises

The rumor was revived today that the Peterborough Club, intended to purchase the building, at the corner of Simcoe and Water streets, now being vacated by the Bank of Montreal, which has moved over entirely to the former Ontario Bank quarters.

There is no truth in the report, declared an officer, of the club, today. "We have not considered the matter any way our lease of our present premises does not expire for a long time yet."

RESOLUTION OF CONDOLENCE

At the last regular meeting of Court Chemong, No. 530, I. O. F., it was decided to send the following to Mr. H. Whiteler.

Dear Sir and Brother, — At the meeting of our Court held last evening, on motion of Bro. Powell and Bro. Allison, it was unanimously agreed that a letter of condolence be forwarded to you in this your time of deep bereavement. I wish, therefore, to convey to you all, the sincere sympathy of the members of your court, seeing it has been God's will to remove from your home one that was near and dear to you all. We are aware that earthly sympathy can be of little avail, but we would commend you all to the care of our Heavenly Father, who will administer the consolation to those that mourn, and who put their trust in Him.

Signed on behalf of the Court.
J. W. BUYERS,
Rec.-Sec.

Peterborough,
Aug. 30th, 1907.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Mrs. Wilson, wife of Mayor Wilson, of Collingwood, is dead.

Protest Against the Assessors

Assessed $2000 for a Coat of Paint, is One Complaint Made

protest against

To the Editor of the Review.

Sir.—We wish to register a great big kick against our so-called assessors. Our idea, and it is also the idea of a great many others, is that these men that have been appointed as assessors will drive a lot of people out of our city if they can only sell their property. These assessors do not seem to have any reason at all, as we will just give you one instance;

We had a piece of property assessed last year at one thousand dollars, and this year the same piece of property is assessed at three thousand dollars. There have not been any improvements on the property, except one coat of paint, and we are assessed two thousand dollars for a coat of paint. We hope that the council will get men next year that will act in some reasonable manner in assessing people's property. The Court of Revision will be kept busy this year undoing the blunders that our so-called assessors have made.

Thanking you for your valuable space, we remain,

Yours respectfully,
JUSTICE.

LINDSAY BOY'S BAD ACCIDENT

Saturday afternoon between four and five o'clock, as a number of young boys were playing in the basement of Flavelle Milling Co.'s mill, each was vieing with the other as to who could swing himself farther from the stair bannister, and jump the farthest out on the cement. Earl McGill a lad of twelve or thirteen, who lives at the corner of Russell and York streets, overdid himself to such an extent that his leg doubled under him, and the force of his fall broke the bone just above the ankle. He was removed to his home, and the bone set.—Lindsay Post.

Harvest Festival At All Saints'

Will be Held on Friday Sept. 20th—Canon Spragge of Cobourg the Preacher

The annual harvest festival of All Saints' church will be held on Friday evening, Sept. 20th, when Rev. Canon Spragg, of Cobourg, will be the special preacher.

The harvest Thanksgiving services will also be continued on the following Sunday, when Rev. R. B. Cobb, M.A., of Port Hope, will preach at both services. The choir is preparing special music for the festival and also an excellent programme for the annual congregational social, which will be held on Monday evening, Sept. 23rd.

LINDSAY BOARD GETS GOOD PRICE

The highest price of the season was paid at this morning's sale of Victoria County Cheese Board, yet the buyers were not satisfied. That was because they have good memories—they recollected that at the same date last year, 12 5-8c. was paid by Mr. Cook of Peterborough, on Lindsay Board, and that on Sept. 30th of last year, the same gentleman paid the top price of the Lindsay Board, if not of Ontario, by calling 13 1-4c. Bearing these facts in their noddles, the patrons this morning felt inclined to sit tight—the more especially as Mr. Cook aforesaid, was again present, along with Buyers Brown and Clemes, of town, and Gillespie of Peterborough. — Lindsay Post.

Borden Meeting To-morrow Night

Leader Will Hold Reception in Young Conservative Rooms From 5 to 6

Mr. R. L. Borden, the gifted and popular leader of the Liberal-Conservative party, speaks in Cobourg today. He will be in Peterborough tomorrow and address a great mass meeting in the Grand Opera House at eight o'clock tomorrow evening. On Thursday, Mr. Borden will visit Dunnville, on Friday Woodstock and London, and on Saturday Beaverton.

Mr. Borden and party will arrive tomorrow morning at 11.40 o'clock, on the regular train from Port Hope. They will be met at the G.T.R. station by the members of the Reception Committee, of which Mr. James Kendry is chairman, and escorted in carriages to the Oriental hotel, where luncheon will be partaken of. At three o'clock, the distinguished visitor and the other speakers who accompany him, will be taken for a drive around the city. They will visit the lift lock, factories, and other points of interest.

5 TO 6 P.M.—MR. BORDEN WILL HOLD RECEPTION IN YOUNG CONSERVATIVE CLUB ROOMS, GEORGE STREET. PUBLIC CORDIALLY INVITED.

8 P.M.—MONSTER MASS MEETING IN GRAND OPERA HOUSE. SEATS SPECIALLY RESERVED FOR LADIES AND THEIR ESCORTS. EVERYONE INVITED. TURN OUT AND HEAR THE GREAT CONSERVATIVE CHIEFTAIN AND HIS PROGRESSIVE, COMPREHENSIVE, AND CONSTRUCTIVE POLICY.

More Room for Mann's Bakery

New Business Stand to be Erected at Corner of George and Dublin Sts.

The business of the Mann bakery has increased to such an extent during the past year or so, that it has been found necessary to have larger premises, and already plans are under way for the construction of a new bake-shop.

Mrs. Mann has purchased the property at the corner of George and Dublin streets, and yesterday the excavation of the cellar for an up-to-date bakery, was commenced. The building will be brick, and will face on George street. A fine store will be built to the front and the bake shop at the rear. The dimensions of the structure will be 40x101 ft.

In the old shop there is just one oven and this is by far inadequate to supply the demand in the city, or Mann's bread. In the new building, three large and up-to-date ovens will built and thus they will be enabled to turn out more than three times as many loaves as at the present time. The work will also be done much quicker. The Mann bakery has now three bread waggons delivering daily and when the new shop is ready another one will be added.

On Saturdays they sell nearly 3,000 loaves and, with increased facilities, they will be in a much better position to supply the ever-increasing demand.

Brantford is After Factory

Wants Plant of Canadian Machine Telephone Co.

The Brantford Expositor says:—The new building on Queen street for the Canadian Machine Telephone Company will be commenced within a few days. Mr. Wisner, one of the leading representatives of the company, was in the city yesterday, looking over the ground for the site, with Mr. Conn, a well known contractor for reinforced concrete buildings. The headquarters for the new 'phone company will likely be similar to the George Foster & Son warehouse on Colborne street, being concrete with steel structure. Among the other plans of the company is the erection of a plant for the manufacture of the telephone machines for Canadian use. The factory will be a large one and will employ some 500 hands. It is said Brantford has a chance to secure the concern, which will be built within a year, although Hamilton and Toronto, where many of the stockholders of the company have their headquarters, are strong contenders.

Eight Workmen Perish in Fire

Special to the Review.

Buda Pest, Hungaria, Sept. 10.—Eight workmen and thirty others perished in a mill fire at Raal, Hungary, today.

The Stock Market Hit by Failures

A Flood of Bear News Affected Prices in New York

New York, Sept. 10.—A flood of bear news broke prices in the stock market today. The failure of the Belding Hall Manufacturing Co., big leather dealers of New York and Philadelphia, the failure of the Stock Exchange firm of Thayer Bros. the reduction in the Calumet and Hecla dividend from $20 to $15, and the publication of one of the poorest crop reports in years, gave the bears plenty of ammunition and they made the most of it. On the other hand the decision of the Pennsylvania Supreme Court, which declared the two-cent fare law unconstitutional, and the good showing on the New York City bond issue, were favorable features, but had little or no effect in stemming the decline.

The copper stocks were under the heaviest pressure, but the general list was hammered to a standstill and some large declines were forced. Commission houses reported little business on the buying side, as the investing public is taking a conservative course and will not only buy on the extreme declines. There was no support to the market to speak of, but much of the selling looked like professional short selling and if no liquidation is induced, the decline may not go so very much further. The copper stocks are in a bad position, however, and the weakness of the metal in London is a very bad feature. The closing was weak, at about the low of the day.

THE TURF

The track at the exhibition grounds is being harrowed and rolled into shape by Mr. M. Lowry and his skilled dirt operators.

Exhibition Premises to Break Former Records

A Deluge of Entries—Good Grandstand Performance and Races—Football Match May be Arranged.

"This year will be the greatest ever," is what the directors say regarding the fall fair, and a cold review of the prospects seems to indicate that they are not far astray in their optimistic predictions. The weather is the only thing there is any uncertainty about, and "we're praying that it will be good," said one of the officials this morning. The entries are greater in number than those of last year, and every department will be well represented.

SPECIAL PRIZES

The special prizes will be a feature this fall, and the local merchants and business men have been generous in their donations in this respect. Mr. D. Hughes-Charles will give a special of $10 for the best pair of agricultural horses, Grafton and Co. give another valued at $10 for the best general purpose team, Lang & Maher, $10 in goods, for best carriage span, Merrell & Meredith, $10 in goods, for best team of roadsters, F. Downham, of the Peterborough Creamery, 10 lbs. creamery butter for the herd of dairy cattle testing highest in butter fat for the month of July, the Geo. Matthews Co., $10 for best pen of 4 bacon hogs, R. J. Boden, $10 for exhibits in ladies' work, Storey & Leary, 200 lbs. Royal Hungarian flour, for best double loaf home-made bread. These with the other special prizes, and those given by the society, offer special inducements to exhibitors.

VAUDEVILLE PERFORMANCE

A feature that will appeal to all spectators will be the big vaudeville show to be given in front of the grandstand by expert performers in their various lines. The headline will probably be Madame Victoria, with her fourteen trained dogs. This act is said to be a very pleasing one, the canines displaying great sagacity. George and George are two acrobats, who will do several "stunts" that will surprise their auditors. Their daring double trapeze, high wire work, revolving ladder and bounding billiard table, acts are clever and original features of the platform performance. Miss Bertha Phillips, according to reports received, is a contortionist, who is almost supernaturally supple. The vaudeville features will undoubtedly be the means of attracting many hundreds to the fair grounds.

SPEEDING IN THE RING

What farmer, and for that matter, what man, who has a natural craving for healthy sport, doesn't like a horse race? The management of the exhibition have offered liberal inducements to turfmen, and the best contested events in the history of the fair, in the line of horse racing, are anticipated this year.

There will be three races each afternoon and several hundred dollars in cash prizes have been offered. The small boy's dog race, for which Ex-Mayor Yelland annually presents prizes of $3 and $2, will afford considerable amusement for the spectators and lots of excitement for the little fellows. The classes in the speeding-in-the-ring events, though subject to change, will likely be 2.50, 2.24, 2.18 and 2.30.

FOOTBALL MATCH

Endeavors are being made to have a match arranged between the Quakers, champions of the Midland League and some outside team, probably Bridgenorth, the winners to have the R. R. Hall trophy, and incidentally the championship of the league.

The J. C. Turnbull Co. extends a cordial invitation to the ladies of Peterborough to attend their Semi-Annual Opening of Ready-to-wear Millinery, Coats, Skirts, etc., on Thursday, Sept. 12th.

Committee Met At Oriental

Enthusiastic Meeting With Mayor McWilliams in Chair

An enthusiastic meeting of the Rugby Club Committee was held last night at the Oriental, with Mayor McWilliams in the chair. Others present were secretary McDonough and Messrs. Crowley, Hurtubise, Quinlan, Dickson and Sullivan. The committee were of the opinion that there is lots of first-rate material available and see no reason why there should not be a good team in the field, this season to uphold the honor of Peterborough. Crowley will in all probability be manager this fall, and if "Bill" takes the boys in hand, he should be able to round them into first-class shape. He is a great enthusiast and his knowledge of the fine points of the game, should be invaluable to all new players. Mayor McWilliams took a cheerful view of things, and is showing a commendable interest in the welfare of the team.

The right-of-way for another electric railway in Hamilton, has been staked out, it is said.

Hamilton Sons of England yesterday decorated the graves of deceased brethren.

THE
New Autumn Styles
AT
THE GOLDEN LION

The ne plus ultra of every woman's ideas is not to be had in a store's showings by merely wishing for it. The **Fashions** you see here so early were only to be had at this time by dint of much planning, much trouble and much work.

But the result justifies us

DRESS GOODS

"I always go to Fair's first," says a woman who has been buying Dress Goods all her life, and that a long one. "I can depend on the qualities there. I know if they say a thing is all-wool or fast-black there is not an iota of cotton nor a speck of fadeable dye to be found in it."

The above was overheard on the street the other day, and we must say it pleases us. If she had added that the newest weaves and best selections are always to be found there, it would have been a perfect testimonial. It is easy to see how the stir of the new Autumn Goods is being felt in town.

Among the leading cloths we show may be found the following

NEW FALL SHADES

10 Shades in Browns 9 Shades in Wines Burgandies, Mullberrys, Clarets and Plums 12 Shades of Blues 10 Shades of Greens embracing Myrtle, Reseda, Bottle, Sea Weed and Olive

NEW RUGS
Fall Importations

Fall 1907 is without a doubt to be one of the largest, if not the largest rug season that has ever been known. The general public are beginning to see the benefits derived from the use of them in preference to a carpet that is tacked to the floor and which is a harbor for dust and is most unsanitary—A rug may be taken up as often as is convenient, while a carpet is seldom removed oftener than twice annually.

We have made a special purchase of $3000.00 worth of rugs, most of which are imported from European markets at prices a great deal below the usual market price—These rugs to be on sale at especially low prices for the next two weeks.

TAPESTRY ART SQUARES $9.97

AUCTION SALE
OF RESIDENCE NEAR CITY OF PETERBOROUGH

Under and by virtue of the powers contained in a certain mortgage, which will be produced at the time of sale; there will be offered for sale by public auction, by Charles Stapleton, auctioneer, at the Munroe House, in the City of Peterborough, on

Wednesday, the 18th day of September

1907, at 2 p.m., the following property, namely:—

Lot Number 2 and part of Lot Number Four on Registered Plan Number Twenty-four for the Township of North Monaghan, in the County of Peterborough, particularly described as follows:

Commencing at the Northeast angle of Lot Number Two, thence westerly along the northern limit of said lots Two and Four, four hundred and twelve feet, thence southerly parallel with the eastern limit of said Lot Number Two, two hundred and eighteen feet more or less to the southern limit of said Lot Four, thence easterly along the southern limit of said Lots Four and Two to the southeast angle of said Lot Number Four, thence northerly along the eastern limit of said Lot Two to the place of beginning. Reserving, however, a right of way over the westerly thirteen feet of such lands, and extending from the Northern limit of said Lot Four, southerly one hundred and twenty feet.

This property is situated at the corner of Lundy's Lane and the Monaghan Road, adjoining the boundary of the City of Peterborough. Upon the property are a substantial story and a half brick residence and stable.

For terms and conditions apply to

SAWDUST FIRES WERE DISCUSSED

The fires burning in the sawdust piles near the Quaker Oats Company's dam, have been causing more trouble than the average citizen is aware. It appears that the fire brigade did not relish the idea of turning out so often to extinguish the blaze in the sawdust bank, while Mr. J. H. Larmonth wrote Mayor McWilliams requesting that their property was entitled to protection from the fires. It appears that the sawdust has been on fire for several weeks, but it is only occasionally that the blaze breaks forth and causes alarm.

The matter was considered at the fire, water and light committee meeting last night, but although Chief Rutherford and Mr. Larmonth had been notified of the meeting neither of them was on hand. City Clerk Armstrong said that Mr. Rutherford had been requested to be present at the meeting and Mr. Larmonth had been notified that the matter was to be considered at the committee meeting, and that he would be heard if he had a statement to make.

As the two parties most directly interested in the matter were not present, the committee was at a disadvantage, but considerable discussion took place.

TENDERS

Will be received by the undersigned up to 6 p.m. on **FRIDAY, SEPTEMBER 20** 1907 in bulk and in part for the erection of

A BAPTIST CHURCH

on Park Street, Peterborough.

All tenders must be accompanied with a certified cheque for not less than Ten per cent. of contract price. The lowest or any tender not necessarily accepted. Plans and specifications may be seen at the office of Secretary of the Y.M.C.A., Peterborough.

MIDDLE LIFE

A Time When Women Are Susceptible to Many Dread Diseases—Intelligent Women Prepare for It. Two Relate Their Experiences.

Mrs. E. Powless

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason.

Every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations, make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system.

For special advice regarding this important period women are invited to write to Mrs. Pinkham, at Lynn, Mass., and it will be furnished absolutely free of charge. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women.

Read what Lydia E. Pinkham's Compound did for Mrs. Powless and Mrs. Mann:

Dear Mrs. Pinkham:—

"In my opinion there is no medicine made for women which can compare with Lydia E. Pinkham's Vegetable Compound, and you have no firmer friend in the Dominion than I am. At the time of change of life I suffered until I was nearly crazy, and was not fit to live with. I was so irritable, irrational and nervous that I was a torment to myself and others. I surely thought that I would lose my reason before I got through, when fortunately an old friend recommended your Vegetable Compound. I took it for five months and then off and on until the critical period had passed, and it restored me to perfect health. My advice to suffering women is to try your Vegetable Compound, and they will not be disappointed."—Mrs. E. Powless, Deseronto, Ont.

Another Woman's Case.

Dear Mrs. Pinkham:—

"As I owe my splendid health to Lydia E. Pinkham's Vegetable Compound, I am very pleased to write and tell you my experience with it. I am the mother of three children grown to womanhood, and have safely passed the change of life, and feel as young and as strong as I did twenty years ago, and I know that this is all due to your woman's friend, Lydia E. Pinkham's Vegetable Compound. I used it before my children were born, and it greatly assisted nature and saved me much pain during the change of life. I took it off and on, for four years, and had but little trouble and sickness that most women have to endure."—Mrs. James K. Mann, 306 Rathurst St., Toronto, Canada.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Powless and Mrs. Mann, it will do for other women at this time of life.

It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Tried to Burn Jap School; The Rioting at Vancouver

Mayor of Vancouver Asked to Call Out the Militia.

Japanese Consul-General Says Canada Will Apologize — Tokio Press Refrains From Comment—Earl Grey Sends Message of Regret—Jap Immigration Not Very Great — Solution of Trouble Believed Near.

Ottawa, Sept. 11.—Japanese Consul-General Nosse received yesterday morning the following telegram from Consul Morikawa, at Vancouver: "About 10.30 last night (Monday) the rioters set the Japanese primary school on fire, but the building was saved from destruction by the Japanese. I at once interviewed the mayor at the police station, and made demands to call out the militia whenever necessary."

Another message reads:

"Both the mayor and the police authorities are doing their best to keep vigilance by specially patrolling the Japanese section with mounted police. The principal citizens of the city, exceedingly regretting the occurrence of this disturbance, are meeting to take the best measures to restore order and peace.

"The mayor is to call the City Council to-morrow to discuss plans for the speedy restoration. Just now (10 p. m. Monday) the rioters, numbering from 600 to 700, were marching towards the Japanese section, but were dispersed by the police force. The number of arrests since the night before last have been over twenty."

Brighter Prospects.

Consul-General Nosse presented the telegram to Sir Wilfrid Laurier.

"All that I am doing," said Mr. Nosse, "is to present to the Premier the information of the disturbances as it reaches me. For the rest I leave to the good sense of the British and Canadian Governments, who have always treated us fairly. I am satisfied that they will do so in future, and that our people will have the protection of the Canadian law."

Kishi Iychisi of the Japanese Bureau of Commerce, who has arrived at the coast to look into the whole question of Japanese immigration, will proceed to Ottawa next week with the object of discussing the existing difficulties with Sir Wilfrid Laurier and the Japanese authorities.

The feeling prevails here that if further outrages can be prevented it will not be long before an agreement will be reached with the Japanese Government limiting the number of new arrivals from Japan to fifty per month, or thereabouts.

Even Macpherson Is Pleased.

There were about a dozen press correspondent who interviewed R. G. Macpherson, M. P., after he and W. H. Galliher had seen the Premier upon the Japanese invasion of the Pacific Coast.

"The solution of the question is at hand," said the member for Vancouver in a very cheerful frame of mind.

"Sir Wilfrid Laurier," continued Mr. Macpherson, "has been actively engaged on this question since he has returned from England, and I am convinced, as I have already said, that a solution is at hand. I had a most satisfactory interview with the Premier; you can say that I deprecate any act of lawlessness. I fully realize that such conduct makes the question all the more difficult to settle. We have no desire to interfere with the good feeling that exists between Canada and Japan as two nations, and I do not think that Japan has any desire to disregard our feeling. That being the case I anticipate a satisfactory solution of the whole question, although it has had its serious aspects."

Influx Exaggerated.

The influx of Japanese is not nearly so great as the despatches from British Columbia would indicate. For the seven months ending July last the total arrivals of Japanese in British Columbia were 4,191, but of this number 1,147 were in transit for United States ports and 429 were merchants and others who had been in Canada before. The total arrivals of actual immigrants at British Columbia ports was, therefore, only 2,545 up to the end of July. Figures for the month of August are not yet available.

The wholesale purchase of firearms by Japanese and Chinese yesterday was stopped by assurances made to the Japs by Consul Morikawa; nor do the Chinese place any reliance in the statements of the police.

City Solicitor Cowan has ordered all hardware and sporting dealers to stop selling to Celestials. Four large boxes of arms, purchased from different firms in New Westminster, were seized by the police and taken to the police station, where they are now held.

Victoria, B. C., Sept. 11.—Steamer Monteagle arrived here last night with 1,164 Asiatics, all booked for Vancouver. She will leave Victoria at midnight and endeavor to land passengers before it is generally known in Vancouver. The list includes 901 Hindoos, 149 Chinese, 114 Japanese.

Earl Grey's Regrets.

Ottawa, Sept. 11.—Sir Wilfrid Laurier wired to Mayor Bethune of Vancouver to the effect that the Governor-General regretted the attacks upon the subjects of the friend and ally of the King, His Highness the Emperor of Japan. He trusted reparation would be made to the injured and the offenders punished.

Tokio, Sept. 11.—The [illegible] the demonstrations at Vancouver, published in the Tokio evening papers, caused no excitement. The people, like the Government officials, regard as foolish the idea of a troublesome complication. A few of the morning papers discussed the matter dispassionately.

The Azhai points out the uselessness of mob violence and cautions the Japanese against retaliation in kind. It says that the Canadian Government undoubtedly will take measures against similar regrettable affairs, and concludes:

"Retaliation will not rectify. Our treaty with Great Britain extends to Canada, and our treaty with the United States will be revised in 1911."

Other newspapers say that the affair is regrettable.

A previous despatch from San Francisco, saying that Ishii was stoned and forced to take refuge in an hotel, is regarded as the most serious feature of the affair, but this report is not confirmed by the Foreign Office.

The Japanese press and officials generally show no disturbance over the immigration question, and it is conceded in official circles here that the matter will be ultimately settled satisfactory, although sporadic outbreaks are expected.

The Japanese officials decline to say what steps, if any, have been taken in the Canadian trouble, pending further information.

The Foreign Office is not disturbed by the Vancouver affair, and is quite confident that everything will be done to protect the Japanese.

The Foreign Office has received a despatch from the Japanese consul-general at Ottawa, saying that the Canadian Government will express its regret for the occurrence at Vancouver, and take steps to prevent further trouble.

An official of the Foreign Office said to the Associated Press: "We have the utmost confidence in the Canadian Government, as we also have in that of America."

Nothing Official.

London, Sept. 11.—Neither the Colonial Office nor the Foreign Office has received official information respecting the anti-Asiatic riots at Vancouver, B. C. Two long despatches have been received at the Japanese embassy from Canada. The Colonial Office directors say they do not expect any communication from Ottawa on the subject, and that while the event is greatly regretted, the Imperial authorities are sure the matter can be easily settled between the Japanese officials and the Canadian Government.

The Real Reason.

London, Eng., Sept. 11.—The News says the way of securing peace in Vancouver is to attack the trouble not on racial but on economic grounds. Anger against the yellowman arises, not from the fact that he is yellow, but because he is cheap. He, from the industrial viewpoint, is a blackleg. Let him come in as a free man, but only with loyalty to his class, not as a tool sweater.

Supreme Struggle.

London, Sept. 11.—The Daily Mail prints an interesting sensational article by Hamilton Fyfe, who is evidently familiar with the Pacific coast countries of America, and the Orient, and who sums up the incident by saying:

"The wonder is that it has not happened before."

He says that California and British Columbia have the same problem to puzzle over and agrees with Dr. Goldwin Smith, that "before many years there must be a supreme struggle between Europeans and Asiatics for supremacy on the Pacific coast."

RESCUER MET DEATH.

Buffalo Man Suffocated by Sulphuretted Hydrogen.

Buffalo, Sept. 11.—In trying to rescue two fellow-workmen from a tank filled with sulphide of hydrogen gas at the Buffalo chemical works yesterday afternoon Arthur J. Sweeny was overcome by the fumes and died. Wm. Sweeny, his son, in an attempt to rescue the father was overcome and was removed to a hospital, where he was still unconscious at a late hour last night. The two men who were in the tank at first were John Kisy and William Clahan. When finally taken out they were both unconscious and may die. Kisy and Clahan were sent into the tank to repair a break. The tank had been thoroughly washed out, it was supposed, before the men entered, but enough of the sulphuric acid remained in it to overcome them.

YOUNG MINER KILLED.

Falls 135 Feet Down Shaft — Every Bone Broken.

Brockville, Sept. 11.—Hurled to death down the shaft of a mica mine near Westport was the fate of John Waffle, a young man 25 years of age, residing with his father at Bedford Mills.

He was being brought to the surface in a bucket, which collided with a ragged rock, projecting from the side near the top of the shaft. The bucket toppled over, throwing Waffle to the bottom, 135 feet. He was mangled almost beyond recognition. Every bone in his body was broken. The coroner has opened an inquest.

Kidnapped His Child.

Windsor, Sept. 11.—H. W. Scott of Seaforth invaded the apartments of his wife in Detroit and snatched his two-year-old boy from the mother's arms when she was preparing him for bed. Scott ran out and boarded a car.

He got as far as the Windsor Ferry, where he was apprehended and taken to the police station. The mother was notified and secured her child. Scott was released and crossed to this city.

Refused Medical Attendance.

Harrietsville, Sept. 11.—The enquiry ordered by the Attorney-General's Department into the death of James Kelly of this village, a Christian Scientist, who died a week ago, was commenced last night. A verdict that deceased came to his death from gangrene poisoning was returned by the coroner's jury.

Many witnesses swore that deceased was refused medical attendance.

Col. Joshua Wright, a former commandant of the 13rd Regiment, is dead in Ottawa.

BURGLARS BLOW BANK VAULT.

Scared Off They Fled Firing on Their Pursuers.

Niagara Falls, Ont., Sept. 11.—A trio of safe-blowers made a raid on the Chippewa branch of the Royal Bank about 2.30 yesterday morning.

Gaining an entrance by prying open the side window and knocking off the combination handle of the safe they inserted dynamite and blew the fireproof door from its fastenings, securing about $20 in silver and copper deposited inside the fireproof door. The bank's money on hand was in the burglar-proof locker inside the safe, but no doubt the trio was scared off before being able to make an attempt to get it by a couple of young men coming home from the country, who heard the explosion and ran down the street.

The young men saw the trio running southward across the bridge over the creek and made chase when the fleeing burglars fired three shots at them. The Ontario police were notified, and all bridges were covered, but the trio made good their escape.

Before commencing operations, the burglars took the precaution of placing the village in darkness by cutting the electric light wires.

Canneries Close.

Kingston, Sept. 11.—The canning factories along the Bay of Quinte have had a poor season, and most of them have either closed or will soon do so. There have been a big shortage in the yield of corn and tomatoes, and the canners will not be able to fill their contracts. An advance in price of canned goods may be looked for.

Union Jack For Schools.

Toronto, Sept. 11.—The Government has decided that the flag to fly over rural schools shall be the Union Jack, not the Dominion ensign, which had been chosen. In view of this change the time for receiving tenders for flags for rural schools has been extended to Sept. 25.

Band of Female Thieves.

St. Petersburg, Sept. 11.—The police have arrested a band of female thieves, led by a young student of the university, named Proskobia Vanouva. The band recently committed a number of daring and successful robberies.

Booth Sails Friday.

London, Sept. 11.—(C. A. P.)—Gen. Booth, at a farewell meeting, stated he did not regret that arrangements for a direct passage to New York had failed, because it enabled him again to visit Canada. He sails Friday.

Edmonton Released.

Brockville, Sept. 11.—The steam barge Edmonton, which ran on the Hillcrest Shoal, three miles west of here, last Thursday, was released yesterday morning by the Donnelly Wrecking Co.

STEAMER STONY LAKE or MAJESTIC

The steamer Stoney Lake will leave Lakefield for the lakes on arrival of the morning train, returning in time to connect with last train for Peterborough.

Steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

Train Travelled Too Fast; The Opinion of Witnesses

Evidence Given at Inquest on Caledon Wreck Victims.

Was Traveling Like Streak of Lightning Says One Witness—No Brakes Were Applied—Government Inspector Also Investigates—Despatchers Are Exonerated From All Blame—Passenger's Story.

Caledon East, Sept. 11.—Dr. Allison's inquest, on behalf of Peel County, into the C. P. R. wreck at Caledon a week ago, opened here yesterday. After a dozen witnesses, who testified only to the fast speed of the train, were examined, County Crown Attorney McFadden of Brampton secured an adjournment for two weeks.

That the authorities of Peel County are out for business is evinced by the fact that every station agent between Owen Sound and Caledon has been subpoenaed. Every train despatcher must produced his books. The speed of the fatal train and other trains that day will be learned.

The crew of the train have been summoned, and the engineer, the fireman, the conductor, the brakesmen will all tell of their movements the night preceding the wreck, of the midnight run to Owen Sound for repairs in the engine, and the trip 555 made before she went over the bank on the "horseshoe curve."

Fifteen witnesses were examined yesterday.

A Passenger's Story.

R. B. Hendry of Orangeville, the first witness after the noon adjournment, testified that he was a passenger on the wrecked train. He got on at Orangeville and was in the fourth car from the engine.

"The train was going very fast," he said, "and I remarked to a passenger beside me that we would soon be in Toronto if they kept up this gait."

"I know every foot of the road," he continued, "and I can say positively that no brakes were applied, as is the usual case, when we came to the top of the curve. I jumped for the door and grabbed the knob, I was so frightened. The door came open with me and I got out. I rushed to the assistance of the two Patterson girls and Miss Conners of Orangeville. Miss Patterson was wedged in, hanging by her feet to the top of the third car, which turned turtle and she called to me that her sister was dying beneath her, pinned under a mass."

Speed Excessive.

Dr. Graham of Mono Road testified to the identification of the five victims, and Dr. Thomas Allison said that the death of all was due to the accident from which they had been taken.

Joseph Ferguson, W. Cannon, Thos. Hutchins, E. J. Ellis, A. Stephenson, S. Plowes, Thomas Hempston, gave evidence as to the fast rate of the train, from Markdale to the scene of the wreck.

"Excessive speed; she was going like greased lightning"; "A fast lick"; "The fastest I ever was on," etc., were some of the expressions used by the witnesses describing the rate of the ill-fated train making the curve.

Samuel Mossop, the foreman of the section gang, corroborated his evidence as given at the Toronto inquest.

Angus MacMurch and A. D. Smith were present for the C. P. R. J. B. Lucas, M. L. A., of Markdale, represented the deceased relatives.

DESPATCHERS EXONERATED.

Government Inspector Investigating Caledon Wreck.

Toronto, Sept. 11—The investigation of Inspector McCall, yesterday, into the causes of the Caledon wreck resulted in completely exonerating the despatcher's department from all blame. Despatcher Allison was examined and it was decided that his orders had been issued in accordance with the law. The Orangeville operator also was declared blameless in the matter.

Chief Coroner Johnson will resume the hearing of evidence in the Caledon wreck investigation to-night.

Since the last hearing several new features have developed in connection with the wreck and its attendant circumstances.

The evidence thereafter is conflicting. Section Foreman Samuel Mossop, who has worked for [illegible] years on the division, and seen hundreds of trains go down the grade, swears that he never before saw a train take the grade as fast as this one, and that he was so impressed with the danger of such a speed that he jumped into a field and called on his men to do the same.

On the other side, is the story of Hodge, the engineer, who says that he was running at a safe speed, with the brakes applied, when a jolt threw him off the brakes, the lever being in his hand, and that a moment later he felt the engine leaving the tracks and was hurled through his cab window.

Mossop places the speed of the train at 35 miles an hour, while Hodge says that it was less than 20.

Hodge was running the engine and should know, but the fact sustained the judgment of Mossop when he called to his men, "Jump the fence, boys, she'll hardly get round that curve." She did not get round that curve.

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

Two-Cent Fare Appeal.

Ottawa, Sept. 11.—The Grand Trunk appeal against the decision of the Railway Commission that the company must run third-class cars at two cents a mile fare between Montreal and Toronto, has been put down for hearing at the coming session of the Supreme Court.

Railway Escapes Liability.

Orangeville, Sept. 11.—By the death of Robert Carr of Shelburne from injuries received in the Caledon disaster, the railway escapes liability. He left neither parent, wife nor child.

Brothers Will Meet.

Paris, Sept. 11.—In a despatch from Casablanca, the correspondent of The Figaro says he learns from an excellent authority that the Sultan, Abd El Aziz, left Fez for Rabat on Saturday. He was accompanied by his court. The journey will take ten days.

The correspondent says he learns also that Mulai Hafig is about to set out for the same destination.

The meeting of the two brothers will result in an interesting situation.

Sheep and Lambs—Receipts, about 18,000; market strong; sheep, $3.80 to $5.50; yearlings, $5.75 to $5.85; lambs, $5 to $7.75.

WILL TAKE TWO YEARS

To Reconstruct Wrecked Portion of Quebec Bridge.

President Says Loss Will Only Be One-Fourth of First Estimate—Commission Continues Enquiry—Power of Inspectors Over Bridge-builders—Could Not Stop Work—Seven Bodies Recovered.

Philadelphia, Sept. 11.—David Reeves, president of the Phoenix Bridge Co., said yesterday, that, although the enquiry into the concern's loss as a result of the fall of the Quebec cantilever bridge had not been completed, he did not believe that the loss would be one-fourth as large as was at first supposed.

Other officials declared that the work of rebuilding the bridge would be continued if the Canadian Government did not object.

"Several weeks must elapse before any conclusion as to the cause of the accident can be reached," said one of them. "However, I can say that it will take two years of hard work to reach the stage of completion at which we stood when the accident occurred."

Quebec, Sept. 11.—Seven bodies of victims of the bridge disaster, were picked up in the river yesterday. Five of them are said to be McNaughton, Couture, DeListle, Johnson and French.

At yesterday afternoon's sitting of the bridge enquiry, Mr. Milliken continued his evidence, testifying that he was daily on the works with the foreman, and also inspected on Sundays during the absence of others.

Mr. McClure, assistant to Mr. Hoare, the Quebec Bridge Co.'s engineer, described his methods of inspection and said be watched the driving of all pins. In answer to Mr. Holgate, he said he could not stop the work on account of anything being unsatisfactory, but if such an occasion had arisen he would have reported the matter to Mr. Hoare. Mr. Kinloch, the inspector of material at the yards, under Mr. Hoare, for the Quebec Bridge Co., made weekly reports to the consulting engineer, Theodore Cooper of New York, who could stop the work whenever he deemed it necessary. He could not say whether or not Mr. Hoare had that authority.

C. H. Kinloch, inspector, testified that he reported to Mr. Hoare, and that he was supposed to see that the iron was in good shape before it went into the bridge. He inspected it as to workmanship when it arrived from the yards by cars. That he found wrong was trivial. He said he really had no jurisdiction over the men except by taking the matter up with Mr. Hoare or through the foreman. If he had found rivets not properly driven he would have had them cut out and the work done over again.

His instructions from Mr. Hoare were to make everything perfectly safe.

Judge Scores Police.

St. Catharines, Sept. 11.—At a meeting of the police commissioners, Chief Parnell reported that P. C. Loosemore had been picked up on King street in the morning in an intoxicated condition.

Judge Carman strongly censured the local force, saying: "Things have come to a pretty pass when everyone in the city knows the constables are good for nothing, and it is up to us to reorganize it. This man is not the only one on the force who has been drinking continuously. All the men are good for is to catch boys."

Loosemore was discharged, and Wm. Goff of Beamsville was put on for a month's trial.

Prize Court at The Hague.

The Hague, Sept. 11.—The committee of the Peace Conference, to which the question was submitted yesterday, approved by a vote of 28 to 2 the project providing for the establishment of a supreme tribunal to deal with prizes captured at sea.

The tribunal will be composed of permanent judges from Great Britain, the United States, Russia, Germany, Austria-Hungary, Italy, France and Japan, the smaller nations having a judge only for a number of years, proportioned to the tonnage of their mercantile marine.

Finds Wreck of 1883.

Dunkirk, N. Y., Sept. 11.—Gus Ormsby, a fisherman, while lifting his nets off Vanburen Point, in Lake Erie, discovered the wreck of the propeller Dean Richmond, which was lost in a storm, with all on board, during a gale in October, 1883.

The Dean Richmond has a cargo of lead and copper ore valued at $200,000, and vain attempts had been made by the underwriters and by private enterprise to locate the bones of the treasure ship.

Nineteen Days' Strike Over.

New York, Sept. 11.—After being on strike for 19 days, the meat wagon drivers employed by the Wholesale Butchers' Employers' Association have returned to work.

New Zealand's Title.

London, Sept. 11.—(C. A. P.)—A royal proclamation has been issued announcing that New Zealand shall be designated the Dominion of New Zealand after Sept. 26.

Soldier Hanged.

Moscow, Sept. 11.—A soldier named Tchernitsky was hanged here yesterday for permitting six political prisoners to escape while he was on guard over them.

New South Wales Elections.

London, Sept. 11.—(C. A. P.)—A cable from Sydney says the results of the New South Wales elections thus far show that a Government majority is assured.

Four More Battleships.

St. Petersburg, Sept. 11.—The Novoe Vremya says it learns that the Ministry of Marine is about to order four battleships of 21,000 tons.

Hyman Hall, the Liberal rendezvous in London, will be opened on September 26.

ARMY BALLOON GOES WRONG.

Makes Circle of Two Miles and Settles in Trees.

Farnborough, Eng., Sept. 11.—The new airship designed for the British army, following the example set by the French and Germans in aerial navigation, made an ascent from here yesterday in charge of Col. Capper, Capt. King and F. S. Cody, the American, who has spent a number of years in the British service, in charge of the kite section of the army.

After making a semi-circle of about two miles around Farnborough and Cove Common, an accident occurred to the engines and, in spite of the throwing out of ballast by the aeronauts, of which the airship carried 800 pounds, the dirigible balloon settled down into some trees. It was said that the defect which developed was only slight, and can easily be remedied.

During the trip the wind blew at the rate of 15 miles, against which the airship had no difficulty in navigating.

The balloon portion of the airship is cigar-shaped, has a capacity of 7,500 cubic feet. The car is made of aluminum and canvas.

SHOOTS WOMAN IN COURT.

Prisoner Makes Sensational Scene and Escapes.

Niagara Falls, N.Y., Sept. 11.—Monday afternoon Burt Carpenter went to the house of Mrs. Elizabeth Creighton, 30 years old, at Lewiston, and on her refusing to admit him he kicked the door in. Later he was arrested and spent the night in the lock-up.

Yesterday morning Carpenter was arraigned in the police court and sentenced to 60 days in the Niagara County Jail. As he was being taken from the courtroom he met Mrs. Creighton, and before the officer could prevent it he shot her through the body. The woman was brought to a hospital in the city in a serious condition.

During the excitement, Carpenter escaped, but a posse of citizens went in pursuit of him.

Killed by Burglar.

Norfolk, Va., Sept. 11.—Mrs. Mary Lawless Rorchack, wife of Lieut. Frank Rorchack of the U. S. navy, and sister of Joseph T. Lawless, former secretary of the Commonwealth of Virginia, was murdered in her home in Portsmouth by an unknown burglar early yesterday.

She was shot through the heart with her own pistol, taken from her hand by the burglar after she had fired twice at him through an open door leading into the kitchen, where he was cornered.

Samuel Graham, one of the pioneer residents of Owen Sound, is dead.

The new Homewood Sanitarium at Guelph will be formally opened on October 3rd.

John O'Connor, one of the survivors of the Desjardines disaster, died in Hamilton, yesterday.

Jubilee Point Very Popular

Many American Guests at This Resort—Fishing and Duck Shooting Excellent

Fishing in Rice Lake this past season has been better than ever before and Rise Lake resorts have been extremely popular.

Mr Ernie Tovey returned from Jubilee Point last evening, where he spent two very enjoyable weeks. Mr. Tovey was not at all unlucky, with the rod and the line, as he came home with three fine 'lunge, one of them weighing twelve pounds. Everybody is having good luck fishing in Rice Lake this season, Mr. Tovey says, and many are the regrets that this popular pastime will soon be at an end for this year.

Mr. J. Gilman, proprietor of the Jubilee House, has had an excellent season and the hotel has been crowded with guests all summer. There are at present ten Americans at Jubilee House and they are greatly delighted with Jubilee and Rice Lake. The thirty pound 'lunge, Mr. A. Metheral's little daughter caught near Jubilee a week ago, has stimulated interest in this resort and made it more popular than ever. Mr. Tovey stated that almost every guest and especially the Americans, had it photographed.

The duck shooting at Rice Lake is also good, and many are remaining at Jubilee for this sport.

The Semi-Annual Opening of the J. C. Turnbull Co.'s Ready-to-wear Millinery, Coats, Skirts, Blouses, etc., takes place on Thursday, Sept. 12th, when they will make a showing of all the latest styles in the above lines.

ONE PAIR OF EYES
FOR A LIFETIME

This is the reason we look upon the proper examination of the eyes as a serious thing. If you come to us, you can come with the full assurance that you will be told whether you need glasses or not.

We are not in business to "sell glasses." The retention of your patronage and of your commendation are far more valuable to us.

Determining errors of refraction and fitting the proper spectacles and eyeglasses to correct these errors is our whole business.

All our work is guaranteed.

OBITUARY

MR. D. J. MUNGOVAN

Orangeville, Sept. 10.—Mr. D. J. Mungovan, for twenty years editor of the Dufferin Post at Orangeville, died this morning after an illness of several months. Mr. Mungovan was educated with a view of entering the Roman Catholic priesthood, but abandoned that for law, and later took up journalism, for which he was particularly qualified. He wielded a facile and vigorous pen and was notwithstanding the loss of his sight one of the best informed editors in this part of the province. Mr. Mungovan leaves a widow and five children.

The late Father Mungovan, of St. Michael's College, was a brother of the deceased.

Conference on Y.M.C.A. Work

Local Representatives Attended the Recent Gathering

On Thursday of last week, in Toronto, the provincial committee of the Y.M.C.A. held a conference with the presidents and vice-presidents of the different Y.M.C.A.'s throughout the province.

There was a thorough discussion of the field, the various lines of work, and the plans of the provincial committee to meet those needs.

In the evening those present were entertained at dinner at the Queen's hotel, by Mr. John Penman, of the committee. A very enjoyable time was spent.

Mr Robt. E. Harding, president of the local Y.M.C.A., was present. Messrs. J. C. Shook, vice-president and G W. Roger, of the provincial committee, were also present.

Baptists do Not Want Union

Deline to Unite With the Other Churches

A Toronto despatch says:

The Baptists decline to unite with the churches which are at present in Canada negotiating with a view to union, and which invited them to enter into conference with them. They find "a fatal impediment" in the practice of infant baptism, also in the adoption of any other mode than immersion; they desire to avoid all alliance with secular authorities; they will not identify themselves with creeds which have any tendency to establish a human standard over conscience; and they recognise no claim to ecclesiastical succession. Such is the substance of the reply presented yesterday afternoon to the Joint Committee of on Church Union of Presbyterians, Methodists and Congregationalists, by the committee of the Baptist Convention of Ontario and Quebec on Church Union. This meeting took place in the Metropolitan Church at 3 o'clock.

The Tendency Seems to be Toward Higher Milk Prices

Peterborough is not the only place where milk is likely to be 7 cents per quart during the coming winter. Brantford householders are up against it too, as the following paragraph, from the Expositor, of that city, will show;

"The retail milk dealers of the city last evening held a meeting at which most of the dealers were in attendance, when an advance in the retail price of milk was considered and strongly urged by the majority present. The meeting was called consequent upon the raise in the wholesale price recently made by the producers to 16 cents per gallon. With one single exception, at last night's meeting, the retailers were in favor of an advance to seven cents per quart to the consumer. The dealer in question held out to the very last of the meeting, which was in session until one o'clock this morning, no agreement being finally reached. The objection to the raise to 7 cents was made on general principles against unnecessarily raising the cost of living. The meeting broke up with no unanimous decision having been arrived at, and it is likely another meeting will be called.

Good Wages Being Paid But Scarcity of Men

Mr. George Strain, of this city, agent for the Turner Lumber Company, whose headquarters are at Worthington, Ont., was in the city from Belleville last night with a gang of about 20 men to work in the com- entire party dined at Spence's restur- pany's camp at Worthington. The ant.

Mr. Strain says the prospects for a successful season in the woods are excellent, but remarked that there was a dearth of men. The wages run from $35 to $40 a month and board. Mr. Strain will be in Lindsay during the latter part of this week hiring men and will visit this city next week. He has been on the road for some time engaging men in the different towns for the various camps of the company and has secured about 250, but requires fully 200 more.

INTERESTING STATISTICS

The following interesting statistics as to the population, assessed values, taxation, debenture debts and sinking funds of Peterborough county, and the different municipalities thereof, and also of Peterborough city, are from Municipal bulletin No. 1, of the Bureau of Industries of Ontario, which has just been issued. The figures are for 1906:

Peterborough county, debenture debts $92,361, sinking funds $15,429.

Asphodel township, population 1,574, assessment $884,691, municipal taxes $6, 313, school taxes $3,908.

Belmont and Methuen townships, population 1,802, assessment $231,601, municipal taxes $3,366, school taxes $4,230, debenture debt $1,980.

Burleigh and Anstruther townships, population 607, assessment $110,583, municipal taxes $1,841, school taxes $1,242, debenture debt $1,203.

Chandos township, population 642, assessment $86,031, municipal taxes $1,413, school taxes $1,592.

Douro township, population 1,659, assessment $813,923, municipal taxes $4,900, school taxes $3,539, debenture debt $4,492.

Dummer township, population 1,623, assessment $[illegible],835, municipal taxes $3,750, school taxes $3,833.

Ennismore township, population 854, assessment $355,390, municipal taxes $2,024, school taxes 1,586.

Galway and Cavendish townships, population 788, assessment $55,721, municipal taxes $496, school taxes $1,000.

Harvey township, population 1,010, assessment $219,703, municipal taxes $1,667, school taxes $2,678, debenture debt $2,838.

North Monaghan, population 947, assessment $630,668, municipal taxes $3,509, school taxes $1,793.

Otonabee, population 2,885, assessment $2,010,679, municipal taxes $10,991, school taxes $8,932, debenture debt $760.

Smith township, population 2,518, assessment $1,597,465, municipal taxes $8,405, school taxes $7,357, debenture debt $600.

Havelock, population 1,199, assessment $173,918, municipal taxes $2,463, school taxes $2,500, debenture debt $2,638.

Lakefield, population 1,435, assessment $496,975, municipal taxes $1,358, school taxes $2,734, debenture debt $28,761, sinking fund $9,921.

Norwood, population 896, assessment $246,147, municipal taxes $3,152, school taxes $2,774, debenture debt $4,155,

City of Peterborough, population 14,962, assessment $8,660,210, municipal taxes $80,976, school taxes $44,677, debenture debt $820,893, sinking fund $158,209.

Dr. Gray Does Not Intend Obeying Board of Health

Will Not Report Cases of Contagious Disease Unless Paid for it—Position of the Medical Profession

Dr. Gray does not take kindly to the action of Chairman Eyres of the Board of Health in notifying the medical practitioners of the city that they are required to report all cases of contagious diseases to the Board of Health. The doctor has given the following statement to the Review regarding the matter:—

"As the medical profession of the city of Peterborough have been notified and requested to report all cases of infectious diseases, it is impossible for the city to obtain this information from any other source under Heaven than from the medical profession.

The medical profession owes nothing and is under no obligation to any Government, city or municipality under the sun; but on the contrary it is persecuted and taxed by all these bodies to the last farthing for being in a position to give the information demanded of them.

The ability to give this information we, the medical profession acquired by incessant night and day toil, and in acquiring this information some of us have spent a life-time, and not at the expense of any Government, city or municipality, but at our own, and as we have to bear our share of all other expenses in connection with the government of the city of municipality we are quite willing to bear our share of the expense of obtaining what the city has demanded and what it must pay for.

To be more explicit—It is required of the city of Peterborough or any other municipality which wishes to obtain the information demanded, that they take active measures to provide for said payments, as all information and services will be withheld till they are paid for. In regard to medical attendance upon cases of contagious diseases the city is in duty bound to pay for such medical attendance and also for medicine supplied, inasmuch as the patient is not responsible for his illness, which is due to the unsanitary condition of the city, and the responsibility is, therefore, placed upon the city itself. In view of these facts if I furnish the information demanded, it will be done under the following tariff of fees which will be charged to the city:—

TARIFF OF FEES.

For reporting a case of TYPHOID FEVER, $10.

For attendance on same till convalescence, per day, $2.

For medicine or prescription, extra, per day, $2.

For night visit for typhoid fever $4.

For reporting a case of DIPHTHERIA, and having report verified by the Provincial analyst, $50.

For daily attendance on same till convalescence, per day $10.

For medicine or prescription, extra, daily, $2.

Night visits for diptheria, $15.

For reporting a case of SCARLETINA, $10.

For attendance on same till convalescence, per day, $10.

For medicine or prescription, extra, daily, $2.

For night visits for Scarletina, $15.

For reporting a case of MEASLES, $10.

For attendance on same till convalescence, per day, $2.

For medicine or prescription, extra, daily, $2.

For night visits for measles, $4.

For reporting a case of SMALLPOX, $100.

For attendance on same till convalescence, per day, $100.

For medicine or prescription, extra daily, $5.

The above is my tariff of fees, and as the time has come, when no person gives his services gratis, it is incumbent on the governors of the city of Peterborough, to comply with the same, or the information required will be withheld. Unless the necessary fees are forthcoming when required, the information demanded will not be supplied.

(Signed.) J. W. GRAY, M.D.

Peterborough, Sept. 10, 1907.

Better Clothes

Port Hope Barbers to Join The Peterborough Union

Local Organization Widening its Sphere of Influence—Membership Will be Considerably Increased.

The Peterborough barbers' union is steadily widening its sphere of influence. A few weeks ago several Havelock manipulators of the razor and scissors joined the local organization and now the Port Hope barbers are going to join with the locals.

The barbers in the town by the lake have been anxious for a union for some time but according to the regulations of the international union a local union cannot be formed without a certain number of members. Port Hope did not have the required number of barbers and consequently a local union could not be organized.

Realizing, however, that benefits were to be derived from unionism the Port Hope knights of the razor decided that the next best thing to do would be to join the union at Peterborough, and this they are going to do. The secretary and president of the local union are going to Port Hope this week to arrange the matter and it is exepected that the majority of the lake town barbers will join. They will have the same standing as members of the union residing in Peterborough and their shops will be governed by the same regulations as local union shops. The local union will be greatly strengthened by the addition of the Port Hope men.

New Teacher for Collegiate ; Mr. J. W. Harvey is Appointed

Committee Met Last Night and Also Selected Miss Carlisle as Teacher on Public School Staff—New Janitor for King Edward School.

Mr J. W. Harvey, B.A., of Keswick Ont., has been appointed to the position of junior assistant on the Collegiate Institute staff, at a salary of $1,000 per annum. He was the choice of the Committee on Appointments of the Board of Education, which met last evening.

Mr. W. H. Hill, chairman of committee, was in the chair, and considerable business was transacted.

The committee had received several applications for the position on the Collegiate staff, but Mr. Harvey's qualifications seemed to appeal more strongly to the members. He was therefore recommended for for the position.

Mr. Harvey is a graduate of Queen's University, and has had several years experience in teaching. He comes highly recommended. He will no doubt prove a valuable addition to the already efficient staff of the Collegiate Institute. He will commence his duties at as early a date as possible.

OTHER APPOINTMENTS.

Miss Ruth Carlisle, of this city, was also recommended to a position on the staff of the public schools at an initial salary of $400. Miss Carlisle is a graduate of the Hamilton School of Pedagogy, and holds a first class professional teacher's certificate. She is at present engaged as supply teacher at Norwood.

NEW JANITOR.

Mr. W. Avery, of this city, was recommended by the committee to the position of janitor at the King Edward School, at a salary of $480 per annum.

Considerable other business was transacted, which, with the above appointments, will be reported to the Board for ratification at their next meeting.

THE PETERBORO' COLLEGE OF MUSIC

Mrs. W. J. Morrow, F.N.C.M., Principal, opens Monday, Sept. 9th. Intending pupils in vocal and instrumental instruction can arrange for hours between 10 and 12 a.m. and 2 and 9 a.m. 12d

THE CITY AND VICINITY

EVENTS TO-NIGHT

Grand Opera House. —Big Conservative mass meeting to be addressed by Mr. R. L. Borden, Conservative leader, and others. All are welcome.

Y.M.C.A. Hall—Harriers' Club will have a run at eight o'clock.

BROTHERHOOD OF ST. ANDREW.

The Brotherhood of St. Andrew will meet tonight at eight o'clock sharp in the Guild Room of St. John's Schoolhouse.

ESTURION LAID OFF.

The Esturion was laid off for the season at Bobcaygeon, last night. Boyd's yacht, the Calumet, is to take the lower lakes trip till the end of the season.

LEAVE UNIFORMS.

The members of the 24th Field Battery are requested to leave their uniforms, either at Mac's tobacco store, or Storey & Leary's at once with names of those who leave them on parcel.

LADIES' MISSION CIRCLE

The Ladies' Mission Circle of Murray street Baptist church met yesterday afternoon for the first time since the holidays. A large number were present. Mrs. (Dr.) Hunter, president, was in the chair and the plans for the winter work were discussed.

AT ST. PAUL'S.

The regular prayer service will be held in St. Paul's church this evening. Rev. Dr. Tuffts, who spoke so acceptably on Sunday will give an address at the meeting tonight. Dr. Tuffts returns to Nova Scotia tomorrow.

ALL'S WELL.

Mr W. J. McCallum today received a card from Mr. C. H. Sawle, formerly city editor of this journal but now occupying the more responsible and dignified position of managing editor of the Preston Progress. Mr. Sawle says he is very busy and apparently likes the town.

HARVEST FESTIVAL.

The annual harvest festival at St. Luke's church will be held on Thursday, Sept. 19, at eight o'clock. The Very Reverend, the Dean of Ontario, Dr. Farthing, will be the special preacher. The friends of St. Luke's are requested to contribute grain, vegetables and fruit by Sept. 16, at the church.

PRAYER MEETING.

Rev. Dr. Langfeldt will conduct his weekly cottage meeting on Wednesday, Sept. 18, at the residence of Mr. J. F. Quinn, Warsaw Road, at 8 p.m.

NEW GAS MAIN.

The gas main is being extended on Water street from Dublin to London. There has never been gas in that part of Water street. A five inch pipe is being laid.

CHOIR PRACTICE.

A practice of St. Andrew's choir will be held on Thursday evening. A full attendance of all members is requested, to prepare for fall and winter work.

MISSION BAND

The Ladies' Mission Band of St. Andrew's church met last evening, but owing to the disagreeable weather the attendance was small. Miss M. Edmison was in the chair and a vocal solo was given by Miss King.

NEW VEHICLE.

Mr. A. Gibbs, received a beautiful new landau from a Toronto firm of manufacturers. It is artistically furnished and fitted with solid rubber tires and is valued at $1,200.

BERLIN WATER SUPPLY.

The output of the nine wells now connected with the compressor at the Berlin waterworks supply, was tested on Friday afternoon and the flow per 24 hours was guaged to be 1,356,825 gallons. The engineer says that when the twelve wells are hitched up the flow will easily be a million and a half gallons a day.

WOODMEN'S UNVEILING

The members of Sherwood Forest Camp No. 50, Woodmen of the World are requested to attend the unveiling of the monuments, dedicated to the late Sovereigns—R. Foster and F. Wyatt, at Little Lake cemetery, on Sunday afternoon next, Sept. 15th at 3 p.m. Camp meets in hall at 2.30 A full attendance is requested. 3d

The J. C. Turnbull Co. extends a cordial invitation to the ladies of Peterborough to attend their Semi-Annual Opening of Ready-to-wear Millinery, Coats, Skirts, etc., on Thursday, Sept. 12th.

ROUTLEY'S COMFORTING PRICES

Lindsay Post; Mr. W. J. O'Brien, of Peterborough, had business in town today...Mr. J. Ingles and wife, of Peterborough, were in town today...Mr. J. E. Joyce, of Peterborough was in town today...Mrs. Jobbitt left on Monday for Western Canada.

The many friends of Dr. R. A. Wood, who has been suffering from a severe attack of typhoid, will be pleased to learn that he is now convalescent and will probably be able to resume his practice in a week or two.

Mr. F. C. Hamilton, of the Toronto News; Mr. T. W. King, of the World Mr. H. A. Bell, of the Mail & Empire, and Mr. William Banga, of the Globe, are in the city. They are following Mr. Borden on his Ontario tour and will report tonight's big meeting in the Grand Opera House for their respective papers.

Karnots are Out for Junior League

Organization Meeting Last Night at Y.M.C.A. Parlors

An enthusiastic meeting of the Karnots was held in the Y.M.C.A. parlors last night, about a dozen members being in attendance. It was decided to enter a team in the junior football league should one be formed, and the first practice will be held at Nicholls Oval on Saturday next at 12.30. As there are about twenty-five men available, it is presumed the turn out will be a particularly large one. The prospects for the season were thoroughly discussed at last night's meeting, and it is thought the outlook is bright. The name Karnots was adopted instead of that of Rough Riders, on account of most of the members having been identified with the Karnot hockey and ball teams. The membership fee was fixed at 50 cents. The officers elected were;

President, C. R. Banks.
Secretary-treasurer, C. Waneham.
Manager, E. Dingman.
Captain, N. Gall.
Committee, L. Johnston, V. Carton, and P. Porter.

The Crescents are the only other juniors in view who will have a team but other organizations will probably get together later on.

Lulu Chimes Looks To be a Good One

Lulu Chimes, by Holly Chimes, has been placed in the hands of Dr Johnston, by her owner, Mr. McKiver of Smith, and the latter tried her out at the fair grounds yesterday afternoon. She went a mile in remarkably fast time, considering she is a green girl and was hitched to a "bike" for the first time. "Doc" will campaign her in the slow classes at the Lindsay, Campbellford, Millbrook and other fairs this fall. She may start also at the local exhibition.

BASEBALL

The final game for the championship of the Midland League will take place in Cobourg next Saturday afternoon, Peterborough refusing to play on any other neutral grounds. A special train will bring the Peterborough contingent, and a large crowd of Port Hopers will accompany the locals.—Port Hope Guide.

WILL HAVE DANCE

The Port Hope Guide says; The city fathers last evening granted the Baseball Club the use of the town hall for their annual dance on Thursday evening, Sept. 12th, and now all is in readiness. The committee of ladies met last night and they will take charge of the supper, which means that everything will be up-to-date.

RUGBY

They evidently have no intention of playing Rugby in Berlin this year. The intermediate hockey seven have already had their organization meeting and will enter a team in the O. OH.A. the coming season.

The Crescents will practice tonight at Central Park.

Don't forget the meeting at the Oriental Thursday night. If you are interested, come brother, come!

THE RING

Joe Gans, the dusky pugilist and world's light weight champion, trimmed Jimmy Britt at San Francisco last night in five rounds. Britt quit at the end of the fifth round, claiming his arm was broken, so Referee Walsh awarded the contest to Gans.

THE TURF

At the workout at the Driving Park yesterday afternoon, Black Cloud, McCallum's green stepper, did a mile in 2.29 1-4, which is raising the dust some.

Mr. Geo. Fife of Keene, has brought back his brood mare, the dam of Maud Keswick, 2.08 1-4 to his farm. She has been in Lindsay during the summer season.

Mr. Fife has a likely looking colt, sired by Orin Wilkes, 2.11 1-4, from which something in the way of speed is anticipated.

DOCTORS IN TURN FAILED BUT ZAM-BUK CURED:-

Magistrate F. Rasmussen, writing from his residence, 211 Marquette St., Montreal, says: "I take genuine pleasure in informing you of the great good I have derived from Zam-Buk. For many years I was troubled with a serious eruption of the skin, which was both unsightly and painful. Not one, but several doctors in turn were consulted, but I was unable to get any permanent relief. Some time back I noticed a report from a Justice of the Peace who had been cured of a chronic skin disease by Zam-Buk, and I determined to give this balm a trial. After a thoroughly fair test, I can say I am delighted with it. While everything else I tried—salves, embrocations, washes, soaps and doctor's prescriptions failed absolutely to relieve my pain, three boxes of Zam-Buk have worked a complete cure. In my opinion this balm should be even more widely known than it is, and in the hope that my experience will lead other sufferers to try this herbal healer, I have no objection to you publishing this letter. Yours truly,

(Signed) F. RASMUSSEN, Justice of the Peace.

[illegible] eczema, rashes, sunburn patches, children's head sores or babies' chafing sores, cuts, burns, bruises, insect bites and stings and all skin injuries and diseases yield to Zam-Buk. All stores and medicine vendors sell at 50c a box, or post free from Zam-Buk Co., Toronto, 6 boxes for $2.50. (C. E. Fulford, Limited.)

ZAM-BUK CURES ANOTHER MAGISTRATE

Committee Discusses Some Fire Alarm System Matters

Gong at the Fire Station Does Not Work Properly and There are Some Complaints About the Bells in the Firemen's Houses—Action Taken.

Some defects in connection with the new alarm system were taken up at the meeting of the Fire, Water and Light Committee last night. Ald. Johnston, chairman of the committee, was in the chair and the others present were Mayor McWilliams, Ald. Duncan, Ald. Bradburn, Ald. Morgan and City Clerk Armstrong, and Mr. Pakenham, foreman of the fire station.

The fact that the gong in the fire station is not working properly, and that some complaints are still coming in regarding the bells in the firemen's houses led to this matter being taken up by the Fire, Water and Light Committee, with a view to having the defects remedied. Mr. Pakenham was asked to be present at the meeting to furnish as much information bearing on the question as possible.

After Ald. Johnston had introduced the matter, Mr. Pakenham stated that the gong did not ring properly. Frequently it does not strike the right number, and as a result, is far from satisfactory. Mr. Pakenham stated that the gong had never worked right. Mr. Murdock, the representative of the Northern Electrical Co., who were connected with the installation of the system, had examined the gong a few days ago, and gave the opinion that the battery was too weak. A new battery would be necessary if this was where the defect existed.

"What about the bells in the firemen's houses?" asked the Mayor; "do they ring loud enough now?"

"They are the same as when the system was installed," replied Mr. Pakenham. "Nothing has since been done, and there are still some complaints about them."

The bells do not ring loud enough to suit some of the firemen.

"What about the bell in the chief's house?" asked Ald. Morgan.

THE CHIEF SATISFIED.

Mr. Pakenham stated that the chief of the brigade was satisfied with the bell in his own house. Chief Rutherford had the bell in his room, and it worked satisfactorily.

The Mayor drew attention to the contract that had been signed between the city and the Bell Telephone Company in connection with the installation of the system. It called for a complete fire alarm system in perfect working order, before May, 1907.

Ald. Bradburn said that the bells in the firemen's houses worked perfectly, but the complaint was that they did not ring loud enough.

The Mayor said that perhaps the bells were not placed in proper position in the houses.

After some more discussion Ald. Bradburn moved that the chairman of the committee see Mr. Doan and have him write to Mr. Murdock, regarding the gong in the fire hall and the bells in the firemen's houses.

The motion was seconded by Ald. Duncan and carried.

Ald. Johnston explained the difference in cost between the bells that have been installed and another kind of different construction, which were reputed to be better. Thirteen bells of the latter type would cost $90. The kind put in were considerably cheaper than this. It is probable, however, that the more expensive ones will yet have to be put in.

ANOTHER MATTER.

Some discussion took place as to the advisability of having fire alarm bells placed in houses of the engineer and drivers of the fire brigade, but no decision was reached. It is likely, however, that this will be done, especially in regard to the house of Mr. Wainwright, engineer of the brigade. If he is at home when a fire breaks out there is no way of summoning him unless some one is sent to the house.

The chairman of the committee was instructed to see Mr. Doan and ascertain what the cost of installing bells in the engineer and drivers' houses would be.

Passing of a Schoolmaster; Brockville Paper's Article

The Times Comments Upon Mr. Mowat's Removal to Peterborough—A Representative of the Best Type.

The Brockville Times has the following interesting article in connection with the removal of Mr. A. Mowat, B.A., to Peterborough, to become Inspector of Public Schools:—

In these days of change and rush and hurry it is sometimes taken for granted that men will come and men will go and society and institutions will wag along quite heedless and almost independently. That is true to an extent. But the conditions which permit such a sentiment to take possession are not the best, nor are they the safest. Men ought to count, men do count—count far more than the keenest and wisest can tell, and the passing of a good man from a community is a wrench from which the community does not recover for many days.

The days of schoolmasters have almost gone. Schoolmasters were permanent blessings sent to a community to form and fashion the mental and moral and oftimes the spiritual ideals of the various generations as they passed along. Each community had its own particular type of schoolmaster, and invariably the life of the community reflected the individuality of the schoolmaster. Unfortunately these days are almost gone from us, and instead of the old "dominie," we have machine made teachers, turned out in batches, each one of which must conform to the type.

Brockville has known perhaps every type of teacher and master, and while trying to reconcile itself to the fact that the other days and the other types had departed for ever, it suddenly wakened up to the fact that it had a schoolmaster in its midst all the time, and knew it not.

Six years ago when Alexander Mowat came to take charge of the Collegiate Institute, a feeling of confidence seemed to take possession of school and community. The man himself inspired that feeling. He has all the modern qualifications. His papers told the story to the Board that he had satisfactorily passed all the examinations, to say he might teach. But he was far more than that. He was a schoolmaster—a dominie of the old type.

For six years he has lived in the school, and for the school, and two things caused him to lose much sleep. One was when a pupil was not doing the right thing, and that made him worry. The other was when a pupil was showing up unusual marks of brilliancy, he was so elated he could not sleep. At any rate every pupil in the school, and long after school days were over, was a matter of the deepest concern to Mr. Mowat. His own sense of righteousness was communicated to the school, and the knowledge of how Mr. Mowat would feel if he knew, has prevented many a mean thing being done. The success of the school has been a proud record for Brockville. The most brilliant students in Queen's and Toronto and Montreal came from his hands. This is a statement made advisedly, for the past six years has made Brockville school the best in the Province.

Mr. Mowat as a citizen will be much missed. He was interested in everything, and his appearance as a speaker or a lecturer always insured an audience, and his evenings with one or other of the poets, were always looked forward to with interest.

He was a rare sport, and to see him send a stone on the rink, or make a smash on the golf links, was worth the price of admission. He was in earnest in everything he did, and a sense of irreparable loss has come to Brockville. Those in authority may not feel that anything could have been done, but when will the lesson be learned, that while appreciation cannot be measured in dollars, more of them ought to be given to the men that count in a community, and Mr. Mowat counted! Brockville's young people were being taught ideals, and these are better than trades. In the meantime Mr. Mowat's departure is the passing of a real schoolmaster of the best type.

HARD ON BOATS NEAR LINDSAY

Both the Kathleen and Manita managed to make the town wharf this morning. The crew of both boats say it is almost ruinous to the boats to bring them up, since they rubbed on bottom from near Carew's mill to the dock. The water, they say, will have to raise a foot before the passage can be attempted with safety. It has gone up about four inches during the last week.—Lindsay Post.

Remains Were Laid to Rest

Funeral of Late Jas. Ames Took Place Yesterday Afternoon

The remains of the late James H. Ames, whose death occurred on Sunday afternoon, were borne to their last resting place in Little Lake cemetery yesterday afternoon at 3 o'clock, and the funeral cortege was very large.

The service at the family residence, 181 Edinburgh street, was conducted by Rev. E. A. Pearson, pastor of the George street Methodist church, of which the deceased was a prominent member. Rev. Wm. Ames, of Woodstock, only brother of deceased, referred in touching terms to the upright and Christian life of the departed.

At the grave Rev. Mr. Pearson had charge of the service.

The pall bearers were Messrs. R. Green, Jas. Stenson, Jos. Foster, Wm Miller, C. Mitchell and James Might.

Many beautiful floral offerings testified to the high esteem in which the deceased was held by a large number of friends.

EXCURSION OF AUBURN MILLS

Will Take Place to Cobourg on Saturday September 21st.

The annual excursion of the Auburn Woollen mills will take place on Saturday, September 21st, to Cobourg, which will no doubt be welcome news to a large number of people. A special train will leave here in the morning and will return in good time in the evening.

No prettier spot could be selected for an excursion than this town. Being close to Lake Ontario, additional attractiveness is given the place and it has been the rendezvous of many excursionists this summer. It is likely a big crowd will take in this outing.

PATIENTS NEED HAVE NO KICK

Aftermath of Smallpox Outbreak at Lindsay

The Lindsay Post says; The Board of Health's expenditure in the recent smallpox cases, which cost the town, altogether about $500, and the grocer's bill, showing oranges, bananas and other luxuries that had been supplied the patients, were discussed at a meeting of the property committee. The account, which had been rectified by the Board of Health, was looked upon by the committee, as being beyond all reason, and it was suggested by one member that it would be to the interests of the town—at least financially,—if a change were made in the offices of Medical Health Officer and Sanitary Inspector, as it did not seem their policy to see what expense the town could be saved in such cases, but rather the reverse. The view expressed by the committee was that where a patient was in good circumstances they should at least be charged with a portion of their expenses.

WEDDING BELLS

PUFFER—CORNISH

The marriage of Mr. E. A. L. Puffer, of Toronto, and Miss Nellie Maud Cornish, of 140 London street, was quietly solemnized at St. Andrew's manse yesterday afternoon by Rev. Dr. Tuffts, of Stellarton, N.S., who officiated in the absence of Rev. Mr. Potter. Miss Mabel Sharpe, a cousin of the bride, was bridesmaid, while her brother, Mr. William Sharpe was groomsman. The bride was charmingly attired in a travelling suit of brown ladies' cloth.

The groom's gift to the bride was a silver tea service, to the bridesmaid a gold locket, and to the groomsman, a gold tie pin, set with pearls.

The bride, who is a niece of Mrs. Wm. Sharpe, London street, with whom she has lived for the past two years, coming here from Port Hope, is very popular among her friends, as was shown by the numerous and handsome presents she received.

Mr. and Mrs. Puffer left on the 4.45 C.P.R. train for Niagara and other points, followed by the best wishes of a host of friends.

Upon the conclusion of their honeymoon trip, they will reside at 363 Margarette street, Toronto.

A WINDSOR LADY'S APPEAL

To All Women: I will send free with full instructions my home treatment, which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the Womb, Painful or Irregular periods, Uterine and Ovarian tumors or growths, also Hot Flushes, Nervousness or Melancholy, Pains in the Head, Back, or Bowels, Kidney and Bladder Troubles where caused by weakness peculiar to our sex. You can continue treatment at home at a cost of only about 12 cents a week. My book, "Woman's Own Medical Adviser," also sent free on request. Write today. Address Mrs. M. Summers, Box H. 64, Windsor, Ont.

He Will Reside in Peterborough

Presentation to Mr. Jos. Dwyer of Lindsay

The other evening a pleasant affair took place in the rooms of the Catholic Literary Society, when Mr. Jos. Dwyer, who has all summer acted as trainer and manager of the Society's ball team in the town league, was presented with a handsome shaving set and smoking outfit as a token of the boys' appreciation of his valued services and his never flagging interest in their work on and off the field.

President J. Rogers called the meeting to order, and after referring briefly to Mr. Dwyer's great work for the hockey and ball teams, he was followed by Ven. Archdeacon Casey, R. Kylie, R. Spratt, R. J. Bagley, T. Burke, J. Fleury, J. Gillogly and others, each of whom made reference to the loss the Society was about to sustain through Mr. Dwyer's departure, and the difficulty that would have to be faced by the athletic bodies of the Society in securing as capable and popular a trainer. All joined in wishing the recipient of the gifts every success in his new home on the banks of the Otonabee.

Mr. Dwyer made a brief but feeling reply, expressing his regret at leaving the good old town and comrades, but the change was to his own advantage. He thanked the hockey and ball team for their loyal support—whatever success they had attained was the result of their earnest endeavors to excel by fair means.

Mr. Dwyer has secured an excellent position in the Peterborough Shovel Works, and will remove his family to that city in the near future.—Lindsay Post.

Fell Off Street Car in Toronto

Mrs. Mulligan of Peterborough County Sprained Her Wrist Severely

As a result of falling from a Yonge street car, Toronto, Monday afternoon, a lady, who gave her name as Mrs. Mulligan of Peterborough county had the misfortune to severely sprain one of her wrists. She was getting off the car, but stepped off before it came to a standstill. The result was, she was thrown heavily to the pavement, sustaining the injuries noted above. She was able to proceed to her destination almost at once. The lady was an exhibition visitor in the city, and a Peterborough man was on the car and witnessed the accident.

Capt. Hurd at the S. A. Barracks

Owing to the exceedingly heavy rain that fell last evening, the attendance at the lecture at the Salvation Army barracks, was rather small. Capt. Hurd of Montreal, financial secretary, of the Army for the Eastern Provinces, gave an impressive address on "Rhoda, or the Gypsey Girl's Mission of Love." Fifty stereopticon views added greatly to the interest of the lecture. The story is one of a girl's devotion to her home and father. After the girl had been sold by her father, unknown to her parent, she comes back to attend him in his illness. Through a conversation, they become reconciled, and the father becomes a Christian. The story as told by the captain, kept the audience deeply interested throughout.

For the benefit of many who were unable to attend last evening, the captain has consented to give the lecture again tonight, when it is expected a crowded hall will greet the visiting soldier.

Fell Unconscious to Station Floor

Young Man From Peterborough Taken Ill Suddenly at Union Depot, Toronto

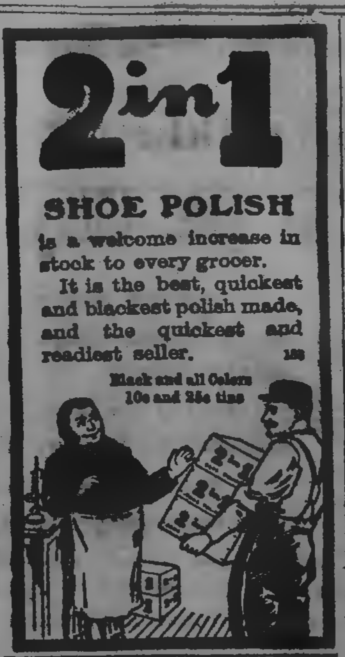
A young man, about 24 years of age, who stated he was from Peterborough, was taken seriously ill at the Union Station, Toronto, Monday evening. He was waiting at the depot to take the 10.10 C. P. R. train for home, when he was suddenly overcome with a fainting spell and fell on the floor of the station in an unconscious condition. He was taken to the Toronto General Hospital in the city ambulance, where he was cared for. Several Peterborough people who were at the station, did not recognise the man, although he said he was from the city. As he spoke with an English accent, it is probable that he recently came to this country from the old land. As far as can be learned he is not in a critical condition, although still at the hospital.

Young People To Hold Rally

In Murray St. Church on Monday Next—All Societies Invited

There will be a big rally in the Murray Street Baptist Church on Monday night next, September 16th. All the Young People's Societies in the city and district have been invited and are expected to be present. Interesting addresses will be delivered. Rev. C. H. Schutt, of Toronto, will be one of the speakers, as will also Rev. L. McKinnon of Gilmour Memorial Church, Smith, who will deliver a farewell address, previous to his removal to North Dakota.

All young people of the city and district are cordially invited to attend the rally in Murray Street church on Monday evening next.



2 in 1 SHOE POLISH

is a welcome increase in stock to every grocer.

It is the best, quickest and blackest polish made, and the quickest and readiest seller. 188

Will Employ Dogs to Aid Police

Commissioner Smith of Schenectady N. Y. is Father of Splendid Scheme

The department of public safety in Schenectady, N.Y., is surely up-to-date with its canine sleuths to aid the police to discover suspicious characters in dark places. Hon. Mr. Commissioner Smith, ex-Mayor of the city, is probably the first head of a police force in America to suggest the use of dogs to assist night patrolmen, and he is one of the first to try the experiment. Mr. Smith in his European and Canadian travels saw how efficient were the trained dogs of the Netherlands, and at Buckhorn and Sandy Lake, in warning the persons of suspicious conditions. When he became head of the Schenectady department of public safety, he decided to give the dogs a trial, and one day, disclosed his ideas on the subject to a reporter. This put the item on the Associated Press wire, with the result that other cities took up the subject and today New York city is investigating the subject. Mr. Smith has two dogs in training for the purpose, with bright prospects of demonstrating their efficiency.

ASSAULT CASE WAS ENLARGED

Defendant Did Not Appear This Morning—Comes up To-morrow

At the police court this morning, Geo. N. Graham was charged with assaulting George Moore on Saturday last. Mr. Graham did not appear and His Worship enlarged the case until tomorrow morning.

Mr. Ted. Cavanagh, for whom Moore works, was present, and stated they had settled the case out of court.

"No, you haven't. Who gave you power to settle it," asked his Worship. "You can't use the court in that way," he added.

Mr. Cavanagh was considerably aroused by these words, and in an angry mood, replied, "Talk sense, your Worship, we have seen you before today and no one wants to run the court."

With these hasty exclamations he left the room.

WRIT FOR SLANDER

A writ has been issued by Mr. A. P. Poussette, K. C., on behalf of Mrs. May Leahy, wife of William Leahy, of Otonabee township, against Samuel Redmond of the same township, for five thousand dollars. The plaintiff alleges scandal, and is suing the defendant for this sum.

A Meeting of the Stockholders

Of Port Hope B. and M. Co. Held Yesterday

At the stockholders' meeting of the Port Hope Brewing & Malting Co., yesterday, Mr. J. M. Brooks, resigned his position as traveller for the firm and in future will devote his time to his other business interests. It was decided to install new corking machines, mash tubs, etc., and when installed the plant will be thoroughly modern in equipment. It was decided to purchase them at once. Arrangements were made to settle the bank overdraft in a period of four years.

The stockholders present from this city were Messrs. R. J. Munro, A. Elliott and J. M. Brooks.

LATEST INVENTIONS IN THE DOMINION

Below will be found the only complete, weekly, up-to-date list of patents recently granted to Canadian inventors in Canada and the United States, which is furnished by Messrs. Fetherstonhaugh & Co., patent barristers, Toronto;—

United States Patents.—Peter Binder, Winnipeg, Man., sight feed lubricator; Frank W. Burpee, Vancouver, B.C., assignor to Burpee & Letson, Ltd. Bellingham, Wash., shingle machine; Louis H. Contright, St. John, N.B., non-refillable bottle; William J. Ellard, Ottawa, Ontario, potato digger; Frank G. Gale, Waterville, Que., mattress frame; Andrew L. Johnson, Hamilton, Ont., assignor to International Harvester Company, grain-drill.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

The Daily Review

TUESDAY, SEPT. 10, 1907.

TO-NIGHT'S MEETING

So much has been written and said in reference to this evening's big mass meeting at the Grand Opera House, in the Liberal-Conservative interests, that but little more remains to be added.

Mr. Borden, the popular and progressive leader of the Liberal-Conservatives and several M.P.'s arrived in the city this morning. They will be accorded an enthusiastic welcome this evening. All citizens, no matter of what political stripe, are cordially invited to be present. The discussion of the leading national issues will be fair, honest and dignified. Mr. Borden by his life and character, his firm stand against immorality, corruption and scandal, his sound judgment and high sense of honor, his sturdy Canadianism, and his far-seeing and comprehensive platform, on which the Conservative party will face the next campaign, is appealing to all. His policy, has aroused a lively interest in every part of the country and has been generally and generously endorsed. All independent journals and several Liberal newspapers have commented favorably upon it, and pronounced his attitude on leading issues as being sound, progressive and advanced. Mr. Borden is a speaker who instructs and convinces. He is not a scolder or a fault-finder; neither is he bombastic in style nor dictatorial in manner. His speeches are marked by a high tone, a lofty spirit, and a thorough understanding of the needs of the country. He does not point out earthly defects without suggesting a remedy. He stands for all that is best and true in political life and has won from friend and foe, esteem and respect. Mr. Borden is undoubtedly a leader among men. His ascension to the leadership of his party was rapid, but he won his way by sheer force of ability and qualifications that singled him out as a man who was bound to come to the front. He is a gentleman, whom to meet is a pleasure, and the more intimate the acquaintance, the higher is one's confidence and admiration for him.

Peterborough city is honored by his presence here today, and the citizens should turn out en masse this evening to hear one of the greatest Canadians and several prominent members of the grand old Conservative party, discuss the leading issues of the day.

Peterborough extends a hearty welcome to Mr. R. L. Borden and bids him a cordial welcome to this enterprising and go ahead city.

A CANADIAN CLUB

A proposition to form a Canadian Club in Peterborough is under way and it is hoped that the move will be favorably received.

Nearly every centre of culture, public spirit and refinement, now has an organization of this character, and it is high time that Peterborough fell in line. The objects, scope and method of conducting a Canadian club are widely known. Such a body is non-political, non-partisan and non-denominational in conduct, purpose and aim. It is to develop a healthy, pure, public sentiment, to foster the spirit of loyalty and devotion to the Empire, and to impress upon all the privileges we enjoy and the possibilities we have as a people and as a country, and the rich heritage, which has come down to us.

The Educational Committee of the Y.M.C.A. mooted the question of a Canadian Club several weeks ago, and appointed a committee composed of Messrs. J. E. Hodgson, D. Hughes-Charles and F. D. Kerr to canvass for members and report in the near future. It is hoped that these gentlemen will meet with encouragement in their work. Galt, Guelph, Orillia, and many other of the smaller places of Ontario, have flourishing and wide-awake Canadian Clubs, and why not Peterborough? Meetings are generally held fortnightly, preceded by a luncheon and some distinguished Canadian, is invited to give an address or "talk" as it is generally termed, on art, science, literature, Canadian resources, or on some great national question or Imperial topic. The gentlemen who speak, are authorities, and leaders in their respective lines, and on the subjects which they discuss. The mission of a Canadian Club is inspiring and elevating, the membership fee is small, and the advantages of being identified with such an organization are many. Since the disbandment of the Fortnightly Club, two years ago, Peterborough has not had a club of a character and scope to carry on the good work done and remembered with profit and pleasure by all who were connected with the Fortnightly organization.

The Canadian Club is on somewhat broader lines and should create a livelier interest among those who have the progress, prosperity and education of the Canadian people at heart.

A Canadian Club is in every way an excellent institution. It engenders a feeling of appreciation of all that is best for country, home and people. It binds its members together in a good cause—the good and welfare of Canadians, in true realization of what we possess, and the resources, potentialities and great future in store for this fair Dominion.

PEN POINTS.

Welcome, Mr. Borden!

Three cheers for our aggressive and progressive leader.

Do not fail to go to the Grand Opera House tonight.

Peterborough extends a cordial greeting to Canada's next premier.

The ladies are particularly invited to attend tonight's meeting. Seats will be reserved for them and their escorts.

Mr. Borden stands for clean elections, an honest administration and a competent civil service. Hear him tonight.

The thriving city of Peterborough joins with the other places in Ontario in adding to the success and interest of Mr. Borden's great tour.

Peterborough is fond of Mr. Borden and Mr. Borden has a warm spot in his heart for Peterborough. This is the occasion of his second visit to this city within three years.

The rioting at Vancouver is greatly to be deplored. No good was ever done by lawlessness. The Government should put it down with a firm hand. Canadians do not want to see Yankee methods introduced in this country. Vancouver's rioters are weakening their own case by taking the law in their own hands.

In years gone by of the hasty and ill-considered superficial "impressions" of Canada has had reason to complain Canada published by British travellers who had taken a hurried trip through a part of the Dominion, but a number of Canadian girls who recently made a trip to England as the result of a voting contest conducted by a Toronto newspaper have been making some off-hand "comments" upon the Motherland which are no credit to the intelligence of the Canadian girls who made them. They were in England one week and in that time one "popular lady" had decided that London was a wonderful place but "not to be compared to Toronto." We believe this young lady to be strictly accurate in this statement.

The Montreal Gazette says: "Since Sir Wilfrid Laurier became Premier he has invited 29 gentlemen to join his Ministry. Of these 19 were in Parliament when called and ten had to be provided with seats. It would seem from this that the chances of a Liberal being taken into the Government are only thirty per cent. better when he is in Parliament than they are when he is not."

What a contemptible opinion of the talent and ability to govern Sir Wilfrid must have of those elected to follow him in Parliament, as is illustrated by his passing over the heads of about 130 of his faithful supporters in the house of Commons, selecting two outsiders to whom he gives the plums. It is not a very high compliment upon the Liberal [illegible] choice of representatives.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Ratepayers Will Demand Explanation

As to Why Model School in Port Hope Was Closed

The ratepayers are desirous—yea, very desirous, for an explanation from the Public School Board regarding their action in disbanding the Model Class, says the Port Hope Guide. Just whether this explanation will be forthcoming is hard to say, but as the representatives of the people the members should give some reason for their action.

It is probably not known to many of our readers that the Government had decided to establish five permanent Model Schools, feeling that the new Normal Schools would not provide sufficient accommodation for the number of students. For the teacher of this class the Government agrees to pay three-quarters of the salary. The School Board was aware of this fact, and several weeks ago waited upon the local member, Mr. J. J. Preston, asking him to use in influence to have one of these schools located in Port Hope. Mr. Preston promised to use every effort in the matter, and felt confident that he would succeed. But, notwithstanding this favorable condition of affairs, and the golden opportunity for Port Hope, the School Board, at the very first opening, disbands this class.

Cobourg now has the class which should be in Port Hope, and we are told that a deputation from Cobourg waited upon the Government on Saturday with a view of having a permanent Model School located there. Had Port Hope been successful in securing one of these schools, of the $1,100 paid to Mr. Jordan, the School Board would only be called upon to contribute $275.

Dr. Powers was interviewed on this question this morning, and he told our representative that he had discussed this same matter with the Board, and also with Mr. Preston. He was at a loss to know why the Board took such an action.

There must certainly be something behind this action, and the public are anxious to have the matter thoroughly ventilated.

PUTTING WIRES UNDERGROUND

Machine Telephone Company Doing This at Brantford

The Brantford Expositor says; The Canadian Machine Telephone Co. this morning filed plans with City Engineer Jones for the laying of some two miles of underground telephone cable. Work will be commenced at once. The cable will be laid in ducts, some 8 miles of which will be required for the completion of the work. The route, which has been approved of, is as follows; From Richmond street, on William, to Bridge, to Dalhousie, thence to Clarence; on Market street, from Sheridan to Jex street,; on Bridge street, from Darling to Gilkison, making some 13,000 feet of underground work in all. The manholes will all be constructed of concrete. The plans of the company will involve considerable expenditure.

RESIGNATION IS ACCEPTED

Nothing to Hinder Mr. Mowat Coming to Peterborough

Principal Mowat's resignation has been accepted by the Brockville Collegiate Institute Board. The Brockville Times says:

A special meeting of the B. C. I. Board was held last night. Those present were Judge McDonald, Judge Reynolds, Rev. D. Strachan, A. A. T. Wilgress, J. Greene, D. Derbyshire, J. A. Hutcheson and Rev. H. Bedford Jones.

The minutes of the previous meeting being read and confirmed, a letter was read from Principal Mowat resigning his position as head of the Collegiate. After some discussion it was moved by J. A. Hutcheson, seconded by Rev. H. Bedford Jones, that the resignation of Principal Mowat be accepted, and that the committee of management be authorized to prepare a suitable testimonial expressing the regret of this board at the loss of his services.

The Principal's report to date showed the number of pupils enrolled to be [illegible] and the reorganization of the school completed.

Local Doctors Are Notified

That They Must Comply With Section of the Health Act

At the request of Chairman Eyres, of the Board of Health, Sanitary Inspector Hall is calling the attention of the doctors of the city to Chapter No. 248, Section No. 82, of the Health Act of the Province.

Mr. Eyres states that heretofore this important section has not been enforced, but the chairman of the Board is determined that it shall be enforced in future.

This section reads as follows;

"Whenever any physician knows that any person whom he is called upon to visit is infected with smallpox, scarlet fever, diphtheria, typhoid fever or cholera, such physician shall (subject in case of refusal or neglect) to the penalties provided by Subsection 2, of Section 115, within twenty-four hours of such to give notice thereof to the local Board of Health or physician of the municipality in which such diseased person is visited." Mr. Eyres points out that in view of the rumored cases of typhoid in this county, the only satisfactory way in which the Board of Health can intelligently learn of and handle such cases and at the same time satisfactorily investigate and eliminate the causes of such disease.

Build a Metal Home

In every way metal is superior to wood or plaster for the interior of homes. Classified Metal Ceilings and Walls, designed and manufactured by the Metal Shingle & Siding Co., Limited, of Preston, Ont., are to be preferred over all others for their beautiful and harmonious finish. They are made in a great variety of designs to suit all tastes, and are classified according to the prevailing styles of architecture.

Metal ceilings and walls are fire-proof and vermin-proof, are sanitary and easily cleaned. They may be beautifully decorated at small cost.

Those, who are tired of the yearly expense of re-plastering, re-painting and re-papering, should make a change to metal ceilings and walls. They may be put on over the old plaster, without dirt or muss, and in much less time than plastering would require. They last a lifetime, and never need repairs, so that the first cost is the only cost.

Life insurance companies recognize the security which metal ceilings and walls afford, by making their rates one-third less on homes constructed of this material.

Illustrated catalogues and complete information as to cost may be obtained by writing the Metal Shingle & Siding Co., Limited, Preston, Ont. 57

Leave Hospital In Two Weeks

Mr. Robert May has received a letter from Sergt.-Major Fee of the 24th Field Battery, in which the latter says that he will probably be detained in the general hospital, Toronto, for another couple of weeks for treatment of the regrettable injury of the eye, sustained by him last summer on the way to the military camp at Petewawa. It is not yet known whether or not, he will lose the sight of the injured organ.

Sergt.-Major Fee gives regards to all his friends, and wishes to be remembered to the battery boys.

Bethume Street Drain Trouble

Many Complaints as to Overflow—Should be Attended to

The residents of Charlotte street in the vicinity of Bethune are again complaining of the overflow of the Bethune street drain. Last evening one resident states that the railway track and the street were terribly flooded and the odor was something almost unbearable.

For nearly three years now this drain has been a source of great annoyance to the ratepayers who are unfortunate enough to be living near it. It is not large enough to carry off, all that goes into it, and consequently there is an overflow.

Some time ago, the Board of Works had estimates prepared to connect it with the Simcoe street drain, but as yet nothing has ever been done. It is high time the authorities were getting busy for the ratepayers are considerably incensed over the state of the thing and threaten to take proceedings against the city if it is not attended to.

Will They Pull Out to the Good?

Ald. Leary said this morning that the fair finances were never in better shape since the days of long ago when there was a surplus, and expects, with favorable weather conditions to have a balance on the right side of the book, when the exhibition is over. The present officials are certainly working hard to make the "show" a success and from present indications will do so.

Military Man Called by Death

Lt. Col. J. E. Helliwell of Stirling Has Attended Last Parade

Many military and other friends in Peterborough will regret to learn of the death of Col. J. Earl Helliwell, of Stirling, retired commanding officer of the 15th Regiment of Belleville. Col. Helliwell passed away at his home in Stirling, on Tuesday afternoon. He was born in Lancashire, England, and was about 55 years of age. His father was a Church of England minister. Col Helliwell was a leading Conservative, Orangeman, Free Mason and Oddfellow. He had passed through all the offices of the Grand Lodge of Ontario east, and was well up in the Masons. He leaves a widow and three little children. He was a Northwest veteran and was wounded at Batoche. Deceased was a barrister by profession. He had been indisposed for some time, but was believed to be improving. Death was from heart failure.

Four Miles and A Half to Lay

Active Operations on the Granolithic Pavements

Mr. Jack Thirnbeck, who has had charge of the men laying the granolithic walks this year, says that there are four miles and a half of walks to be laid this year, yet according to plans arranged. Work had to be discontinued this morning on account of the wet weather. Since the Charlotte street bridge has been finished Mr. Thirnbeck's force has been increased by Mr. Harry Mvans' gang of men, and now the total number engaged in laying walks is thirty.

Rev. L. McKinnon Will Go to Dakota

Pastor of Gilmour Memorial and Selwyn Baptist Churches Resigns

Rev. L. McKinnon, for the past four years, pastor of the Gilmour Memorial Baptist church, Smith, and the Selwyn Baptist Church, has resigned and will leave at the end of the present month for North Dakota, to take up work in that state.

The members of Mr. McKinnon's congregations, greatly regret his departure. His work has been thorough and faithful, and under his energetic guidance, the churches have grown in numbers and spiritual power. While regretting his departure all will join in wishing Mr. McKinnon every success and prosperity in his new field of labor. He will leave for North Dakota in about two weeks.

Canned Goods Will be Dearer

The canning factories of Prince Edward County may almost be regarded as down and out, so far as this season's pack is concerned. With produce scarce, due to the short crop of corn and tomatoes, there is little to do. The outlook is serious. The factories will be unable to fill their contracted packs. "This means probably an advance on the price of canned goods," said a canner.

CHOIR REHEARSAL

All the members of St. John's choir are urged to be present at the practice next Thursday, when the first rehearsal of the special harvest festival music will take place. The harvest festival services will be held on Thursday, September 26th, when Rev. Canon Welch, of Toronto will preach.

LEARN DRESS-MAKING BY MAIL
in your spare time at home, or
Take a Personal Course at School.

To enable all to learn we teach on cash or instalment plan. We also teach a personal class at school once a month. Class commencing last Tuesday of each month. These lessons teaches how to cut, fit and put together any garment from the plainest shirt waist suit, to the most elaborate dress. The whole family can learn from one course. We have taught over seven thousand dress-making, and guarantee to give five hundred dollars to any one that cannot learn between the age of 14 and 40. You cannot learn dress-making as thorough as this course teaches if you work in shops for years. Beware of imitations as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address:—

[illegible] DRESS-CUTTING SCHOOL,
31 Erie St., Stratford, Ont., Canada.

MEN'S ASSOCIATION WAS ORGANIZED

Last Evening at All Saint's Church—Officers Were Elected.

A largely attended meeting of the men of All Saint's church, held last evening, resulted in the formation of a men's association. This new organization is starting out with a good membership. Its aim will be to promote the social element of the congregation and thus keep the men together. Rev. Wm. Major occupied the chair last evening, and after considerable discussion, they decided to form an association. The election of officers was then proceeded with and resulted as follows,—

President—A. Graham.
Secretary—W. Hopkins.
Treasurer—A. Metheral.

An entertainment will be given by this new organization in a short while.

The Canadian wharfage dues at Sault Ste. Marie, have been raised.

Mr. Borden and Party Arrive; Big Mass Meeting To-night

Leader of the Conservative Forces Has Been Received With Great Enthusiasm All Along the Line—Big Crowds Gathered at Cobourg and Port Hope.

Mr. R. L. Borden's triumphal tour of the province continues and there is every assurance that the meeting in the Grand opera house here to-night, will be one of the largest that the distinguished leader of His Majesty's Loyal Opposition and his able lieutenants have addressed since the opening of the tour at Halifax.

Hon. Mr. Borden, Mr. G. H. G. Bergeron, M. P., Beauharnois, and Mr. C. L. Owen, Conservative candidate for East Northumberland, arrived in the city this morning and were met at the Grand Trunk station by a large number of the prominent Conservatives of the city and county. The assembly would no doubt have been much greater if the weather had been more favorable but what the gathering lacked in numbers was made up in representative qualities. The Conservative chiefton, with Mr. Bergeron and Mr. Owen, arrived on the 11.40 Grand Trunk train from Port Hope and among the prominent Conservatives who were at the station to welcome him were the following, T. E. Bradburn, M. P. P., for West Peterborough; Jas. Kendry, ex-M. P., president of the West Peterborough Liberal-Conservative Association; J.G.M. Wilson, president of the Young Conservative Club; Jas. Edgar, L. M. Hayes, G. W. Hatton, Ald. Phelan, B. B. Rogers, Col. J. W. Miller, Wm. Buller, John Green, Wm. Buller, T. Rutherford, Peter Gardner, J. Gardner, H. LeBrun, J. W Garvin, J. W. Green and Fred Lillicrap, Lakefield.

Mr. Borden was given a hearty reception, as he stepped from the train and after introductions had taken place, was driven to the Oriental hotel, where he lunched with several prominent members of the party.

MR. BORDEN'S STATEMENT.

To a representative of the Review, Mr. Borden gave the following interview at the Oriental: "I have been greatly pleased with the enthusiasm that has been displayed at the different points, I have visited. I have been given a most hearty reception everywhere, and although this is a rather busy season with everybody, especially the farmers, my tour has been attended with much of the enthusiasm of a regular election campaign."

At Cobourg last night, Mr. Borden addressed a monster meeting in the opera house. Great enthusiasm prevailed, and the talented leader and the other speakers, Mr. Bergeron and Mr. G. T. Blackstock, K. C., of Toronto, were given a most attentive hearing. After the meeting Mr. Borden was banquetted by the Conservatives of the riding, a large number being in attendance. This morning, Mr. Borden and party drove to Port Hope, where a meeting was held in the market hall. The Ideal Concert Band turned out to welcome the distinguished visitors as well as a large concourse of people. The hall was filled and the reception to the Conservative chieftain was of a most flattering nature. Mr. H. A. Ward, M. P. for Durham and other leading Conservatives of the riding were on hand to assist in the welcome. Mr. R. A. Mulholland occupied the chair and capital addresses were given by Mr. Borden and Mr. Bergeron. As they had to catch the train for Peterborough, both speeches were somewhat brief, but many strong points were scored, and great enthusiasm prevailed. It had been arranged to give the distinguished visitors a drive around the city at three o'clock this afternoon, but as Mr. Borden was very tired and wished to have some rest a change has been made. Owing to the banquet last night, he was not able to retire until after two o'clock and had to arise early this morning to drive to Port Hope, to address the meeting there.

At four o'clock this afternoon, Mr. Borden and party will be driven to the Wolfe street wharf, where they will board the steamer Rob Roy for a trip over the lift lock. Between five and six o'clock Mr. Borden will hold a reception in the Young Conservative Club Rooms, to which everybody is cordially invited.

Everything is in readiness for the big mass meeting this evening. The speakers will be Hon. Mr. Borden, G. H. G. Bergeron, M. P., Claude Macdonnell, M. P., Toronto, Mr. Northrup, M. P., Belleville, W. H. Bennett, M. P., Midland, and Mr. T. E. Bradburn, M. P. P., Peterborough. The chairman will be Mr. James Kendry, ex-M. P., and addresses of welcome will be presented by the Liberal-Conservative Association of West Peterborough, and the Young Conservative Club of Peterborough. Owing to illness in his family, Mr. Broder M. P., for Dundas, is not accompanying Mr. Borden on the latter part of his tour.

Mr. Borden and party leave at eight o'clock tomorrow morning for Toronto on their way to Dunnville, where they hold a meeting tomorrow night. The Ontario tour closes with a big Conservative picnic and meeting at Beaverton on Saturday.

Faithful Servant of the Church Conveyed to Last Resting Place

Remains of late Very Rev. Dean O'Connor Interred in St. Peter's Cemetery—Was First White Child Born in Peterborough—A Devoted and Highly Respected Priest.

A brief announcement of the death of Very Rev. Dean O'Connor, of Marysville, who succumbed to a stroke of apoplexy after a week's illness, has appeared in the Review and other local and outside journals. However, the deceased clergyman has reached such eminence and given such long and useful service to the church, in which he occupied a very prominent place and was also associated in so interesting manner with especially the early history of Peterborough that additional details will no doubt be of great interest to the readers of this paper.

The late Rev. Gentleman who died at the advance age of 79 years was a native of Peterborough where he was born Feb. 17th, 1828, his parents having been the late Timothy and Julia O'Connor, whose remains rest in St. Peter's cemetery along side of which the body of their son was laid yesterday afternoon.

It can readily be perceived that at the time of Dean O'Connor's birth 80 years ago, Peterborough was not far removed from the wilderness condition. The white population must have been of recent arrival and scant in number for it is interesting to note that the late gentleman was the first child born of white parents to see the light of day in this now prosperous city, in the same house now occupied by his nephew Mr. J. P. Shevlin, 839 King street.

He received his early education in the Peterborough schools, graduating from the Grammar School of that time in May, 1849, and continued his studies at Regiopolis College, Kingston, where, after graduation, he became professor of mathematics in 1852. After a preparatory course of study at the Grand Seminary, Montreal, he was ordained to the priesthood. His first work as a priest was in the capacity of curate in Kingston. He subsequently served as parish priest in several parishes, the last being Marysville, where, after a fruitful service of over nine years, he passed away to his reward.

His pious and devout life and his kindness of manner in both an ecclesiastical and personal capacity very greatly endeared him to his parishioners who in large numbers followed his remains to the Marysville station from which point they were conveyed to this city for interment.

He was also held in the very highest respect, esteem and affection by the head of his diocese and its clergy.

During his last illness, which was one of a week's duration, His Grace Archbishop Gauthier showed his respect for the late Dean O'Connor by visiting him on more than one occasion during his last illness, and would have remained with him to the end had he not been called by urgent episcopal duties which could not be deferred. However, Rev. Father Meehan, of Belleville, was deputed by the Archbishop, to represent the diocese of Kingston, and accompanied the remains to Peterborough. Father Twomey, of Belleville, administered the last rites of the Church. Vicar General Masterson, of Prescott, who 40 years ago was head of the parish of Raphael, when the late Dean was parish priest of Alexandria, two adjoining parishes in the county of Glengarry, was at the bedside of the late priest at the time of his demise. The body was brought to Peterborough yesterday afternoon, arriving on the 5.30 G.T.R. train, and was conveyed directly to St. Peter's cemetery, where the burial service was performed by Rev. Dr. O'Brien, Rev. Father Galvin and Rev. Father Leary being also at the graveside. The late lamented Dean's body was laid, in accordance with wishes frequently expressed during his life, alongside those of his father and mother.

The pallbearers were Messrs. B. Morrow, H. Phelan, H. LeBrun, J. Dolan, J. Hayes and L. M. Hayes.

Eight more bodies of victims of the Quebec bridge disaster, have been recovered.

James F. Jetty, once a well-known telegrapher, is dead at Dorchester, aged 38.

LIGHTS WANTED IN DARK PLACES

Proposed Change in Lighting System of Peterborough

Some discussion took place at the meeting of the Fire, Water and Light Committee last night regarding the street lighting of the city. It resulted from several applications for lights in dark places. Ald. Johnston said he thought that something should be done towards having the lights already in use properly placed, as he considered the city had more lights now than other places of its size, but that many of them were placed in such a manner as to render them almost of no value.

Ald. Bradburn agreed with this and commented that many of the street lights were prevented from illuminating the surrounding area, owing to the dense foliage of the trees.

Mayor McWilliams, moved, seconded by Ald. Duncan, that Mr. Larmonth be requested to meet the committee in reference to changing a section of the street lighting to the enclosed arc system.—Carried.

It is thought that this will be an improvement.

Ald. Johnston favored the granting of the petitions that had been received asking for lights at certain places in the city, but the committee decided to leave the matter in abeyance at present.

It was decided to move the light at the intersection of Queen and Hunter streets, to the middle of the street, to see if it would not be of more advantage there than in its present position.

HOPEFUL FEELING IN GREAT WEST

Mr. Alex Haggart, K. C., Old Peterborough Boy, Here on Visit

Mr. Alex. Haggart, K.C., of the law firm of Macdonald, Haggart and Sullivan, Winnipeg, is in the city on a visit to relatives. He is now one of the leading members of the bar in Manitoba. Mr. Hugh John Macdonald, son of the late Sir John A. Macdonald, is senior member of the firm with which he is identified. Mr. Haggart is an old Peterborough boy. He studied law away back in the seventies, in the office of Mr. George Edmison and left Peterborough about twenty-five years ago. He has revisited his native city several times. Mr. Haggart has been in Montreal and Ottawa on business, and is now on his way west. He will remain here for a couple of days.

Speaking to the Review today, he said that there would be a fair, average crop in the west and that, according to the latest advices he had received, the frost had done little or no harm. Mr. Haggart believes that, with the increased price which wheat will bring, there will be no depression in the money market. The present stringency is being felt somewhat, since the banks have shut down on real estate accommodation, and are shortening on all loans, but with the good harvest and $1.00 per bushel wheat in sight, there will be a full and speedy recovery and no set-back whatever. The feeling in Manitoba and Winnipeg is a hopeful one and the people have every confidence in the great future that awaits them.

CHINESE COOKS STILL ON STRIKE

People in Vancouver May Go Hungry—All is Quiet To-day.

Special to the Review.

Vancouver, B.C., Sept. 11. —Everything was quiet in the Oriental quarter today, and there has been no further attempt to renew the Anti-Asiatic rioting. No Japanese have returned to the lumber mills, which are closed down, but which expect to resume today.

The strike of the Chinese cooks bids fair to last longer. Restaurants are closed and hotels, clubs and private families are making shifts with cooks.

Monster Mass Meeting To-night

Come Early if You Desire a Seat at Grand Opera House

There promises to be a great gathering at the Grand Opera House this evening. Everything is in readiness for the big meeting and many strangers have arrived in the city to attend. The people of Peterborough and vicinity will turn out en masse tonight and accord a hearty and enthusiastic reception to the popular Conservative leader, Mr. Borden and his associates. Ladies are particularly requested to be present. Seats will be reserved for them and their escorts and gentlemanly ushers will be on hand to conduct them to good seats.

The meeting will begin at eight o'clock. The Grand Opera House orchestra will furnish music.

Mr. James Kendry, ex-M. P., will be the chairman. The speakers will be Mr. Borden, Mr. Bennett, M. P. of Midland, Mr. Northrup, M. P., of Belleville, Mr. Bergeron, M. P. of Beauharnois, Quebec, and Mr. T. E. Bradburn, M. P. P.

Everybody is welcome tonight. Come early and bring your friends.

A RECEPTION.

This afternoon from five to six six o'clock a reception will be held by Mr. Borden in the rooms of the Young Conservative Club, to which the public is cordially invited.

Four Members to Be Transferred

Changes in Local Staff of Bank of Montreal

The local branch of the Bank of Montreal, received notice from the head office this morning of the transfer of four members of their staff. The positions they will occupy in the offices to which they are transferred, are not known, at the local branch of the bank.

These members who will be transferred are Messrs. F. Merritt, accountant, who will go to Cornwall, J. H. Sawers, current teller, who will be moved to Deseronto, L. E. Eardley-Wilmot, goes to Millbrook, and Mr. Thomas P. Hawthorne will be transferred to Goderich.

The above gentlemen are popular in local circles and will be much missed in the city. Mr. Sawers has been a life-long resident of the city, and is very popular and much respected here. He is well-known as a vocalist, and a useful member of St. John's church. He is also prominent in sporting and social circles.

THE LIGHTS WENT OUT

The lighting system of the Peterborough Light & Power Company was out of business for about an hour last night, owing to a somewhat peculiar accident. Two of the company's wires on Townsend street broke and fell across the Grand Trunk tracks completing a short circuit and putting the entire lighting system out of order. The worst of it was that the telephones at the power house went wrong and the staff at the George street office could not ascertain where the trouble was. Finally it was discovered what was wrong and the necessary repairs were made, the lights coming on about ten o'clock.

At the city hall the Fire, Water and Light Committee was in session and the final part of the meeting was proceeded with in darkness, owing to the lights going out.

PETERBOROUGH EXTENDS CORDIAL WELCOME TO LEADER OF LIBERAL-CONSERVATIVE PARTY

Mr. Robert Laird Borden Addresses Great Audience in the Grand Opera House on the Issues on Which He Will Appeal to the Electors of Canada in the Next Campaign

HE STANDS FOR PURITY IN PUBLIC LIFE AND GOVERNMENT CONTROL OF PUBLIC UTILITIES

Honest Administration, a Non-Partisan Public Service, Clean Elections—Warmly Replies to the Insinuations of Mr. Aylesworth Regarding Halifax Election Petition—Challenges Minister of Justice to Establish Truth of His Wild and Irresponsible Utterances—Able Addresses Delivered by Messrs. Macdonell, Ward, Hughes and Bergeron Exposing Inconsistencies and Scandal of the Corrupt Laurier Administration---Declaration of the Splendid Principles and Policy of the Liberal-Conservative Party Received with Every Manifestation of Approval---A Magnificent Political Gathering That Will Long be Remembered in Peterborough.

MR. R. L. BORDEN
The Popular Conservative Leader, Who Was Accorded a Most Enthusiastic Reception Last Night

MR. JAS. KENDRY
Who Ably Presided Over the Great Conservative Gathering Last Night

The demonstration in the Grand Opera House last evening, in honor of Mr. Robert Laird Borden, the gifted and esteemed Conservative leader, was one of the grandest and most enthusiastic political gatherings ever held in the history of Peterborough.

This meeting was a success, viewed from every standpoint, and was in every way worthy of the chieftain of the grand old party, and the great cause which he represents. It was a splendid tribute to a high-minded, clear-headed and far seeing statesman, who is endeavoring to raise the standard of public life in Canada and educate the people to loftier ideals of duty and principle.

It was a fair and manly appeal, which Mr. Borden made to the free and independent electors, as he enunciated the policy and platform on which the party will go to the electorate in the next campaign.

The audience was large, the main floor and galleries being filled with a representative and intelligent audience, while a number, who failed to obtain seats, had to remain standing throughout the proceedings.

The vast assembly was most responsive and appreciative one. All the speakers were liberally applauded. The boxes were filled with ladies, while the balcony contained many representatives of the fair sex and their escorts. It is estimated that fully 1,300 people were present to join in the splendid tribute to the coming premier of Canada. The sight was certainly most inspiring. The platform was filled with many stalwart, true and lifelong Conservatives, not only from Peterborough city, but the surrounding municipalities. It was, a solid phalanx of workers who surrounded their leader and demonstrated that interest in the welfare of the party is keen and that they are ready, for action, whenever the strenuous fight may come.

On either side and at the back of the stage, were appropriate and expressive mottoes. Among them were "Welcome to Our Visitors," "God Save the King," "Borden, our Next Premier," and "Honest Administration."

Mr. James Kendry, president of the Liberal-Conservative Association of West Peterborough, ably presided and introduced the different speakers of the evening in appropriate terms. The Grand Opera House orchestra, under the leadership of Mr. Nicholl, during the early part of the evening, played several splendid selections, as the crowd was gathering.

The 57th Regiment band, under the direction of Mr. B. Gliddon, serenaded the leader of the Conservative party at the Oriental hotel, a few minutes before eight o'clock, and numerous citizens assembled to hear the excellent music. The bandsmen later marched down George street to the Grand Opera House where they took up their stand and discoursed several lively airs. Mr. Borden and party were taken to the theatre from the Oriental hotel in carriages. Their entrance was the signal for salvoes of applause. The reception was of a most cordial character.

Previous to the address of Mr. Borden, a short but trenchant and eloquent speech was made by Mr. A. Claude Macdonell M. P., of South Toronto. He is no stranger to Peterborough, being a brother-in-law of Mr. L. M. Hayes, and a ferquent visitor to this city. Mr. Macdonell was followed by Lt.-Col. H. A. Ward, M. P. of Port Hope, who is a general favorite, not only in his own riding—Durham—where he defeated the Hon. A. B. Aylesworth in the last election, but in Peterborough as well, where he is widely known and highly respected. Col. Ward was brief but pointed and forceful in his utterances.

Next came the veteran war horse from Victoria, in the person of Lt.-Col. Sam Hughes, M. P., who was given a flattering recognition, and paid a graceful tribute to his leader and to the City of Peterborough. Col. Hughes speaks with fire and vim, and the only regret is that the valiant representative from Lindsay did not have longer time at his disposal.

Mr. Borden was then introduced. He was presented with an address of welcome from the Liberal-Conservative party of Peterborough city, and county, which was read by Mr. R. M. Waddell, secretary of the Association. Previous to the reading of the address, Miss Pauline Hayes, the winsome ten-year-old daughter of Mr. L. M. Hayes, and niece of Mr. A. Claude Macdonell, M. P., stepped forward, and, amid applause, presented the distinguished visitor with a handsome bouquet prettily tied with ribbon. She was rewarded with a smile and a kiss from the gallant and chivalrous leader of the Liberal-Conservative party.

In his address which lasted over an hour, Mr. Borden was in fine form. He spoke with an emphasis and a directness that appealed to all. His lucid, argumentative and masterly treatment of the various planks in his progressive and constructive platform, carried conviction and aroused enthusiasm. He demonstrated that he is a platform speaker of power, conciseness and earnestness, and his treatment of the different issues, was logical, dignified, and forceful. He marshalled his facts in splendid style, and his points were clearly and admirably brought out. He denounced the extravagance, scandals, inconsistencies and recklessness of the Laurier regime and took a firm, determined stand in favor of honest government, clean elections and a non-partizan public service. His stirring proclamation in favor of a higher standard of public morality, for a rigid observance of pledges, given, for economical and efficient administration, for the maintenance of provincial rights, for Government control of public utilities, for a wiser and saner immigration arrangement, for the continuance of a fiscal policy that will ensure the continuance of the magnificent results, already wrought by the national policy, for the improvement and development of our national waterways, for the control and operation of Government railways by the people through an independent commission, and for many other reforms—all these planks and many others were heartily received and warmly endorsed.

Mr. Borden also paid his respects to Hon. Mr. Aylesworth, the Minister of Justice, for some of his wild and irresponsible insinuations, and to the utterance that he (Mr. Borden) could be disqualified from holding office, if certain evidence were given in court in connection with the Halifax election petition. Mr. Borden replied that he was prepared to meet any charge and refute any of that gentleman's slanderous statements, which were utterly without foundation. Mr. Aylesworth's disreputable connection with the Gamey episode was referred to, and the Minister of Justice severely scored. He was asked to explain his well-known dread of meeting the man from Manitoulin on the public platform. The Conservative chieftain also exposed the hypocrisy and absurdity of Mr. Aylesworth's contention that the Conservative platform, had been stolen from the Liberals, and showed how ridiculous and outrageous were several statements in the speeches of Mr. Aylesworth which even the Toronto Globe had to carefully edit before presenting them to the public. Mr. Borden enlarged upon the scope and character of the work, which the public utilities commission should undertake. He declared himself, strongly in favor of the reorganization of the present railway commission, as a public utilities commission, with wider and more extended jurisdiction, so as to establish thorough and effective control, over all corporations, owning or operating public utilities or invested with franchises of a national character. The commission should be composed of two divisions — one judicial and the other administrative. He most strongly urged this point and said the interest of the public must be safeguarded in some such way, as this, in connection with the great utilities of Canada, not only in behalf of the shareholders, but in the interest of the people of this great Dominion. Mr. Borden closed with an eloquent peroration on the splendid prospects of victory for the Conservative party at the next election and advised the party to be assiduous in the good work of organization, to place their candidates early in the field and to be prepared for the fray. He then had but little doubt of their success on the day of battle. On resuming his seat, the talented leader was vociferously cheered. He was followed by Mr. J. G. H. Bergeron, M. P., of Beauharnois, the hero of many a political struggle in Quebec—a man who has contributed efficient services to his party and to the country. Mr. Bergeron is eloquent and witty. He has a bright, racy style and at once makes friends with his auditors. He certainly delighted the crowd. Mr. Bergeron concluded his stirring address at eleven o'clock, and the great gathering broke up, with ringing cheers, for the King, Mr. Borden and others.

MEETING OPENS

The chairman of the evening, Mr. Jas. Kendry, ex-M.P., in opening the proceedings said he was sure the large audience would be delighted to have their highly esteemed leader, Mr. Borden, with them, a man who was to be the next premier of our fair Dominion. (Applause.) It is time for a change, said the chairman. The present government is the worst that has ever been in power. We turned them out in Ontario and we are going to do it in the Dominion. The chairman then expressed his intention of not taking up any more time and called upon Mr. Claude Macdonnel, M.P., member for South Toronto who, the chairman said, was well known in this city, and a frequent visitor here.

CONSERVATIVE PLATFORM IN A NUTSHELL

Preferential trade within the British Empire.

The manufacturing of Canadian raw material on Canadian soil.

Industry, both urban and rural, to be promoted on behalf of the Canadian people.

Transportation facilities to be furnished with a view to the reduction of rates.

Waterways to be completed that the route to the sea may be provided.

Agricultural interests to be attended to, and cold storage to be supplied.

The civil service to be made non-partisan and the political factor to be removed.

Immigration to be restricted, that the population of Canada may be of the desirable class.

An independent commission to manage the Intercolonial railway and to make it a paying enterprise.

The Railway Commission to be developed into a Utilities Commission so that all public services may be under control.

Telegraphs and telephones to be under Government management as in Great Britain.

The public lands to be administered for the people, and not for the grafters.

Grafting to be put down, and the the dishonest man to be punished.

Clean elections; corruptionists to be imprisoned, and ballot box stuffers to be similarly dealt with.

Election petitions to be tried immediately after the contest, and a public prosecutor to take action against the briber.

Parliament to be ridded of corrupt men; and the Senate to be made useful and independent.

Provincial rights to be observed and the provincial lands to go to the provinces to be administered for the people.

MR. CLAUDE MACDONELL

Mr. Macdonnel arose to speak amid great applause. He is a very earnest and interesting speaker and he kept the attention of his hearers throughout. He referred to the flattering words of the chairman, who had styled him a resident of Peterborough. While not quite that, he had many interests and many friends in the city. "Our honored leader, Mr. R. L. Borden, is going through the Dominion laying before the people a policy and platform, which will be the means of putting him in power. It is a policy of honest administration and one that appeals to all. It is a wide and comprehensive platform. It is in no sense provincial, but is altogether national. Worked out side by side with that of the present government, it is much ahead of the latter."

The speaker urged the young men to take a lively interest in the affairs of their country, not just from a conservative standpoint, but to properly informe themselves as to both parties. Continuing the speaker said that it was not a war against the Liberal party, but against the dishonest and cowardly policy of those who are at the head of affairs in the Dominion House. We are said to be carrying on a campaign of scandal, said Mr. Macdonnel, but he was sorry for Canada or for the Liberal government, if there was any scandal. There is fraud in public affairs and it does not take the Liberal-Conservative party to reveal all this wrong doing. Men who have criticised closely the actions of the Grit administration, will tell of the deception of the public.

Thou Canada is looked upon as a country of great prosperity. "We are prosperous," said the speaker, "but look at the condition of other countries as compared with Canada. In Australia that country has exceeded ours in advancement. Despite the drawbacks Australia has experienced, they have the greatest volume of trade. A balance of 25,000,000 pounds sterling Australia has to her credit, while Canada has gone back $1,000,000. From day to day our expenditure increases and the national debt is not decreasing. Two hundred millions must be raised in the next two years and the country will be put deeper into indebtedness."

No provision has been made by Mr. Fielding, the minister of finance. It is said we have a clever money man in Mr. Fielding, and probably we have, but not for the country's welfare. "Sir Wilfrid," the speaker continued, "never meets a fight fairly. He never goes and faces people squarely. There are at present five vacancies in the House, and two of his members, one in St. John's, and one in Brockville, he hopes to win. His methods do not appeal to the honest and upright."

In concluding Mr. Macdonnell again particularly addressed the young men "We are living in an age of peace and prosperity," he said, "and added to that, we can do all that is honorable and to the advancement and prosperity of Canada. If young men act on that, we can return a clean, wholesome government, like that in Ontario."

COL. H. A. WARD

Col H. A. Ward, M.P., of Port Hope, was next called upon. He expressed pleasure at being present at such a magnificent reception to the honorable leader of the Conservative party.

The speaker made reference to the statement reported to have been made by Hon. A. B. Aylesworth, at a Liberal picnic at Dundas on Tuesday. He characterized the Aylesworth allegations as being entirely without foundation and felt sure that the public of Canada would form their own opinion of the Minister of Justice for indulging in such wild statements. The fact that Aylesworth's own record was not of the best would only serve to increase the people's contempt for the utterer of the slanderous statements against Mr. Borden.

COL. SAM HUGHES

Col Sam. Hughes, M.P., of Lindsay was loudly applauded as he arose to speak He jokingly remarked that he came in from a suburb, (Lindsay) to participate in the reception to their leader. He referred to the marked contrast between the two leaders of the parties at Ottawa. In the eighteen years, the speaker has had the privilege of hearing the two debate, the Reform leader could not cross swords with Mr. Borden. Sir Charles Kirkpatrick would tremble in his shoes at the convincing arguments of the Opposition leader. Before the Conservative party was returned to power in Ontario, it was said that they had not the ability of their opponents They have proven that they have what the Liberal government did not have—honesty. The greatest crime in the Liberal government was the disregard for public honor and principle. Col. Hughes closed his brief address amid applause.

ADDRESS OF WELCOME

Previous to speaking, Mr. Borden was presented with a magnificent bouquet by Miss Pauline Hayes, and the following address, which was read by Mr. R. M. Waddell:

R. L. Borden, Esq., M.P., K.C., LL.D.,
Leader of His Majesty's Opposition, in the Commons of Canada.

We, the members of the Liberal-Conservative Association of West Peterborough, on the occasion of your visit to the city of Peterborough, desire to extend to you a cordial welcome, and assure you that your presence here is esteemed an honor to the city, and a source of gratification to your many friends and supporters in this, as it is in the adjoining ridings.

This is not the first occasion we have had the pleasure of greeting you. We retain most pleasant memories of your visit here nearly three years ago, and the splendid reception then accorded you. We feel certain that the demonstration this evening in your honor will be even more earnest and enthusiastic.

We beg to offer you our warmest congratulations on the success which has thus far attended your transcontinental tour. We have learned with pleasure of the wide interest aroused by your progressive policy, and admirable speeches, not only in your native province of Nova Scotia, but in New Brunswick and Quebec, and we are assured that Ontario and the great West will join in the many warm tributes that have been paid you, both as a leader of the grand old Conservative party, and as an exemplary citizen of this fair Dominion.

We further congratulate you upon the advanced, constructive and comprehensive policy that you have laid down, one which we believe will be endorsed by all free thinking and independent electors, and will result in the Liberal-Conservative party being returned to power at the next election.

Your firm and manly stand for morality and purity in public life, the overthrow of bribery and corruption, for honest, efficient administration of federal affairs, for clean elections, for a non-partisan public service, for the maintenance of provincial rights, for wiser and more desirable emigration system, for better postal facilities, for the development of and improvement of our great national waterways, a non-partisan operation of Government railways, and for the strong, vigorous fiscal policy that will continue the splendid results wrought by the National Policy, Sir, your attitude on these questions and on many others which might be mentioned, have won for you the admiration and devotion, not only of the members of the Liberal-Conservative party, but many other citizens of Canada, who place principal before party, honesty and uprightness before selfishness and party interest, and efficiency and economy before expediency and opportunism.

We cannot fail to admire your personal characteristics, and to recollect that you have ever stood for all that is highest best and truest in both public and private life.

Assuring you of our continued loyalty and devotion, and predicting that under your strong aggressive leadership, victory will soon be achieved for the Liberal-Conservative party, and reign of recklessness, scandal and extravagance at Ottawa, terminate.

We beg to subscribe ourselves,
Yours, etc.,
R. M. WADDELL, Secretary,
JAS. KENDRY, President.
Liberal-Conservative Association of West Peterborough.
Peterborough, 11th Sept., 1907.

MR. R. L. BORDEN

Mr. Borden, as he was handed the address, was greeted with round after round of applause, intermingled with cheers, and it was several minutes before he was able to proceed. He thanked the Liberal-Conservatives of West Peterborough for their many kind words, and for their hearty reception to himself and his lieutenants. It was especially gratifying to know that the platform, which had been laid down at Halifax, and upon which the Conservative party, would stand or fall when the present administration at Ottawa summoned up courage to go to the people, it was gratifying to know that this platform commended itself to the electors of West Peterborough and district. He congratulated the party and the Conservatives of the riding and their friends, on the splendid gathering and he congratulated himself on the large number of ladies who were present, for with their support, victory would be achieved. The ladies had great influence, more perhaps than was generally realized.

Referring to the last Dominion election, Mr. Borden stated that the Conservative leaders had expected that the two Peterborough ridings would return Conservative members, but in this they were disappointed. The Conservatives had been defeated and the defeat was probably not due to popular sentiment, but owing to lack of organization, and delay in getting candidates in the field. "Let us remember," said the leader, "that if these things did exist they must be removed. Have your candidates in the field early, and have your preparations for the election made plenty of time in advance. See that your methods are clean, however, and that nothing is done that will not stand the closest scrutiny. With the platform we have, and clean methods and perfect organization, we will be victorious at the coming contest.

THE AYLESWORTH STATEMENT

Before starting to outline the platform of the Conservative party, Mr. Borden said that there was a personal matter he wished to clear up. The Minister of Justice, Hon. A. B. Aylesworth, had been reported to

Are You Strong?

Do You Eat and Sleep Well? —Or Are You Pale, Weak and Miserable?

Has your nerve given out? Have you lost confidence in yourself? Has work become such an awful burden that you look upon it with horror?

There's just one thing left to do, and that is to take Ferrozone and get your system into good shape again.

It's quite impossible for anyone to be weak or nervous that uses Ferrozone. It contains so many strength-giving properties benefit is bound to result from its use.

Ferrozone possesses the power to kindle new vitality and vigor where almost a dying condition of weakness exists.

It is an extraordinary and magical tonic, containing more actual nourishment and strengthening elements than you can get at in any other way. As a blood purifier, nerve strengthener and appetizing tonic there is simply no equal to Ferrozone. Of this we are positively sure.

It is crowned with the success of splendid cures; will restore anyone to health who uses it. The following letters from people who have actually experienced what Ferrozone can do will clearly show you just how beneficially it acts:—

No Medicine Ever Did So Much Lasting Good as Ferrozone.

"It would be difficult to express my thanks for the benefit I have received from Ferrozone," writes Miss Eva Wight, of Florenceville. "I was so weak and miserable that I could scarcely go around the house. My head ached, there was a dragging weakness in my limbs, and I felt as if every spark of life had left me. Ferrozone improved my appetite, toned up my blood, and soon made me well. Nothing I ever used did me half the good I got from Ferrozone."

The Great Tonic, Ferrozone, Brought Back Life.

"I am anxious to speak a good word for such a magnificent tonic as Ferrozone," says E. P. Gerow, of Yorktown. "I was wretchedly worn out. I was apprehensive, and lacked confidence. It was simply due to my very weak state. The only remedy that really did me lasting good was Ferrozone. It rebuilt my strength, has made me as vigorous and happy as a man could be. In the whole range of medicines I never used anything with half the merit I found in Ferrozone."

Though you spend a thousand dollars on doctors, you can't get a more vitalizing, strengthening tonic than Ferrozone. It is the best that money, combined with scientific research, can produce. If anything in this world will make you strong it must be Ferrozone. Others have proved its worth. You can easily do so for yourself. It will send new vital energy and renewed youth singing through your veins. It's nature's own remedy—a true food tonic.

FERROZONE FOR BRACING HEALTH!

Price 50c per box of fifty chocolate-coated tablets, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Those Fires That Burn In the Sawdust Piles

Fire, Water and Light Committee Not Able to do Much on Account of Non-Attendance at Meeting of Chief Rutherford and Mr. Larmonth.

The fires burning in the sawdust piles near the Quaker Oats Company's dam, have been causing more trouble than the average citizen is aware. It appears that the fire brigade did not relish the idea of turning out so often to extinguish the blaze in the sawdust bank, while Mr. J. H. Larmonth wrote Mayor McWilliams requesting that their property was entitled to protection from the fires. It appears that the sawdust has been on fire for several weeks, but it is only occasionally that the blaze breaks forth and causes alarm.

The matter was considered at the fire, water and light committee meeting last night, but although Chief Rutherford and Mr. Larmonth had er of them was on hand. City Clerk Armstrong said that Mr. Rutherford had been requested to be present at the meeting and Mr. Larmonth had been notified that the matter was to be considered at the committee meeting, and that he would be heard if he had a statement to make.

As the two parties most directly interested in the matter were not present, the committee was at a disadvantage, but considerable discussion took place.

Ald. Bradburn wanted to know who would be responsible if damage to property was done by the fires and the brigade did not turn out to extinguish the blazing in the sawdust when called.

The mayor was trying to figure out this question too, and all present took part in the discussion.

Ald. Morgan said he did not believe the fire brigade and the whole waterworks system could put the fire out in the sawdust piles. It had been burning for months, he said.

Ald. Johnston gave the particulars regarding the last time the brigade had been called out to the sawdust piles. He did not think the city should stand the expense of putting out these fires every day or so.

Mayor McWilliams moved, seconded by Ald. Bradburn, that Mr. Larmonth be notified that the committee will consider the matter of fires in the sawdust piles at its next meeting and that the chief of the fire brigade be notified to attend without fail.—Carried.

It was moved by Ald. Duncan, seconded by Ald. Bradburn, that the chief of the brigade be instructed to telephone to the pump house after each fire and inform them to reduce the pressure.—Carried.

OTHER BUSINESS

Residents at the corner of Knox and Munro streets, wrote asking for an arc lamp at the intersection of the above thoroughfares.

Two or three other requests for lights were received, but it was decided to let them remain in abeyance pending a change in the lighting system.

On motion it was decided to apply to the water commissioners for a hydrant at the corner of Concession and Dufferin streets.

THE GAME LAWS

Local hunters are requested to make themselves familiar with the following section of the game laws of the Province of Ontario and to preserve same for reference;

No person may hunt, take, kill or destroy;

1. Any deer, except between the 1st day of November and the 15th day of November, both days inclusive.

2. Any moose, reindeer, or caribou, in that part of Ontario lying to the south of the main line of the Canadian Pacific Railway, in the town of Mattawa, to the Manitoba boundary, except between the first day of November and the 15th day of November, both days inclusive.

3. Any moose, reindeer or caribou, throughout that part of the Province lying to the north of the said main line of the Canadian Pacific Railway from Mattawa to the Manitoba boundary, except between the 16th day of October and the 15th day of November, both days inclusive.

4. Any grouse, pheasants, prairie fowl, partridge or wood-cock, except from the 15th day of September to the 15th day of December, in any year, both days inclusive. 63 V. c. 49, s. 4, ss. 4a; 6 Edw. VII. c. 33, s. 8.

5. Any quail or wild turkeys, black and grey squirrels, except from the 1st day of November to the 1st day of December in any year, both days inclusive. 2 Edw. VII., c. 39, s. 2 (b).

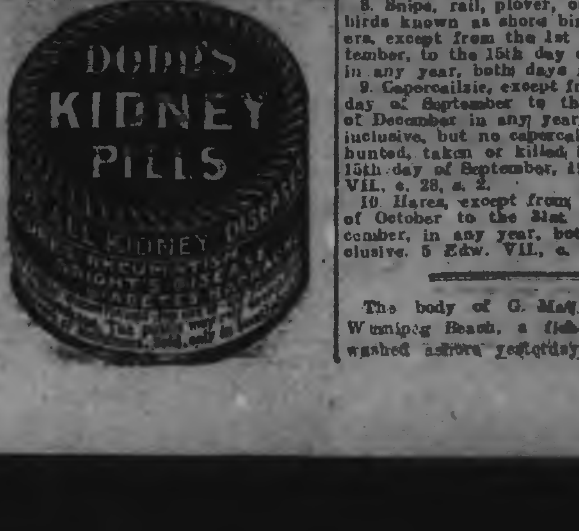
6. Any swans or geese except from the 15th day of September to the 30th day of April, in the following year, both days inclusive.

7. Duck of all kinds, or any other water fowl, except from the 1st day of September to the 31st day of December in any year, both days inclusive.

8. Snipe, rail, plover, or any other birds known as shore birds or waders, except from the 1st day of September, to the 15th day of December in any year, both days inclusive.

9. Capercailzie, except from the 15th day of September to the 15th day of December in any year, both days inclusive, but no capercailzie to be hunted, taken or killed before the 15th day of September, 1909. 4 Edw. VII., c. 28, s. 2.

10. Hares, except from the 1st day of October to the 31st day of December, in any year, both days inclusive. 5 Edw. VII., c. 33, s. 9.



The body of G. Matthewson, of Winnipeg Beach, a fisherman, was washed ashore yesterday.

Lands are Sold For Tax Arrears

Sale Conducted by County Clerk Elliott, Wednesday Morning

The county sale for taxes took place Wednesday morning at the Court House, Peterborough, when a large number were present. County Treasurer Ed. M. Elliott conducted the sale, which resulted as follows:—

W Trennum, pt. lot 16, con. 11, pork packing establishment, Monoghan, $71.10.

LAKEFIELD FAIR SEPT. 24 and 25

The annual exhibition of the Lakefield Agricultural Society will be held in the fine new grounds of the Society in Lakefield on TUESDAY and WEDNESDAY, Sept. 24 and 25.

The buildings and grounds have been much improved during the present summer and the track for speeding has been put into excellent shape.

The speeding in the ring promises to be first class and the Society has granted good purses in the free-for-all and 2.50 class.

For prize list and entry forms, etc., address W. SHERIN, Sec., Lakefield, Ont. 2w

Budget of News From Graystock

Graystock, Sept. 11.— Harvest is something of the past in this part of Otonabee. The farmers are now busy cutting the buckwheat and putting in their fall wheat.

Mr. Wm. Rutherford and Mr. John Deyell spent a few days of last week visiting friends at Toronto.

Mr. Thomas Rutherford, of Fenelon Falls, is renewing friends here.

Mrs. John Kindred was visiting a few days at Westwood last week.

Mr. Robert Weaver, of Millbrook, and Mr. Herbert Weaver, of Little Britain, were the guests of their brother, Mr. Wm. Weaver, on Sunday.

Mrs. Jos. Manley is spending a few weeks at Cobourg.

Mr. and Mrs. John Rutherford, of Peterborough, were the guests of Mrs. Wm. Rutherford, on Sunday.

Mr and Mrs. Wm. Weaver, of Gravenhurst, are spending their honeymoon in these parts visiting Mr Henry Reed and others.

Mr. P. R. Beckwith, of Hamstead, Eng., who is spending the present summer at Mr. Sid. Rutherford's, spent Labor Day in Toronto.

Mr Sid. Rutherford, and Miss Bella Rutherford, were guests of Mr. John Moncrief, Peterborough, on Sunday.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. E. F. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

MR. HALL'S OFFICE

The office of F. J. A. Hall, Secretary of the Exhibition, will be at Storey & Leary's, Water street, from now to the time the entry list closes. He will be there every afternoon from 1.30 to 6, and all day on Saturday.

Municipalities Should Go Slow

And Not Undertake Construction of Big Works Just Now

In reference to the numerous applications of municipalities in the province for approval of bylaws increasing the interest rate on debentures, the Ontario Railway and Municipal Board, made the following official statement yesterday:

"Speaking generally, the board are not encouraging applications of this kind during the present stringency in the money market. The board are of the opinion that it is good policy for municipalities to postpone the construction of municipal improvements for some time, until the monetary conditions have improved. The present stringency may only be a passing condition, which will right itself in a short time, and in that view it will be well for municipalities to borrow as little as possible at the present excessive rates of interest."

BICYCLE WANTED IN ST. CATHARINES

Was Stolen From That City on September 5th

Chief Roszel received a communication from Chief of Police Parnell at St. Catharines today, informing him that a Garden City bicycle had been stolen from that city on Sept. 5th. Its number was K5509. The enamel part was black. It had Dunlop tires, a twenty-two inch frame, a C. C. and M. Co. saddle, and on the whole was in excellent condition. It was made by the Vale Manufacturing Co. of St. Catharines.

Anyone knowing anything of its whereabouts will kindly inform Chief Roszel.

NEW N. Y. MARRIAGE LAW

A legislative act of considerable importance in the State of New York goes into effect Jan. 1, 1908. This law requires that a license be procured for each marriage to be performed in the State. One of the important benefits which is expected will be derived from the law is the prevention of so called snap marriages, as no authorized person will be able to perform a marriage unless the contracting parties first procure the license from the Town or City Clerk, and present it at the time of the marriage.

STEAMER STONY LAKE or MAJESTIC

The steamer Stoney Lake will leave Lakefield for the lakes on arrival of the morning train, returning in time to connect with last train for Peterborough.

Steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

Indians Have Commenced The Harvest of Wild Rice

Crop is a Good One This Year—Hard to Secure Teachers at Keene—Other Interesting News.

Special to the Review.

Keene, Sept. 10.

Miss Kathleen Powell left Tuesday for Toronto to attend the Bishop Strachan School.

Miss Bessie Read is spending a few days in Toronto.

Mr. Timothy Welsh, returned from a visit to Edmonton and other points in the west.

Miss Nellie Drummond has returned from visiting friends at Fenelon.

Miss Jean Campbell visited friends in Toronto last week.

Mrs. W. C. McCrea spent Friday and Saturday in Keene.

Miss Pearce returned to her home in Peterborough last week, after visiting friends in Keene.

Mr. J. D. Lundy and Miss Leo Elmhirst, Hastings, visited the village on Sunday.

Mr. Fowler, Monaghan, is the guest of Mr. Charles Thompson.

Mr. Hugh McFee, New Liskeard, is visiting relatives in this city.

Mr. John McFarlane returned on Saturday from visiting relatives in Lakefield.

Mr. and Mrs. Wm. Kempt are visiting relatives in Toronto.

Mr and Mrs. John Lang, Mrs. Peter Drummond and Miss Maud Campbell took in the Stony Lake excursion.

Mr. J. D. Lundy was in the village Tuesday.

Mrs. Fowler, of Brandon, is the guest of Mrs. Duncan MacFarlane.

Dr. Workman left last week after spending his holidays in Keene.

Miss Annie Hore left Tuesday to attend the Ontario Ladies' College, Whitby

Mrs. (Dr.) V. H. McWilliams returned last week from a visit to Toronto.

Mr Jas. Ashburn's new gasoline yacht, which he purchased in Toronto, arrived last week.

KEENE FAIR.

Don't forget Keene Fair, Wednesday and Thursday, Oct. 3rd and 4th. The usual arrangements have been made to have the steamer "Rainbow" bring the crowd from Harwood, Curtis' Landing and Robias' Landing. Tickets for the trip, including admission to the fair, will be sold for twenty-five cents

GOOD SHOOTING.

Messrs. Marsh and Vivian, Toronto, spent last week at Oak Lodge, Mr Jas. Ashburn's popular resort. Both gentlemen had excellent luck duck shooting and fishing. Mr. Marsh on Labor Day bagged ten ducks, which is one of the best bags taken that day.

The play, "The Noble Outcast," will be presented in the town hall on Fair night, Thursday, Oct. 3rd, under the auspices of the Village Improvement Society.

The Indians have commenced the wild rice harvest. The crop is truly good

The steamer "Rainbow" has been chartered by the management of the Roseneath Fair to run an excursion in connection with the Fair, which will be held Friday, Sept. 27th, from Birdsall's Landing, Walker's Landing, Hiawatha and Keene to Dunnett's Landing. Vehicles will be provided to convey the passengers from the Landing to Roseneath.

A COMING SOCIAL.

The Villiers' Union Sunday school will hold a social and concert in the school room, Friday evening, Sept. 20th. The tea will commence at 6 p.m. and the programme at 7 p.m. Among those who will take part in the programme are; Misses Dickson, Miss Lillian Bell, Miss Margaret Bryce, Miss Adeline Hope, Miss Louise Nelson, Mrs. R. Campbell and Messrs. Peter Gillespie and John McFarlane. The proceeds will be for the benefit of the Library Fund

Most of the farmers in this vicinity are through with the harvest. Those who have threshed seem to be very well satisfied with the way the grain is turning out.

The first dance of the season was held in the town hall Friday evening. Although the attendance was small a very enjoyable evening was spent. Messrs. Miller and MacFarlane supplied the music, and Mr. Dennis Kennealy acted as floor manager.

A number of Keene people attended "Kerry Gow," at the Opera House, Peterborough, on Friday.

HARD TO GET TEACHERS.

The school trustees are having difficulty in getting teachers for the village school. For the lower room they have not as yet been able to get a permanent teacher, but Miss Agnes Campbell has been engaged as a supply until such time a permanent teacher could be procured. Mr. Reddick, who was engaged for the upper room, resigned last week, and as no supply teacher was immediately available, the room has been closed for several days.

Fall Assizes Open Sept. 30th

The Fall Assizes, Non-Jury sittings will open at the Court House on Monday, September 30th, before Hon. Mr. Justice McMahon. The Non-Jury Sittings will be held on November 21st, before Hon. Mr. Justice Mabee.

Budget of News From Lakefield

Two Serious Accidents—Respected Resident's Departure—Other Notes

Lakefield, Sept. 11.—Mr. C E Pratt, formerly assistant master at the Grove, school, passed through the village from Bobcaygeon, on Saturday last, on his way to Port Hope, where he has been appointed on the staff of Trinity College School.

Mrs. Dunn and Mr. Chas. Dunn leave on Wednesday for Grimsby, Mrs Dunn has just returned from a trip to the Northwest.

Mr. Norman Grieve, who arrived in Lakefield last week, from Vernon, B.C., left on Monday for Ottawa, en route for England.

Mr. and Mrs. E. R. Tate, with a large house party left on Monday for Mr. Tate's cottage on Stony Lake, where they intend to spend a two weeks' holiday. The party journeyed up by the yacht Rota.

Mrs. Chamberlain, who reached the village from Toronto a few days since, intends to return shortly to spend the fall and winter with her daughter, Miss Fitzgibbon.

Miss Roberts, who has been visiting her sister, Mrs. Cumberland, returned to Toronto on Tuesday last.

PURCHASES YACHT.

Mr. DelaFosse has purchased Mr. Dodworth's gasoline yacht, the Bessie. We understand that he is well satisfied with his purchase and has ventured the opinion that for "staying" qualities a gasoline yacht is "facile princeps" of its kind.

Mr Magee, of St. Andrew's College, Toronto, who has been a visitor in Lakefield for the past few days left for Toronto on Tuesday last.

TWO ACCIDENTS

Two serious accidents have occurred in Lakefield within the past week.

Mr George Baptie, the well known carpenter and contractor, had the great misfortune to have his right hand almost cut off in the Lakefield Canoe Co.'s factory. One finger was completely cut off, and there is some danger of his losing two of the remaining ones. His many friends hope however, that the surgical treatment he has undergone will enable him to preserve three. Mr. Baptie is at present under treatment in one of the Peterborough hospitals.

Mr Robert Alford, while attending to his duties in the cement works on Saturday night was caught in some shafting and terribly injured. Both of his arms were broken and one leg was very badly bruised. There was some fear at first of internal injuries having been sustained, but this is not the case. At last advices, Mr. Alford was progressing as well as could be expected.

OTHER NOTES

Mr Blomfield leaves this week for Toronto, for two or three weeks holidays.

Rev John Creighton, of Lindsay, spent a day or two in the village this week, as the guest of his son, at St. John's parsonage.

Mr and Mrs. Creighton and Miss Creighton, left on Monday for Viamede, where they intend to spend a few days. The reverend gentleman preached at both morning and evening services at St. John's church on Sunday last.

Mr and Mrs. Roland Strickland and family left on Monday evening for a short stay at their cottage at Burleigh.

Miss Katherine Baines, of Port Hope, who has been the guest of Mr and Mrs. Hilliard at Cowley, returned home on Saturday last.

Miss Wilson, head milliner at Mr. Roland Johnson's, who has been spending the holidays at her home in St. Mary's, Ont., returned to Lakefield on Friday last.

MR. BLEWETT'S VISIT

We were glad to see the welcome face of Mr. Jos. Blewett on the Lakefield streets a few days ago. Mr. Blewett, who has been resident in the Northwest for the last seven years, has come back to his old home for a much needed rest. He is accompanied by his wife and family.

THE GROVE SCHOOL

The Grove school re-opens for the fall term on Thursday next. This well known institution is certainly keeping in the van in the march of progress. Over forty scholars will be on its roll for the ensuing term, the largest number in its history.

Mr. John Dinwoodie, leaves on Monday or Tuesday next, for Thorold, where he intends, in future, to make his home. His many friends will learn this with the greatest regret, as Mr Dinwoodie is not only one of the old-time residents of Lakefield, but his warm-hearted and genial disposition have made him very many sincere friends, who will miss his daily presence among them. It is to be hoped that Mr. Dinwoodie will often revisit Lakefield in order to renew old associations.

Miss Helen Traill, of Rochester N. Y., is at present in the village visiting her aunt, Miss Traill.

Over 100 Pupils at Norwood High School

Forty Teachers are Training at the Model—Other Notes

Norwood, Sept. 10.—The Norwood High and Public schools re-opened last week with a good attendance of pupils. Over one hundred names are registered in the High School, while Mr. Frappy, principal of the Model School, expects to have a class of about 40 young teachers in training at the Model School.

On Sunday evening the congregations of the Norwood Methodist, Presbyterian, Baptist and Anglican churches united in services at the Methodist church. Rev. T. A. Moore, Secretary of the Lords' Day Alliance, was present on the platform, together with the resident ministers, and Mr. J. L. Squire, President of the local branch of the Society. Mr. Moore preached an eloquent and forceful sermon from the 54th verse of the 119th Psalm; "Thy statutes have been my songs." The reverend speaker pointed out that songs are the spontaneous outbursts of happiness, and in the keeping of God's laws is supreme happiness. He was glad to be able to say that the Lord's Day Act of 1906 had been followed by very encouraging results. A great deal of Sunday labor had been done away with, and as a consequence more than 50,000 people throughout the Dominion of Canada were now enjoying the "Day of Rest," who formerly were compelled to work seven days in the week. He said that while a great deal had been accomplished, a great deal yet remained which needed the united efforts of all who are anxious to see the Sabbath day properly observed throughout the land. The church was crowded, and those who embraced the opportunity of hearing Mr. Moore were edified and enlightened. A liberal collection was given in aid of the Alliance Fund.

Mr. and Mrs. H. G. Buck and family, and Mr and Mrs. George Buck returned last Friday from their trip to Europe and Great Britain.

BOARD OF EDUCATION.

The Board of Education met in regular meeting on Monday night, with the following members present:—Messrs. J. L. Squire (chairman), D. Campbell, Dr. Robertson, P. W. Stevenson, E. P. Cuffe, H. Drain, J. Doherty, Wm. Webster, C. W. Waters, J. F. Elliott, J. A. Finlay, A. S. Harrison.

The minutes of the last regular meeting were read and adopted.

The chairman reported that he had received word that Mr. W. F. Elliott, B.A., would not be able to enter upon his duties as Model School Principal. Mr. Frappy, a former principal, had therefore been communicated with and his services procured for the balance of 1907, at $700 per annum, but he would not accept a permanent position with the Board for less than $800

Moved by Messrs. Cuffe and Elliott, that the action of the executive as reported by the chairman, be confirmed.—Carried.

Moved and seconded by Messrs Doherty and Drain, that Mr. Frappy be offered $800 per year from Jan 1st, 1908.—Carried.

The Supply Committee reported that a car of soft coal was being put in at the Public School.

Dr. Robertson, on behalf of the Property Committee, brought up the question of furnace in High School. After a lengthy discussion it was decided to leave the matter as decided upon at the meeting in August, viz., that the Property Committee proceed to have a wood furnace installed in conjunction with the present coal furnace.

ST. MARK'S, OTONABEE

The weekly cottage meeting will be held next week at the home of Mr. Chas. Graystock, on Tuesday evening, Sept. 17, at eight o'clock.

Mr T. H. Perry, B.A., will give an address upon the petition, "Give us this Day our Daily Bread," and the service will be conducted by the members of St. Luke's Chapter of the Brotherhood of St. Andrew.

The annual harvest festival will be held on Sunday, Sept. 29. Services will be conducted at 11 a.m. and 7 p.m. Rev. Wm. Burns, of Hastings, will be the special preacher.

On Monday, Sept. 30, the annual harvest festival tea will be held at which Rev. C. H. Marsh, of Lindsay and a former incumbent of St. Mark's will be one of the speakers.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

ANOTHER SMASH IN COPPER STOCKS

Sharp Decline in Price of Raw Materials

(Furnished by J. E. Heintz & Co.)

New York, Sept. 12.—Another smash in the copper stocks which was helped along by reports of a panic on the Philadelphia Stock Exchange where some of their local tractions stocks suffered big declines caused another good break in the stock market today. The market opened strong under the influence of higher London prices and for the first half hour scored advances of from 1 to 2 points all round, but heavy liquidation in the coppers, due to another decline in the price of raw metal, turned the market downwards and, under heavy pressure, it lost from 3 to 5 points.

The industrial list generally suffered more than the rails, as the former section of the list seemed to be without any support whatever. The Steel stocks, which have been strong of late, gave way rather easily today. B.R.T. was adversely affected by the traction troubles in Philadelphia. Readin was also under pressure from the same source. There was some little recovery in the last few minutes of trading, but the closing was heavy.

Healthiest Town In Dominion

So Says Inspector Geo. Ball Concerning Peterboro'

Mr. Geo. Ball, Sanitary Inspector, is still very indignant over what he styles unfounded rumors to the effect that there is an epidemic of typhoid in Peterborough. "Why," said he "it is the healthiest town in Canada and the chairman of the Board of Health should be the last one to find any fault. A prominent physician with a large practice told me the other day that he hasn't made enough money out of contagious cases in the last two years to keep him a month. This business of telling how unhealthy the city is does immeasurable harm. Outside papers notice the comments in local journals and people who would otherwise be visitors stay away. Such rumors do harm to the exhibition and other local attractions of a like character."

LOCAL MERCHANT FOOLED CUSTOMER

Grocer is Said to Have Sold 20 lbs. of Sugar for 22

A rather strange and tricky thing occurred not long ago which if investigated might prove disastrous to the investigator of the affair. A gentleman walked into a local grocery store the other day and to the clerk said. "How many pounds of granulated sugar do you give for a dollar?"

"Twenty," was the answer.

The clerk was informed that in another store twenty-two pounds are given where upon the clerk who was rather surprised, told his customer that that was the place to but it. er tat that was the place to buy it. The customer went to the shop where he could get bargains and got as he thought twenty-two pounds of white sugar. When the goods came to his house he decided to weigh the parcel and upon doing so, found it to contain only twenty pounds. He then knew he had been deceived. He did not take any proceedings, but decided to deal with his regular grocer.

FINE VIEW OF QUEBEC BRIDGE

Enlargement of Picture Taken by Rev. Dr. O'Brien

In the window of H. H. Roy's studio is an excellent picture of the Quebec bridge, which recently collapsed. The photograph is made from a small picture of the structure taken on June 30th by Rev. Dr. O'Brien. The reverend doctor was returning from Europe at the time, and spent a short time in the ancient capital. The picture in Mr. Roy's window is an excellent one, and gives a fine view of the massive structure, which has since collapsed.

Dummer Farmers Had Fine Trip

Greatly Enjoyed the Outing Up the Canal to Fenelon Falls

The annual excursion of the farmers of Dummer township was held on Tuesday and Wednesday from Lakefield to Fenelon Falls, on the steamer Otonabee. It was attended by about 100 persons, who greatly enjoyed the trip. Lakefield was left on Tuesday morning at eight o'clock and Fenelon Falls reached by five o'clock that evening. The steamer had no difficulty in getting through the locks and experienced no trouble owing to reported low water. The people of Fenelon Falls gave the excursionists a hearty welcome and proved to be most hospitable. They did all in their power to minister to the comfort and pleasure of all on board.

After spending the night in the northern village the party set sail the next morning on the return trip leaving Fenelon Falls at eight o'clock and reaching Lakefield at five in the evening.

Among the promoters of the successful outing were Messrs. Henry A. Moore, J. J. Drowe, John Webster and others.

A meeting was held on board in which the people of Fenelon Falls were warmly thanked for their hospitality and also the management of the steamer Otonabee for the excellent service. It was further decided to hold the excursion next year in June instead of September. The trip will start at Peterborough and the excursionists will be taken over the lift lock to Lakefield and then to Fenelon Falls, returning by the same route.

ONE PAIR OF EYES
FOR A LIFETIME

This is the reason we look upon the proper examination of the eyes as a serious thing. If you come to us, you can come with the full confidence that you will be told whether you need glasses or not.

We are not in business to "sell glasses." The retention of your patronage and of your commendation are far more valuable to us.

Determining errors of refraction and fitting the proper spectacles and eyeglasses to correct these errors is our whole business.

All our work is guaranteed.

Presentation to Miss J. Butcher

At the S. A. Barracks Last Evening—Capt. Hurd's Interesting Address

A large crowd gathered at the Salvation Army barracks last evening to hear Capt. Hurd's touching address on the story of "Rhoda, or the Gypsy Girl's Mission of Love," and also to say farewell to Misses Jennie Butcher and Alice Leader, who left this morning for Toronto, where they enter the training home for officers in the Army.

Capt. Hurd, financial secretary of the Army, kept his audience interested throughout. His address was illustrated with 50 stereopticon views which added greatly to the interest of it.

The most important feature of the evening, was the presentation of a purse of money to Miss Butcher, on behalf of the Sunday School teachers.

Mrs. Thos. Lang read an address referring to the good work Miss Butcher had done in the school and wishing her success in her studies at Toronto. Miss Ethel Card made the presentation.

Capt. Hurd, on behalf of the G.B.M. League, presented Miss Butcher with a writing case.

To both these presentations, the recipient made a suitable reply, thanking her fellow workers at the local barracks, for their many expressions of kindness.

Board of Works Meets To-night

This Board of Works meets tonight to consider several matters of business that have been accumulating for some time. The board has had a busy summer, but there remains considerable work to be done before the season closes.

The Legal and Legislative Committee of which Ald. Phalen is chairman, met this afternoon at 4.30 o'clock.

COIN TWO FEET IN THE GROUND

Old Lower Canada Piece Unearthed by Laborers

This morning while the waterworks gang of men under Mr. R. Martin were digging a drain on Aylmer street, an old Lower Canada "un sou" or "one cent" was unearthed about two feet below the surface in front of the residence of Mr. Jos. Lundy, whose house number is 340. This coin is a rather rare one and there have been no issues of it since Confederation. When it was first dug up it was impossible to ascertain either its denomination or its date, and it was a source of great curiosity to the men, who thought they had perhaps unearthed a coin of great value. When given a chemical bath by a druggist, however, it was found to be "un sou."

FRIDAY AND SATURDAY

New Steamer "Bessie Butler" Will Shortly be Launched

Good Progress Being Made on Government Boat to be Used on the Canal--Mr. Borden Greatly Interested in Trent Canal--Will Take Trip Over Entire Waterway Next June.

The new Government boat, which is being built at the entrance of the canal into Little Lake, will be launched in about two weeks. It will be known as the "Bessie Butler" in honor of Mr. M. J. Butler, of Ottawa, the deputy minister of Railways and Canals. The "Bessie Butler" will be used for inspection purposes principally, although she will do some towing. She is 80 feet long, 17 feet beam. She has a steel frame sheeted with oak on the outside, which is enclosed in steel. The speed will be about 12 miles an hour. The "Bessie Butler" will be equipped with dining room, kitchen and bedrooms. She will be electric lighted throughout and will also be equipped with a search light.

Supt. J. H. McClellan stated today that he expected the contracts for all the remaining sections of the canal, to be awarded before the end of the year. The unfinished portions will take about two years to complete when the canal will be opened from Midland on Georgian Bay to Trenton on the Bay of Quinte—a distance of 204 miles direct. The new locks will provide for a depth of eight feet, 4 inches on the sill, while the channel on the newer portions will be of nine foot draught, thus enabling boats carrying 30,000 bushels of grain to navigate. It is expected in time that the older portions of the waterway will be deepened and the locks rebuilt, so as to give a depth of eight feet, four inches on the sills.

Mr. R. L. Borden greatly enjoyed his trip over the lift lock yesterday. It was the first time that he had ever seen this great structure. He asked Mr. McClellan many questions relating to the canal and warmly thanked the superintendent for the trip.

"Oh don't mention it," replied Mr. McClellan, "I have lived long enough in Peterborough to know the wants of the city, and I have brought you over here with an object in view."

"And what is your object, may I ask," inquired the Conservative leader.

"Oh certainly, replied Mr. McClellan, "Our estimates for the completion of the canal will be before the House at the next session. They are pretty large, and I wanted you to gain some idea of the usefulness and benefit of this waterway, so that you would give the estimates your hearty support."

Mr. Borden laughed heartily and remarked, "Well I might do a great deal worse than that."

Mr. Borden stated that he would like to take a trip over the entire length of the Trent Canal system. He said that he could not make the journey this fall, as his election tour prevented it, but that next June, he hoped his engagements would allow of his getting away. Mr. Borden made a note of the date in his pocket diary and told Mr. McClellan that all being well, he would be in Peterborough next June, to take a trip and make an inspection of the great inland waterway, in which he evinced a deep interest.

Fell From C. P. R. Bridge; John McKee's Bad Accident

Fortunately He Fell Where the Water Was Comparitively Shallow and Was Able to Wade to Shore--Bad Gash in His Head.

John McKee, who resides in the vicinity of the Roman Catholic Cemetery, while returning from work at the Dickson Co.'s mills last evening, shortly after six o'clock, caused considerable excitement by accidentally falling off the C.P.R. bridge. Fortunately he was not seriously hurt. Mr. McKee is an elderly man and is engaged as a driver for the company, having spent many years in their employ. It is customary for him to cross the bridge and his wife with a horse and buggy usually awaits him at the C. P. R. station to drive him home. Last evening he had just got about half way across the first section of the bridge, when he evidently must have become dizzy and losing his balance, fell over into the river. The splash in the water was quite loud, and coming at a time when a great many are crossing the bridge, returning from their day's work, it attracted the attention of several people. They hurried to the spot to see what was the matter and found that a man was in the water.

Although considerably stunned by the fall, the unfortunate fellow was able to get to shore. Luckily the water is not deep at this point and did not reach above his waist. Had he fallen from the middle of the bridge, it is altogether likely a drowning fatality would have been recorded today. Mckee received a bad gash in the back of his head, which it is thought must have been inflicted by striking the side of the bridge as he fell off.

He was assisted across by Mr. Andy Frost, a sectionman. His wife, who was waiting for him, although greatly shocked to hear of her husband's misfortune drove him to a doctor's where his injury was attended to. Today he is progressing favorably and will be able to go to work again in a few days.

Were Three Large Stones on The G.T.R. Railway Tracks?

On his way home from the roller rink at about 10.15 last night, Mr. N. E. McWilliams discovered three large stones on the rails of the G.T.R. track at the King street crossing at the south end of the station. Mr. McWilliam removed them at once, as, in his opinion, they were sufficiently large to derail any train that might be passing over the tracks at that time. Several people, who were also on their way home from the rink at the time, remarked that it was fortunate that the stones were removed before any trains came along.

No one has any idea of who was guilty of the offence, which is a criminal one. It was probably the work of foolish and mischievous boys, but might have been the means of causing a fatal accident.

Engineer From Paris, France

Is Here Inspecting Machine Telephone System

That the excellent system of telephoning of the Machine Telephone Co., is becoming known throughout the old world, as well as in Canada is evidenced by the fact, that today Mr. H. Moreau, civil engineer, of Paris, France, is in the city investigating the service that is given to Peterborough subscribers. Mr. Moreau is accompanied by Mr. Chas. Rochreau de La Sabliere, of Paris and Toronto. Mr. Rochreau is president of the Gendron Manufacturing Co., of Toronto.

Mr. Moreau told the Review that in France a company had a system similar to that in Peterborough, but consisting of only two sections, whereas Peterborough's system consists of five. Companies owing telephone systems in France, have to sell them to the Government, as they control everything in that line.

Mr. Moreau has been sent out here by the French Company, and has to report to his home government in October, when they will take it over. The Minister of Telephones and Telegraphs in France, with thirty-three other members of parliament, inspected the system in France and were highly pleased with it. In Paris they have a start of one thousand subscribers, and in St. Denis, six miles from Paris, they are promised six hundred. They will have telephone connection between the two places.

Mr. Moreau was greatly impressed with his visit to this city. He examined the works at the local office and was amazed at the wonderful system. He also interviewed several subscribers, and learned their opinions of the service. He will take back with him to Paris a very favorable report.

THE PETERBORO' COLLEGE OF MUSIC

Mrs. W. J. Morrow, F.N.C.M., Principal, opens Monday, Sept. 9th. Intending pupils in vocal and instrumental instruction can arrange for hours between 10 and 12 a.m. and 2 and 9 a.m. 12d

Mrs. Wilson, wife of Mayor Wilson, of Collingwood, is dead.

THE
New Autumn Styles
AT
THE GOLDEN LION

The ne plus ultra of every woman's ideas is not to be had in a store's showings by merely wishing for it. The **Fashions** you see here so early were only to be had at this time by dint of much planning, much trouble and much work.

But the result justifies us

DRESS GOODS

"I always go to Fair's first," says a woman who has been buying Dress Goods all her life, and that a long one. "I can depend on the qualities there. I know if they say a thing is all-wool or fast-black there is not an iota of cotton nor a speck of fadeable dye to be found in it."

The above was overheard on the street the other day, and we must say it pleases us. If she had added that the newest weaves and best selections are always to be found there, it would have been a perfect testimonial. It is easy to see how the stir of the new Autumn Goods is being felt in town.

Among the leading cloths we show may be found the following

NEW FALL SHADES
10 Shades in Browns 9 Shades in Wines
Burgandies, Mullberrys, Clarets and Plums
12 Shades of Blues 10 Shades of Greens
embracing Myrtle, Reseda, Bottle, Sea Weed and Olive

Perfect and Most Beautiful Blacks in Priestly's World Renowned Cloths

NEW JAPAN KIMONA SILKS
SWELL AUTUMN COATS AND SUITS
NEW AUTUMN CARPETS
PRINTED AND INLAID LINOLEUMS

DRESS-MAKING AND HIGH CLASS LALIES' TAILORING

SLIPPED WHILE HE WAS ARISING

Mr. John Roger Broke His Leg Early This Morning

While getting out of bed this morning, about daylight, at his residence, Murray street, Mr. John Rogers, who is in delicate health, slipped and fell, sustaining a compound fracture of the left leg. He was removed to St. Joseph's hospital and the fracture reduced by Dr. McNulty. Mr. Rogers is resting as comfortably as could be expected.

Has Purchased The Boat "Dawn"

Mr. Richard Sheehy Now Owns Boat and a Large Scow

Mr. Richard Sheehy, contractor, has bought the boat "Dawn" from a gentleman at Lindsay, and intends using it in connection with his quarry at Clear Lake. He is having it put in good shape and will use it for towing. Mr. Sheehy has also purchased a scow, which he will use in connection with getting out the stone at the quarry.

THE DAYLIGHT STORE

OBITUARY

MRS. BALL

The death occurred at two o'clock this afternoon of Annie Cluxton Ball, widow of the late Abraham Ball who predeceased her about twenty years ago. She passed away at the residence of her daughter, Mrs. Charles Murty, 26 Cedar street.

The late Mrs. Ball, who was forty-eight years of age, was born in Dundalk, County of Louth, Ireland, and after her marriage, removed to Sunderland, Durham County, England, where all her children were born. She came to Peterborough in 1871 and had lived here ever since. She was a sister of the late William Cloxton, and is survived by the following children: John of Buffalo, Edward of Brooklyn, Abraham and William of Rochester, and Mr. Geo. Ball and Mrs Chas Murty, of this city.

Arrangements for the funeral will not be made until the late Mrs. Ball's children in outside cities can be communicated with.

THE CITY AND VICINITY

EVENTS TO-NIGHT

Semi-Annual Meeting, Court Chemong, I.O.F.
Board of Works at City Hall.
Inquest at Myrtle.
Exhibition Directors meet.
Meeting of Rugby Club, Oriental Hotel.

CHOIR PRACTICE

All Saints' choir will meet for rehearsal tonight at eight o'clock.

COURT CHEMONG.

The semi-monthly meeting of Court Chemong, I. O. F., will be held tonight.

ST. PAUL'S CHOIR.

A full attendance of the members of St. Paul's choir is requested at tonight's practice at eight o'clock.

CHOIR PRACTICE.

A regular practice of the Charlotte street Methodist church choir will be held this evening at 7.45 o'clock. A full attendance is requested.

ST. ANDREW'S LADIES' AID.

The Ladies' Aid Society of St. Andrew's church will hold a meeting in the church parlors to-morrow, Friday, at 8 o'clock. It is hoped there will be a large attendance.

MAMMOTH SHIPMENT.

The Peterborough Fuel and Cartage Company today received a consignment of twenty-five cars of coal, the largest shipment that has ever come to Peterborough.

A BREAK DOWN

An Otonabee farmer, while driving out of the city with a load of grain this morning, on an express waggon, had a break down on Hunter street, near the Munro House. The front axle broke and the horse had to be unhitched and the waggon taken to a nearby blacksmith shop to be repaired.

WILL ATTEND FUNERAL.

A special meeting of the County Orange Lodge will be held this evening to make arrangements for attending the funeral of the late Col. J. E. Helliwell, Past Grand Master of Ontario East, who died at Stirling on Tuesday. The funeral will take place in that village tomorrow afternoon at two o'clock and representatives will be sent from Peterborough to attend the last sad rites.

DUCK SHOOTING GOOD.

The Indians are getting a great many ducks on the route to Buckhorn. Birds have not been so plentiful in years and hunters are having good sport all over the Kawartha chain. The fish also, are biting better, and one may shoot night and morning, and fish during the day. Some record catches have been made lately.—Lindsay Post.

PLENTY OF IT THERE

Yesterday's Examiner says;—"It is reported that special arrangements have been made by the management of the Grand Opera House for conveying away the hot air generated at the Borden meeting tonight." However, the public is fully aware that none of the warm atmosphere will be needed around the Grit sanctum.

BROTHERHOOD MET

St. John's No. 6 Chapter of the Brotherhood of St. Andrew met last night, Mr. R. J. Devey presiding. The date of the Brotherhood tea was altered from Sept. 15th to Sunday, Sept. 22nd, at 5 p.m. An open meeting of churchmen will be held in the school, on Wednesday next, at 8.15 p.m. Men are heartily invited.

WOMEN'S MISSION

The Women's Missionary Society of Mark street Methodist church met yesterday afternoon. There was a fairly good attendance. Mrs. J. Speer was in the chair. A trip through the missions in Japan formed part of the meeting, and the date of the anniversary of the Society was fixed for the first Sunday in December.

District Meeting on Tuesday, 27th

This week's issue of the Christian Guardian contains the following notice—The financial meeting will be held in the George Street Church, Peterborough, on Friday, September 27, beginning at ten o'clock.

H. M. MANNING, Chairman
G. R. CLARE, Fin.-Sec.
M. E. SEXSMITH, B.A., LL.B, S. S. Sec.

ORANGEMEN ATTENTION

An emergency meeting of the County Orange Lodge will be held in the Orange Hall, Simcoe street, this evening at eight o'clock. A full attendance is requested.

By order,
E. G. CLARKE.
County Secretary.
Peterborough, Sept. 12, 1907.

PROBABILITIES

Strong winds or moderate gales, westerly to northwesterly; a few scattered showers, but mostly fair, becoming cooler, chiefly at night.

Peterboro' Extends Cordial Welcome

Continued from page 1

have said at Dundas on Tuesday that some one had told him that some one could give evidence that would prevent Mr. Borden from holding his seat in the House of Commons and would keep him out of public life for eight years at least. In connection with this statement of the Minister of Justice, Mr. Borden spoke as follows;

"Mr. Aylesworth is reported to have indulged in certain characteristic statements respecting myself, at Dundas yesterday. He told the people that some one had told him, that some one else could give evidence which would disqualify me for eight years from holding a seat in parliament. It is to the discredit of Canada that we have a Minister of Justice so reckless and irresponsible. We indict him and his friends, not from gossip or rumor, but from public records and sworn testimony. Let him bring on his pretended evidence and he will find me ready to meet it. Unlike my opponent, I have never been afraid to face the petition filed against me.

"I went, at great inconvenience, to Halifax during the session of 1906, submitted myself for examination by the petitioners' counsel and avoiding the evil example of the Minister of Justice, answered every question put to me. Later on, I attended the trial and when counsel for the petitioners refused to proceed with it, and raised the point that the court had no jurisdiction, I protested against any such decision and demanded to have the evidence heard and the case disposed of. My latest instructions to my counsel before I left Halifax on the 21st of August last were that the evidence affecting me upon that petition should be given unless it were perjured, and that I would return to Halifax whenever required in case any such evidence was suborned and given. I remember what was attempted in South Oxford against Donald Sutherland, and I realized what might be attempted in Halifax against myself by means of some unscrupulous tool, desirous of thus earning the reward to public office.

"During the campaign of 1904, I was in Halifax only three days, and Mr. Aylesworth's wild and irresponsible insinuations are absolutely devoid of the slightest foundation. Before repeating them, let him devote time to explain his own disreputable connection with the Gamey case and let him lose his well known dread of meeting R. R. Gamey upon the public platform of the country." — (Cheers).

Continuing Mr. Borden said that such outbreaks were not uncommon on the part of Mr. Aylesworth. He had done such things before and was noted for his recklessness and extravagant statements. The Globe, for some time had been a strong and consistent supporter of the management of railways by an independent commission. With this Mr. Borden was heartily in accord, but in this policy, the Globe differed from the party in power at Ottawa. Sir Wilfrid Laurier and his colleagues were not making haste to have the state-owned railways governed in this manner. The speaker thought that Mr. Aylesworth's statements were carefully edited in the Globe office, as his reckless utterances, if not properly edited, would make himself and his party look ridiculous. Mr Aylesworth had said that the Conservative platform, as laid down at Halifax at the first meeting of the tour in Halifax, was stolen from the Liberal party, and that Mr. Borden's statements as to the honest expenditure of public monies and political purity, were merely platitudes, and did not even deserve passing mention. "I would like to point out to this gentleman," continued Mr Borden, "that there are three essential features of good government, upon which all men should unite and in respect of which they should feel a common interest.

"The present government came into power upon pledges of electoral purity, but since 1896 a series of electoral crimes have been brought to light from time to time, which are a disgrace to our political history. The probabilities are that not one-tenth of the iniquity has been revealed. Inquiry into the elections in West Huron and Brockville; the St. James Division, Montreal; West Hastings; St. Antoine and St. Ann's divisions; Montreal; Sault Ste. Marie; Prince Albert; Queen's and Shelburne and last, but not least London, has disclosed a conspiracy to retain power founded upon an unlimited command of money, the source of which can only be surmised, carried out by the most unscrupulous and audacious methods and supported in many cases by a control of the administration of criminal justice, which rendered the criminals absolutely fearless. I would like to ask Mr. Aylesworth if these things are mere platitudes and unworthy of notice."

THE ELECTORAL LAWS

"At the opening of the past session the Government pledged themselves in the speech from the throne to introduce a bill amending the electoral laws. No such bill was introduced. I criticised their inaction and moved a resolution, which was voted down by the usual government majority. The substance of that motion which I submit to you as an essential article of Conservative policy, is as follows;

THREE ESSENTIALS.

The three features are as follows;—

> HONEST APPROPRIATION AND EXPENDITURE OF PUBLIC MONEYS IN THE PUBLIC INTEREST;
>
> THE APPOINTMENT OF PUBLIC OFFICIALS UPON CONSIDERATION OF CAPACITY AND PERSONAL CHARACTER AND NOT OF PARTY SERVICE ALONE.
>
> ELECTIONS UNTAINTED BY THE CORRUPTING INFLUENCES OF BRIBERY AND FRAUD.

These essentials are not to be denied, for they have a moral significance, and they involve the future of democracy.

We boast of our representative institutions, but these cannot be enduring if they develop a debased public service or bring into existence legislatures representing not the will of the people, but the degradation of electoral corruption.

How brazenly the present administration has voted and expended public moneys for private and partizan purposes, and has offered bribes to greedy followers and to the baser element of certain communities.

> More effective provision to punish bribery and fraud at elections, to ensure thorough publicity as to expenditure, by political organizations, to prevent the accumulation of campaign funds for corrupt purposes and to prohibit contributions thereto by corporations, contractors and promoters, to expedite the hearing of election petitions and to prevent collusive arrangements for the withdrawal or compromise thereof, to provide for a thorough investigation of corrupt practices, and if necessary to provide an independent prosecuting officer charged with that duty, to simplify the procedure therefor, and to enforce the laws so amended.

ANOTHER PLANK.

What I have said concerning appointments to public office leads me to submit to you another article which has found a place in the Conservative policy, and it is this;

> A thorough and complete reformation of the laws relating to the civil service so that future appointments shall be made by an independent commission acting upon the report of examiners after competitive examination.

I need not dwell upon the importance of this. Of necessity some appointments must be left to the responsibility of the executive. Appointments to the judicial bench and certain other high public offices are of this character and the people have it in their power to compel an honorable and decent performance of this great public duty. There are also many minor appointments which could not for the present be brought within such a system.

But, for the rest I prefer a competitive system of appointment to the present partisan system.

SENATE REFORM.

"It may not become a member of the Commons to criticise too severely the merits or performance of the other branch of the legislature, but those who have watched with any care the work of our Senate in recent years must be convinced that it is not playing the part which was intended by the framers of our constitution. There seems little sense of individual responsibility, little desire to grapple with public questions, little disposition for effective work, but intense inclination, and indeed determination, to make its sittings as infrequent and as brief as the barest decency will permit. In saying this I do not overlook important individual exceptions. When one considers the problem to be solved he is met with the declaration not easily disproved, that the present method of appointment is sufficiently good if the power were exercised. It is beyond question that while some appointments to the Senate by the present administration have been excellent, a very considerable number have been absolutely improper, and even absurd, so that the status, character and tone of that House have seriously deteriorated since the advent of the Laurier Government. The Senate, if properly constituted, under the present system, should be greatly superior to the House of Commons in the chief essentials of a legislative body, and should be one of the main safeguards of our constitution. It does not occupy that position either in fact or in public estimation. I realise certain possible dangers of an elective Senate, but conditions may force it upon us; and I shall stand for

> Such reforms in the mode of selecting future members of the Senate as will make that chamber a more useful and representative body.

IMMIGRATION.

"Not only in our great western heritage, but in the eastern provinces as well, we offer splendid homes to the best class of settlers that any country can produce. The attention of the world has been called to Canada through the remarkable development of the west, and through the world-wide industrial and commercial expansion of recent years for which the Laurier Government has not failed to take the entire credit. The watchword of the present administration in immigration has been quantity rather than quality. The splendid opportunities which we afford, and the homes which we offer entitle us to the very best class of settlers from the British Islands, from the United States and from chosen and selected races of continental Europe. In future our watchword should be quality rather than quantity. Let us adopt as another article of our policy:

> A more careful selection of the sources from which immigration shall be sought, a more rigid inspection of immigrants and the abolition of the bonus system, except under very special circumstances and for the purpose of obtaining particularly desirable classes of settlers.

The people of a great undeveloped country like Canada have within their possession and control an opportunity of solving many difficult questions which have disturbed older communities where conditions have become so fixed as to admit little possibility of change. Canada has a vast public domain, and in that term we should include not only lands and minerals, but great franchises national in their character, involving the ownership, development and operation of public utilities, such as transportation, heat, light and other necessary conveniences of the people. I will not do more than allude to the outrageous and scandalous transfer to partisan speculators of enormous areas of public lands, timber and minerals in the west."

MR. R. M. WADDELL

Who Read the Address of Welcome To Mr. Borden From the Conservatives of West Peterborough

PUBLIC OWNERSHIP.

"Whether or not state ownership and operation of railways can be made a success in Canada remains to be determined," Mr. Borden continued. State ownership is repeatedly challenged because of incompetent or corrupt administration, and there does not seem to be much argument against it. Let us not forget that all private enterprises afford instances of failure or incapacity. The denial of our capacity to operate successfully a great public railway from the Atlantic to the Pacific seems no less than the denial of our capacity for self-government. Shall all private enterprises be condemned because of business failure or corrupt methods? Are we to renounce our right of self-government because of repeated acts of maladministration; because of political graft, because of Saskatchewan Valley land deals and grazing lease scandals? And last but not least, are we to hand over our government railways to private corporations because their management has been very greatly discredited?

Gross maladministration is rife today in many public departments in Canada. Outrageous election scandals have been disclosed during the past ten years, but WE DO NOT, THEREFORE, PROPOSE TO REPEAL OUR CONSTITUTION, OR TO ABANDON ALTOGETHER OUR SYSTEM OF RESPONSIBLE GOVERNMENT. The Intercolonial railway has suffered from lack of business management, from lack of discipline, from partisan use and partisan interference. The remedy seems an obvious one. Let us place our government railways under an independent commission and select for that purpose the best available person or persons with the requisite knowledge and experience. The commission should be accorded a status similar to that of the general railway commission of Canada. It would demonstrate to our satisfaction in a very few years, whether or not operation of government railways can be carried on honestly, efficiently, with proper discipline and by business methods. PERSONALLY, I DO NOT DOUBT THE ISSUE. A Canadian has made state ownership and operation successful in Australia. The Ontario Government railway commission has a successful record of good business management and business results. I do not overlook the necessity of safeguarding the interests of the whole country by proper provision for the continuance of any existing rates which may be essential for the development and progress of commerce between the Maritime Provinces and other portions of Canada.

> We stand, therefore, for the operation and management of our government railways by an independent commission, free from partisan control or interference.

There are 1700 miles of state owned railways in Canada. Two-thirds of the railways outside of Great Britain, Canada and the United States are owned by the state.

PUBLIC UTILITIES.

Speaking on the government control of public utilities Mr. Borden spoke in part as follows:

"When the present government in 1903 introduced the railway act providing for the establishment of a railway commission at once declared that I would support the proposal and would give my best assistance toward making the measure as perfect as possible. It received the consideration of the house of commons for many weeks and hundreds of amendments were made before it was finally passed. Since then it has been amended at various times and its powers and jurisdiction now extend to telephone companies and express companies. I SEE NO REASON WHY ITS JURISDICTION SHOULD NOT BE FURTHER EXTENDED TO TELEGRAPH COMPANIES AND INDEED, TO ALL PUBLIC UTILITIES. It is true that the work of the commission has pressed severely upon its present members and especially upon its able and indefatigable chairman. We believe that it should be reorganized, that additional members should be appointed if necessary, and that its powers and jurisdiction should be extended. It has outgrown its name and in future IT SHOULD BE CALLED THE PUBLIC UTILITIES COMMISSION OF CANADA. The railway commission of Canada is at present the most important judicial body in this country. Its work touches more closely the everyday life of our people than does that of any other court. It has powers judicial, semi-judicial and administrative. It should probably be reorganized in two divisions, one dealing with matters of judicial or semi-judicial nature and the other concerned more especially with matters of administration. On this point, however, I would be very much guided by the advice of the chairman of that commission, for whose experience and ability I have every respect."

A SAFEGUARD.

"A commission so constituted is at once a safeguard to the capitalist and to the people. It safeguards the people against the oppression or greed of any public corporation. It protects their lives, their property and their general interests. For the capitalist it affords a safeguard against hasty or unjust legislation based upon impulsive and unreasonable demands. Let one cardinal principle of the Conservative party be never forgotten—the sanctity of public contracts must always be respected. Any legislative action which in effect amounts to confiscation of private property must be carefully avoided. Canada requires for the development of its enormous resources a vast amount of money which can thus be profitably invested. It must, therefore, remain for many years a borrowing country. To sanction or enact legislation of a confiscatory character would be the worst possible service that any government or parliament could render. A commission such as I have outlined would constitute a sufficient safeguard of public rights and interests and at the same time would stand as a bulwark against unjust or hasty legislative action. Then comes another article of our policy.

> The reorganization of the present railway commission as a public utilities commission, with wider powers and more extended jurisdiction, so as to establish thorough and effective control over all corporations owning or operating public utilities or invested with franchises of a national character."

TELEGRAPHS AND TELEPHONES.

"It has been demonstrated in Great Britain that telegraphs and telephones can be successfully operated in connection with the post office department. I see no reason why a similar system should not be inaugurated and carried out successfully in Canada. Few people realize that at the present time Canada owns and operates 6,586 miles of telegraph line. These lines have not been remunerative for the reason that they have been established in thinly settled portions of the country where private enterprise could find no adequate return. If we are prepared to invest national capital in thinly peopled and unremunerative localities, why should we hesitate in those portions of the country where operations can be carried on at a profit? I do not forget the necessity that our great railways must be equipped with telegraph and telephone lines, nor do I forget the principle of justice to invested capital which I have already invoked. Having regard to these considerations, our policy includes

> The establishment, after due investigation, of a system of national telegraphs and telephones under conditions which shall be just to capital already invested in those enterprises."

RURAL FREE DELIVERY.

Mr. Borden then touched on the feasibility of introducing rural free delivery of mail in Canada and enlarged upon the many advantages of such a system. In this connection he enunciated this plank of the Conservative platform as follows:

> The improvement of existing postal facilities, especially in newly developed portions of the country and the inauguration, after proper inquiry as to cost, of a system of free rural mail delivery.

PROVINCIAL RIGHTS.

Speaking of this important subject Mr. Borden said that the tendency of the present administration had been to disregard and override provincial rights. This had made itself manifest in various ways. There has been a standing alliance between the Dominion Government and certain liberal provincial governments. The prime minister of Canada declared that the liberal government of Ontario was his right arm. It has been amputated with happy results to the country as a whole, and to Ontario in particular. There had been undue interference in the affairs of various provinces, notably in those of Quebec and Saskatchewan. The prime minister of Canada has practically admitted in parliament, and his friend, Walter Scott, has openly stated in a letter which was read on the floor of the house, that not the lieutenant-governor of Saskatchewan, but Sir Wilfrid Laurier, made the selection of the first prime minister of that province.

Promoters, not only from Ontario, but from Quebec, had come to the Dominion parliament for charters which should have been granted only by the provincial legislatures.

The policy of the Conservative party in connection with provincial rights was as follows:

> The unimpaired maintenance of all powers of self-government which have been conferred upon the provinces of Canada under the constitution.

In drawing to a close Mr. Borden criticised the fiscal policy of the present administration. They said their policy was embodied in the tariff and the tariff was changed to meet any exigency that might arise.

In concluding the Conservative chieftain again emphasized the value of good organization and making preparations for an election in good time. If every man got out and worked there was no fear as to the result of the next election. The speaker criticized the action of Sir Wilfrid Laurier in going outside the federal arena to secure cabinet material. It was a poor compliment to the 120 or 128 men who sat on the government benches at Ottawa. The people of Canada need have no fear that if the Conservatives were elected they would not have material to form a cabinet. Mr. Borden said he could pick two cabinets from the Opposition benches at Ottawa and they would both be superior to the present cabinet at Ottawa. (Cheers.)

In his closing sentences Mr. Borden expressed confidence that the Conservative party would no longer be opposition after the next election. "We have a good cause," he said, "a good platform one having as its basis the interests of the people of the country, and if we work as we should there need be no fear of the result." (Loud cheers.)

MR. BERGERON

Mr. J. G. H. Bergeron, M. P., for Beauharnois, P. Q., followed Mr. Borden, in the concluding speech of the evening. He was enthusiastically received by the audience, who listened attentively to his every remark, and frequent outbursts of applause, greeted his pointed thrusts at the Laurier Government. Mr. Bergeron is an eloquent, and when he chooses to be, witty speaker. He said he was glad to be in Peterborough, and said he had wanted to come for a long time to see the city that he had heard and read so much about. He referred to the congenial relations he had had with Mr. Jas. Stevenson, when the latter represented this riding in the Dominion House many years ago.

Mr. Bergeron said he would prove that the present government is neither capable nor honest, and composed of small and corrupt men. He cuttingly referred to Mr. Aylesworth's cowardly and untrue remarks concerning Mr. Borden and knew that the latter's supporters would in no way be affected by, one of Mr. Aylesworth's regular and slanderous outbreaks.

"The Liberals have no policy whatever," he remarked, "or rather have too many and there's not a crazy quilt in Peterborough, can be compared to their policy patch sheet."

The speaker told of the numerous changes made in the Liberal platform and said there were new and totally different planks added every year.

That party also made promises to suit every voter's special requirements and have caught their supporters by these crooked methods. It is surprising to think that the people have tolerated such a party as long as they have and the time has come when they will rise up and overthrow such a Government at

The Daily Review

THURSDAY, SEPT. 12

THE BORDEN MEETING

The mass meeting in the Grand Opera House last night was a distinct success, and good results cannot fail to follow the splendid gathering.

The audience was large and attentive, the enthusiasm was most pronounced, and the welcome accorded the talented leader of the Opposition, Mr. Borden, was hearty and sincere. As Mr. Borden outlined his policy on which the Conservative party will appeal to the electorate in the next election, he was generously applauded. Mr. Borden's speech was a fair, fearless and outspoken one. He exposed the reign of extravagance and graft at Ottawa, in a forceful manner, and told how the Liberal Government had broken its pledges and outlived its usefulness. He furnished instance after instance, of improper expenditure, and evidence of violated promises. While he criticized severely, he did not strike below the belt, and he demonstrated that his Halifax programme is broad and strong enough on which to rest the best interests of Canada, and worthy of endorsation and support by all fair-minded and independent electors, who place principle before party, and the higher concerns of the country before graft and opportunism. Mr. Borden created a splendid impression. He spoke with vigor and cogency, and there is no doubt that, on attaining power, he will fulfill his pledges punctually and to the letter. He gave Mr. A. B. Aylesworth some attention, which will, doubtless have a good effect in curbing the wild, reckless and ridiculous statements which the Minister of Justice seems to revel in. He challenged Mr. Aylesworth to make good his accusations and announced his readiness to meet that gentleman at any time, or on any platform. Mr Borden assailed the Government's dark administrative record, in fearless style and proved how the Liberals had failed to stamp out corruption, how there had been gross miscarriages of justice, how bribery had gone unpunished, how numerous scandals had arisen, how the money of the public domain had been shamelessly scattered, and how fraud had flourished. The Conservative chieftain pointed the way to a new, a higher and better order of things, and declared all parties should be a unit in requiring three things of any government.;

Honest appropriation and expenditure of public money.

Decent appointments to the public service, based, not on party pressure, but on considerations of fitness.

Honest and decent elections.

All honest men should unite to drive from power any party, not professing to live up to these ideals.

Mr. Borden certainly won his way into the hearts and confidence of his auditors, by his candor, fervor, and statesmanlike utterances.

The address delivered by Mr. Bergeron was a slashing and trenchant onslaught on the Laurier Government, and was not only exceptionally witty, but was delivered in a racy campaign style.

Messrs. Macdonell, Ward and Hughes also spoke ably, and created a decidedly favorable impression.

Peterborough has contributed to the success and splendid, encouraging character of Mr. Borden's great campaign tour, and the hearty welcome accorded him at every point that he has visited. The great gathering in Peterborough last night, was one of the best and most admirably managed of the entire series, and cannot fail to be fruitful in good results, and in arousing the Conservative party in this district to greater action. It will have a stimulating effect, which will result in East and West Peterborough, at the next election, sending to Ottawa, two staunch supporters, to uphold the administration of Canada's next premier, Robert Laird Borden.

the first opportunity. They have been in power long enough, and have violated their promises, they made to the electors. The expenditure on public works of various kinds, has been ridiculous in the extreme. The ministers of different departments negotiate Government deals through middlemen with whom they are friendly, thus affording these grafters a profit that should really go to swell the public coffers. Valuable crown lands are sold to Government supporters at $1 per acre, and then resold for $10 or $12 by the original purchasers.

"Sir Richard Cartwright condemned National Tariff," said Mr. Bergeron, "but when his party came into power, was it abolished? He then proceeded to show that it was still the policy of the Liberal Government, so the policy of the Conservatives, when they held the reins of Government is still regarded as the best by the Laurier Administration today. The Liberals have deceived the people shamelessly and are without a vestige of honor or decency. Sir Wilfrid Laurier has such little confidence in the men behind him at Ottawa, that he chooses members from the Provinces to fill Dominion portfolios. $50,000 had been spent in experimenting with various policies and still the original Conservative one is retained.

"These times are not good," exclaimed the speaker, "why the workingman can hardly live on account of the high rent and excessive prices charged for food for his table."

He made an ardent appeal to electors to be above small and dishonest election methods and return Conservative members from both East and West Peterborough, and thus lend their support to a clean and fearless leader.

At the conclusion of Mr. Bergeron's address, one of the most enthusiastic political meetings ever held in Peterborough, broke up and the audience departed, after hearing many impressive truths from honest and earnest advocates of clean government.

Reception Was Well Attended

Young Conservative Club Presented Address to Their Popular Leader

When Mr. Borden, accompanied by Mr. Bergeron, M.P., Mr. Claude Macdonell, M.P., and other distinguished members of the party, entered the Young Conservative Club rooms yesterday afternoon they were cordially greeted. A well attended reception was held from five to six o'clock, and many citizens were introduced to the popular Conservative leader, who gave one and all a hearty hand-shake. They were presented by Mr. Jas. Kendry, ex-M.P., Ald. Phelan and other prominent local Conservatives. Mr. Borden chatted amiably on topics relative to the welfare of the party, and assumed an optimistic tone, regarding the prospects of the Conservative party throughout the Dominion at the next election.

AN ADDRESS

After a large number of supporters had arrived, Mr. Peter Gardner, vice-president of the Club, read the following address to Mr. Borden amid loud applause:

R. L. Borden, Esq., K.C., M.P.
Leader of His Majesty's Loyal Opposition;

Sir;—It is with sincere pleasure that the members of the Young Conservative Club of West and East Peterborough once more extend to you a warm welcome.

We assure you that the platform formulated by you in your Halifax address, making for a higher moral tone in public life and affairs, has our united and strenuous support, and we believe, the support of the majority of our people. With the other planks of that platform, we are in perfect accord.

We feel that the arduous, straightforward and manly fight that you are carrying on against the political corruption in which your opponents are steeped, will have its reward, and that the country, from ocean to ocean, will be aroused from its lethargy, and the people at the next general election will rise in their might and hurl from office the most corrupt government in the history of our country.

We believe that you will soon have an opportunity of carrying out the splendid policy you have so ably outlined, which we are sure will be for the lasting good of this glorious Canada of ours.

At the next general election, when the people will entrust you with the affairs of the Dominion, we can assure you that it will not be for lack of zeal and enthusiasm in your good cause, on the part of the members of this Club, if the riding of West Peterborough does not send you a supporter.

In conclusion, we wish you God-speed on your long journey, and in your great and glorious work. It is our earnest hope that you may long be spared to lead the great Conservative party, and promote the welfare and happiness of our fair Dominion.

J. G. M. WILSON,
President.
M. MOWRY,
Secretary.

Young Conservative Club of West and East Riding of Peterborough.
Peterborough, Sept. 11, 1907.

When Mr. Borden arose to reply he was enthusiastically greeted, and his remarks were punctuated by frequent outbursts of applause.

"Let me convey my sincere thanks" he said, "to the Club, for their address and the assurance that my platform is one that can be carried into effect with great advantage to the people of the Dominion. He urged upon his listeners the value of organization and hard and consistent work to the end of electing a Government that will give a clean and honest administration and heartily thanked those present for the confidence they had expressed in him as a leader. Mr. Borden was of the opinion that West Peterborough would have returned Mr. Kendry to Ottawa at the last elections, had he entered the field earlier, and he felt certain that with due preparation the Conservatives of both East and West Peterborough would have no difficulty in carrying their respective ridings at the next Dominion elections.

Mr. Bergeron, M.P. for Beauharnois, P.Q.; Mr. Claude Macdonell, M.P., South Toronto; Mr. C. L. Owen, of Campbellford, Conservative candidate in East Northumberland, and Mr. James Kendry, spoke briefly on the merits of their leader and his admirable platform, and prophesied a signal victory at the next elections.

Seized With an Epileptic Fit

In Police Court This Morning—Considerable Excitement Was Caused

Considerable excitement was caused in the police court this morning, when Wm. Ferguson, who had been arrested about an hour previous, on a charge of stealing three augur bits, from Charles Nixon, was seized with an epileptic fit. The unfortunate fellow was sitting in the prisoner's dock, when suddenly with one blood-curdling yell, he fell unconscious to the floor. He was removed from the box, and Chief Roszel and P.C. McGinty worked at him for some time before he came to. He then was very weak and nervous. Ferguson comes from Port Hope and had been working for Mr. Nixon at the Grand Hotel. His Worship remanded him for a week. He was not in fit condition to plead, and the Magistrate considered a week's rest would be very beneficial to him.

FINED TWO DOLLARS.

Ed. Shields pleaded guilty to being drunk in a public place, and paid a fine of two dollars.

WEDDING BELLS

STINSON-URQUHART

At the George street Methodist Parsonage last night the wedding of Solomon Stinson, and Catherine Mona Urquhart, both of Lakefield, was quietly solemnized by Rev. Mr. Pearson, the pastor. The contracting parties were unattended.

SLOMAN-SLOAN

Geo. Alfred Sloman, Norwood, and Eliza Sloan, also of that place, were united in marriage at the George street Methodist Parsonage, Rev. Mr. Pearson officiating. The groom was attended by Mr. J. Kirk, of this city, and Miss Jennie Anderson, of Peterborough, was bridesmaid.

Says He Favors Instruction Meetings

Believes in Letting the People Know the State of Affairs in Dominion

"From the receptions we have received and from the present trend of political thought, every inch of Ontario appears to be good fighting ground," said Mr. J. Stewart Carstairs, secretary of the Dominion Liberal - Conservative Association, and organizer for the province.

Mr. Carstairs thinks that a series of instruction meetings should be held throughout the province for the purpose of letting the electors know the true state of affairs in Canadian politics. These meetings should be conducted with system and vigor in the different ridings by the Conservative members and supporters in those ridings, and an occasional outside speaker of note, who was well in touch with Dominion politics could be secured to enlighten the voters on the political situation. By arousing an enthusiasm for clean politics and by a reasonable amount of industry in the different ridings for the good cause, there seems no reason why a Government that will be a credit to the Dominion and that will blot out the present system of grafting, boodling and political corruption generally, should not be placed in power.

"Even in the hostile ridings of the province, Mr. Borden has been warmly welcomed," said Mr. Carstairs, "and our leader is evidently impressing the electors by the truth of his claims and the worth of his platform."

204 Charlotte St. Both Telephones

Enjoyed the Trip Over the Lift Lock

Mr. Borden and Party Spent an Enjoyable Afternoon

Yesterday afternoon at four o'clock the Liberal-Conservative reception committee drove Mr. Borden and party to the Wolfe street wharf, where they embarked for a pleasant trip around Little Lake on the "Rob Roy" This staunch and attractive yacht then took the company over the lift lock. Returning the members drove to the Young Conservative Club Rooms. Mr. R. M. Roy was warmly thanked by those on board, for placing his yacht at the disposal of the party, and also Supt. McClellan for his kindness in conducting the members over the lift lock.

Mr. Borden in conversation with the Review, expressed himself as delighted with the many beautiful residences, parks and churches of Peterborough. He was also much impressed by the many manufacturing concerns and with the lift lock, which he regarded as a great piece of engineering skill. "When I was here last Peterborough was a town" he remarked, "and its growth and progress have been remarkable."

Mr. Borden said that his health was excellent and that in spite of his strenuous work, he took keen pleasure in telling the electors of Canada, of the advantages they would gain when the Conservative party is granted the privilege to assume the reins of power in the Dominion House as he felt sure they would be in the next election.

Mr. Borden has been away from home in the interests of his party and the Dominion, since Aug. 20th, and will not return until after Nov. 1. Today he will speak at Dunnville, then at Beaverton on Saturday, when he leaves to begin his tour of the great West.

Back to Her Old Kentucky Home

Mr. Wm. Duncan has sold his chestnut runner, Marion Cairns. She won first money at the races at the Exhibition this summer, and ran second at Dufferin Park, for a good, long price. Mr. Duncan purchased this mare at the Woodbine from a Kentucky man at a particularly reasonable figure, and has resold her to the man, who bred her, who also lives in the Blue Grass State. As the latter was particularly anxious to make the purchase, a big profit was realized.

Waggon Broke Down on Water St.

Load of Coal Was Upset—Long But Unavoidable Delay

One of the teamsters of the Peterborough Fuel & Cartage Co. had a rather unavoidable delay yesterday afternoon while on his way delivering a load of coal. The accident occurred at the corner of Hunter and Water streets, between four and five o'clock. The teamster was driving north, and when he reached the corner the front pair of wheels became separated from the box of the waggon and the horses walked off, leaving the box and the rear wheels on the road. A large quantity of coal was thrown out. Another waggon was telephoned for, and was soon on the scene. The coal was reloaded, and then the waggon was fixed before the teamster could proceed with his coal.

Inquest Has Been Resumed

The inquest touching the death of Edward Wansbore, the C.P.R. freight conductor, who was killed in a rear end collision at Manvers on August 28th, will be resumed in the Orange hall at Manvers this afternoon. It is expected that the enquiry be concluded today, although there is considerable evidence to be heard, including that of the expert who has examined the air brakes of the train that was responsible for the smash-up.

A Place Where Light is Needed

To the Editor of the Review.

Sir.—A couple of weeks ago we noticed in the Review a plea for a light on Smith street, leading from Jackson Park. We think, sir, that it is high time that something was done for that dark hollow, and along where the G.T.R. track crosses it, is a very dangerous place at night both for children and grown people. On a dark night you can hear rigs coming, but cannot see them, nor yet see where to go for safety. Now, sir within the last week there have been some narrow escapes from accidents at this spot. Just as the crowd was coming from the park one night, some young men saw fit to run their horse at full speed and some narrowly escaped being run over, while others were knocked into the ditch. It seems strange for a city like ours to have such a beautiful park, and one of the leading streets to it, in total darkness; and it is not dangerous in summer alone, but is just as bad in winter for those attending the sports. Now, sir, we think if our aldermen would look into this matter and see for themselves the great need there is for lights along this dark place, they would soon have some placed there.

Thanking you, Mr. Editor, for your valuable space, I remain

Skating Contest At Roller Rink

Mr. Seymour and Miss Craig Were the Winners of the Prizes

Mr. Jack Seymour and Miss Irene Craig were the winners of the skating contest at the roller rink last evening. Out of a large number of couples who entered the contest, two were picked as the most graceful and best skaters on the floor.

The judges were Messrs. Vanzant, C. Schneider and W. Talbot, who had a difficult task, but their decision won approval by the large number of spectators.

To-night! To-night! At the Oriental

Annual Meeting of Rugby Team—Should be Large Attendance

This is the night when those rugby issues that have cropped up thus early in the season will be considered, when the officers will be elected, when prospects will be discussed and when all true enthusiasts will be on hand. The Oriental hotel is the place where the big gathering will assemble and it is expected that the bright countenances of the pigskin chasers and their supporters will abundantly ornament the place of meeting.

All this talk about the team one way or the other is to a great extent speculation for it is pretty hard to dope out yet, just how matters are going to stand. Several of last year's old "hosses" will be kicking again, and the new blood may spring something in the shape of a Poe or an Eckersall—who knows?

There will be lots of time tonight for discussion of matters pertaining to the welfare of the club. Some of the enthusiasts, who are pretty well in touch with the rugby situation say the prospects are good. But let all good followers of the game be on hand with their cheery, bright smiles, and lend their aid in threshing out matters and making suggestions for the good of the cause.

Let There be Light, Say the Merchants

Local merchants and delivery men are complaining on account of the poor lighting system of Peterborough. On these nights when darkness comes so early they say it is almost impossible, in many instances, to find house numbers, and are anxious that the proposed system of porch lights for all verandahs should go into effect as soon as possible.

WOODMEN'S UNVEILING

The members of Sherwood Forest Camp No. 56, Woodmen of the World are requested to attend the unveiling of the monuments, dedicated to the late Sovereigns—R. Foster and F. Wyatt, at Little Lake cemetery, on Sunday afternoon next, Sept. 15th at 3 p.m. Camp meets in hall at 2.30 A full attendance is requested. 3d

Sec. of the Committee 7

MIDNIGHT TRAIN THREE HOURS LATE

Freight Car Left the Track at Myrtle

The midnight C.P.R. train which is due here at 12.25 a.m., was three hours late this morning, not arriving until after three o'clock. The Review learned today that the train was detained at Myrtle owing to a freight having left the track there. It appears that this freight train started out an hour before the regular and at Myrtle, one of the cars was derailed. When the regular came along it could not pass, until the freight car was again on the rails. Thus an unavoidable delay was caused. Fortunately there was not many waiting at the local depot for this train, but things at the post office were somewhat behind, the papers from the West not being sorted until after nine o'clock.

Big Crowd Will Go to Cobourg

Local Team Will be Accompanied by Several Hundred Supporters

Despite the fact that a few alleged sports around town are using the hammer to the best of their ability, the local ball team will be accompanied by a monster crowd to Cobourg on Saturday. There are many people in the city who like to see good baseball and Saturday's contest for the championship of the Midland league will be the best thing in the ball line that has ever been seen in this district. The local team and the Port Hope nine are evenly matched and outside of the Eastern league it is a safe guess that there are few better teams in Ontario. They have been playing great ball all season and as so much is at stake in connection with Saturday's contest it will be fought tooth and nail from start to finish.

The return fare from Peterborough to the horse show, town is only 85c, and the train leaves the Grand Trunk station at 1.30. It will be one of the cheapest trips of the year and several hundred baseball enthusiasts will accompany the team. Port Hope is strengthening for the game and it is whispered a couple of big leaguers are being brough in to help win the championship. Anyway it will be a great game and well worth going miles to see. Arrangements are being made to accommodate a couple of thousand people.

FIRST PRACTICE OF THE SEASON

Arrows Will Have a Workout To-night

The basketball wheel starts revolving tonight, when the Arrows will have their first practice. The weather is getting cool now, and it is expected that this great indoor game will soon be in full swing. The Arrows, who have always been good enthusiasts and sports, will have a discussion on the outlook for the season and a general talk concerning the game and the prospects for the formation of a league. The following players, enough to form two teams, have expressed their intention of being on hand—Miller, H. and F. Cressman, Dobbin, Best, Dobson, Darling, Gillespie, Dingman and Richardson. The practice is called for seven o'clock.

"Dubby" Shea to Play Saturday

The lineup of the Petefborrugh baseball team for Saturday's game at Cobourg will be as follows:

Burns, c.f.
Hickey 1b.
Burridge, c.
Cheatham, s.s.
Haliburton, 3b,
Anderson, 2b.,
Shea, r.f.
Murphy, l.f.
Clements, p.

"Dubby" Shea has been in the city for several days and will add strength to the nine. He has been playing great ball in the Brantford city league.

BASKETBALL

GAME TO-NIGHT.

The basketball season will be opened to-night at the Y.M.C.A. when the Harriers and Arrows will meet in a friendly game. Both teams will be strong and a lively contest is assured.

RUGBY

The Crescents held a practice at Central Park last night and a run afterwards. They will practice on Nicholls Oval at 2.30 Saturday afternoon, probably with the Karnots.

THE TURF

Black Cloud was photographed this morning and the cut will probably be reproduced in the Horse World or Canadian Sportsman.

Choir Preparing Special Music

St. John's church choir meet tonight, boys at 7.30 p.m. seniors at 8 p.m. in the church, for the first choir practice of the winter season.

New music is to be at once put in practice for following festivals;—

Harvest Festival, Sept. 26th, and Sunday following.

Dedication Festival, Nov. 1st and Sunday following.

Cantata in December, during Advent.

Every choirster is asked to be present at 8 p.m. prompt.

Singers desiring admission to the choir may see the choirmaster after any service or practice.

SELECT CAPABLE MEN

To the Editor of the Review.

Sir.—While listening to the speeches of Mr. Borden and the other speakers last evening, it was a matter of surprise to me that men in this riding should thrust themselves forward to be our representatives in parliament, with no special qualification for the position. Not since the days of the late W. H. Scott and John Carnegie, have we had a member among our party to fill the bill. On economic grounds the country spends hundreds of thousands of dollars annually upon education, and yet we do not avail ourselves of the benefits accruing therefrom, in the selection of our representatives, but allow ourselves to be represented by the merest mediocre ability. That was made apparent by contrast when Col. Ward and Col. Hughes spoke last night, as the representatives, respectively, for the adjoining ridings of East Durham and North Victoria. Well might these constituencies point with pride to their Harry Ward and Sam Hughes, as they are familiarly known.

Yours, etc.,
CONSERVATIVE
Sept. 12, 1907.

THE STORE THAT NEVER DISAPPOINTS

NEW RUGS
Fall Importations

Fall 1907 is without a doubt to be one of the largest, if not the largest rug season that has ever been known. The general public are beginning to see the benefits derived from the use of them in preference to a carpet that is tacked to the floor and which is a harbor for dust and is most unsanitary—A rug may be taken up as often as is convenient, while a carpet is seldom removed oftener than twice annually.

We have made a special purchase of $3000.00 worth of rugs, most of which are imported from European markets at prices a great deal below the usual market price—These rugs to be on sale at especially low prices for the next two weeks.

Cressman's

Physical Director of Local Y.M.C.A. is Resigning Position

It is learned on good authority that Mr. Evert Dingman, who for the past year has been in charge of the physical department of the local Y.M.C.A., is resigning from his present position to become physical director of the Owen Sound Association. His resignation has been handed in, and will be dealt with by the Board of Management at an early date.

Mr. Dingman's decision to leave the city will be learned of with regret, as he personally is very popular and has done good work since taking charge of the physical department of the local Association It is understood that the position at Owen Sound is a good one. There is a flourishing and steadily growing Y.M.C.A. in that town, and there is little doubt but that Mr. Dingman will meet with much success in his work there.

Col. Joshua Wright, a former commandant of the 43rd Regiment, is dead in Ottawa.

Monkey Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal.

Blue Outlook on Horse Market

Prices are Lower Than They Have Been for Five Years

This morning a horse dealer informed the Review that the horse market was never at such a low ebb as it is at the present time. He cited an instance in his own particular business relations to bear out the truth of the statement.

"A month ago," he said, "I bought a carload of horses and shipped them to Toronto. There has been no sale for them, and for the past month I have been paying 60c. per head for 20 horses, or $12 per day, for their stabling. This is losing money pretty fast, and the price goes down every day. Why, only the other day I purchased a horse for $50 for which the owner refused $125 last spring. The prices are worse than cut in two all around, and the country is flooded with unsaleable three and four-year-olds."

He remarked that there were practically no western dealers who were anxious to buy, and very few from the east. The prices are lower at the present time than they have been for five years and are going down still.

If your children are troubled with worms, give them Mother Graves' Worm Exterminator; safe, sure and effectual. Try it and mark the improvement in your child.

But Crowd of Orientals Not Landed—One Thousand Japs on Way—Another Outbreak Feared — London Times Blames Labor Leaders For Riots—Japan Trusts to Laurier—Immigrants Find No Shelter.

Vancouver, B. C., Sept. 12.—From Japanese-Chinese Vancouver's race problem has shifted to Hindus. Yesterday afternoon 900 arrived on the Monteagle from Hong Kong. Thirty Japanese only came to Vancouver.

The Canadian Pacific Railway, owners of the steamer, had its wharf barricaded, roped off and protected by special police. It will be late in the evening before any large number of Hindus are expected to leave the steamer. No trouble is expected, as the laborites will not probably move against the Hindus because the latter are British subjects.

But the civic authorities yesterday morning backed up the labor people in bringing the entire immigration scheme to an issue. For two days the health department of Vancouver has been placarding as "unfit for habitation" every empty house and barn in the city limits in order that Hindus may not be allowed to take possession. Special guards will see that none of these houses are used by new arrivals. At noon, Mayor Bethune despatched this telegram to Premier Laurier:

"Neither accommodation nor employment for Hindus arriving to-day; nor is it possible to house them under sanitary conditions. Shall we house them in drill hall at Government's expense?"

Anticipating refusal by the Government, the mayor ordered the opening of a popular subscription list by the citizens to ship the entire 900 Hindus east by special train, leaving this morning. The mayor proposes that this would be the cheapest way of ridding Vancouver of these immigrants, and would, at the same time, give Eastern Canada a taste of what Asiatic labor is like.

The train would be billed right through to Ottawa.

No more demonstrations have occurred, and no renewal of rioting is expected until the arrival of the steamers Indiana and Woolwich, with more than one thousand Japanese. They are expected to-day or to-morrow.

At 2.15 this morning it was announced by the C. P. R. Telegraph Co. that efforts during the night to reach British Columbia points had failed because of auroral disturbances. Via New York, however, came the news in a brief special to The Toronto Globe that the crisis anticipated in Vancouver upon the landing of the thousand Orientals who had come in on the Monteagle had been averted by the decision of the shipping company not to take the Monteagle to Vancouver. The decision was a wise one, in view of the condition of public opinion and the grave danger of further rioting.

Left to Laurier.

Tokio, Sept. 12.—The Hochi, which was the most outspoken newspaper here, regarding the recent Japanese difficulties in San Francisco, in an editorial last night, says:

"The trouble in Vancouver, which appears to be over, was confined to one city. Japan can safely leave her interests in the hands of Premier Laurier, who has always been friendly. There is no reason why the people should feel uneasy over the outcome."

The Hochi is considered to be representative of popular sentiment.

Blames Yankees.

Montreal, Sept. 12.—Sir Charles Hibbert Tupper is here to meet his father, who arrives Friday. Speaking of the Vancouver riots, he blamed them on Americans, who want to introduce their methods in Canada. He says they have caused trouble before. He cannot see that there is any justification for the riots, and would insist emphatically on the rights of Japanese by treaty.

Against All Asiatics.

London, Sept. 12.—Despatches from Lucknow state that the incidents at Bellingham and Vancouver have greatly excited Hindoos, who are highly indignant and are calling on the British Government to take effective measures to protect their countrymen in the United States and Canada.

Ottawa, Sept. 12.—The Mayor of Vancouver has telegraphed Sir Wilfrid Laurier that twenty arrests of rioters have been made.

He also states that the attacks were directed against Asiatics in general, and not against the Japanese in particular.

Must Uphold Rights of All.

London, Sept. 12.—The Times in an editorial article yesterday morning says it is convinced that there is now full and ample confirmation for the belief that the anti-Oriental riots at Vancouver were actually organized by American labor agitators. "The men whose intrigues brought San Francisco under the domination of Ruef and Schmitz. [illegible] believes "this shameful riot upon British soil was gotten up by officials of American labor organizations for the purposing of conveying to M. Ishii, the distinguished member of the commercial department of the Japanese Foreign Office, who is now at Vancouver, the feelings of the labor element of the Pacific Coast."

Accounting for the race prejudice evidenced in such disturbances the paper says: "The plain truth is that on account of his thrift and industry, the Asiatic is detested as a dangerous competitor on the labor markets which the laborites want to keep a monopoly in white hands."

In conclusion, The Times says: "The rights of all men who visit British soil, whatever their color or race, must be unflinchingly upheld by the whole authority of the local Government and the Imperial Crown."

PARDON FOR ROWLEY.

Former Manager of Elgin Loan Co. Is Released.

St. Thomas, Sept. 12.—George Rowley, the defaulting manager of the Elgin Loan Co., the collapse of which four years ago, ruined so many people here, who was sentenced to 12 years in Kingston Penitentiary by Judge Ermatinger for forgery and theft, has been pardoned and is now out west.

Rowley served exactly four years. His pardon was kept a complete secret.

Rowley's defalcation came to light at the time of the Atlas Loan smash. He was arrested and brought to trial on July 25, but at the request of the crown sentence was deferred three weeks to allow Rowley to assist the liquidators in investigating the books of the wrecked company.

At the time of his sentence Rowley pleaded for leniency in order that he might endeavor to repay at least some of the money he had taken from those who trusted him.

Brockville Fair Opened.

Brockville, Sept. 12.—The opening of Brockville's big fair took place yesterday, in the presence of a small crowd, due to the heavy rain. The race program was cancelled.

Hon. Col. Matheson, Hon. G. P. Graham, D. Derbyshire and A. E. Donovan were present. The Provincial Treasurer urged that more attention be paid by the farmers hereabouts to the raising and marketing of cattle, swine and horses. Mr. Graham, suffering from a heavy cold, was excused from making a speech.

Drowns in Post Hole.

Owen Sound, Sept. 12.—The three-year-old son of Allen McMillan, a farmer residing a few miles from here, was drowned in a post hole here yesterday.

The little fellow was playing around a hole which had been dug for a gate post. The rain of the past few days had nearly filled the hole with water.

Fear Coal Famine.

Philadelphia, Sept. 12.—Anthracite and bituminous coal operators say that the coal situation is growing serious throughout the state and that before midwinter there will be a famine in many places.

The supply of water has already become a serious problem in the anthracite region and the labor supply has been below normal for several weeks.

Central America Republic.

Washington, Sept. 12.—Practical agreement on the main points and general good-will marked the preliminary meeting yesterday in this city of the representatives of the five Central American republics to carry out the suggestion of the United States and Mexico for permanent peace.

Swallowed the Mercury.

New Cumberland, Pa., Sept. 12.—Daniel A. Erney, a farmer of Lewisburg, died Tuesday from the effects of swallowing a piece of a clinical thermometer, which he was holding in his mouth for the purpose of ascertaining his temperature.

Negroes Killed.

Newburg, W. Va., Sept. 12.—Five negroes, sitting on the Baltimore & Ohio Railroad tracks, near here, late yesterday, shooting dice, were run down and killed by a train. The bodies were horribly mangled.

Auto Kills Prince.

Frole, Italy, Sept. 12.—Prince Wivialeschi of Vienna and his chauffeur were killed and three other persons injured in an automobile accident here yesterday.

Two Killed in Quarrel.

Pittsburg, Sept. 12.—Two Italians, John Rizzo and his son, were murdered last night at McKeesport, following a quarrel over a recent Black Hand murder.

N. S. W. Ministry Sustained.

Sydney, Sept. 12.—The New South Wales elections resulted as follows: 85 Ministerialists, 29 Laborites, 6 Independents. The Laborites gain three seats.

NEW KISHINEV HORROR

Again the Scene of Anti-Jewish Atrocities.

Eighty Jews Killed in Encounters With Enflamed Populace—Organized Band of Roughs Attack Hebrew Quarter—Houses and Shops Looted—Massacred Those Who Opposed Them—Refugees Driven Back.

Braila, Roumania, Sept. 12.—News has reached here of another serious and atrocious anti-Jewish outbreak at Kishinev.

It is estimated that no less than 80 Jews lost their lives in encounters with the enflamed populace. The Jewish quarter of Kishinev was attacked by an organized band of roughs, who looted houses and shops and ruthlessly killed or wounded all those who attempted to defend their property.

The Jews are fleeing from Kishinev in panic. Many of them who made their way to the banks of the Pruth, in the hope of finding protection in Roumania, were driven back by the frontier guards.

BOY BITTEN WHILE BATHING.

Attacked by Vicious Bulldog, Rescued by "Pen" Guards.

Kingston, Sept. 12.—Fourteen-year-old Edward McCammon went in swimming here, and, being attacked by a bulldog in the water, sustained serious injuries.

The boy was becoming exhausted in his efforts to fight off the animal when a couple of penitentiary guards in a prison tower half a mile away happening to notice the struggle through their long-distance glasses, jumped into a boat and despatch the dog with their rifles at close range.

At the hospital it was found that the boy had been fearfully bitten, and his life was despaired of for a time, but to-day the physicians think he may recover.

ALASKAN VOLCANO ERUPTION.

Ashes and Cinders Thrown Over Score of Native Villages.

Seattle, Wash., Sept. 12.—Advices received here from an officer of the revenue cutter Rush, lying at Dutch Harbor, and dated Sept. 4, say that on Sept. 1 and 2 a volcano in the Alutian Islands erupted, sending ashes and cinders over a score or more of native villages.

A hurricane accompanied the phenomena and wild fowl of all kinds were driven far to sea. No lives were reported lost.

The eruption occurred in the vicinity of the volcanic island Perry, which sprang up from the sea a short time after the San Francisco earthquake.

MODUS A DISGRACE.

Premier Bond Calls It Shameful Sacrifice of Colony's Interest.

St. John's, Nfld., Sept. 12.—In a statement published in the form of an interview here Tuesday, Sir Robert Bond, Premier of Newfoundland, said that the modus vivendi recently agreed upon by the British and American Governments, is "a disgrace to British diplomacy and a shameful sacrifice of the wants of the people of the colony."

Sir Robert asserts that only his strong protest during the London negotiations after the conference of colonial Premiers in that city, prevented the British Cabinet from concluding a worse compact with America.

GRAND TRUNK FINED.

Kept Cattle in Cars More Than 28 Hours at a Stretch.

Buffalo, N.Y., Sept. 12.—Judge Hazel of the U. S. Court yesterday imposed a fine of $800 on the Grand Trunk Railway, four cases; $200 on the Erie Railway, one case, and $200 on the Wabash Railroad, one case, for having violated the federal statute prohibiting the confinement of cattle in railroad cars more than 28 hours at a stretch.

The sentences were imposed upon stipulations entered by the roads admitting guilt.

Electrocuted in Storm.

Greensburg, Pa., Sept. 12.—Jesse Weaver and Louis W. Long, married, miners of Arona, were electrocuted and two other persons seriously injured late Tuesday night when lightning struck a trolley feed wire, knocking it down upon a barbed wire fence which the men touched as they sought shelter from a storm.

Riot at San Francisco.

San Francisco, Sept. 12.—A serious riot occurred early yesterday at 24th and Utah streets. A number of car men, while running a car of the United Railroads into the barn at this point, were attacked. During the fight five car men were wounded, one of them fatally.

Wreck on New York Central.

Poughkeepsie, N. Y., Sept. 12.—It is reported here that the engine and five cars of extra No. 42 eastbound, on the Central New England Railroad have jumped the track and turned over at Lloyd, five miles west of this city. The engineer was killed.

Jap Ambassadors Moved.

Berlin, Sept. 12.—Count Inouye, the Japanese ambassador to Germany, has taken his farewell, preparatory to returning to Japan. Viscount Aoki, the ambassador of Japan at Washington, will be transferred here.

Killed by Collapse of Stage.

Pawtucket, R. I., Sept. 12.—Three foreigners are reported killed through the collapse of a staging on which they were working at the Lebanon Mills here yesterday.

Fire at Gas Works.

St. Thomas, Sept. 12.—Fire broke out in the gas works here at 10.30 last night. Considerable damage was done.

Dr. Kenneth N. Mackenzie, aged 28, son of Mrs. Geo. Mackenzie, of St. Thomas, died in Ottawa of diphtheria.

DR. BROWETT'S DATES

For September at his Home Office, 390 George Street, Peterborough, Wednesday 11th to Saturday 14th inclusive; for October, 9th to 12th. Dr. Browett is teaching Opticians all over Ontario the modern methods of eye examination for Glasses, the fitting of Artificial Eyes, etc. Appointments are only made at

McDermid & Jury's Drug Store, Peterborough

NEW QUEEN OF THE SEAS.

Lusitania Plowing the Ocean at Rate of 25 Knots.

New York, Sept. 12.—Plowing the seas at a speed never before attained by a steamship, the giant turbiner Lusitania of the Cunard Line is sweeping along at a 25-knot clip on her maiden voyage to New York, and a wireless message received from Cape Race, Nfld., early yesterday, shows that the Lusitania has broken all records for a transatlantic steamer.

If she maintains her speed through the last 1,000 miles of her trip, the hope of a four-day trip across the Atlantic will have been realized. The Lusitania came into the wireless zone of Cape Race at 3.20 o'clock yesterday, and telegraphed that she was then 225 miles southeast of the Cape at the time, or 1,125 miles from the Sandy Hook lightship.

Speed 23 1-2 Knots.

The despatch yesterday showed that the big ship had covered 1,655 miles of the voyage in approximately 70 hours through swelling seas and murky fogs, which hindered her progress, and that she had averaged a trifle better than 23 1-2 knots an hour, a speed record never before reached by a transatlantic steamship on a westbound voyage.

The Lusitania is expected to flash by the red-hulled lightship of Sandy Hook about 1 o'clock Friday morning, which would make the time of the voyage about 4 days and 13 hours, more than 13 hours better than the record trip between Queenstown and New York, of 5 days 7 hours and 25 minutes, made by the Lucania of the Cunard Line in 1894.

The Lusitania's maiden voyage promises also to wrest the title of the Queen of the Seas from the Deutschland of the Hamburg-American Line. The Deutschland made a voyage from Cherbourg to New York in 1903 in 5 days, 11 hours and 34 minutes, over a course 3,034 miles in length, at an average speed of 23.12 knots.

LETTERS CAUSE MURDER.

Hamilton Man Figures in Sensational Tragedy at Chicago.

Chicago, Sept. 12.—A Hamilton, Ont., man named Billy Murdoch figured big in a sensational tragedy here yesterday, when Mrs. Herman Westerfield, the 26-year-old wife of Herman Westerfield, was shot by a former suitor, Ed J. Hiedehonds, who, when he found the police were after him, shot himself in a down-town apartment house.

Westerfield, when he saw his dead wife, sent a bullet through his brain.

Mrs. Westerfield three years ago was a friend of Billy Murdoch's, and off and on has kept up correspondence with him.

Endearing letters passed between them, couched in terms such as "a million kisses and hugs, from your own boy," "Billy will always be your own," etc., etc.

The police have the letters and a photograph of Murdoch.

It is said that when Hiedehonds learned of the friendship between Mrs. Westerfield and Murdoch he became insanely jealous and killed the woman.

Franco-Canadian Treaty.

Paris, Sept. 12.—Sir F. L. Bertie, the British ambassador to Paris; W. S. Fielding, Canadian Minister of Finance; L. P. Brodeur, Canadian Minister of Marine, and President Fallieres of France, will sign the Franco-Canadian commercial treaty this week.

The treaty then will be countersigned by Foreign Minister Pichon, Finance Minister Caillaux, Minister of Commerce Doumergue, and Minister of Agriculture Ruau, for the departments concerned.

Wife Chained to Bed.

Montreal, Sept. 12.—Edward Quinn, who kept his wife chained to the bed post, came up in court yesterday morning and was discharged. He denied, when arrested, any cruelty to his wife and said he had to keep her chained to keep her sober. She was released by the police and yesterday she celebrated by getting drunk, and the judge gave the woman a month in jail.

Douks Are Famishing.

Kenora, Sept. 12.—Some two weeks ago the first contingent of the Doukhobors left Kenora, striking out in the northern wilds in their mad march towards Montreal.

Yesterday word was received through a hunter that the party of 30 pilgrims were famishing in the woods and that he believed unless succor was sent to them they would all perish within a week.

Foot Horribly Mangled.

St. Thomas, Sept. 12.—A sectionman named Butler, lately out from the old country, was brought to the Aurora Wood Hospital here last night, with his foot horribly crushed. The accident happened at Sheddon, where the man's leg was extricated from between two bumpers of freight cars.

State Officer Short.

New Orleans, La., Sept. 12.—An alleged shortage of $100,000, reported yesterday in the accounts of the state tax commissioner here.

The police are searching for Charles E. Letten, a clerk in the office.

Cholera in Silesia.

Berlin, Sept. 12.—A railway workman at Koenigsnueto, Silesia, died Tuesday under circumstances which suggested cholera. Official reports showing the progress made by cholera in Russia are disquieting.

Brakeman Killed.

Wyoming, Sept. 12.—A. L. Hart of Sarnia, a brakeman on the way freight running between London and Sarnia, was killed yesterday morning while coupling cars. He leaves a widow and one child.

Winnipeg civil servants have organized an association and ask an increase of wages.

ENGINEER'S EVIDENCE.

All Metal for Quebec Bridge Was Twice Inspected.

Quebec, Sept. 12.—The coroner's jury resumes its enquiry to-day into the Quebec Bridge disaster.

Before the Royal Commission yesterday, E. A. Hoare, chief engineer of the Quebec Bridge Co., testified. He was appointed to that position in 1900, but for 35 years had been engaged on different Canadian railways. His experience with bridges was that of structures entering into railway construction, both wood and steel.

He had been chief engineer of the Canadian Northern Railway.

His duties in connection with the Quebec Bridge were to prepare plans and specifications, to make probable estimates for tenders and to superintend the work. The specifications first called for a 1,600 foot span, and later for one of 1,800 feet, some modifications being made to them by Mr. Cooper. The modifications were made after the signing of the contract. The Government had accepted the modifications. Mr. Cooper had visited the bridge several times and received weekly reports. All metal was inspected upon arrival in the metal yard, and again at the bridge, before being raised into position. This was very important. Neither Mr. McClure, Mr. Cooper nor himself had authority to stop the work of the Phoenix Co. on the bridge.

Asked what he would have done then had anything occurred to warrant a stoppage of work, he said he could not state, as such a contingency had never occurred to him.

Amongst the bodies of bridge victims recovered yesterday was that of Bind, the chief resident engineer of the Phoenix Bridge Co., at the bridge, an old Montrealer.

Mouth Prints.

Dr. Paul Prager, an army surgeon of Vienna, suggests that molds of the mouths of prisoners would be much better than finger prints for identification purposes, as the palate remains absolutely unchanged throughout life.

Europe's Largest Park.

The largest park in Europe is the Prater of Vienna. Its area is nearly eighty square miles.

Nile River Fish.

The fish population of the Nile is said to present a greater variety than that of any other body of water. An expedition sent from the British museum secured 9,000 specimens.

Beating Carpets.

When beating carpets remember first of all to beat very thoroughly on the wrong side and then very lightly on the right. Too vigorous beating on the right side is liable to ruin the texture of a carpet, but thorough brushing with a hard carpet brush can do no harm.

Peterborough Industrial
EXHIBITION

THREE DAYS THREE DAYS

Thursday, Friday, Saturday
September 26, 27, 28

Three Big Days of Interesting Doings

Liberal Prizes for Speeding Contests.
Special Attractions in front of the Grand Stand—

Trained Dogs, High Wire Acts
Contortionists, Etc.

The Prize List this year is unusually liberal and should be carefully looked into. Farmers should not fail to patronize the Home Fair.

STREET CARS RUN DIRECT TO THE GROUNDS

The Secretary has opened an office in STOREY & LEARY'S STORE, 383 Water Street, and will be glad to Supply Prize Lists, Entry Forms, or any other information required.

R. H. LEARY, PRESIDENT
F. J. A. HALL, SECRETARY

PETERBOROUGH,
September 4th. 1907

MR. W. H. HILL,
City

DEAR SIR,—I am pleased to acknowledge receipt of Dividend Certificate, in Sun Life, for the five years ending 1906, in which I notice that you have added to my Policy $55.00 profits. This is certainly a satisfactory showing, and looks like doing business in a profitable way.

Thanking you for your advice, I am,

Yours truly,

R. J. KIDD,
Manager R. Neill's Boot and Shoe Store

The Last Stroke.

BY LAWRENCE L. LYNCH,

Author of "A Woman's Crime," "John Arthur's Ward," "The Diamond Coterie," "Against Odds," Etc.

The doctor sighed and for a few moments walked on in silence. Then as they neared the cottage he almost stopped short and turned toward the detective.

I'm afraid you will think me a sad bungler, Ferrars. I should have told you at once that Robert Brierly awaits us at Mrs. Marcy's cottage."

"Robert Brierly? Is that his name? I wonder if he can be the Robert Brierly who has helped to make one of our morning papers so bright and breezy. A rising young journalist, in fact. But it's probably another of the name."

"I don't know. He has not spoken of himself. Will it suit you to meet him at once?"

"We don't often get the chance to begin as would best suit us, we hunters of our kind. I would have preferred first to go to the scene of death, but I suppose the ground has been trampled over and over, and, besides, I don't want to advertise myself until I am better informed at least. Go on, we will let our meeting come as it will."

But things seldom went on as they would for long, when Frank Ferrars was seeking his way toward a truth or fact. They found Mrs. Marcy at the door, and she at once led them to the upper room which looked out upon the side and rear of the little lawn, and was screened from inlookers, as well as from the sun's rays, by tall cherry trees at the side, and thick and clinging morning glory vines at the back.

"You'll be quite safe from intrusion here," she murmured and left them, as she had received them at the door.

If Doctor Barnes had feared for his patient's strength, and dreaded the effect upon her of the coming interview, he was soon convinced that he had misjudged the courage and will power of this slight, soft-eyed, low-voiced and unassertive young woman. She was very pale, and her eyes looked out from their dark circles like wells of grief. But no tears fell from them, and the low pathetic voice did not falter when she said, after the formal presentation, and before either of the others had spoken.

"I have asked to be present at this interview, Mr. Ferrars, and I am told that it rests with you whether I am admitted to your confidences. Charles Brierly is my betrothed, and I would to God I had yielded to his wish and married him a week ago. Then no one could have shut me out from ought that concerns him, living or dead. In the sight of heaven he is my husband, for we promised each other eternal faithfulness with our hands clasped above his mother's Bible."

Francis Ferrars was a singular mixture of sternness and gentleness; of quick decision at need and of patient considerateness, and he now took one of the cold little hands between his own, and gently but firmly led her to the cosy chair from which she had arisen.

"You have proven your right to be here, and no one will dispute it. We may need your active help soon, as much as we need and desire your counsel and your closer knowledge of the dead man now."

In moments of intense feeling conventionalities fall away from us and strong soul speaks to strong soul. While they awaited the coming of the doctor and Francis Ferrars, Hilda Grant and Robert Brierly had been unable to break through the constraint which seemed to each to be the mental attitude of the other, and then, too, both were engrossed with the same thought, the coming of the detective, and the possibilities this suggested, for underlying the grievous sorrow of both brother and sweetheart lay the thought, the silent appeal for justice as inherent in our poor human nature as is humanity itself.

But Hilda's sudden claim, her prayer for recognition struck down the barrier of strangeness and the selfishness of sorrow, than which sometimes nothing can be more exclusive, in the mind and heart of Robert Brierly, and he came swiftly to her side, as she sank back, pallid and panting, upon her cushions.

"Miss Grant, my sister; no other claim is so strong as yours. It was to meet you, to know you, that I set out for this place to-day. In my poor brother's last letter — you shall read it soon — he said, 'I am going to give you something precious, Rob; a sister. It is to meet her that I have asked you to come just now.' I claim that sister, and need her now if never before. Don't look upon me as a stranger, but as Charlie's brother, and yours." He placed his hand over hers as it rested weakly upon the arm of her chair, and as it turned and the chill little fingers closed upon his own, he held it for a moment and then, releasing it gently, drew a seat beside her and turned toward the detective.

"Mr. Ferrars, your friend has assured me that I may hope for your aid. Is that so?"

"When I have heard all that you can tell me, I will answer," replied Ferrars. "If I see a hope or chance of unravelling what now looks like a mystery—should it be proved a mystery — I will give you my promise, and my services."

He had seated himself almost opposite Hilda Grant, and while he quietly studied her face, he addressed the doctor.

"Tell me," he said, "all you know and have been told by others, and be sure you omit not the least detail."

Beginning with the appearance of Mr. Doran at his office door, with the panting and perspiring black pony, the doctor detailed their drive and his first sight of the victim, reviewing his examination of the body in detail, while the detective listened attentively and somewhat to the surprise of the others, without interruption, until the narrator had reached the point when, accompanied by Brierly, he had followed the hearse, with its painful burden, back to the village. Then Ferrars interposed.

"A moment, please," taking from an inner pocket a broad, flat letter case and selecting from it a printed card, which, with a pencil, he held out to the doctor.

"Be so good," he said, "as to sketch back of this, the spot where you found the dead man, the mound in full, with the road indicated, above and beyond it. I remember you used to be skillful at sketching things."

CHAPTER V.

When the doctor had completed his hasty sketch, he returned the card upon which it was made, to the detective, and silently awaited his comment.

"It is very helpful," said Ferrars. "It would seem, then, that just opposite the mound the lake makes an inward curve?"

"Yes."

"And that the centre of the mound corresponds to the central or nearest point of the curve?"

The doctor nodded assent.

"Now am I right in thinking that anything occurring at this central point would be unseen from the road?"

"Quite right. The mound rises higher than the road, and its length shuts off the view at either end, that and the line of the road, which curves away from the lake at the north end, and runs in an almost straight direction for some distance at the other."

"I see." And again for a moment Ferrars consulted the sketch. "Then—"

"Did you measure the distance between the target and the spot where the body was found?"

"No. It was the usual distance for practice, I should think."

"It was rather a long range," interposed Brierly. "I am something of a shot myself and I noticed that."

Again the detective pondered over the sketch.

"By this time I dare say," he said presently, "there will be any number of curious people in the wood and about that spot."

"I doubt it," replied Doctor Barnes. "I thought of that, and spoke to Doran. Mr. Brierly was so well liked by all that it only needed a word to keep the men and boys from doing anything that might hinder a thorough investigation. Two men are upon the road just below the school house to turn back the thoughtless curious ones. It was Doran's foresight," added the honest physician. "I suppose you will wish to explore the wood near the mound."

Ferrars laid aside the sketch. "As the coroner" he said, "you can help me. Of course, you can have no doubt as to the nature of the shooting. There could be no mistake."

"None. The shot at the back could not have been self-inflicted."

"Then if you can rely upon your constables and this man Doran, let them make a quiet inquiry up and down the wood road in search of any one who may have driven over it between the hours of—"

"Eight and ten o'clock," said Hilda Grant. "He," meaning her late friend, "left his boarding place at eight o'clock, or near it, and he was found shortly before ten."

Her speech was low and hesitating, but it did not falter.

"Thank you," said the detective, and turned again to the doctor.

"Next," said he, "if you can find a trusty man, who will find out for us if any boat or boats have been seen about the lake shore during those hours, it will be another step in the right direction. And now, you have told me that you suspect no one; that there is no clue whatever." He glanced from one to the other. "Still we are told that very often by those who should know best, but who were not trained to such searching. To begin, I must know something, Mr. Brierly, about your brother and his past. Is he your only brother?"

"Yes. We lost a sister ten years ago, a mere child. There were no other children."

"And—your parents?"

"Are both dead."

"Ah! Mr. Brierly, give me, if you please, a sketch of your life and of your brother's, dating, let us say, from the time of your father's death."

If the request was unexpected or unwelcome to Robert Brierly he made no sign, but began at once.

"If I do not go into details sufficiently, Mr. Ferrars," he said, by way of preamble, "you will, of course, interrogate me."

The detective nodded, and Brierly went on.

"My father was an Episcopalian clergyman, and, at the time of his death, we were living in one of the wealthy suburbs of Chicago, where he had held a charge for ten years, and where we remained for six years after he gave up the pulpit. Being in comfortable circumstances, we found it a most pleasant place of residence. My sister's death brought us our first sorrow, and it was soon followed by the loss of our mother. We continued to live, however, in the old home until my brother and I were ready to go to college, and then my father shut up the house and went abroad with a party of congenial friends. My father was not a business man, and the man to whom he had confided the management of his affairs misarranged them during his absence, to what extent we never fully knew until after my father's death, when we found ourselves, after all was settled, with something like fifteen thousand dollars each, and our educations. My brother had already begun to prepare for the ministry, and I had decided early to follow the career of a journalist."

"Are you the elder?" asked the detective.

"Yes." Brierly paused for further comment, but none came, and he resumed. "It had been the intention of my father that my brother and I should make the tour of the two continents when our studies were at an end; that is, our school days. He had made this same journey, in his youth and he had even mapped out routes for us, and told us of certain strange and little explored places which we must not miss, such as the rock temples of Kylas in Central India, and various wonders of Egypt. It was a favorite project of his. 'It will leave you less money, boys,' he used to say, 'but it will give what can never be taken from you. When a man knows his own world, he is better fitted for the next.' And so, after much discussion, we determined to make the journey. Indeed, to Charley it began to seem a pilgrimage, in which love, duty and pleasure intermingled."

He paused, and Hilda turned away her face as a long sighing breath escaped his lips.

"Shortly after our return I took up journalistic work in serious earnest, and my brother, having been ordained, was about to accept a charge when he met with an accident which was followed by a long illness. When he arose from this, his physicians would not hear of his assuming the labors of a pastor over a large and active suburban church, and, as my brother could not bear to be altogether idle, and the country was thought to be the place for him, it ended in his coming here, to take charge of the little school. He was inordinately fond of children, and a born instructor, so it seemed to me. He was pleased with the beauty of the place and the quiet of it, from the first, and he was not long in finding his greatest happiness here."

His voice sank, and he turned a face in which gratitude and sorrow blended, upon the girl who suddenly covered her own with her trembling hands.

But the detective, with a new look of intentness upon his face, and without a moment's pause, asked quickly.

"Then you have been in this place before, of course?"

"No, I have not. For the first three months Charley was very willing to come to me, in the city. Then came a very busy time for me and he came twice, somewhat reluctantly, I thought. Six months ago I was sent to New Mexico to do some special work, and returned to the city on Tuesday last." His voice broke, and he got up and walked to the window farthest from the group.

While he had been speaking, Ferrars had scribbled aimlessly and a stroke at a time, as it seemed, upon the margin of the printed side of the card which bore the sketch made by Doctor Barnes; and now while Hilda's face was turned away and the young man at the window still stood with his back toward all in the room, he pushed the card from the edge of the table, and shot a significant glance toward the doctor.

Picking up the card Doctor Barnes glanced at it carelessly, and then replaced it upon the table, having read these words—

"I wish to speak with her alone. Make it a professional necessity."

As Brierly turned toward them once more the detective turned to the young girl. "I would like to hear something from you Miss Grant, if you find yourself equal to it."

Hilda set her lips in firm lines, and after a moment said steadily—

"I am quite at your service."

"One minute." The doctor arose and addressed himself to the detective.

"I feel sure that it will be best for Miss Grant that she talk with you alone. As her physician, I will caution her against putting too great a restraint upon herself, upon her feelings. While you talk with her, Ferrars, Mr. Brierly and I will go back to my quarters, unless you bid us come back."

"I do not," interposed the detective. "I will join you soon, and if need be, you can then return, doctor."

At first it seemed as if Hilda were about to remonstrate. But she caught the look of intelligence that flashed from his eyes to hers, and she sat in silence while Doctor Barnes explained the route to his cottage, and murmured a low good-bye while Brierly took her hand and bent over her with a kind adieu.

"I may see you to-morrow," he answered. "You will let me come, sister?" The last word breathed close to the ear.

Her lips moved soundlessly, but he read her eager consent in her timid return of his hand clasp and the look in her sad, gray eyes, and followed the doctor from the room.

When Frank Ferrars had closed the door behind the two men, he wasted no time in useless words, but, seating himself opposite the girl, and so close that he could catch, if need be, her faintest whisper, he began, his own tones low and touched with sympathy—

"Miss Grant," he said, "I already feel assured that you know how many things must be considered before we can ever begin such a search as I foresee before me. Of course it may happen that before the end of the coroner's inquest some clue or key to the situation may have developed. But, if I have heard all, or, rather, if there has not been some important fact or feature overlooked, we must go behind the scenes for our data, our hints and possible clues. Do you comprehend me?"

Hilda Grant had drawn herself erect, and was listening intently with her clear eyes fixed upon his face, and she seemed with her whole soul to be studying this man, while, with her ears she took in and comprehended his every word.

"You mean," she answered slowly, "that there may be something in himself or some event or fact in his past, or that of his family, which has brought about this?" She turned away her face. She could not put the awful facts into words.

"I knew you would understand me, and it is not to his past alone that I must look for help, but to others."

"Do you mean mine?"

"Yes. You do understand!"

There was a look of relief in his eyes. His lips took on a gentler curve. "I see that you are going to help me."

"If it is in my power, I surely am. Where shall we begin?"

"Tell me all that you can about Charles Brierly, all that he has told you about himself. Will it be too hard?"

"No matter." She drew herself more erect. "I think if you will let me tell my own story briefly, and then fill it out at need, by interrogation, it will be easiest for me."

"And best for me. Thank you." He leaned back and rested his hands upon the arms of his chair.

"I am ready to hear you," he said, and withdrew his full gaze from her face, letting his eyelids fall and sitting thus with half-closed eyes.

To be continued.

CZAR'S YACHT AGROUND

Fast on a Rock Off the Finnish Coast.

Imperial Steamer Ran on Submerged Reef—Could Not Be Released—Royal Family All on Board—Vessel in No Danger—Squadron of Torpedo Boats Ready to Give Assistance.

Hango, Finland, Sept. 12.—The Russian imperial yacht Standart, with Emperor Nicholas and Empress Alexandra and their family aboard, is fast on the rocks off Hersoe, a point on the east coast west of this place.

The yacht is apparently in no danger, as the Emperor and his family remain on board.

The Standart ran upon the rocks, which were submerged at high tide, at 4.30 o'clock yesterday afternoon and remained fast.

A steam lifeboat from Reval, on the Gulf of Finland, has arrived upon the scene, and seven torpedo boats, which have been escorting the imperial yacht on its tour in Finnish waters, are standing by to render assistance if needed.

WORKMEN IN PERIL.

Cave-in of Tunnel Sixty Feet Under River.

Windsor, Sept. 12.—The lives of 20 workmen were endangered by a cave-in at the Michigan Central tunnel yesterday morning. The timbers gave way while a score of employes were down a distance of 60 feet from the surface.

Fortunately, the cave-in was gradual, and the breaking timbers gave sufficient warning for the men to escape. All got out safely.

The cave-in will tie up work on the tunnel at this point for 20 days or possibly a month. The actual damage is not as serious as the delay in the construction.

C. P. R. TRAIN WRECKED.

Freight Train Crashes Into Ballast—Fireman Killed—Cars Smashed.

Ottawa, Sept. 12.—A C. P. R. train of 20 coaches, en route to Montreal, plunged into a ballast train at Plantagenet last night and was wrecked, Fireman Knox of Blackburn being killed and Engineer Herb Reynolds of Ottawa seriously injured.

The train is completely wrecked, the engine and several cars being smashed. The cause of the accident is not yet known.

Boy Killed by Carousal.

St. John, N. B., Sept. 12.—At the inquest into the death at Lily Lake, near Campbellton, of Oliver Peters, a lad who was accidentally shot on Sunday by a comrade, Benjamin Beatty, the evidence showed that four boys had gone on a drunken carousal to Lily Lake, taking much liquor with them, also firearms. They spent the day playing for the drinks.

The jury condemned the fact that such youths could procure liquor freely, and they asked that Peters' companion be proceeded against for violating the law, and that Sunday lawlessness generally in the neighborhood be suppressed.

Sandwich Man Suicides.

Detroit, Sept. 12.—Edgar A. Davis of Sandwich, Ont., whom a Buffalo broker issued a warrant for larceny by conversion, committed suicide by inhaling gas at Hartford, Conn., while visiting his sister, Mrs. Taylor of that city.

Davis was interested in the Wolverine Fish Co., and was known as the anti-trust fish man. He was also an officer of the Windsor Dredging Co.

No News From Morocco.

Paris, Sept. 12.—Premier Clemenceau announced last night that he had received no further news from Morocco.

He has instructed Gen. Drude, the commander of the French expeditionary force, to deliver a sharp and decided attack upon the Arab tribesmen when, in his judgment, the occasion is opportune.

Blew His Brains Out.

St. John, N. B., Sept. 12.—Robert Milligan, a prominent Orangeman of Albert County, shot himself yesterday, blowing his brains out. He had been suffering from paralysis.

Russell Waycott, while running an emery wheel in a pulp mill at St. George, was killed by being struck with the belt.

Police Chief Assassinated.

Irkutsk, Siberia, Sept. 12.—The chief of the secret police here, Gavrykoff, was assassinated yesterday.

Grodno, Russia, Sept. 12.—Ex-Chief of Police Matsevitch of Bialystow was mortally wounded by a terrorist here yesterday. His assailant was captured.

Second Contingent.

Portage la Prairie, Man., Sept. 12.—The second contingent of Doukhobors, on the march to seek a warmer climate, reached the city yesterday, and after a rest of a couple of hours left on the journey towards Winnipeg.

Boy's Lone Ocean Trip.

London, Sept. 12.—(C. A. P.)—Jack Dillon, Ottawa, aged 7 years, arrived at Liverpool on the Lake Erie to visit his grandfather. He explained jauntily that this was not his first trip across the Atlantic.

First Snow of Season.

Chicago, Sept. 12.—A despatch to The Tribune from Fort Wayne, Ind., says the first snowstorm of the season occurred here Tuesday. The flurry lasted five or ten minutes.

Beat Pony to Death.

Montreal, Sept. 12.—George Abbott, a stable boy for Col. Meighen, beat the latter's polo pony so brutally that it died. He will be prosecuted.

Longboat's advice to Jack Marsh, of Winnipeg: "Go west, young man." —Hamilton Times.

THE MARKETS.

Eggs—Firm, unchanged; receipts, 8890.

CATTLE MARKETS.

Cables Steady—Hogs Are Lower at Buffalo.

LONDON, Sept. 11.—London cables are firmer, at 11½c to 12¾c per lb., dressed weight; refrigerator beef is quoted at 10c per pound.

Montreal Live Stock.

MONTREAL, Sept. 11.—(Special.)—About 550 head of butchers' cattle, 20 milch cows, 100 calves, 500 sheep and lambs and 300 fat hogs were offered for sale at the East End Market to-day. Business was fair, with no changes to note in the prices, except that milch cows are rather higher. Prime beeves sold at from 4½c to 5c per lb., but they were not choice; pretty good cattle, 3½c to 4½c, and the common stock at 2c to 3c per lb. Milch cows sold at $25 to $55 each. Most of the calves were grassers, which sold at 2½c to 3½c per lb. Good veals sold at 4c to 4½c per lb., and the lambs at 5½c. Good lots of fall hogs sold at about 6½c per lb.

East Buffalo Cattle Market.

EAST BUFFALO, Sept. 11.—Cattle—Receipts, 125 head; slow; prime steers, $6.25 to $6.75.

Veals—Receipts, 250 head; active, 50c higher, $5.25 to $9.50.

Hogs—Active; receipts, 3100 head; heavy, 10c to 25c lower; others, 5c lower; heavy, $6.40 to $6.60; mixed, $6.85 to $6.95; yorkers, $6.95 to $7.05; pigs, $6.60 to $6.75; roughs, $5.25 to $5.80; stags, $4.25 to $4.75; dairies, $6.25 to $6.90.

Sheep and Lambs—Receipts, 1800 head; active; sheep, steady; lambs, 30c higher; lambs, $5 to $8.15; a few $8.25.

New York Live Stock.

NEW YORK, Sept. 11.—Beeves—Receipts, 2415; trade, slow, 10c to 15c lower; steers, $3.75 to $6.70; oxen, $4.65 to $5.65; bulls, $2.75 to $3.60; few extra fat, at $4.25; cows, $1.25 to $3.80. Exports, 1400 cattle and 2400 quarters of beef; to-morrow, 4150 quarters of beef.

Calves—Receipts, 3488; prime veals firm; others, steady. Veals, from $5 to $9.25; culls, $4 to $4.50; westerns, $2.50 to $2.75; fed calves, $2.50 to $4; buttermilks and grassers, $2.50 to $3.25.

Sheep and Lambs—Receipts, 7418. Sheep, steady; good lambs, full, steady; medium and common, slow. Sheep, $3.50 to $5.50; culls, $1.50 to $3.00; lambs, $6.25 to $7.85; no prime here; culls, $4.75 to $6.50.

Hogs—Receipts, 3605; market, trifle easier. State hogs, $6.80 to $7.15.

Chicago Live Stock.

CHICAGO, Sept. 11.—Cattle—Receipts, 18,000; market, best strong to 10c higher; others steady; common to prime steers, $4 to $7.80; cows, $3.20 to $5; heifers, $3 to $5.75; bulls, $2.40 to $5; calves, $3 to $7.60; stockers and feeders, $2.40 to $5.

Hogs—Receipts, 23,000; market steady to 5c higher; choice heavy shipping, $6.15 to $6.30; light butchers', $6.40 to $6.60; light mixed, $6.50 to $6.60; choice light, $6.20 to $6.40; packing, $5.40 to $6.15; pigs, $5 to $6.15; bulk of sales, $5.80 to $6.

Sheep and Lambs—Receipts, 18,000; market steady to 10c higher; sheep, $3.80 to $5.50; yearlings, $5.75 to $6.35; lambs, $6 to $7.15.

Runyan Gets Seven Years.

New York, Sept. 12.—Chester B. Runyan, paying teller of the Windsor Trust Co., who confessed to stealing $100,000 of the company's funds, was sentenced yesterday by Judge Whitman in the Court of General Sessions to serve seven years in Sing Sing Penitentiary.

WILL LECTURE IN ENNISMORE

Rev. Dr. O'Brien to Open Literary Season Next Tuesday Night

The literary season will be opened in Ennismore on Tuesday next, the 17th of September, by a lecture on Ireland, and on a visit to His Holiness Pope Pius X, by Rev. Dr. O'Brien. The reverend doctor has returned recently from the Eternal City, where he was fortunate in obtaining more than the ordinary number of audiences with the Holy Father. He also renewed many acquaintances in Ireland, and by varying his former route somewhat, became still more in touch with the Green Isle and her people. As the Holy Pontiff and the Irish people are topics of special interest, a most enjoyable evening is anticipated.

Park Street Baptist Church

Quarterly Business Meeting Held —Good Reports

The Quarterly Business meeting of the Baptist church, was held last night, Rev. A. H. Brace in the chair.

The meeting being called to order Mr. Geo. Stean, church clerk, read the minutes.

The reports from various departments of church work were very encouraging. Though a large amount has been raised for the building fund the finance secretary reported a balance in hand for the general fund. Ladies' Aid reported a balance of $45.00 and more to come in.

The usual routine business was attended to, and the following delegates were appointed to the convention of Ontario and Quebec, sitting at Woodstock from Oct. 16 to 22. Rev. A. H. and Mrs. Brace, Charles Barrie and Mr. Everson.

Mr. T. G. Gillespie, secretary of Building Committee, reported various stages of work done, and the new church was dealt with in a very hearty and hopeful conference. The old building will be removed to the north side of Park, early next week.

The Harvest Home Thanksgiving with presentation of offerings was fixed for Oct. 13, when the first part of the donations pledged, will be presented for the new church. Foreign Mission Sunday was fixed for Sept. 29.

AT JACKSON PARK

57th regiment band and moving pictures at Jackson Park to-night.

REPAIRS TO AUBURN DAM

Repairs are being made to the Auburn dam by the owners, the Auburn Woollen Mills Co. A gang of men are at work making various improvements that have become necessary.

NEW WALKS

About 4400 square yards of granolithic walk have been laid in Tweed this year at an average cost of 92 cents.—Tweed News.

Thanksgiving Day On a Thursday

Last Day of October Fixed Upon as the Date This Year

An Ottawa despatch says: — Some fifteen prominent commercial travellers had an interview to-day with Sir Wilfrid Laurier, Mr. Scott and Mr. Aylesworth, at which they urged the selection of the last Monday in October for Thanksgiving Day. The deputation pointed out that the choice of Thursday for Thanksgiving Day was a great hindrance to the trade of the country. Commercial travellers were stranded far from their headquarters and unable either to do business or get home to spend the day with their families without sacrificing the day following.

Sir Wilfrid Laurier, in reply, said he was greatly impressed by the arguments of the deputation, but intimated that it was as good as settled that Thanksgiving Day this year would be Thursday, Oct. 31st. The commercial travellers would not be inconvenienced to any great extent, as the day following, Friday, Nov. 1st, would be All Saints' Day, and a statutory holiday in the Province of Quebec. He assured them, however, that next year their representations would be carefully considered.

WOODMEN'S UNVEILING

The members of Sherwood Forest Camp No. 56, Woodmen of the World are requested to attend the unveiling of the monuments dedicated to the late Sovereigns—E. Foster and F. Wyatt, at Little Lake cemetery, on Sunday afternoon next, Sept. 15th at 3 p.m. Camp meets in hall at 2.30. A full attendance is requested.

Camp of Moors is Burned; The Latest from Casablanca

Tribesmen Dispersed by Allied Franco-Spanish Army.

Attack Well Planned Under Cover of Fog—Taddert Bombarded—Moors Routed at Point of Bayonet—Many Dead Left on Field—Allied Troops Had One Killed and Six Wounded—Moors Fled in Disorder.

Casablanca, Sept. 13.—The allied Franco-Spanish army on Wednesday made a sudden and successful move on Taddert, where the Moors were massed in force.

The camp of the latter was destroyed by bombardment, and the enemy was put to flight, leaving many dead on the field. The French lost one man killed and six men wounded.

The attack was carefully planned, and was based largely on the observations of the Moors' position made from a military balloon.

The allied army, which was divided into two columns, left the camp at 6 o'clock in the morning, leaving several companies of infantry to defend the base at Casablanca.

The first column was composed of four companies of regular infantry, several companies of sharpshooters, a battery of artillery and all the cavalry.

The second consisted of six companies of infantry and a battery of artillery. The march was skillfully carried out under the cover of a fog until within half way to Taddert, when the fog lifted and disclosed several large bands of the enemy.

The allies then charged several large bands of the enemy at the point of the bayonet, and although the Moors resisted with their old-time courage they were finally compelled to retreat in the face of a superior force, and both of the columns of allied troops advanced on Taddert.

After the bombardment of that place by the French artillery, as well as by the guns of the French cruiser Gloire, which fired 75 shells, the allied infantry advanced on the Moors' camp, where the enemy was making a last, desperate stand. A short engagement followed, and the Moors fled in wild disorder, pursued for several miles by the irregular Algerian cavalry in the French service. The Moorish camp was destroyed. The exact loss of the Moors is not known, as they carried away many of their dead.

The allied army later returned to Casablanca.

Reports a Victory.

During the engagement the Moors endeavored to employ their now familiar tactics of circling rapidly in front of the advancing troops, with the object of cutting them off and surrounding a section of the allied forces, but the attempt utterly failed yesterday, largely on account of the rapid advance of the two independent columns, whose movements seemed to puzzle the Moors and made them believe that a trap was laid for them. When assailed from a long line of troops, the Moors retreated from Taddert, where many of them fell under the accurate firing of the field artillery and the guns of the Gloire, at anchor off the coast.

When the Moors saw their camp in flames, they set fire to all the farms and woods which they could reach, and soon the country surrounding Taddert became covered with smoke and flames.

Gen. Drude personally conducted the military operations.

Paris, Sept. 13.—The War Minister, Gen. Picquart, yesterday received the following despatch from Gen. Drude, commanding the French troops at Casablanca:

"I am pleased to notify you that, thanks to a land fog we have been able to surprise the Moroccan camp at Taddert, which was burned. The Moors were dispersed and fled to the hills, followed by the shells of our artillery and effective projectiles from the Gloire. On our side one man was killed and six were wounded."

DUE PRECAUTION TAKEN.

To Ensure Safety of Quebec Bridge Jury Declare.

Quebec, Sept. 13.—The coroner's jury yesterday returned the following verdict concerning the death of a victim of the bridge catastrophe:

"That the deceased died from wounds and nervous shock, received at the fall of the Quebec bridge.

"We are unable to establish the cause of the collapse, but believe it our duty to declare that all the necessary precautions to ensure the safety of the structure were taken."

Killed by Beer Bottle.

Montreal, Sept. 13.—About a dozen Ruthenians and Roumanians appeared before Coroner McMahon to testify at the inquest into the death of George Schusenski, who died Sept. 7 from a fractured skull received from being struck on the head with a beer bottle in a boarding-house.

It developed that on Saturday night Aug. 31 the boarders, who numbered 20, consumed much beer and that one turned off the gas at the meter. Schusenski, who had a room on the upper storey, went to turn on the gas and was struck on the head. He refused to go to the hospital until Aug. 28th.

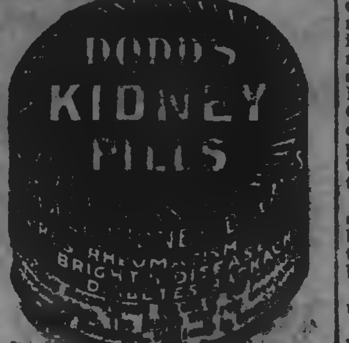
Will Have a Balance.

Glace Bay, N. S., Sept. 13.—The executive committee of the Canadian Trade and Labor Congress reported yesterday that for the first time the congress will have a balance on hand after all expenses have been paid.

A committee of five will take up the Lemieux Act and report on its good and bad points. The P. W. A. came in for unstinted praise. One delegate, however, expressed his opinion that the P. W. A. did not give enough attention to the evil of child labor.

A Bad Wreck.

Ottawa, Sept. 13.—The wreck on the C. P. R. near Plantagenet Wednesday night was caused by a train of ten empty coaches, being taken to Montreal, crashing into a gravel train, which was on a siding. The fireman was killed. The engineer was hurled 60 feet. The first car was piled on top of the engine.



DENY EXCESSIVE SPEED.

Conflicting Evidence at Inquest on Caledon Wreck Victims.

Toronto, Sept. 13.—Divergence of opinion as to the speed of the ill-fated excursion train before it ran over the Horseshoe curve, near Caledon, causing the death of seven passengers and injuring scores of others, was the chief feature of the evidence given before Coroner Johnson last night.

The train crew to a man placed the rate at under 20 miles an hour, while trackmen and the stories of other witnesses went to show that the speed was from 35 to 60 miles.

Coroner Johnson was handed a letter from Shelburne in which the writer told him that a woman had protested to the conductor against excessive speed.

The matter of the change of the elevation of the banking rail was shown to be a change made three years ago.

All members of the crew swore that they had not been drinking and railway officials swore that the engine was in good condition at the time of the wreck.

Neither the engineer nor the conductor are at work until the completion of the company's private investigation.

Engineer Hodge, the first witness, asked if he had been drinking the morning of the accident, said no. He had had a glass of beer at 7.15 a.m. the day before the wreck.

All Will Recover.

Thirteen of the thirty-five victims of the wreck of the exhibition special at Horseshoe Curve a week ago Tuesday, who were taken to the Western Hospital, are still there. All are doing well. Two were discharged yesterday, and, with one exception, Mrs. Ronson, are expected to be convalescent by the beginning of next week.

MONTHS OF ENQUIRY.

Before Bridge Commission Will Complete Its Work.

Quebec, Sept. 13.—Three more bodies of the bridge victims were recovered yesterday, making thirty-five in all, and leaving forty to be accounted for.

The verdict of the coroner's jury, attaching blame to no one, is variously criticized here. The coroner sought to have the members of the royal commission, now investigating the matter for the Government, testify. They all declined to express an opinion, anticipating four or five months' further enquiry before arriving at a decision. The two last witnesses examined were Mr. Milliken, superintendent of erection for the Phoenix Bridge Co., and Mr. McClure, assistant to Mr. Hoare, chief engineer. McClure said the bridge posts only carried 74 per cent. of what they had been figured to stand at the time of the accident.

C. L. Curibert knew nothing personally of defects in the structure, but had heard of such. When anything fell from the traveler, the whole bridge shook:

Mr. Holgate—"And yet you continued to work on it after that?"

Witness—"Yes, as long as there was anything to stand on [illegible]

THIEVES STOP TRAIN

Daring Robbers Held Up Great Northern Limited.

Compelled Engineer to Pull Up—Looted Sacks of Registered Mail—Blew Open Safe in Express Car But Found It Empty—Gave the Passengers a Bad Scare—Kept Up a Continuous Fire.

St. Paul, Sept. 13.—The Great Northern Oriental Limited train, No. 1, which left St. Paul Tuesday morning, was held up by two masked men near Rexford, Mont., early yesterday morning.

The robbers crawled over the tender, and at the point of their guns commanded the engineer to stop the train. The robbers kept up a continual fusilade with their guns to terrify the passengers.

The robbers went through the mail cars and robbed the sacks of a large quantity of registered mail. Then they went into an express car, which carried an overflow of mail, baggage and express, and which contained a regular through safe. After exploding three dynamite charges, the safe was opened and found to be empty.

On finding the safe empty, the highwaymen helped themselves to the registered mail, and, after firing a parting volley, disappeared.

A reward of $5,000 is offered for them.

MODEL TREATY DRAFTED.

Italy and Argentina Will Submit to Three Arbitrators.

The Hague, Sept. 13.—Special care was taken in drafting the general arbitration treaty just concluded, in behalf of their respective Governments, by the Italian and Argentine delegates to the Peace Conference, in order that it may serve as a model for other treaties of like nature which Italy and Argentina expect to conclude with other countries.

By the terms of this treaty, the two countries interested agree to submit to arbitration all the differences which may arise between them, with the exception of those affecting provisions of the constitution or questions of nationality. In case of a conflict of views, each country will appoint an arbitrator, and they will appoint a third. In the event of the two countries being unable to agree on the appointment of a third arbitrator, the appointment will be made by the Queen of the Netherlands.

REVOLUTION FIGURES.

Number of Victims of "Dramatic Period" Fixed at 47,029.

St. Petersburg, Sept. 13.—The Slovo yesterday published statistics regarding the revolutionary movement, prepared by the noted Russian statistician, Dr. Zankoff, whereby the total number of victims of the "dramatic epidemic" is placed at 47,029, of which 19,144 were killed.

It is further shown that 2,381 sentences of death were carried out, that 1,350 prisoners committed suicide, and that 21,405 persons were wounded. The largest loss of life, 12,953, resulted from encounters with the soldiers or police.

The anti-Jewish riots numbered 7,962, and there were 4,540 anti-Armenian riots and 2,193 mutinies. The agrarian disorders were comparatively insignificant, only 533.

The revolutionists assassinated 83 generals or governors, 81 prefects and 5,079 officials of various ranks.

Treaty Approved.

London, Sept. 13.—(C. A. P.)—The approval of the British Government has been given to the Franco-Canadian treaty, but some small matters of details are still unsettled.

Saleswomen's Peril

GRAVE DISEASES, DUE TO STANDING

Facts About Miss Merkley's Dangerous Illness and Complete Cure.

Have you ever thought why so many women or girls rather walk an hour than stand still for ten minutes?

Miss Margret Merkley

It is because most women suffer from some derangement of their delicate organism, the discomfort of which is less trying when they are in motion than when standing.

In some states laws compel employers to provide resting places for their female employees.

But no amount of law can regulate the hard tasks of these women. They must get the strength which this work demands or run the risk of serious disease and the surgeon's knife.

Read about the experience of Miss Margret Merkley, 275 3d Street, Milwaukee, Wis:—

Dear Mrs. Pinkham:—

"Gradual loss of strength, nervousness, bearing-down pains and extreme irritation compelled me to seek medical advice. The doctor said I had diseased organs and ulceration, and advised an operation if I wanted to get well. I objected to this and decided to give Lydia E. Pinkham's Vegetable Compound a trial. I soon found that all the good things said about this great medicine were true. The ulceration soon healed, backache, headache and nervousness disappeared, and in a short time I was strong, vigorous and perfectly well. I wish every working girl who suffers would try Lydia E. Pinkham's Vegetable Compound."

Lydia E. Pinkham's Vegetable Compound is a vegetable tonic which invigorates and strengthens the entire female organism, and will produce the same beneficial results in the cases of other sick women as with Miss Merkley.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

The Kind You Have Always Bought
In Use For Over 30 Years.
THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Japan Has Faith in Canada; Comment of Japanese Press

Tokio Journal Admits That Japs in B. C. Are Rough.

Compares Vancouver With 'Frisco—Orientals Warned to Flee From Bellingham—But Intend to Fight—Needed in Canning Business—Another Anti-Asiatic Outbreak Is Feared.

Tokio, Sept. 13.—The Jiji says in reference to the recent trouble at Vancouver.

"The regret already expressed by the Canadian Government, with assurances of the prevention of the reoccurrence of a similar incident, even a royal message having been sent to the Dominion authorities in reference there to, furnishes the clearest evidence that the Japanese have official sympathy on their side. However, the power of the Dominion Government at Ottawa, and the Canadian police are more efficient than those at San Francisco, and there is every reason to believe that the fullest protection will be given to our compatriots at Vancouver.

The Hochi publishes the experience of a high Japanese official who visited a place near Vancouver, where Japanese are engaged in salmon fishing. He went in company with the Japanese consul and men who had interests there, and states that the Japanese laborers fairly insulted the party, saying: "You have no business here. Run away or receive our fists."

The paper quotes this Japanese official as saying that the Japanese there were the roughest and rudest he had ever seen. They were totally ignorant of common politeness and he did not wonder they had become objects of hatred. They are ready to insult their consul when in good health, but when taken sick they appear at the consulate for assistance, as if claiming it by right. The presence of such characters only arouse the enmity of their neighbor.

Japan's Good Taste.

London, Sept. 13.—(C. A. P.)—The Morning Post remarks, anent the statement that Japan will voluntarily limit immigration to Canada, that in thus refraining from demanding her pound of flesh Japan is showing her good will in a more convincing way than another power which, exploiting the friendship of a kindred nation, habitually claims two pounds for every pound guaranteed by treaty.

Hindoos Have Money.

Vancouver, B. C., Sept. 13.—The eight hundred Hindoos who arrived Wednesday night on the Monteagle debarked yesterday morning. There is no semblance of trouble.

They scattered around the town. More than half the number will have to sleep in tents.

They are well supplied with money, averaging $50 each. Many will go on railway work up country.

There is not one woman amongst the immigrants.

Bellingham, Wash., Sept. 13.—An anonymous letter received here warns all Japanese and Chinese in this city to leave at once.

Japanese working at the canneries are armed and say they will resist any attempt to force them out of town. The Chinese, however, will not make a strong stand.

E. B. Deming, general manager of the Pacific American Fisheries, says if the Orientals leave, the salmon canning industry is doomed.

Cathedral Dedicated.

Charlottetown, P. E. I., Sept. 13.—The dedication of the new St. Dunstan's Cathedral, the construction of which was commenced 11 years ago, took place yesterday. The interior has just been completed, although services have been held for some years in the uncompleted building.

The naves of the church are about 30 feet in width and are majestically flanked by a tier of wall columns on one side and the grand arch columns on the other, and when viewed perspectively convey some idea of the grandeur which marks the monumental Gothic churches built in England and France during the 12th and 13th centuries. The transept measures 130 feet by 62 feet and the ceiling of both its extremities are vaulted across this span by beautiful larches of Norman design.

Labor Scarce In West.

Winnipeg, Sept. 13.—The crop situation is still bright. A large proportion of the crop in Manitoba has been cut, and stacking is in progress. The scarcity of labor is causing alarm in spite of the large number flocking to the west. Reports from northern Saskatchewan and Alberta state that late crops are now suffering from severe frosts, but these reports are in the minority. It is estimated that 75 per cent. of the wheat was cut before the arrival of damaging frost.

Rowley Not Released.

Ottawa, Sept. 13.—The statement that George Rowley, the defaulting manager of the defunct Elgin Loan Co. of St. Thomas, has been pardoned after serving four years of a 12-year term is entirely untrue. Rowley is not "out west," but in Kingston, and his case has not been considered by the Department of Justice.

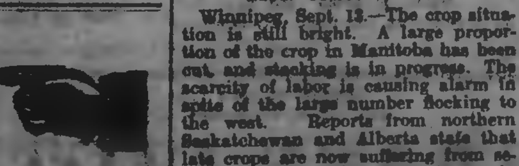
Body on Lake Shore.

Colchester, Sept. 13.—The body of a young man was found on the lake shore two miles west of here yesterday morning, with the letters "P. D. L." tattooed on the right arm. The body is supposed to be that of Percy Langdon of Conneaut, Ohio, who was drowned from a small boat near Bar Point one day last week.

Coming to Canada.

London, Sept. 13.—(C. A. P.)—Enquiries at the emigration offices of prospective emigrants to Canada next season promise to double those of September, 1906, which was a record month.

CARTER'S LITTLE LIVER PILLS.



CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

STRIKE WAS JUSTIFIABLE.

Bell Telephone Co. Severely Scored by Royal Commission.

Ottawa, Sept. 13.—There was made public yesterday, at the Bureau of Labor, the report of the Royal Commission, appointed in February last, to investigate the strike of Bell telephone operators in Toronto.

The report is a lengthy one, covering one hundred printed pages of regulation blue-book size. The commissioners, Mr. W. L. Mackenzie King, Deputy Minister of Labor, and his Honor, Judge Winchester, find that the operators were justified in their strike, because the new schedule proposed by the company was injurious to the health of the operators, the company being actuated only by motives of cost and service, without regard to the girls' welfare. Under the circumstances, the strike was all but inevitable, and was precipitated by the company. The commissioners recommend that a commission of medical experts determine the proper hours and conditions of work, and meanwhile suggest a working day of six hours, with proper reliefs. They mention certain improvements which would conduce to the health and comfort of the operators. Referring to the listening boards, they advise that divulgence of conversations overheard by operators be made a criminal offence, and close with a recommendation that a permanent conciliation board be instituted to adjust disputes between the company and its operators.

Will Act.

Ottawa, Sept. 13.—Next session the Federal Government will enact legislation making the criminal laws applicable to news improperly obtained or divulged by telegraph operators or officials to apply to telephone companies, and will also make provision for at least one day's rest in seven for all telephone operators.

The question of a six-hour day, and as to the age of operators, comes within the scope of the Provincial Legislature.

GROUNDING OF CZAR'S YACHT.

Imperial Party Taken Off—Ship High on Rocks.

St. Petersburg, Sept. 13.—No official announcement has been made up to 1.30 o'clock yesterday afternoon regarding the grounding of the imperial yacht Standart, off Horsoe, near Hango, Finland.

The news has been withheld even from the embassies, no hint of the accident had been allowed to reach the public and the newspapers have been forbidden to publish a word on the subject, under pain of heavy fines and imprisonment, as provided for by the recent drastic prohibition preventing publication of official news regarding the imperial family.

The Standart is in an unfavorable position upon some rocks, which were submerged at high tide, but exemplary order was maintained on board, and news of the disaster being telegraphed to the naval authorities, a number of warships and a salvage steamer were hurried to Horsoe.

At 10 o'clock Wednesday night the imperial party left the Standart and were taken on board the despatch boat Asia.

KISHINEV OUTRAGES.

Police Remain Inactive While Rowdies Fire Lumber Yard.

Vienna, Sept. 13.—According to the reports received here the disturbances which caused the circulation of alarming rumors in Roumania began at Kishinev, Bessarabia, during the night of Sept. 8.

A band of rowdies which arrived there from Odessa were joined by a Kishinev mob and committed fearful outrages in the suburbs. They set fire to a lumber yard, into which the Jews, who were aroused from their sleep, were driven.

The police, during the disturbances, were entirely passive.

THURSDAY FOR THIS YEAR.

But Thanksgiving Day May Be on Monday In 1908.

Ottawa, Sept. 13.—A deputation of commercial travelers waited upon Sir Wilfrid Laurier yesterday to ask that Thanksgiving Day be changed from Thursday to Monday. Sir Wilfrid pointed out that there could be no change this year, but the matter would be considered in the future.

Oct. 31 will likely be Thanksgiving Day.

No New Continent.

New York, Sept. 13.—The commanders of the Anglo-American Polar expedition, which lost its ship, the Duchess of Bedford, in an attempt to find a new continent north of Alaska, reported to the American Geographical Society yesterday that the soundings they made disclosed no such land.

Next year, they reported, they will continue the exploration of Beaufort Sea.

These Factories "O. K."

St. Catharines, Sept. 13.—Local canners are indignant at the published reports of conditions said to exist in local factories, and invited an inspection by the city newspapers, which was made yesterday. Both The Standard and Star-Journal declare that all the city factories are in the best possible condition, and to be sanitary, clean and healthy.

Concrete Preserves Bodies.

Atlantic City, N. J., Sept. 13.—Delegates to the Portland Centennial cement manufacturers' convention, in session here, reported the discovery that concrete lined graves, hermetically sealed, would preserve bodies far longer than any other method except the embalming of the ancients.

Fly Wheel Burst.

Thamesville, Sept. 13.—Burton Bedford, son of George Bedford, thresher, yesterday received injuries from which he died four hours afterwards. Deceased was riding on the rear of a traction engine, when the flywheel burst, a large piece hitting Bedford.

Mickey Brand Soap cleans kitchen utensils, steel, iron and tinware, knives and forks, and all kinds of cutlery.

THE MARKETS.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock—Latest Quotations.

Thursday Evening, Sept. 12.

Liverpool wheat futures closed ¼d to ⅜d higher and corn unchanged.

At Chicago September wheat closed 1⅛c higher than yesterday; Sept. corn ⅝c higher, and Sept. oats ½c higher.

Winnipeg Options.

Following are the closing quotations on Winnipeg grain futures to-day:

Wheat—Sept. $1.02½ bid, Oct. $1.03¼ asked, Dec. $1.03 sellers.

Oats—Sept. 46c bid, Oct. 44½c bid, Dec. 43⅝c asked.

Liverpool Grain and Produce.

LIVERPOOL, Sept. 12.—Closing—Wheat, spot, nominal; futures, steady; Sept. 7s 6¾d; Dec., 7s 9⅝d; March, 7s 10¼d. Corn, spot, firm; American mixed, new, 5s 4d; futures, quiet; Sept., 5s 3⅞d; Oct., 5s 5¼d. Beef, extra India mess, dull, 87s 6d. Hams, short cut, easy, 49s 6d. Bacon, Cumberland cut, steady, 51s 6d; short clear backs, firm, 46s. Turpentine spirits, dull, 38s 6d.

New York Dairy Market.

NEW YORK, Sept. 12.—Butter—Steady, unchanged; receipts, 11,084.

Cheese—Firm; receipts, 2812; state full cream, small colored and white, good to prime, 13c to 13⅝c; common to fair, 11c to 13c; skims, 3c to 11½c.

Eggs—Steady; receipts, 10,489; western seconds, 18c to 20c.

CATTLE MARKETS.

Cables Unchanged—Hogs Are Quoted Easier at Buffalo.

LONDON, Sept. 12.—London cables are firmer, at 11¾c to 12¾c per lb., dressed weight; refrigerator beef is quoted at 10c per pound.

Toronto Live Stock.

TORONTO, Sept. 12.—Receipts of live stock at the city market, as reported by the railways, since Tuesday, were 123 carloads, consisting of 1316 cattle, 1150 hogs, 3337 sheep and lambs, 250 calves and 3 horses.

Exporters.

Prices ranged from $4.80 to $5 per cwt., but there were few on sale. Export bulls, a few sold at $3.75 to $4.25.

Butchers.

For butchers' cattle we give the quotations of George Rowntree, who bought 21 car loads on Wednesday and Thursday: Good loads of heifers, 1050 lbs. each, which were scarce, $4.50 to $4.75; steers, 1100 to 1250 lbs. each, at $4.50 to $4.70; good cows, $3.75 to $4; fair cows, $3 to $3.60; common cows, $2.25 to $2.70; canners, $1 to $1.50. Medium butchers' sold from $3.50 to $3.75; common, at $3 to $3.40.

Feeders and Stockers.

H. & W. Murby report a not very heavy run of feeders and stockers this week, altho heavy enough for the demand. The light stockers from 500 to 800 lbs. are hard to cash and they are steadily declining in price, especially the common and medium kinds; 1000 and 1100 lb. feeders are commanding to be picked up, but if fleshy they are bought by butchers at prices too high for feeders. Messrs. Murby bought about 100 stockers, feeders and butchers, on order, at prices ranging from $2.25 to $3.40 for steers; 900 to 950 lbs., at $3 to $3.40 for steers, 950 to 1050 lbs., at $3.50 to $3.75 for common to medium light butchers. Feeding bulls, from $2 to $2.75 per cwt.

Milch Cows.

The number of milkers offered on Wednesday and Thursday was large and nearly every dealer reported prices from $5 to $8 per head lower than on Tuesday. Prices ranged from $35 to $45 for the bulk of the best, altho as high as $50 was paid for one or two of extra milking qualities and of large size. Common cows were hard to dispose of at $25 to $30 each.

Veal Calves.

Calves sell about as well as any kind of stock offered, altho there was a large number of the sour milk class on sale. Prices ranged from $3 to $6 per cwt., and $7 per cwt. was paid during the week for prime quality.

Sheep and Lambs.

The run was large, with a lot of small rough lambs, which caused prices to go lower than ever this season. Export ewes, $4.25 to $4.40; bucks, $3 to $3.50; lambs sold as low as $4.50 to $5.50 for the bulk, with a few selected ewes and wethers at $5.60 and $5.75 per cwt.

Hogs.

The run was not large, but that did not prevent dealers from lowering prices 25c per cwt. Mr. Harris quotes selects $6.65 and lights and fats $6.40 per cwt.

East Buffalo Cattle Market.

EAST BUFFALO, Sept. 12.—Cattle—Receipts, 150 head; slow; prime steers, $6.25 to $6.75.

Veals—Receipts, 300 head; active. 25c lower, $5 to $9.25.

Hogs—Receipts, 5100 head; fairly active, 10c to 25c lower; heavy, $6.40 to $6.50; mixed, $6.75 to $6.85; yorkers, $6.80 to $6.90; pigs, $6.50; roughs, $5.25 to $5.65; dairies, $6 to $6.75.

Sheep and Lambs—Receipts, 2600 head; active and steady; lambs, $5 to $8.15; a few $8.25.

New York Live Stock.

NEW YORK, Sept. 12.—Beeves—Receipts, 857. No trading; feeling, steady; shipments to-day, 4150 quarters of beef.

Calves—Receipts, 387; veals, steady to strong; grassers and westerns, a trifle more active; veals, $5 to $9.50; culls, $4 to $4.50; grassers and buttermilks, $3.50 to $5.

Sheep and Lambs—Receipts, 5000; steady; sheep, sold at $3.50 to $5; culls, at $2.50 to $3; lambs, at $6.75 to $8; culls, at $4.50 to $5.50.

Hogs—Receipts, 2463; market, slower; state and Pennsylvania hogs, at $6.75 to $6.95.

Chicago Live Stock.

CHICAGO, Sept. 12.—Cattle — Receipts, 8000; market steady; common to prime steers, $4.40 to $7.25; cows, $3.50 to $5; heifers, $3 to $5.75; bulls, $2.50 to $7.80; calves, $3 to $8.50; stockers and feeders, $2.40 to $5.

Hogs—Receipts, 15,000; market strong at 5c higher; choice to heavy shipping, $6.25 to $6.35; light butchers, $6.25 to $6.65; light mixed, $6.20 to $6.40; choice light, $6.50 to $6.60; packing, $5.40 to $6.15; pigs, $5 to $6.25; bulk of sales, $5.85 to $6.15.

Sheep—Receipts, 15,000; market steady; sheep, $3.80 to $5.60; yearlings, $5.15 to $6.25; lambs, $5 to $7.70.

Cheese Markets.

KINGSTON, Sept. 12.—At the Frontenac Cheese Board this afternoon, 233 white and 217 colored were boarded. Of these 140 were sold at 12 3-16 cents, 33 at 12 1-8 cents, and 63 at 12 1-8 cents. The decrease as compared with the output in the corresponding week of last year is most marked. This is owing to the prolonged drought.

Lusitania's Route.

London, Sept. 13.—(C. A. P.)—The Standard hopes the subsidized Lusitania will soon be running to Newfoundland, thus obtaining for that colony much of the traffic now going to New York.

The body of G. Matthewson, of Winnipeg Beach, a fisherman, was washed ashore yesterday.

"Ripper" Escapes.

Berlin, Sept. 13.—An insane man named Lolsky, arrested on suspicion that he was the "Ripper" who murdered several schoolgirls recently, has escaped from the prison hospital.

Brakeman Injured.

Windsor, Sept. 13.—Rae Ransom, a Wabash brakeman, residing in St. Thomas, was jammed between cars at Belle River yesterday and badly injured.

Steamer of Rocks.

Vigo, Spain, Sept. 13.—The British steamer Veronese, from the Clyde for Buenos Ayres, went on the rocks near this port yesterday.

Got Away With $100,000.

New Orleans, Sept. 13.—Charles E. Letten, chief clerk in the office of the first district tax collector here, who disappeared two days ago, leaving a shortage of over $100,000, was discovered yesterday afternoon standing on the banks of the Mississippi, attempting to summon up courage enough to jump in the water and commit suicide.

He said he had started toward the water several times, but each time his courage had failed him.

He made a full confession.

Hog Frightened Horse.

St. Vincent, Sept. 13.—Joseph Taylor, a farmer near Meaford, was putting his team in the stable about 6 o'clock when a hog ran into the stall where he was unharnessing a horse. The beast began to plunge and kick and knocked Mr. Taylor down, rendering him unconscious. When found both jaw bones were broken, as well as his nose, while his head and body were a mass of cuts and bruises. He lingered unconscious until Tuesday morning, when he died.

Striking Operator Arrested.

New Orleans, La., Sept. 13.—A. C. Tripp, a striking operator, was arrested Wednesday night on a charge of malicious mischief for interfering with the Associated Press leased wire. He stepped up to a key which was not in use, opened it and stopped the report, while he called to the operators on the circuit and applied approbious names to them. Tripp afterwards admitted that he had done this.

Fatal Blast at Cobalt.

Cobalt, Sept. 13.—Jandre Kuartere, while at work on the scaffolding on Kendall shaft of the Nipissing Mining Co., was yesterday killed by a piece of rock fired from a blast on the Kerr Lake branch of the T. & N. O. Railway. The blast sent a stump about 200 feet in the air. The unfortunate man was 500 feet away.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

What Remains Yet to be Done

Work Still Ahead of the Board of Works This Season

Of the street work planned by the Board of Works last spring there remains to be done 19,976 feet of granolithic sidewalks, and 41 street crossings. This was the information given the Board last night by Ald. Duncan, chairman, in order that the members might understand just how matters stood. All the gangs will have to be kept hustling for the rest of the season in order to get the work completed.

MORE PERMITS ARE ISSUED

Business Block on Charlotte St. to Cost $4,000—New Store and Bake Shop

Building permits to the extent of $9,075 have been taken out at the city clerk's office during the past two days. Two business blocks, a dwelling house and a kitchen make up the list which is as follows:

E. H. Mann, store and bake shop, corner of Dublin and George streets, $4,000.

H. Edmonds, brick house on Weller street. $2,000.

W. G. Lendrum, building on Charlotte street, to contain two stores and photograph gallery, $4,000.

G. Campbell, kitchen to house on Ware street, $75.

Mr. Lendrum expects to have his building erected by the first of January. It will be erected on Charlotte street between the Machine Telephone Co.'s office and the English Canoe factory.

ONE PAIR OF EYES
FOR A LIFETIME

This is the reason we look upon the proper examination of the eyes as a serious thing. If you come to us, you can come with the full assurance that you will be told whether you need glasses or not.

We are not in business to "sell glasses." The retention of your patronage and of your commendation are far more valuable to us.

Determining errors of refraction and fitting the proper spectacles and eyeglasses to correct these errors is our whole business.

All our work is guaranteed.

Canada's High-class Tailoring House

Publishes a Handsome Fashion Plate for Fall—The Whole is the Work of Canadian Artists and Engravers—Review of the Fashions and Fabrics for the Coming Season.

For the first time in Canada a tailor's fashion plate has been published by a Canadian house, and the artist's work, photo-engravings and color work, have all been done in Canada. The fashion plate is now on exhibition in the Semi-ready tailoring store, and it shows the new styles in all the most worn garments.

Published in conjunction with the fashion plate, there is also a booklet, entitled "As seen by Him," and this shows some of the supplementary styles in new fall and winter overcoats. These booklets are given away free to anyone interested. One of the features of the book is the publication for the first time of the full physique type chart, showing how the Semi-ready system provides for 425 different sizes and figures.

Both book and fashion plate are creditable productions and prove the skill of the Semi-ready designers. The President of the Semi-ready Company, in a recent review of fashions and fabrics, said,—

"Anything decidedly new in woollens is usually brought out in summer, and the chief novelties this fall are the impressionistic 'Elephant' shades in dark greys, which gradually shade into warm tones of brown or olive. They are shown in qualities, which are bound to make them popular. They are unlike any patterns we have had, and they are of that soft and refined texture which will appeal to gentlemen of good taste. The 'Elephant' fabrics are shown too, in a dark slate and mouse color, varying into soft green and brownish shades.

"The new overcoatings are of a variety which will appeal to individual tastes, but the well known plain black and Oxford grey vicunas, cheviots and meltons will find the more adherents. In some countries the beavers and meltons are losing ground, but in Canada's wintry winds these cloths make up in their close weave for the inadequate warmth as compared with the more fleecy llamas and cheviots. Perhaps the smartest production of the Semi-ready is the artistic design of the storm ulster, which is usually quite clumsy in appearance. The materials used are the thick, soft, cheviot-finished Scotch cloths. They make one feel warm just to look at them.

The dress suits are the chief d'ouvre of the Semi-ready. The manufacture of these high-class garments has helped to emphasize the pre-eminent advantages of the Semi-ready system of tailoring, for these garments appeal to men who know. Dress suits are made of the finest fabrics, with silk linings, as good as a $50 suit. The frock coats for the fall season vary but slightly from the designs made for the spring and summer season.

"We do not approve of startling novelties in dress, and we always avoid bizarre patterns and fabrics, for our desire is to appeal to and secure the better class of well-dressed men," concluded the President in his brief talk on good clothes.

Committee Has Arranged Plan for Street Numbering

And it will be Submitted at Meeting of Council on Monday Night—Few Changes Will Have to be Made.

The Leagal Committee of the City Council have devised a comprehensive scheme for the numbering of the streets of the city, and will submit it for the consideration of the council at the meeting on Monday nigh. Ald Phelan, chairman, and the members of the committee have been at work on the plan for some time, and completed details at a meeting yesterday afternoon.

It was urgent that something should be done regarding the street numbering, in view of the proposed inauguration of the delivery of mail in the city, and in arranging a scheme the committee had in view the following object;—The numbering of the houses on every street in the city without having to make changes in the streets that are already numbered. The committee worked out a plan with this end in view, and the scheme that will be submitted to the Council provides for the thorough numbering of the streets of the city without having to make any changes in the present numbering, except in a few cases west of Park street, and on a few of the short streets in the city.

Those present at the meeting yesterday afternoon were the chairman, Ald. Phelan, Mayor McWilliams, Ald. Stevenson, Leary and Wilson.

Several other matters were dealt with by the committee in preparation for Monday night's meeting.

Now on Physical Education Staff of American College

Success of Two Talented Ladies Who Formerly Resided Here—Responsible Appointments for Misses C. H. Stevens and H. E. Adams.

Misses H. E. Adams and C. H. Stevens, of the physical education staff of the University of Nebraska have left to take up their duties for the ensuing term, after a pleasant visit of a few days, to Mrs P. H. Pearce, 9 Walton street.

Both of these ladies are well known to the residents of this city, Miss Stevens having been organist in the Charlotte street Methodist and other local churches, for a number of years, while Miss Adams is well known for her excellent work as physical directress in the local Y.W.C.A., during the opening year of that flourishing organization. They are graduates of the physical education course of the University of Nebraska having passed their examinations at the completion of last term's course and being chosen to fill responsible positions on the staff of instructors, is a flattering recognition of their ability. Miss Stevens, who, as is well known, is a gifted pianiste, will act as accompanist for gymnasium drills and formation exercises, and both she and Miss Adams will have private classes in physical education. After obtaining their diplomas from the University of Nebraska, the two ladies took a post graduate course in physical culture at the Chataqua Summer School, N. Y., from which place they came here for their visit to Mrs. Pearce, so it will be seen that they are thoroughly equipped for the responsible positions they have been called upon to fill.

"Physical education" should not be confused with "physical culture," and while the latter is essentially inseparable from the former, the first-mentioned is much broader in scope than the last-named. Those who graduate in a course in physical education, besides knowing body-building exercises, must have a considerable knowledge of anatomy, and the functions of the various organs, as well as the knowledge necessary to apply in the treatment of physical deformities and defects.

The many friends of Misses Stevens and Adams will extend their congratulations upon their signal success in their studies and upon their appointment to such desirable and responsible positions.

Dr. and Mrs. Clapp, head instructors of the male and female departments, respectively, of physical education, in the University of Nebraska, who have been spending their summer vacation at Burleigh Falls, have also returned to take up the work in connection with their classes.

Citizen Wonders Why Man Lurked in the Shadows

A prominent citizen who resides near the corner of Stewart and Brock streets, is curious today regarding the actions of an unknown man near his house last night. As everybody knows who has been in that vicinity at night, the corner of Brock and Stewart streets is a dark spot at night, there being no street lights in that locality. As the citizen referred to, was coming out of his house about eight o'clock last night he noticed a man lurking in the shadows and as the gentleman came near where he was, the fellow backed up and stood with his back against a telephone pole. The gentleman walked down the street a piece, still keeping his eye on the man beside the post, but decided that he would go back, and ask him what he was doing there. He started to walk towards the house again, but the fellow saw him coming, and walked away rapidly in another direction.

Since the incident the citizen has been speculating considerably as to what the fellow was up to and is of the opinion that he meant no good.

The people who live at that section of Stewart street, are anxious that a light should be placed there.

Provincial License Detectives Gave Evidence in Liquor Case

Arthur G. Lawless of Lakefield Charged With Breach of Liquor License Act—Defendant Claims He Was Not Proprietor at Time of Alleged Offence.

At the session of the county police court before Magistrate Edmison this morning, Arthur G. Lawless, of Lakefield, appeared on three charges of violating the Liquor License Act on the 3rd of August last, by selling liquor at 6.25 p.m., 6.35 p.m. and 6.45 p.m. The alleged breach of the Act is charged by reason of the fact that the local option bylaw is in force in Lakefield. The principal witnesses for the prosecution were Richard Hanson and Walter Belleau, Government license detectives, and Mr. Jas. Stewart, license inspector for West Peterborough, also went into the box, but knew nothing of the charge that was being tried, he having simply laid the information. He was questioned by Mr. Haverson, K. C., who acted for the defence, as to his knowledge of who was proprietor of the hotel at the time of the alleged offence. The defence claims that at the time the papers were served on Mr. Lawless, Mr. Quinn was proprietor. Mr. Moore, who acted for the Crown, was granted an adjournment until this afternoon, in order that Mr. Quinn's evidence might be given.

Mr. J. A. Ayerst, provincial license inspector, was in court, in the interests of the department.

Although Mr. Haverson strongly urged that all the charges against Mr. Lawless be proceeded with at once, Mr. Moore insisted that they be tried separately.

The first witness for the prosecution was Richard Hanson, of Toronto, a Government detective, who said that he was at defendant's hotel on the 3rd of August last at 6.25 o'clock. He went into the bar. He saw there two other men besides his comrade Belleau. They were captains of boats, but he did not know their names. They asked for some kind of soft drink. A man by the name of Simpson tended bar. It was suggested that witness take ginger ale, and he said, "I will if I have to." The bartender was going to give him ginger ale and whiskey, but witness wanted clear whiskey, and obtained and drank it. Belleau also had a whiskey on same treat. The price of treat all round amounted to 40c., which witness paid.

To Mr. Haverson witness said there were eight or nine in the bar altogether. He went away and returned about five minutes afterwards. Considerable protest was raised on this matter by Moore, who said Mr. Haverson had no right to question witness about being in the bar on any more than the first occasion, as there were three separate charges laid. Mr. Haverson said he simply wanted to know who were there on the other occasions and promised to refrain from asking any questions about drinking on the latter two. He was then allowed by the court to proceed with his questions. Witness returned a third time. On none of the three times when he was in the bar did he know all present. Witness told Mr. Haverson of various places at which he had resided, and said he had been in Toronto about a year, during which time he had been employed as license detective.

"Your business is to induce men to break the law," said Mr. Haverson. Witness denied it, but Mr. Haverson persisted in the truth of this statement. Witness was in Lakefield about three-quarters of an hour altogether. Witness said he thought the place where he had drinks was called Station Hotel and it was necessary to pass through the yard going from the wharf into the village.

Walter Belleau, the next witness, said he lived in Toronto. Had been in defendants's hotel, but did not personally know defendant. Was there August 3rd.

Mr. Haverson cross-examined witness pretty severely regarding whether or not he knew it was defendant's hotel, where he received liquor.

"You said it was defendant's hotel," said Mr. Haverson, "Was it or was it not?"

"It must be if I said so," answered the witness emphatically, amid much laughter.

Mr. Moore wanted to call Mr. Stewart, license inspector for the West Riding, but Mr. Haverson thought that Mr. Stewart should have been excluded while the other witnesses were giving evidence. He was called, however, and said he knew the hotel in Lakefield at which it was alleged the liquor was sold. In conversation with Mr. Lawless, he said the latter told him he owned the hotel. This was in the month of July witness thought. He laid informations, but outside of that he knew nothing about the charge being proceeded with. On the 10th of August he went back to Lakefield and saw a man by the name of Quinn at the hotel and Quinn told him that he was proprietor. Witness could not swear who was proprietor when summonses were served on 3rd of August.

Mr. Moore said he was surprised by the evidence of Inspector Stewart, when the latter mentioned Quinn as being proprietor of the hotel and wanted an adjournment until a witness could be called giving information on this point.

Mr. Haverson said the defendant was present and that Mr. Moore was at liberty to call him as a witness. Mr. Moore demurred and Mr. Haverson called Mr. Lawless himself. Mr. Moore was not satisfied with the arrangement, however, and persisted in the justification of his stand in asking for an adjournment.

Magistrate Edmison said that if he granted an adjournment, it would only be as a favor, because the Crown had no right to be surprised, but should ascertain who the proprietor was before the charge was laid.

Mr. Moore said Mr. Quinn was the witness he proposed to call to clear up the question as to who was the proprietor when the charge was laid.

Mr Haverson argued that no case whatever was made out for an adjournment.

"In case of adjournment," said his Worship, "the Crown will have to bear any expenses in connection with the delay of witnesses from a distance.

After many arguments and counter arguments by counsel, concerning the justice of their respective arguments, and after Mr. Lawless had entered and left the witness box on two occasions, in anticipation of giving evidence, License Inspector Stewart was instructed by the Crown to endeavor to have Mr. Quinn on hand by this afternoon and the court adjourned until 2.30 p. m.

GENTLEMEN:—

Who demand correct apparel made to their own order, from the finest Imported Woollens of the best British Drapers, are invited to inspect our Extensive Stock of NEW FALL SUITINGS and OVERCOATINGS, VESTINGS, etc. Our Tailoring Department has proved so satisfactory for so many years, that those whom we have fitted before come back to be fitted again.

ROY

WILL BE HERE OCTOBER 1st.

New Inspector of Public Schools Coming on That Date

The new public school inspector, Mr A. Mowat, B.A., of Brockville, will not not commence his new duties until the first of October. Information to his effect has been received from Brockville, Mr. Mowat being unable to leave his present position much before that date.

Mr. D. Walker will leave at the end of the week for London where he will teach in the Normal school which opens on Tuesday, Sept. 17th.

Peterborough schools will therefore be without an inspector for about two weeks, but they are in good shape, everything now running smoothly.

AT JACKSON PARK

57th regiment band and moving pictures at Jackson Park to-night.

THE CITY AND VICINITY

NOTHING DOING.

There was nothing doing in police court today.

JUDGES OF LAWNS

The judges of the best kept lawns, grounds and gardens for prizes awarded by the Horticultural Society, are making their rounds this afternoon.

TELEPHONE MEETING

A public meeting in the interests of the newly formed Victoria Telephone Company will be held in the Bank of British North America chambers, Fenelon Falls, on Monday next, the 16th inst.

MORE MEN ON DAM.

The work on the cement dam on the Trent canal, section three, Campbellford, is progressing rapidly. The large force of men already employed has been strengthened by the addition of a half a dozen Italians from Lakefield.

MEETINGS GROW.

The nightly prayer meetings at Bethany Tabernacle for the pentecostal outpouring of the Holy Spirit upon Peterborough, are growing in interest and attendance. They will be continued to-night and to-morrow evening and probably every night next week.

ATTENDING FUNERAL

UEx-Ald. Batten is attending the funeral of the late Leiut.-Col. Helliwell, P.G.M. of the Orange Order for Ontario East, at Stirling today. Mr. Batten was selected to represent Peterborough County at a meeting of the County Orange Lodge last night.

WERE MARRIED.

Two of Marmora's popular young people were quietly married at Havelock on Tuesday, Aug., 13th, when Mr. Thomas Butler and Miss Pearl Pinner were united in marriage by Rev. Mr. Caplan of that place. Miss Nina Pinner, sister of the bride accompanied them. Their many friends will wish them a long and happy married life.

VOICE CULTURE

Mr. Cecil Carl Forsythe, organist and choirmaster of Cambridge street Methodist church, Lindsay, will visit Fenelon Falls one day each week for the purpose of giving instruction in piano playing and voice culture.—Fenelon Falls Gazette.

WILL RESUME CLASSES

Miss Bennett will resume her classes in drawing and painting at the Peterborough Conservatory of Music towards the end of the month.

S. S. MEETING.

The annual meeting of the Seymour and Campbellford Sunday School Association will be held on Monday next, in the Presbyterian church, Campbellford. There will be two sessions—afternoon and evening—at both of which Rev. Mr. Yellowlees, secretary of the Provincial Association, will speak.

VALUE OF PUBLICITY.

A member of the Orillia Packet staff was about to advertise a lost umbrella when a gentleman brought it home. He had had it four months and must have felt in his bones what was coming. You may call that a proof of the value of advertising. It seems to go further than that, and prove the virtue of even intending to advertise.

STRUCK BY STREET CAR

A large spotted white hound was struck by a south-bound car yesterday evening about five o'clock, at the corner of George and Hunter streets, and hurled to the side of the road. The canine was killed, but the owner of the beast was not around at the time. It was afterwards removed from the street and buried.

DOING WELL

Mr. George W. Clark, son of Mr. Wm. Clark, a former resident of Seymour, now a resident of Jacksonville, Florida, has evidently done well in the south. The Jacksonville Metropolis says Mr. Clark now controls eighty-five lots in North Springfield, a suburb of Jacksonville. He is also interested in an electric road running from Jacksonville to Panama, and is one of the incorporators of the Springfield Realty Company.

BIG PROFITS

The town of Orillia will make a profit this year of nine thousand dollars from its light and power plant. This is according to a statement presented to the town council on the 9th inst. The actual revenue from municipal enterprises, including waterworks, is $34,560. The receipts and expenditures of the waterworks department just about balance. Owing to the increased profits, the council has been enabled to reduce the tax rate from 25 to 23 mills.

ROUTLEY'S COMFORTING PRICES

For those who, for many reasons, cannot get away during August, we quote tonic price that will help you in purchasing goods at a wonderful saving.

Lees, P.S.I., was in town yesterday Messrs. Jas. Thompson and S. S. Joyce attended Mr. Borden's mass meeting in Peterborough last night.

RETURNS FROM TRIP TO WEST

Mr. R. M. Glover Spent Pleasant Holiday in Winnipeg—Harvesting Now in Full Swing

Mr. R. M. Glover returned last evening from a two weeks trip to Winnipeg and the Northwest. He enjoyed his trip very much and like all other eastern visitors to the west, is very enthusiastic over its prospects and the many opportunities which the West presents to a young man of ability. Mr. Glover travelled as far west as Malita, which is on the border beween Saskatchewan and Dakota.

Harvesting is now in full swing throughout the west and the farmers are all very busy. Mr. Glover corroborated the statements made by other Peterborough gentlemen who have lately returned from the wheat country, regarding the conditions of the crops. They are excellent and this will be a good year in the West. The farmers are well pleased with them and the yield will be a bountiful one. Mr. Glover spent a day in Souris, one of Manitoba's most progressive towns. But the greater part of this holiday was spent in Winnipeg. Here Mr. Glover met several Peterborough people, both those who are residents of the city, and this being a time of year when there are a great many tourists to the West, he met several Peterborough visitors, who were taking in the sights. The Peterborough boys who have made their home in the West and some of whom Mr. Glover had the pleasure of meeting, are all doing well and would not live in Eastern Canada again for anything.

Injunction is Continued to Trial

Royal Hotel Affairs to be Aired in Court Here on 30th inst.

In Osgoode Hall notes to-day the following of local interest appears:

McCrohan v. Kelly.—D. O'Connell, Peterborough, for plaintiff, moved to continue injunction restraining transfer of effects of Royal hotel, Peterborough. A. R. Clute, for defendant, contra. Upon plaintiff undertaking to go down to trial at Peterborough on 30th instant, and giving usual undertaking as to damages, injunction continued to trail. Costs in the cause unless the trial judge otherwise orders. Statement of claim to be delivered by Saturday next. Defendant agrees to take short notice of trial.

"Linen Shower" For Young Lady

On the Eve of her Wedding—Pleasant Function at Home of Miss M. Trombley.

A function of much interest to many Peterborough citizens took place on Tuesday evening at the home of Miss May Trombley, Rutherford ave., when about twenty-five young people gathered and presented Miss Mary Moher, a coming bride, with a "linen shower." Each guest brought a piece of linen, and, when collected together, there was a complete set of table linen.

Miss Moher, although greatly surprised, made a suitable reply, thanking her friends for their kindness. A pleasant evening was spent in music and dancing, and at 11.30 a sumptuous supper was served by Miss Trombley, assisted by Miss Kate McPherson.

WILL OBSERVE THE DEVOTION

At Ennismore Parish, Commencing Next Wednesday.

The Forty Hours' devotion for the parish of Ennismore will be held on the 18th, 19th and 20th of September. This religious practice was established at Rome and elsewhere in memory of the forty hours our Lord's Body lay in the Sepulchre. Masses will be celebrated each morning, confessions will be heard, sermons will be preached, and the faithful will receive Holy Communion. Among the priests who are to assist are Rev. Fathers C. Bretherton, P. O'Leary, M. J. O'Brien and P. J. Kelly.

LEARN DRESS-MAKING BY MAIL
In your spare time at home, or
Take a Personal Course at School.

To enable all to learn we teach on cash or instalment plan. We also teach a personal class at school once a month. Class commencing last Tuesday of each month. These lessons teaches how to cut, fit and put together any garment from the plainest shirt waist suit, to the most elaborate dress. The whole family can learn from one course. We have taught over seven thousand dress-making, and guarantee to give five hundred dollars to any one that cannot learn between the age of 14 and 40. You cannot learn dress-making as thorough as this course teaches if you work in shops for years. Beware of imitations as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address:—

SANDERS' DRESS-CUTTING SCHOOL,
31 Erie St., Stratford, Ont., Canada.

PETERBOROUGH

Board of Works Disposed of Many Matters Last Night

Sewer at King Edward School is Working Satisfactorily—The Opening of Aylmer Street at the South End—Other Matters Dealt With.

The Board of Works had a busy time last night when the members spent about two hours in disposing of many matters of business that had accumulated since the last meeting. None of the matters were of very great importance, but they required considerable attention, and some of them have been hanging fire for some time.

Ald. Duncan, chairman of the committee, was in the chair, and the others present were Ald. Johnston, Wilson, McIntyre, Mayor McWilliams, City Clerk Armstrong and Street Commissioner Evans and City Engineer Hay.

Mrs. J. E. Hammond made an application for a connection of the sewer on Bethune street, with her residence on Smith street.

Ald Johnston moved, seconded by Ald. Duncan, that Mrs. Hammond be given the privilege to have her house connected with the Bethune street sewer by paying $25 and the cost of the connection.—Carried.

KING EDWARD SCHOOL SEWER

A letter was received from Mr Wm Pringle, chairman of the building committee of the King Edward school asking if the sewer connecting with the school was in working order by Sept. 9th as the school was to be opened on that date.

This letter was received several days ago and was replied to by City Engineer Hay to the effect that the sewer was in good working order on Romaine street, and that the portion from the school to the street should work satisfactorily.

Ald. Duncan read another letter that had been received from Mr Pringle to the effect that the sewer was giving satisfaction and that the lavatories at the school were being used.

As a result of Mr. Pringle's last letter, it was not necessary for the Board to take any action.

Ald. Johnston suggested that it would be advisable to have the sewer in question flushed out periodically in order that it might be kept in good order. City Engineer Hay agreed with him and accordingly this will be done.

The Peterborough Light & Power Company wrote asking permission to erect five poles on Gladstone avenue. The request was granted, the poles to be placed under the supervision of the city engineer.

Residents on the east side of Lakeland avenue, petitioned for a granolithic sidewalk on the east side of that thoroughfare. A walk is now being put in on the west side of the street and the people on the east side think that one should be built on the other side of the thoroughfare before the men doing the work leave that vicinity.

At the suggestion of the city engineer it was decided to put down a gravel walk on the east side of the street and to put in the granolithic next year, when the gravel can be used for the foundation. It would be impossible for the Board to grant the petitioners' request, as the application was not handed in at the proper time. The gravel walk is being put in because there is no walk of any kind on the east side of the street.

WANT STREETS GRADED

A petition was received from a large number of property owners in the vicinity, asking that Aylmer-st. be graded from Lansdowne street, north to the King Edward school, and also for the grading of Prince and Princess streets.

Mr. A. E. Dixon appeared before the committee in the interests of the ratepayers desirous of having Prince and Princess streets graded.

The matter was discussed at some length and the prevailing impression was that the petition should be granted provided the land could be secured to have these streets of the necessary width.

The mayor said that a bylaw had been passed making provision for the opening of Aylmer street all the way through. Princess street also cannot be graded until the land is secured to make it the proper width, 66 feet.

It was moved by Ald. Johnston, seconded by the mayor, that the chairman of the committee and Ald. Wilson be a committee to look into the matter of securing a deed of the land required to open the streets in question.—Carried.

The requests of Messrs. Porter and Moore, who reside on King and St. Joseph's streets, respectively, asking for short stretches of granolithic walks on these thoroughfares, were then considered. It appears that Mr. Porter had his application in at the proper time but Mr. Moore did not. Both offered to do the work themselves if the city supplied the material. There was considerable discussion and the trend of opinion was that Mr. Porter's request should be granted, as he had complied with the regulations governing this matter.

Ald Wilson said he would favor having the city put on a good man to see that the work was properly done.

The mayor stated that, despite the effort that had been made by putting two gangs on, it was going to be impossible to do all the work that had been planned. Still Mr. Porter could not well be refused his request.

Ald Johnston moved and Ald. McIntyre seconded, that the gang of men putting in crossings at the corner of King and Aylmer streets, put in the piece of granolithic walk asked for by Mr. Porter.—Carried.

In connection with Mr. Moore's application, the mayor moved, seconded by Ald. Wilson, that no action be taken regarding the granolithic sidewalk on St. Joseph street until the lines were definitely fixed by a surveyor.—Carried.

INSIDE OR OUTSIDE

The question as to whether the granolithic sidewalk about to be laid on the north side of Sherbrooke street, should be outside or inside the tree line, was discussed at some length.

Mayor McWilliams stated that he would like to see the sidewalk inside the tree line, as Sherbrooke street was likely to be in the near future one of the most travelled thoroughfares in that part of the city, and it would make the street rather narrow if the walk was placed outside the tree line. But to put it inside would necessitate cutting through two or three handsome lawns, and making changes at the bridge over creek. He thought that perhaps it could be put on the inside, with the exception of a portion near the bridge. By a jog there, it would not be necessary to cut up the lawns referred to above.

Ald. Wilson did not want any jog. It should be either inside or outside the tree line all along.

Ald. Johnston suggested that the Board visit the spot and find out the best thing to be done.

Ald. Duncan concurred with Ald. Johnston. He wanted to have the Board of Works go out together some day in the near future and examine work that had been done and where work had yet to be done.

Mayor McWilliams said it was necessary that the streets where sewers had been put in, should be examined to ascertain if they were left in proper condition.

KING STREET BRIDGE

A report from the city engineer was read to the effect that with the addition of some temporary supports and some new planks, King street bridge would last another season, the estimated cost of the repairs being $30. The bridge had been inspected and this found to be the case.

On motion of the mayor and Ald. Johnston, the city engineer was authorized to make the necessary repairs.

GILMOUR STREET

It was moved by Ald. Wilson, seconded by the mayor, that Gilmour street be graded and water-tabled from St. Joseph to Park streets.—Carried.

Residents of that portion of the city have been asking for this for some time.

DONEGAL-ST. GORE.

Mr. A. E. Dixon, representing Mr A. W. Tamblin, asked what the Board was going to do regarding the gore on Donegal street. The gore is part of the street, but is not taken up by the roadbed, and Mr. Tamblin is desirous of buying it, as it is at the front of his property.

Mr. Tamblin is giving the city a right of way for the creek, off the rear of his property. Mr. King whose property also fronts the gore, will receive a small piece of the property.

In connection with this matter, it was moved by the mayor, seconded by Ald Johnston, that notice be given of the intention of the council to close the gore on Donegal street at Edinburgh street, and to convey the piece in front of lot 19 to Mr. A. W. Tamblin, and the part in front of lot 19, north of Dublin street, to Mr. C. Grant, in exchange for a right of way, Mr. Tamblin to pay the expense of the necessary notices.

On motion of Ald. Johnston it was decided that a water basin be placed at the corner of Weir and Lock streets.

On motion of Ald. Wilson and McIntyre, the matter of having a change made in the location of the hyrdant used for ice-washing at Rehill's ice-house, was left to the chairman and the engineer. It appears that the water from the hydrant runs down and spoils the road entering the yards of the Ontario Coal Company.

BENSON-ST. SEWER

Ald Johnston inquired as to when work on the Benson street sewer was going to be commenced, and was informed that the first gang to finish the work they were at, would start on the Benson street sewer, likely in a few days.

It was moved by Ald. Wilson, seconded by Ald. McIntyre, that the engagement of John Kenneally as foreman of a street crossing gang, be confirmed, and that he be paid at the rate of $3.00 per day, dating from the first of September, until Mr. P. Leary is able to return to work.

Mr. Neary has been unable to work for some time, having hurt his ankle, while in charge of his gang several weeks ago. He will have his job as foreman as soon as he returns to work again.

CHARLOTTE-ST. BRIDGE.

On motion it was decided to pay Hill & Co., contractors, for the Charlotte street bridge, the price of their contract, with the exception of the cost of the repairs made necessary by the delay in commencing work on the contract, and the cost of the painting of the railways.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Captured a Lunge Weighing 21 lbs.

Almost every week there appears some lucky fisherman who lands a fish a little larger than has been previously landed this season. Although the largest fish caught up to last week weighed 18 pounds, we have one better this week, Mr. Wm Clapper, jr., being the lucky fisherman this time with a 'lunge that was really one of the finest specimens of 'lunge seen in many a day. It measured 3 feet 8 inches in length and tipped the scales at 21 pounds. Although there have been larger 'lunge in the past seasons, none of large size were in as fine condition as this specimen which was landed on Thursday last.—Hastings Star.

OCCUPIED SEATS ON PLATFORM

Those Who Were Present on Stage at Borden Meeting

At the big mass meeting in the Grand Opera House on Wednesday night, the following gentlemen occupied seats on the platform.

The arrangements in connection with the seating were carried out by Ald. H. Phelan in an admirable manner, and the only regret is that the limited space did not afford accommodation for all those invited to take seats on the stage.

Mr. James Kendry, chairman, had the following associated with him:—Mr. R. L. Borden, the Conservative leader; Mr. J. G. H. Bergeron, M. P., Beauharnois, Que.; Col. H. A. Ward, M.P., Port Hope; Col. Sam. Hughes, Lindsay; Mr. A. Claude Macdonell, M.P., South Toronto; Messrs. C. L. Owen, J. A. Loucks, C. H. Cassan, Campbellford; Reeve Thompson, J. A. Sexsmith, Joyce, of Havelock; Warden McNulty, of Asphodel; George J. Sherry, Norwood; Reeve Moher, of Douro; Joshua Smithson, of Otonabee; John Reid, of Keene; J. Wilson, of Warsaw; Messrs. Jas. Stevenson, ex-M.P.; Wm. Croft, H. C. Winch, Ald. Tovey, H. LeBrun, Ald. Phelan, R. E. Layfield, Col. J. W. Miller, H. C. Strickland, Wm. Buller, J. G. M. Wilson, F. Adams, W. H. Moore, Ald. Morgan, Ald. Bradburn, L. M. Hayes, R. M. Waddell, Peter Gardner; R. B. Rogers, F. H. Dobbin, J. W. Garvin and others

HIS RESIGNATION WAS ACCEPTED

Mr. Dingman of Y.M.C.A. Going to Owen Sound—Nicholls Estate Thanked

The first meeting for the season of the Y.M.C.A. Board of Directors was a well attended and enthusiastic one, held in the Board room last evening, with the following directors present:—Messrs. Harding, President; Shook, Eastwood, Kidd, Galley, Thornton, Benner, Roger and V. Eastwood.

Messrs. Eastwood and Thornton were warmly welcomed as new members of the directorate.

A resolution was passed expressing the gratitude of the Association to the trustees of the Nicholls Estate for their donation in July, to make the needed repairs to the building possible.

The President gave a most satisfactory report of the new dormitory rooms and the furnishing of the same.

GOES TO OWEN SOUND.

Mr. E. Dingman, physical director, having decided to accept a call to Owen Sound, asked to be relieved on Oct. 1st, which request was granted.

A committee consisting of Messrs. Harding, Eastwood, Galley and Howden were appointed to take steps to secure a successor to Mr. Dingman.

The question of repairs was discussed, and referred to the Property Committee, which is composed of Messrs Madill, Roger and Cressman.

Mr. Thornton gave a report of the plans for the religious work for the season.

Mr. Williamson gave a similar report for the educational work.

PROF. DORENWEND COMING

Ladies and Gentlemen, see Prof. Dorenwend's beautiful Wigs, Toupees, Bangs, Wavy and Plain Fronts, Switches in every length and shade, etc.

His Hair Goods Styles, when properly adjusted, protect and ornament the head, soften and beautify the expression of the face, and consequently tone up aged appearance. Prof. Dorenwend has for this season many new and pretty Designs. He has added a number of New York, London and Paris patterns.

Be sure to see them and not forget day and date, Oriental Hotel, Peterborough, Friday and Saturday, Sept. 27 and 28.

Special Canvass for Y.M.C.A. Funds

Three Days Campaign Will be Conducted in City

At the meeting of the Y.M.C.A. Board of Directors last night, the budget for the year was presented and discussed.

It was decided, in view of the change in the year to December 31st, and of the heavy financing to be done by that date, to secure the services of Mr. Thomassin, of the Provincial Committee to conduct a three day campaign, to put the work in good financial shape.

Two Cannon For Cobourg

Through the friendly initiative of Mr. J. B. McColl, M.P., the Minister of Militia, Sir Frederick Borden, has kindly presented the United Counties of Northumberland and Durham with two cannon from old Fort Henry, Kingston, to be planted on the terrace in the grounds of the new county gaol commanding the entrance to Cobourg harbor. In the name of the counties Warden McNeil has accepted the unique gift, and the county property committee (special) has instructed the counties' clerk, Lieut.-Col. N. F. MacNachtan, to place the gun in position on their arrival from Kingston, whence they will be shipped to Cobourg by boat.

When you stop at the Chateau Frontenac or any hotel owned by the C.P.R., or travel in her Pullmans or Steamers, you will find.

OBITUARY

ELIZABETH PATTON

The death occurred, very suddenly last evening at 355 King street, of Elizabeth Patton, after a very brief illness. The deceased complained of not feeling well in the morning and in the afternoon was seized with a paralytic stroke. She never regained consciousness, and passed peacefully away at half past eight last night.

The late Miss Patton was 52 years of age, and was born in Milton where she resided the greater part of her life. Three months ago the family removed to this city.

Eight sisters and one brother are left to mourn her loss. The brother is Mr John Patton, of Milton, and the sisters are Mrs. Appleby, of Paris; Mrs. M. E. Spence, city; Mrs. (Dr.) T. T. Harris, of Oakville; Mrs. Barrie, of Ayr and Misses Helen, Fanny, Mary A., and Tillie Patton, of this city.

The remains were taken to Milton today on the 11.45 G.T.R. train and the funeral will take place there tomorrow.

MARGARET FITZPATRICK

The death occurred on Wednesday evening at six o'clock, at St. Joseph's Hospital, of Margaret Fitzpatrick, relict of the late Edward O'Neil, Pewano, Mich. The deceased had been ill for some time, but only was seriously ill for the past two weeks.

She was born in Asphodel 45 years years ago. Her husband predeceased her a year ago. Rev. Father Fitzpatrick, a brother of the deceased, and Sisters St. Aloysius and St. Stanilus, of St. Joseph's Hospital, sisters of the deceased, were present at the last moments.

The remains were shipped to Pewano, Mich., yesterday morning, where the funeral will take place. Rev. Father Fitzpatrick accompanied the remains.

Passed Away in Saginaw, Mich.

Death of Thomas Crowley, Former Resident of Peterboro' County

The death of a former Peterborough man, Mr. Thomas Crowley, is recorded in a recent issue of the Saginaw News. Mr. Crowley has a number of relatives in this city, who will regret to hear of his death. The Saginaw News says:

"Thomas Crowley died at St. Mary's hospital, at 7 o'clock, Saturday morning of cerebral hemorrhage, following an attack on Sunday, supplemented by a second stroke Thursday, from the effects of which he never rallied. Deceased was born in Peterborough county, Province of Ontario, Canada, Nov. 1847, and lived there until about the age of twenty when he migrated to the United States coming direct to Saginaw county, which has since been his home. He has owned and occupied a farm in Richland township for the last fourteen years and has followed the vocation of a farmer since coming to Michigan. He was married in 1878 to Jessie McDonald who survives him. Deceased had no family. Besides the widow there are surviving two brothers, David and Patrick, of Saginaw, and two sisters, Mrs. Geo. Ochsenkehl and Mrs. Patrick McCarty, both of Saginaw. A brother and sister have been dead for a number of years. The remains were taken to the residence of Patrick Crowley, 1117 Gratiot avenue from which place the funeral took place Monday morning at 9 o'clock, and from SS. Peter and Paul's church at 9.30, the Rev. Fr. Lefevre officiating. Interment took place in St. Andrew's cemetery."

J. T. STENSON
364 GEORGE STREET

The Daily Review
FRIDAY, SEPT. 13, 1907.

AN UNHAPPY COMPARISON

During his somewhat remarkable speech at Dundas on Tuesday night, Hon. A. B. Aylesworth, Minister of Justice, attempted to reply to the statement of Mr. Borden, that he could out of the Conservative members in the Federal House, find material to make two cabinets, that would be worthy of the confidence of the country, and in every way equal, if not superior in ability to the Liberal aggregation, Sir Wilfrid Laurier evidently being unable to discover clean, capable and honest men among his followers in parliament, having to go outside and call in "Slippery" Bill Pugsley, and Organiser Graham.

Mr. Aylesworth rather sarcastically observed, that Mr. Borden should take Hon. Geo. E. Foster, Geo. W. Fowler and Rufus Pope, and give them portfolios. He said that was a question of vital interest to the people. Well! let us see how these gentlemen compare with Hon. H. R. Emmerson, of Montreal Hotel fame; Hon. C. S. Hyman, of London bribery reputation; Hon. Clifford Sifton, who mysteriously grew to be a millionaire in four or five years, out of the money which he saved from his salary as a Cabinet Minister; Sir Frederick Borden, and a few others that might be mentioned.

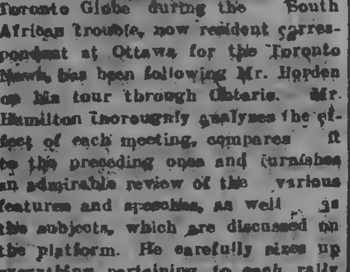
Does anyone believe that the character and private life, of Messrs. Foster, Fowler and Pope, will suffer when compared with the record of Emmerson, Hyman and the others! Mr. Aylesworth in his next address might devote some time to praising the virtues and extolling the merits of Sir Wilfrid's former and present Cabinet Ministers. The Minister of Justice should exercise a little more discretion and good judgment in his comparisons and contrasts. But Aylesworth is a wild and reckless fellow anyway when on the political platform—so irresponsible, in fact, that even the Toronto Globe finds it necessary to carefully edit some of his utterances before giving them publication.

AN ADMIRABLE SPEECH

Mr. C. F. Hamilton, the widely known war correspondent of the Toronto Globe during the South African trouble, now resident correspondent at Ottawa for the Toronto News, has been following Mr. Borden on his tour through Ontario. Mr. Hamilton thoroughly analyses the effect of each meeting, compares it to the preceding ones and furnishes an admirable review of the various features and speeches, as well as the subjects, which are discussed on the platform. He carefully sizes up everything pertaining to each rally In his report of the demonstration held in Peterborough on Wednesday night, this talented and well informed writer, presents the following which will be read with much interest:

There is, or was, a proverb, to which Sir Walter Scott alludes somewhere with great indignation, that a Scotchman does not really begin to fight until he sees his own blood. That proverb exactly fits Mr. Borden. To be thoroughly effective he needs to be angered; those who watch him in Parliament know this well. Mr. Aylesworth in his Dundas speech has done him this service; it was a new Borden tonight, a Borden of twice the animation and vigor, of twice the point and verve of attack. His whole speech was reconstructed, it was built around Mr. Aylesworth's statements, and it was cast in a far more effective form.

RHEUMATISM
MUNYON'S RX CURES



I will refund your money if it fails. Munyon

Think of a remedy that relieves sharp, shooting pains in any part of the body in from one to three hours and effects a perfect cure in a few days. It purifies the blood. It neutralizes the acid and takes all inflammation and soreness away. Have you a lame or aching back, lumbago or sciatica? Have you stiff or swollen joints, no matter how chronic? Ask your druggist for Munyon's Rheumatism Cure and see how quickly you will be cured.

If you have any kidney or bladder trouble get Munyon's Special Kidney Cure. Money back if it fails. Munyon's Vitalizer makes weak men strong and restores lost powers.

First in interest, must come Mr. Borden's answer to Mr. Aylesworth's personal attack; later in this letter it will be quoted in full, and a reading of it will show, that it was couched in terms of great heat, and that it at once challenged Mr. Aylesworth to a platform contest, and taunted him with being afraid of Mr. Gamey.

Second, in one sense, of greater importance from another and more general sense, comes another aspect of Mr. Borden's speech. Hitherto every speech, while marked by freedom in arrangement and handling, has in the main been like every other speech. There have been two divisions, attack on the Government's record, and exposition of the Halifax platform, a very considerable number of the misdeeds, with which the Government is charged, and almost every plank of the platform which he discussed; as a result he could not go very deeply into any one issue. Tonight, he dropped this, selected one plank, that of the Public Utilities Commission, and subjected it to a detailed and most interesting discussion and amplification. This included a proposal that the Railway Commission, re-named the Public Utilities (or Public Service) Commission be organized into two divisions, one judicial and the other administrative.

It has been remarked, that Mr. Borden's campaign, has shown signs of developing rather along the line of attack on the Government than of exposition of the Halifax platform. Today, this suddenly changed, and the constructive part of his message became much the more prominent. Apart from Mr. Borden's alteration of his speech, the day was marked by a series of expressions of approval of the Halifax platform.

PEN POINTS

Mr. Bergeron, M. P., is one of the best campaign speakers ever heard in Peterborough.

Mr. Aylesworth has much to learn in the political game yet and one thing is decency.

The medical health officer says the city is healthy and Chairman Eyres says it is not. Really the Board of Health is showing some life.

It seems almost as difficult to get upon a suitable day and date for Thanksgiving as it is to decide upon the proper time for a general election.

And now that the big Borden meeting is over, the next event of moment is the Peterborough Industrial Exhibition, which will be in full swing two weeks from to-day.

When the chairman of the Board of Health rushes into a contest and puts on Eyres, the Medical Health Officer believes the quickest way to end the trouble, is to Bingham on the spot.

The Globe says that the political duel between Mr. Borden and Mr. Aylesworth is based on a misapprehension. Aylesworth, since the flaying given him by the Conservative leader there on Wednesday night, says that he was "misreported," etc. The old ruse, but it wont work.

A Toronto city traveller has been arrested for a shortage in his collections. He got $12 a week and expenses for taking orders for wall paper. His expense allowance was the munificent sum of 25 cents per week. No wonder the man was "short."

The report of the Royal Commission which inquired into the Bell Telephone operators strike in Toronto makes interesting and somewhat sensational reading. It shows that there was a species of sweating system, that there was little consideration for the health of the girls and that the strike was justifiable under the circumstances. The report of the commission will it is hoped do good, in the effort to make Canada's a white man's country. All troubles however, are not confined to Asiatic importations.

It seems that an informal arrangement has been reached among the Liberal members of the Legislature that Hon. A. G. MacKay will succeed Hon. G. P. Graham as leader. The arrangement was arrived at to enable the new leader to take up at once the campaign work of Mr. Graham, and fill the public dates he had scheduled. The question arises, will Mr. MacKay be acceptable to the temperance element of his party after being "lost" a month. But any leader will possibly answer, in the present emergency, and the hopeless slough in which Ontario Grits find themselves.

And so the Liberals have been promising certain farmers in East Northumberland electric railways and arc lamps if they will vote for the government candidate. This statement was made by Mr. C. L. Owen of Campbellford, the popular Conservative standard bearer in the riding in a short speech at the Young Conservative club rooms on Wednesday afternoon. Notwithstanding the unscrupulous tactics of his opponents Mr. Owen expressed the belief that he would win. He and his friends, while not resorting to dishonest practices or making extravagant promises, are putting up a hard, clean fight and will retain the seat held so long by the late lamented Ed. Cochrane.

The Good Work of Organization

Mr. H. C. Cox Refers to it in an Address at Pittsburg

Mr. H. C. Cox of the Canada Life, has just returned from Pittsburg, Pa., where as vice-president of the National Association of Life Underwriters he addressed the annual meeting of the life insurance agents agents of Pittsburg. In the course of his remarks, Mr. Cox gave as an instance of the growth of the organization in Canada, the fact that since the recent convention in Toronto fourteen new associations had had their inception Canada, due largely to the inspiration gained from the convention. The plans for this year are to double the present organization of life insurance agents in Canada, the appeal of self-interest, together with the need of bettering life insurance conditions generally, having great force in drawing the agents together in local associations.—Toronto Star.

BAD ACCIDENT AT STONY LAKE

Wm. Motherson of East City Had Arm Severely Cut

Wm. Brotherson, son of Andrew Brotherson, of east city, was the victim of a bad accident at Stony lake yesterday. He was employed at the sawmill at Young's Point, and while putting the belt on the pully of the joiner he slipped with the result that a cut several inches long was put in one of his arms. It was a deep gash and it bled profusely. Medical attendance was summoned from Lakefield and the injury was dressed.

The young man is now at his home in east city and will be laid up for some time.

How Zam-buk Saved a Girl's Hair

When eczema, ulcers or ringworm break out on the scalp, the first thing the doctor orders is to have the hair cut off. Don't do it before trying Zam-Buk, because it can cure these diseases without causing such a sacrifice. Mrs. J. Butler, of 6 Bannockburn Avenue, Montreal, has proved this. She says;—"My eldest daughter, Annie, caught eczema, it broke out on her face and scalp, and the disease was quickly transmitted to Herbert and Edith, and in their cases, not only their heads, but their hands and faces, were covered with sores and scaly places.

"I tried various blood-purifying remedies in vain and then consulted a doctor. He applied all kinds of lotions, but the sores remained the same. He next ordered that the hair be all shaven off from the girls' heads in order to get down to the disease on the scalp. They each had nice long hair, and I thought it such a pity to cut it all off, I refused. He thereupon withdrew his services altogether.

"After that I bought first one thing and then another, but it was all no good until we got Zam-Buk. That proved equal to the case and in a few weeks it cleared every trace of skin disease from each child. With it in use there was no need to cut off the girls' hair or take any other extreme measure, it just went to work and healed the sores in fine shape."

Zam-Buk cures blood poison, cuts, bruises, old wounds, running sores, ulcers, boils, eruptions, scalp sores, eczema, itch, barber's rash, burns, scalds, and all skin injuries and diseases. Best cure for piles yet known. All druggists and stores at 50 cents a box, or from Zam-Buk Co., Toronto.

To Improve the Street Watering

Board of Works Endeavoring to Have Period of Time Extended

The Board of Works is endeavoring to have an extension of the time for street watering, and took action regarding the matter at the meeting of the Board last night. Complaint has been made in past years that the sprinkling of the streets was not commenced early enough in the spring or kept up late enough in the fall, but the difficulty lay in the fact that the city could not secure water for street sprinkling from the water commissioners before and after certain dates. The Board is endeavoring to have this time extended, in order that the dust may be kept down earlier in the spring and later in the fall.

At the meeting of the Board last night the mayor and chairman of the Board, Ald. Duncan, were appointed a committee to interview the water commissioners and, if possible make a new agreement with them. They will report at the next meeting of the Board.

Official Visit to Norwood Lodge

R. W. Bro. Duncan Walker Welcomed by Norwood Lodge A. F. & A. M.

An emergent meeting of Norwood Lodge, No. 223, A. F. & A. M., was held on Monday evening, the 9th inst., when R. W. Bro. Duncan Walker, D. D. G. M., Otonabee district No. 20, paid his official visit to the lodge. His coming was on short notice, but the attendance was good. After the work of the evening had been completed the D.D.G.M. addressed the lodge and spoke in very high terms of the manner in which the work was done by the officers of the lodge. He also complimented the lodge upon its excellent financial standing—not one member being in arrears for dues. He also noted with pleasure that the Grand Lodge semi-centennial fund assessment had been paid in full a year ago. He said that he had come with a splendid report of Norwood Lodge, and his expectations had been fully realized.

Farmer's Excursion Was Big Success

$154.50 to be Divided up Between the Three Institutes

Mr. Chas. O'Reilly of Norwood, secretary of the East Peterborough Farmers' Institute, has just received from Mr. Wm. Collins, of Peterborough, a statement of the receipts and expenses in connection with the annual excursion to Guelph Agricultural College, held in June last. This excursion is run under the combined auspices of East and West Peterborough and West Durham Farmers' Institutes.

The receipts were $224.70 and the expenses $70.20, leaving $154.50 to be divided equally among the three institutes—$51.50 each. The year before there was $152.10 to divide up after paying all expenses, giving each institute $50.70.

Sunday Train Service on G.T.R.

The Grand Trunk Railway, in view of urgent representation as to the desirability of a train from Kingston, Belleville, Cobourg, Oshawa, Whitby, etc., on Sunday evenings, to permit visitors from the city to leave Toronto on Saturday and get home on Sunday night, so as to be at business at the usual hour on Monday morning the service in question has been granted, and it is expected to prove a great convenience to the public. It will run as follows, commencing on Sunday, Sept. 8th;—Train leaving Toronto at 7.45 a. m., arriving at Port Hope Junction at 9.44 a.m., will run daily to Brockville, and train leaving Brockville at 2.20 p.m., arriving at Port Hope at 6.51 p.m., will also run daily to Toronto, arriving at Toronto at 9.20 p. m.

Galway Fall Fair Held at Kinmount

Rain Interfered With its Success—Some Good Exhibits

The weather on Tuesday and Wednesday, the two days chosen for the Galway township fair, Kinmount, was decidedly unfavorable, and greatly hindered the attendance. However, Wednesday cleared up considerably and large crowds came by special train and from the country roundabout.

Considering the late spring and the many other drawbacks the farmers have had, a remarkably fine showing was made in all classes. The potatoes seemed to be especially fine and large, as also were cucumbers and other vegetables. A fine exhibit of home-made bread was called forth by Mr. E. Roberts' special prize of $2.

Some exceedingly fine work was exhibited in the ladies' department.

Quite a number of fine horses were shown, and also some good cattle, while the number of sheep was very small.

Came Back to See Old Home

Haldimand Township Men Were Absent 43 Years

The Cobourg World says: Messrs. Alexander Russell and John Russell, of Plumer, Pa., who left their old home in Haldimand township forty-three years ago, to go to Pennsylvania, have come back to have a look at their old home, and to meet some of their friends, of Auld Lang Syne.

They have a mother, sister and aunt buried in the Baltimore burying ground, and the brothers, the elder of whom will be 85 years old in September, have erected a fine iron fence around the burying ground at a cost of about $600. The Russell Bros. have prospered since leaving their native place, and have amassed a large fortune we understand, in the oil wells of Pennsylvania. The citizens of Baltimore gave a banquet Monday evening to entertain them.

Omemee Masons Honor Dr. Keith

Dr. J. Patterson Keith, M.D., of Omemee, son of Mr. James Keith, seedsman, of Lindsay, who left for Sault Ste Marie, was presented by the members of Lorne Lodge, A.F. & A.M., of Omemee, at a recent meeting with an appreciative address, and a Masonic locket. The recipient suitably thanked the members for their valuable gift, and expressed regret at his separation from so many friends.

WEDDING BELLS

BURNS—WESTLAKE

A very interesting event took place at the home of Mr. and Mrs. Wm. Westlake, Bethany, on Wednesday, Sept. 4, when their second daughter, Anna Rosamond, was united in marriage to Mr. Walker Burns, Guelph, formerly of Millbrook. The bride entered the parlor on the arms of her father to the strains of Mendelssohn's wedding march, played by Mr. Rollin McGill of Yelverton. Rev. Dr. Marvin of Bethany, performed the marriage ceremony.

The bride was gowned in champagne visco voile, trimmed with embroidered chiffon, and silk lace, and carried a shower bouquet of pink roses. Her only ornament was a gold necklace set with amethysts and whole pearls, the gift of the groom She was attended by her sister, Bertha, who wore white organdie and carried pink roses. The groom was supported by Mr. Stanley Fallis, of Bethany. The groom's gift to the bridesmaid was a Scotch pebble brooch set with diamonds; to the groomsman a pearl stickpin. The gifts to the bride were many and beautiful. Among them was a linen shower from the choir, showing the high esteem in which she was held.

The bride's going-away gown was of green tweed with hat to match. Mr. and Mrs. Burns left on the evening train for Guelph, their future home, amid the good wishes of the whole community.

DAVIDSON—DAVIDSON

A very pretty wedding was solemnized last week, at the home of Mr. and Mrs. Davidson, a short distance from Havelock, by the Rev. Mr. Balfour of that village, when their eldest daughter, Effie, was united in marriage to Mr. John Davidson, both being residents of Havelock for some time past. The young couple were unattended. The bride was married in her travelling suit of light grey with pretty blouse to match and picture hat of white.

C. P. R. POINTERS

The annual western excursions, via Canadian Pacific, to Detroit, Saginaw, Bay City, Grand Rapids, Chicago, etc., takes place, good going Sept. 19, 20 and 21st, good returning until Oct. 7th. See advertisement in this paper.

More farm laborers wanted in the northwest. Another excursion leaves Peterborough on Sept. 17th, regular train. Fare $12.00 to Winnipeg, $18.00 additional for return, under usual farm laborers excursion conditions.

For the Ottawa Exhibition the Canadian Pacific will issue return tickets at single fare, good going Sept. 13th to Sept. 21st, inclusive, except special days, Sept. 17th, 19th and 20th, when round trip tickets will be sold at the low rate of $3.85. All tickets good to return until Sept. 23rd.

The next Homeseeker's Excursion to Manitoba and the Northwest, takes place on Sept. 24th. Intending passengers should reserve berths in tourist car, early for this excursion.

Ocean tickets sold either to or from Great Britain, via the celebrated C.P.R. Atlantic Steamship Lines steamers, Empress of Britain and Ireland. Unsurpassed accommodation for all classes on these magnificent steamers. Tickets sold also via Allan Line, or Dominion Line.

For all information and tickets call on W. McIlroy, Passenger Agent, C. P. R., 343 George street, Peterborough.

Port Hope Barbers Join Local Union

Messrs. Brousseau & Gainey are in That Town To-day

Messrs. Geo. Brousseau and Harry Gainey, of the local Barbers' Union, left today at noon for Port Hope, where they will take into the union the barbers of Port Hope. At present Lakefield and Havelock are affiliated with the Peterborough barbers, and a visit will be made to Cobourg next week in an endeavor to bring the knights of the razor in the lakeside town into the union. Thus with Lakefield, Havelock, Port Hope and Cobourg, along with the local members, the Peterborough journeymen barbers will have the largest membership of any barbers' union between Toronto and Montreal.

Marathon Race at Norwood Fair

Several Young Sprinters From Peterboro' to Compete

The 29th annual exhibition of the East Peterborough Agricultural Society will be held in Norwood on Tuesday and Wednesday, Oct. 8th and 9th, on its commodious park, covering twelve acres with enlarged speeding ring.

Among the various special attractions on the second day will be a Marathon five mile road race, for which the following valuable prizes will be given: 1st, a handsome gold watch; 2nd, a beautiful silver watch. This race will take place at 2 o'clock p.m., sharp. Messrs. Best, Wilson, Lees and Spencely of Peterborough; McBurney of Havelock; Simpson of Hiawatha, and several other long distance runners are expected to compete.

To encourage good breeding, speeding in the ring will form a special feature of the attractions for which valuable prizes will be awarded, style and soundness to be considered in every case.

CHAMPIONSHIP WILL BE SETTLED

Peterborough or Port Hope for Midland League Honors?

The attention of everybody is directed to the baseball match at Cobourg tomorrow and the excursion from this city. The train leaves the Grand Trunk station at 1.30 o'clock and the return fare to Cobourg is only 85c. The greatest game of the year is promised and those who go along are assured excellent sport. Port Hope is strengthening for the game having secured Winchester of the Toronto Wellingtons, for shortstop There is a rumor today that Applegate of the Toronto Eastern League team will do the twirling for the Crawfordites, but no information on this point can be obtained. The line-up of the Peterborough team was published yesterday and is the strongest that has ever represented this city A monster crowd will accompany the boys.

RUGBY

The new Intermediate Rugby Union has been formed, and the following schedule has been drawn up;—

Oct. 5.—Hamilton at Montreal, Argonauts at Ottawa.

Oct. 12—Montreal at Argonauts, Ottawa at Hamilton.

Oct. 19—Montreal at Ottawa, Argonaut at Hamilton.

Oct. 26—Montreal at Hamilton, Ottawa at Argonauts.

Nov. 2—Ottawa at Montreal, Hamilton at Argonauts.

Nov. 9.—Argonauts at Montreal, Hamilton at Ottawa.

The only thing that can now interfere with the plans of the people behind the new union is for the C.A.A.U. to refuse to reinstate the Eastern players, and that is not likely in view of the promises made by President Stark, Secretary, Crow, and other C.A.A.U. officials to the promoters of the Inter-Provincial Union.

O.R.F.U. MEETING

Friday night at 8 o'clock the O.R.F.U. Executive Committee will meet at the King Edward Hotel, Toronto, to draw up the junior and intermediate schedules and discuss the senior situation.

There will be a meeting of the Hamilton Y.M.C.A. football club last night to elect officers, select grounds, etc., and other important business, so that the team could get into shape for the Junior O.R.F.U. season. The following officers were elected;—

Hon. President—R. T. Steele.
Hon. Vice-President—Paul J. Myler,
President—H. O. Hooper.
Vice-Pres.—T. F. Best.
Treasurer—Mert Neil.
Secretary—Ralph Sowron.
Manager—Guy Long.
Coach—Wallie Barron.
Trainer—Jack Foley.

The Executive Committee is; McKay, Burton, Smith, Sinclair, Hedley, and Harper.

BASEBALL

Regret is expressed in sporting circles at the removal of "Biddy" Burgess to Fenelon Falls. "Biddy" helped the Orientals out in baseball and was expected to shine in hockey this winter. He has secured a position in Townley's tailor shop.—Lindsay Post.

The Annual Meeting of the Rugby Club Held Last Night

Enthusiastic Gathering of Players and Supporters—Officers Elected—"Bil" Crowley is Manager.

A goodly number of representative enthusiasts attended the annual meeting of the Rugby club held at the Oriental last night. Mayor McWilliams was in the chair and secretary-treasurer McDonough kept tab on the proceedings. Those present other than the chairman and secretary were Messrs. Hurtbuise, Crowley, Graham, Meagher, Caniff, Mendel, Clark, Ferguson, Cameron, Hall, Johnston, Burns, Burridge, Metheral and Sullivan.

There was a great deal of talk concerning in what series it would be advisable to place the team and it was finally decided to leave this matter in the hands of Mr. T. W. McDonough the representative of the club on the executive of the O.R.F.U.

Several local gentlemen have shown themselves to be possessed of the true sporting spirit and have made generous donations to the club. Mr. Ed. Huff will give the player who draws the lucky number a pair of eight dollars trousers; Mr. Fred Cook has kindly offered to supply streamers for street cars for the purpose of advertising games, Mr. Louis Mendel will give the club a dozen eight dollar photographs in order to enable them to raise money by their sale, and the owners of Riverside park have decided to allow the team to have the use of the grounds free of charge.

The first practice of the team will take place next Saturday afternoon at 2.30 and a particularly large number of players are expected to turn out for the initial practice. There is nothing like jumping into the game with both feet early in the season everybody will get every possible chance and encouragement to catch a place. Prospects were never better for the young fellows to secure places on the line up.

It is pleasant to note that Mayor McWilliams was elected to the president's chair by a unanimous vote and that the reliable and energetic 'Mac' will fill that position of secretary.

If there is a seasoned Rugbyist in Peterborough "Bill" Crowley may claim that distinction and the fact that he was elected manager will be glad tidings to the fans. 'Bill' knows the game from A. to Z and a little bit more. He has great tact and judgment and will make an ideal manager.

Following are the officers for the ensuing year,—

Patrons and Patronesses—Mr. and Mrs. R. A. Morrow, Mr. and Mrs. R. R. Hall, Mr. and Mrs. J. R. Stratton, Mr. and Mrs. F. G. Patterson, Dr. and Mrs. Wightman.

Hon. President.—A. A. Hollingshead.
President.—Mayor McWilliams.
1st Vice Pres.—F. Hurtubuise.
2nd. Vice-Pres.—C. G. Graham.
Secretary.—T. W. McDonough.
Treasurer.—J. D. Clarke.
Executive Committee.—E. A. Ford, A. T. Johnson, R. Cameron, J. F. Sullivan and S. Caniff.
Manager.—W. Crowley.
Team Committee.—Manager and Capt. when elected.

Surphlis May Not Be Able To Pitch Saturday's Game

The Port Hope Guide says: "A tremendous crowd, it is expected will take in the game at Cobourg next Saturday, when Port Hope and Peterborough battle for supremacy. Peterborough will be in by special train and the half of Port Hope will accompany the locals. Cobourg will be out in full force so we may look for a lively afternoon. The game will commence at 3.15 sharp.

"There is a rumor about town that Surphlis will not occupy the box on Saturday, and while there is some foundation for this story, it might be well to explain the circumstances. Last Saturday's game was a very strenuous one, and when about half over, Surphlis strained his side, severly and is still suffering from the effects of it. He has been unable to work this week, but is feeling much better today, and Manager Crawford has every hope that he will be in shape for the game. Should Surphlis be unable to play, a fast twirler will be on hand, so the local enthusiasts may rest assured that Port Hope will be represented by a strong nine. It is the desire of the *management*, and in fact, of every Port Hoper to have Surphlis pitch the game. He has pulled Port Hope out in many a hard struggle and in our opinion, is the best amateur pitcher in Ontario. Surphlis will be in uniform at any rate, and if Port Hope needs his assistance he will take a chance on his sore side.

The Review is of the opinion that Henry will be on the firing line tomorrow all right, despite the report to the contrary.

Still No Verdict Reached; Manvers Inquest Adjourned

The inquest into the death of Ed. Wansboro, who was killed at Manvers Station a few weeks ago, in a rear-end collision, was resumed yesterday afternoon in the Orange Hall, Manvers. It occupied the afternoon and evening, and was further adjourned till Tuesday evening next.

Considerable evidence was taken, the most important being that of Engineer Ritchie of the east-bound train.

Mr. W. E. Kerr, of Cobourg, appeared for the Crown; Mr. Geo. A. Walker, for the C.P.R., and Mr. J. W. Godfrey, of Toronto, appeared for Engineer Ritchie.

John Ritchie, engineer of the incoming train was called. He recognized the memo. produced relating to air holes in trains of which he was engineer. He got the memo. from Conductor Grieve. To Mr Kerr witness said that the air brake inspector at Windsor would be responsible for allowing cars with defective air brakes to proceed, and after him the inspector at London, the next Toronto Jct. and then Havelock. Witness to Mr. Godfrey said that he had nothing to do with air brakes. The inspector at Toronto Jct. reported to witness "all air but three out" which meant three brakes not working. Twelve defective air brakes would account for my not being able to stop the train Three would not make any perceptible difference. To Mr. Walker he said; "I am supposed to make a terminal test of air brakes before leaving Toronto Junction, also a road test from time to time. I had stopped my train without difficulty half a dozen times before reaching Manvers, but you must take the lay of the land into consideration. I applied all tests, but no defects were found. When I saw that it was not going to hold I applied the straight air brake, then the emergency brake and then the full train brake. To Mr. Godfrey he said that he had heard complaint had been made that the air brakes were defective. The train would have undoubtedly stopped if they had been alright. Witness thought that they were going to work.

Fred Howe, one of the occupants of the van in which Wansboro was, on being called, related his story of the catastrophe.

Chas. Williams, assistant air brake inspector was called. He said one could not tell in a terminal test whether or not the brakes are going to work. Having heard Mr Ritchie's evidence, he thought with a good rail, he should have been able to stop.

R. W. Hay, conductor of the train that was run into, stated that he had known Mr. Ritchie for fifteen years. He was a careful man. Mr. Ritchie told witness that he had done all he could to stop.

Eber Knapp, brakeman on Conductor Hay's train was called. His evidence was not of any great importance. C. Williams, inspector at Havelock, also gave evidence.

The inquest will be resumed next Tuesday at 8 p.m. at Manvers Orange Hall.

Junior Crescents Organize To-night

A meeting will be held at the Y.M.C.A. tonight for the purpose of organising the Young Crescent Rugby Club The junior Crescents have plenty of good material, and expect to have a strong team. The following are especially requested to attend the meeting tonight;—Lewis, Patterson, Gilbert, Perks, Minorgan, Stratton, Hayes, Wallace brothers, Hatton, Mills, Layfield, Fortye, Metheral, Fovey and Parker.

LAKEFIELD FAIR

The Annual Exhibition of the Lakefield Agricultural Society will be held in the fine new grounds of the Society in Lakefield, on Tuesday and Wednesday, September 24 and 25.

The buildings and grounds have been much improved during the present summer and the track for speeding has been put into excellent shape.

The speeding in the ring promises to be first-class and the Society has granted good purses in the Free-for-All and 2.50 Class.

For prize lists and entry forms, etc. address W. SHERIN, Sec'y., Lakefield Ont.

Havelock Tax Rate is 27 Mills

The bylaw to fix and raise the tax rate for 1907 received its several readings at the last meeting of the Havelock Council. The total assessable property amounts to $225,000, and it will require a rate of 27 mills on the dollar to pay the expenses for the year.

DR. BROWETT'S DATES

For September at his Home Office, 390 George Street, Peterborough, Wednesday 11th to Saturday 14th inclusive; for October, 9th to 12th. Dr. Browett is teaching Opticians all over Ontario the modern methods of eye examination for Glasses, the fitting of Artificial Eyes, etc. Appointments are only made at

McDermid & Jury's Drug Store, Peterborough

Much Business Was Transacted

Largely Attended Meeting of the Directors of the Fair.

A fully attended and very enthusiastic meeting of the directors of the Peterborough Industrial Exhibition, was held last night, those in attendance being President Leary, Vice-Presidents J. H. Garbutt and S. Redmond and Messrs. W. B. Stewart, S Deyell, J J Turner, D. Kennedy, J. M. Brooks, Geo. Elliott, Jas. R. Bell, W. Collins, G. A. Gillespie, W E Conway and Robert Vance. The secretary was pleased to announce that all the judges will comply with the requests made of them to officiate in the various classes.

The 57th Regimental Band will be in attendance on Friday and Saturday, on which days the horse races will be held. A special committee was chosen to select employees, such as ticket sellers, constables and other positions in connection with the exhibition.

DIVISION COURT WAS HELD TO-DAY

Considerable Time Spent in Disposing of Cases

Division Court was held today His Honor Judge Weller presiding. The majority of the cases were of minor interest, but considerable time was required to dispose of them.

One case, Miss M. Poole versus P. T. Cuffe, attracted some interest. Miss Poole sued Mr. Cuffe for $26.20 rent, which she claimed was due her. The *defendant* refused payment on the grounds that he had made urgent repairs to the house, valued at this amount. His Honor allowed Mr. Cuffe $13.00 for the work done and gave judgment in favor of Miss Poole for the remainder, $13.20. Mr. L. M. Hayes acted for plaintiff, and Mr. R. F. McWilliams for the defendant.

MERRY TIME AT CHEMONG

Pill Pounders Entertain Large Number of Friends

The Pill Pounders are keeping up their reputation, as being amongst the best entertainers in the city. Last night they held a jolly social evening at the pavilion at Chemong Park, when dancing was the principal amusement. Two bus loads of young people, about forty in all, drove out from the city, and returned home shortly after midnight. The music for the dancing was supplied by various members of the party.

During the evening, refreshments were served at Mr. J. D. Tully's spacious cottage, everything being done to give everybody a pleasant time. The affair was voted a great success by everyone present, and the committee in charge deserve great credit.

AT JACKSON PARK

57th Regiment band and moving pictures at Jackson Park to-night.

OLD SOL HAS SPOTS ON FACE

Over Four Billion Square Miles of Sun's Disc Disturbed.

Yesterday afternoon Dr. Marsh of Springville, the well-known astronomer, in looking through his telescope at the sun, noticed a large disturbed area, near the solar meridian. He photographed it and again this morning on examining it he found that the disturbed area was greatly increased in size. It now measures 112,960 miles long with a width of 37,653 miles, thus making the total disturbed area 4,433,245,000 This is the biggest bunch of sun spots that has appeared on the solar disc for a long time. The big spot can be seen by looking through a darkened glass.

FACTS—JUST PLAIN, POINTED FACTS

Court Chemong Held Meeting

Bro. R. Castle Was Presented With Gold Locket

Court Chemong, No. 530, I.O.F., held a regular meeting last night. Owing to the unavoidable absence of Bro. D. Wallace, Bro. Thomas Dale, Court Deputy, occupied the chair.

Bro. R. Castle was presented with a gold locket, the donor being Dr. Greer. Mr. Castle won the foot race at the annual picnic on Labor Day. The locket bore his monogram on one side, and on the other, "I.O.F. Field Day, 1907."

Bro. Castle was also given a High Court badge for his fleetness of foot. Bro. W. H. G. Armstrong, delegate to the High Court meeting at Ottawa, presented a most satisfactory report of the proceedings.

The excursion Committee reported and the members were thanked for their services. The committee was composed of Bros. D. Wallace, W. S. McKee, J. W. Buyers, A. H. Webb, Geo Metcalfe, A. Allison, F. C. Rooke, S. W. Powell and W. Mills.

Breaks Record For Ocean Voyage

Lusitiania Crosses Pond in Five Days and Fifty-four Minutes

Special to the Review.

New York, Sept. 13.—The Cunarder Lusitania arrived off Sandy Hook Light Ship at 8.05 today, making the trip from Queenstown in five days and 54 minutes. This is six hours and 20 minutes better than the previous record of five days, 7 hours and 23 minutes, held by the Lucanian, of the Cunard Line. The Lusitania, however has not beaten the average speed per hour record. Both the Kaiser Wilhelm II, which has made 23.58 knots per hour, from New York to Plymouth, and the Deutschland with a record of 23.51 knots per hour, to Plymouth, having made better time. The Lusitania's speed per hour on her maiden voyage is estimated at 23.01 per hour.

Able Papers Read At the Convention

Montreal, Sept. 12.—Treaties on technical subjects took up the time of the Canadian Electrical Convention. Reports were read by Messrs Clarence E. Delafield, A. E. Fleming, J. M. Robertson, John Murphy, and R. M. Wilson. Mr. H. O. Fisk, of Peterborough, is among those in attendance.

Students for Model Schools

Those Under 18 Years of Age May Take a Course This Session

For the present session only of the County Model schools pupils who are qualified non-professionally, and who will be 18 years of age on Aug. 17, 1908, may be admitted to the course of instruction. Certificates as Public school teachers cannot be issued until the candidates are of the legal age. This privilege is granted by a circular just issued by the Education Department. A similar order was issued last year because of the scarcity of teachers and the fact that the County Model schools were to be discontinued. The new Provincial Normal schools are not ready, and a number of persons under the legal age have applied for admission to the Model school. Therefore the circular was published.

TRENTON VOTERS' LIST

Trenton, Sept. 12.—Today saw the finish of the revision of the Trenton voters' list, concerning which so much publicity was given last month.

The work of revision was greatly facilitated by the representatives of each party agreeing upon the greater number of names, for which appeals had been entered. At the first sitting on August 20th, the enquiry conducted by the judge into the circumstances under which the 310 disputed names, added to the list had been placed there, brought out the town clerk had erred in putting on wrong names, no wrong doing was intended, and the judge expressed the opinion that while a blunder had been committed he did not think it was anything more. He went carefully over these names this afternoon, along with many others that brought the total up to 189, and nearly all were again placed on the list.

PLEASANT TRIP TO GREAT WEST

Mr. and Mrs. G. H. Davison Had Enjoyable Holiday

Mr and Mrs. Geo. H. Davison, of this city, returned yesterday from a holiday trip to the Canadian Northwest. Their trip embraced a visit to Banff and Lagan in British Columbia. They visited several places of interest as far west as Banff, including Port Arthur, Fort William, Winnipeg, Brandon, Regina, Calgary, Fort Saskatchewan, Edmonton, and then to Banff.

At Fort Saskatchewan which is about twenty miles from Edmonton Mr. Davison spent a week visiting friends.

When asked by the Review as to the conditions of the crops in that section of the country, he replied that they were not of the best and are mostly in a green condition yet. Out of one hundred fields, Mr. Davison states that probably seventy-five of them are in a green state. The farmers at Fort Saskatchewan are mowing the green hay, not waiting till it ripens. They are not even going to the expense of hiring a binder this season. Mr. Davison said that there was one heavy frost during his stay in the wheat country, which did a little damage, especially in the low lying lands. One story is told of a farmer living near Fort Saskatchewan, who was called upon to pay a note for $85, and in order that he might do so, thinking that his crop would be a failure, sold forty-five acres of wheat for the above amount.

Real estate is experiencing a severe drawback in the west, says Mr Davison and, in the opinion of some of the wealthiest men out there, it is the best thing for the country. In order to prevent speculation, the banks have stopped the loaning of money.

At Banff Mr. and Mrs. Davison spent several days. This is a most beautiful spot and the scenery is most magnificent. It has a resident population of five hundred, but the tourists are coming and going in large numbers all the time. Three grand hotels, in addition to a sanarium, are the rendezvous for visitors. The Bow River in Banff is the most charming stretch of water Mr Davison ever witnessed, the color of the water resembling somewhat the colors of the rainbow.

Mr. and Mrs. Davison returned by way of Fort William and North Bay. Their outing was a very pleasant one, and they enjoyed every minute of it.

Canada Flakes for Hong Kong

Shipment of Well Known Breakfast Food for China

The Peterborough Cereal Company have forwarded five cases of their well known breakfast food, Canada Flakes, to Hong Kong, China. The shipment was made from Vancouver in August and it is expected that this well-known product will find a large sale in the Chinese market.

WILL PREPARE FOR WINTER WORK

The Rector, Rev. Dr. Langfeldt has called upon all the church workers to attend a special service to-morrow morning at which he will preach a special sermon preparatory to entering upon the winter's work. The members of the different societies are invited to attend Holy Communion.

The Sunday school and Mr. Turner's Bible class will resume their session at 3 o'clock to-morrow.

HARBORED DOG WITHOUT TAG

Dispute Over Who Shall Pay the Tax in Police Court

There was not much doing in police court this morning, there being only one case for His Worship Magistrate Dumble to dispose of.

Sidney Mitchell was charged with harboring a dog without a tag. He pleaded not guilty and stated that the canine belonged to a man who occupied the house before defendant went into it. The dog stayed around the place, and Mr. Mitchell could not get rid of it. He had called at the police station several times to see if he could not have it done away with, but nothing was done. It had been at defendant's since November last.

His Worship enlarged the case till next Thursday. In the meantime defendant will either have to destroy the dog or find the rightful owner.

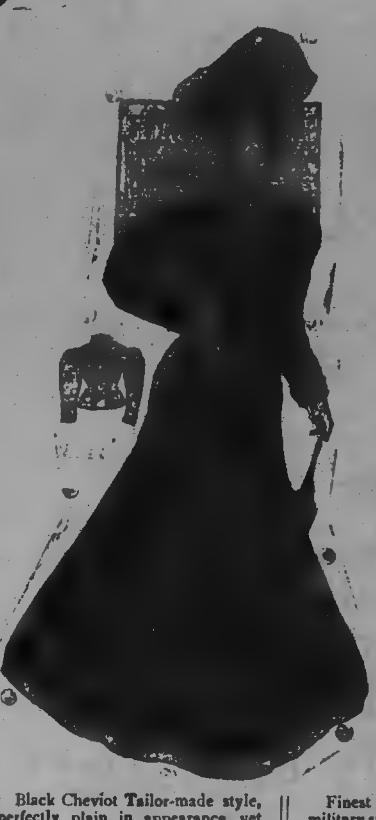
Comment From Lindsay Paper

On the Controversy Going on Between Dr. Bingham and Mr. Eyres

The Lindsay Post, has the nerve to take a hand in the discussion, or rather the contest of written and verbal mud slinging that has been going on between Mr. Wm. Eyres, chairman of the Board of Health and Medical Health Officer Bingham. The Review would advise its contemporary to keep out of the way, lest the two gentlemen in question may turn their big guns on it, and then it would certainly be squelched.

The Post says: Mr. Wm. Eyres, chairman of the Medical Health Board of Peterborough, says typhoid is epidemic in the city, and the M. H. O. says "Tisn't." Mr. Eyres better crawl into a hole quick—it won't do for an ordinary chairman to differ with the boss. The medical men along the Otonabee, appear to be an independent bunch, anyway. There's Dr. Gray refusing to obey the chairman's order that all city doctors must report infectious cases to the Board, unless paid the fee fixed by the association—$10 for fever, $20 for diphtheria, $100 for smallpox."

THE STORE THAT NEVER DISAPPOINTS



Fashion's Dictates For Fall 1907

A few of our Fall Costumes are here described, but we by no means attempt to do them justice. To see them is the only way you can do credit to the beautiful range of New Fall creations. All that is new is shown.

Black Cheviot Tailor-made style, perfectly plain in appearance, yet rich and showing up the elegant workmanship. The Skirt is trimmed with the pleats and folds. Our **$25** leader.

$27.50 line handsome green and brown mixture, in the popular Plaid effect. Coat is the short hip style, trimmed with self strappings, military braid and buttons; it also has the fancy vest effect front.

Our **$18** Mid Brown Tweed Effect is without an equal for style and quality. Coat is a one-button cutaway with the fitted back, elegantly trimmed with brown velvet collar and cuffs and pleated Skirt.

The Covert Cloth Suit is very prominent in the styles for Fall. Our **$20** line is made in the double breasted box front Coat, trimmed with manish pockets, with button and braid trimmings. Skirt has pleated and self folds.

Finest Black Broadcloth, regular military suit; tight-fitting hip Coat, military collar, braid trimmings and ivory satin linings. Skirt has large side pleats, folds and braid trimmings. Our **$27.50** Special

For **$35**, Fine Broadcloth, in catchy military effect, three-quarter cutaway coat, military braid trimmings, taffeta lined; pleated skirt, with folds and braid trimmings.

Cressman's

Mr. Charles James Loses Good Horse

A valuable brown horse, owned by Mr. C. James, the well known distributor of soda water and soft drinks, died this morning at the barns of a local veterinary surgeon. The animal was seized with an acute attack of indigestion and inflammation. Every effort was made to save the horse, which was valued at over $200, but in spite of endeavors of a skilful "vet" the case was found to be hopeless.

THE PETERBORO' COLLEGE OF MUSIC

Wyatt, at Little Lake cemetery, on Sunday afternoon next, Sept. 15th at 3 p.m. Camp meets in hall at 2.30 A full attendance is requested. 3d

Hamilton policemen hereafter must measure 36 inches about the chest.

AUCTION SALE

OF RESIDENCE NEAR CITY OF PETERBOROUGH

Under and by virtue of the powers contained in a certain mortgage, which will be produced at the time of sale, there will be offered for sale by public auction, by Charles Stapleton, auctioneer, at the Munroe House, in the City of Peterborough, on

Wednesday, the 18th day of September

1907, at 2 p.m., the following property, namely:—

Lot Number 2 and part of Lot Number Four on Registered Plan Number Twenty-four for the Township of North Monaghan, in the County of Peterborough, particularly described as follows:

Commencing at the Northeast angle of Lot Number Two, thence westerly along the northern limit of said lots Two and Four, four hundred and twelve feet, thence southerly parallel with the eastern limit of said Lot Number Two, two hundred and eighteen feet more or less to the southern limit of said Lot Four, thence easterly along the southern limit of said Lot Four and Two to the southeast angle of said Lot Number Four, thence northerly along the eastern limit of said Lot Two to the place of beginning. Reserving, however, a right of way over the westerly thirteen feet of such lands, and extending from the Northern limit of said Lot Four, southerly one hundred and twenty feet.

This property is situated at the corner of Lundy's Lane and the Monaghan Road, adjoining the boundary of the City of Peterborough. Upon the property are a substantial story and a half brick residence and stable.

TOO TIRED TO STIR!

ARE YOU ONE OF THE
WEAK WOMEN
To Become Bright, Happy and Healthy?—Use Ferrozone.

Modern life makes demands on every woman's strength that seem impossible to meet. Only the robust and strong can stand the strain. The weak, with their delicately balanced organisms, must fail. Blood gets thin, it's innutritious. Nerves go to smash, vitality declines, and then follows misery and suffering caused by interference with certain functions upon which the very existence of every female depends.

Don't let your condition grow worse. Check the decline of vital force before it is too late! The one sure remedy is Ferrozone—not a temporary stimulant—but an uplifting nutritive tonic that contains the kind of building material a weak body requires.

FERROZONE revitalizes the system by putting new life into the blood. Not only does it nourish the ordinary blood supply—it does more, it makes new blood, the rich, red kind that denotes health.

Energy is reinforced, strength is steadily and surely rebuilt. Keen appetite, strong nerves, more restful sleep, buoyant feelings, all tell of the enormous good Ferrozone invariably accomplishes. For restoring the weak, the pale, the despondent, there is no treatment so instant and permanent in effect as Ferrozone. A trial proves this. Won't you use Ferrozone yourself? It will surely make you well—its effect is instant.

BUILT UP HER STRENGTH

Mrs. M. E. Etherington, a well known merchant's wife, of Troy, writes: "I am quite willing to give a public testimonial for Ferrozone, believing it to be a tonic of superior excellence, and one that will rapidly build up strength and supply new energy to anyone not feeling well. Last Spring I was in a very poor condition of health. I was nervous, felt tired and completely worn out. No doubt it is quite a common complaint with ladies of my age, but I placed great reliance in Ferrozone, and took it for several weeks. It made me quite strong, and, in fact, I have been in better health ever since. I can heartily recommend Ferrozone."

Ferrozone Assures Good Health!

WARNING! Beware of the substitutor who urges you to accept something "just as good." Only FERROZONE can cure satisfactorily,—see you get it, and nothing else. Price 50c per box or six boxes for $2.50 at all reliable dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ontario.

Quebec Bridge Inquest; Were The Facts Known?

Sensational Evidence at Quebec Bridge Inquest.

Employes Tell of Having Noticed Faults in Construction of Bridge—Men Were All Afraid — Foremen Only Laughed—Work Was Behind Owing to Strike — Chords Were Deflected.

Quebec, Sept. 14.—Quite sensational was the account of the collapse of the Quebec bridge, told before the Royal Commission yesterday by two men who went down with it, and by James Johnson, foreman of the labor gang removing timbers, who was only a few feet away.

The latter mentioned heard the locomotive on the bridge run out and a sound as if a piece of iron had fallen. (He saw the stringers parting, then started to run, glanced back and saw the whole thing wave. There was a cloud of smoke over which the wooden false work fell straight back towards the shore. He could not say positively what part fell first nor could he say if it was the stringers or chords that he had seen go.

Another man, Ingwail, said the big traveler was hoisting up a couple of timbers at the time of the accident. He was 10 feet from the top of the traveler, near the front, about 500 feet above the water. The bridge went fast until it struck the water and then slowed up. He remained on the traveler all the time and could not move. The water was well upon him and he had to stretch to breathe and lost two fingers. It seemed as if the bridge had just tipped. He never personally had seen any defects, but heard others talk of the bottom chord and quite a few of the men went down and looked at it the night prior to the accident and said it was kinking in.

Alex. Boisvert, now in the hospital at Levis, said that every time a piece of metal fell the bridge vibrated, and every time the shock would make the men afraid.

D. B. Haley explained his testimony concerning defects in the structure by the aid of plans. He marked on the plans the panels of the chord which he said were bent and which he had seen when standing on the third panel of chord nine. He also noticed that the lacing was bent in chord eight. In chord nine both centre lacings were bulged. There were also two or three bends in the rib in panel nine, two or three feet in length. At the splice where the chord in question joined the other he could see that, although the coverpiece was there, that the joint had never been properly riveted. He reported the matter to three of the foremen. He did not report to Mr. Yenser, as he would only have laughed at him. Yenser understood his work, as shown by his opposition to the carrying of the traveler further out on the bridge, and the fact that he did so upon compulsion and against his own better judgment.

Witness heard Yenser say to Birks: "Why in he— don't they let me take down this d— traveler and get the d— load off."

He testified that the work was behind hand because of strike on Aug. 8, lasting three days, due to the fact that the Phoenix Bridge Co. brought Americans here to work on a promise to pay their expenses both ways, which was then repudiated, the matter being regarded by the men as a plain steal.

When Birks was spoken to of the deflected chord he said: "You fellows are getting prematurely alarmed. The thing is perfectly safe."

Dominique McCumber worked on the bridge till 2 o'clock the day of the collapse. He saw a defect in the sixth joint from the pier on the down stream side, and as he had some folks at home he quit work.

Edward Britton, electrician on the bridge, did not work on Aug. 28. In the office he heard Yenser and McClure say that two or three chords were badly buckled.

Quebec Relief Fund.

Quebec, Sept. 14.—The relief fund for the victims of the disaster of the Quebec bridge amounts to $7,544, apart from the subscription of the Provincial Government. It has been decided to close the fund on Monday evening.

Dies at Ball Game.

Detroit, Sept. 14.—Enthusiastically a Tiger fan to his very last breath, George Stanley Dean, 28 years old, 241 Marston court, dropped dead of heart disease while watching the first game of the Detroit-Cleveland double-header at Bennett Park.

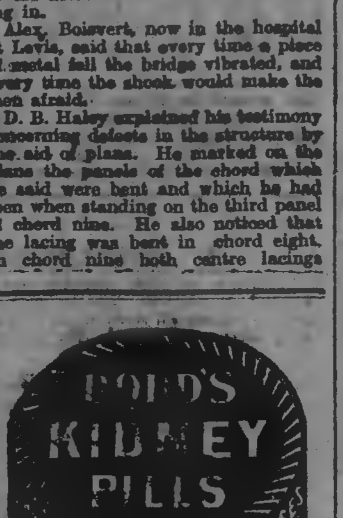
Just before he fell he exclaimed: "I hope Wild Bill strikes Lajoie out." This last earthy wish was gratified, for as several men were carrying his lifeless form to the box office the umpire called to Lajoie: "Three strikes; you're out."

Dean was standing in the pavilion, just back of first-base, when seized with the fatal stroke. The game reached a very critical stage and the excitement, it is believed, over-taxed the fan's weak heart.

Makes Sure of Death.

New York, Sept. 14.—John F. Trommer, one of the family of brewers, committed suicide Thursday night in East New York. He first stabbed himself twice in the breast with a carving knife, and then turned on the gas in his room.

Trommer was 26 years old and unmarried. It was understood that he recently was engaged to be married, and that the engagement had been broken off.



VANCOUVER RIOTS.

Japanese Journal Makes Comparison With San Francisco.

Tokio, Sept. 14.—In The Hochi last evening Count Okuma contrasts the anti-Japanese disturbances at San Francisco with the Vancouver riot, briefly, as follows:

"The latter occurrence must not be placed in the same category as the former. The San Francisco authorities directly or indirectly countenanced the acts of the rioters, while the Municipal Government was a centre of corruption, almost a state of anarchy prevailing. I liken the San Francisco riot to the Boxer outbreak. President Roosevelt's attitude at first was very fair and admirable; but, after his conference with a delegation from San Francisco, a change came which sadly disappointed us.

"The Vancouver incident was quite different. It was an outrageous act, limited to laborers, and supporters. The local authorities sincerely did their utmost to suppress the riot and protect our countrymen. They even went so far as to give permission to our compatriots to take measures of self-defence. The sincerity so fully evidenced of these really worthy local authorities of our ally in their effort to protect our rights make us confident of effecting a satisfactory solution of the deplorable situation.

Will See Sir Wilfrid.

Ottawa, Sept. 14.—Consul-General Nosse of Japan stated last night that Ishii, the commissioner whom Japan has sent to Canada and the United States to enquire into immigration conditions, will reach here on Monday afternoon and will discuss the Vancouver incident with Sir Wilfrid Laurier.

To Avoid Trouble.

Vancouver, B. C., Sept. 14.—The steamer Woolwich, now due, with Japanese from Yokohama, is expected to discharge its human cargo at North Vancouver in order to avoid the possibility of a riot.

Will Discuss Asiatics.

Winnipeg, Sept. 14.—The big question before the Trades and Labor Congress, which opens on Monday, will be the Asiatic problem, and, according to opinion of delegates already here, drastic action will be taken.

President McVitty of the Vancouver Trades and Labor Council last night said that British Columbia would fight to the last ditch for the exclusion of Orientals.

Other important problems before congress will be the formation of an independent labor party, modeled on Great Britain's.

Want Dominion Police.

Vancouver, B.C., Sept. 14.—City Solicitor Cowan last night pointed out to a committee of the council new features of the Asiatic situation. He advocated that Ottawa be asked to police the city's growing foreign quarter at the Dominion Government's expense.

It was also suggested that the government be asked to erect an immigration shed here for the foreigners, owing to the unsanitary condition of many of their present temporary homes.

The third feature revealed a scheme by which many Chinamen obtain refunds from the Dominion of the $500 head tax. Entering the public schools, they remain long enough to prove the claim that they are students. Some up to the age of 24 are now attending the public schools. The city will adopt Cowan's suggestion and limit Celestial pupils to 16 years of age.

Johannesburg Interested.

London, Sept. 14.—(C.A.P.)—A special despatch here yesterday says that Johannesburg is watching the present situation in British Columbia with the most intense interest. Opinion there is increasing to the effect that the Imperial Government will soon be forced to consider the position of all Orientals at present living, and especially those who are to come to the British colonies.

Marine Signal Service.

Montreal, Sept. 14.—A portion of a new Government marine signal service between Montreal and Quebec was inaugurated yesterday, the points ready for operation being Montreal, Longue Pointe, Three Rivers and Batiscan, while Sorel and Vercheres will be added in a day or two. Other points nearest Quebec will be connected shortly.

The service is a telephonic one, the Government having its own special wires. Heretofore the St. Lawrence has been without such a service between Montreal and Quebec, and past experience has been that points on the river have at times been almost as hard to be into communication with as some place on the other side of the Atlantic.

Injured by Explosion.

Farnham, Que., Sept. 14.—Yesterday morning an explosion of about 30 pounds of powder took place in the Canadian Pacific freight shed at Farnham, injuring severely the freight porter, Morrison, burning his face and body and hands. He was immediately taken to the hospital, where he was promptly attended to by Dr. Slack. The explosion, which was heard from a considerable distance, did not do much damage to the building or its contents and the cause of the accident is unknown. The fire brigade was called to the scene, but their services were not required.

No Sunday Sports.

Montreal, Sept. 14.—Archbishop Bruchesi made the announcement yesterday that any sporting events on Sunday would not be countenanced.

This was as the result of a proposed lacrosse match between the Nationals and Shamrocks on Sunday.

Fire Near Whitby.

Whitby, Sept. 14.—On Wednesday evening the barn on the farm owned by Dr. C. F. McGillivray of Whitby, Whitby Township, was destroyed by fire. The tenant, William Hamlin, lost heavily.

Moors Get Ultimatum.

Paris, Sept. 14.—Gen. Drude, the French commander, gave the Moorish tribesmen until this afternoon to visit him and accept the conditions which he specified.

Where Rebels Meet.

St. Petersburg, Sept. 14.—The Council of Ministers has ordered the closing of all the dormitories attached to the institutions of higher learning here and at Moscow, basing its action on the admission of the police that they are unable to prevent them from being used as meeting and hiding places for revolutionists.

STEAMER STONY LAKE or MAJESTIC

The steamer Stoney Lake will leave Lakefield for the lakes on arrival of the morning train, returning in time to connect with 4.50 train for Peterborough.

Steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

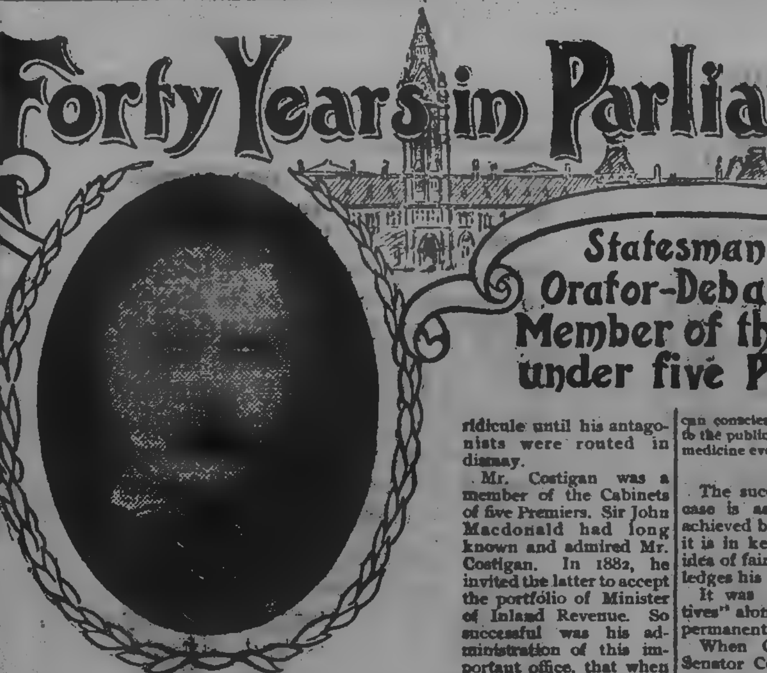
Forty Years in Parliament



Statesman—Orator-Debater—Member of the Cabinet under five Premiers—

FOR several years past, magazines and newspapers have been deluged with achievements in the commercial world. We have read of the barefooted boy who became bank president—of the miner, now a hundred times a millionaire—of the grocer's clerk, who is probably the richest, and the most execrated, man in the world.

The romance of success is not, however, confined to the field of business. Statecraft has its fascinations and its rewards. Canada points with pride to her poor French boy who was knighted by the Queen, decorated with a Knight Commander of the Order of St. Michel and St. George; who is a Privy Councellor; and now holds the highest office in the gift of over six million people—the Premier of Canada, Rt. Hon. Sir Wilfrid Laurier.

Side by side with Sir Wilfrid, looms the figure of one of his ablest lieutenants in many a hard-fought political battle—the Hon. John Costigan, Senator from New Brunswick.

Born in St. Nicholas, P.Q., in 1835, Mr. Costigan accompanied his parents to New Brunswick, where his education was completed. Politics early became his life work. In 1861, he became Register of Deeds for Victoria County and Judge of the Court of Common Pleas. In the same year, he was elected to the Legislature for Victoria.

So great had become his popularity, and so widely recognized his ability, that in the election of 1867, he was returned to Parliament, where he sat until elevated to the Senate last year.

Throughout the latter part of the last century, in campaign after campaign, Mr. Costigan was ever in the public eye. It was as a debater that he early established his reputation. Few, indeed, of the many brilliant men who have been his contemporaries in Parliament, ever cared to cross swords with him in debate. His words were like stabs—keen and piercing—and he hurled sarcasm and ridicule until his antagonists were routed in dismay.

Mr. Costigan was a member of the Cabinets of five Premiers. Sir John Macdonald had long known and admired Mr. Costigan. In 1882, he invited the latter to accept the portfolio of Minister of Inland Revenue. So successful was his administration of this important office, that when Sir John Abbott succeeded to the Premiership, he insisted upon Mr. Costigan retaining the position.

In the same year, Sir John Thompson was called upon to form a cabinet, and the highest political gift in his power—Secretary of State—was bestowed upon Mr. Costigan.

In the cabinets of Sir Mackenzie Bowell and Sir Charles Tupper, Mr. Costigan was Minister of Marine and Fisheries.

His hold on the electors of New Brunswick has been wonderful. Devoted to them and their interests, and they to him, he has served his constituents uninterruptedly in Parliament for forty years.

In 1885, a number of his admirers presented him with a handsome home at 232 Cooper Street, in Ottawa.

Probably the man can best be judged by his own declaration of politics "Loyalty to the Empire, loyalty to the country we live in, and loyalty to its institutions."

Although 72 years of age, Senator Costigan has lost none of his keen wit, nor powers of repartee. He retains his physical vigor, although several years ago he was threatened with serious illness, due to a chronic trouble which had long baffled treatment.

The following letter, written after his recovery, will explain:—

OTTAWA, ONT., 232 Cooper St. Jan. 6th 1906.

You know what fearful trouble I have had all my life time from constipation. I have been a dreadful sufferer from chronic constipation for over thirty years and I have been treated by many physicians and I have taken many kinds of proprietary medicines without any benefit whatever. I took a pill for a long time which was prescribed by the late Dr. C. R. Church of Ottawa. Also for many months I took a pill prescribed by Dr. A. F. Rogers, of Ottawa. Nothing seemed to do me any good. Finally I was advised by Dr. Rogers to try "Fruit-a-tives", and after taking them for a few months I feel I am completely well from this horrible complaint. I have had no trouble with this complaint now for a long time, and I can certainly state that "Fruit-a-tives" is the only medicine I ever took that did me any positive good for constipation. I can conscientiously recommend "Fruit-a-tives" to the public as, in my opinion, it is the finest medicine ever produced.

(Signed) JOHN COSTIGAN.

The success of "Fruit-a-tives" in this case is as noteworthy as the success achieved by the Honorable Senator. And it is in keeping with Senator Costigan's idea of fair play that he publicly acknowledges his debt to "Fruit-a-tives".

It was "Fruit-a-tives"—and "Fruit-a-tives" alone—that gave the Senator any permanent relief.

When Constipation became chronic, Senator Costigan consulted the leading physicians of Ottawa, Montreal and Toronto. After failing to receive any benefit, he sought specialists in London and Paris. But all in vain. Then, after 30 years of suffering, he found not only relief, but a *cure* in these wonderful Fruit Liver Tablets.

"Fruit-a-tives" cure Constipation because they cure the cause of Constipation. When the bowels are irregular—when they do not move for two or three days—it is because the liver is not sending enough bile into the bowels. Bile is nature's only purgative. Calomel, cascara, senna, oil, licorice, liver pills, cathartic pills and mineral water, are simply purges. They irritate the bowels and do more harm than good. "Fruit-a-tives" are a liver tonic. They act directly on the liver. They stimulate the liver so it can secrete more bile, and then invigorate it so that it will give up enough bile to move the bowels regularly and naturally every day. "Fruit-a-tives" cure because they make the liver active and healthy. "Fruit-a-tives" are a true liver tonic and stimulant.

"Fruit-a-tives" are the juices of apples, oranges, figs and prunes, in which the natural medicinal principle is many times increased in strength by the special process of combining them. This is the discovery of an eminent Canadian physician. To the new compound of fruit juices, thus formed, are added rare tonics and internal antiseptics, and the whole made into tablets.

These are "Fruit-a-tives"—nature's only cure for non-action of the bowels. "Fruit-a-tives" also act on the kidneys and skin—and are equally effective in curing Indigestion, Dyspepsia, Biliousness, Headaches, Kidney and Bladder Troubles, Rheumatism, Neuralgia, Skin Diseases, Irritated Heart, Palpitation, Fluttering and Weak Spells, and all diseases arising from impoverished or impure blood.

"Fruit-a-tives" cure. Take them on that assurance. 50c. a box—6 for $2.50. Sent postpaid, on receipt of price, if your dealer does not have them.

Fruit-a-tives Limited, Ottawa, Ont.

The Services In The Churches On Sunday

ST. PETER'S CATHEDRAL.

At St. Peter's Cathedral there will be three masses celebrated—at 8.00, a.m., low mass; children's mass at 9.15 a.m. high mass at 10.30; Vespers at 7 p.m., with sermon.

ST. JOHN'S (ANGLICAN) CHURCH.

Rev. Canon Davidson, M.A., rector, 16th Sunday after Trinity. 8.30 a.m. Holy Communion; 11 a.m. Morning Prayer, Litany and Sermon; 3 p.m. Sunday school and Bible class; 7 p.m. Evensong and Sermon.

ALL SAINTS' CHURCH.

(Anglican) Cor. Rubidge and Sherbrooke streets. Rev. W. Major, rector. 16th Sunday after Trinity. 11 a.m. Holy Communion and Sermon. 3 p.m. Sunday school and Bible class. 7 p.m. Evensong and Sermon.

ST. LUKE'S, THE EVANGELIST.

(Anglican) East side.—Rev. Dr. Langfeldt, M.A., rector. 16th Sunday after Trinity. 11 a.m. Morning Prayer and Holy Communion. 3 p.m. Sunday school and Bible class. 7 p.m. Evenson and sermon.

ST. PAUL'S CHURCH.

Rev. M. P. Talling, Ph.D., will preach at both services. The morning subject will be "Looking Unto Jesus," the evening subject "Three men with a Problem." At the Bible class at 3 p.m., Dr. Talling will tell the story of the "Four Centuries," between the Old Testament and the New Testament, of which no record is given in the Bible. At the mid-week service on Wednesday evening the subject dealt with will be "The Human Side of our inter-communion with God."

KNOX CHURCH.

Rev. Mr. Orak, of Highland Mound, will not preach in Knox church as was previously announced, but Rev. H. J. Keith will occupy the pulpit at both services.

ST. ANDREW'S CHURCH.

Rev. W. W. McCuaig, of Point Levis Que., will preach at both services at St. Andrew's Presbyterian church, to-morrow.

GEORGE-ST. CHURCH.

Rev. E. A. Pearson will preach at both services at the George street Methodist church to-morrow.

CHARLOTTE-ST. CHURCH.

Rev. Mr. Applegath of the Hamilton Conference, will preach at both services at Charlotte street Methodist church.

MARK-ST. CHURCH.

At Mark street church to-morrow Rev. Mr. Coon will preach. His morning subject will be the "Great Teacher," and in the evening he will preach on "Jacob the Supplanter."

MURRAY-ST. CHURCH.

Rev. J. R. Webb will preach at both services at Murray st. Baptist church on Sunday.

PARK-ST. BAPTIST CHURCH.

Rev. A. H. Brace, pastor. Special sermons for to-morrow. 11 a.m., subject, "Life's Crises National and individual." 7 p.m., subject, 'The Potential of Three Realms. Sunday school at 3, with pastor's Bible class. "Moses reading with Israel." Monday B.Y.P.U. rally at Murray street, Wednesday, Public service. Friday, building committee. All seats are free. Hymn books provided. Short, hearty services.

BETHANY TABERNACLE.

Pentecostal services both morning and evening. Pastor Strournagel will speak at each service. The public generally is cordially invited.

GOSPEL HALL.

To-morrow night at seven o'clock Mr. H. A. Fife will address the evangelistic meeting in Gospel Hall. Mr. G. W. Mulligan will give a short song service at 6.45 from the balcony, singing some new favorites. The Sunday school will meet at three in the afternoon. All are invited.

SALVATION ARMY BARRACKS.

Simcoe street, Adjutant and Mrs. Wiggins in charge. Sunday meetings: 7 a.m., prayer meeting; 11 a.m. holiness meeting; 3 p.m., free and easy, 7 p.m. Salvation meeting.

Y.M.C.A.

Evangelistic meeting for men and older boys, Sunday 4 o'clock. Speaker, Rev. W. W. McQuaig, of Montreal. Subject, "The character of Ahab."

LONG TRAMP OF PETERBORO' MAN

Walked From Peterborough to Cobourg and Back Again

Pedestrianism is on the increase. From Peterborough to Cobourg and back again is the latest, this creditable feat being performed by Mr. Alf. Cooney a Peterborough man, well up in years. He is fond of outdoor exercise and having some business to transact in Cobourg, decided to make the trip on foot. He left the Windsor Hotel, at exactly 7 a. m. Wednesday, and walked, via Bewdley, at the head of Rice Lake and Port Hope, to Cobourg, arriving in that town at 4.30, the same afternoon. After getting through with his business, Mr. Cooney, Thursday morning, feeling but little the worse for Wednesday's tramp, once more mounted "shank's mare" and walked the whole return trip, arriving at the place whence he started at an early hour.

This is pretty fair for a man of Mr. Cooney's age, and he is being heartily congratulated.

To-day's Market; Plumbs Plentiful

Large Number of Buyers and Sellers—Good Prices Realized

Today's market was an exceedingly large one, and both buyers and sellers were present in large numbers. The farmers realized good prices and the products of the farm were quickly picked up. Green and blue plums were again today, most plentiful, and the crop this year is evidently a heavy one. They sold at 10 cents per quart or three quarts for twenty-five cents. Butter went up in price today, and a large quantity of it sold at 27 cents per pound. Some only brought 25 cents. The hen fruit was the same as last week, that is 18 cents per dozen. Fowl was also very plentiful. Chickens ranged in price from fifty to seventy-five cents per pair, and ducks from 80 cents to $1.00.

On the outside market potatoes remained a dollar per bag, and pears of which there was a large quantity, sold at 40 cents per peck. Pork was the only meat, and it brought 10 cents and 11 cents per pound.

LOST

If your clothing has LOST its newness send it to "My Valet" and have it Cleaned and Pressed to look like new.

WRECK DELAYS TRAFFIC

Severe Smash-Up on C. P. R. Near Kleinburg.

Cars Splintered Into Matchwood—Engineer and Fireman Hurt In Rear-End Collision at Cayuga—Engine Thrown Off Track—Freight Disaster Near Royal Oak—Neglected Signal the Cause.

Toronto, Sept. 14.—The derailment of a number of freight cars on the C. P. R. line, about a mile north of Kleinburg, last night, beside resulting in considerable damage to rolling stock, blocked the line for passenger traffic, making it necessary to send the Owen Sound train, bound for Toronto, around by way of Teeswater, and to trans-ship passengers bound for points between Toronto and Bala.

Latest reports indicate that the smash-up was a severe one. The freight train was a long one, of about twenty cars. The engine and most of the cars stuck to the rails when the jolt came, but several were smashed almost into matchwood, and their contents, general way freight, scattered about in heaps. One of the cars is lying across the rails.

An auxiliary was sent out from Toronto Junction at 11 o'clock last night, and details generally were meagre. Advices indicated that four or five freight cars were lying beside the track above Kleinburg, 18 miles north of Toronto Junction.

Superintendent Smith, who has supervision over terminals between Toronto and Owen Sound, went to the scene of the wreck immediately on receiving advice of the happening. No one is reported injured.

So completely is the main line blocked that passengers on the Muskoka train, due here about 8.15 p. m., did not arrive at the Union Station until more than two hours later, while those on the Owen Sound train, also due here early in the evening, did not reach Toronto until about 11.40 p. m. The outgoing train for Bala had to be used to convey passengers to Kleinburg, where they boarded the stalled trains in waiting, and were carried on to their journey's end, while the delayed occupants of the other coaches were trans-shipped in the same way.

WRECK IN MICHIGAN.

G. T. R. Freight Crashes Into Another—Nine Cars Smashed.

Detroit, Sept. 14.—The second wreck on the Grand Trunk within two weeks occurred at Royal Oak Thursday afternoon at 2.45, when a Detroit-bound regular freight, running behind a "double-header," crashed into the rear-end of a way freight unloading at the depot.

Nine box cars were crushed to splinters; both engines on the rear train were reduced to a scrap heap. The engineers and firemen barely escaped with their lives by jumping.

The cause of the accident seems to rest in the fact that the semaphore, which should have warned the train behind that the other was still on the division, was never raised into place. Some blame the conductor of the advance freight for this negligence. Others say it was not his business to handle the semaphore.

REAR-END COLLISION.

Wreck on the Wabash at Cayuga Early Yesterday.

St. Thomas, Sept. 14.—Robert Elliott, engineer, and J. McMullen, fireman, both of St. Thomas, were slightly injured in a rear-end collision on the Wabash-G. T. R. at an early hour yesterday morning, near Cayuga.

They were in charge of a light engine when they overtook a freight near Cayuga. Before the engine could be stopped they were into the rear of the freight, the engine being thrown from the track and several cars derailed and damaged.

The engineer and fireman escaped serious injury. It was reported about town that Fireman McMullen had been killed, but the Wabash officials state that both men were only shaken up. The auxiliary left for the scene about 7 o'clock.

DREAM AVERTS DISASTER.

Engineer Saw His Train Running Into Landslide.

Harrisburg, Pa., Sept. 14.—Confidence in a dream probably averted a big wreck on the Northern Central Railroad.

Previous to reporting for duty at the round-house, Engineer Jas. Burd, who hauls the Buffalo flyer, leaving Harrisburg at 11.10 p. m. dreamed that his train had run into a landslide at a point between Dauphin and Halifax, 15 miles from here. He told his dream to several round-house attaches, but they laughed at him.

Engineer Burd, to ease his mind, determined to run slowly after passing Dauphin. So, speeding his train up to the limit till Dauphin was passed, Burd slowed up, and it was well heeded, for at a point some distance north of Dauphin, identical with the place he had seen in his dream, the engine plowed into a landslide. Going slowly, the engineer was able to bring his train to a stop with little or no damage.

Killed in Auto Smash.

Philadelphia, Sept. 14.—President John Runnette of the Metropolitan Bank of this city is dead, and Dr. M. C. Campon, a prominent physician of this city, is seriously injured as a result of the latter's automobile coming into collision with a telegraph pole Thursday.

The men were running at a great rate of speed when the steering gear broke and Dr. Campon lost control of the machine.

Sir Charles Tupper Arrives.

Montreal, Sept. 14.—Sir Charles and Lady Tupper arrived here from England yesterday, coming up from Quebec on the Empress of Britain special.

John Doylen, a former resident of St. Catharines, dropped dead at Queenston.

Higher than Government Standard.

St. George's Baking Powder

"Talk about your Pure-Food Laws! They're not needed when you buy articles like St. George's Baking Powder!"

"St. George's is made of materials *purer* than the law requires."

"The Cream of Tartar used in it is 99.90% pure! The law allows Cream of Tartar, containing from 10% to 15% of lime, to be sold as 'pure'!"

"If you want white, light, wholesome, and delicious biscuits, cakes and pies, St. George's is the Baking Powder to get."

Good recipes, and new ones, will be sent you in a dainty booklet, FREE, on request. Write to-day—as the edition will soon be exhausted. National Drug & Chemical Co. of Canada, Limited, Montreal.

G.T.R.OPERATOR ROBBED

Night Man at Thamesville Held Up by Nervy Thief.

Forced to Give Up Keys at Point of Revolver—Locked In Box Car on Track—Robber Made Escape on Excursion Train But Left Cap Behind — Suspect Arrested at St. Thomas.

St. Thomas, Sept. 14.—John Millen, star pitcher of the St. Thomas ball team last year in the Western League, South African veteran, and at present night operator on the Wabash-G. T. R. at Thamesville, was confronted at 12.30 o'clock yesterday morning with the cold steel of a masked man's revolver.

The operator was alone. Only the tick of the telegraph instruments could be heard, for the midnight robber moved stealthily. So suddenly did he come upon Mr. Millen with his order of "Hands up!" that the latter could do nothing but obey.

The robber then forced the operator, under cover of his revolver, out of the station and into a box car standing near. Millen was then locked in.

The robber was alone and only partially masked. Above the mask Mr. Millen noted that he was of dark complexion and dark hair and dark eyes. He would be between 25 and 30 years, standing about 5 feet 8 inches and between 145 and 155 pounds. The robber wore a dark suit and a light brown cap with dark peak. The cap fell off during his ransacking and in his hurry to get away he left it. The cap may yet prove a clue for the police, who have been notified all along the line.

Answering the robber's description, a man was arrested here yesterday morning on the arrival of an eastbound Wabash train. He was found on the tender of the engine and was at once suspected of the crime. The railway authorities, however, say that though the prisoner may be a pal of the robber, he cannot be the man wanted, as the train on which he came passed Thamesville before the hold-up took place. Moreover, the man under arrest had only 15c on him, and the robber had got away with considerably more than that. The desperado secured $30 in cash and the operator's revolver. The man arrested here by Sergt. Ketchabaw gives his name as E. J. Ross of Woodstock. He was remanded until Millen can identify him.

The hold-up man is probably the same one who operated in a similar way at the M. C. R. station at Ridgetown last week.

MRS. STRANGEWAYS SENTENCED.

Faints on Hearing She Must Stay One Year In Prison.

New York, Sept. 14.—Eva Fox Strangeways, who swindled a number of business houses by bad checks, was sentenced yesterday by Judge McAvoy of the General Sessions Court to a year in the penitentiary. She had pleaded guilty to two indictments for grand larceny.

She was arrested in Toronto some weeks ago, being caught after having swindled several hotels and business houses here. One of her victims was Susan B. Clarke, a dressmaker, from whom she got $180 worth of goods on a bad check.

The young woman, who has been a governess and done some writing for western magazines, expected to get off with suspended sentence, and when she heard that she would have to stay a year in jail she collapsed and had to be carried from court.

PULLED TO HIS DEATH.

Foot Caught In Line and Man Was Dragged Into Water.

Kingston, Sept. 14.—Passengers arriving yesterday morning on the steamer Toronto brought the news of the drowning of a man at Charlotte, N. Y. He was a fireman on the tug Florence Yates of Charlotte. The tug was assisting in turning the steamer around and the fireman's foot caught in the eye of the line. He shouted to those on board that he was caught and the line was let out its full length.

It was supposed that he had been able to free himself from his dangerous position, but when the line was pulled in the deckhands were horrified to see the fireman's body hanging on the end of the rope, his foot being fastened tight into the loop.

Rebels Attack Europeans.

Calcutta, Sept. 14.—Serious demonstrations by seditionists have occurred here. They followed the sentencing to prison of a Nationalist leader who refused to testify in a case in which sedition was charged.

The excitement lasted many hours, great crowds appearing near the courts and attacking the police, including some European sergeants. Other attacks on Europeans are reported, especially in Eastern Bengal, where racial feeling is steadily growing.

Wife Accused of Murder.

Calgary, Sept. 14.—Following the shooting of Owen Fetterman, near Nanton, who some time ago was shot on the side of the head one morning while lying in bed, his wife was yesterday arrested and brought to Calgary on a charge of committing the deed.

Ready for Peace.

Paris, Sept. 14.—Marine Minister Thomson yesterday received a cable message from Vice-Admiral Philibert, announcing that the Chaouia and some of the other warring tribesmen in the vicinity of Casablanca had reopened negotiations for peace.

Broker Arrested.

Winnipeg, Sept. 14.—J. D. Edwards, manager of the Investors' Protective Association, formerly of Toronto, was arrested yesterday by Constable A. E. Morris on a charge of theft in the sale of 5,000 shares of Panhandle Smelter.

A BUSY OFFICIAL

Major C. H. Winslow, secretary of the Millbrook Central Exhibition is very busy these days getting ready for the big fair here on Oct. 3 and 4, which promises to be the best ever held here.—Millbrook Reporter.

Will Decorate the Town of Thamesville

Contract for This Work Secured by Messrs. J. J. Turner & Sons

Messrs. J. J. Turner & Sons are becoming more widely known every day and their fame as decorators is rapidly spreading over the province. They have been given the preference over competing firms in the decorating field by the town of Thamesville and have been engaged to supply the flags, streamers, buntings and other decorations for that place during the days of the fair, September 27th and 28th. Mr. Webber Turner and his competent staff will have charge of the work.

BOY RAN INTO AN IRON FENCE

Nasty Gash Was Inflicted on His Forehead

Paul Creedon, son of Mr. P. J. Creedon, 409 Aylmer street, met with a painful accident at St. Peter's school yesterday. Along with other boys he was playing ball, and in his eagerness to get the ball, he ran into the iron fence, inflicting a nasty gash on his forehead, which required several stitches to close.

Salvation Army Will Raise $800

To Pay for New Instruments Bought by the Band

A meeting of the Census Board of the Salvation Army was held last night. Adjutant Wiggins presided. It was decided to make a special effort to raise $800 within the next few weeks, to pay for the seven new instruments recently bought by the band, and also to cover the cost of having several of the old ones silver plated. Two or three more instruments are yet required. After the money is raised the annual harvest home festival will be held as a thanksgiving.

An effort is also being made to bring Col. Sowton, the secretary of the Army in Canada, to Peterborough to give an address.

NEW ARRIVALS.

Adjutant and Mrs. Osborne, late of Heathley, England, arrived in the city today and are stopping with Mrs. Wilson, Rubidge street. The Adjutant, who has been in poor health, is here on furlough. Adjutant and Mrs. Osborne will be tendered a reception tomorrow afternoon at three o'clock.

MANY LOGS COMING DOWN

Ottawa, Sept. 13.—The number of logs at present in the Ottawa River is in excess of last year, according to the estimations of the Upper Ottawa Improvement Commission. It is estimated that eight million pieces are included in this year's drive. Many mill owners have suffered at times from want of logs, but this was not due to scarcity, but rather to the fact that in the large drive it was difficult to draw out each firm's logs at the same time. The lumber companies, however, loan the product to one another in order that the mills may be kept going.

The Butte copper mines are to be closed as New York complaines of over-production.

FRIDAY AND SATURDAY
Silk Waist BARGAINS

NEW $3.00 SILK WAISTS FOR $1.98

Peterborough Has Many Lawns and Gardens of Much Beauty

Judges of Horticultural Society Made Annual Inspection Yesterday and Noted a Big Improvement over Past Years.

The judges of the Peterborough Horticultural Society yesterday afternoon, made their annual inspection of the lawns, gardens and groundds of those who had entered in the competition inaugurated two years ago. The competition is divided into three departments and three prizes are given ofr each. One department is for lawns, etc., on which the work has been performed entirely by hired labor, then there is class for lawns, etc., which are partially the result of hired labor and partially the work of the owner, and the third class is for lawns, etc., upon which the work has been done entirely by the owner. Prizes of $5, $3 and $1.50 are offered in each class.

Nearly forty premises were inspected yesterday, and many of the lawns and gardens were really beatiful, in fact so many of them were of such a high order as to make the work of the judges, exceedingly difficult.

One of the judges remarked last night that there has been a wonderful change in the lawns and gardens of the city during the past five years. Places that formerly were eye sores have been changed into spots of beauty. A great improvement is noticeable, even over last year. The work of the Horticultural Society, is no doubt responsible to a considerable extent for the change that has been made. The number of entries in this season's lawn and garden competition is considerably larger than last year, and the standard is also higher. This is gratifying to the officers of the Horticultural Society whose object is to beautify the city by improving the lawns and gardens.

The judges will hold a meeting on Monday afternoon, after which the results will be announced.

FALL OF SNOW AT COBALT; A PETERBORO' MAN'S STORY

Slight Fall of "The Beautiful" One Evening This Week and in Morning There Was Ice on Lake Temagami—He Thought Winter Was Coming.

A Peterborough man who has just returned from Cobalt, states that there was a slight fall of snow in the silver country one night this week. In fact, he says the downfall of "the beautiful" was what made him hustle back to Peterborough as he had no desire to stay in a country where winter commenced in the middle of September. The Review's informant stated that he was hunting at Lake Temagami, which is only a short distance from Cobalt and towards evening the atmosphere became very cold, and as night approached, there was a flurry of snow. True, there wasn't a great deal fell, but it was snow just the same and the air was so cold that it did not melt when it reached the ground. Next morning there was a thin coating of ice on the water of the lake, but it soon disappeared when the sun rose.

The Peterborough man wasn't greatly in love with the country, anyway, and when he saw the snow and ice, he soon made up his mind that he would get back to Peterborough, and back in Peterborough he is. He states that it is a pretty rough life at Cobalt, some of the miners being almost as rough as the ground where they prospect for the silver. There are all kinds of people at the silver diggings—good, bad and worse—and it is hard to enforce the law.

Prominent Buffalo Coal Man Prophesies Increase in Prices

Mr. J. H. Clarke, sales agent for the Consolidated Coal and Coke Co., Buffalo, N. Y., and Mr. Sharpe of the Pittsburg Steel Co., Pittsburg, Pa., are enjoying a short canoeing and fishing trip on the Kawartha Lakes. If these gentlemen have good luck in their endeavors to hook the elusive bass and maskinonge of our waters, a larger party of American sportsmen, with piscatorial aspirations will visit the lakes on a future occasion.

In referring to the coal situation, Mr. Clarke said that soft coal had taken a decided jump in price recently, and predicts a stringency in the soft coal market during the coming season.

While Mr. Clarke's interests do not identify him in any way with the disposition of hard coal, he is naturally interested in the hard coal situation, and in touch with matters pertaining to its output and sale.

Mr. Clarke says the hard coal mines are running on short time, owing to the scarcity of water and unless good rainfalls come in the near future the prospects for a large output are anything but bright. At this season of the year, the mining operations should be carried on at full blast and the necessity of having to work short hours is the source of much worry to the mine owners. While Mr. Clarke is not a pessimist he believes in taking as roseate a view of nature as possible, he nevertheless realizes that the coal situation is not as favorable as it might be from either the standpoint of dealer or consumer and thinks that as the season progresses the prices will mount considerably higher than they are at the present time.

Too Much Crowding At the Mail Wicket

Post Office Authorities Intend to Put Stop to Saturday Evening Disorder

Complaints have been made to Col. H. C. Rogers that there has been a great deal too much crowding on Saturday evenings at the wicket where the mail is passed out.

Women and girls while entitled to every courtesy under ordinary conditions, very often make themselves annoying to the men that line up to receive their mail at the wicket. Some members of the fair sex elbow their way into the line of those waiting for their mail and the men naturally surrender and allow them to step ahead of them, and thus get nearer the wicket. This, however, causes endless confusion and on some Saturday evenings the state of affairs is really intolerable. It should be clearly understood that the post office authorities placed the rail in front at the wicket for the purpose of facilitating the approach, and while every consideration for the ladies will be shown while they are in the building and protection offered them on any occasion when it is necessary it is a case of "first come, first served" as far as the handing out of the mail is concerned and no confusion or disorder of any kind will be itolerated.

Attended Medical Association Meet

Dr. J. M. McCulloch Returns From Trip to Montreal

Dr. J. Malcolm McCulloch has returned from attending the annual meeting of the Canadian Medical Association in Montreal. There were about 300 physicians present from the different parts of Canada. Lieut.-Col. Dr. Montizambert was elected president. He is a relative of Mr. A. Montizambert, manager of the Peterborough branch of the Bank of Montreal. Dr. McCulloch says that cerebro spinal meningitis was discussed and the association placed itself on record as being in favor of the isolation of this disease owing to its contagious nature and also expressed the belief that all such cases should be promptly reported to the health authorities. Dr. McCulloch, who is secretary of the local Medical Association, will present a report at the next meeting.

OBITUARY

MISS JENNIE WALSH.

Seldom has the passing away of a young life produced such general sorrow as did the death of Miss Jennie Walsh, eldest daughter of Mr. and Mrs. Robt. Walsh, of the Falls Line, Cavan, on Monday, Sept. 2. Few young persons have possessed or so faithfully used the opportunities of a useful life. She had many friends, and with these her kindly interest, displayed always with thoughtfulness and with tact, will long be lovingly remembered. Combining rare gifts of intelligence with a kindly and genial disposition, her active and energetic nature caused her young friends to look to her as a leader amongst them. She took a large interest in the welfare of her acquaintances, and though length of days was not granted to her, by her deeds of kindness and unselfish spirit she will live long in lives made better by her presence.

Especially in the activities of the church of which she was a life long member, did she put into service her God-given talents. For sixteen years with remarkable faithfulness she occupied the position of organist, relinquishing the duties only when failing health made it necessary. To the Epworth League, of which she was president for some years, she devoted much time and diligent effort.

GENTLEMEN:—

Who demand correct apparel made to their own order, from the finest Imported Woollens of the best British Drapers, are invited to inspect our Extensive Stock of NEW FALL SUITINGS and OVERCOATINGS, VESTINGS, etc. Our Tailoring Department has proved so satisfactory for so many years, that those whom we have fitted before come back to be fitted again.

The newest patterns decreed for the coming season are shown in shades of Browns, Catchy Stripes and Checked Effects, Fine Worsteds, Serges, Fancy Cheviots, Scotch Tweeds, etc., made up to your own particular liking, with the fullest measure of style and value.

H. LeBRUN & CO.

The Race is Open to the Province

Five Mile Marathon at the Lindsay Fair

Owing to an error in the preparation of the bills for the Lindsay fair it is stated that the five mile Marathon race is open to residents of the county. This should have read "of the province," as the race is open to the whole of Ontario. The Lindsay fair will be held on September 19, 20 and 21, and the Marathon will be run on Friday, the 20th. The entire five miles will be run on the track at the exhibition grounds. Peterborough will likely be represented in the list of entries.

MANY CITIZENS WENT TO COBOURG

Fully 300 Left This Afternoon to See the Ball Game

A special train of six coaches, carrying fully 300 citizens, left the G. T.R. station at 1.30 o'clock this afternoon for Cobourg to witness the great ball game for the championship of the Midland league between Cobourg and Port Hope. The excursionists will leave the lakeside town for home about 7 o'clock and are expected here by 8.30 o'clock.

The following is the way in which the teams lined up for the big game:

Port Hope		Peterborough
Surphlis or Hickey	p	Clements
O'Neill	c	Curridge
Kolb	1b	Spence
O'Hearn	2b	Anderson
Winchester	s.s.	Cheatham
O'Brien	3b	Haliburton
Ross	l.f.	Murphy
Benson	c.f.	Burns
Walters	r.f.	Shea

Umpire—Walsh, Toronto.

EVENING BOAT IS WITHDRAWN

Season Drawing to a Close at Stony Lake

The season is drawing to a close at the lakes, although many of the cottagers are remaining for beautiful September. The transient traffic is falling off, however, and today Mr. Young, the steamboat man, notified the Review that in future no boat would meet the evening train from Peterborough. The public are asked to govern themselves accordingly.

A Bouquet for Mr. Jos. Stewart

License Detective Says He is Best Inspector in the Province

Richard Hansen, one of the Government detectives who gave evidence in the cases against the county hotelmen charged with infraction of the liquor license act and whose cases came up before County Police Magistrate Edmison yesterday afternoon, paid a decided compliment to Mr. Jos. Stewart yesterday evening when he said the latter was "about the best inspector in the province of Ontario." And nobody in these parts will deny the truth of his statement.

As Mr. Hansen has been in many towns and cities engaged in the work of detecting breaches of the law by license holders and others and comes in contact with many license inspectors, his opinion is worth something.

Work to Begin on New Church

Excavation for All Saints' Edifice—"Bee" on Tuesday

The men of All Saints' church will hold "a bee" on Tuesday, when excavating for the foundation of the new edifice will be begun.

Several teams have been engaged and the work of getting ready the foundation will be proceeded with as rapidly as possible. The location for the new edifice is on Rubidge street, just south of the present structure. The foundation walls will be completed this fall and work on the side walls will begin early next spring.

ROY

CARTER'S HORSE RECEIVED SHOCK

Fell on George St. To-day But Shortly After Revived

A horse belonging to one of the city carters suddenly fell to the ground at the corner of George and King streets at noon today. It is thought that the animal received a shock by stepping on a car rail, which it is supposed was charged with electricity.

Soon a large crowd gathered, but the animal, after lying for about five minutes, got up almost as quickly as it fell. One of the shafts of the waggon was smashed, and the carter was considerably inconvenienced thereby.

LADIES' AID MET

The Ladies' Aid of St. Andrew's church held a meeting last night. There was a fair attendance, but no business of importance was transacted.

THE CITY AND VICINITY

BOARD OF MANAGERS

An adjourned meeting of St. Paul's church Board of Managers, will be held on Tuesday evening next.

WILL CEASE RUNNING.

After to-day the steamer Empress will be taken off the Lakefield and Stony Lake route.

HIRING MEN.

Mr. George Strain, agent for the Turner Lumber Co., is in the city engaging men to go the the camps.

SATURDAY BIBLE CLASS.

"The Last Conversation on Record" will be studied at the Saturday Bible Club at the Y.M.C.A. tonight at eight o'clock, led by the General Secretary.

NNORGANS TUNED FREE.

Mr. W. H. Baker, the piano and organ tuner and builder, will be in Lakefield for a few days. Now is a chances for the churches. During the past 37 months he has tuned and repaired 457 church instruments free of all charges.—Lakefield NNews.

A BIG CLAIM

The Belleville Ontario claims a population of between 14,000 and 16,000 for that city, and adds: Certainly the residents of Belleville are at present more numerous than ever before in the history of the municipality aand the prospects for a further large increase are very bright ..

LANNDED AT LAST.

One of the largest lunge caught in the Kawartha Lakes this season was hooked in the river, below the Point, on Labor Day. The beauty was caught by Mr. Joseph Harvey, who lives at the Point. The fish tipped the scales at 34 pounds. Mr. Harvey had some difficulty in landing the fish, and had him up to the boat some ten different times before he could use his billy.—Lakefield News.

A BUSY HEN.

An unusual occurrence took place on Mr. Jas. Baptie's' farm in Smith this summer. A hen made a nest in a tree near the barn and hatched out nine chicken, all of which she successfully raised. Mr. Baptie was unaware of the hen having a nest in that particular spot until one day he noticed several chickens around the tree that had fallen out of the nest. There must be something of a bird about that hen.

WILL TAKE TRIP.

If the weather be favorable next week, Mr. H. S. Holcroft intends to take a trip down the Trent Canal to Peterborough on his steam launch. —Orillia Times.

THE CHARACTER OF AHAB.

Rev. W. W. MacQuaig of Montreal, will be the speaker at the evangelistic meeting for men and older boys at the Y.M.C.A. on Sunday at four o'clock. His subject will be "The Character of Ahab." All are invited. Special music.

THE STEAMER "DAWN."

The Lindsay Post has the following additional information regarding the "Dawn" which has been purchased by Mr. Richard Sheehy — "The Dawn was at one time the property of the late Robert Thexton, of this town and was afterwards purchased by the late John A. Ellis of Fenelon Falls, where the boat has been plying."

AT AL LSAINTS'

Owing to the illness of Rev. Wm Major, the celebration of Holy Communion at the 11 o'clock service in All Saints' church tomorrow has been withdrawn. The usual morning service will b eheld, and also the evening service, which will be conducted by Mr. F. H. Perry.

A LARGE LUNGE.

On Friday evening of last week Mr. Joseph Watson hooked, and successfully landed a 22 1-2 lb. lunge, opposite the government dock. The big fish gave him quite a time, and it was only after a hard struggle that Mr. Watson was able to land it into the the canoe. The spot where the fish was captured seems to be a regular resort for lunge as a considerable number have been caught there during the past year or so.

GIFTS TO LIBRARY.

Bobcaygeon Public Library is in luck, having just received two cash bequests of $20 each from Mr. Hamilton of Youngstown, N.Y., and Mr. J. H. McGill of Washington, D.C., who spend the summer months on their houseboats at various points on the Kawartha Lakes. The grants were given "in recognition of the agreeable treatment they had received from the citizens of Bobcaygeon during the season."

VACANT OFFICES WERE ALL FILLED

George St. Sunday School Board Makes Appointments

At a meeting of George street Sunday school Board last evening several new officers and teachers were appointed to fill vacancies.

Mr. Ed. Mann was elected treasurer in the place of Mr. Art. Mann, who has gone to Toronto. Mr. R. B. Pearson was appointed assistant secretary of the school, and Mr. W. Morrow, a librarian. The places of several teachers will also be filled.

In reference to the $300 granted to both George street and Grace church Sunday schools for libraries by the Nicholls estate trustees, it was decided to invest the $300 donated to George street, a new library not being required at present. With respect to Grace church school, it was agreed that $120 out of the $300 should be expended on new books, and the remainder invested until required. Owing to the absence of Supt. S. R. Armstrong, Rev. E. A. Pearson, the pastor, presided at the meeting.

WEDDING BELLS

HUTCHINSON—BURTON

HUTCHISON—BURTON

St. John's church was the scene of a quiet, but pretty wedding at two o'clock this afternoon, when Miss Celia Laura, daughbter of Mr. and Mrs. Edward J. Burton, of Toronto, was united in marriage to Mr. Chas. J. Hutchison, of Toronto. Rev. Canon Davidson officiated. The bride, who was given away by her father, wore a handsome empire gown of of ivory crepe de chine, yoke and bolero of rose point and duchess lace, with tulle and honitan lace veil, and wreath of orange blossoms. She carried a bouquet of roses and lillies of the valley.

Miss Maud Hutchison, of Guelph, sister of the groom, acted as bridesmaid. She was prettily gowned in point de sprite, ovr pink silk, and carried pink roses.

The reception was afterwards held at the home of the brides' sister, Mrs. W. Oscar La Belle, 418 Charlotte street. Mr. and Mrs. Hutchison left for a short wedding trip, after which they will reside in Toronto.

The groom's gift to the bride was a diamond ring, and to the bridesmaid a handsome amethyst brooch set with pearls. Guests were present from Toronto, Guelph and this city.

LAKEFIELD FAIR

The Annual Exhibition of the Lakefield Agricultural Society will be held in the fine new grounds of the Society in Lakefield, on Tuesday and Wednesday, September 24 and 25.

The buildings and grounds have been much improved during the present summer and the track for speeding has been put into excellent shape.

The speeding in the ring promises to be first-class and the Society has granted good purses in the Free-for-All and 2.30 Class.

For prize lists and entry forms, etc. address W. SHERIN, Sec'y., Lakefield Ont.

The 3 year-old son of Allen McMillan, of Morley, was found drowned in a post hole.

Not So Much

Please do not put quite so much Red Rose Tea in the teapot as you do of other kinds. If you do the tea will be too strong.

Red Rose Tea combines strength with that rich, fruity flavor which has made it famous.

You are sure to like it. Will you order a package from your grocer?

RED ROSE TEA

City Teachers Said Good-Bye To the Departing Inspector

Mr. Duncan Walker Presented with Appreciative Address and Handsome Travelling Bag—Genuine Regret Expressed at His Leaving—Recipient Refers to Pleasant Relations Existing During Past Ten Years.

At the close of the school hours yesterday afternoon, the teachers of the city public schools gathered at the Central school to say farewell to Mr. Duncan Walker, who leaves on Monday to commence his duties on the teaching staff of the London Normal school. During the past ten years, that Mr. Walker has filled the position of inspector, the teachers over whom he had control held him in the highest esteem and it was with feelings of deepest regret that they assembled to bid goodbye to a dear friend. Not feeling content to allow their principal to leave without in some manner showing their appreciation of his unfailing kindness towards them, Mr. Walker was made the recipient of a beautiful sea lion travelling bag, and an address eulogistic of his many excellent qualities.

Mr. W. H. Walker, principal of the North Ward school, acted as chairman, and after a few introductory remarks, called upon Mr. Wm. Smith, principal of the Central school, who read the following address,—

Dear Mr. Walker,—It is no mere matter of form when we say that we learned with deep regret that you had resigned your position as inspector and supervising principal of the public schools of Peterborough.

Your integrity of character and courtesy have increased our respect and esteem for you with the advance of time, and when we think of severing our associations with one so talented for wisely [illegible] not only in matters pertaining to the profession in general but in matters affecting our schools in particular, we do indeed keenly feel our loss, and we hope and trust that the gentleman appointed to follow you in this important capacity may prove a worthy successor.

We thank you for your wise counsel which was at all times so freely given and in all cases seasoned with sympathy and justice.

But as "sunshine follows rain" we take pleasure in the thought that your eminent success during ten years sojourn in Peterborough is but an index to your still greater success in the more extensive field of usefulness which you have undertaken, and should it be your lot to return to Peterborough, as an educator and citizen you will meet with warm welcome by the teachers of the public schools. And before saying farewell we ask you to accept this Travelling Bag which we trust may remind you of the well-wishers of the teaching staff, over which you have so long and so efficiently presided, as inspector and supervising principal.

Signed on behalf of the teachers of the public schools of the City of Peterborough.

Miss G. S. Davidson, mistress of the South Central school, made the presentation.

Mr. Walker, although greatly surprised made an appropriate reply. He said that after bidding farewell to the teachers during the day, words fail to express what his heart contained. He was sure the appreciative references contained in the address were well intended, but he felt that he did not deserve them. He looked upon Peterborough as his home and thought, ten years ago, when he accepted the position as inspector, that his education work would end in this city. Why further honor in the way of being appointed to a position on the Normal school's should be shown him he did not know. It came quite unexpectedly and was unsought. During his years of service in Peterborough he had always been accorded the utmost courtesy by the teachers. If he had said quick words, and he knew he had, they were not intentional, but rather the evidence of an impetuous nature. It was very gratifying to him that he could carry away, the goodwill and appreciation of the teachers of Peterborough. There was no remuneration half so valuable to him, as the fact that his labors had been appreciated. Progress in educational work is slow, and the speaker regretted that he could not remain to see the consummation of what he had sought, that is Peterborough an educational centre.

The Board of Education sees that if good work is to be done they must pay large salaries for the best teachers.

With the new King Edward school, the enlarged North Ward, and the new Collegiate Institute, this city would be well equipped with splendid school buildings. Mr. Walker paid a high compliment to the members of the school board. He said that while they often desired to do more for the teachers, they were restrained from doing so, for different reasons. He also referred in the highest terms to his successor, Mr Mowat of Brockville. He knew him well and was with him at college.

The schools had good pupils. This was largely due to the tact and ability of the teachers. The departing inspector expressed his willingness to assist the teachers at any time he might be of service to them. Again thanking all for their kindness, and wishing them every success in their work he resumed his seat.

Time did not permit for any of the other teachers to speak, but the chairman added a few words of regret.

Mr. Walker visited the schools during the day, and bade farewell to the pupils and teachers.

The leather travelling bag was of sea lion with gilt trimmings, and was purchased from Mr. Benjamin Shortly. It being the handsomest bag procurable.

Mr. W. H. Darcy Was Fined $50 and Costs for Breach of Act

Found Guilty on Charge of Selling After Hours on Evidence of Departmental Detectives—Judgment on Another Charge Against Him Reserved by the Court—Cases Against Arthur G. Lawless Enlarged for Two Weeks.

The charge against H. W. Darcy, proprietor of the Park Hotel, Burleigh Falls, of selling liquor during prohibited hours on Thursday, August 1st, was heard before County Magistrate Edmison at the court house yesterday afternoon, and after its disposal, Darcy was also tried for the alleged offence of selling liquor to an Indian, John Jacobs, by name. He was found guilty of the first charge on the evidence of Government Detectives Hansen and Belleau, and fined $50 and costs, the minimum amount for offences of this character.

The magistrate said, in imposing the fine, that while he realized the Government of Ontario were undoubtedly fair-minded and just in their dealings, and did not wish to have any acts that were mean or underhand committed by their agents in any department, he hardly approved of the methods the detectives pursued in order to obtain convictions, and was of the opinion that on many occasions when the license holders broke the law, they did so under the strongest provocation.

Mr. W. H. Moore, who conducted the case for the Crown, took exception to his Worship's remarks, and had Mr. Ayerst, the provincial inspector, who was present in the interests of the license department, go into the witness box and explain the attitude of the Government toward the license holders. He said that the detectives were instructed not to use questionable means of securing liquor during hours in which its sale was prohibited, but to be on the lookout for any infractions of the Liquor License Act, and to inform the inspector of the riding in which they or anyone else were given intoxicants during hours when their sale was unlawful. He said it was necessary for license detectives to travel under assumed names or otherwise their identity would be made known to license holders throughout the province.

On the charge against Mr. Darcy of selling liquor to an Indian on August 3rd, judgment was reserved by the court. The defence contended that Jacobs who, judging from his appearance, has Indian blood in his veins, belongs to no particular band and although he lives on the Chemong Reserve, is not on the books of the Indian agent, Wm. McFarlane, and draws no annuity from the Government.

Mr. Moore argued that he was undoubtedly an Indian, while Mr. Jas. Haverson, K.C., Toronto, who appeared for the defendant, said that he was not an Indian within the meaning of the Act, and was not recognized as one by the Government, inasmuch as he was not on the books and was not granted any privileges or concessions given to Indians and was not a member of any band.

A second charge that was laid against Mr. Darcy, and of the same character as the first, was dropped by the Crown. This offence is alleged to have been committed on August 2nd.

The cases against Arthur G. Lawless, who was alleged to have sold liquor at his hotel in Lakefield on August 3rd, at the hours of 6.25 p.m., 6.35 p.m. and 6.45 p.m. were proceeded with when those against Mr. Darcy had received the consideration of the court.

The two last cases against Mr. Lawless were enlarged for two weeks and judgment was reserved in the first one.

In giving evidence in the first case against Mr. Darcy, License Detective Hansen said he was at Park Hotel, Burleigh Falls, on August 1st. He remained there until August 3rd. On August 1st he purchased a bottle of whiskey in the bar after ten o'clock at night. The bottle was produced in court, with marks on the label that witness said he made at time of purchase. The bottle was procured from the proprietor's brother and witness paid $1.25 for it.

WALTER BELLEAU

Hansen's official "pal" corroborated the evidence of his brother detective.

Mr. Haverson said that these detectives induced men to break the law and asked for the lowest possible fine in the absence of any defence.

Mr. Moore said that the Crown did not wish to be exorbitant, but simply insisted that offenders be punished.

His Worship then imposed the minimum fine, of $50 and costs.

In the hearing of the charge of supplying liquor to an Indian, one John Jacobs, on August 3rd, also preferred against Mr. Darcy, Hansen, the license detective, was again the principal witness for the prosecution. He saw the bartender of the Park Hotel serve Jacobs, the Indian and two white men, with three "beers." Jacobs drank the beer in company with the others. One of the white men paid 15 cents for the treat. Witness said he simply judged that Jacobs was an Indian by his appearance and by the fact that he acted as a guide.

Belleau once more bore out the accuracy of Hansen's testimony.

Wm. McFarlane, agent for the Chemong and Rice Lake Indians, said he knew Jacobs personally. The latter lives on Chemong Reserve but is not on agent's books and draws no annuity from the Government. He does not belong to any band.

Dan Whetung, jr., whom Mr. Haverson styled "as an intelligent Indian," said he was secretary of the Chemong Band. He knew Jacobs, but did not know where he was born. Jacobs has not privileges such as granted members of the band.

Mr. Haverson, in summing up, said there was no evidence to show that Jacobs was an Indian, and cited a precedent established by Police Magistrate Dumble, when the latter threw out the case brought against a local hotelman for selling to an Indian, on the ground that the red man belonged to no band, and received no Government concessions, and was therefore placed in the same category as a white man.

Mr. Moore said that Jacobs had every appearance of being an Indian, lived among Indians all his life, followed the Indian mode of life, and undoubtedly was of Indian blood.

Jacobs himself, upon being called, styled himself a white man.

After counsel had summed up, the magistrate reserved judgment.

Wm. Quinn, of Lakefield, gave evidence in the case of the Crown vs Lawless, for an alleged breach of the Liquor License Act, on August 3rd, as to the time he became occupant of the hotel, formerly kept by Mr. Lawless. This case was adjourned at the morning session of the court, in order that Mr. Quinn, who had not originally been served with a subpoena, might be brought to court for the purpose of giving his testimony. It was claimed by Mr. Lawless that he was not the proprietor of the hotel at the time the offence with which he is charged, was committed.

Mr Moore, acting Crown prosecutor, put Mr. Quinn through a strenuous cross-examination, concerning the date upon which he received monies from the hotel and assumed the proprietorship. He endeavored to prove that the lease granted Mr. Quinn was not in effect at the time of the offence, but that the latter had simply signed the agreement of transfer.

Mr. Haverson looked after the interests of Mr. Lawless.

Judgment in this, and the two other charges against Mr. Lawless, for alleged breaches of the act, which

The Woodmen Will Unveil Monuments

Impressive Ceremony at Little Lake Cemetery To-morrow Afternoon

A beautiful and impressive ceremony will take place tomorrow afternoon to the Little Lake cemetery at three o'clock, when the members of Sherwood Forest Camp, No. 50, Woodmen of the World will unveil two monuments erected by the order and dedicated to the memory of the late Sovereigns, Richard Foster and Fred Wyatt. Among the visitors of prominence who it is expected will be present and take part in the unveiling will be C. C. Hodgins, M. P.P., of Lucan, Head Counsel Commander; W. C. Fitzgerald of London, Head Clerk; C. Cinnamon, of Lindsay, Head Advisor; L. H. Taylor, of Brantford, Head Manager; Deputies J. F. Millar, of London; R. Copeland, of Millbrook, and others.

The members of Sherwood Forest Camp, will meet at their hall tomorrow afternoon at 2.30 o'clock, and march to the cemetery in a body, the unveiling of the monuments taking place at three o'clock. The public is cordially invited to attend.

BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 82, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child, the chances are, it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

WAS SIGNATURE FORGED TO NOTE?

Interesting Case Came up in Lakefield Division Court

An interesting case came up in the Lakefield Division Court before His Honor Judge Weller this week. It seems the Traders' Bank entered a suit against a prominent Smith township farmer to recover $150 on a promissory note which was made payable to and discounted by a resident of that village. The defendant, when placed in the box, stated that he had no recollection of giving such a note, declared that he had never signed it, and that the signature was a forgery. Owing to the absence of the man to whom the note was made payable, and who discounted it at the bank in Lakefield, The case was enlarged until the next sitting of the court when it will come up for trial.

C.O.F. Bridgenorth Have Annual Trip

Over 200 Go on Excursion to South Beach

On Wednesday last the Bridgenorth C.O.F., held their annual excursion going by steamer Otonabee, to South Beach, Stony Lake. There were over 200 who took in the trip, which was a success in every particular. Two hours and a half were spent at the Beach. The excursionists dined at the South Beach hotel and after dinner there was dancing, sports, etc., and the party reached home about 8 p.m.

The outing was a most enjoyable one and great credit is due Messrs. Scott, Jobe and Tully, the enterprising committee in charge of affairs, for the satisfactory manner in which they made the arrangements in connection with the excursion.

They Have a Great Many Convictions

One of the license detectives, who gave evidence in the liquor cases yesterday, in conversation with the Review, stated that he and his fellow worker have been particularly successful in the cases they have brought against hotelmen for breaches of the Liquor License Act. They have covered a good deal of ground this season and, the Review's informant said, have had a great many convictions. He said no hotel could refuse to accommodate him or any of his associates in the work of detecting breaches of the Liquor License Act, for the department, under penalty of a $50 fine.

were also dealt with by the magistrate, was reserved.

Occupy Rooms In Baptist Church

Havelock School Board Undertakes Continuation Class

The Havelock Standard says:—School opened last week with all the old staff in charge, and the continuation class conducted by Mr. P. S. Banes, late of Crediton, Ont. The latter class consists of 22 pupils already and more are expected to join soon. Mr. Banes taught all last week and will this, in the building adjoining the Presbyterian church, formerly occupied by the primary class, but he will soon be located in the school, in the room now occupied by Miss Warren's class.

The Baptist church has been rented by the Board, and the primary class in charge of Miss Kelly, and the Sr. II class in charge of Miss Treleaven, will occupy this building, which is admirably adapted for the purpose. Miss Warren is in charge of Part I and II classes and will also teach French to the continuation class every afternoon from 3.45 to 4.30 for which extra work she will receive the sum of $50. Miss Day is in charge of her former room while Miss Buchanan is in charge of the Jr. and Sr. III classes.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. E. F. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Boy Was Nearly Choked to Death

Piece of Apple Stuck in Throat of East City Lad

Joseph Evelyn Stewart, the 12-year old son of Mr. Joseph Stewart, East City, had a narrow escape from choking to death yesterday afternoon, and for a time, had his parents in a state of anxiety. The young lad, on returning from school took an apple and started eating it. Evidently taking too large a "bite," the piece stuck in his throat. He was unable to remove it, and it caused him considerable pain. Before it was got rid of he had to go and see a doctor who removed the obstruction.

Mr. Brownlee Has Gone to Ottawa

Takes His Automatic Outfit and Knife and Ring Board

Mr. Charlie Brownlee has gone to the Ottawa Exhibition and has taken with him his automatic vaudeville equipment and knife and ring board. Mr. Brownlee is a good showman and will probably return with a considerably augmented bank account. He will likely play some of the smaller eastern fairs but has not yet definitely decided whether he will do so or not.

SATURDAY, SEPT. 14, 1907.

THANKSGIVING DAY

The date of Thanksgiving day has been fixed. This year it will be observed on Thursday, October 31st.

The Commercial Travellers' Association asked that the day be changed to a Monday. They urged that the selection of Monday would enable them to spend the time at home with their wives and families. The choice of Thursday for Thanksgiving Day was a great hindrance to the trade of the country. Travellers were stranded far from their headquarters and unable either to do business or get home to spend the day. It after all makes very little difference whether Thanksgiving is observed in a national sense on a Monday, Tuesday or Thursday, so long as the true object and real purpose of the day are not lost sight of. The day is in no sense a holiday—but a holy day, set apart for returning thanks and expressing gratitude to a benificent Creator for the many mercies and blessings vouchsafed during the past year. There is some danger that if Monday is chosen the people may be inclined to combine Sunday and Thanksgiving, and make of Monday a holiday. This should not be. Thanksgiving is an obligation, a duty, a privilege. In this age, when commercialism, selfishness and greed appear to be growing, we should turn our thoughts to higher and better things. There is not one of us so circumstanced but what he or she has something to be thankful for. It may appear only a trifle, but, no matter how we have suffered, how sadly we have been disappointed, how disastrously our ventures have turned out, or how much affliction we have been called upon to endure, there are others who have drunk more deeply of the cup of sorrow, who have felt the poignancy of grief more keenly, or who have met with greater reverses than we have. All knowledge is largely gained by comparison and contrast and in remembering and reviewing the blessings of the past year, though there may have been many set backs, yet on the whole, individually and collectively, Canadians have every reason to rejoice and remember with appreciation that no other land enjoys as many advantages as Canada. In no other part of the wide globe are law and order better enforced, nowhere is there a brighter outlook. The general spirit of contentment prevails to a greater degree in this fair Dominion than in any other clime. Our people are more moral and healthy, more prosperous and devout in spirit. They cherish high ideals and conceptions of citizenship and patriotism are broadening. The Sabbath is well observed, churches and charities are liberally supported, the poor and ailing are carefully looked after. Industrial strife and socialistic discontent have not reared high their heads, except in isolated instances, all people that herein do dwell are goodly and God-fearing. We want more reverence and more true religious sentiment—more of the spirit and life of the Master—to strengthen us in our daily walk and in working out our high ideals. We have been prospered as a land and as a people. We do not want to overlook the fact that from Him cometh every good and perfect gift. We must not change Thanksgiving day into a holiday. We must keep its true, genuine purpose to the forefront and not seek to break in upon its observance with feast and merry-making. Rather let us fill our churches, and with praise and prayer forget not that without the Christ who came to seek and to save a ruined and lost world, we in our weakness and narrow limitations can do nothing. We want more of the life of Him who through all ages has been our Father, counsellor and friend.

Lest we forget; lest we forget.

PEN POINTS

Have you felt the present financial stringency? Well, rather.

Help along the Canadian Club movement. It is a worthy organization.

Peterborough is probably the largest city in the province without a Canadian Club. Its time this was changed.

The apple crop this year is going to be a thirty p.c. one. Fault of weather or so many school boys robbing orchards?

The barbers of Lindsay have agreed that on and after Sept. 16th the price of hair cutting will be 20 cents, and the long-haired residents of Lindsay are sure to raise a row.

The date of the legislative bye-election in Brockville is October 7th. Mr. Donovan will be the Conservative candidate. He is certain to redeem the riding as he is an exceptionally strong candidate.

The need of an isolation hospital is being felt more and more and nothing has been done or is likely to be done this year. How long will this state of affairs continue? Will it go on forever?

Mr. Borden's tour is growing in enthusiasm and widespread interest. At Dunnville he had to address two meetings and still scores were turned away. Mr. Borden's trip has had all the heartiness and warm appreciation that could possibly be displayed even if in the thick of an election campaign.

Apparently nearly every other man was after the job of caretaker and messenger of the City Hall. Forty-five applications were received and only one could be appointed. There seems to be a certain indefinable attractiveness about a civic position that the ordinary man cannot resist. In this case it certainly was not the salary, which was placed at $450 per year.

The leviathian Lusitania of the Cunard Line has smashed the ocean record by six hours and twenty-nine minutes, covering the distance from Queenstown to New York — 2780 miles—in five days and fifty-four minutes. Pretty soon the ocean speed will soon be increased to such an extent that we can take a trip over to Old London, have tea and return in time for work the next day.

The Toronto Star (Liberal) endorses the plank in Mr. Borden's platform with reference to the national ownership of telegraph and telephone lines and adds: Public opinion in favor of the nationalization of telegraphs and telephones seems to be practically unanimous. Then why not go ahead and nationalize them? Mr Borden is certainly not the author or originator of the idea, but what does that matter? If he is willing to turn in and help, let his help be accepted. The matter of apportioning credit for the reform is less important than getting it done. Let the Dominion Government proceed at once to nationalize the telegraphs and telephones on fair terms, and its name will be forever and inseparably associated with that good enterprise.

As has been frequently pointed out, there is nothing alarming in the idea. If it is Socialistic the carrying of the mails by the Government is Socialistic. Moreover, the Government already owns thousands of miles of telegraph line that do not pay, and there is surely nothing alarming in the proposal that they shall acquire lines that will yield a profit.

CONVENTION TO SELECT CANDIDATE

Durham Conservatives Will Meet at Newcastle on October 9

Port Hope, Sept. 13.—A special meeting of the Durham Liberal-Conservative Association will be held at Newcastle on Wednesday, October 9th, for the purpose of nominating a candidate to contest the constituency at the next election.

Mr. D. Burke Simpson, of Bowmanville, is the Liberal candidate.

Recommend Appointment of Robert Wilson as Janitor

Property Committee Came to This Decision After Considering Forty-Five Applications Last Night—It Was No Easy Task.

For two hours last night the Property Committee of the City Council wrestled with the problem of appointing a janitor for the city buildings. The outcome of it all was the decision to recommend at the meeting of the council on Monday night that Mr. Robert Wilson be appointed to the position of janitor of the city buildings, and messenger at a salary of $450 per year, the work to be performed under the direction of City Clerk Armstrong and the chairman of the Property Committee.

There were fifty-five applications for the position, so it can easily be understood that to pick one man from this list was no easy task. City Clerk Armstrong had lightened the burden, however, by putting the names down in tabulated form along with the pith of their qualifications for the position, as contained in the respective applications. Many good men applied for the position and this was what made the task of selecting one so difficult. After discussing the matter for over an hour and securing as much information as possible about the different applicants, the number left in the ring was four. This looked better and the committee kept up the good work until it was unanimously decided to recommend the appointment of Mr Wilson and as it is not likely that the council will reopen the matter again, in all probability Mr. Wilson will get the position.

Since applications were asked for the position the members of the property committee have been called upon by many of the applicants with the request that the alderman 'would do his best for him.' The mayor had about fifteen callers of this kind during the past few days and the other members of the committee almost as many. The decision to engage Mr. Wilson was not unanimous at first, several of the committee having other preferences, but Mr Wilson's application had more in favor of it than any other, and finally it was made unanimous. The fitness of the different applicants for the position in question was carefully considered and, as Mr. Wilson had five years experience as janitor of the Y.M.C.A. and had excellent recommendations, as well as being well fitted in other respects, it was agreed that he would be satisfactory in every respect.

Many of the applicants were natives of England who have recently settled in Peterborough. Many of them had excellent recommendations but few of them were known to members of the committee, and in this respect the applicants who have been residents of the city for several years, had an advantage.

It was decided that it would be necessary that the janitor should be under the direction of some one person and the conclusion was arrived at that he should receive his orders from the city clerk or the chairman of the property committee.

Mr. Wilson lives on McDonnel-st. and is employed at the Wm. Hamilton Co.'s works.

The members of the committee present were Ald. McIntyre, chairman, Mayor McWilliams, Ald. Elliott, Stevenson, Morgan and City Clerk Armstrong

A Curious Freak in Shape Of An Eight-legged Kitten

Discovered By Master Charlie Poulsom Last Evening —Attracted Much Attention at Veterinary Office.

Yesterday evening about six o'clock in the woodshed adjoining the residence of his father, Mr. R. E. P. Poulson, Smith township, Charlie Poulson, aged 14, found a monstrosity, in the shape of an eight-legged kitten. This feline curiosity lived but a few moments after coming into the world.

The "wee puss" was brought to the city by Mr. Poulson and taken to Dr. Johnston's veterinary office where it was viewed by a number of persons and was the object of much examination and comment.

A veterinary authority who was present stated that animal freaks of this character are not common, but said that rare instances of abnormal developments of a similar nature have been recorded.

Mr. Poulson took the kitten home with him and will probably have it "alcholized."

Two other kittens that made their appearance in this world of trouble and dogs at the same time as the "octopede" are natural in every respect and are very much alive and mewing lustily.

Bright Prospects for Formation of Canadian Club in Peterboro'

The Movement is Gaining in Strength—Many Prominent Citizens Express Themselves in Favor of the Organization—How It Will be Managed.

Discussing the prospects of the proposed Canadian Club in Peterborough, one of the prime movers in the matter today remarked to the Review: "I believe that the club will be a success, and that the membership will be large. I have met with great encouragement. The aims and objects of the organization are pretty well known. As I understand it, the membership fee would be only $1.00. Then meetings would be held fortnightly, which would be addressed by eminent gentlemen who are leaders in art, science, literature, finance and discovery. There will be no political or religious subjects discussed, as a Canadian Club is strictly non-political and non-denominational in character, except in a national sense, and it is truly national in the fullest and best meaning that the term implies. The meetings are usually preceded or followed by a luncheon, and are held sometimes during the noon hour or early in the evening, when the members assemble in a large hotel dining room or restaurant. The evening meetings are preferable as more of the members can generally attend. The speaker of the evening usually limits his address to an hour or less, and the luncheon does not take more than half an hour. The evening meetings usually begin at eight o'clock and would be all over by ten. They are in no sense a banquet. There are no speeches except the address of the evening, and that is, as stated, not long enough to tire anyone. I have in my mind the names of several prominent Peterborough gentlemen, whom I am sure it would be a pleasure to hear. We would have an address by Hon. Geo. A. Cox on "Banking," Mr. Ryerson Ritchie, now of Detroit, on "American Business Methods," Mr. J. W. Garvin on "Cobalt and Canadian Mining." Then there are Mr. E. R. Wood, of Toronto; Mr. G. F. Shepley, K.C., of Toronto, and many other former residents of this city, on topics which I am certain would be instructive and profitable. We should invite Dr. Goldwin Smith, Prof. Shortt, of Queen's University, Kingston; Mr. J. S. Willison, Hon. Adam Beck, Principal Gordon, of Queen's University; Mr. C. R. McCullough, of Hamilton, the father and founder of Canadian Clubs, and a host of others whom I am sure would be delighted to come, as Peterborough is centrally located and is easily reached by mail.

Now, as to the cost of membership—just a word on this subject. None of the speakers are paid. They are not of that class which accept remuneration. They are merely allowed their expenses in the shape of railway fare, which would not be large, as the distance to travel is not great, and the guest of the evening is generally entertained while here by some member of the club, so that in the category of expenses there is rarely, if ever, any hotel bill. The annual membership would be $1. This would be sufficient to cover the travelling expenses of a talented speaker each fortnight, there being only two meetings a month. The luncheon would cost each member about thirty-five cents, and he would, to use a slang expression, get his money's worth in the edibles provided, not to speak of the intellectual treat in store for him. I anticipate the membership of the club would reach 200. There are no club rooms to rent or keep up, and another thing I might mention is, that the expenses of a speaker often do not have to be borne. Eminent gentlemen are often in the city on private business or sight-seeing, and the club could take advantage of their presence here to invite them to address the gathering—a privilege of which they would gladly avail themselves."

300 Miles of Double Tracking

Expected to be Ready to Take Out Crop This Year East of City

A Winnipeg despatch says:

Officials of the Canadian Pacific Railway, who are in close touch with the double tracking operations east of the city, state that the present season has been entirely favorable to the work in hand and rapid progress is being made at all points along the line. It is computed that by the time the frost puts an end to the work of the year, 300 miles of track will be in use in the transportation of the crop of 1907 eastward to Fort William.

This portion of the line will be in many different sections, but it will all be in use, and will be of the greatest service to the company in the operations of the fall. The force of men at work at the present time is the largest that has been engaged at any time since the opening of the work.

Officials of the company also stated that there was no possibility that the work would be begun in connection with the double tracking west of the city this year. A double track between this city and Portage la Prairie would be a great boon to the company at the present time, but it is expected that the line will have been built west to the Portage by the fall of 1908.

As soon thereafter as possible it is anticipated that the double track will be extended west to Brandon and ultimately further west.

WATERWORKS DEPT. HAS BEEN BUSY

A Mile and a Quarter of Mains Dug—Work About Completed.

The waterworks digging gang have been very busy this season and have done their work with dispatch and satisfaction to those who have had water services. About a mile and a quarter of mains has been completed. It is expected that all work in connection with the placing of the services and the excavating of the mains, will be completed well before the frost sets in. One of the officials of the department wishes to urge upon those desiring services in the future, to send their orders in as early in the year as possible, so as to avoid the necessity of rushing the work as the season progresses and further enabling the department to more systematically carry out their operations.

C. P. R. POINTERS

The annual western excursions, via Canadian Pacific, to Detroit, Saginaw, Bay City, Grand Rapids, Chicago, etc., takes place, good going Sept. 19, 20 and 21st, good returning until Oct. 7th. See advertisement in this paper.

More farm laborers wanted in the northwest. Another excursion leaves Peterborough on Sept. 17th, regular train. Fare $12.00 to Winnipeg, $18.00 additional for return, under usual farm laborers excursion conditions.

For the Ottawa Exhibition the Canadian Pacific will issue return tickets at single fare, good going Sept. 13th to Sept. 21st, inclusive, except special days, Sept. 17th, 19th and 20th, when round trip tickets will be sold at the low rate of $3.05. All tickets good to return until Sept. 23rd.

The next Homeseeker's Excursion to Manitoba and the Northwest, takes place on Sept. 24th. Intending passengers should reserve berths in tourist car, early for this excursion.

Ocean tickets sold either to or from Great Britain, via the celebrated C.P.R. Atlantic Steamship Lines steamers, Empress of Britain and Ireland. Unsurpassed accommodation for all classes on these magnificent steamers. Tickets sold also via Allan Line, or Dominion Line.

For all information and tickets call on W. McIlroy, Passenger Agent, C. P. R., 343 George street, Peterborough.

BIG RALLY OF YOUNG PEOPLE

Will be Held at Murray St. Church on Monday Night

A big rally of the young people of the city will be held on Monday evening next at the Murray Street Baptist Church. All members of young people's societies in the city are cordially requested to attend. Rev. C. H. Schutt, pastor of Century Church, Toronto, and Rev. L. McKinnon, pastor of Gilmour Memorial Church will speak.

This will be the last opportunity which the citizens of Peterborough will have to listen to Mr. McKinnon, who leaves shortly for Calvin, North Dakota, where he has accepted a call.

Refreshments will be served at the close of Monday evening's rally.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Executive Meeting Was Adjourned

Nothing Doing at O. R. F. U. Committee Assembly in Toronto Last Night

At the meeting of the O.R.F.U. Executive at the King Edward last night Mr. T. W. McDonough, secretary of the local club, was representative for Peterborough, There was nothing definite done pending the decision of the Hamilton Tigers and argos as to what league they will play in this season.

Following is from the Toronto Globe:—The O.R.F.U. Executive met at the King Edward last night, and after a lengthy session decided to adjourn for a week. The Argonauts and Hamilton Tigers are expected to decide in the meantime whether they will play in the Interprovincial League or stick to the old ship.

Those present were:—President G. Ballard, in the chair; W. H. Seymour, Hamilton; T. W. McDonough, Peterborough; W. A. Hewitt, Argonauts; W. J. Slee, Victorias, and Secretary J. B. Hay

The only business done was to appoint Messrs. Wm. Slee, Joe B. Hay and Geo. Mara the Junior Committee.

Alley Bowling Will be Popular

Bowling, or "ten-pins" promises to have more devotees in Peterborough this winter than ever before. Already the Majestic alleys on Water street resound all evening with the sound of the rolling balls and tumbling pins, and as the season advances the activity is sure to increase There is a movement on foot to have a bowling league formed this winter and to wind up the season with a tournament in the spring. There is plenty of material for four or five good teams, and a league would, without doubt, serve to increase the interest. Bowling is a fine game and is rapidly becoming more popular in Peterborough. The Peterborough men made a splendid showing at the international tournament in Toronto last year, when the best bowlers in the country competed, which goes to show that this city has its share of top notch bowlers.

BASEBALL

CHAUCER A WINNER.

The Oswego baseball nine of 1907, are champions of the Empire State League. The official standing of President Roach, the local records and the satisfied expression on the faces of all Oswego fans, proclaims the fact, "Oswego wins the pennant," is heard on every hand. Manager "Chaucer" Elliott and his team are the recipients of congratulations on the showing made.

RUGBY

LOOKS GOOD FROM HERE

The officers of the O.R.F.U. are watching the new football union developments closely, and as soon as the result of the next meeting is known a meeting of the executive will be called to proceed with the season's work. The officials of the Ontario Association do not anticipate any evil results from the formation of the new union as the O.R.F.U. senior series will not be injured in any way. The senior series will be maintained, and in a stronger manner than it has been for some years. The series will be composed of six clubs, divided into east and west. The eastern district will be composed of Peterborough, Kingston, and Brockville or Gananoque, while the Toronto Victorias, Dundas and London will form the western district.

THE TURF

Yesterday at the driving park Black Cloud, Hazel Bell, Lulu Chimes, and a green horse, owned by N. Nicholls, Lakefield, worked out. All the horses stepped in good form, and the track was in good condition.

Serious Assault Was Committed

Three Men Attacked Hotelman in Tweed and Escaped

Mr. Arthur Freeman, night clerk at Huyck's Hotel, Tweed, was the victim of a most disgraceful and brutal assault early yesterday morning in which he received severe injuries.

It seems according to Mr. Freeman's story, that late Tuesday night a man named Reneau, entered the hotel and demanded a drink, but as it was after prohibited hours, Mr. Freeman refused his request. He left, making threats to which very little attention was paid.

It is one of Mr. Freeman's duties to meet the incoming trains, and he was standing waiting for the 3.30 a. m. C. P. R. train to pull in, when, he says, his arms were suddenly grasped by Reneau and another unknown man, while a third party, said to be Phil Simmons, struck the imprisoned man several blows in the face. Mr. Freeman, however, succeeded in throwing off his captors and drawing a revolver, threatened to shoot the first man to come near him.

The whole affair was over so quickly that no assistance could be rendered. Fortunately Dr. Burrows, of Marlbank, was on the train when it arrived and he gave the injured man immediate attention. He found the victim had sustained a broken nose besides other severe injuries.

As soon as Mr. E. R. Huycke heard of the occurrence, says the Tweed News, he advised Justice of the Peace Davis, and asked that a warrant be issued for the arrest of Phil Simmons but the magistrate refused to go to any expense to secure his arrest, unless Mr. Huyck would guarantee the cost. Reeve Bowlby who is also a Justice of the Peace, was consulted by Magistrate Davis, and agreed that costs must be guaranteed by Mr. Huyck. The latter then had to take the matter in his own hands and wired the police in Peterborough, to be on the outlook, as it was thought the men had boarded the west bound express. The action of our local magistrates has caused a good deal of unfavorable comment.

Mr. Freeman is now under the care of Dr. Robertson, who reports him out of danger.

The Boys' Club of Knox Church

Officers Elected at Meeting Last Night—Social Time Spent

At a largely attended meeting last night the Boys' Club of Knox Church was organised. A constitution was read and adopted, officers elected and other business transacted. The following were the officers elected;

Hon. President—Rev. H. J. Keith.
Hon. Vice-President—H. Wilkie.
President—W Perks.
Religious Vice-Pres.—W Byers.
Literary Vice-Pres.—L Ingram.
Missionary Vice-Pres.—W Taylor.
Social Vice-Pres.—F Coleman.
Sec.—R Thompson.
Treasurer—W Shannon.

After the business had been disposed of a jolly little social was held, which the boys greatly enjoyed. Cake had been furnished by the ladies of the congregation, and there was a plentiful supply of ice cream.

OBITUARY

WM. WEBSTER.

The death occurred in Orillia on Thursday last of Wm. Webster at the advanced age of seventy-five years. The late Mr. Webster was formerly a resident of this city. He removed from here to Orillia twenty years ago.

The funeral took place to-day on the arrival of the 11.45 G.T.R. train to the Little Lake cemetery.

Lindsay Wants New Locks Built

Col. Sam Hughes returned Monday evening from Ottawa. The Colonel says that the Department of Railways and Canals has assured him that the strip of canal between Lindsay and Sturgeon Lake will receive proper attention "this year." Tenders are now to be called for a new dam at Bobcaygeon and the work will be pushed forward. It is also hoped that tenders will be called for the construction of a new dam and locks at Lindsay, the work to be proceeded with next year. — Lindsay Watchman-Warder.

Clothing Of A Woman Found Concealed Under Lumber Pile

Strange Discovery Near the Creek on Townsend Street Made by Twelve-Year-Old Boy—Has Wearer of the Apparel Committed Suicide?—No Clue to the Deep Mystery.

A startling discovery that is shrouded in the deepest mystery, was made this morning in this city when Robt. Scullie, a lad 12 years old, found concealed under a lumber pile near the creek on Townsend street, a parcel which, when opened, was found to contain a number of articles of lady's apparel.

Who put the parcel there or why it was placed there is unknown, and although a number of suppositions have been made as to what it was laid there for, the real one has not yet been revealed. The police were notified of the discovery and are investigating the matter.

A Review reporter called at the residence of Mr. Wm. Bourne, 211 Rink street, this afternoon and Albert Lightheart, Mr. Bourne's grandson, who is a playmate of young Scullie, in a conversation said, "I noticed Bob Scullie and two or three men from the packing house standing near one of the lumber piles and they appeared to be examining something. I hurried over to them and there in a newspaper lay a bundle of lady's clothes, including a pair of black boots."

Scully just accidently noticed the parcel while playing.

The scribe then went with the lad around to the shed where the clothes were shown him. They included a navy blue skirt, a pale blue and a light green underskirt, a short fawn jacket and also a black one, with two large pearl buttons on it, which were particularly noticeable. The skirts were not long and suggests that they were the property of a short person. They were fairly good and evidently belonged to a young lady. The coats were good, up-to-date and looked as though they had not been worn a great deal.

A lady's pair of boots, the lower part patent leather, and considerably worn, completed the list of articles found.

A visit was next made to the scene of the discovery. Immediately to the east of that portion of the creek between Townsend and Rink streets are three lumber piles. It was under the third one south of Townsend that the parcel was found.

That it has not been there long is evidenced by the fact that the lumber has only recently been piled there.

In the immediate vicinity of the pile the creek has dried up, but not one hundred yards away the stream is over five feet in depth.

It is the opinion of several people that some poor unfortunate woman has ended her life by committing suicide.

The whole affair is shrouded in mystery, but the police are investigating. It is to be hoped that it will soon be cleared up. The police have not received any reports of missing persons or cases of suicide during the past few days.

Union Teachers' Class Will Be Conducted Every Week

A meeting of the city Sunday school Association was held in the Y.M.C.A. last evening. Mr. R. Lees, president, presided and there was a good attendance. It was decided after some discussion to open a union teachers' class. This class will meet every Friday evening when the lesson for the following Sunday will be taught to teachers and Sunday school officers only. There will be twelve leaders for the first three months, a different leader having charge each week. The lessons will all be considered from various view-points. Such meetings cannot fail to be of much interest and help to the Sunday school teachers of Peterborough and will fill a long felt want. An attractive programme will shortly be issued outlining the work and speakers for the next three months.

Mr. Culverwell Visits Hastings

Hastings Star says;—Mr. J. Alex. Culverwell, Managing Director of the Northumberland and Durham Power Company, was in town on Friday in the interest of his company. Mr. Culverwell has made arrangements for supplying power to both Norwood and Havelock, as soon as his power station is in operation, but Hastings has power of her own right at her door, and will not likely have any need of any from outside. The Northumberland-Durham Power Company, who have the power right at Healey Falls, intend building a race some 4,200 ft. long from the dam at the falls to their power house, which will give a head of some 40 feet, and will be able to supply power to all the towns along the front from Port Hope to Deseronto.

This Preacher Must Have Pull

New York, Sept. 13.—The Herald has received the following despatch from Worcester, Mass.: The power of prayer is a general topic of comment today, because rain spoiled the New England Fair, after the Rev. Orson E. Mallory has prayed for such an event, because some of the concessionaires worked on Sunday.

The officials, who admit, the fair, will end with a $6,000 loss, are very unhappy. The farmers and the general public, disappointed at not being able to see the fair, are criticising the clerical petition for rain. The concessionaires who paid for ground privilege, and whose work last Sunday in getting their tents and booths ready, called down the wrath of Mr. Mallory, are also disturbed.

Mr. Mallory says he did pray for rain, the rain came, and he is glad of it.

Mr. Mallory, who is pastor of the Dewey street Baptist church, heard early Sunday morning that the men were hard at work on the fair grounds. He offered a prayer at the morning service that the Lord would send rain to spoil the fair and punish the officials for allowing Sunday desecration.

Rain came promptly on Monday and on Tuesday there was more rain. The downfall came in a perfect flood yesterday and today the fair officials admit the enterprise is a rain-soaked failure.

A LINDSAY BOY

The many friends of Mr. Bert H. Hopkins, B. A., Sc., will be pleased to learn that he has been appointed to the staff of the Toronto University as demonstrator in electrical engineering. The appointment was made yesterday by the Board of Governors, upon the recommendation of the new president, Dr. Falconer. —Lindsay Post.

CANADIAN NEWSPAPER DIRECTORY FOR 1907

We have just received from the publishers, A. McKim, Limited, of Montreal & Toronto, a copy of the 1907 edition of the Canadian Newspaper Directory.

This is the fourth edition of this valuable work, which is filling a very real need in Canada, and deserves a place on the desk of every business man. It is the only Newspaper Directory published in Canada, that has gone beyond a first edition, and it has now become the standard work of reference for all information about newspapers.

It not only lists and describes fully every periodical in the country, giving full particulars, but it supplies as well, a comprehensive gazetteer of the Dominion.

Comparing this edition with former ones, we note a large increase in the number of papers which have supplied detailed statements of circulation, supported by affidavit, and thereby received the "Star of Honor." This is as it should be, and helps to put newspaper advertising on a more businesslike basis. The rapid growth of the new western provinces is very apparent, for they are credited with fully twice as many papers as in 1905.

The McKim Advertising Agency, publisher of this work, has been formed into a limited company, capitalized at $200,000, to be known as A. McKim, Limited, with headquarters in Montreal, a branch office in Toronto, and representatives in New York and London, Eng. This change has been made to facilitate the handling of their steadily increasing business.

Ever since this business was founded by Anson McKim, more than twenty years ago, the McKim agency has stood high in favor with both publisher and advertiser. Their methods are right up-to-date — enterprising, progressive and systematic to a degree.

This firm has won an enviable reputation for fair dealing and prompt payments, and is undoubtedly at the head of the profession in this country.

Just Figure out the Cost

What's the use of putting up a barn that will last only ten or twenty years, when, for the same money, or even less, you can build one that is good for a generation at least, and is *lightning-proof, fire-proof and water-proof?*

Use "Acorn Quality"
Corrugated Galvanized Sheets

and both price and quality will be right. They will cost no more than an all-wood building. The process of corrugating, renders the sheets so rigid that a lighter frame may be used, than with any other structure. Sheeting boards are quite unnecessary and only wood strips are required.

Then, the cost for labor in applying Corrugated Sheets, is, by actual test, less than half what it would be for wood shingles. The economy effected by labor, sheeting boards, and lighter frame-work, more than makes up the difference in cost between present day wooden shingles and our "Acorn Quality Corrugated Galvanized Sheets.

Our lightning proof barns are in almost every locality in Canada. We will mail you, on request, a list of users in your own county. Get *their* opinion. 44

STORY OF HARDSHIPS.

Alleged Ill-Treatment of Men in the Lumber Camps.

La Presse of Montreal in a recent issue devoted three pages to a thrilling story of hardships said to have been encountered in the lumber camps at MacDougall's chute, and Driftwood City, in New Ontario.

That lumbermen are half starved, robbed of their wages, ill-treated by their foremen and threatened with fire arms if they dare resist is hard to believe.

Still that is what a reporter of La Presse, who spent two weeks in the wilds, declares to be true. He interviewed a large number of shantymen. Before they reached the camp they say they had to travel 600 miles with dry bread and cheese as their only food. During their long trip on a slow train they were not even given water to drink.

Before arriving at camp after tramping through the woods for miles without food they were relieved of their written contracts and subjected to altogether different treatment.

The men say that the company will not take cash to settle any indebtedness for board, railway fares or any other expenses, but demand that the men work till they have evened up accounts, and the company invents all kinds of charges to keep the men at work.

A party of workmen once tried to escape, but were run down by private detectives and marched back to camp under cover of guns.

Food of a bad quality is supplied, they say, and scores of cases of exorbitant charges for necessaries of life are recorded. The price even of postage stamps is increased.

A gang of Italians newly arrived at Driftwood wanted to purchase rubber boots before they started to work in the swamps. The company refused to let them have any, however, before they had earned them in work. The Italians insisted, and some of the clerks tried to disperse the crowd with revolvers. The Italians drew knives, and one of them had a rifle. The company furnished the footwear.

Hon. J. J. Foy was asked if his attention had been called to the story of La Presse.

He said it had not, but some time ago similar representations were made to the Dominion Government regarding the treatment of a number of Austro-Hungarians employed by the contractors building the extension of the Temiskaming & Northern Ontario Railway. Col. Sherwood, chief of the Dominion police, referred the complaints to Attorney-General Foy, who sent a special commissioner to McDougall's Chutes to investigate.

The report of this officer has been sent to Col. Sherwood.

WHY SCOTCHMEN SUCCEED.

Some of the Best Immigrants Canada Receives.

Admiral Lord Charles Beresford, in a recent speech, gave a breezy description of the characteristics of Scotsmen and why they succeed in life—a description of which was the more interesting in that it came from an Irishman, says P. T. O. The Scot, said Lord Charles, is one of the most hard-headed men in the world. He pays the greatest attention to detail. He has proverbial honesty of purpose. He is absolutely straight in his dealings. He has indomitable energy. The Scot is very business-like in his methods, and in many cases he possesses exceptional ability so far as mechanical skill goes. These characteristics of the Scot are the characteristics that have brought the Empire to the place it occupies at the present time. Lord Charles Beresford adds that Englishmen and Irishmen have similar characteristics, but these distinctive qualities are essentially Scottish, and that is why Scotsmen all over the world have advanced to the great positions in every sphere of activity.

It was under a Scotsman that Lord Charles served three years of his apprenticeship to the sea as a midshipman; namely, Sir Houston Stewart, who was one of the finest seamen who ever trod deck. Another great admiral whom he remembered in his early days was Sir Alexander Milne, familiarly known as "Sandy." Recently Lord Charles was over upon business in Canada. One day he saw two trains arriving with emigrants for this country, and he said to the mayor of Calgary, "What lucky people you Canadians are!" because in these trains were the finest specimens of Scotsmen and North of England Englishmen he had ever seen, full of energy and full of go.

Repairs are being made to the Auburn dam by the owners, the Auburn Woollen Mills Co. A gang of men are at work making various improvements that have become necessary.

DISCUSSES "ALL-RED" ROUTE.

Will Benefit the Whole Empire, Says Hon. L. P. Brodeur.

"The question of the 'All-Red Route'," said Hon. L. P. Brodeur, Canadian Minister of Marine and Fisheries, "is of the utmost importance to the British Empire. It is a subject upon which all politicians, irrespective of party, are unanimous. I notice that not a single opposition paper in Canada has adversely criticised Sir Wilfrid Laurier's proposal."

"It is not Canada alone, but the whole Empire, that will benefit by the All-Red Route. We are struggling in favor of the scheme, but it must not be thought that we are seeking it solely in order to benefit ourselves. Need I reiterate that the projected improved steamship service will bring the distant parts of the Empire nearer to the Mother Country.

"Commercially and strategically, the 'All-Red Route' has advantages over the Suez Canal route, and it must prove of enormous advantage to the Empire. Canada is, in a sense, prepared for the day when it will be an accomplished fact, and when she will be linked up more effectively with New Zealand and Australia on the one hand and with the British Islands on the other.

"We are building a second transcontinental railway—a Grand Trunk—which will have as its termini ports probably Prince Rupert town on the west and Halifax on the east. According to the terms of the contract it must be completed by 1911, and by then we hope that the inter-Empire route will have passed beyond the realm of probability.

"The question is a big one, and we in Canada do not expect that a scheme so far-reaching can be settled off-hand in a few weeks. I have heard nothing that would lead me to think that there was a tendency on the part of the British Government or a section of the Ministerialists to disavow the approval given by Lord Elgin at the Conference. I understand that a committee of the British Ministers is now at work considering the project, leaving the question of the subsidies to be considered at a later date by a conference composed of representatives of the Home and various Colonial Governments interested. I cannot for a moment believe that either Sir Henry Campbell-Bannerman or any member of the Liberal party has an intention to oppose an undertaking which would be of such great value to the commercial prosperity of the British Empire."

Murder Through Ignorance.

In the case of the Indian chief and medicine man in the Keewatin district taken to Norway House for murdering a squaw of their tribe supposed to be possessed by an evil spirit, or Wendigo, it appears the prisoners were appointed by a meeting of the band to which they belonged to put an end to the unhappy victim of savage superstition. The woman was sick and afterwards became delirious, and the Indian belief is that when this happens the Wendigo has entered the afflicted person, and if the latter afterwards dies a natural death, the evil spirit escapes to the woods and the game takes fright and disappears and famine results. The report received by the Indian department states that the band assembled according to established usage, and "the high honor" of choking the squaw to death in order that the spirit might remain imprisoned in the corpse was accorded to the chief and medicine man. The two executioners, therefore, placed a piece of canvas around the squaw's neck, with a noosed rope, and tightening the rope, the ravings of the poor demented creature were stopped and the band was satisfied that the evil spirit remained safely imprisoned and that the game in the woods would not disappear. News of the affair coming to the knowledge of the police, the chief and his assistant were taken into custody, the band protesting that what had been done was the custom of their fathers, and they did not know it was wrong, and asking for leniency.

The Sycamore Tree.

The sycamore has been called the Egyptian fig tree. The date of its being planted in England is not known, but it was very early. Mary, queen of Scots, brought over from France a young sycamore, which she planted in the gardens of Holyrood, and from this have sprung all the beautiful groves of sycamores now to be seen in Scotland.

Uncle Sam's Twigs.

The biggest job of gardening undertaken by the government is the planting and growing of little trees, 5,500,000 of which are now being produced every year for setting out in the various forest reserves.

LEAN YEAR FOR ONTARIO.

Because of Scarcity and High Price of Feed.

Under the caption, "A Lean Year for Ontario" the Weekly Sun says: Roughly, we have nine million acres devoted to the various field crops grown in Ontario. Of this total, about three million acres are in hay, and two and three-quarter millions in oats. Thus well over sixty per cent. of the entire acreage given to field cultivation is in these two crops, and these two main crops are the poorest in many years. Hay will not give over two-thirds of the tonnage per acre this year that has been harvested in recent years—probably not over half. Oats are likely to be nearly 35 per cent. below the average yield, and this is equivalent to cutting off twenty-five million bushels on this one crop alone.

On the other hand, the hay which has been harvested has been exceptionally well saved, and corn, which can be largely substituted for hay, has of late been making splendid progress, while the area in this crop is larger than usual. There is only about one-sixth the acreage in corn that we have in hay, but the tonnage per acre is six times as great in one case as in the other. If we have an open fall, thus permitting of the full maturity of the corn, the increased yield in this crop may pretty well offset the shortage in the other coarse fodder.

Peas, which had been steadily declining in acreage up to 1904, have since shown a rapid increase, and the area in this crop in the present season will probably be one-fourth greater than that of three years ago. At present, the promise is for an excellent yield in peas. Barley again, of which we will probably have 800,000 acres this year, seems as if it will go somewhat above the average in yield per acre. If the season had been a normal one for all fall wheat we would probably have had eight hundred thousand acres in this crop, but a great deal of the land intended for the production of fall wheat has been drilled in with barley, and this, while it means a shortage in flour, will add considerably to the available supply of feedstuffs. But after all allowances are made, there will undoubtedly be a material shortage in feed in 1907, as compared with recent years.

So far as grain is concerned Ontario will, as our correspondent "Vim" said recently, have practically none for export this year. Our dependence in products for sale will have to be on butter and cheese, bacon and beef cattle, and the cost of making these will be higher than usual because of the high values which will undoubtedly be placed on feedstuffs.

On the whole, this will be a lean year for Ontario farmers.

COLD STORAGE IS NEEDED.

Why Canadian Produce Does Not Reach Manchester.

James Ruddick, addressing the Manchester Produce Association recently, assigned the cause of the decline in exports of Canadian butter and cheese to Manchester's lack of a reliable butter cold storage steamer to Manchester. He had seen excellent arrangements for the storage of Australian and New Zealand meat, and thought similar arrangements might be made for the preservation of Canadian produce. The Canadian authorities appreciated the validity of the complaint regarding Canadian cheeses that had been shipped in a "green" state, and were doing their best to remove all cause of dissatisfaction.

J. B. Dodall said he desired to assure Canadians of English sympathy in these efforts to extend trade, but pointed out that in business matters sentiment was of no avail. R. Graham wished to know if the Canadian authorities were disposed to assist in the provision of a cold storage place on this side as the Australian people had, and was it true that Canadian farmers combined to restrict supplies and so keep up prices? Mr. Ruddick said it was not the policy of the Canadian Government to establish storage outside the Dominion. Regarding farmers combining, there was no truth in Mr. Graham's suggestion.

Beef Monopoly in Manitoba.

Strong evidence has been given before the commission engaged in the investigation of the alleged beef combine in Manitoba of large railway rebates on heavy consignments in carloads to the east. In this and in other ways large dealers have established practically a monopoly, squeezing out the small dealers and causing high prices in the province. The railway commission may therefore be expected to take up the question of railway rebates and deal with it on the same principle of equalizing the conditions that they have applied to discriminations in general freight rates over the Canadian roads from western points to the ocean shipping ports in the east. In regard to the lumber combine in the northwest, which has caused such hardships to settlers desiring to establish themselves and build homes of their own in the new provinces, the Government of Alberta has taken the matter in hand and has ordered legal proceedings to be taken against the members of the combine.

Notice of appeal having been given by the Grand Trunk Railway against the order of the railway commission for a 2-cent passenger rate between Montreal and Toronto, the new schedule cannot go into force until the appeal is decided by the Supreme Court of Canada. If the decision of that court goes against the company leave to carry the case to the final tribunal of the empire, the judicial committee of the privy council in London will be asked for and granted, as the Government also desires the judgment of and permanent settlement of the question. The appeal is of importance for the reason that if the Grand Trunk is forced to carry passengers between the two points named the Canadian Pacific must in self-defence do the same, and public opinion will demand the application of a similar rate to other companies and generally throughout Canada, and will make it imperative.

Dr. Kenneth N. Mackenzie, aged 23, son of Mrs. Geo. Mackenzie, of St. Thomas, died in Ottawa of diphtheria.

DR. BROWETT'S DATES

For September at his Home Office, 390 George Street, Peterborough, Wednesday 11th to Saturday 14th inclusive; for October, 9th to 12th. Dr. Browett is teaching Opticians all over Ontario the modern methods of eye examination for Glasses, the fitting of Artificial Eyes, etc. Appointments are only made at

McDermid & Jury's Drug Store, Peterborough

Could Not Eat With the Judge

Hotelkeeper Fined for Excluding Guests at Uptergrove

On the day of the last sitting of the Division Court at Uptergrove, Mr. Jacob Jolliffe of Millington, called at the hotel, and told the proprietor, Mr. McNulty, that he wanted his dinner. He was informed that he would be served in due time—that is to say, after His Honor Judge McIntyre, the members of the Bar, and the Court officials had appeased their hunger. It appears that it has been the practice at Uptergrove to exclude the public in this manner from the dining room. Judge McIntyre having expressed his unwillingness to be placed in such a position that he might be compelled to listen to litigants discussing their cases, or commenting on his judgments. Mr. Jolliffe took offence, as a hungry man might, at the treatment to which he was subjected, and appears to have made complaint to the Inspector of Licenses. This official laid information against McNulty for neglecting to accommodate his guests as required by the law, and the case was heard before Mr. Phillip McRae, and Mr. Michael O'Donnell, J.P.'s, the result being a conviction and fine of $20. Mr. A. J. Reid of Cannington, appeared for the inspector, and Mr. John Mulcahy, of Orillia, for the defendant, McNulty. An appeal is talked of.

It appears that the practice of excluding the public from the dining room of the only hotel in the village while the judge and lawyers dine has for a considerable time been a sore subject with persons having business at Uptergrove on Court day, and naturally the present case has aroused much interest.

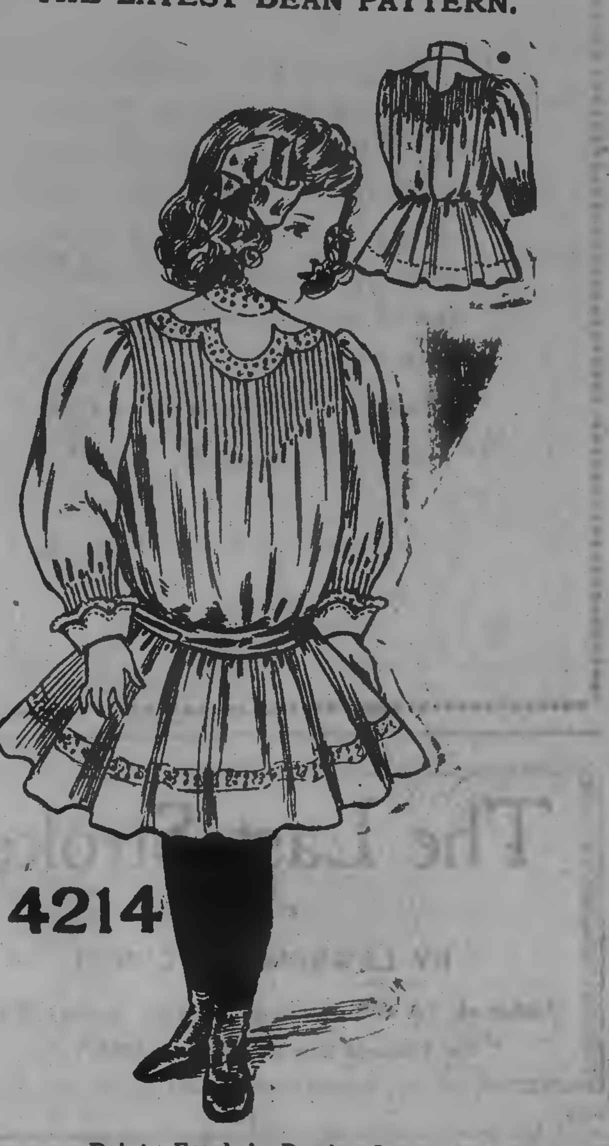
MR. HALL'S OFFICE

The office of F. J. A. Hall, Secretary of the Exhibition, will be at Storey & Leary's, Water street, from now to the time the entry list closes. He will be there every afternoon from 1.30 to 6, and all day on Saturday.

THE LATEST DEAN PATTERN.



Dainty Frock in Persian Lawn

Some of the daintiest frocks are to be seen in French organdie and Persian lawn and one of unusual charm is shown. A small fanciful yoke of lace and insertion completes the neck most attractively, to which the full waist is closely tucked. The long-waisted style is one of the most pleasing of present modes and here it appears very graceful the waist blousing a bit all round. The skirt is a straight gathered one attached to the waist. Tucks retain the fulness of the sleeve at the wrist and further adornment may be added by the pretty cuff. A ribbon sash may complete the frock if desired. The medium size calls for 3 3-4 yards of 36 inch material.

4214.—Seven sizes, two to eight years.

The price of this pattern is ten cents.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

R. H. LEARY,
PRESIDENT

F. J. A. HALL,
SECRETARY

PETERBOROUGH,
September 4th, 1907

MR. W. H. HILL,
City

DEAR SIR,—I am pleased to acknowledge receipt of Dividend Certificate, in Sun Life, for the five years ending 1906, in which I notice that you have added to my Policy $55.00 profits. This is certainly a satisfactory showing, and looks like doing business in a profitable way.

Thanking you for your advice, I am,

Yours truly,

R. J. KIDD,
Manager R. Neill's Boot and Shoe Store

The Last Stroke.

BY LAWRENCE L. LYNCH,

Author of "A Woman's Crime," "John Arthur's Ward," "The Diamond Coterie," "Against Odds," Etc.

"Of course," she began, "it was only natural, or so it appeared to me, that we should become friends soon, meeting, as we must, daily, and being so constantly brought together, as upper and under teachers in this little village school. He never seemed really strange to me, and we seemed thrown upon each other for society, for the young people of the village held aloof, because of our newness, and our position, I suppose, and the people of the hotels and boarding houses found, naturally, a set, or sets, by themselves. I grew up in what you might call a religious atmosphere, and when I knew that he was a minister of the gospel, I felt at once full confidence in him and met his friendly advances quite frankly. I think we understood each other very soon. You perhaps have not been told that he filled a vacancy, taking the place of a young man who was called away because of his mother's illness, and who did not return, giving up the school at her request. It was in April, a year ago, that he—Charlie—took up the work, coming back, as I did, after the summer vacation. It was after that that he began telling me about himself a little; to speak often of his brother, who was, to his eyes, a model of young manhood and greatly his intellectual superior."

She paused a moment, and then with a little proud lifting of her rounded chin, resumed.

"I was not quite willing to agree as to the superiority; for Charles Brierly was as bright, as talented and promising a young man, as good and as modest as any I ever knew or hope to know, and I have met some who rank high as pastors and orators."

"I can well believe you," he said with his eyes upon her face, and his voice was sincere and full of sympathy.

"We were not engaged until quite recently. Although we both, I think, understood ourselves and each other long before. And now, what more can I say? He has told me much of his school days, of his student life, and, of course, of his brother's also. In fact, without meaning it, he had taught me to stand somewhat in awe of this highly fastidious, faultless and much-beloved brother, but I have heard of no family quarrel, no enemy, no unpleasant episode of any sort. For himself, he told me, and I believe his lightest word, that he never cared for any other woman; had never been much in women's society, in fact, owing to his almost constant study and travel. Here in the village all were his friends; his pupils were all his adorers, young and old alike were his admirers, and he had room in his heart for all. No hand in Glenville was ever raised against him, I am sure."

"You think then that it was perhaps an accident, a mistake?" He was eyeing her keenly from beneath his drooping lashes.

"No!" She sprang suddenly to her feet and stood erect before him. "No, Mr. Ferrars, I do not! I cannot. I was never in my life superstitious. I do not believe it is superstition that compels me to feel that Charles Brierly was murdered of intent, and by an enemy, an enemy who has stalked him unawares, for money perhaps, and who has planned cunningly, and hid his traces well."

CHAPTER VI.

"Give me a few moments of your time, doctor, after your guest has retired for the night."

For more than two hours after his parting with Hilda Grant, Ferrars had talked, first with Robert Brierly alone, and then with the doctor as a third party. At the end the three had gone together to look upon the face of the dead, and now as the doctor nodded over his shoulder and silently followed, or rather guided Brierly from the room and toward his sleeping apartment, the detective turned back, and when they were out of hearing, removed the covering from the still face, and taking a lamp from the table near, stood looking down upon the dead.

"No!" he murmured at last, as he replaced the lamp and turned back to the side of the bier. "You never earned such a fate. You must have lived and died a good man; an honest man, and yet—" He turned quickly at the sound of the opening door. "Doctor, come here and tell me how your keen eyes and worldly intelligence weighed, measured and gauged this man who lies here with that look, that inscrutable look they all wear once they have seen the mystery unveiled. What manner of man did you find him?"

Doctor Barnes came closer and gazed reverently at the dead face.

"There lies a man who could better afford to face the mystery suddenly, without warning, than you or I or any other living man I know. A good man, a true Christian gentleman I honestly believe, too modest perhaps to ever claim and hold his true place in this grasping world. That he should be struck down by the hand of an assassin is past belief, and yet—" He paused abruptly and bent down to replace the covering over the still, handsome face.

"And yet," repeated the detective, "do you really think that this man was murdered?"

"Ferrars!" Both men were moving away from the side of the bier, one on either hand, and, as they came together at its foot, the speaker put a hand upon the shoulder of the detective. "To-morrow I hope you will thoroughly overlook the wood road beyond the school house, the lake shore, from the village to the knoll or mound; and the thin strip of wood between, and then tell me if you think it possible for any one, however stupid or erratic of aims to shoot by accident a man standing in that place. There is no spot from which a bullet could have been fired whence a man could not have been seen perfectly, that figure by the lake side. The trees are so scattered, the bushes so low, the view up and down so open. It's impossible!"

"That is your fixed opinion?"

"It is. Nothing but actual proof to the contrary would change it."

When they had passed from the room and the doctor had softly closed the door, leaving the dead alone in the silence and the shaded lamplight, they paused again, face to face, in the outer office.

"Have you any suggestions as regards the inquest, Ferrars?" asked the one.

"I have been thinking about that foolish lad, the one who saw poor Brierly in the wood. Could you get him here before the inquiry? We might be able to learn more in this way. You know the lad, of course?"

"Of course. There will be very little to be got from him. But I'll have him here for you."

"Do so. And the lady, the one who drove the pony; you will call her, I suppose?"

"Certainly."

"That is all, I think. If you can drive me to the spot very early, before breakfast even, I would like it. You need not stop for me. I can find my way back, prefer to, in fact. You say it is not far?"

"Little more than half a mile from the school house."

"Then—good night, doctor."

Doctor Barnes occupied a six-room cottage with a mansard, and he had fitted up the room originally meant to be a sitting room, for his own sleeping apartment. It was at the front of the main cottage and back of it was the inner office where the body lay, the outer office being in a wing built out from this rear room and opening conveniently outward, in view of the front entrance and very close to a little side gate. A porch fitted snugly into the angle made by the former sitting room and this outer office, and both of these rooms could be entered from this convenient porch. Robert Brierly occupied the room opposite that assigned the detective with the width of the hall between them and the doctor, although Ferrars did not know this, had camped down in his outer office.

Half an hour after he had parted from the doctor, Frank Ferrars, as he was called by his nearest and most familiar friends, opened the door upon the corner porch and stepped noiselessly out. When he believed that he had found an unusual case—and he cared for no others—he seldom slept until he had thought out some plan of work, adopted some theory, or evolved a possibility, or, as he whimsically termed it, a "stepping stone" toward clearer knowledge.

He had answered the doctor's summons with little thought of what it might mean, or lead to, and simply because it was from "Walt." Barnes. Then he had heard the doctor's brief story, with some surprise and an inclination to think it might end, after all, in a case of accidental shooting, or self-inflicted death. But when he looked into the woeful eyes of lovely Hilda Grant, and clasped the hand of the dead man's brother, the case took on a new interest. Here was no commonplace village maiden hysterical and forlorn, no youth breathing out dramatic vows of vengeance upon an unknown foe. At once his heart went out to them, his sympathy was theirs, and the sympathy of Francis Ferrars was of a very select nature indeed.

And thus he had looked at the beautiful refined face of the dead man, a face that told of gentleness, sweetness, loyalty, all manifest in the calm dignity of death. Not a strong face, as his brother's face was strong, but manly with the true Christian manliness, and strong with the strength of truth. Looking upon this face, all thought of self-destruction forsook the detective, and he stood, after that first long gaze, vowed to right this deadly wrong in the only way left to a mortal.

But how strange that such a man, in such a place, should be snatched out of life by the hand of an assassin! He must think over it, and he could think best when passing slowly along some quiet by-way street. So he closed his door softly, and all unconscious that he was observed from the window of the outer office, he vaulted across the low fence, striking noiselessly upon the soft turf on the further side; and, after a moment of hesitation, turned the corner and went down Main street.

Past the shops, the fine new church, the two hotels, one new and one old. Past the little park and around it to the street, terraced and tree-planted, where the more pretentious dwellings and several modish new houses, built for the summer boarder, stood. It was a balmy night. Every star seemed out, and there was a moon, bright, but on the wane.

Ferrars walked slowly upon the soft turf, avoiding the boards and stones of the walks and street crossings. Now and then he paused to look at some fair garden, lovely in the moonlight, or up at the stars, and once, at least, at a window, open to the breezes of night and revealing that which sent Ferrars homeward presently with a question on his lips. He paced the length of the terraced street, and passed by the cottage where Hilda Grant waked and wept perchance, and as he reentered his room silently and shadow-like, he said to himself—

"Is it fate or Providence that prompts us to these reasonless acts? I may be wrong, I may be mistaken, but I could almost believe that I have found my first clue."

And yet he had heard nothing, and yet all he had seen was a woman's shadow, reflected fitfully by the waning moon, as she paced her room to and fro, to and fro, like some restless or tormented animal, and now and then lifted her arms aloft in despair? in malediction? in triumph? in entreaty?—which?

In spite of his brief rest, if rest it was, Ferrars was astir before sunrise; but, even so, he found the doctor awake before him, and his horse in waiting at the side gate.

They drove swiftly and were soon in sight of the Indian Mound.

"Show me first the place where the body was found," Ferrars had said to his guide as they set out, and when the two stood at this spot, which some one had marked with two small stakes, and the doctor had answered some brief questions regarding the road through the fringe of wood, the mound, and the formation of the lake shore further south or away from the town, the detective announced his wish to be left alone to pursue his work in his own way.

"Your guest will be astir early, if I am not much mistaken," he said. "And you have Miss Grant to look after and may be wanted for a dozen reasons before I return. I can easily walk back, and think you will see me at the breakfast hour which you must on no account delay."

Two hours later and just as the doctor's man had announced breakfast the detective returned and at once joined the two in the dining room.

He said nothing of his morning excursion, but the doctor's quick eye noted his look of gravity, and a certain preoccupation of manner which Ferrars did not attempt to hide. Before the meal was ended, doctor Barnes was convinced that something was puzzling the detective, and troubling him not a little.

After breakfast, and while Brierly was for the moment absent from the porch where they had seated themselves with their cigars, Ferrars asked—

"Where does the lady live who drove Mr. Doran's black pony yesterday? Is it at an hotel?"

"It is at the Glenville, an aristocratic family hotel on the terrace. She is a Mrs. Jamieson."

"Do you know her?"

"She sent for me once to prescribe for some small ailment not long ago."

"Has she been summoned?"

"She will be."

"If there was anyone in the woods or approaching the mound by the road, from the south, she should have seen them, or him; even a boat might have been seen through the trees for some distance southward, could it not?"

"Yes. For two miles from the town, the lake is visible from the wood road. Ah! here comes Doran and our constable."

For half an hour the doctor was busy with Doran, the constable and a number of other men who had or wished to have some small part to play in this second act of the tragedy, the end of which no one could foresee. Then, having despatched them on their various missions, the doctor set out to inquire after the welfare of Hilda Grant; and Robert Brierly, who could not endure his suspense and sorrow in complete inaction, asked permission to accompany him, thus leaving the detective who was quite in the mood for a little solitude just then, in possession of the porch, three wicker chairs and his cigar.

But not for long. Before he had smoked and wrinkled his brows, as was his habit when things were not developed to his liking, and pondered ten minutes alone, he heard the click of the front gate, and turned in his chair to see a lady, petite, graceful and dressed in mourning, coming toward him with quick, light steps. She was looking straight at him, as she came, but as he rose at her approach she stopped short, and standing a few steps from the porch said crisply—

"Your pardon. I have made a mistake. I am looking for Doctor Barnes."

"He has gone out for a short time only. Will you be seated, madam, and wait?"

She advanced a step and stopped irresolute.

"I suppose I must, unless," coming close to the lower step, "unless you can tell me, sir, what I wish to know."

"If it is a question of medicine, madam, I fear—"

"It is not," she broke in, her voice dropping to a lower note. "It is about the — the inquiry or examination into the death of the poor young man who — but you know, of course."

"I have heard. The inquest is held at one o'clock."

"Ah! And do you know if the—the witnesses have been notified as yet?"

"They are being summoned now. As the doctor's guest I have but lately heard him sending out the papers."

"Oh, indeed!" The lady put a tiny foot upon the step as if to mount, and then withdrew it. "I think, if I may leave a message with you, sir," she said, "I will not wait."

"Most certainly," he replied.

"I chanced to be driving through the wood yesterday when the body was discovered near the Indian Mound, and am told that I shall be wanted as a witness. I do not understand why."

"Possibly a mere form which is nevertheless essential."

"I had engaged to go out with a yachting party," she went on, "and before I withdraw from the excursion I wish to be sure that I shall really be required. My name is Mrs. Jamieson, and—"

"Then I can assure you, Mrs. Jamieson, that you are, or will be wanted, at least. My friend has sent a summons to a Mrs. Jamieson of the Glenville House."

"That is myself," the lady said, and turned to go. "Of course then I must be at hand."

She nodded slightly and went away, going with a less appearance of haste down the street and so from his sight.

When she was no longer visible the detective resumed his seat, and relighted his cigar, making, as he did so, this very unprofessional comment—

"I hate to lose sight of a pretty woman, until I am sure of the color of her eyes."

And yet Francis Ferrars had never been called in any sense a "ladies' man."

CHAPTER VII.

Ferrars had predicted that nothing would be gained by the inquest, and the result proved him a prophet.

Peter Kramer, the poor half-wit who had given the first clue to the whereabouts of the murdered man, was found and his confidence won by much coaxing, and more sweets and shining pennies, the only coin which Peter would ever recognize as such. But the result was small. Asked had he seen the teacher, the reply was, "Yep." Asked where, "Most by Injun hill." Asked what doing, "Settin' down."

"Had he heard the pistol fired?" asked the doctor.

"Un! Uh! Heard nawthin."

"And whom did you see, Peter, besides the teacher?"

Again the look of affright in the dull eyes, the arm lifted as in self-protection, and the only word they could coax from his lips was, "Ghost!" uttered in evident fear and trembling.

And this was repeated at the inquest. This, and no more, from Peter.

Mrs. Fry, Charles Brierly's landlady, told how the dead man had appeared at breakfast, and her testimony did not accord with the statement of her little daughter.

"Miss Grant has told me of my little girl's mistake," she said. "Mr. Brierly was down-stairs unusually early that morning, and he did not look quite as well as usual. He looked worried, in fact, and ate little. He was always a small eater, and I said something about his eating even less than usual, I can't recall the exact words. Nellie, of course, did not observe his worried look, as I did, and quoted me wrong. Mr. Brierly left the house at once after leaving the table. I did not think of it at first, but it came to me this morning that as he did not carry any books with him, he must of course have meant to come back for them and—" She paused.

"And, of course," suggested the coroner, "he must have had his pistol upon his person when he came down to breakfast? Is that your meaning?"

"Yes, sir."

The weapon, found near the dead man's hand as it had doubtless fallen from it, was there in evidence, as it had been picked up with two of the chambers empty.

That it was not a case of murder plunder was proven, or so they thought, by the fact that the dead man's watch was found upon his person; his pockets, containing a small sum of money, pencils, knives, note book, a small picture case, closed with a spring, and containing Hilda Grant's picture, and a letter from his brother.

Hilda Grant's brief testimony did not agree with that of Mrs. Fry.

She saw her lover, alive, for the last time on the evening before his death. "He was in good spirits and if there was anything troubling him he gave no sign of it. He was by nature quiet and rather reserved," she said.

To be continued.

Committee Met This Afternoon

Council Will Take up Isolation Hospital Question To-night

A meeting of the committee appointed by the City Council a short time ago, to see what could be done regarding an isolation hospital, is being held this afternoon. The committee consists of Ald. Bradburn, Elliott and Wilson, and a report will be made at the meeting of the City Council tonight. The recent outbreak of scarlet fever, will no doubt stir the committee to take action as the city at present is in a bad way as regards the isolating of contagious disease patients.

Spent Four Weeks on the Prairies

Mr. T. H. G. Denne Travelled 2500 Miles on a Special Train

Mr. T. H. G. Denne of this Quaker Oats Co., returned on Saturday from a four weeks' trip to the West. He travelled 2,500 miles on a special train sent out by the Grain Exchange of Winnipeg, on which were many members of the Exchange and several prominent citizens. Mr. R. M. Dennistoun was among the members. Mr. Denne had a long conversation with him, and Mr. Dennistoun stated that he was meeting with splendid success in the prairie city and liked the West. He desired to be remembered to his many old friends in Peterborough.

Mr. Denne also met, Mr. W. A. Buchanan, formerly of Peterboorugh, now Provincial Librarian for Alberta. He ran across him in Winnipeg. Mr. Buchanan was returning from a visit to the leading Public Libraries in New England and Canada.

Mr. Denne on the special train went as far west as Regina, and travelled over all the branch lines of the C.P.R. and C.N.R. He says there is a great improvement in the condition of the crops, and that the feeling in the west is a hopeful one.

HIS LORDSHIP WAS IN KEENE

Conformation Services at St. John's Church

His Lordship, Bishop O'Connor was in Keene yesterday, in connection with confirmation services held at St. John's church in that village, when eighteen young parishioners were confirmed.

This is the first occasion in three years time, in which the sacrament of confirmation has been observed at St. John's. His Lordship preached a forcible sermon, dwelling on the love of God and emphasizing in his discourse the solemnity of the occasion. He also told those who were confirmed of the responsibility toward the church, they had incurred in taking the sacrament.

BIRTH

HETHERINGTON.—At 183 Edinburgh street, on Sunday, Sept. 15th, the wife of J. W. Hetherington, of a daughter.

THE BEEHIVE

The Covert Cloth Suit is very prominent in the styles for Fall. Our **$20** line is made in the double breasted box front Coat, trimmed with manish pockets, with button and braid trimmings. Skirt has pleated and self folds.

Black Cheviot Tailor-made style, perfectly plain in appearance, yet rich and showing up the elegant workmanship. The Skirt is trimmed with the pleats and folds. Our **$25** leader.

$27.50 line handsome green and brown mixture, in the popular Plaid effect. Coat is the short hip style, trimmed with self strappings, military braid and buttons; it also has the fancy vest effect front.

Finest Black Broadcloth, regular military suit; tight-fitting hip Coat, military collar, braid trimmings and ivory satin linings. Skirt has large side pleats, folds and braid trimmings. Our **$27.50** Special

For **$35**, Fine Broadcloth, in catchy military effect, three-quarter cutaway coat, military braid trimmings, taffeta lined; pleated skirt, with folds and braid trimmings.

GRAND STORE RE-OPENING

Our enlarged and remodelled store will be formally re-opened on **Friday, September 20, 7.10 p.m. and Saturday, September 21.** Music by Conservatory of Music Orchestra, Friday evening, Saturday afternoon and evening.

Cressman's

Two Boys Rob a Fruit Store

Steal Several Coppers and Some Grapes—Were Remanded a Week

Two more boys faced the magistrate at a special meeting of the Police Court this morning, on a charge of stealing. They were remanded to the Children's Shelter for a week.

Ira Baker and Tommy Thompson, two lads about ten years of age, entered the fruit store of Minocolo Bros., last evening, and took the contents of the money drawer, amounting to about 25 or 30 cents in Italian and American coppers.

This was a most daring act on the part of the youngsters. They got into the shop through the back door. In this door were once two panes fo glass, but one of them being smashed some time ago, was nailed up with a piece of tin. By removing the tin the culprits gained admittance. Mr. Tom Minocolo told the Review this morning, that they left several Italian two cent pieces, also American, Newfoundland and Prince Edward Island coppers in the drawer, and underneath it was a cigar box containing Canadian coppers. These the boys did not touch, but the foreign money was taken. Considerable fruit was carried away, including three baskets of grapes.

Mr. Minocolo, on opening this morning at once knew the place had been entered. Later in the forenoon, a little girl by the name of Baker, presented three American coppers in payment for some candy. She was asked where she got them, and she replied that her little brother gave them to her. Chief Rozzel was informed of the affair and soon after Baker and Thompson were taken from school and brought to the police station. When brought before His Worship they were remanded for a week.

Veteran Minister Rev. William Ames

Delivered Short Address in George St. Church Yesterday

Rev. Wm. Ames, of Woodstock, brother of the late James Ames, who has been in the city for the past few days spoke a few words in George-st. church yesterday morning during the morning service. Mr. Ames, although 87 years of age is still hearty and possesses a lively air and step for a man so advanced in years. He came to Peterborough 75 years ago and says that he remembers this place when there was not a church here.

P. C. NEWHALL HAS SAILED FOR CANADA

Chief Rozzal received a souvenir post card from P.C. Newhall this morning from London, Eng. P.C. Newhall has been spending the past six weeks at his old home, London. The card stated that he would sail by the steamship "Virginian" on September 13th. He is now on the ocean and it is expected that he will arrive in the city by the first of next week when he will again be on duty on the police force.

The J. C. Turnbull Co., cordially invites the ladies of Peterboro' to their Fall Millinery Opening of high-class novelties in Ladies' Millinery and also Skirts, Coats, Blouses etc., on Thursday, September 19th and following days.

Educational Work to Begin at Y.W.C.A.

The fall classes in education will begin at the Y.W.C.A. next week. A big educational rally will be held on Thursday night of next week, Sept. 26th. The classes promise to be largely attended this year.

The rooms of the "Y" are well filled. There are now forty-seven young ladies who obtain board and lodging at this well known institution which of late has been taxed to its utmost capacity.

Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Mrs. J. W. Lang and Mrs. S. Frake

Of all the diseases known, with which women are afflicted, chronic kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Lydia E. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for a woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing-down pains, scalding or burning sensations or deposits in the urine, unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back running through the groin, she may infer that her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.

Mrs. Samuel Frake, of Prospect Plains, N. J., writes:

Dear Mrs. Pinkham:—

"I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. When I first wrote to you I had suffered for years with what the doctor called kidney trouble and congestion of the female organs. My back ached dreadfully all the time, and I suffered so with that bearing-down feeling I could hardly walk across the room. I did not get any better, so decided to stop doctoring with my physician and take Lydia E. Pinkham's Vegetable Compound and I am thankful to say it has entirely cured me. I do all my own work, have no more backache and all bad symptoms have disappeared.

"I cannot praise your medicine enough, and would advise all women suffering with kidney trouble to try it."

Mrs. J. W. Lang, of 626 Third Avenue, New York, writes:

Dear Mrs. Pinkham:—

"I have been a great sufferer with kidney trouble. My back ached all the time and I was discouraged. I heard that Lydia E. Pinkham's Vegetable Compound would cure kidney disease, and I began to take it: and it has cured me when everything else had failed. I have recommended it to lots of people and they all praise it very highly."

Mrs. Pinkham's Standing Invitation.

Women suffering from kidney trouble, or any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women. Out of the great volume of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.

Another Railway Disaster; Error in Despatcher's Orders

Several Canadians Killed in Fearful Railway Wreck.

Twenty-Four Dead and Twenty-Seven Injured—South-Bound Quebec Express Crashes Head-on Into Freight—Accident Caused by Mistaken Orders — Passengers Returning From Sherbrooke Fair.

White River Junction, Vt., Sept. 16.—A fearful head-on collision between the south-bound Quebec express and a north-bound freight train of the Concord division of the Boston and Maine Railroad occurred four miles north of Canaan station early yesterday, due to a mistake in train despatcher's orders, and from a demolished passenger coach there were taken 24 dead and dying and 27 other passengers, more or less wounded. Nearly all those who were in the fatal car were returning from a fair at Sherbrooke, Quebec, 160 miles north. The conductor of the freight train was given to understand that he had plenty of time to reach a siding by the night operator at Canaan station, receiving, according to the superintendent of division, a copy of a telegraph order from the train despatcher at Concord, which confused the train numbers 30 and 34.

The wreck occurred just after the express had rounded into a straight stretch of track, but, owing to the early morning mist, neither engineer saw the other's headlight until it was too late.

The Canadians dead are:

Timothy Shaughnessy, Castlebar Que.

Mrs. Shaughnessy, Castlebar, Que.

Miss Annie St. Pierre, Isle Verte, Que.

Mrs. Philip Gagnon, Sherbrooke, Que.

The unidentified are: A boy of 10 years old; a man 40 years old; a woman 30 years of age; a man 25 years of age; a man 35 years of age; four other bodies, also unidentified. All the bodies, with two exceptions, were removed to Concord during the day. Some of the unidentified dead may be Canadians.

The south-bound train originated at Sherbrooke Saturday evening, where it picked up two sleepers from Quebec and two more on the way down. It consisted of the baggage car, passenger coach, smoking car in that order with the sleepers in the rear. The train left White River Junction at 3.45 a. m. yesterday, and was followed 20 minutes later by the Montreal express over the Central Vermont Railroad. The Quebec train is known as No. 30, and the Montreal train as No. 34. In the meantime the north-bound freight train had arrived at Canaan, 18 miles down the road, at 4.20 a. m., on time.

Fearful Misunderstanding.

According to Superintendent W. R. Ray, J. R. Crowley, the night train despatcher at Concord, sent a despatch to John Geeley, the night operator at Canaan, that No. 34 was one hour and ten minutes late. The order which Conductor Lawrence of the freight train showed after the accident, distinctly states that No. 30, instead of 34, was an hour and ten minutes late. Conductor Lawrence, believing that he had sufficient time in the hour and ten minutes to reach the side track at West Canaan, four miles beyond, before No. 30 reached it, ordered his train ahead. The superintendent declared that the accident was due to the mistake in placing a cipher after the three in the number of the train instead of a four.

Headlights Burst Through Fog.

The morning was a dull, misty one, and the long freight train with a score of heavily loaded cars lumbered up the long grade towards West Canaan at the usual speed. On the other track with her heavy load of passengers and the four heavy sleepers in the rear. The freight train was on a straight piece of track, about a mile in length, and the Quebec express had rounded a curve into this stretch when each engineer saw the headlight of the opposite train burst out of the fog.

Both engineers set their brakes and then jumped, while the two great locomotives crashed into each other and rolled into the ditch. The baggage car in the rear was hurled back into the passenger coach like a great ram and tore it asunder from end to end.

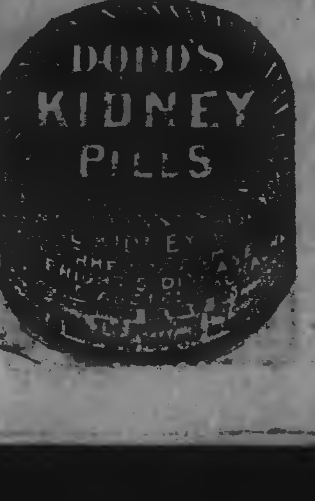
The ill-fated passenger coach was filled with more than fifty people. One of those who escaped said that as the train was rounding a curve some one in front began to sing, so that nearly everyone was awake when the crash came. When those who were in the other cars recovered their dazed senses, they hurried to the demolished passenger coach, where groans, cries and shrieks were rending the air.

The Work of Rescue.

Fortunately, with the engines off to one side, the wreckage did not take fire. The train hands, ably seconded by the passengers from the sleeping cars, groped their way among the ruins and began the work of rescue. The bodies of the dead were laid beside the track quietly, but tenderly, while the rescuers turned their attention to those who needed aid. Great beams were lifted, pieces of joists were thrown aside, and the bleeding and mangled forms were dragged out and laid on the backs of broken seats or upon blankets from the sleeping cars. Wounds were hastily bound up, and deep cuts staunched by strips torn from the bedding of the sleepers. The little band worked diligently and faithfully in the dawning light before the doctors came.

Frank Ryan a Hero.

The accident was not without its heroes, and one of these was Frank Ryan, a brakeman on the express. Ryan was caught in the wreck and had an artery severed. He was unconscious for nearly fifteen minutes, and when he regained his senses his first thought was of the Montreal express, which he knew was thundering down on the wreck with no brakeman in the rear to wave a warning signal. In a few husky words Ryan told of the approaching danger, and the Montreal express was stopped only a quarter of a mile from the rear of the wrecked train.



ENTICED GIRLS FROM CANADA.

Leader of White Slave Traffic Is Found Guilty.

Erie, Pa., Sept. 16.—Mrs. Alice Sexton, known through this section of the state as the leader of the white slave traffic, was yesterday found guilty of enticing and inveighing young girls from Canada. The jury was out just 21 hours. The charge against Mrs. Sexton was preferred by the father of Edna Lacy, a girl of 14 years of age. When she appeared in court, Edna looked more than 21, but both she and her mother testified that 14 was her age. The defendant received the verdict very calmly, but her two daughters, who have stood by her throughout the ordeal, fainted, and one became hysterical. Both have used their saving to hire legal talent to defend their parent. Public opinion against the woman is strong, although a verdict of acquittal was looked for on the evidence offered by the commonwealth. Mrs. Sexton will be sentenced to-day by Judge Walling, and is liable to receive five years in prison and a $5,000 fine.

WAS KISSED AND FORGIVEN.

Runyan Received Blessing From Women He Wronged.

New York, Sept. 16.—With words of forgiveness from the two women he most injured ringing in his ears, Chester B. Runyan, the bank teller who stole $96,000 from the Windsor Trust Co., was taken to Sing Sing prison on Saturday to begin his seven-year sentence.

Although they had not seen him since his arrest, Runyan's wife and mother went to the Tombs prison to say good-bye to him: In spite of the fact that he was a self-confessed thief, and that he had left his wife to squander the money he had stolen from his employers on a woman of the street, the two women freely forgave him and it was with their kisses still warm on his lips that the young man started for the prison where he will expiate his crime.

"I must have been crazy to do what I did," was Runyan's last statement as he left for the prison.

FEELING IN JAPAN.

Trust to the Justice and Fair Play of Canadian People.

Ottawa, Sept. 13.—A cable has been received by Hon. T. Nosse, Japanese consul-general, from Tokio, giving him information on the attitude of the public in regard to the Vancouver disturbance. It says: "The feeling, in spite of the character of the disturbance being very much graver than that of San Francisco, is, throughout, most friendly to Canada. While greatly regretting that this deplorable incident occurred within a dominion of the British Empire, whose ally Japan is, the tone of the press is very calm and the public shows no excitement, all depending upon the friendship, justice and fair play of the Government and people of Canada, and also fully expecting that the very best measures will be taken by the authorities for the protection of Japanese lives and property and the reaching of an amicable settlement of the trouble."

GIRL'S STRANGE DEATH.

Mystery Surrounds End of Gloucester Township Maiden.

Ottawa, Sept. 16.—On Thursday, Louise DeLude, a girl of 15, who resides in Gloucester Township, was in Ottawa with her mother and Joseph Pelletier, the hired man. Late that night, after returning home, she died. The coroner heard of the affair and visited her home. The mother's story was to the effect that her daughter was carrying a lamp from one room to another when she suddenly fell dead. But neighbors had different stories to tell, and the matter is now in the hands of the Attorney-General. The coroner discovered marks, as from heavy blows, on the girl's body. She had sustained a particularly savage blow on the stomach.

Mangled Body Found on Track.

Weston, Sept. 16.—Saturday night about 9 o'clock as the C. P. R. train going east passed the Church street crossing the driver noticed something lying across the G. T. R. tracks, which at this point parallel the C. P. R., and when they arrived at the station notified the authorities.

A search revealed the body of an Italian, presumably about 40 years of age, but so terribly mangled by the passing over of a train as to be wholly unrecognizable. The local coroner was notified, and a jury, after viewing the body and hearing the evidence of one or two witnesses, returned a verdict of "accidental death."

The conductor of the local way freight reports that at Brampton a foreigner approached him and asked for a ride to the city, which the latter refused. It is supposed that the man, under cover of darkness, was stealing a ride, and in some unaccountable way missed his footing, and fell from the car, the wheels passing over his body.

Killed by Ball.

Montreal, Sept. 16.—Henri Pilon, first-baseman of the Manhattan Baseball Club, was struck over the heart by a ball yesterday afternoon and instantly killed while "warming up" for an exhibition game. The second-baseman sent a hot one over to Pilon, who leaned forward to land it, but missed; and the ball struck him with full force over the heart. Pilon staggered back for a moment and then fell. The force of the blow caused instantaneous death from heart failure.

FELL FROM THE CLOUDS

Lady Balloonist Meets Terrible Death at a Fair.

Attempted to Descend by Parachute—Was Jolted Off and Fell Thousand Feet—Dashed to Pieces In Presence of Eight Thousand Spectators—Every Bone In Her Body Was Broken.

Olean, N. Y., Sept. 16.—Mrs. Carrie Myers, 32 years of age, of Springfield, Mass., a professional balloonist, fell from a parachute 1,000 feet above the Fair Grounds here Saturday and was dashed to death in plain view of 8,000 people.

Mrs. Myers made her first ascension here on Wednesday, when she sprained her left wrist. On Friday she made another successful ascent, using a life belt attached to the parachute trapeze as a precaution.

Mrs. Myers was asked to use the life belt again, but refused, saying her wrist felt well and strong.

When about 2,000 feet above the Fair grounds Saturday afternoon, Mrs. Myers cut loose from the balloon with a double parachute. The web of canvas spread out, and Mrs. Myers was seen to raise her right hand to release the second and smaller parachute, holding on to the trapeze rope with her lame hand.

Just as the canvas spread out and the rapid downward flight of the parachute was suddenly checked, Mrs. Myers fell over backward. It is believed the sudden jar hurt her lame wrist. Her body struck just outside the Fair grounds fence. Every bone in her body was broken.

BRICK BUILDING COLLAPSES.

Cincinnati Has Repetition of London Disaster—Three Dead.

Cincinnati, Ohio, Sept. 16.—Two unknown men and one woman were killed and a dozen other persons narrowly escaped death in the collapse of the Dohan Shoe Co.'s four-storey building in Central avenue yesterday. The building was undergoing repairs.

Shortly before noon, after a warning rumble, the front of the building fell forward into the street, leaving only the rear section standing.

An unknown man, who was passing on the sidewalk, was killed. A second man, apparently a laborer, was found dead in the ruins, as was Mrs. Mary Daley, who lived on the second floor.

Of the seven workmen in the building, three were reported missing, but all were later found unhurt.

A number of women in the apartments on the upper floors were in their kitchens, preparing the midday meal, and to that fact owed their escape.

KILLED AS WIFE LOOKED ON.

Harvey Hill Was Electrocuted at Niagara Falls.

Niagara Falls, Ont., Sept. 16.—Harvey Hill, an employe of the municipal electric plant, when turning on the incandescent electric street light from a pole box on Ferry street at the south end of the city Saturday evening in some unaccountable manner got his head in contact with a high voltage current and was instantly killed in the presence of his wife, who was waiting for him on the sidewalk. As there was no more than 150 volts on the incandescent circuit, insufficient to kill, the line must have been in contact with some foreign high voltage wire.

Umpire May Die.

Detroit, Sept. 16.—During the second game between Detroit and St. Louis Umpire Evans was struck on the head with a soda water bottle thrown by a spectator, and his recovery is doubtful. The attack was made during an altercation over a foul. The crowd made a rush for the spectator, and chased him around the lot, the arrival of the police saving him.

STEAMER STONY LAKE OR MAJESTIC

The steamer Stoney Lake will leave Lakefield for the lakes on arrival of the morning train, returning in time to connect with 4.58 train for Peterborough.

Steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

The Men Feared Disaster; Inquest Proceeds at Quebec

Indian Told of Defect in Quebec Bridge Chord.

Driver Warned Four Weeks Ago by Man Now Dead—Boss Also Wrote That He Knew Bridge Would Go—Phoenix Co. Disbelieve Genuineness of the Letter—Enquiry to Be Thorough.

Quebec, Sept. 16.—D. Lefebvre, who unloaded the metal for the Quebec bridge as it arrived here from Phoenixville, testified before the Royal Commission of enquiry Saturday that Angus Diebo, an Indian, who is now dead, told him about four weeks ago that one of the chords on the Quebec side was forced.

C. L. Edwards, who inspected the material at the mills and shops of the Phoenix Bridge Co., for the Quebec Bridge Co., testified to the caution taken in this matter and said that only about 2 1-2 per cent. of the work done by the company was rejected. No material had been returned from Quebec, but some plates on the cantilever arm had to be changed.

Messrs. Messer and Clark also testified in regard to the inspection of material, but no further evidence of importance was elicited. The commission only sat in the forenoon.

It is probable that the witnesses to be examined in Quebec will be exhausted this week, after which the site of the bridge will be again visited and inspected, and the commissioners will go to New York to examine Mr. Cooper and also to Phoenixville to examine witnesses and probably to other centres to take the evidence of experts.

Boss Gave Warning.

New York, Sept. 16.—The World Saturday says: Swenson & Swenson, real estate dealers at Flushing, gave out yesterday a letter said to have been written by their brother, Carl Swenson, a boss employed on the Quebec bridge, which fell on Aug. 29. Swenson's letter is dated the day before the disaster. He was killed.

The letter reads: "I doubt very much whether the bridge will ever be finished, since the first and second panels of the bottom chord of the cantilever, Quebec side, are buckling. I want to be in New York when she falls. If the bridge goes it will be the worst wreck that ever occurred. Don't show this to any one. This part is no fool-catcher story."

Deny Swenson Letter.

Philadelphia, Sept. 16.—Officers of the Phoenix Bridge Co., which was building the collapsed Quebec bridge, expressed disbelief yesterday in the genuineness of the Carl Swenson letter, which was shown to them. President David Reeves and Secretary Frank T. Davis of the company denied that the panels of the chord had buckled, and said the letter could not have been written before the disaster. They regarded the letter as an attempt to manufacture evidence to hold the company responsible in damage suits.

"There will be a thorough investigation of the accident by the commission appointed by the Dominion Government," said Mr. Davis. When it has secured all the evidence it can in Quebec, the commission will continue its investigation in the offices of Theodore Cooper in New York, who was the consulting engineer. The members of the commission will also visit the plant at Phoenixville, Pa.

BASEBALL PLAYER KILLS MAN.

Was Refused Drink and Shot Hotel Proprietor Dead.

Batavia, N. Y., Sept. 16.—Edward Conliss, proprietor of the Byron Road Hotel, six miles east of here, was shot and instantly killed Saturday afternoon.

Francis Earl Bentley, a professional baseball player, is under arrest charged with murder in the first degree. Bentley claims that he had an altercation with the hotelman, which led to a fight, and that he shot Conliss in self-defence.

At the hotel it is said Bentley, who is without money, demanded a drink, which was given to him. He asked for more, and upon being met with a refusal, it is alleged, he drew a revolver.

Conliss, it is claimed, tried to take away the revolver, and in the scuffle was shot through the head. Bentley at one time played on a Rochester baseball team, and this year played with Portland, Ore.

RAN INTO OPEN SWITCH.

Passengers Badly Shaken Up on Petrolea Train.

Petrolea, Sept. 16.—Saturday afternoon, as the Petrolea & Glencoe train, in charge of Conductor Ben Young, was returning, Engineer Bolton noticed the switch at Suttorville out of place, and before he could get the train stopped, which consisted of engine, baggage and passenger car, the whole train left the rails. The train was running about 35 or 40 miles an hour, and there were about 15 or 20 passengers. Fortunately all escaped without the slightest injury, except a little shaking up. It is supposed that someone left the switch unlocked and that it was tampered with afterwards.

Fielding to Visit Rome.

Ottawa, Sept. 16.—Hon. W. S. Fielding will not return to Canada immediately after the signing of the Franco-Canadian trade treaty, but will first pay his long-promised visit to Rome. This is significant. He will arrive in this country about the beginning of November.

T. Ishii, the Japanese envoy who is examining the immigration conditions in Canada and the United States, arrived in Ottawa on Saturday afternoon. He will discuss the recent riots at Vancouver with Sir Wilfrid Laurier. He is the guest of Hon. T. Nosse, the Japanese consul-general.

Rev. Patrick Doyle, D.D., of Vernon River, P.E.I., is dead, aged 82.

JURY HAD CLOSE CALL.

Tons of Plaster Fell in Montreal Court House.

Montreal, Sept. 16.—A whole jury had a narrow escape from being crushed to death at the Court House here on Saturday afternoon, by the collapse of the ceiling in one of the chambers. The jury, which was a special one, composed of many of the most prominent business men and contractors in the city, had been sitting several days on a suit against the Canadian Pacific Railway. The case had concluded and the jurymen were being led to room 20, where they were to deliberate. Just as the crier opened the door there was a deafening roar and almost half the ceiling collapsed, falling within a few feet of the frightened jurors with such force that the heavy oaken desks used by the lawyers, were smashed in all directions. The chambers of the Court House are about 25 feet high, while the plaster is of a very old-fashioned type, embellished with heavy plaster ornamentation, so that several tons of the plaster dropped. Had the jury been six feet further inside the room, several of them would inevitably have been killed or injured under the falling debris. They were badly frightened, but were able to go to another room and bring in a verdict exonerating the C. P. R.

The rest of the ceiling in the damaged chambers is full of cracks and looks as though it were in danger of falling at any moment. The result of the accident will probably be an immediate overhauling of the whole ancient court house.

O. J. C. FALL MEETING.

Edward Gum Wins Toronto Autumn Cup Handicap.

Woodbine Race Track, Sept. 16.—The annual autumn meeting of the Ontario Jockey Club opened here Saturday under the most auspicious conditions. The weather was delightfully warm and bright, the attendance was large and fashionable, and the racing excellent. There were seven races on the card, and the racing was good throughout.

About thirty bookmakers weighed in. They conducted business on the grand stand lawn without any molestation by the authorities. The same system of betting prevailed as at the spring meeting, tickets being given in the lawn.

First race, purse, $500 added, for all ages, 3-4 mile—1, Stanley Fay; 2, Conney K.; 3, Merry England. Time, 1.13.

Second race, purse, $500 added, 2-year-olds, 5-8 mile—1, Clell Turney; 2, Sir Galahad; 3, Giles. Time, 1.01.

Third race, purse, $400 added, 3-year-olds and upwards, selling, 1 1-8 miles—1, Royal River; 2, Restoration; 3, First Mason. Time, 2.05.

Fourth race, Toronto Autumn Cup, handicap, 1 1-4 miles, purse, $1,500 added, 3-year-olds and up—1, Edwin Gum; 2, Glimmer; 3, Charlie Gilbert. Time, 2.07.

Fifth race, steeplechase, purse, $800 added, 3-year-olds and up, 2 miles—1, Steve Lane; 2, Dacra; 3, John O'Grady. Time, 4.19.

Sixth race, purse, $400 added, 3-year-olds and up, selling, 1 1-16 miles—1, Kelpie; 2, *Prince of Orange; 3, Oberon; 4, Court Martial. Time, 1.49 1-5. *Disqualified for fouling.

Seventh race, purse, $500 added, 2-year-olds, 5-8 mile—1, Ten. of Courtesy; 2, Ketchemike; 3, Revery. Time, 1.01 1-5.

ALASKAN BOUNDARY CANARD.

Reported Discovery of Proof That Russia Tried Fraud.

Ottawa, Sept. 14.—A despatch from Winnipeg states that some ancient Russian documents have been unearthed in Alaska, which materially affect Canada's position on the Alaska boundary question, showing how Russia forged evidence of early occupation of the Pacific coast, and that one of the documents was a direction to the Governor of Alaska in 1836 to bring secretly tablets bearing the Russian coat of arms to various places on the coast.

Dr. W. F. King, Dominion astronomer and chief adviser of the Canadian section of the Alaska Boundary Commission, says that this incident has nothing to do with the boundary question.

"Those tablets," said Dr. King, "do not decide anything, and were not referred to at the time. They may be all true, but they could have no bearing on the boundary question. The boundary was determined according to negotiation for treaty between Great Britain and Russia in 1825.

"What did Russia know about Canada in 1836? Canada was then two provinces, and they were separated from the rest of the territories by the whole of the Northwest. If there were any documents with Russia at that time, they would have been between Russia and Great Britain, but certainly no reference to Canada at all. Canada did not have any port until 1871."

LUSITANIA MAKES NEW RECORD.

Crosses the Atlantic in Five Days Fifty-Four Minutes.

New York, Sept. 14.—The giant turbiner Lusitania of the Cunard line fleet came into port yesterday on her maiden voyage with a new record of 5 days and 54 minutes between Queenstown and New York.

The Lusitania failed to lower the hourly speed average of 23.58 knots, made by the Kaiser Wilhelm II. of the North German Lloyd line, though she covered the distance between ports in an average of 23.01 knots, which is a record for maiden voyages.

Capt. Watts said when the time comes for record-making, after her machinery is in thorough order, the Lusitania will be the empress of the sea.

The Lusitania, the largest ship afloat, was given a royal welcome on her arrival, and it was a continual ovation from the time she sped past the Sandy Hook lightship and made her way through the Ambrose Channel, the first ocean liner to enter the new fairway, until she was safely warped into her dock.

A big Liberal rally will be held in Essex on Thursday, 19th, inst.

The Conciliation Board at Springhill has forwarded its report to Ottawa.

THE MARKETS.

Liverpool Wheat Futures Close Lower, Chicago Higher—Live Stock—Latest Quotations.

Saturday Evening, Sept. 14.

Liverpool wheat futures closed 1-8d lower than yesterday; corn 1-8d lower.

Sheep and Lambs—Estimated receipts, about 2500; market steady; western, $3.75 to $5.80; yearlings, $5.50 to $6.40; lambs, $5 to $7.60; western, $5 to $7.20.

BURNED HIS WAY OUT.

Sensational Escape From Lock-Up at New Liskeard.

New Liskeard, Sept. 16.—A sensational jail breaking took place here this week when a young fellow about 23 years of age, charged with the theft of $175 from William Byers of Thornloe, actually burned his way out of the New Liskeard lock-up. His matches were placed on the top of a stove in the corridor and he rigged up a fishing device with a sliver of wood and a pin by which he brought the lucifers to hand. He lit a fire under the ceiling of the cell, burning a hole sufficiently large for him to draw himself through. He has not yet been recaptured.

Legless Body in Niagara.

Niagara Falls, Sept. 16.—The legless body of a man was taken from the Niagara River Saturday at the Canadian Maid of the Mist landing. The body was removed to the Morse Undertaking Morgue on the Canadian side of the river, and shortly after a leg was taken out of the water, which undoubtedly belonged to the trunk. The leg was also removed to the morgue on the Canadian side.

The body was evidently that of a young man, but it was in a bad state of decomposition. The teeth were short and far apart, and the face was smooth shaven. It will be remembered that a couple of weeks ago a leg was found floating in the river at the Canadian Maid of the Mist landing, which, it is believed, belonged to the body.

Big Fire Near Winnipeg.

Winnipeg, Sept. 16.—The plant and buildings of the Intervest Peat Fuel Co., just completed, located at Lac du Bonnet, 45 miles northeast of here, were destroyed by fire on Saturday. Loss $40,000; partially insured. The company had just started making peat, and the loss is heavy to the owners, all of whom are local capitalists. They will rebuild at once.

The damage resulting from the cave-in in the Detroit River tunnel will cost $5,000.

PETERBOROUGH,
September 4th, 1907

MR. W. H. HILL,
City

DEAR SIR,—I am pleased to acknowledge receipt of Dividend Certificate, in Sun Life, for the five years ending 1906, in which I notice that you have added to my Policy $55.00 profits. This is certainly a satisfactory showing, and looks like doing business in a profitable way.

Thanking you for your advice, I am,

Yours truly,

C. B. FOSTER District Passenger Agent Toronto

GEN. BOOTH ON THE WAY.

Veteran Chief of S. A. Sailed For Quebec Yesterday.

London, Sept. 14.—Men and women wearing uniforms of the Salvation Army filled Euston railroad station here yesterday morning, to bid farewell to General Booth, who left London for Liverpool, where he will embark on the Allan line steamer Virginian for Quebec, in which city the veteran commander will begin a campaign which is to extend over Canada and the United States.

The "seventy-eight years young" general, as he describes himself, appeared to be quite as hearty as possible, considering his age. From the railroad car he handed the reporters a message, as follows:

"Once more good-bye, dear Old England. I leave your shores on what I believe is the Master's business. As I contemplate the future, I rely more than ever on the old panacea for lessening the ruins, inequalities and tyrannies of the world—namely, the regeneration of the individual by the power of God."

DEVOURED BY SHARKS.

Stowaway Jumps Into the Sea on Nearing Jamaica.

Philadelphia, Sept. 14.—News of the horrible death of a stowaway, William Brown, who was devoured by sharks under the eyes of the vessel's crew, was brought by the steamer Annetta from Jamaica yesterday. Brown was deported after being refused permission to land here on the last trip of the Annetta. As he was nearing Kingston he jumped into the water to escape the authorities, who punish stowaways. Hardly had his body struck the water when sharks surrounded him, and before assistance could be sent he was dragged under the waves and devoured.

Noble Charged With Treason.

Coblenz, Prussia, Sept. 14.—Further arrests have been made in connection with the extensive betrayal of military secrets.

There are now fourteen persons in custody, of whom twelve, including four civilians, one of whom, it is said, belongs to the nobility, will be charged with high treason.

The two who will not be arraigned on the charge of high treason will appear as witnesses for the state, but they will not be released before the trial, which in all probability will be held in secret.

Debtor Jailed.

St. Catharines, Sept. 14.—Alonzo Lacey of Port Colborne was summoned to attend division court at Port Colborne as a judgment debtor because he owed Dr. Hutton a little bill of $22 and refused to settle. Lacey refused to obey the summons to court. County Judge Wells of Welland sentenced him to ten days in Welland Jail.

Capt. W. J. Miller, of Simcoe, Ont. celebrated his one hundredth birthday.

It is reported Dr. Coulter, Deputy Postmaster-General, will return to active politics.

Many Matters to be Dealt With

Committee of Whole and City Council Meets To-night

This will be a busy night for the aldermen and the other city officials who find it necessary to attend council meetings. The committee of the whole council will meet at eight o'clock and at nine o'clock the regular meeting of the council will be held. There will be reports from all the committees and as several important matters are on the bill of fare, a long session of the city fathers is likely to be the result.

Great Hullabaloo About Nothing; Dr. Coughlin Again Attacked

The Toronto News Demands That He be Dismissed for Occupying Seat on Platform at the Borden Meeting—The Joke of the Whole Matter is That the Doctor Was Not in Peterborough at the Time of the Gathering But Was 65 Miles Away on Night in Question.

Apparently basing his conclusions on the misleading information appearing in the Examiner, an alleged "Independent Liberal" of Peterborough, writes a sarcastic letter to the Toronto News reflecting on Dr. Coughlin, a former respected citizen of Peterborough, and now superintendent of the Deaf and Dumb Institute, Belleville.

On this flimsy assumption the News goes off at half cock and makes a rather vicious editorial attack on Dr. Dr. Coughlin, all because he is alleged to have occupied a seat on the platform in the opera house at the Borden meeting on Wednesday night last.

The Examiner in publishing a list of names of those on the stage whether maliciously or otherwise, included the name of Dr. Coughlin of Belleville.

So-called "Independent Liberal" immediately gets red in the face and despatches post haste a vitriolic letter to Toronto News in which he wilfully adds "Dr. Coughlin no doubt came from Belleville to Peterborough to attend Mr. Borden's meeting."

No greater injustice to Dr. Coughlin than imputing such motives could possibly be done.

In the first place Dr. Coughlin was not near the meeting, let alone occupying a seat on the platform. He was in Belleville sixty-five miles away. He naturally considers that he has been grossly misrepresented.

Dr. Coughlin, since his appointment to the superintendency of the Deaf and Dumb Institute, Belleville, in November last has proved to be an admirable and faithful public servant. He has inaugurated many reforms and has so devoted himself to the work that he took no holidays this year with the exception of three or four days spent among his old friends in Peterborough the week before last. To imply that he is running around the country attending political meetings or taking any part whatever in politics is doing him gross injustice and casting grave reflections on one of the most efficient officers in the educational department of the Province of Ontario.

Dr. Coughlin wired the Review today, "Please state as prominently in your paper as possible that I was not in Peterborough during recent political meeting and did not therefore occupy a seat on the platform or anywhere else. I was in Belleville. I am also notifying Toronto News and Peterborough Examiner to this effect.

The editorial in the Toronto News on Saturday night creating a man of straw for the purpose of knocking him down is:

Independent Liberal writes to The News from Peterborough; "I have "been a reader of your paper since its "publication and am a citizen with "Liberal leanings. Now I have read "in The News that Mr. Borden deserves great praise for the declara"tion of non-partizan civil service. "In this I agree with both you and "and Mr. Borden. In view of this I "would like to know from you what "you think of the action of Dr. Cough"lin, the Superintendent of the Deaf "and Dumb Institution at Belleville, "an appointee of Mr. Whitney, oc"cupying a seat on the platform at "Mr. Borden's meeting. Dr. Coughlin "was an earnest campaigner in Pet"erborough and no doubt came from "Belleville to Peterborough to attend "Mr. Borden's meeting. Was it "decent? Was it proper? What has "Mr. Borden and The News to say "about it? Can you expect a non"partizan civil service from a leader "that will wink at such actions as I "have just stated? Mr. Whitney "made a similar promise when in Op"position with respect too the license "laws. In an editorial the other day, "The News stated 'that to say that "Mr. Whitney had removed the lic"ence laws from politics was a sham "and a humbug.' What I want is an "explanation from The News as to "how Mr. Borden can reconcile his "action in taking a seat upon the "platform on Wednesday night with "a civil servant—an appointee of Mr. "Whitney, with his declaration for a "non-partizan civil service."

In the main the News is bound to agree with its correspondent. If Dr. Coughlin, who holds one of the chief places in the civil service of Ontario, came to Peterborough in order to attend Mr Borden's meeting and took a seat on the platform, the action was both unwise and indecent. If the facts are as stated Dr. Coughlin should be disciplined if not summarily removed from office. It was the fashion some years ago both for Liberal and Conservative officials to appear on party platforms and to take part in party contests. During the last eight or ten years, however, the impropriety of such action has been generally asserted and thoroughly established. Any civil servant who now goes upon a party platform or interferes in an election does so at his peril and in defiance of settled principles of government, and thereby declares himself unfit to hold a non-political position. But surely Mr. Borden is not to be held responsible for Dr. Coughlin's appearance at the Peterborough meeting. Does Independent Liberal suggest that Mr. Borden should have denounced the doctor from the platform or should personally have ejected him from the building? It would be going far to suggest that the leader of the Opposition should create a disturbance at one of his own meetings. It is to Mr. Whitney and the Provincial Secretary that Dr. Coughlin is responsible and that he should be summarily disciplined in case the facts are as stated by Independent Liberal, hardly needs to be suggested.

GENTLEMEN:—

Who demand correct apparel made to their own order, from the finest Imported Woollens of the best British Drapers, are invited to inspect our Entensive Stock of NEW FALL SUITINGS and OVERCOATINGS, VESTINGS, etc. Our Tailoring Department has proved so satisfactory for so many years, that those whom we have fitted before come back to be fitted again.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for an case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

A MEETING OF THE DIRECTORS

Will be Held in Offices of Port Hope B. and M. Co. on 25th

Mr. R. W. Smart, secretary of the Port Hope Brewing and Malting Co., has given notice that a meeting of the directors will be held on Sept. 25 at the company's offices in Port Hope. The meeting will be an important one and many matters in connection with the business of the firm will be taken up.

Temporary Isolation Ward In the City Buildings

Scarlet Fever Patient Placed in Room in the Third Storey—Chairman of Board of Health Protests.

A place has at last been secured in which to place the city's scarlet fever patient. Rooms have been fitted up in the third storey of the city buildings at the corner of Water and Simcoe streets, and yesterday morning the girl was taken from her home on Downie street and placed in the temporary isolation hospital. The rooms have been fitted up with all the requirements of a hospital ward and the medical health officer and other authorities think that they have solved the problem of having the patient isolated for the time being at any rate.

Chairman Wm. Eyres of the Board of Health, protested vigorously against using the city buildings as an isolation hospital. He says that they are no place in which to isolate contagious disease patients and furthermore that the place of isolation, according to the health act, must be 150 yards from any inhabited dwelling. The chairman's protest, however, seems to have been of little avail.

The entrance leading to the room where the patient is confined has been placarded in the usual manner.

THE PETERBORO' COLLEGE OF MUSIC

Mrs. W. J. Morrow, F.N.C.M., Principal, opens Monday, Sept. 9th. Intending pupils in vocal and instrumental instruction can arrange for hours between 10 and 12 a.m. and 2 and 9 a.m. 12d

Employee Rifled Farmer's Pockets

Took $37 From North Monaghan Man and Made Good His Escape

In order to recover thirty-seven dollars that a young man, formerly employed with Mr. Chas. Payne, a North Monaghan farmer, is alleged to have stolen, the employer called at the police station to swear out a warrant for the young man's arrest. As the offence occurred outside the city limits, it comes under the jurisdiction of Magistrate Edmison. He was therefore sent to see the county magistrate.

According to Mr. Payne's story, the man, although not having worked for him since spring, met him in the city last Tuesday and asked if he might come out to his place and stay for a few days, as he had been sick. The good natured farmer willingly took him out and gave him the room adjoining his to sleep in. Little thinking that he had a thief in his house, the deceived yeoman, in his presence took out $37 counted it and put it back in his trousers pocket. He now sees the foolishness of his act, but he had put every confidence in his hired man.

The former employee remained in the house until Thursday, when he returned to his boarding house in the city. It was learned that he paid up his board and left for Claremont, where he was to spend a few days before going to the Northwest. He had no money before going out to the country and could not pay his board, so it looks as if he entered his friend's room and emptied his pockets. The unfortunate farmer did not miss the money till Saturday evening and at once suspected his visitor. He came to the city and wanted a warrant issued to have him arrested at Claremont before he has a chance to proceed farther. It is a lesson to Mr Payne and everyone else, not to pull out a large sum of money before anyone and thus place temptation in the way of people.

The Sawmill at Gilchrist's Bay

Destroyed by Fire at an Early Hour This Morning

The sawmill at Gilchrist's Bay, Stony Lake, was destroyed by fire about three o'clock this morning. The cause of the blaze is a mystery and residents of the vicinity are of the opinion that the fire was of incendiary origin. The mill was operated by Lynch & Ryan, and was working on Saturday. Everything seemed all right, when the men left the place on Saturday night.

The loss will be considerable and the destruction of the mill will be severely felt as it was a great convenience to the farmers of the district.

LAKE STREET SCHOOL OPENS

Enlarged Building Affords Ample Accommodation

The Lake street Separate school opened for the fall term this morning and, with the additional two rooms, the new water service, and the splendid heating equipment, the premises are large and sanitary and afford comfortable accommodation to the scholars.

In the new rooms, the classes of the third and fourth books will be instructed, and the teachers in charge are Sisters Aquinas and Patricia, the latter being principal. Those who will look after the other classes are Sisters St. Paul, St. Louise and Bertilde. The increase this term on the attendance of last season is in the neighborhood of forty pupils.

Father McColl, local superintendent of Separate schools presided over matters in connection with the opening and arranging of classes and the placing of those who were promoted last year.

The contractors who so creditably performed their work in connection of the enlarging and fitting of the building are Pease & Co., Toronto, who installed the furnace, Mr. Frank McPherson being in charge of the work; Mr. C. A. J. Duranceau who put in the water service and plumbing and Messrs. T. and C. Rutherford who constructed the new addition to the building.

Thanksgiving is to be on Oct. 31.

Harvest hands are scarce in the west.

SPECIAL ATTRACTIONS THIS WEEK AT THE ROLLER RINK

WEDNESDAY NIGHT, the 18th — Skating Contest for Men, skating in couples. One prize each.

FRIDAY NIGHT—A BAND CONCERT—The Band will play 24 selections.

We would advise our patrons to get their skates reserved for Friday night, as we could not supply the demand last Friday night, every lady's skate was out and more wanted. Skates reserved without extra charge.

The floor is in good shape and perfectly free from dust.

BAND EVERY NIGHT

Special attention paid to beginners morning and afternoon every day. 'Phone 564.

ROY

MR. FESSENDEN WON A PRIZE

The Canadian Courier, of Toronto is conducting amateur photograph contests. In its last issue it announces the winners of contest No. 1. Mr. C. Fessenden, principal of the Peterborough Collegiate Institute, captured fifth prize, his subject being "Chums," showing a white-whiskered grandfather, with a bright little grandson sitting on his knee. Youth and old age are resting in an arm-chair out in the yard under the shade of a tree.

Evening Sermons are Re-commenced

For the first time since the warm summer months, Rev. Dr. O'Brien, opened the course of evening sermons last night at St. Peter's Cathedral. Rev. Father McColl preached in the morning.

THE CITY AND VICINITY

EVENTS TO-NIGHT

City council—Meeting of City Council.

Murray street church. — Young people's rally.

CLASS LEADERS

A meeting of the Class Leaders' Association will be held in George street church tomorrow evening. A full attendance is requested.

ST. ANDREW'S W.F.M.S.

St. Andrew's Auxiliary of the Women's Foreign Missionary Society will meet in the lecture hall on Tuesday afternoon at three o'clock.

HARVEST FESTIVAL

The harvest festival of All Saints' church will be held on Friday night next. Rev. Canon Spragge, of Cobourg, will be the special preacher.

ST. JOHN'S A.Y.P.A.

The members of St. John's A.Y.P.A., are asked to meet in the Guild hall tonight at eight o'clock, and especially the members of the Executive Committee.

HE GOT A SHOCK.

"I was crossing the street, the other day, just behind a car and I happened to touch the fender with my finger, when I got a severe shock," remarked a leading citizen to the Review today. "I would like to know if the fenders of all cars are charged with electricity. If so, I would consider them dangerous."

BIG RALLY TO-NIGHT

The Young People will hold a big rally in Murray street church this evening. Addresses will be delivered by C. H. Shutt, of Toronto, and Rev. L. McKinnon, of Gilmour Memorial church. The public is cordially invited to attend.

LAID TO REST.

The funeral of the late Mrs. Abraham Bell took place yesterday, afternoon at three o'clock, from the residence of her daughter, Mrs. Chas. Murty, Cedar street, to the Roman Catholic church, and thence to the Roman Catholic cemetery. At the Cathedral requiem mass was said by Rev. Dr. O'Brien.

A SOLEMN WARNING.

Here's a warning to mothers; A seven-year-old boy in Cheboygan, Mich. is dying. His mother spanked him, and did not know that he had a dynamite cap in his pocket.

LITTLE GIRL THROWN OUT.

As Dr. Frederick suddenly turned the corner of George and Hunter street in his automobile at noon today a little girl who was seated beside him was thrown out, but was not injured. In fact, the child escaped without a scratch.

INSURANCE MEN MEET

The Central Ontario Life Underwriters' Association will meet tonight at 8 o'clock, at the Great West Insurance Co's office, in the Bank of Commerce building when the reports of the delegates to the recent convention in Toronto will be presented.

SAID FAREWELL

Mr. Denis Hayes, late of the Quaker Oats Co., who is leaving for Rochester to reside, was tendered a farewell banquet on Friday night by his friends in the packing department. He was presented with a valuable leather travelling bag, and an appreciative address. The pleasant affair took place at George Thomas' restaurant.

NO CAUSE FOR ALARM

On Tuesday night our citizens were aroused by an alarm of fire. Great excitement prevailed, but the people dashed bravely to the fire hall, whence the alarm came. All were firmly resolved to die fighting the deadly flames which threatened the existence of our beautiful little city. But it was a false alarm — there was no danger; the noise, which was mistaken for the fire whistle was made by the Hazleton band, playing their first piece.—Hazleton (Iowa) Advance.

The Fall Opening of the J. C. Turnbull Co.'s Millinery Parlors will be held on Thursday, Sept. 19th and and following days, when all the latest ideas in Ladies' trimmed Hats will be on exhibition and Ladies Coats, Skirts, Blouses, etc will also be on display.

Is an Action To be Entered?

Rumor on Street Regarding the Board of Health

It is rumored on the street today that action will be taken against the Board of Health on the grounds that the placing of the scarlet fever patient in the city buildings is a violation of the Health Act. It is said that a local citizen has consulted a lawyer regarding the matter, and that a police court case will be the result. It is understood that the grounds upon which the action will be based is that the place where the patient is isolated is not the required distance from inhabited dwellings.

Chairman Wm. Eyres has repudiated the action of the Board of Health in what has been done, and and disclaims all responsibility.

SHOES SURPASSINGLY GOOD

Claim That the Way to Conquer Competition is to Always Get the Best.

The Ontario Sales Manager of the Dolly Varden Shoe Company, and one of the directors of the Foot-rite Shoe Company, have promised to be in Peterborough this week to attend the opening of the fine boot and shoe department in Creasman's enlarged store. The success achieved by those shoes since their introduction into Canada has surpassed that of any footwear ever introduced. There is always a demand for fine, dependable goods. In Toronto Frank Mercer, a Peterborough Old Boy, owns the Dolly Varden store, and under his direction the sales have nearly doubled. In Montreal and Winnipeg, where there are handsome stores devoted exclusively to the selling of Dolly Varden shoes for ladies and Foot-rite Shoes for men, the sales this year are nearly 100 per cent larger than those of the first year.

In securing these two agencies Mr. Creasman displayed his usual business sagacity in a quick capture of goods which are surpassingly good. This is the way to conquer competition, for when one gets the leaders, it is "the other fellow who cannot compete." ld

OBITUARY

MR. JOHN WEDDELL

There passed away yesterday, at the residence of his son, Alexander, 138 Gilmour street, Mr. John Weddell in the 71st year of his age. The deceased had been ill only ten days, death being due to a general breaking up of the system. The end came at 10.45 o'clock yesterday morning.

The late Mr. Weddell was born in Berwickshire, Scotland, and came to Canada twenty-two years ago. He had resided in and near Peterborough ever since arriving in this country. For several years he followed gardening, but of late had lived retired. His wife predeceased him some fourteen years. The late Mr. Weddell had a wide circle of friends and was highly respected. He was a member of St. Andrew's church. Two children survive him. They are Alexander of this city, and Mrs Bruce Anderson, of Oxbow, Sask.

The funeral will take place tomorrow, Tuesday afternoon at 2.30 o'clock, from the residence of Mr. Alexander Weddell, 138 Gilmour street to Little Lake cemetery. Rev. W. W. McCuaig, of Point Levis, Que., who preached in St. Andrew's church yesterday will conduct the services. The funeral will be private.

INFANT EXPIRES.

The many friends of Mr. and Mrs. Geo. Fowler, North Monaghan, will sympathise with them in the loss they have sustained by the death of their infant child which occurred this morning at 10 o'clock.

The funeral took place at 2.30 this afternoon to the Little Lake cemetery.

PERSONAL

Mr. N. E. McWilliams is in Toronto today on business.

Mr. J. G. Preston, of Smith's Falls, is at the National.

Mr. Joseph Devlin has gone to Rochester, where he will reside.

Mr. Melville Hartley, son of Mr. Wm. Hartley, Water-st., who was with the Bank of Montreal at Eglington, has been transferred to the local branch. He commenced his duties this morning.

Mr. and Mrs. Alex. Grant and little son, of Peterborough, were in town last week. During his stay Mr. Grant spent some time with Mr. Brophy head engineer of the Trent Canal.—Trenton Courier.

Mr. Gerald Hall, son of Mr. E. H. D. Hall, city solicitor, will leave this week for New York, from which city he will sail on Saturday for Puerto Rico, West India Islands, where he has taken an important position as electrical engineer. His many friends will wish him every success in his new field of labor.

Two Cars Off at Matthews' Siding

Auxiliary Worked all Forenoon Getting Them Back on Rails Again

On the C.P.R. siding to the George Matthews' establishment yesterday afternoon, two empty freight cars ran off the track, one of them being turned over on its side. The cars were standing on the siding, and, it is thought, some young lads who were playing on them turned the breaks, and, as it is a down grade towards the river, they could not stop them, and the lads, seeing this, jumped off.

A board fence enclosing Mr. Matthews' property was collided with, and several boards on it smashed and two posts knocked out of place.

This morning the auxiliary train from Havelock arrived on the scene, and after working all forenoon, succeeded in getting the cars again on the track. No damage was done to the cars.

Repairs are being made to the Auburn dam by the owners, the Auburn Woollen Mills Co. A gang of men are at work making various improvements that have become necessary.

LEARN DRESS-MAKING BY MAIL

in your spare time at home, or

Take a Personal Course at School

To enable all to learn we teach on cash or instalment plan. We also teach a personal class at school once a month. Class commencing last Tuesday of each month. These lessons teaches how to cut, fit and put together any garment from the plainest shirt waist suit, to the most elaborate dress. The whole family can learn from one course. We have taught over seven thousand dress-making, and guarantee to give five hundred dollars to any one that cannot learn between the age of 14 and 40. You cannot learn dress-making as thorough as this course teaches if you work in shops for years. Beware of imitations as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address:—

SANDERS' DRESS-CUTTING SCHOOL,
31 Erie St., Stratford, Ont., Canada.

Midland League Championship for Present Season Rests at Port Hope

Masterly Pitching of Toronto Twirler Gave Crawfordites the Victory Over Peterborough at Cobourg in Final Game—It Was a Great Contest—Locals Only Make Two Hits Off Hickey—Story of the Game.

There was nothing to it but Hickey's pitching, but that was more than enough from a Peterborough view. The star twirler of the champion Wellingtons, of the Toronto City League, won the Midland League Baseball championship for Port Hope on Saturday at Cobourg. The Crawfordite infield helped a little bit, but the outfielders might just as well have been sitting in the grand stand eating peanuts for all they had to do, and when it is taken into consideration that the Peterborough team have been considered the heaviest hitting aggregation in the league—well, if Fred Hickey sticks out his broad chest and walks like the leader of a military band, we don't blame him a great bit.

The score? We've forgotten to mention that, but anyway, it was 4—2, and, sad to relate, the quartette belonged to Port Hope.

While a victory and the league championship would have been welcomed in Peterborough, the local fans are not squealing about the defeat. It was a fairly and squarely fought contest, and under the conditions the winning team deserved the game. The Peterborough team played for all that was in them until the third man was out in the last innings, but it was no use. There have been times this season when the locals were unable to hit, when hits meant runs, but on Saturday they were not able to hit at any old time. If Surphlis had been the opposing twirler, there is little doubt but that Port Hope would not have celebrated on Saturday night. The Petes played good enough ball to win any ordinary game, but they only made two hits during the nine innings, and few matches are won on this number of bingles.

TRAVELLED ON SPECIAL

The special train bearing the Peterborough team and some 300 supporters left the G.T.R. station at 1.30 and reached Cobourg at 2.45. At Port Hope about 100 people got aboard. The game was attended by about 1,200 persons, half of Port Hope's population having driven over, every rig in the town from the cushioned landau to a lumber wagon being engaged carrying Crawfordite supporters to the eastern burg. Cobourg, too, turned out en masse and, having forgotten the occasion when the Peterborough sluggers put the wood to their $100 Eastern League pitcher, yelled for the Electric City team as if the boys in blue and white were their own. It was a perfect day for baseball, although the sun shone too brightly for players in the left part of the diamond. It was nearly four o'clock when the game commenced, and from the time the first ball was shot over there was almost a constant roar from the fans. At one time it was the Peterborough and Cobourg contingent that was doing the rooting; then a Port Hope man would do a stunt and the Crawfordite supporters would would break loose. The ringing of cowbells, tooting of automobile horns and the noise of other instruments of torture added to the din raised by hundreds of voices.

PORT HOPE WAS STRONG

Intent on winning the championship Port Hope had strengthened for the game. Even the great Surphlis was not considered good enough for to go on the firing line against the Peterborough swatsmiths, and Fred Hickey, slab artist for the champion Toronto Wellingtons, of Toronto, was secured. And he proved that he was IT, spelt in capital letters. He had the Peterborough batters completely at his mercy, and in only one innings, the fifth, did as many as five men face him. Out of the thirty-one men who handled the hickory, he struck out thirteen, only walked one man, and allowed only two hits, singles, too. Burridge and Haliburton were the only players to connect safely with his delivery. In the fourth innings he struck out three men in succession, and they were good batters, too, but not on this occasion. Hickey had speed to burn, shooting them across like rifle balls. And he had control, too, and a variety of curves that completely fooled the batters. His control, too, was superb, on one occasion, six balls being sufficient to fan two men. In addition to his great work on the hump, Hickey was there with the hickory, getting two out of the five hits credited to the Port Hope team, and to show that he meant it, he made one of them a two bagger.

Besides importing a new pitcher, Port Hope had also strengthened up in several other positions. Winchester, of the Wellingtons, was at short, while "Dinny" Burke, of the fast Brantford City League, was at right field. "Dinny" had but little to do, only one ball coming his way, which he made a nice catch of. "Curly" Ross played good ball, getting two timely hits, while Jimmy O'Hearn had the other one of the quintette.

THE PETERBOROUGH LINE-UP

The Peterborough team was the same as which played in Port Hope the previous Saturday, with the exception that "Dubby" Shea, an old Peterborough player, but who has been playing in Brantford the last two seasons, was at right field. "Dubby" did what he had to do well, but he was no more successful with the stick than his team mates.

Clements again did the twirling, and held the heavy hitting Port Hope aggregation down to five hits—good enough pitching to win any ordinary game. Three of the bingles were timely ones, however, and resulted in counters. It is doubtful if any other pitcher in the district could have done any better than Clements, and it was no fault of his that the game was lost. In Hickey, however, he was opposed by a superior twirler.

MURPHY'S GREAT WORK.

One of the features of the game was Murphy's great work in left field. Nine flies, long ones, too, went to his territory, and seven of them he handled beautifully. His work is all the more creditable because the sun was right in his eyes, making it exceedingly difficult to judge where the ball was going to drop. One of his catches was sensational, inasmuch as everyone was sure a two base hit was going to result from the hard clout that had sent the ball skimming towards the left fence. Although they came at a bad time, and both in one innings, Murphy's two errors were excusable.

CHEATHAM'S GREAT CATCH.

Cheatham again electrified the fans by a whirlwind catch of O'Neill's fly in the second innings. It was a great piece of work, and without doubt was one of the prettiest catches ever seen on a Cobourg diamond. The other members of the team played fine ball, their hitting being the only department where the bright light did not shine.

Considerable money changed hands as a result of the match, but the local backers are not wailing. They do not begrudge Port Hope the victory but
"Only hope to meet another day."

THE SUMMARY

Below will be found the summary and the story of the game by innings;—

xTurpin batted for Hickey in the ninth

Score by innings;
Port Hope—000030100—4.
Peterborough—000010001—2.

Earned runs, Port Hope 2, Peterborough 1; first base on errors, Port Hope 6, Peterborough 2; two-base hit, Hickey; sacrifice hits, Winchester 2, O'Brien; struck out by Hickey 13, by Clements 1; first base on balls, off Hickey 1, off Clements 2; stolen bases, Peterborough 8; left on bases, Port Hope 9, Peterborough 3; time, 1.45. Umpire, Walsh, of Toronto.

BY INNINGS

First Innings — Port Hope — O'Brien was up and went out, Haliburton to Hickey. Benson dropped a fly over the pitcher's head and Anderson and Cheatham both went after it and neither of them got it. The ball was in Anderson's territory, but it was an excusable error on Cheatham's part. Winchester sacrificed, advancing Benson to second, and going out Cheatham to Hickey. Ross was walked and O'Hearn drove the spheroid to the left field, but Murphy made the first of a series of brilliant catches. No runs.

Peterborough —Burns led off and tapped one out to O'Brien which was fumbled and the batter made first. Hickey struck out and Burridge was retired with a fly to Ross. Anderson struck out, leaving Burns at second, which he had pilfered. No runs.

CHEATHAM'S BRILLIANT CATCH

Second Innings —Port Hope — Burke struck out, incidentally being the only Port Hope man to strike out during the day. Kolb's fly was caught by Burns and then Cheatham did a stunt that was one of the features of the day. O'Neill pounded the ball hard between third and short, and not one among the spectators thought that anyone would get it. Cheatham chased it, however, and made a brilliant catch that brought applause from supporters of both teams. The catch retired the side. No runs

Peterborough — Cheatham struck out and Shea and Murphy each went out, pitcher to first base. No runs.

Third innings — Port Hope— Hickey singled and O'Brien sacrificed, going out, Burridge to Hickey. Benson went out, Cheatham to Hickey, and Winchester made first on Cheatham's fumble. Ross flew out to Murphy. No runs.

Peterborough — Haliburton flew out to O'Hearn, Clements died, O'Hearn to Kolb, and Burns went out pitcher to Hickey. No runs.

Fourth innings — Port Hope — O'Hearn flew out to Murphy, and Burke's foul tip was caught by Burridge. Kolb was walked and O'Neill went out, Cheatham to Hickey. No runs.

Peterborough — Hickey, Burridge and Anderson struck out. No runs.

PORT HOPE SCORES

Fifth innings —Port Hope —Hickey flew out to Murphy. O'Brien made first on Clement's fumble of the ball Benson got fielder's choice, O'Brien going out at second, Haliburton to Anderson. Winchester pounded the ball to left field and Murphy dropped it, letting Benson get to third. Ross singled and scored Benson and Winchester. O'Hearn singled and Ross went to third. Burke hammered another one to Murphy's territory, which the left fielder let drop, allowing Ross to come in. Kolb went out, Cheatham to Hickey, retiring the side. Three runs.

PETERBOROUGH GETS ONE.

Peterborough — Cheatham struck out, and Shea's long fly was caught by Burke. Murphy got first on O'Neill dropping the third strike. The left fielder stole second and third, and scored on Haliburton's single. Clements struck out. One run.

Sixth innings—Port Hope — Only three men faced the pitcher. O'Neill's fly was caught by Murphy. Hickey grounded to Anderson and failed to make first and O'Brien went out Haliburton to Hickey. No runs.

Peterborough — Only a trio of batters came up again. Burns went out, pitcher to first. Hickey's fly was caught by O'Brien and Burridge flew out to O'Brien. No runs.

ANOTHER FOR PORT HOPE

Seventh innings—Port Hope —Benson walked and Winchester sacrificed. Ross singled to left field and Cheatham tried to catch Benson at the plate, but failed. Ross reached second on the play but stayed there, O'Hearn going out, Cheatham to Hickey and Burke flying out to Burns. One run.

Peterborough — Anderson and Cheatham struck out. Shea walked, and Murphy struck out. No runs.

Eighth innings — Port Hope—Kolb went out, Haliburton to Hickey, O'Neill flew out to Murphy, Hickey got a two-bagger, but O'Brien went out pitcher to first. No runs.

Peterborough — Haliburton and Clements struck out and Burns went out, pitcher to first. No runs.

Ninth innings — Port Hope —Benson went out, on a grounder to Haliburton, Winchester made first on Anderson's error, Ross flew out to Murphy, and O'Hearn went out, Cheatham to Hickey. No runs.

PETERBOROUGH'S SECOND.

Peterborough —Turpin batted for Hickey and went out, pitcher to first. Burridge singled and stole second and third. Anderson went out O'Hearn to Kolb, and while he was batting a fight developed near the grand-stand and excited the curiosity of Barney O'Neill to such an extent that the Peterborough catcher came home with Barney holding the sphere in his hand. Cheatham went out, O'Hearn to Kolb, and the side was retired, the game and the Midland League season were over, and the Port Hopers had the championship. The Port Hope supporters cut loose and with cheers that must have shook the glass in the Cobourg light-house, rushed on the field and carried the victorious players away shoulder high.

WORK AND TALK

A chairman at a recent political meeting in introducing, without a speech, the speaker of the day, declared that there was too much speaking and too little work in Canadian politics. The expression is common, but it is curious how it ever came to be considered sound sense. What is work and what is talk in Canadian politics, asks the Toronto News! Aside from the duties of the administrator of a department, talk, that is to say, explanation and criticism is synonymous with work in a country with representative government.

What "work" do the constituencies need except to have the electors persuaded to take a keen interest in the questions of the day, and to have explained to them the attitude of the Government towards those questions! This educating of the people in political affairs, is one of the two great duties of Parliament, and the success or failure of parliamentary government in a given country largely depends upon whether Parliament performs this duty well or ill.

What other work than talk is required in Parliament? What honorable thing can a member do for his country, or for his constituency, who sits throughout a whole session with his mouth closed, except to answer "aye" or "nay" when his name is called in a vote. Any "work" which is not done fairly and openly in Parliament or in committee, must be done in hounding weary Ministers for places or favors for friends, and appropriations for constituencies. Canadian constituencies and Canadian voters have not yet sunk so low that they prefer a lick-spittle, time serving getter of bridges and wharves to a D'Alton McCarthy or an Edward Blake.

Talk is not cheap. If it were Governments would not so strenuously discourage it. Talk costs. It costs an Opposition weeks and months of delving in dry reports and departmental papers. It costs brains and labor to formulate and resent criticism. Talk costs Ministries their leisure, their easy-going sacrifice of public rights, and in the end it costs them their political lives.

LEFT FOR LONDON THIS MORNING

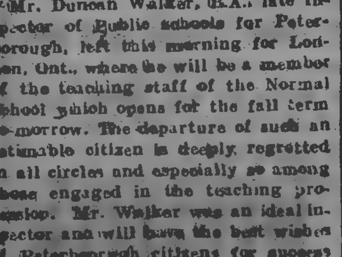
Mr. Duncan Walker Leaves to Commence His New Duties

Mr. Duncan Walker, B.A., late Inspector of Public schools for Peterborough, left this morning for London, Ont., where he will be a member of the teaching staff of the Normal School which opens for the fall term to-morrow. The departure of such an estimable citizen is deeply regretted in all circles and especially so among those engaged in the teaching profession. Mr. Walker was an ideal inspector and will have the best wishes of Peterborough citizens for success in his new position.

Mr. Mowat, of Brockville, the new inspector, is expected here about Oct. 1st.

RHEUMATISM

MUNYON'S 3X CURES



I will refund your money if it fails. Munyon

Think of a remedy that relieves sharp, shooting pains in any part of the body in from one to three hours and effects a perfect cure in a few days.

It purifies the blood. It neutralizes the acid and takes all inflammation and soreness away. Have you a lame or aching back, lumbago or sciatica?

Have you stiff or swollen joints, no matter how chronic? Ask your druggist for Munyon's 3x Rheumatism Cure and see how quickly you will be cured.

If you have any kidney or bladder trouble get Munyon's Special Kidney Cure. Money back if it fails. Munyon's Vitalizer makes weak men strong and restores lost powers.

News of the City Churches

CHARLOTTE ST. CHURCH

A missionary meeting of the Epworth League of Charlotte street Methodist church will be held this evening.

The monthly meeting of the Woman's Missionary Society will be held to-morrow afternoon at three o'clock.

Rev. Dr. Griffin will preach sermons in the interest of the superannuated minister's fund of the Methodist church on Sunday, Sept. 29th.

GEORGE STREET CHURCH

The Epworth League meets to-night at 8 o'clock.

The class leaders of the city will meet on Tuesday evening at 8 o'clock.

Prayer meeting will be held on Wednesday evening at 8 o'clock.

KNOX CHURCH

The usual prayer meeting in Knox church will be held on Wednesday evening at 8 o'clock.

The Boy's club will meet on Friday evening at 7.30 o'clock.

MARK STREET CHURCH

The Epworth League meets to-night at 7.30 o'clock.

The Trustee Board meets on Wednesday night at 7 o'clock.

The weekly prayer meeting will be held on Wednesday at 8 o'clock.

Cottage Prayer meeting will be held at the residence of Mr. Jas. Fowler, 686 Concession street.

ST. ANDREW'S CHURCH

The Ladies' Foreign Missionary Auxiliary will meet to-morrow, Tuesday, afternoon, at 3 o'clock.

The Young Men's Guild will meet to-morrow evening at 8 o'clock.

The regular weekly prayer meeting will be held on Wednesday evening.

MURRAY STREET CHURCH

There will be a big rally of young people in Murray street this evening to which all the societies of the district have been invited. Addresses will be delivered by Rev. C. H. Schutt, pastor of Century Church, Toronto, and Rev. L. McKinnon, of Gilmour Memorial Church. Refreshments will be served at the close.

The prayer meeting will be held on Wednesday evening.

The pastor, Rev. J. R. Webb, announced that the annual contribution to missions will take place on Sunday next. Last year Murray street church gave $191.35 and this year $215.00 is asked for. Mr Webb strongly urged liberality on the part of the congregation and said they would all feel better for the giving. They had a former pastor, Rev. F. J. Scott, in the foreign field, laboring in Bolivia, and as they thought of the loneliness of his work in South America, it should prove an incentive to all to contribute to missions.

Rev. Mr. Webb also announced that Rev. Elmore Harris, D.D., of Toronto would preach in Murray-st. Baptist church on Sunday morning next.

ST. PAUL'S CHURCH

Rev. Dr. Talling preached at both services in St. Paul's church on Sunday. In the morning he spoke on "Looking unto Jesus." In the evening his subject was "Three men with a problem." Large congregations were in attendance.

The Board of Managers will meet to-morrow evening.

The regular weekly prayer meeting will be held on Wednesday evening. Dr. Talling will be in charge and the topic will be "The human side of our intercommunication with God."

ALL SAINT'S CHURCH

Owing to the illness of Rev. Wm. Major the morning service in All Saints' church was taken by Mr. Harry Rush. In the evening Mr. T. H. Perry conducted the service.

The Girl's Guild will meet this evening at 7.30 o'clock.

The Woman's Auxiliary will meet on Tuesday at 2.30 o'clock.

On Wednesday evening the boy's club will meet at 7.30 o'clock and on Thursday evening there will be choir practice at 8 o'clock.

The harvest festival will be held on Friday evening next at 8 o'clock. Rev. Canon Spragge, of Cobourg, will be the preacher. Special music will be provided.

ST. LUKE'S CHURCH

The Rector asked for contributions of grain, vegetables, flowers and fruit for the harvest festival decorations, which will begin to-day.

To-morrow night the Brotherhood of St. Andrew will go to St. Mark's parish and assist the Rector in the cottage meeting to be held at the residence of Mr. Thos. Graystock, Otonabee.

The Mother's Guild meet on Wednesday at 3 o'clock.

The final rehearsal of the festival music will be held on Wednesday at eight o'clock.

Dr. Langfeldt will hold his weekly cottage meeting on Wednesday evening at the residence of Mr. and Mrs. J. F. Quinn, who have kindly invited him to do so.

The W.A. meet on Thursday at 2.30 o'clock.

The annual harvest festival will be held on Thursday at 8 o'clock. The Very Rev. Dr. Farthing, Dean of Ontario, will be the special preacher. Offertory for missions.

On Friday evening at 8 o'clock a meeting of the young people will be held to consider the formation of an Anglican Young People's Association.

The Girl's Auxiliary will resume their weekly meetings on Monday, Sept. 23.

ST. JOHN'S CHURCH

The executive of the Young People's Association will meet to-night to make arrangements for the coming season's work.

The Woman's Auxiliary will hold a regular meeting to-morrow afternoon.

An open meeting of the Brotherhood of St. Andrew will be held on Wednesday evening. All the men of the congregation are invited.

A fellowship tea for men will be held next Sunday evening at five o'clock. Strangers will be made especially welcome.

Woodmen Unveil Two Monuments

Impressive Ceremony at Little Lake Cemetery — Late Members Remembered

Little Lake cemetery, the city of the dead, was the scene of a beautiful and impressive ceremony yesterday afternoon when Sherwood Camp, No. 50, Woodmen of the World, unveiled monuments to the memory of two deceased berthren, the late Sovereigns Fred Wyatt and Richard Foster.

The day being a fine one, a large number of people gathered to witness the solemn proceedings, connected with the unveiling.

The members of the order met in their hall at half past two o'clock, and in company with representatives from Omemee and Lakefield lodges, marched to the cemetery.

The ceremony of the Woodmen in connection with the unveiling of a monument, is a very interesting one. Among the strong features of the Woodmen is that upon the death of one of their members they erect a tombstone to his memory, their motto being "Love, honor and remembrance." The officiating officer yesterday was Sovereign W. C. Fitzgerald, head clerk of London, Ont., and those who assisted him, were Lieut. D. Cinnamon, of Lindsay. L. Taylor, of Brantford, head manager, and Sovereign Geo. Armstrong, of the local order. Suitable hymns were sung by a male quartette, consisting of Messrs. R. J. Davey, W. Wesley, W. Coleman and Geo. Chandler.

The monuments are very beautiful ones and bear the following inscriptions:

"To the memory of Frederick George Wyatt, born November 17th, 1889, and died March 7th, 1907. Erected by the Canadian Order Woodmen of the World."

The other one is "To the memory of Richard Foster, born December 22nd, 184., and died March 5th, 1907, Erected by the Woodmen of the World." Sovereign Taylor, of Brantford, read an address, referring to the objects of the Woodmen in erecting monuments to the memory of deceased brethren and also expressing sympathy for the bereaved ones.

After the unveiling the members walked back in a body to their hall, Hunter-st.

WILL HOLD BIBLE STUDY RALLY AT Y.W.C.A.

On Sunday afternoon next a Bible Study rally will be held at four o'clock at the Young Women's Christian Association. It will be conducted by Rev. Elmore Harris, D.D., of Toronto, and all are cordially invited to attend.

The convention of the Street Railway Association is in progress in Montreal.

VERY GOOD HOME MADE REMEDY

Anyone Can Prepare This Mixture Which is Said to Relieve Catarrh

The coming months will be a harvest for the doctors and patent medicine manufacturers unless great care is taken to keep the feet dry, also dress warmly.

This is the advice of a well-known authority and should be heeded by all who are subject to rheumatism, kidney and bladder troubles and especially catarrh. While the latter is considered by most sufferers an incurable disease, there are few men or women who will fail to experience great relief from the following simple home prescription, and if taken in time it will prevent an attack of catarrh during the entire season.

Here is the prescription which any one can mix: Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake well in a bottle and use in teaspoonful doses after each meal and again at bedtime.

These are mostly vegetable ingredients and can be obtained from any good prescription pharmacy at small cost.

The Compound Kargon in this prescription acts directly upon the eliminative tissues of the kidneys to make them filter and strain from the blood the poisons that produce all forms of catarrhal affections. Relief is often felt even after the first few doses and it is seldom that the sufferer ever experiences a return attack within the year.

This prescription makes a splendid remedy for all forms of blood disorders and such symptoms as lame back, bladder weaknesses and rheumatism pains are entirely dispelled.

As this valuable, though simple recipe comes from a thoroughly reliable source, it should be heeded by every afflicted reader.

HAVE ISSUED VALUABLE BOOK

Machine Telephone Company Keep Abreast of the Times

The Canadian Machine Telephone Company, Limited, Duncan street, Toronto, who operate a Lorimer automatic system in Peterborough, Ont., have published a little book giving the opinions of representative men in that city on the service rendered; as well as some of the numerous visitors from other sections who have gone out of their way to investigate it. Their testimony is uniformly gratifying to the management of the above energetic company.—Telephone Age.

EXPERIENCE OF AN UNDERTAKER

Could Scarcely Tell Whether Body Was Dead or Alive

"Have you ever met a case where you had doubt as to whether you were handling a corpse or a body that contained life?" was asked of a prominent Peterborough undertaker.

"Well, I'll tell you of one rather startling experience that I had several years ago. A well known person died in Peterborough, and I was called to prepare the body for burial. Just as I was beginning work upon it, something happened that caused me some uneasiness. When I raised one of the hands to place it in a certain position, a couple of fingers began to twitch. I raised the hand a second time, and again the twitching occurred. Then I called the nurse, who had been in attendance, and showed her the twitching. We agreed that it would be best to call in the doctor who had attended the case, as I didn't want to touch the body until he had examined it again.

"Again the fingers twitched when the doctor moved the hand. He was puzzled, but said that it was no doubt caused by contraction of the muscles. He was positive that the person was dead, as it was impossible for life to be in the body, in view of previous circumstances. He made all known tests, and we were satisfied that the party was dead. To be further sure, I decided to do as little as possible to the body till next day, for the person in question was an acquaintance of mine, and had once laughingly asked me to make absolutely sure that he was dead before burying him. Later in the day the fingers ceased twitching. Nothing concerning the occurrence was mentioned to the family, as they would only have worried, and an excuse was made for calling back the doctor."

THE PRICE OF HAY

To the Editor of the Review.

Dear Sir,—With hay in Toronto at $14 to $15 per ton, and here at $19 to $20, it is strange some member of the staff of the Examiner, or one of that paper's contributors, should keep continually harping on the scarcity of hay in these parts, and thus, by calling undue attention to the matter, cause dealers to think they are justified in raising the price. It must be that the writer I have referred to, whoever he may be, has very near and dear agricultural connections. Does it not appear that I am right—hay?

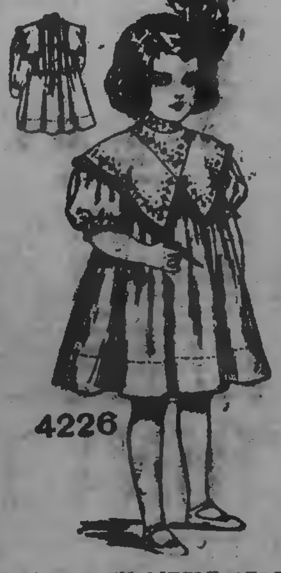
Yours truly,
HORSE OWNER

Peterborough, Sept. 16.

HORSE TRADERS HAVE TROUBLES

Which They Tried to Adjust in the Court But Failed

A rather peculiar case was before Magistrate Jackson last week, and one in which considerable interest was taken. The case was nominally one of horse theft, but apparently arose over some sort of a trade on deal, says the Lindsay Watchman-Warder. The parties to the case were Albert Warren, of town, and Mr. Richard Peets. Several witnesses were heard, among the number being three young boys. As soon as the magistrate heard the evidence, he pointed out the absence of support for the serious charge of horse-stealing. Magistrate Jackson apparently considered it a simple case of horse trading with one of the parties getting the worst of the deal, as is usual in horse trades. If Mr Warren had been defrauded in the case, the magistrate considered his redress would lie in a civil suit, in the present case at any rate, there was not evidence to show the defendant Peets to be guilty of theft. At any rate, the police magistrate did not feel like assisting in the unravelling of troubles brought on by horse-trading and he said that if men would go into this sort of business they could not expect to use the criminal courts to adjust the matter if they got the worst of the deal. The case was dismissed with costs.



4226.—A DAINTY LITTLE BERTHA FROCK.

The little dress here illustrated will be a joy to the maternal soul. It is made with exquisite simplicity of fine French batiste, the yoke and bertha being decorated with delicate hand embroidery, but the design lends itself equally well to developmen: in almost any fabric suitable for children's wearing, whether of linen, silk or fine wool. To develop the medium size 3 1-8 yards of 24 inch material will be required.

4226.—6 sizes, 1-2, 1, 2, 3, 4, and 5 years.

The price of this pattern is 10c.

Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail.

The Seasoning of Telephone Poles

Government and Companies are Both Experimenting

The scarcity of timber suitable for telephone and telegraph poles, has of late assumed serious proportions says the American Telephone Journal.

Latest reports of the census office show that there was in operation in 1902 approximately 700,000 miles of pole line. Subsequent additions, however, together with certain railroad pole lines not reported, would enlarge this figure.

It is safe to assume that there are in operation at present fully 800,000 miles of line. The average line contains about forty poles a mile, so that there are approximately 32,000,000 poles in use.

Assuming that the average life of a pole is twelve years, it follows that for the maintenance of the lines now in operation there are needed each year more than 2,650,000 poles. Such an enormous demand must soon deplete the available supply. This is fully recognized by the different companies.

The American Telephone and Telegraph Company, in cooperation with the United States Forestry Bureau, has been carrying on elaborate experiments to determine the best means of prolonging the life of poles.

These experiments show that seasoned timber in contact with the ground will outlast unseasoned, and that dry wood is more receptive of preservative fluids than green wood.

Experiment stations were established at Dover, N. J., Thorndale, Pa., Pisgah, N. C., and Wilmington, N. C. As a part of the terms of co-operation, the American Telephone and Telegraph Company, supplied a fixed number of poles each month.

C. P. R. POINTERS

The annual western excursions, via Canadian Pacific, to Detroit, Saginaw, Bay City, Grand Rapids, Chicago, etc., takes place, good going Sept. 19, 20 and 21st, good returning until Oct. 7th. See advertisement in this paper.

More farm laborers wanted in the northwest. Another excursion leaves Peterborough on Sept. 17th, regular train. Fare $12.00 to Winnipeg. $18.00 additional for return, under usual farm laborers excursion conditions.

For the Ottawa Exhibition the Canadian Pacific will issue return tickets at single fare, good going Sept. 13th to Sept. 21st, inclusive, except special days, Sept. 17th, 19th and 20th, when round trip tickets will be sold at the low rate of $3.85. All tickets good to return until Sept. 23rd.

The next Homeseeker's Excursion to Manitoba and the Northwest takes place on Sept. 24th. Intending passengers should reserve berths in tourist car, early for this excursion.

Ocean tickets sold either to or from Great Britain, via the celebrated C.P.R. Atlantic Steamship Lines steamers, Empress of Britain and Ireland. Unsurpassed accommodation for all classes on these magnificent steamers. Tickets sold also via Allan Line, or Dominion Line.

For all information and tickets call on W. McIlroy, Passenger Agent, C. P. R., 348 George street, Peterborough.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Dr. Kenneth N. Mackenzie, aged 23, son of Mrs. Geo. Mackenzie, of St. Thomas, died in Ottawa, of diphtheria.

A JUNIOR TEAM WAS ORGANIZED

At Meeting in Y.M.C.A. Parlors on Friday Night

Owing to lack of space, the report of the organization meeting of a local junior O.R.F.U. team, held at the Y.M.C.A. parlors on Friday night, was crowded out of Saturday's issue of the Review. The club will be affiliated with the Peterborough seniors. A district may be formed in which will be included Peterborough, Oshawa, Port Hope, Cobourg and perhaps other towns.

Much enthusiasm was manifested in the proceedings by those in attendance, and it was decided to get down to practice as soon as possible. A definite date for practise has not yet been fixed, but will be decided upon as soon as possible, when announcement of the time chosen will be given in these columns.

Mr. C. E. Sisson was in the chair, and the following officers were elected:—

President—R F McWilliams.
Vice-President—C A Barber.
Sec.-Treas.—B T Huston.
Manager—S. Canniff.
Executive Committee—C Rush, T Kelly, J Doris, B Laing, Roy Walker.
Team Committee—Sec.-Treas., Manager and Captain, when elected.

RUGBY

The senior Young Crescents have organized for the season, and all communications from teams desiring to cross swords with them should be addressed to the secretary-treasurer, Hal. Wallis.

There were over twenty men at the practice of the Rugby Club at Riverside Park on Saturday afternoon. "Gene" Hurtubise, in the absence of Manager Crowley, put the men through their facings, and gave many valuable pointers. The workout lasted for over three hours, and the men dug in with commendable vigor, working as hard as if they were trying to get into shape for a championship match. The work of tagging, punting and catching was the principal feature of the practice, and those out displayed good form, considering it was their initial appearance on the gridiron. There were many new faces noticeable, and six or eight of the old stalwarts also took a hand in pummelling the pigskin. Next Saturday another practice is called for at 2.30, when a record breaking early season turn out is looked for. Providing arrangements can be made for illumination of the grounds, the team will have some practises at night during the week. If the lights are installed the hours for holding the practises will be announced in these columns.

On Saturday at Nicholls Oval the Crescents and the Karnots had a good workout, about 14 men being on hand. The weather was too warm for a strenuous practise, but at various times the players loosened up and showed good form. There will be a practice tonight at Nicholls Oval, providing the moonlight is good and all who intend to be present are requested to be on hand at Central Park between 7 and 7.30 p.m.

CRICKET

Mr. Cyril Hill, the local crack batsman, has received a communication from Ottawa, asking him to play with the team of that city in their approaching games with the Marleybone Cricket Club, of England. Mr. Hill said he would be forced to decline the invitation, as he is out of practice and does not intend playing the game any more this season. His splendid work with the willow this year has marked him as one of the foremost batsmen in the province, if not in the Dominion.

BASKETBALL

The Arrows will practise tomorrow evening at seven o'clock, when Dobson, Miller, Darling, Dobbin, Gillespie and Fred and Harry Cressman are asked to be in attendance. Any others who intend playing the game this season will be welcomed.

The annual meeting of the club will be held a week from Monday, when the election of officers will take place.

A special series of exhibition games between the Arrows and Collingwood, Orillia and Midland, have been arranged for Thanksgiving week.

North Monaghan Crops Are Ligher Than Last Season

Yield Will be About 25 Per Cent. Lighter Than in 1906—Threshing is Now in Full Swing

Mr John Riddell, president of the Peterborough Cheese Board, was out in North Monaghan on Friday, and today informed a Review representative that on the whole the crop this season was only about three quarters that of last season. The threshing machines are busy in the township and while the grain is turning out fairly well, the yield is only about 75 per cent. that of last season. Straw is also light and the opinion seems to be that it will be high in price during the winter. Not a great amount of oats has been threshed yet, but what has been put through the mill goes to show that the crop is light. Wheat and peas are being threshed largely at present and are not turning out as well as last year. Mr. Riddell thinks that the price of grain, hay and straw will be very high this winter and especially towards next spring. That many farmers do not expect to have enough feed to carry their stock through the winter is evidenced by the fact that a large number of cows are being fattened and sold for beef.

Col. Young Inspects the Equipment of 57th Regiment

Col. Young of Kingston, District Assistant Adjutant General for military district No. 3, is in the city in connection with inspection work relating to the 57th Regiment. While here Col. Young is the guest of Major Young of the 24th Field Battery. He arrived on Saturday night and leaves this evening for Lindsay where he will inspect the accoutrements and stores of the 45th regiment. Today he inspected the arms and stores of the local regiment and found everything in good shape. He congratulated Col. Miller on the excellent condition in which he found everything.

The inspector of artillery will be here within a few weeks to inspect the equipment of the 24th Field Battery. In view of this fact it is requested that all the clothing, etc., be turned in as soon as possible. Some of the members of the corps sometimes think that the government makes good any loss such as results from the non-return of belts clothing, etc. This is not the case as the officers of the corps have to make good for all such losses. The men therefore owe it to their officers to see that everything is turned in before inspection.

New Models of Fancy Bricks Will be Added to Equipment

As a Result of Mr. W. R. Harstone's Visit to Detroit—Inspected Brick Moulds Used by Silbey Brick and Quarry Company.

Mr. W. R. Harstone of the Peterborough Sandstone Brick Company, has returned to the city from Detroit after a trip to that place in the interests of his firm. The object of Mr. Harstone's visit to the American city was to inspect the models for sandstone brick used by the Sibley Brick and Quarry Company, of Detroit, which is a very large concern, 40,000 brick per day being the output of the brick department of the company, which has also 300 men employed in the stone quarries.

The process employed by the Detroit firm is identical with the one that has been adopted by the local manufacturers of sandstone brick, the same methods of steaming and pressing being used. Mr. Harstone made an examination of the fancy moulds used by the Detroit firm and as a result will have a full line of moulds of the same character installed in the local manufactory inside of two weeks. When this is done the Peterborough Sandstone Brick Company will have one of the most modern and best equipped plants on the continent.

Asked as to the state of the crops between here and Detroit Mr. Harstone said they appeared to be in a very healthy condition and predicted a bountiful harvest, the prospects for a large yield of corn being especially promising.

Undergrounding of Wires to Be Finished in Three Weeks

Excellent Progress is Being Made on the Work—Streets Left in Good Condition

Given favorable weather, the Bell Telephone Company expect to have the undergrounding of their wires in Peterborough completed in about three weeks. Splendid progress is being made, the weather conditions having been nearly all that could be desired since the work was commenced. A couple of weeks more will finish the excavation work, and then it is expected that a week or ten days will be required to place the cables in the conduits.

The superintendent of underground work, Mr. Hunt, of Montreal, is expected here tonight to inspect what has been done. The company deserves credit for the manner in which the work has been rushed. A large staff of men have been employed, and everything done to get the work done as quickly as possible. It is also noticeable that care has been taken to leave the streets in good condition after the excavating has been completed. This is almost something new in Peterborough, as in the past the streets were left in bad shape after excavating had been done.

The Picnic de Luxe.

What a picnic picnicking has become! Time was when a luncheon in the woods meant tedious lugging of cumbersome baskets and labored portage of stone jugs or, still more annoying, glass jars containing the beverage, whatever it might be.

If one took lemons along in the fond hope of enjoying lemonade ten to one it was such a bother to get cool water that the drink wasn't worth the trouble. As for butter, cream and kindred essentials to real lunching, they either had to be left behind or eaten in conditions far from palatable.

The shortest tramp under a blazing sun meant that everything meltable melted, and one was lucky if the meat in the sandwiches didn't spoil. Now there are several makes of picnic hampers, all of which are good. In any of these solid and fluid refreshments may be transported many miles and kept as appetising as they would be at home. There is a compartment for ice, and so scientifically is the refrigeration arranged that a small lump will keep everything delightfully cool.

The best of it is that the hamper is as light as is compatible with strength, and the weight of the eatables and drinkables is about all that has to be considered. Any of these hampers can be stowed away in an automobile or surrey, and all save the larger sizes can be carried comfortably on the arm.

To Hang a Skirt.

A good way to hang a skirt for oneself is to sew up seams, press nicely, baste tucks or plaits in place, put on band, then fold skirt in half and lay on table and take a finished skirt which hangs correctly and lay over same, putting a basting or row of pins around bottom edge to show where to turn up new skirt—an easy and satisfactory way. To put in sleeve correctly fold armhole, having center fold one inch back of shoulder seam, and where the half comes join under seam of sleeve. This always insures a perfect fit.

WEDDING BELLS

BELL—PARKER

At noon today at the George street Methodist Parsonage a quiet wedding was solemnized, when Mary Parker, daughter of Wm. A. Parker, of England, was united in marriage to Mr. Thomas J. Bell, of Smith. The ceremony was performed by Rev. E. A. Pearson.

Mr. and Mrs. Bell will reside in Victoria County, where the groom has taken a new farm.

BASEBALL

BARRY'S GREAT PITCHING.

Barry, who pitched for Cobourg against Peterborough at Riverside Park three weeks ago, shut out the Toronto team at Providence yesterday, the score being 1—0 in favor of the Providence nine. Barry only allowed the league champions four hits and struck out nine men.

Escaped Horrible Death.

Carleton Place, Ont., Sept. 16.—There was a narrow escape from a terrible fatality at the Moore street crossing of the C. P. R. here early Saturday morning, when the westbound Soo express struck the Mississippi Hotel bus while on its way from the station to the hotel.

Inside the vehicle were five persons, all of whom escaped. One of the valuable horses was killed outright, and the other was badly cut up and afterwards shot to end its sufferings.

Frank Lodge, who was driving, was considerably injured, some of his ribs being fractured.

It is understood the vehicle was badly wrecked, and the escape of the occupants is most remarkable.

Farmer's Tragic Death.

Wingham, Sept. 16.—Richard Leishman, one of the best-known and highly respected residents of East Wawanosh, came to a tragic end on Saturday. For the last few months Mr. Leishman have given evidence of a weakened mental condition. In the morning he went out with one of his daughters to get the cows, and on the way stepped aside for a moment into a clump of trees, where there was a little pool of water. When his daughter returned to look for him, a few minutes after, he was discovered lying face downward in the water, quite dead.

Newsboy Loses Leg.

Englehart, Sept. 16.—An Italian newsboy, employed on the railway contractors' train which runs between here and McDougall's Chute, was run over and his left leg was obliged to be amputated from the upper part of the thigh. The accident occurred while the train was entering Englehart. The boy slipped and fell between the cars. An operation, performed by Dr. Lowrey with the assistance of two other medical men, was successful.

The Hague's Last Session.

Washington, Sept. 14.—The last session of The Hague will be held on Sept. 28, and the protocols will be signed on the following day, according to a letter received here yesterday from Brig.-Gen. George B. Davis, a member of the American delegation.

Dies From Plague.

San Francisco, Sept. 14.—Chang McD. Wo, president of the Chinese Six Companies, was found dead yesterday in Chinatown from plague.

Was Terribly Mangled.

Cobourg, Sept. 16.—Wm. Jamieson, a farmer living about nine miles north of Cobourg, was accidently killed Saturday night while returning home from town. His horse took fright and ran away. In falling from the buggy Mr. Jamieson got caught in the wheels and was terribly mangled.

New Glasses.

Wash new glasses for the first time in cold water. This will give them a brighter look than if hot water is used. Glasses that have been used for milk should also first be washed in cold water or they are apt to look cloudy when dried.

Our Oldest Church.

Hingham, Mass., has the oldest church edifice now in use in America, the First Unitarian church. The building is 225 years old. John B. Lewis has been sexton and bell ringer at the church for more than fifty years.

Air Cleaned Paintings.

In some of the European art galleries the dust is removed from the paintings and statuary by means of an air pump, a jet of air being thrown with great force against the article which needs dusting.

Origin of Fire.

So far as actual knowledge goes we find that the possession of fire and the art of making it by one method or another have belonged to the vast majority of mankind as far back as we can trace. A fireless race has never been found. The original method of making fire was undoubtedly by the simple friction of two pieces of wood rubbed together. With his "stick and groove" the present day Tahitian can produce fire in a few seconds.

¶ To be well dressed—simply means the exercise of good taste and judgment in your selection of materials. "Fashion-Craft" clothes are good in every detail—they are made for good dressers.

¶ The proper thing this season is the new lapel. Look for it in suits from $20.

52—Burnham and James
53—Rogers and Sophia
54—Hunter and Mark
57—Concession and Hazlitt
59—Auburn

DIRECTIONS FOR SENDING IN ALARMS

A Key for the Alarm Box will be found hanging in a small box, with glass front, adjoining the Alarm Box. Break the glass, remove the Key, and open the Box; pull the lever down, when the Alarm is at once transmitted to the Fire Hall, Pumping Station, and residences of the Firemen. Do not attempt to remove the Key from Box, as this can only be done by the use of a small Relieving Key.

HOW ALARMS ARE SOUNDED

The number of the Ward from which the Alarm is sent in is always sounded on the bell, which also constitutes the first number of the Box nearest to the fire, and when an Alarm is sounded, the Ward number is given first, then a pause, and then the remaining numbers of the Box.

A BIG FISH

The Post always tries to err on the right side, and when it comes to a fish, and we give it under weight, all can understand the condition of our editor's conscience. In Tuesday's issue we stated that "Pacer" McDougall, of Fenelon Falls, had caught a maskinonge weighing 23 1-2 pounds. The weight should have read 34 1-2 pounds, which is vouched for by Mr. H. J. Lytle, manager of the Bank of Montreal, whose veracity in a fish story cannot be questioned.—Lindsay Post.

MR. HALL'S OFFICE

The office of F. J. A. Hall, Secretary of the Exhibition, will be at Storey & Leary's, Water street, from now to the time the entry list closes. He will be there every afternoon from 1.30 to 6, and all day on Saturday.

Part paid labor and part work of owner—1, Wm. Taylor, Customs House; 2, Miss Thompson, Smith street; 3, Mrs. (Rev.) Kilgour, Weller street.

Lawns, all own labor—1, Walter Stocker, Homewood avenue; 2, S. G. McKee, Water street; 3, W. J. Kennedy, Aylmer street.

Best Flower Garden—1. B. Cooney, Stewart street; 2, Wm. Porter, Brown street, east city; 3, Miss Davidson, Brown street, east city.

The judges were, Messrs. P. Campbell, W. H. Hill, David Jordan and Col. H. C. Rogers.

The J. C. Turnbull Co., cordially invites the ladies of Peterboro' to their Fall Millinery Opening of high-class novelties in Ladies' Millinery and also Skirts, Coats, Blouses etc., on Thursday, September 19th and following days.

Two Claims for Damages Come in

Aftermath of the Sawdust Fires —Did Defective Walk Cause Accident?

Apparently the last has not been heard about the fires in the sawdust piles along the Otonabee. It will be remembered that one day last month the fire brigade did not put out a blaze in the sawdust, after they had been called out and as a result of this action the city now has a bill of damages on its hands. At meeting of the council last night a letter was read from Edmison and Dixon, acting for the Mann Lumber & Cheese Box Co., stating that on August 18th, 95 cords of wood belonging to this firm, which were piled on the Hydraulic Power Co.'s property, had been destroyed by fire, owing to the fire brigade not putting out a fire in the sawdust piles on the day in question. The wood was valued at $3 per cord, making a total of $285 for the 95 cords. The lawyers expressed the hope that a settlement would be made without having the matter go to court.

Mr. P. B. Solmes, 300 Smith street, wrote the City Clerk, giving particulars as to an injury received by tripping on a plank sidewalk on Reid street, on Sunday, September 1st. His wife fractured an ankle and has been laid up ever since. Mr. Solmes claimed that the accident was due to the defective condition of the sidewalk and asked for damages.

Both matters were referred to the Legal Committee.

THE BEEHIVE THE LADIES' BIG READY-TO-WEAR STORE

OUR NEW FALL MANTLES are the latest conceits of the season. All sizes, every price—at $5.00, $7.50, $8.50, $10.00, $12.50, $15.00: $18.00 and $20.00 Come early and we will be pleased to show you through.

¶ Illustrations often deceive—be guided by reputation—and see the word "Fashion-Craft" on the garments for yourself—the best for any man's money.

¶ "Fashion-Craft" Indigo dyed Blue Serges 20 oz. to the yard, full weight at $20.00.

Council Talks About the Work of the Assessors

Several Aldermen Are of the Opinion That Valuation is Too High--Ald. Bradburn Says People Will be Driven From the City.

The city council last night spent a half hour in discussing the assessment question, but the only conclusion arrived at was that the Council has no control over the assessors other than their appointment and that the only place of remedy for those who had grievances was the Court of Revision.

Ald. McIntyre started the ball rolling by asking why property in wards one and two was assessed so high by Mr. McKee. The alderman stated that every time he went to the south end of the city he was pitched into for the high assessment.

His Worship pointed out that it might as well be clearly understood that the Council had no control whatever over the assessors. The Council appoints them but after that they can do nothing. The Mayor pointed out that under the new assessment act the assessors were required to assess closer to the actual value than formerly. He knew of one case where the assessor had raised the assessment of a certain piece of land in the south end from $3 to $9 per foot. The owner raised a howl, but the assessor had increased the valuation because a portion of the same property had been sold at $10 per foot. The question whether Mr. McGrath was assessing the property in wards 3, 4 and 5 proportionately to what Mr. McKee was doing. It did not matter how high the assessment was if it was the same all over the city. The rate could be lowered and the taxes would be no higher than at present. The only objection to this would be in the case of fixed assessments. The question for the aldermen to consider, said the Mayor, was if the enhanced values of property in wards one and two amounted to $[illegible] what would be a proportionate amount of increase for wards three and four.

Ald. Elliott said that property in the whole city had not increased $1,000,000 in two years. He was not pleased with the way the assessors were valuing property in some cases.

Ald. Bradburn said that building would stop if property was assessed for every dollar it was worth.

The Mayor stated that the oath taken by the assessors required them to assess property at its actual value.

Ald. Morgan wanted to know if Mr. McKee couldn't forget that.

Ald. Wilson said he was informed that Mr. McKee assessed within [illegible] per cent. of actual value.

Ald. Bradburn remarked that the excessively high assessment was going to drive people away from the city.

Ald. Phalen said he never heard such kicking in his life about the assessment in Peterborough.

Ald. Morgan and Wilson said that many people were willing to sell their property at its assessed value.

Ald. Leary doubted this. When it came down to selling they wouldn't be so anxious to dispose of their property.

There was some further discussion but nothing was done. Apparently the Court of Revision will have a busy time [illegible]

Medical

DR. F. P. McNULTY

THAT PALE TIRED GIRL.

You see her everywhere—in the office, behind the counter, in society—weak, unstrung, awfully nervous and tired.

She hasn't heard of Ferrozone or she would be perfectly well. How quickly it strengthens! What an appetite it gives!

FERROZONE

Makes you strong, healthy, vigorous, happy.

It nourishes the blood, gives the body the right kind of material to build up with. Ferrozone puts color in pale cheeks, makes the whole body tingle with vim and vivacity. No tonic so instant in effect. Thousands of attractive, happy women use Ferrozone—why not you?

Price 50c per box or six for $2.50 at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn. U.S.A.

Noted Divine Makes Plea For Purity in Public Life

Bishop of London Makes Strong Plea Against Graft.

Dr. Winnington Ingram Opposed to "Side" or "Frills"—Urges the Importance of Absolute Straightness—Municipal Life Must Be Clean—Not Used for Private Ends—Secret of Influence.

Toronto, Sept. 17.—The Bishop of London was the guest of the Canadian Club yesterday, when he delivered an address, in which, dealing with the secrets of a man's influence over his fellows, he furnished the key to his own remarkable individuality. With characteristic frankness, indeed, the bishop confessed that he was speaking from his own experience, and the personal reminiscences which led him on to his subject were as entertaining as the moral of his address was inspiring and impressive. The secrets of a man's influence over his fellows he defined as absolute straightness, the avoidance of "side," sympathy, a sense of humor, and faith, and a remarkable feature of the address was the evidence it afforded of the possession by the speaker of the qualities he desiderated. Under the first head the bishop made a strong plea for absolute straightness in public life. He had learned a good deal about Canada in the short time he had been in the country, and he hoped that Canada would not be afraid to learn something from the old Mother Country. He believed that in the old country they could hold up an example to the world of absolute straightness in their public life. He did not know of any man who was even suspected in London to-day of having used his position in Parliament for any private end whatever.

In regard to municipal life he alluded to the West Ham scandal, and declared that it was merely one of the exceptions which proved the rule of the purity of the municipal life of the old country. "If," he proceeded, "your country is going to be that great country which we all believe it is going to be at home after it reaches one hundred millions and is atop of the United States, you have got to get absolute straightforwardness in your public life." And it was the same in social life and social friendships.

He would also urge them to avoid what in the old country they called "side," but which Americans and perhaps Canadians would describe as "frills." Whether in the city, in the east end of London, in the university, or in the west end the man who had "side," and who rusted his gifts by being conceited, had lost his influence and never would regain it.

The Bridge Disaster Inquest; Foreman Had Much Anxiety

More Evidence as to Instability of Quebec Bridge.

Yenser Wrote Pointing Out Danger and Asking For Telegraphic Instructions—John Splicer's Nervous Fears Saved His Life—Was Afraid to Assume Work — Commission to Visit Hospital.

Quebec, Sept. 17.—On the very day of the Quebec bridge disaster, a letter was received at Phoenixville from Mr. Yenser, the actual foreman in charge of the work, asking for telegraphic instructions as to whether or not he was to continue work on the structure in view of the deflected chord. This fact was sworn to yesterday by Mr. Milliken, who was in Phoenixville at the time, and who immediately called up Yenser on the long-distance 'phone to learn from him that, believing there was no danger, he had continued operations. Yenser is one of the victims under the debris of the bridge. One of yesterday's witnesses, J. Nance, had a marvelous escape when the structure collapsed. He ran a small electric engine on the top of the small traveler. When he felt the bridge give way, he was in the water almost before he knew what had happened. He was picked up by a small boat. In common with a couple of other witnesses, he said his attention had been previously drawn to defects in the structure, but he had continued working because he did not care to be the first man to walk off the work.

Raoul Lafrance said he had noticed a crack in one of the bridge plates two or three weeks before the collapse. It was 18 or 20 inches long and as wide as his little finger. His cousin, Ouimet, who had since left for the lumber shanties in Ontario, had drawn his attention to it. He noticed it on three different days. When asked to point out its location on a plan he indicated a different position to that given by former witnesses. He was ordered to meet the engineers to-day on the scene of the wreck to endeavor to locate the defect.

A. B. Milliken, re-called, related that on the day of the accident he received at Phoenixville a letter from Mr. Yenser on the works, dated two days before, asking whether, in view of the deflected chord, he should go on with the work on the structure, and requesting an answer by wire. As the transmission of messages was very uncertain, owing to the telegraph operators' strike, Mr. Yenser was called by long-distance telephone and asked further about the matter, when he said that as there appeared to be no danger he was proceeding with the work.

For the present there are no more witnesses to be heard here. To-day the commissioners go to Levis to examine the injured victims now in hospital there. Wednesday and Thursday will be spent in examining the storage yards for material, and men in charge at Belair and Chaudiere, and on Friday certain foremen and engineers will be recalled here before the commission. Early next week the commissioners will go to New York to examine Mr. Theodore Cooper and other expert witnesses, and will later visit the works at Phoenixville and the rolling and other mills at Harrisburg and elsewhere.

Quebec, Sept. 17.—John E. Splicer, an employe of the Phoenix Bridge Co., was examined by the Royal Commission yesterday.

He did not work the day of the accident, but was on duty on the previous day. Answering Mr. Holgate he said he did not work on the 29th because he got nervous. He had never got nervous before, but it "just got into him"; he had intended to go back to work in the afternoon, but it got too windy.

The night before the collapse he said, "The whole bunch of us were talking about the bend in the chord. Messrs. Solman, Angus, Rose, Mitchell, Michael Adams, John Yocat, Joseph Diabo, Louis Diabo, all of whom were killed, had discussed a place in the chord which was open, and that an endeavor had been made to jack it up. It could not be gotten into position, and the plates were drawn together and rivetted."

Prior to this he and J. Bowen, from Nova Scotia, had viewed the bent chord.

Convict's Story True.

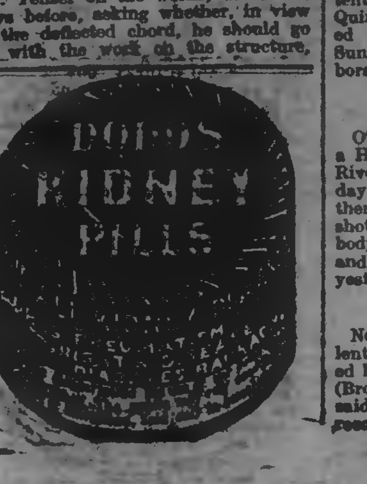
Montreal, Sept. 17.—A number of human bones and a stiletto were found in a quarry in the north end Sunday. The place was being drained by order of the police in order to ascertain the truth of a statement made by a convict serving a term in penitentiary that the bodies of Ellen Quinn and a Chinaman were disposed of by murderers in that place. Sunday's find is regarded as corroboration of the man's story.

Hull Grocer Killed.

Ottawa, Sept. 17.—Albert Dagenais, a Hull grocer, went up the Gatineau River with Nap Charbonneau Sunday. They took a 22-calibre rifle with them, and in some way Dagenais was shot through the lower part of the body. He was removed to Ottawa and died in Water street Hospital yesterday morning.

Lockjaw Cured.

New York, Sept. 17.—A case of virulent tetanus or lockjaw, has been cured by the doctors of the Williamsburg (Brooklyn) Hospital. There are, it is said, only two other similar cures on record.



SWINDLED GALT FOLK.

Smooth Young Man Also Disappointed Too Trusting Girl.

Galt, Sept. 17.—Yesterday there were three Galt business men out sums of money and a girl disappointed.

About two weeks ago J. C. Stewart, ostensibly representing the Dodd Meade Co. of New York City, publishers, came to town. He hired a rig every day from John E. Keyes and his bill amounted to $30. He stayed at the Grand Hotel, where he borrowed $5 and owed for two weeks' board.

He was driving around with a Galt maiden, whom he promised to marry this week. To get ready for the coming ceremony he called at W. H. Kennedy's, the tailor, and ordered two suits and gave a check for $30, on which Mr. Kennedy gave him $5. The check was made out for J. C. Stewart by the Eau Clare County Poor House, Wis., signed by the secretary and president, and payable at the Eau Clare Bank.

On Saturday morning nothing could be found of him, as he had left on the 9 o'clock car for Berlin. Mr. Kennedy sent a telegram to Eau Clare Poor House. Sunday he received a reply that the check was no good.

Stewart has now had nearly three days' start, and it will be a hard matter to trace him.

WON'T FIGHT DAMAGE SUITS.

Michigan Central Will Settle Claims Due to Explosion.

Windsor, Sept. 17.—The Michigan Central has decided to settle without litigation the claims for damages caused by the Essex explosion.

Crown Attorney Rodd is in receipt of a letter from Kingsmill, Hellmuth, Saunders & Torrance, to the effect that the general attorney has concurred in their opinion that the railway should pay all claims and not attempt to make a fight in the courts.

The claims have all been filed with the town clerk of Essex, and total about $50,000. This does not include the personal damages for those who were killed and injured in the explosion.

The company's loss in property is estimated at about $50,000.

MOB ATTACK MOTORMAN.

Squad of Policemen Save Man's Life—Italians Were Frenzied.

New York, Sept. 17.—With clubs and revolvers drawn, a squad of reserve policemen from the East 104th station, fought a mob of infuriated Italians, numbering thousands, who tried to lynch Garret Morrissey, a motorman on the Second avenue surface line Sunday night, after his car had run over and killed a nine-year-old boy. To save him from the wrath of the mob, it became necessary to lock him in a store.

In the meantime the car was lifted from the track, thrown on its side, regardless of passengers in it, and wrecked. The crowd grew to such proportions that it packed more than four blocks.

ALPS TOLL OF DEAD.

Ninety Accidents This Year Claim Eighty Lives—Eighty-Two Injured.

Berne, Sept. 17.—The toll of summer victims of Alpine accidents is the heaviest ever recorded. Eighty persons were killed and 82 injured in 90 accidents this year, as against the previous record, 76 fatalities in 1906, in 71 accidents.

Thirty-eight of the 80 persons killed were guides, 31 were persons spending vacations in the Alps, and the remainder were native flower gatherers, etc. Three-quarters of the fatalities were caused by falls over precipices. The others were due to avalanches, snowstorms and lightning.

Brazil Backs Down.

The Hague, Sept. 17.—Dr. Ruy Barbosa, head of the Brazilian delegation to the Peace Conference, announced yesterday that after further consideration of the plan of M. Bourgeois of France for the allotment of the judges of the permanent arbitration tribunal he cannot support it.

The Brazilian delegate had previously approved the plan, but he now finds that it does not sufficiently guarantee the equality of all the states. He therefore urges the acceptance of the Brazilian proposition, namely, one judge for each country.

Forgers Sentenced.

Orangeville, Sept. 17.—Thomas Giles of Mono and George J. McDonald, lately of Stanley Barracks, were placed in the dock here yesterday to answer several charges of forgery. Some sixteen witnesses from all over the country had been summoned by the crown. Both pleaded not guilty. Judge McCarthy found both prisoners guilty of forgery, and sentenced Giles to six months and McDonald to one year in the Central Prison.

Immigration Statistics.

Ottawa, Sept. 17.—The total immigration to Canada for the first seven months of the present year, ending July 31, was 153,096, as compared with 116,392 for the corresponding period of 1906, an increase of 37,034, or about 20 per cent. The immigration via ocean ports totalled 126,458, an increase of 36,880 over the first seven months of 1906. The immigration from the United States was 27,238, a decrease of 2,516.

Voliva Chosen.

Chicago, Sept. 17.—Wilbur Glen Voliva, deposed from the leadership of the Dowieites, which place he usurped from John Alexander Dowie, was formally elected general overseer of the Christian Catholic Apostolic Church in Zion for life, by the general ecclesiastical conference, held in a tent at Zion City yesterday.

Drowned at Fenelon Falls.

Fenelon Falls, Sept. 17.—It is certain that Percy O'Donnell, whose rowboat, with the oars floating beside it, was found over a week ago, was drowned, as no word has been received from him.

It is reported Dr. Coulter, Deputy Postmaster-General, will return to active politics.

WILSON'S FLY PADS

Kill them all. No dead flies lying about when used as directed.

— SOLD BY —
DRUGGISTS, GROCERS AND GENERAL STORES
10c. per packet, or 3 packets for 25c. will last a whole season.

KILLED HER CHILDREN

Terrible Deed of an Insane Woman at Midale, Sask.

Took Her Three Boys to the Potato Patch and Battered Them With Hammer — Afterwards Cut Them Up—Tried to Hang Little Girl—Dog Attacked Maddened Mother—She Expects to Be Hanged.

Midale, Sask., Sept. 17.—On Saturday afternoon Mrs. John Anderson, wife of a farmer residing about a mile from Midale, on the Soo line, took her three children, all boys, to the potato patch and there knocked them on the head with a hammer, after which she cut them up in a horrible manner with a draw knife.

She had not shown any signs of insanity before, but had been ill, and it is supposed the murder was due to religious mania. She is probably 35 years old. The police of Weyburn were notified of what had taken place, and Constable Ing arrested the woman, who is insane. The woman shows no remorse for what she has done and expects to be hanged. She believes it was some kind of a blood-sacrifice.

Later reports give fuller particulars of the horrible tragedy. The three children murdered were a baby, 18 months old, and two boys, six and nine years old, respectively. She also made a desperate attempt to kill her 11-year-old daughter. She put a rope around the girl's neck, but the child struggled bravely and was assisted by a dog, which attacked the maddened mother.

FOUR FAVORITES WIN.

John Dillon Captures Feature Event at Woodbine.

Woodbine Race Track, Sept. 17.—Some capital racing was witnessed here yesterday. Four favorites finished in front, one second and two third choices. The results were as follows:

First race, purse, $400 added, 3-year-olds and up, 3-4 mile—1, Merry England; 2, Ballot Box; 3, Loupania. Time, 1.13 3-5.

Second race, purse, $400 added, 2-year-olds, selling, 5 1-2 furlongs—1, Giles; 2, Greendale; 3, Truro. Time, 1.08.

Third race, purse, $400 added, for all ages, 1 mile—1, Sally Preston; 2, Hawkama; 3, Kelpie. Time, 1.41 1-5.

Fourth race, purse, $400 added, 4-year-olds and up, selling, 3-4 mile—1, Fire Fang; 2, Venus; 3, Fiat. Time, 1.13 4-5.

Fifth race, purse, $750 added, 3-year-olds and up, September Steeplechase, 2 miles—1, John Dillon; 2, Lights Out; 3, Ariati. Time, 4.05.

Sixth race, purse, $500 added, 3-year-olds and up, selling, Canadian-bred, 1 1-16 miles—1, Ayrwater; 2, Halfcaste; 3, The Globe. Time, 1.52.

Seventh race, purse, $400 added, 3-year-olds and up, 3-4 mile, selling—1, Paul Clifford; 2, Bonnie Reg; 3, M. De Varabas. Time, 1.14.

Helped Man to Escape.

Whitby, Sept. 17.—Six months in the Central is the price James Slavin will pay for assisting another prisoner in the jail here to escape.

The Last Stroke.

* * *

BY LAWRENCE L. LYNCH,

Author of "A Woman's Crime," "John Arthur's Ward," "The Diamond Coterie," "Against Odds," Etc.

Yes, she knew his habit of sometimes going to the lake shore beyond the town to practice at target-shooting, but when he did not appear at his post at nine o'clock she never thought to send to the lake shore at first, because he usually returned from his morning exercise before nine o'clock; and so her first thought had been to send to Mrs. Fry's.

When the doctor and Robert were about to leave the scene of the murder, among other instructions given to Doran had been this:

"Don't say anything in town about Mr. Brierly's arrival; you know how curious our people are, and we would have a lot of our curiosity lovers hovering around my place to see and hear and ask questions. Just caution the others, will you?"

Doran held an acknowledged leadership over the men with whom he consorted, and the group willingly preserved silence. Later, when Dr. Barnes explained to Ferrars how he had kept the curious away from his door, and from Brierly, he thought the detective's gratification because of this, rather strange, just at first, and in excess of the cause.

"You couldn't have done a better thing," Ferrars had declared. "It's more than I had ventured to hope. Keep Brierly's identity as close as possible until the inquest is called, and then hold it back, and do not put him on the stand until the last."

After Mrs. Fry, the boy Peter and Hilda Grant had been questioned, Samuel Doran took the witness chair telling of his summons from Miss Grant, of the separation of the group at the Indian Mound, of his meeting with Mrs. Jamieson, of the discovery made by his two companions and of all that followed. And then Mrs. Jamieson was called.

She had entered the place accompanied by an acquaintance from the Glenville and they had taken, from choice, as it seemed to them, seats in the rear of the jury, and somewhat aloof from the place where Hilda Grant, Mrs. Marcy and Mrs. Fry sat. Robert Brierly would have taken his place beside Hilda, but the detective interposed.

"Owing to the precautions of the doctor and Mr. Doran, the fact of your relationship has not leaked out. It appears that Mrs. Fry was not informed of your coming until the evening before, or Thursday evening, and she seems to be a very discreet woman. After the inquest you will be free to devote yourself to Miss Grant. Until then, it is my whim, if you like, to keep you incog."

Of course Brierly acquiesced. but more than once he found himself wondering why this should seem to Ferrars needful.

Mrs. Jamieson came quietly to the witnesses' chair, and took her place. There was a little stir as she came forward, for, while she had been for some weeks in Glenville, and had driven much about its pretty country roads and lanes, she had gone, for the most part, more or less closely veiled in fleecy gauzes of black or white. Afoot she was seldom seen beyond the grounds about the family hotel.

To-day, however, the lady had chosen to wear a Parisian looking gown of dull black silk and a tiny capote of the same material rested upon her blonde and abundant hair, while only the flimiest of white illusion veiled, but did not hide, the pretty face from which the blue eyes looked out and about her, gravely but with perfect self-possession.

She told of her morning drive, and while so doing, Ferrars, sitting a little in the rear of the coroner, slipped into his palm a small card closely written upon both sides. Upon one side was written, "Use these as random shots."

And when she spoke of the man whom she had seen going into the wood near the mound, the doctor interposed his first question.

"Can you describe the person at all? His dress, his bearing?"

"Not distinctly," she replied. "He was going from me and his face, of course, I could not see. In fact, as I have before stated, my pony was fresh, and required my attention. Besides, there was really no reason why I should look a second time at the back of a strange person whom I passed at some little distance. As I seem to recall the figure now, it was that of a rather tall, fair-haired man. I can say no more."

"And at what hour was this?"

"It must have been nearing eight o'clock, I fancy, although being out for pleasure I took little notice of the hour."

No further interruptions were made until she had finished the story of the morning's experience, of her meeting with Doran and the others, of the drive to the village, and of her message to Miss Grant.

"Did you know Miss Grant?"

"Only as I had seen her at church, and upon the street or in the school yard. We had never met, prior to that morning."

"And Charles Brierly? Did you know him?"

"Only by sight. I know few people in Glenville outside of my ho— of the Glenville House."

Both the doctor and Ferrars noticed the unfinished word broken off at the first syllable. To the one it was a riddle; to the other it told something which he might find useful later on.

"Mrs. Jamieson," resumed the coroner, after consulting the detective's card. "How far did you drive yesterday before you turned about upon the wood road?"

For a moment the lady seemed to be questioning her memory. Then she replied.

"The distance in miles or fractions of miles, I could not give. I turned the pony about, I remember, at the place where the road curves toward the lake, at the old mill, near the opening of the wood."

"Ah, then you could see, of course, for some distance up and down the lake shore?"

"I could!"

There was hint of surprise in her coldly courteous reply.

"And at that point did you see anything, anyone in the wood, or, along the lake?"

"I ceratinly saw no person. But—yes, I do remember that there was a boat at the water's edge, not far from the place where I turned homeward. It was a little beyond or north of me."

"Did you observe whether there were oars in the boat?"

"I saw none, I am quite sure," the lady replied, and this ended her part in the inquiry.

But now there was some youthful, eager and valuable new witnesses, and their combined testimony amounted to this:

When the body of their beloved teacher had been brought home and the first hour of excitement had passed, three boys, who had been among Charles Brierly's brightest and most mischief loving and adventurous pupils, had set out, a full hour in advance of the elder exploring party, and had followed the lake shore and the wood road, one closely skirting the lake shore, another running through the sparse timber and undergrowth about half way up the shallow slope and the third trotting down the road beyond; the three keeping pretty nearly parallel, until the discovery, by the lad upon the shore, of the boat drawn out of the water, and in the shade of a tree. This had brought the others down to the lake and then caused them to go hastily back. Meeting the party of men, who were not far behind them, the boys had turned back with them and now there was a crowd of witnesses to corroborate the story of the boat.

It stood, they all affirmed, in the shade of a spreading tree, so as that no sun rays had beaten upon it, and its sides were still damp from recent contact with the water, while it stood entirely upon the land. Two oars, also showing signs of contact with the lake, were in the little boat, blade ends down, and it was evident that its late occupant had disembarked in haste, for, while the stake by which the boat had been secured, stood scarcely three feet away, and the chain and padlock lay over the edge of the little craft, there had been no effort to secure it, and the oars had the look of having been hastily shipped and left thus without further care.

When the matter of the boat had been fully investigated, the coroner and Ferrars conferred together for some moments, and during these moments Mrs. Jamieson and her companion exchanged some whispered words.

Through some mistake, it would seem, these two had been given places which, while aloof from the strange men, and almost in the rear of the jurors, brought them facing the open door of the inner room, where, in full view, the shrouded body of the murdered man lay, and from the first the eyes of the two seemed held and fascinated by the sight of the long, still figure outlined under the white covering.

"Is it possible," whispered the lady witness, "that we must sit here until the end, face to face with that!" She was trembling slightly, as she spoke. "It is making me nervous."

"And no wonder," murmured her friend. "But it must be almost over. I—I confess to some curiosity This is such a new and unusual sensation, to be here, you know."

"Ugh!"

Mrs. Jamieson turned away, for the coroner was speaking.

"There is one point," he said, "upon which our witnesses differ, and that is the mental condition of the deceased during the twenty-four hours preceding his death. Another witness will now speak upon this matter. Mr. Robert Brierly, the brother of Charles Brierly will now testify."

As Robert Brierly came out from the rather secluded place he had heretofore occupied, at the suggestion of the detective, all eyes were fixed upon him. There could be no doubt of his relationship to the deceased. It was the same face, but darker and stronger; the same tall form, but broader and more athletic. The eyes of this man were darker, and more resolute than those of his dead brother; his hair was browner, too, and where the face of the one had been full of kindliness and gentle dignity, that of the other was strong, spirited and resolute. But beyond a doubt, these two were brothers.

There was a stir as Brierly made his way forward, passed before the coroner and faced the jury; and then as his eyes fell upon the two figures in the rear of that body he made a sudden step forward.

"Doctor!" he called quickly, "you are needed here! A lady has fainted!"

For a moment all was forgotten, save the white face that had fallen back upon her friend's shoulder, and that seemed even whiter because of the black garments, and beneath the halo of fair blonde hair.

"It was that," explained the friend who proved to be a Mrs. Arthur, pointing toward the shrouded figure in the inner room. "She has been growing more and more nervous for some time."

Robert Brierly was the first at her side, but, as the doctor took his place and he drew back a pace, a hand touched his arm.

"Step aside," whispered Ferrars, "where she cannot see you." And without comprehending but answering a look in the detective's eye, he obeyed.

Mrs. Jamieson did not at once recover, and the doctor and Ferrars carried her across the hall and into the room lately occupied by Brierly. As Mrs. Arthur followed them, it seemed to her that the detective, whom of course she did not know as such, was assuming the leadership, and that half a dozen quick words were spoken by him to the doctor, across her friend's drooping head.

To be continued.

The crowning glory of a "high ball," "fiz" or "rickey"—is

THE MONARCH OF MINERAL WATERS

AT ALL DEALERS

A. ROUNTREE, Agent, Peterborough.

CASSIE CHADWICK BLIND.

Famous Prisoner Collapses After Serving Two Years.

Columbus, Ohio, Sept. 17.—Mrs. Cassie M. Chadwick, who, posing as Andrew Carnegie's natural daughter, swindled Ohio and eastern banks and capitalists out of millions in loans on bogus securities, was stricken with a nervous collapse at the penitentiary yesterday, which has left her blind.

Her condition is serious, and it is the opinion of the prison physicians that she will never live to serve out her ten years' sentence, two years of which she has completed.

Used Knives In Chatham.

Chatham, Sept. 17.—Knives were freely used in a fight between an Italian and some Assyrians here yesterday afternoon, but the police took in the bunch before any serious damage was done.

Mike Vato, an Italian push-cart man, wheeled his bananas up in front of Zakon Bros.' store, next the Rankin House.

The Assyrians rushed out at him, and for a minute it looked serious for the pedlar. Knives were pulled and a general melee ensued.

Waylaid by Italians.

Pittsburg, Kansas, Sept. 17.—Near Crowbar, a mining camp, late Sunday night, Charles Gardner, a mine boss and his sister, Mrs. George Rexford, were waylaid on a lonely road while returning home by a number of Italians and shot and fatally wounded.

Gardner returned the fire, and shot and killed two Italians.

Freedom For Lifer.

San Francisco, Sept. 17.—After having served thirteen years in San Quentin Penitentiary, it developed yesterday that William Evans, one of the convicts, is an innocent man.

Evans was convicted in Amador County of burglary, and sentenced to life imprisonment. He will be released.

Strike Results In Disorder.

New York, Sept. 17.—Street disorders growing out of the strike of six thousand furriers resulted in the arrest of nearly a score of strikers yesterday.

The furriers went on strike as a result of a lock-out of 3,000 furriers on Saturday.

STUBBORN 12-HOUR FIGHT.

Chinese Troops March 60 Miles to Relieve City.

Hong Kong, Sept. 17.—A stubborn 12-hour engagement occurred on Sunday between troops and insurgents at Lingshan City, in the Prefecture of Yungchow.

The imperial reinforcements marched 60 miles from Kwangsi and relieved the city.

The insurgents, who are moderately well armed, have severed telegraphic communication.

It is reported that the leaders of the new movement are emigrants who have returned from the Straits Settlements, Annam, where they obtained their military stores. Gunboats are patrolling the coast to prevent smuggling.

THE MARKETS.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock—Latest Quotations.

Monday Evening, Sept. 16.

Liverpool wheat futures closed to-day ⅝d to 1¼d higher than Saturday, and corn futures ⅛d lower.

At Chicago, September wheat closed ⅛c higher than Saturday, September corn ⅛c lower, and September oats ⅛c higher.

Turpentine—Spirits steady, [illegible]s 6d.

New York Dairy Market.

NEW YORK, Sept. 16.—Butter—Firmer; receipts, [illegible]; creamery, specials, [illegible]c; extras, 27½c; third to firsts, [illegible]c to [illegible]c; state dairy, common to finest, [illegible]c to [illegible]c; process, common to special, [illegible]c to [illegible]c; western factory, common to first, 19½c to [illegible].

Cheese—Firm; receipts, [illegible]; state, full cream, small, colored and white, fine, [illegible]c; good to prime, [illegible]c to [illegible]c; common to fair, 11c to 13c; large, colored, fine, [illegible]c; white, [illegible]c to [illegible]c; common to prime, 11c to 12½c; skims, 3c to 11½c.

Eggs—Firm; receipts, [illegible]; state, Pennsylvania and nearby, fancy, selected, white, [illegible]c to [illegible]c; good to choice, [illegible]c to [illegible]c; brown and mixed, fancy, [illegible]c to [illegible]c; first to extra firsts, [illegible]c to [illegible]c; western firsts, [illegible]c to [illegible]c; seconds, [illegible]c to [illegible]c

CATTLE MARKETS.

Cables Firmer—Hogs Unsteady in United States Markets.

LONDON, Sept. 16.—London cables are firmer, at 11½c to 12½c per lb., dressed weight; refrigerator beef is quoted at [illegible]c per pound.

Toronto Junction Live Stock.

TORONTO JUNCTION, Sept. 16.—Receipts of live stock at the Junction Market were [illegible] carloads, composed of 1200 cattle, [illegible] sheep and 30 calves.

Exporters.

Prices ranged all from $4.50 to $5.15 per cwt., the bulk of the best selling at from $4.75 to $5; export bulls sold at from $3.75 to $4.50 per cwt.

Butchers.

Prime picked lots sold at $4.75 to $5 per cwt.; loads of the best on sale sold at $4.25 to $4.50; medium, mixed, sold at $3.75 to $4; common, $3 to $3.50; cows, $2.50 to $3.25; canners, $1 to $2.

Milch Cows.

Fred Rowntree bought 19 cows, all that were on sale, at $35 to $54 each, but only one cow brought the latter figure.

Veal Calves.

W. B. Levack bought all the veal calves offered for the Levack Dressed Meat Company, at $5.50 to $6 per cwt.

Sheep and Lambs.

The market for sheep and lambs was dull, with prices easy, as follows: Export ewes, $4.40 per cwt.; lambs, $5.25 to $5.35 per cwt.

Hogs.

H. P. Kennedy reports selects at $6 per cwt., and lights and fats at $5.

Montreal Live Stock.

MONTREAL, Sept. 16.—(Special.)—At the Montreal Stock Yards' West End Market the receipts of live stock for the week ending Sept. 14 were [illegible] cattle, [illegible] sheep and lambs, [illegible] hogs and [illegible] calves. The offerings this morning for local consumption were 1200 cattle, [illegible] sheep and lambs, [illegible] hogs and [illegible] calves. Altho the supply of cattle to-day was fully 200 head in excess of a week ago, yet there was no actual change in the condition of the market, as prices were maintained under a good local and outside demand, and an active trade was done. There was also some demand from exporters for a few in order to complete shipments with, but really choice beeves were scarce at 5c to 5¼c per lb., while good stock was plentiful at 4½c to 4¾c, and some northwest ranchers of medium quality were offered at 3½c per lb. Cables from Liverpool on Saturday reported trade very slow and prices quoted for American and Canadian steers and ranchers were ½c to ¾c per lb. lower, while native cows and bulls showed a decline of ½c to 1c, as compared with a week ago. Locally sales of choice cattle were made at 5c to 5¼c; good at 4½c to 4¾c; fair at 4c to 4¼c; lower grades at 2½c to 3½c, and canners at 1½c to 1¾c per lb. Owing to the increased supplies of lambs that have been coming forward since this day week, a weaker feeling has prevailed in the market, and prices show a decline of ¾c per lb. At this reduction the demand from local buyers has been brisk, and an active trade done at 5¼c to 5¾c per lb. Receipts of sheep have also been larger, but, as the demand for export account has been more than ample to absorb all offerings, prices have been maintained, and sales were made freely at 4c to 4½c per lb. The demand for calves continues good, and, as supplies are fair for this season of the year, a fairly active trade was done at prices ranging from $3 to $12 each as to quality. The feature of the hog situation continues to be the weak feeling in the market, and prices since this day week show a further decline of 10c to 25c per 100 lbs., making a net drop of 75c since Aug. 19. This is due principally to the fact that advices from European sources on Canadian bacon are still favorable, and in addition to this supplies of hogs coming forward here are fairly large for the season of the year, which has also tended to depress the market some. The demand this morning was fairly good, and sales of selected lots were made at $6.25 to $6.50 per 100 lbs., weighed off cars.

East Buffalo Cattle Market.

EAST BUFFALO, Sept. 16.—Cattle—Receipts, [illegible] head; heavy slow and a shade lower; others steady to strong; prime steers, $6.15 to $6.65; shipping, $5.50 to $6; butchers', $4.65 to $5.85; heifers, $3.75 to $5.30; cows, $3 to $4.75; bulls, $2.75 to $4.50; stockers and feeders, $2.75 to $4.40; stock heifers, $2.50 to $3.00; fresh cows and springers strong, $20 to $[illegible].

Veals—Receipts, 1300 head; active and 25c higher, $5 to $9.25.

Hogs—Receipts, 17,000; slow and 15c lower; heavy, $6.25 to $6.40; mixed, $6.50 to $6.70; yorkers, $6.60 to $6.75; roughs, $5.25 to $5.60; stags, $4.25 to $4.75; dairies, $6 to $6.60; pigs, $6.40.

Sheep and Lambs—Receipts, 15,[illegible] head; active; sheep steady; lambs 15c lower; lambs, $5 to $7.25; yearlings, $5.75 to $6; wethers, $5.50 to $5.75; ewes, $4.50 to $5; sheep, mixed, $2.50 to $5.25; Canada lambs, $2.50 to $7.[illegible].

Rev. Patrick Doyle, D.D., of Vernon River, P.E.I., is dead, aged [illegible].

His Services Held in High Esteem

Gold Headed Umbrella Given to Mr. Browne by Members of Choir

Yesterday afternoon a handsome gold headed umbrella, with the name of the recipient inscribed on the headpiece was left at the residence of Mr. Jas. Browne, 525 George street. Attached to the umbrella was a card bearing the following, "Kindly accept the accompanying gift as a slight token of appreciation of services so cheerfully rendered.—From members of the Charlotte Street Choir."

Needless to say, Mr. Browne appreciates very much the generosity of his fellow choristers, and is pleased to note that his efforts have won their approval and gratitude.

Here on His Way to Arrowhead B. C.

Mr. Hugh Irwin in City After Visiting Parents in Ireland

Mr. Hugh Irwin of Arrowhead, B. C., is registered at the Snowden House. He is on his way to his home in Arrowhead, B. C., after a visit to his parents, Mr. and Mrs. James Irwin, who reside near Belfast, Ireland, and will probably remain here for a week before departing for the west. He is a native of Ireland.

Mr. Irwin visited Peterborough six years ago, and has not been in the city since, with the exception of the present time. He naturally notices that many changes have taken place and many improvements have been made since the occasion of his last visit. He has been in Canada for many years.

Three Were Killed in Auto Collision

Machine Ran into Telephone Pole With Fatal Results

Special to the Review.

Colorado Springs, Col., Sept. 17.—An automobile, containing a party of seven Elks, returning from Manitou, ran into a telephone pole here, early today. Three men were killed outright and a fourth is reported to be dying.

Shell Exploded on Battleship

Forty of Japanese Crew Killed—Fatal Result of Target Practice

Special to the Review.

Tokio, Sept. 17.—Forty of the crew were killed and injured, on board the Japanese battleship, Kashima, by the explosion of a 12 inch shell within the shield, after target practice near Mure on Sept. 9.

The fatalities include a lieutenant, two cadets and one staff officer.

"Little Dolly Dimples" Coming

Mr. Webber Turner was in Toronto yesterday, and completed arrangements for the appearance of "Little Dolly Dimples," at the Grand Opera House here next Monday night, Sept. 23rd. This is one of the most popular comic operas on the road, and there are sixty people in the company. Grace Cameron is the star, and has been making a big hit.

Improvements to Stewart's Hall

Improvements will shortly be made to Stewart's Hall, Otonabee. The structure will be bricked in and part of the brick is already on the ground.

Should Sewers be Put in Before the Water Service?

Question Raised at Council Meeting Last Night—The Blocking of the Creek Near Dublin Street—Reports of Different Committees.

At the Council meeting last night Ald. Bradburn raised the question as to why the city was putting in sewers on streets before the water service was in. He contended that the sewer was of no use until the water was on the same street and expressed the opinion that the city was going ahead too fast in view of the preent condition of the debenture market. He understood that sewers were being put in on Patterson and Union streets and that the water service had not yet been extended to these thoroughfares. It would be time enough to put in the sewers when the water was there.

The Mayor stated that if the sewers were put in the water service would soon follow. The custom had been to go ahead with sewer construction on a street as soon as a sufficient number of the ratepayers wanted it.

Ald. Wilson referred to a case on McDonnel street where for some time the people had a sewer, but did not want the water service.

"They must have used it as a drain" remarked an alderman.

Ald. Phalen asked what had been the custom in past years and was informed that there were previous examples of sewers having been put in before the water service.

Ald. Stevenson said the city should go slow in a year of prosperity and thus be in a better position to stand hard times when they came. He asked for information about the Downie street sewer. He had been informed that this sewer was being put in although residents on the street stated that it was not wanted.

The Mayor explained that the sewer was being put at the request of a large number of people who lived further up the street than those who stated that it was not needed.

Ald. Wilson said the city would have to build a new trunk sewer and that pretty soon. He was not in favor of having sewers put in on a street before the water service was on it. He was not in favor of having the Parnell street sewer put in until the new trunk sewer was constructed on Park street.

There was some further discussion but no action was taken.

THAT CREEK AGAIN.

A letter was read from a number of residents in the vicinity of Smith and Dublin streets stating that the creek had been blocked on one man's property and asking that something should be done to re-open it as they feared flooding of their lands in the spring.

Ald. Elliott said that he had followed the creek all the way from above Mr. Bogue's property to McDonnel street and had found that it had been diverted from its natural course nearly all this distance. By means of such diversion the creek had been kept away from all the property except that of Mr. Bogue's. He considered that Mr. Bogue had some reason to complain. Ald. Elliott added that the crib work in the creek where it had been diverted was badly decayed and would have to be replaced in the near future. He thought it would be cheaper to divert the creek to a more natural channel than to build new crib work.

Ald. Johnston said that the only place where the creek had been diverted from its natural course was at Mr. Bogue's. He thought that Mr. Bogue had taken considerable liberty in blocking the creek without notifying anyone.

It was decided to refer the matter to the chairman of the Board of Works who will make an inspection of the locality and report later.

AN EXPLANATION.

Mrs. R. Stevenson wrote that she had seen in the paper that the cells in the police station had not been looked after properly. In this connection she stated that the the police had been notified of the condition of the cells two or three months ago, but that nothing had been done. As to the dust in the Council Chamber she had found it impossible to keep it clean owing to the dust arising from the improvements going on downstairs. The room had been washed out three times a week. Regarding the windows, Mrs. Stevenson stated that she would have washed them if there had been anyone there to take them down.

D. W. Dumble, police magistrate, wrote notifying the city that Chas. Burgoyne had been sentenced to a period not exceeding five years in the Industrial School at Toronto, and that the city would be responsible for his maintenance.

STREET NUMBERING.

Ald. Phalen, chairman, read the following report of the legal committee:—

Your Legal committee beg leave to report as follows:

1. Your committee considered a memorandum prepared by the Mayor regarding the house numbering system, suggesting that those parts of the city south of Lake street and west of Park street, and the short streets in the other portion of the city be renumbered on the same system as the central portion. We recommend that these suggestions outlined by the Mayor be adopted and that this committee be authorized to prepare a plan in accordance with them and report on the cost of carrying them out.

The report was adopted on motion.

AYLMER-ST. OPENING.

Ald. Duncan read the following report of the committee appointed in regard to the opening of Aylmer-st. from Lake street to Wescott street:

We have arranged with the property owners on the south side of Lake street to purchase from John McMahon the south part of lot No. 14 and lots Nos. 12 and 13, Plan 26, and from Thomas R. Kennedy the north part of lot No. 14, Plan No. 16, giving Mr. Kennedy in exchange 50 feet of lot No. 13, with a depth of 160 feet, a lot the same size as he now has, and paying him $200 for moving his buildings to the land given him in the exchange. Mr. McMahon will take $4,750 for his property, and after giving Mr. Kennedy the 50 feet and taking the and necessary to make the street 66 feet wide, the city will have 31 feet on Lake street and 120 feet on Aylmer street to dispose of, and the McMahon house can be sold or moved onto one of the lots. In addition the house on the right of way on Wescott street can be moved onto the lots on Aylmer street.

We recommed that this committee be authorized to carry out this arrangement and that the city treasurer be authorized to issue cheques to the city solicitor to pay John McMahon and T. R. Kennedy the sums mentioned.

The report was adopted.

PROPERTY COMMITTEE.

The chairman of the Property, Ald. McIntyre, presented the following report:—

1. We recommend that R. Sheehy be given a lease for one year at a rental of $25, of the ground immediately north of the Canadian Pacific railway on the west bank of the river, in size about fifty-four by sixty-six feet, no existing rights nor the rights of pedestrians to be interfered with.

2. We recommend that the city clerk write to each of the parties who have the key of the powder magazine that complaints have been made of the door being left open and of explosives being handled carelessly and requesting them to have the utmost care taken.

3. Your committee having received the resignation of Mrs. Stevenson, janitress of city buildings, recommend that it be accepted. We advertised for applications for the position of caretaker of city buildings and messenger and recommend that Robert Wilson be appointed to these positions and to perform such other duties as the Council may from time to time direct, and that he be under the direction of the city clerk, to be paid a salary of $450 a year, payble monthly, his duties to commence on September 17th, 1907.

4. Your committee has completed the work of preparing the Carters' shelter at a cost of $56 and recommend that a further sum of $22 be appropriated to purchase sheeting for it on the understanding that the carters will do the work or procure it done.

5. We recommend that this committee be authorized to purchase a table and chairs for the committee room.

In connection with the report of the Property committee, the city solicitor wrote the Council referring to the leasing of a part of the reserve on the west bank of the river to Mr. Richard Sheehy. As the reserve was originally laid out as an allownace for road and this being the case it could not be leased without taking the necessary steps provided by the Municipal Act, namely, posting up notices, publishing same in a newspaper and appointing a time for hearing any one whose land might be prejudicially affected and obtaining the approval of the Ontario Municipal and Railway Board. He suggested that Mr. Sheehy pay the $25 for the use of the land and avoid giving him a lease. The city solicitor also referred to the presence of some 15 or 20 boathouses on the reserve, the owners of which do not pay any rent for the use of the ground and that if this was allowed to continue difficulties might arise as to possession. He suggested that each boathouse owner be charged a reasonable rent.

The advice of the city solicitor will be acted upon.

To a request made by Ald. Elliott, Ald. Duncan replied that Mr. Fitzgerald had been instructed to relay sidewalk torn up opposite the old Hilliard mills, north, but it will not be possible to lay a granolithic walk this year.

Ald. Morgan also urged that the walk on north side of Hunter street, across the bridge, from present walk to the bridge, be laid before slushy weather arrives.

Ald. Duncan replied that this work will be taken up as speedily as possible.

BY-LAWS PASSED.

On motion of Ald. Duncan, seconded by Ald. Morgan, by-law No. 1338, authorizing a section of granolithic sidewalk on Townsend street, as a local improvement, was passed; also by-law No. 1339, to appoint Robert Wilson a janitor for the city buildings, at a salary of $450 per annum.

Ald. Stevenson wanted to know what was being done regarding securing a foot bridge across the C.P.R. bridge. He understood that the matter had been referred to a committee after a large number of people had been fined some time ago. People were crossing the bridge again as much as ever and were anxious to know what was being done to provide a foot bridge.

The Mayor explained that the C.P.R. had been communicated with and had replied that they would have plans and the cost of a bridge repaired and would forward same to the Council as soon as possible.

GENTLEMEN:—

Who demand correct apparel made to their own order, from the finest Imported Woollens of the best British Drapers, are invited to inspect our Entensive Stock of NEW FALL SUITINGS and OVERCOATINGS, VESTINGS, etc. Our Tailoring Department has proved so satisfactory for so many years, that those whom we have fitted before come back to be fitted again.

H. LeBRUN & CO.

Was Arrested on Charge of Stealing

Charles Bunton Alleged to Have Relieved Charles Payne of $30

Chas. B. Bunton, who it is alleged stole from the trouser's pockets of Chas. Payne, a North Monaghan farmer, the sum of thirty dollars, was brought to the city today, and placed under arrest. He came before County Magistrate Edmison this afternoon at three o'clock, and pleaded not guilty. He was remanded.

After Payne had sworn out the summons for Bunton's arrest, County Constable Cochrane left on the next train for Claremont, where the prisoner had gone to spend a few days at his home, prior to leaving for the Northwest. He was arrested and with Constable Cochrane, arrived on the noon C.P.R. train.

It will be remembered that Bunton went out to spend a few days with Mr. Payne and slept in the adjoining room. The money disappeared mysteriously and suspicion rested on Bunton.

The Bond Fixed at $4,000,000

For Appearance of Standard Oil Company in its Appeal

Special to the Review.

Chicago, Sept. 17.—Judge Grosscup in the Federal Court today, fixed the bond for the appearance of the Standard Oil Co. of Indiana, in its appeal from Judge Landis' decision, at four million dollars.

This is to guarantee that all the property of the company in Illinois shall be kept intact, until the appeal is heard. The Standard Oil Co. of New Jersey, was accepted as surety.

McDermid & Jury's Drug Store, Peterborough

THE DAYLIGHT STORE

SMART CLOTHES
FOR YOUNG MEN — FOR EARLY FALL

OUR FALL CLOTHES this season have been bettered at every point. Constant progress and advancement is the watchword here. This is necessary to maintain the standard of superiority which we insist shall distinguish our Clothes. They have all the style and snap of the American tailors, made of **Fine Worsteds and Tweeds** in the **New Browns and Greys.**

High Class, hand tailored by experts in their special part of a garment, which gives our patrons Style, Workmanship and Fit—the three most essential things in your Suit—yet they are sold at popular prices. **Suits at $12, $15 and $18**

GOOD CLOTHES HAVE PROVED OUR SUCCESS

LANG & MAHER
CLOTHIERS AND FURNISHERS TO MEN WHO KNOW.
409-411 George Street, Peterborough.

FALL MILLINERY OPENING

THURSDAY, SEPT. 19th, 1907

Your store is ready with an exceptional comprehensive assemblage of all that is new, fashionable and worthy, Millinery, Garments and Dress Materials for the Fall and Winter of 1907, as well as a splendid showing of New Draperies, Carpets and Linens. Visit the store on the special opening days of this

AUTHORITATIVE STYLE EXPOSITION

You'll find yourself then possessed of a clear knowledge of FASHION'S most favored fancies—for they're here awaiting your approval. Preparations on a larger scale than ever before—Assortments unusually complete and varied—Styles far more beautiful and prices particularly attractive. Below are hints of the feast that here awaits you. Be sure you COME.

THE NEW MILLINERY

Special attention is invited to the New Millinery. The latest creations of those designers in Paris, London and New York, who establish the vogue the world over, are shown in a wonderful profusion of beautiful effects. These imported HATS are augmented by a splendid showing of smart designs produced in our own workrooms. This season's rule of fashion is to wear any kind of a hat you like. Probably large hats will be the most fashionable, although plenty of small shapes are in evidence. A great variety of trimmings are exhibited, including all kinds of feather effects and plumes together with large flowers and ribbons with the many different color effects. A visit to our millenery show room will prove wonderfully appealing to the eye of the lover of beautiful style effects

TAILORED SUITS AND COATS

This will be one of the greatest seasons ever known for tailor made suits. Probably the fact that the styles are particularly becoming accounts for it. All the best styles are here, from the simple mannish tailored suits to the most striking novelty. Jackets are generally longer this season. Sleeves are three-quarter and full length with the three-quarter sleeve in the lead as favorite. What ever color you fancy you'll find that too, for her are suits in all prevailing colors and materials. Skirts are generally pleated and the walking length still rules. Of Cloth Coats we have prepared a most extensive showing. Here are the long, loose-fitting and long, tight-fitting coats, medium and seam fitted coat, nobby short aud medium long coats in plain materials and fancy mixtures.

ROY

Work Begins on the New Church

Excavation Operations for Al Saints' Edifice in Progress

The work of excavating for the foundation of the new All Saints' church was begun this morning.

The edifice will be located to the south of the present one on Rubidge street, on the adjoining lot, which was purchased some time ago by the congregation. A "bee" is being held today and half a dozen teams and scrapers are at work. It is expected that the foundation of the new church will be completed this fall, and the work of erecting the superstructure will start early next spring.

Repairs are being made to the Auburn dam by the owners, the Auburn Woollen Mills Co. A gang of men are at work making various improvements that have become necessary.

THE CITY AND VICINITY

EVENTS TO-NIGHT

Y.M.C.A.—Harriers Club meets.

George Street Church—Class Leaders Association meets.

License Board—Special meeting.

St. Andrew's Church—Young Men's Guild.

City Hall—Fire, Water and Light Committee.

FINED TWO DOLLARS.

Wm. Lancaster was fined two dollars for being drunk in a public place yesterday, by Magistrate Dumble at the police court today. He pleaded guilty.

WILL BE CONTINUED.

The prayer meetings at Bethany Tabernacle for the outpouring of the Holy Spirit will be continued every night this week, except Saturday.

AT STONY LAKE QUARRIES.

Mr. Richard Sheehy, contractor, of this city, has a gang of men at the Stony Lake quarries, where they are securing stone to be used in fulfillment of the contracts undertaken by Mr. Sheehy.

ST. JOHN'S A.Y.P.A.

A meeting of St. John's Young People's Association, was held last night, when it was decided to hold a meeting of the executive at the home of Mr. R. J. Devey, on Friday night at 8.30 o'clock, to arrange for the season's work.

IS ON RUN AGAIN.

Mr. Geo. Jobbitt, conductor of the express running between Lakefield and Lindsay, has resumed his duties after a two weeks' holiday. Conductor H. Bush, who relieved during Mr. Jobbitt's absence has returned to Lindsay to resume his regular position as freight conductor running from that town.

NO MEETING HELD

A meeting of the Central Ontario Life Underwriters' Association was to have been held last evening to hear reports from the delegates who attended the recent convention in Toronto. Owing to to the small attendance no business was done. A special meeting will be called next week, when reports will be presented.

LAUNCH OWNERS MEETING.

A meeting of owners of steam and gasolene power launches and boats will be held at the Review office, Thursday evening, Sept. 19th, to discuss matters of interest to the fraternity. All interested are urged to attend. 2d

The Fall Opening of the J. C Turnbull Co.'s Millinery Parlors will be held on Thursday, Sept. 19th and and following days, when all the latest ideas in Ladies' trimmed Hats will be on exhibition and Ladies Coats, Skirts, Blouses, etc will also be on display.

Excursion Train Passed Through

Was Here at 8 o'Clock This Morning on Way to West

The second and last farm laborers excursion conducted by the C.P.R. this year passed through the city this morning at 8 o'clock. The excursion train started from Toronto and picked up excursionists at different points along the line. Only one passenger was taken on at Peterborough. Winnipeg is the objective point and from that city the excursionists will leave for the different places where they have secured employment. The first C.P.R. homeseekers excursion will take place on Sept. 27th.

IS APPOINTED WOOD RANGER

Mr. Charles Hartley, of this city, has been appointed a Government wood ranger, and leaves immediately for the northern woods to commence his duties. Mr. Hartley held a similar position last year, and is a most efficient official. Many friends will be glad to hear of his appointment.

Thanksgiving is to be on Oct. 31. Harvest hands are scarce in the west.

WEDDING BELLS

GORDON — BULKLEY

Special to the Review.

Brighton, Sept. 17.—A quiet but pretty wedding took place this afternoon at two o'clock, at the home of the bride's parents, when Mr. George N. Gordon of the law firm of O'Connell and Gordon, Peterborough, was married to Miss Laura Bulkley, daughter of Mr. William Bulkley. The ceremony was performed by Rev. A. K. McLeod, pastor of Brighton Presbyterian church, the house being beautifully decorated for the happy occasion. The bride is one of Brighton's most popular and estimable young ladies, and a prominent worker in the Presbyterian church. Mr. Gordon is a former resident of the village, being a son of Mr. Wilmott Gordon, now of Toronto, chief license inspector for the province.

Mr. Gordon and bride, after a wedding tour to points west, will take up residence on Simcoe street, Peterborough, where they will be followed by the heartiest well-wishes of many friends and admirers in Brighton and vicinity.

An Absolute Cure for Rheumatism

If the skin or bowels are unhealthy, they won't throw off enough urea. This urea is changed into uric acid—carried by the blood to the nerves—and causes Rheumatism.

Fruit-a-tives surely cure Rheumatism and Sciatica

because they act directly on bowels, kidneys and skin—and so strengthen and invigorate these organs that there is no urea and uric acid retained in the system to irritate the nerves and bring Rheumatism, Sciatica and Neuralgia.

"Fruit-a-tives" are intensified fruit juices with tonics and intestinal antiseptics added.

50c. box—6 for $2.50.

Did "Jack" Leave Book in Walls

Mr. Mark Spencely May Have Torn Down "The House That Jack Built"

While engaged in the work of tearing down an old house on the corner of McDonnel and Bethune streets, Mr. Mark Spencley discovered a small all-paper volume, entitled "The House that Jack Built." It was published in 1834 by a New York publishing house, and while the leaves are yellow with age, all the reading matter is distinguishable. The book contains several pictures of the kind that interests juveniles, and the story of the "House That Jack Built"

Mr. Spencley found the book between the inside and outside walls of the house and on the sill. He intends to keep it as the circumstances incidental to its discovery are unusual and interesting. The book has, it would seem, been in the place where it was found ever since the house was constructed. It may be that there is some truth in the child lore that has never been believed in by 'grown ups," and that the finding of the little book in the walls of the building that Mr. Spencley was tearing down indicates that the builders left it there to demonstrate to any unbelievers who might in years to come lay their destructive hands to the task of demolishing the property, that they were tampering with the oft heard of, but hitherto undiscovered "House That Jack Built."

The Classes are Filling up Well

The Grand Stand Performance Will be Unusually Good

For a number of years past the directors of the Peterborough Fair have been of the opinion that it was just like throwing money away to hold any "show" at all, but this year things look exceedingly promising for a successful exhibition, and Secretary Hall has had a busy time receiving entries. All the classes will be well represented. The excellent vaudeville performance will undoubtedly be largely instrumental in swelling the gate receipts. The artists secured are all "top liners," and their acts have been greeted with much applause in the different cities in which they have been given.

HAVE REMOVED THEIR PROPERTY

Bandsmen Object to Scarlet Fever Patient Being so Close to Practice Room

The bandsmen of the 57th Regiment have removed their instruments, music, etc., from the band hall, as they object practising in a room alongside that in which is confined a scarlet fever patient. Although they were assured that there was no danger of infection, they took the steps they did as many of them are family men, and were afraid to rehearse in the band hall for fear of carry no scarlet fever germs into their homes.

A prominent member of the band, when seen by the Review, said he and his fellow bandsmen were indignant over the action of the authorities in utilizing a portion of the city building as an isolation hospital.

The convention of the Street Railway Association is in progress in Montreal.

Young People's Rally Was Attended With Great Success

Held Last Evening at Murray St. Baptist Church—Revs. L. McKinnon and C. H. Schutt Gave Interesting Addresses—Much Interest Displayed.

The Young People's rally at the Murray street Baptist church last evening was one of the greatest successes of its kind that has ever been held in this city. The number present of all denominations was very large, and the meeting was characterized by great enthusiasm and earnestness. The addresses given were interesting and inspiring, and no doubt will be of much benefit to all who were fortunate enough to hear them. The special speakers were Revs. L. McKinnon, of Gilmour Memorial church, who leaves shortly to reside in Calvin, North Dakota, and Rev C. H. Schutt, of Toronto. Both gentlemen were delegates to the Young People's convention at Spokane, held a few months ago.

Rev. J. R. Webb, pastor of Murray street church, occupied the chair, and the meeting was opened with the singing of a hymn and prayer by Rev. Mr. Brace, of Park street church. Mr. E. L. Hooker, president of Murray street Young People's Society, on behalf of that organisation, extended a hearty welcome to those present from the societies of other churches. The president expressed two reasons why this rally was held, one being to sustain interest among the members, and the other to arouse more members to come into the Society. The Young People's work is a very important one. There must be someone to fill the places of the older church workers, when they have passed away, and it falls to the younger element of the church. Therefore, it is necessary that they be trained in church work, hence the usefulness of a Young People's Society.

Mr. G. Mann, on behalf of Gilmour church, and Mr. C. Barrie, on behalf of Park street church, thanked the Murray street Young People for their kind invitation, and hoped they would be much stimulated as a result of being present.

Rev. L. McKinnon, of Gilmour Memorial church, on rising to speak, was loudly applauded. It gave him great pleasure to be present. He had been asked to speak on his impressions of the Spokane convention. He had enjoyed his trip very much. Mr. McKinnon referred to the natural beauties to be seen while travelling in the West, and gave an interesting sketch of his trip. He regretted to say that he and the other Ontario delegates were a day late in arriving at the convention, and missed some good addresses. One of the chief objects of the gathering was to encourage the kindly feeling between Canada and the United States. The The aim of the Society was "Christ for the young people, and the young people for Christ." Three elements of the work were the evangelistic, educational and devotional. "In the missionary field," said the speaker, "lies great work for the young people." Referring to his severing his connection with Gilmour church, Mr. McKinnon said that he was very sorry to do so, but in Dakota he felt as though it was God's will that he should go, and that is why he was going.

Rev. C. H. Schutt, of Toronto, also gave a stirring and splendid address. In his opening remarks he referred to the history of the Baptists and what their predecessors, among whom were some of the world's greatest men, had done in the work of the Baptist church. There are many opportunities for Baptist Young People to be actively engaged in some work for Christ. "There is a tendency nowadays," said the speaker, "for the vast majority of people to look to the material things rather than the spiritual. It was a great mistake, and he urged Peterborough young people to help to win Canada for Christ, that it might be, as it were, the kingdom of God.

Mr. Schutt's address was an earnest appeal for the young men and women to consecrate their lives to the work of the Master.

Mr. George H. Williamson added a few remarks of encouragement to the Young People, and wished them success in their winter's work.

After the benediction had been pronounced by Rev. Mr. Brace, an adjournment was made to the Sunday school room, where refreshments were served.

During the evening a quartette, consisting of Messrs. Hooker and Miller and Mrs. Miller and Miss Clara Kidd sang "The Lord is My Shepherd."

Aldermen Think That Public Abattoir is Now Necessary

A Place Where All Animals Intended for Consumption Would be Slaughtered Under the Eye of an Inspector—Discussed by City Council.

Should the city have a public abattoir?

This question was discussed at the meeting of the City Council last night. It provoked considerable comment, but no action was taken. However, it is likely that something will be done regarding the matter in the near future.

Ald. Elliott brought up the question, referring to the appointment of an inspector at the Geo. Matthews Co. which had the effect of all animals not in good health, offered for sale being rejected at the packing house. During the past few days, he understood, that over a hundred animals had been rejected by the inspector. He was of the opinion that these animals would be sold to some of the butchers in the city, or other parties, and that they would be slaughtered and the meat sold for consumption. This would be a grave danger to the health of the community. Ald Elliott considered that there should be a public abattoir where all animals intended for consumption should be slaughtered under an inspector, a competent man, who would see that no diseased animals were allowed to be slaughtered. The butchers of the city, were in favor of such an arrangement, and he was sure the public would welcome it. At present, Ald. Elliott remarked, every precaution was taken to protect the health of the people in the old land, to whom we exported meat, but nothing was done to protect the people of our own country.

Ald. Stevenson furnished some further information as to the question brought up by Ald. Elliott. Not only would farmers who have in the past sold their hogs to the Matthews Co., not do so to the same extent owing to the inspection there but drovers who formerly sent cattle to the Toronto market, would not forward to that market at the present time any cattle that were not in good condition, as they knew they would not pass the inspector. The result would be that drovers would try to sell these cattle to butchers in smaller places like Peterborough where there was no public inspector. He was heartily in favor of having a public abattoir.

Then the discussion veered around as to why the people of the city had to pay such a high price for beef, when the butchers were paying such low prices to the farmers for cattle. It was stated that the prices paid to farmers for beef cattle had taken a big drop, but there was no decrease in the price that citizens had to pay the butchers. Ald. Johnston couldn't understand why such was the case, neither could Ald. Leary and Stevenson, and it was ditto with the rest of the aldermen. Someone hinted that perhaps a combine existed among the butchers, and several of the aldermen thought it looked as if such was the case.

But as regards a public abattoir, there was a unanimity of opinion that it would be a good thing and it will be taken up at the next meeting of the council.

More Discussion About the City's Case of Scarlet Fever

The Mayor Explains His Position—Ald. Johnson Does Not Like the Action Taken—Other Matters Dealt With.

Between eight and nine o'clock last night the City Council met in committee of the whole and discussed several matters, afterwards going into regular session.

Mayor McWilliams was in the chair and the others present were Ald. Duncan, Elliott, McIntyre, Morgan, Leary, Wilson, Johnston, Stevenson, Bradburn, Whalen, and City Clerk Armstrong.

Mayor McWilliams explained the circumstances, leading to the use of a room in the city buildings as a ward for the scarlet fever patient. The chairman of the Board of Health and the Medical Health Officer had both come to him, wanting to know what to do, they being unable to come to an agreement between themselves. The Mayor told the Medical Health Officer to go ahead and do what he considered right, as it was not his (the Mayor's) business to direct what had been done. Dr. Ringham considered that the room in the top of the City Hall would serve all right, as an isolation ward with the result that the patient was placed there.

Ald. Johnston said he did not commend the action that had been taken. He did not think the city buildings should be used as an isolation ward.

Ald. Bradburn said the special committee, appointed to see what could be done, regarding an isolation hospital had met, and after due deliberation, came to the conclusion that it would not be advisable to spend $6,000 or $7,000 for an isolation hospital, which, perhaps, would only be occupied once or twice a year. He asked that the committee be given power to take such other steps as may be necessary to provide a suitable hospital in some less expensive manner.

This was done.

Ald. Bradburn said he had written to Toronto asking information as to isolation hospitals and was informed that Belleville was the only city about the size of Peterborough, having no isolation hospital. He had written to Belleville, but had received no reply, and had since noticed that the Belleville Council was considering sending a deputation to Peterborough, to inspect the isolation hospital here, so apparently Belleville, was no further advanced in the matter than Peterborough.

This ended the discussion on this subject.

CLAIM FOR DAMAGES.

With regard to Col. J. Z. Rogers' claim for damages, in regard to the filling in of the water front, the Mayor stated that Mr. Rogers was firm in his demands, and finally a conference was arranged between the representatives of the city, Peterborough Cereal Co., Mr. Rogers and the C.P.R., with the result that it was agreed to put in two three-foot pipes, and to cut through the outer embankment so that the water could flow in, thereby doing away with the condition of affairs complained of by Mr. Rogers. An agreement to this effect had been drawn up and had been sanctioned by the city and the Peterborough Cereal Co., and was now in the hands of the C.P.R. It provided for each of these three bodies, bearing one-third of the cost of the work to be done. If the C.P.R. accepted the agreement, everything would be all right, but if not further consideration would be necessary.

ABOUT A LIGHT.

Ald. Johnston brought up the request of Mr. Reid of Smith township, asking for a light outside the city limits, near Jackson's Park. The alderman stated that the Fire, Water and Light Committee had recommended having this light installed, not because Mr. Reid wanted it, but because the light was needed in the locality as many people come home from Jackson Park at this point, and the light was needed on this account.

The Mayor stated that as the season was just about over at Jackson Park, he did not think action was necessary at present.

It was pointed out that many people passed the spot in question, while going to and from the toboggan slide in winter, and the light was necessary on that account, not where Mr. Reid wanted it, but down the hollow towards the railway track.

Ald. Johnston said the trouble was that lights had already been refused to petitioners at several places in the heart of the city. He thought everything would be all right if the proposed change in the lighting system of the city, was made.

Ald. Bradburn said he did not see why Mr. Reid should be given a light but that if one was needed near the place in question, something might be done.

At last it was decided to leave the matter in the hands of the chairman of the Fire, Water and Light Committee, he to see Mr. Larmonth, and ascertain what could be done towards having a couple of incandescent lights placed where they were needed most.

The committee of the whole then adjourned.

LAKEFIELD FAIR

The Annual Exhibition of the Lakefield Agricultural Society will be held in the fine new grounds of the Society in Lakefield, on Tuesday and Wednesday, September 24 and 25.

The buildings and grounds have been much improved during the present summer and the track for speeding has been put into excellent shape.

The speeding in the ring promises to be first-class and the Society has granted good purses in the Free-for-All and 2.50 Class.

For prize lists and entry forms, etc. address W. SHERIN, Sec'y., Lakefield Ont.

Notes Progress of Peterborough

Mr. Abraham Ball Who Holds Important Post With Large American Firm Visits His Home Town

Mr. Abraham Ball, of Rochester, N. Y., superintendent of the blasting department of the Westinghouse, Church & Kerr Company, and brother of Mr. George Ball, Sanitary Inspector, arrived in the city last week for the purpose of attending the funeral of his mother, the late Mrs. Annie Cluxton Ball, which took place to St. Peter's cemetery Sunday afternoon.

Mr. Ball is an old resident of Peterborough, and he last visited here three years ago. He has noticed that even in the short time that elapsed since he was in the city on the former occasion, that the improvements in the way of buildings, granolithic walks, etc., have been remarkable.

Mr. Ball has travelled extensively in the interests of his firm, and has fulfilled a large number of important contracts. He is a mechanic of great ability, and the position he occupies is a very important one. He regards Canada as the coming country, and, although his business interests necessitate his residence in Uncle Sam's domains, his heart is still true to the land of the maple.

MR. HALL'S OFFICE

The office of F. J. A. Hall, Secretary of the Exhibition, will be at Storey & Leary's, Water street, from now to the time the entry list closes. He will be there every afternoon from 1.30 to 6, and all day on Saturday.

SECRET SKIN TROUBLES

Have you on some part of your body a sore, or eruption, or eczemous patch, which, hidden from the gaze of others, yet causes you hours and hours of pain and inconvenience?

If so, don't overlook this comforting fact—that Zam-Buk is daily curing just such chronic cases as yours! It heals skin diseases, ulcers, festering sores, ringworm and sores due to blood poison. Write Zam-Buk Co., Toronto, for free trial box, sending 1c. stamp. All stores and druggists sell at 50 cents a box.

Zam-Buk

HE MADE TOO MUCH NOISE

But Took His Departure Before Policeman Arrived

On Saturday night an employee of the "Quick Lunch," Charlotte street, rushed into the police station and requested the services of a policeman to deal with an offender, who was making himself too conspicuous by his loud and disorderly presence. P. C. Adams responded to the call, but the troublesome one had "ducked" before the officer arrived.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

The Crowding Must be Stopped

Postmaster Says He Will Not Tolerate Confusion on Saturday Nights

Postmaster Col. H. C. Rogers, when seen by the Review, concerning the crowding at the mail wickets on Saturday night remarked, that he would use every means in his power to prevent the recurrence of any such disorder on future occasions.

"Its the promenaders," said he "coming in from the street and pushing ahead of people, who have lined up to get their mail that cause all the confusion. The sooner we get the postal delivery service the better. Why last Saturday night, there was such a jam, that for a time many could not get past the crowd to take the mail out of their boxes. The janitor has to be placed on guard to see that the people enquire at the wicket in turn, and often has difficulty in making them conduct themselves in an orderly manner. This state of affairs is certainly very annoying," he concluded, "and I will call into requisition the services of the police at any time I deem such a step necessary."

Are the Farmers Making Mistake?

"The farmers are making a big mistake in charging such high prices for the hay and grain," was the remark made yesterday by a local merchant, the delivery section of whose business necessitates the keeping of several horses. "By keeping the prices up to the present high notch they materially detract from the value of their horses and other stock. Many people cannot afford to keep a horse or a cow when the figure for feed is so prohibitive and their readiness to sell keeps the price of live stock away below par. Thus while the farmers are getting high prices on their hay and grain on the whole they are losing money on account of depression in the live stock market."

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Should Only Union Men be Employed?

Question Raised at Meeting of the City Council—Referred to Board of Works

Should the City Council employ only union men on corporation work?

This was the question raised at the meeting of the City Council last night, when a letter was read from Wm. Stevens, corresponding secretary of the Bricklayers' and Masons' Union of Peterborough, who complained that on Sept. 3rd, Mr. White and Mr. Martin Leary, had employed a non-union man for building man-holes when a union man could have been secured. Mr. Stevens stated in his letter that the matter had been discussed at a meeting of the union, and a decision reached to protest to the council against allowing non-union men to be employed where union men were available.

Ald. Leary wanted to know if the non-union man who had been employed was a ratepayer of the city and was informed that he was. "Then why can't we give him work?" he asked. "This is a free country and we can employ whom we like."

Ald. Morgan did not agree with him. Union men should have the choice.

"Well, I'd like to see you make me belong to a union, if I didn't want to," said Ald. Leary.

The Mayor stated that the question whether or not only union men should be employed was a big one and did not think the council had time to discuss it at the present meeting.

There were several explanations as to why the non-union man had been employed, but it was thought advisable to refer the matter to the Board of Works, and at Ald. Johnston's suggestion, all the interested parties will be asked to appear at a meeting of the Board in order that everything may be settled satisfactorily.

Says Peterboro' is Lively Place

Mr. A. R. Miranda, who is visiting the local merchants in the interests of the Artistic Ad Co., 320 Broadway, New York, thinks that Peterborough is a mighty lively go-ahead place. He has recently been at Stratford, London, Woodstock and other western towns and says there is an overflow of transient people in them. For this reason many travellers have had difficulty in securing accommodation, especially during the crush at the times the fairs were held.

"I think George street has a very metropolitan appearance," he remarked, "and would do credit to a city of 50,000 inhabitants."

NEW PRESIDENT WAS ELECTED

Mr. Garnet Galley was elected president of the George Street Methodist Epworth League last evening. Rev. Mr. Pearson occupied the chair and a devotional meeting was held. Miss Ethel Miller read an instructive paper on "Duties of the Day." Mr. Cole, formerly president of the league, is leaving the city, and a new president had to be elected. Mr. Galley was the unanimous choice.

Sixteen Dollars Stolen From Young Englishman's Pockets

Trousers Hung in His Room—Young Couple Who Were Boarding at Same House Suspected—They Have Since Left the City.

A young Englishman named Rodgers, who boards on Charlotte street, called at the police station and complained that while away at his work yesterday, the pockets of a pair of trousers hanging in his room were gone through and robbed of sixteen dollars. The parties suspected of the bold faced robbery, are a man and a woman, who came to the house to board a week ago, and who left yesterday afternoon for Hamilton. At least that is where they said they were going. The lady was part negress, but the gentleman was a white man. They were of medium height, well dressed, but were evidently "slick" ones, who have been travelling from place to place doing everyone they could. The young man would be about 24 years of age, and the young lady, 20 years. They stated that they were in Toronto the week previous to coming here, and were in Belleville the week before that.

The boarding house landlady little thought she had thieves in the house and the relations between herself and the young couple were most pleasant. The young man worked in the C.G.E. works for three days, but he stated that where he could only earn $2.50 a day here, he could get $4 a day in Hamilton, and had accepted a position there. They paid their weeks' board before leaving.

Mr. Rodgers first missed the money when he went to get some of it to pay his board last evening.

He wanted to have a warrant issued for their arrest, but as there was scarcely any proof that they took it, with the fact that they have likely skipped to Yankee town, it would be a matter of great expense to bring them back and then probably not get the money.

The sixteen dollars consisted of some English half crowns, but was mostly in Canadian money.

Postal Delivery System Will be Inaugurated Soon

Col. Rogers, Local Postmaster, Hopes to Have Mail Carriers at Work Before Christmas—Requisition Blanks Have Been Received and Beats Mapped Out

"We expect to have it here before Christmas," said Col. H. C. Rogers, postmaster of the local post office, when interviewed concerning the time that the anticipated postal delivery system would be in operation in Peterborough. And as "Christmas is coming," in a very few months, it is quite possible, and even probable, that Santa Claus will be assisted in the distribution of Yule-tide gifts in this city by the helmeted and uniformed carriers of the mails.

BLANK FORMS HERE.

The requisitions are now at the post office and call for the supplying of two suits a year to each man, together with boots, leggings, waterproof capes, brass monograms for the helmets, and other articles of equipment. The summer uniforms will consist of serge tunics and trousers, while the winter suits will be of heavy cloth. Light helmets for summer and beaver ones for winter will be provided. There will be seven men on the staff of carriers, thus insuring a prompt delivery of mails to all parts of the city.

BEATS MAPPED OUT.

The Deputy Superintendent of Post Offices has been here and has mapped out the beats for the men, and arranged for the number to be employed. He has been busy lately at Stratford, Guelph and other points, and is expected here shortly to instruct the carriers in the work in connection with the discharge of their duties. Prior to his visit, however, General Superintendent George Ross, of Toronto, will come to the city to install the carriers who will have been selected. The salary they will receive will be $400 per annum, and their uniforms and complete outfits will be supplied by the department at no personal expense to the men.

"I am anxious to have them at work before Christmas," said Col. Rogers, "so they will be familiar with their duties when the busy season commences."

Preparing Themselves for Better Positions in Life

Twenty young men and women are preparing themselves for the battle of life by attending the night school of the Peterborough Business College. They are equipping themselves with a general education and a commercial training that will enable them to rise above their present positions and achieve success in the various fields they may enter. The fall term of the evening classes opened last night and will terminate at Christmas, after which a new term will be commenced, concluding about the last of March. Twenty pupils registered last evening, the largest number that has ever enrolled for night school at the College. Those who have registered are ambitious young men and women, who are situated in such a manner that they cannot readily attend day school, but anxious to improve their education and equip themselves for better positions, are devoting their evenings to study, rather than to the pastimes and pleasures usually indulged in by young people. The night classes are held on Monday, Tuesday and Thursday evenings from 7.30 to 9.30 o'clock, and Principal Pringle has arranged a course of study that is well suited for the night school students. There is a general course, embracing arithmetic, writing, spelling and letter writing, that is designed for students who have had to leave school early in life, or through other circumstances have been prevented from securing as good a general education as they would like to have. Then there are the commercial courses, which include book-keeping, shorthand and typewriting. These are taught very fully, the teaching staff being similar to that for the day classes. Mr. Pringle gives personal attention to each student, and the teachers do everything in their power to help along the pupils.

As to the cost of a term in the night school it may be stated that it is almost trifling. It is a safe assertion that if the young men and women attending the night classes were spending the evenings devoted to study in the manner of the ordinary young person, they would be out of pocket more money than would pay their tuition.

Mr. Pringle says that some of the brightest graduates of the College have been developed in the night school. The evening classes provide an excellent opportunity for ambitious persons to better their position in the world.

The Social Side of Y.M.C.A.' Work

Will Receive Greater Attention—Parlors Will be Open on Sunday Evening

The Social Committee at the Y.M.C.A. held a good meeting last evening, under the leadership of the efficient chairman, Mr. Chas. Coleman.

The question of a better social work and the securing of the co-operation of all the members, was the theme of the evening.

It was decided to increase the committee to 21, with three men on duty each evening.

It was also decided to keep the parlors open on Sunday evenings from eight to ten o'clock.

A special letter will be sent to the members calling their attention to a number of ways in which they can help in this department. It was decided to hold a "Social Motto Contest," the idea being to secure a phrase of not more than ten words, which will convey to strangers and visitors to the building, the social idea. This motto will be hung at the entrance to the building. The committee will receive answers until the first of October, and a prize will be given to the one who sends in the best quotation. Another meeting of the committee will be held to arrange for the opening reception.

Canadian Club is Progressing

The Work of Organization Going Ahead Encouragingly

A meeting of the committee, having in charge the work of arranging for an organization meeting of a Canadian Club in Peterborough, was held yesterday afternoon. The reports given were most encouraging, and a plan was decided upon for a canvass for members, and following which a general meeting will be called.

The club will be independent of any other organization, and conducted along the same line as in other cities.

The Y.M.C.A. Educational Committee are merely undertaking the working up of the club and arranging for the organization.

CIVIC MATTERS THAT INTEREST

There will be a meeting of the Fire, Water and Light Committee tonight to deal with several matters that have recently arisen.

The Board of Works will meet tomorrow afternoon at 1.30 o'clock to make a tour of inspection of work going on in the city, as decided on at the meeting a few evenings ago.

FOR RESTRICTION.

Sentiment in B. C. Is Strong Though Not Insolent.

Vancouver, B. C., Sept. 17.—So far as further resort to disorder as a protest against Asiatic immigration is concerned, public opinion throughout British Columbia has become so settled or unified during the past week as to put all danger of that character far beyond the range of probability. At the same time, popular feeling is steadily taking deliberate and dignified grounds, unmistakably on the side of restriction of emigration.

"British Columbia, a white man's country," appears to be more than the labor party slogan. The issue insists upon capable legislative treatment.

Confidence In Canadians.

London, Sept. 17.—Baron Komura, the Japanese ambassador to Great Britain, who has just returned to London, after an absence in the country, called on Sir Edward Grey at the Foreign Office, yesterday afternoon, and discussed the anti-Oriental disturbances at Vancouver.

The ambassador took with him long despatches which he received from the Japanese consul at Vancouver and Ottawa, and, it is understood, assured the Foreign Secretary that Japan had the greatest confidence that the Canadians would punish those who were responsible for the attacks on the Japanese, and was satisfied with the steps in that direction already taken.

Heading For British Columbia.

Ottawa, Sept. 17.—The Trade and Commerce Department is advised that 400 of the Hindoos recently driven out of Bellingham, in the State of Washington, are heading for British Columbia, in small parties.

MAGISTRATE UNDER FIRE.

People Go Back Thirty Years to Rake Up Charges.

Toronto, Sept. 17.—In pursuance of correspondence which has passed on the subject between the complainants and the Department of the Attorney-General, a deputation consisting of the Reeve of Orangeville and two of the councillors, Messrs. Lynn and Henderson, waited yesterday afternoon upon the Hon. J. J. Foy, and requested that a thorough and early enquiry be ordered into the methods employed by the police magistrate of Orangeville, Joseph Pattullo, during a period extending over many years.

About one dozen cases were especially mentioned in this particular; one of the dates was so far back as thirty years ago, and another goes back five years.

Hon. Mr. Foy informed the members of the deputation that he would direct that an examination be made into the complaints which had been laid before the Department.

KILLED BY RAILWAYS.

Nearly Five Hundred Lives Lost During Past Nine Months.

Ottawa, Sept. 17.—The casualty returns of the Canadian railways for the nine months ending April 1 show 460 killed and 603 injured, as follows: Forty-two passengers killed and 210 injured, 312 employes killed and 317 injured, 206 other persons killed and 76 injured.

The level crossing accidents show 47 killed and 23 injured. Two were killed and 32 injured by trespass, 46 were killed and 29 injured while working on the railway tracks, 44 were killed and 109 injured in head-on collisions.

Sixty-one bodies have been found on the railway tracks and bridges during the period in question.

SWEPT OFF THE WHARF.

An Italian Named Carlotta Killed at Montreal.

Montreal, Sept. 17.—An Italian named Carlotta, who was at work on the sheds on the Alexandra wharf for Peter Lyall & Son, met his death yesterday. He was employed as a hod-carrier, and was just about to climb down the wharf to a barge lying alongside, when the crane in use on the wharf swung around and hit the unfortunate man, throwing him to the barge, some 40 feet below. An inquest will be held.

Labor Congress Meets.

Winnipeg, Sept. 17.—Welcomed by the Premier of Manitoba, the Mayor of Winnipeg, and the local Trades and Labor Council, the 23rd annual convention of the Trades and Labor Congress of Canada opened here yesterday in the Legislative Chamber under promising auspices. There are 126 delegates present as compared with 45 at the convention of ten years ago.

The standing of the congress in the light of the secretary's report is much in advance of last year's record, and instead of a membership of 27,000 there are now over 32,000 trades unionists affiliated. The revenue also shows an increase of over $500.

The Conciliation Board at Springhill has forwarded its report to Ottawa.

WEDDING BELLS

HENNESSY—MOHER

St. Peter's Cathedral was the scene of an exceedingly pretty wedding this morning at 8 o'clock, when Miss Mary, eldest daughter of Mr. Daniel Moher, 20 Patterson street, was united in marriage to Mr. Michael Hennessy, of Toronto.

Punctually at eight o'clock, to the strains of Mendelssohn's wedding march, played by Miss Doherty, and leaning on the arm of her father, who gave her away, the bride entered the church. She was becomingly attired in a navy blue travelling suit, and a point d'esprit blouse with a hat to match. She carried a mother of pearl prayer book. She was attended by her sister, Miss Delphine Moher, who looked charming in a dress of cream Panama with a pink picture hat. She carried pink asters. The groom was supported by his brother, Mr. Thomas Hennessy.

Rev. Father O'Leary, cousin of the bride, performed the ceremony. During the service Miss Levina Hallihan and A. Simons sang "Ave Maria."

The groom's gift to the bride was a diamond ring, to the bridesmaid an opal and emerald ring, and to the groomsman a pearl tie pin.

After the ceremony the bridal party repaired to the home of the bride, where about fifty guests sat down to a sumptuous wedding breakfast, served by Mr. T. H. Hooper.

The bride was the recipient of many beautiful and costly presents, among them being a handsome salad bowl, the gift of St. Peter's choir, of which the bride was a member.

Mr. and Mrs. Hennessy left on the 4.48 train for Niagara, Buffalo and Rochester, and on their return will reside on Sixth street, New Toronto.

THE PETERBORO' COLLEGE OF MUSIC

Mrs. W. J. Morrow, F.N.C.M., Principal, opens Monday, Sept. 9th. Intending pupils in vocal and instrumental instruction can arrange for hours between 10 and 12 a.m. and 2 and 9 a.m. 12d

Editor of Globe Will be Speaker

Presbyterians of City Arranging for Banquet to be Held in October

Arrangements are being made by a committee composed of representatives of the men of the three Presbyterian congregations in the city, St. Andrew's, St. Paul's and Knox churches, for the holding of a banquet toward the end of October. Rev. J. A. McDonald, editor of the Toronto Globe, has consented to be the speaker of the evening, and his subject will be "The Laymen's Movement in the Church." The banquet will be held, in all probability, in the lecture room of St. Andrew's church, and extensive preparations are being made. Mr. G. M. Roger will be chairman, and in addition to the men of the three congregations mentioned above, representatives of the other churches in the city will be invited.

TWO PARTIES HERE TO-DAY

One From Point D'Grassi, Lake Simcoe and the Other From Cobourg

Two yachting parties, one from Point D'Grassi, Lake Simcoe, and the other from Cobourg, registered at the Oriental today. The members of the party are; A. Mitchell, T. Allen, N. Morgan, A. H. Walker, J. L. Ross, J. McKeggie and T. B. Allen and those who came from the Lake Ontario town are Messrs. McIntosh, Lales, Miles, Isaacs, Jacobs, Fox and Denton, and Messrs. Platt, Kennedy, Jewell, Wilson and Robertson. The Lake Simcoe "trippers" came down the Trent Canal and over the lift lock, while those from Cobourg sailed from Gore's Landing in the speedy little yacht "Mermaid."

The Vice Skip Won the Finals

Dr. Holloway Defeated J. E. A. Fitzgerald by 13—2

The final game in the skips and vice skips competition was played yesterday afternoon between Skip J. E. A. Fitzgerald and vice skip Dr. W. T. Holloway, resulting in a victory for the latter by a score of 13-2. The winner secures a pair of handsome bowls by reason of his triumph. It will be remembered that Messrs. D. H. Moore, A. H. Stratton, J. E. A. Fitzgerald, W. G. Ferguson, who are enthusiastic bowlers, each donated a pair of bowls for the successful competitors in the singles and Scotch doubles events, when the annual meeting was held. It is expected that the different competitions will be pretty well finished by the end of this week and the players in the Scotch Doubles are requested to conclude their games as soon as possible.

The prospects for a lively season of bowling in Peterborough, were never better than they are at the present time. It is expected that the loud and merry roll of the big wooden balls, and cries of "strike," "set up those pins, boy," "send back the big ball," and other familiar exclamations will soon be heard in the handsomely finished and re-decorated Majestic Bowling Alleys. As a matter of fact they have been heard for some time past, but not to such an extent as they will be later in the year for the weather has been a trifle warm for even the ardent enthusiasts. However the leaves of green are turning now to gold, and this is the first signs that fall is approaching and with it the bowling season.

A meeting of the local bowlers is called for Friday night next at eight o'clock for the purpose of forming a league, arranging the schedule and forming clubs for the coming season. As this is practically the annual bowling meeting a large attendance of those interested is looked for.

Mr. C. E. Frost made a score of 232 at the alleys the other day in a single game, being the highest one made this season. The local record is 243.

BASKETBALL

The Arrows practice tonight at seven o'clock, at the Y.M.C.A. gymnasium.

RUGBY

The Crescents did not hold their practice on the Oval last night, on account of the threatening weather.

There will be a meeting of the executive of the Rugby Club tonight for the purpose of making arrangements for the installation of lights in Riverside Park.

The Junior Crescents are getting into good shape and holding practices every evening after school hours, in Boswell's field. All those not over sixteen years of age desiring to play the game, are requested to turn out to the practices, and all of last year's men are asked to be on hand whenever possible. The Crescents will play the T.C.S. Juniors in a short time. The date of the game has not yet been arranged.

The Crescents will practice tomorrow night at eight o'clock on Nicholls Oval. They will meet in Central Park, between 7.30 and 8 o'clock, previous to the practice.

OUR NEW STORE TO BE FORMALLY OPENED ON FRIDAY, SEPTEMBER 20th, 7 to 10 p.m. ORCHESTRA IN ATTENDANCE

Cressman's

THE TURF

Mr. Bert McCallum's "Black Cloud" will not start in the races at the Lindsay Fair on Friday, owing to an injury received to the off fore leg, while working out at the driving park yesterday.

Hazel Bell, Lady Gothard, Queen's Baron and Harry Direct will all be shipped to Lindsay Thursday afternoon to start in the races held under the auspices of the Lindsay Exhibition. The above horses should have a share of the picking when the prize money is distributed.

Dick Monahan, a well-known local knight of the sulky, is handling Mr. Geo. Linnett's Peggy, 2.29 1-4. Peggy will start here in the .30 class.

The track has never been in as good shape for the races as it is at the present time, thanks to the indefatigable efforts of the turfmen.

The local horsemen complain that there are hundreds of sheep running loose at the Driving Park, and say they are a great nuisance to those exercising horses.

HOCKEY

All through the country, city hockey teams are organizing and it wouldn't be a bad plan for local enthusiasts to get together and discuss matters. No it isn't too early.

SPORTING COMMENT

Fast juniors have a good chance of catching a place on the line-up of the local rugby team. Never had a better one in fact.

The Lindsay Post will rest more easily now, after registering the following knock: "Port Hope defeated Peterborough on Saturday at Cobourg, in the final game for the Midland League championship by the score of 4—3. Each team was made up principally of imports.

Who will be the next one to meet Joe Gans, the dusky boy, who has demonstrated that he richly deserves the title of lightweight champion. At present there is no one in the ring that can come up to Gans in his class, and he may have a long rest like Jeffries had.

Alfred Shrubb, the English crack, is out with an offer to run any three men in Canada, the event to be a relay race. This is a mighty generous offer and the lad from Albion should be taken up, if he hasn't all the Canucks frightened. There is some talk about a match between Shrubb and Sherring, but from here the Marathon winner doesn't appear to have a chance.

Labor is a good deal cheaper on the Pacific Coast, than it is upon the lacrosse fields of Ontario.

CHINA HALL'S BEAUTIFUL NEW STOCK

China Hall's Stock is now complete and is well worth inspecting. A cordial invitation is extended the public to visit the show rooms and view it. The present collection of new goods is the outcome of months of careful selection and close buying from the best makers in eleven different countries, aided by years of experience and knowledge of the local requirements in our line. The result is a most beautiful stock of goods, without a weak point, either as to value or quality.

Dinner Sets, Tea Sets, Toilet Sets, Silver Plated Ware, Rich Cut Glass, Pressed Glassware, Fancy China Ornaments, Lamps, Knives, Forks, Spoons, etc.

Nearly Six Miles of New Gas Mains

Have Been Laid This Summer—Many Stoves Sold

The Peterborough Light & Power Company have laid about 30,000 feet of new gas mains this summer for nearly six miles of pipe.

The old 1 3-4 inch main on Gilmour street was replaced with three inch one. A new main was laid on Charlotte street about three-quarters of the way out to the boundary, also on Boswell avenue, Pearl avenue, Division street, Dalhousie street and on Water street, from Smith to Dublin.

The company report a great increase in the number of gas consumers, having sold no less than 250 stoves.

The company also has a new heater for small offices which is meeting with a ready sale. There is no odor from the heaters which are very popular with all who use them.

THE PETERBORO' COLLEGE OF MUSIC

Mrs. W. J. Morrow, F.N.C.M., Principal, opens Monday, Sept. 9th. Intending pupils in vocal and instrumental instruction can arrange for hours between 10 and 12 a.m. and 2 and 9 a.m. 12d

The J. C. Turnbull Co., cordially invites the ladies of Peterboro' to their Fall Millinery Opening of high-class novelties in Ladies' Millinery and also Skirts, Coats, Blouses etc., on Thursday, September 19th and following days.

What's to be Done With the Bad Boys?

Two More in Police Court This Morning—Remanded for a Week

Ira Baker and Tommy Thompson, the youths who entered Minocolo's fruit store, Hunter street, on Sunday night, and who took a number of coppers and some fruit, came before His Worship Magistrate Dumble, this morning and were again remanded for one week, to the Children's shelter.

The case of the Baker boy was investigated to some extent to-day but, as the parents were not present, His Worship made an adjournment.

A gentleman who resides near the Baker boy's home, stated that the lad's home was not at all suitable for his welfare. There were two children, the boy being ten and the little girl seven. The parents, it is said, are addicted to the use of liquor and the children's surroundings are not wholesome. The father seems attached to his children, but the mother is quite indifferent. The authorities think that it would be better for the children if they were taken from their home.

In the case of the Thompson boy Mr. R. F. McWilliams appeared for him and stated that if His Worship would discharge the boy his father would send him out of the city to his grandmother. The Magistrate said that grandmother's were apt to to spoil children, and he did not think that was the best thing to do. Thompson has been in police court several times and talking to him does not seem to do much good. He also was remanded for a week.

It is astonishing the number of bad boys in the city and there is hardly a week that there is not some of them in police court.

THE BEEHIVE

THE LADIES' BIG READY-TO-WEAR STORE

Cressman's

Wednesday Service Well Attended

A bus load of the members of St. Luke's chapter Brotherhood of St. Andrew, drove out to the residence of Mr. Charles Graystock, in Otonabee township last night. The conveyance was kindly placed at the disposal of the members by Mr. Arthur McCollum, vice-president of the Chapter. There was a large attendance at the service. Rev. Dr. Langfeldt preached and the singing was hearty and much enjoyed.

C.P.R. Local Was Late Last Night

Delayed Over Two Hours Near Myrtle

The C.P.R. local that is due here at 7.33 p.m. did not arrive in the city until nearly ten o'clock last evening and as a result several persons got tired waiting for their Toronto papers and went home without them.

The cause of the delay, it was learned, was that a freight train coming east stopped between Myrtle and Burketon. The engine refused to work and it could not proceed further until another arrived to pull the train into Myrtle. The local was coming behind it and thus its way was blocked.

NOT SO MANY AS ALL THAT

In the report of the discussion as to the necessity of the city having a public abbattoir it was stated in the Review yesterday that Ald. Elliott heard that over 100 animals had been rejected at the packing house. This was not correct. What Ald. Elliott did say was that $100 worth of animals had been rejected. The difference between 100 animals and $100 worth of animals is considerable.

Chemong Indians to Run Excursion

To Lake Simcoe on October 3rd—Three Day Trip

The Chemong Indians will run a three days excursion to Lake Simcoe on October 3. This will be a fine trip and no doubt will be largely attended by all the Indians in the county. Either the steamer Manita or Ogemah will carry the excursionists. They will leave Chemong village on the morning of October 3. A day will be spent at Georgina Island, where there is an Indian reserve. A day will also be spent at Rama reserve. These reserves are in Lake Simcoe.

Will Have the Grounds Lighted

Team Will Now be Able to Practice at Night

A meeting of the Executive of the Rugby was held last night and present were Messrs. Cameron, Clarke, Crowley, Caniff and McDonough. The main business transacted was in connection with the installation of electric lights for the purpose of permitting the team to practise in the evenings. They will be installed in a short time by the Peterborough Light and Power Company.

CRISIS OF GIRLHOOD

A TIME OF PAIN AND PERIL

Miss Emma Cole Says that Lydia E. Pinkham's Vegetable Compound has Saved Her Life and Made Her Well.

How many lives of beautiful young girls have been sacrificed just as they were ripening into womanhood! How many irregularities or displacements have been developed at this important period, resulting in years of suffering!

Miss Emma Cole

A mother should come to her child's aid at this critical time and remember that Lydia E. Pinkham's Vegetable Compound will prepare the system for the coming change and start this trying period in a young girl's life without pain or irregularities.

Miss Emma Cole of Tullahoma, Tenn., writes:

Dear Mrs. Pinkham:

"I want to tell you that I am enjoying better health than I have for years, and I owe it all to Lydia E. Pinkham's Vegetable Compound.

"When fourteen years of age I suffered almost constant pain, and for two or three years, I had soreness and pain in my side, headaches and was dizzy and nervous, and doctors all failed to help me.

"Lydia E. Pinkham's Vegetable Compound was recommended, and after taking it my health began to improve rapidly, and I think it saved my life. I sincerely hope my experience will be a help to other girls who are passing from girlhood to womanhood, for I know your Compound will do as much for them."

If you know of any young girl who is sick and needs motherly advice ask her to write Mrs. Pinkham, Lynn, Mass., and she will receive free advice which will put her on the right road to a strong, healthy and happy womanhood. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

RIVETTING SHOOK BRIDGE.

Victims of Quebec Disaster Tell Graphic Stories in Hospital.

Quebec, Sept. 18.—Four witnesses were heard yesterday in the hospital, by the Royal Commission on the bridge collapse. J. Delph Lajeunesse was on the shore side of the chord No. 9 when the bridge fell. It seemed to him at first that the traveler was falling, and after feeling the shock he had time to see that the traveler was still on the bridge before it fell, and he fell with it.

Lajeunesse had seen the curve on the chord and had noticed that four of the plates on it were cracked. He is suffering from a fractured leg.

Alex. Beauvis, a Caughnawaga Indian, went down with chord No. 9, being incased in it. He has a broken leg and nose. He had noticed that the compressed air machine used in rivetting, which was almost completed, was so powerful that it shook the whole structure and he had called Mr. Meredith's attention to the fact as well as to the bent rib.

Oscar Labarge was working on top of the traveler, 400 feet above the water, when the collapse occurred. He gave a graphic description of his experience in the water and his escape therefrom on floating planks.

Charles Davis was working on the last section erected. The bridge seemed to give way from the back and then went down all together. He had seen the crack in the shoe plate on the pier mentioned by Ouimet and other witnesses at the coroner's inquest.

MAY WIPE OUT FINE.

Standard Oil Co. Finds Possibilities of Winning Out.

Chicago, Sept. 18.—The Tribune yesterday said: The $29,240,000 fine imposed on the Standard Oil Co. by Federal Judge Landis recently will be wiped out of existence on a technicality if the schemes of the Standard Oil Co.'s lawyers come to fruition.

In the event that the Alton is granted the immunity, which was promised to the railroad through agreement with former Attorney-General Moody, the Standard Oil attorneys will demand that Judge Landis' fine be set aside on the ground that the Standard Oil lawyers should have been apprised of the immunity agreement in order that they might question the Alton Railroad witnesses properly.

SCALP TORN FROM HEAD.

Girl's Hair Caught in Revolving Wheel at Canning Works.

Chatham, Sept. 18.—Ada Shaw, 15 years of age, met with a terrible accident while at work at the Kent Canning Works yesterday.

While passing close to a belt her hair was caught in a rapidly revolving wheel, which tore her scalp completely from her head.

She was at once taken to the office of a surgeon, where the scalp was thoroughly cleansed and placed on the head again, though it is thought unlikely it will grow again.

TRAIN WRECK VERDICT

Jury Find Trainmen Guilty of Criminal Negligence.

Warrants For Arrest Issued — Must Face Charge of Manslaughter—Wreck Entirely Due to Excessive Speed—C. P. R. Blamed for Putting Incompetent Men in Charge—Coroner's Summing Up.

Toronto, Sept. 18.—Warrants were issued last night, following the verdict of Coroner Johnson's jury, for the arrest of George Hodge, engineer, and Matthew Grimes, conductor, who had charge of the ill-fated train, in the derailment of which at the Caledon horseshoe curve seven lives were lost and scores of passengers were injured.

The warrants charge the men with criminal negligence, in having allowed the train to be run at an excessive speed on the dangerous grade curve.

The charge is equivalent to one of manslaughter.

The warrants will be executed today, and the men sent to Orangeville for trial.

Engineer Recalled.

Several witnesses were heard last night, tending to prove that the track on the curve was safe enough under ordinary observance of the rules, that the trainmen had been under notice to observe safety rules, and that excessive speed had caused the wreck. The examination of two machinists, who had removed the brake shoes from the disabled engine and tender, was in an attempt by the defence to try to show that the loss of one may have been a contributing cause to the wreck.

Engineer Hodge was recalled and said he had shut off steam 200 yards before the slowboard. He applied the brakes one-quarter of a mile before the wreck. He had handled his freights on the same curve in the same way.

He noticed the brake shoes at Orangeville. They were alright. After the accident the right brakeshoe was missing.

The engineer said he knew nothing of an official bulletin posted in the shops regarding the running of trains over the curve. He admitted, however, that he should have known of the order. He knew of the rule covering slowboards.

The Evidence.

A. P. Walker, assistant division engineer, was the first witness. He considered the track safe. W. Brown, Robert Preston and Robert McDowell told of removing the brakeshoes, as to the number of which they were uncertain.

Arthur Smith, C. P. R. superintendent, had seen Conductor Grimes at the wreck, and the latter had said he could not tell how fast the train had been running.

An official bulletin, instructing C. P. R. engineers not to exceed 25 miles on the grade, was posted in the book at Toronto Junction. Trains should be under control after passing a slowboard.

James Royce, assistant engineer of the railway board, thought the train was running 55 miles an hour at the curve.

"The whole thing comes down to a mistake in judgment of the engineer?" asked Mr. Robinette.

"Yes, it looks that way," answered the witness.

Mr. Salt and J. W. Kelly swore the train had been in good repair.

A. L. Hertzberg, engineer of maintenance of way, thought the grade safe at 30 miles an hour.

Coroner Johnson addressed the jury at length pointing out that the whole question had been narrowed down to one of speed.

The statements of the Engineer and Conductor in regard to that point stood entirely alone and uncorroborated, while on the other hand independent witnesses had given ample testimony as to the excessive rate at which the ill-fated train was traveling when it rounded the curve, a speed altogether unwarranted and unnecessary.

The jury returned the following verdict:

The wreck was caused by the excessive and dangerous rate of speed at which the train was being run by the engineer, George Hodge, and the conductor, Matthew Grimes.

And we find that the wreck was caused by their criminal negligence.

And it is our opinion that the C. P. R. is to blame for putting incompetent and inexperienced men in charge of the passenger train running on such a difficult piece of road.

New Zealand Tariff.

Christchurch, New Zealand, Sept. 18.—The new tariff bill has passed the House of Representatives. Premier Ward states a preference has been granted Great Britain on 165 new items, amounting to a reduction of 10 to 20 per cent. on duties paid by foreigners.

Forty-eight items previously on the free list are subjected to the duties, and Great Britain gets the preference on these.

Prohibit Hindu Immigration.

Vancouver, B. C., Sept. 18.—Mayor Bethune announced yesterday that no further parades by the anti-Asiatic League will be allowed in the near future. Hindus notified the mayor that they would appeal to the Governor-General to prohibit any further immigration to Vancouver.

Four Motorists Killed.

Colorado Springs, Col., Sept. 18.—An automobile containing a party of seven Elks, returning to Manitou, ran into a telephone pole here early yesterday. Three men were killed outright and a fourth died later.

Rumored Theft of Bonds.

Madrid, Sept. 18.—All transactions in 5 per cent. rentes were suspended on the Bourse yesterday. It is rumored that a theft of $2,000,000 in unnumbered bonds has been discovered.

Alex. Cohen, proprietor of the Lansdowne Hotel, Regina, was shot and killed while shooting.

TERMS OF PEACE FOR MOROCCO.

Conditions Under Which French Government Will Treat With Tribesmen.

Paris, Sept. 18.—The French Government is greatly encouraged by the improvement in the Moroccan situation, and strong hope is entertained that the rebellious tribesmen, with whom the delegates who conferred with Gen. Drude on Sunday are now consulting, will agree to the peace terms, which include:

1st. The punishment of the authors of the Casablanca massacres and the ring leaders of the movement.

2nd. An agreement that no tribesmen shall enter with arms within a radius of 12 kilometres of the city.

3rd. The acceptance in principle of the payments of a war contribution, the amount of which will be fixed hereafter by negotiations between the Moroccan Government and France and Spain.

4th. The surrender of hostages to insure the fulfilment of these conditions.

Were Bent on Plunder.

Paris, Sept. 18.—The correspondent of The Matin at Mazagan telegraphs as follows:

"The European residents of Mazagan had a narrow escape from massacre last Friday. The French cruiser Conde went out for target practice without notifying the authorities of her purpose. As soon as the booming of her guns was heard the tribesmen outside the town, believing that troops were about to be landed and Mazagan occupied, galloped in to get their shares of the pillage, the same as at Casablanca.

"The guards saved the situation. With great presence of mind they shut the town's gates before many of the tribesmen got in. Only a few of the Jewish shops were pillaged."

Moors Wiped Out.

Casablanca, Sept. 18.—A party of eighteen Moors yesterday fired upon a scouting detachment of French irregular Algerian cavalry, who killed fourteen of the enemy and burned their bodies.

JAP VILLAGE FLOODED.

Fire Starts in Mine and Water Reservoir Breaks.

Tokio, Sept. 18.—Thirty persons were drowned and 100 houses burned early yesterday morning at the Kosakabi Mine, near Kotaro.

A fire started in the mining works, and while attempts were being made to save the mine the water reservoir was broken, flooding a portion of the village.

Many women and children were among the victims.

FATHER'S AWFUL DEED.

Man Kills Four-Year-Old Daughter With Large Stick.

Edmundston, N. B., Sept. 18.—An Baker Lake, farmer, who suddenly went insane yesterday, struck his four-year-old daughter with a piece of wood, killing her instantly. His wife and two men, who were present, were unable to overpower the man. Later on he was lodged in jail, and while there attacked and nearly murdered another prisoner.

RACING AT WOODBINE.

English Horse Ypsilanti Makes Poor Show in Sandringham Plate.

Woodbine Race Track, Sept. 18.—The racing here yesterday was of a high order, there being several exciting finishes.

Charley Eastman won the feature event, Epsom Handicap, $1,000.

Mr. Seagram's latest purchase, Ypsilanti, who won the $50,000 Jubilee stakes in England, ran very poorly although only two turned out to oppose him. He was never a contender.

Results:

First race, $400 added, maidens, 3-year-olds and up, 3-4 mile—1, Photographer; 2, Royal Artillery; 3, Griffen. Time, 1.14 2-5.

Second race, purse, $400 added, maiden 2-year-olds, selling, 5-8 mile—1, Dredger; 2, Eyedent; 3, Our Boy. Time, 1.03 2-5.

Third race, purse, $400 added, 3-year-olds and up, selling, 1 1-8 miles—1, Restoration; 2, Chippewa; 3, Dale Strome. Time, 1.55 2-5.

Fourth race, Epsom Handicap, value $1,000 added, for all ages, 3-4 mile—1, Charley Eastman; 2, Charlie Gilbert; 3, Earl Rogers. Time, 1.13 4-5.

Fifth race, Sandringham Plate, purse, $500 added, 3-year-olds and up, 1 1-16 miles—1, Seton Shingle; 2, Cooney K.; 3, Ypsilanti. Time, 1.40 1-5.

Sixth race, Ringwood Handicap, hunters, 1 1-2 miles, $400 added, 3-year-olds and up—1, Kunshaw; 2, Plum Tart; 3, Heather Belle. Time, 2.51 1-5.

Seventh race, $400 added, maiden 2-year-olds, selling, 5-8 mile—1, Black Hawk; 2, Saderman; 3, Bantry Bey. Time, 1.02 4-5.

John H. Baxter, of Killarney, aged 82, committed suicide.

Harry Tozer, a London township carpenter, is charged with assaulting a fifteen year old girl.

WOULD CHANGE TREATY

Resolution of Dominion Trades Congress at Winnipeg.

Labor Men Petition the Government on Immigration Question — Ask That Imperial Government Be Urged to Abrogate Treaty With Japan —Canada's Interest Should Be Studied—Loss of B. C. Threatened.

Winnipeg, Sept. 18.—The Labor Congress of Canada passed a formal resolution yesterday morning, asking that the Dominion Government memorialize the British Government, asking that the existing treaty between Great Britain and Japan be abrogated in order that Oriental immigration into Canada may be treated in the best interests of the country.

This was the purport of the resolution passed after considerable debate, in which it was stated that it was advisable to deal with various phases of Oriental immigration into Canada separately, because of the fact that many of the Oriental immigrants were British subjects from India and Hong Kong, and the existing international relations between Great Britain and Japan.

The clause which is objected to is the following:

"The subjects of each of the two contracting parties—Great Britain and Japan—shall have full liberty to enter, travel or reside in any part of the Dominion or possessions of the other contracting party, and shall enjoy full and perfect protection for their persons and property."

The resolution, which is very lengthy, and will be forwarded at once to Sir Wilfrid Laurier, went fully into the whole subject and pointed out the Japanese as threatening entirely to supplant white labor in the mines and lumber industry. It also pointed out that the best interests of Canada and the Empire will be served by respecting the autonomous rights of its component parts.

The resolution also reads that Canada has already sacrificed much for Imperial interests, as witness the recent generous contribution on Canada's behalf, made by Lord Alverstone on the Alaskan boundary award.

There was also a vague hint of losing British Columbia entirely if something is not done.

Aged Woman Leads Mob.

New York, Sept. 18.—After Harry Becker had been killed, and Samuel Becker, his brother, had been mortally wounded by Francesco Sicca, a young Italian bootblack, Monday night, at the Becker Bros.' hardware store, on Upper Second avenue, two detectives had a desperate fight with a mob led by the young man's mother, and bent on lynching the assailant, and it was only after the detectives' clothing had been torn to shreds and their prisoner badly beaten that the three were rescued by police reserves.

Dutch Parliament Opens.

The Hague, Sept. 18.—The States-General, or Parliament, of the Netherlands, were re-opened yesterday.

Her Majesty announced bills providing for the amendment of the constitution, reform of the electoral law, strengthening of the coast defenses, the partial draining of the Zuyder Zee, workmen's insurance and a system of meat inspection.

Superintendent Charged With Theft.

Winnipeg, Sept. 18.—W. J. Kelly, superintendent of public works of the town of St. Boniface, was arrested there yesterday morning, charged with theft from the municipality. Kelly is the same man who was suspected and accused of being mixed up in the irregularities which occurred at the Winnipeg city yards last spring.

Heavy Sentence For Burglar.

Vancouver, B. C., Sept. 18.—Judge Bole, of New Westminster, yesterday sentenced John Wilson, a convicted burglar who came from the United States, to 15 years' imprisonment on three separate charges, with 20 lashes, 10 now and 10 at the expiration of the year.

Carlist General Suicides.

Madrid, Sept. 18.—The Marquis Del Vallo-Cerrato, a Carlist general and aide-de-camp to the pretender, Don Carlos, committed suicide Monday.

STEAMER STONY LAKE OR MAJESTIC

The steamer Stoney Lake will leave Lakefield for the lakes on arrival of the morning train, returning in time to connect with 4.50 train for Peterborough.

Steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

WIARTON RIOTING CASE

Mrs. Thomas on Trial at Assizes For Manslaughter.

Three of the Raiders Put Back For Sentence—Woman Says She Fired Revolver to Frighten Only — Did Not Intend to Shoot Gilbert — Attacked by Crowd of Thirty—Some Were Masked.

Walkerton, Sept. 18.—The evidence in the Wiarton rioting case came to a close yesterday afternoon. Robert Lancaster was discharged, the other three withdrew their plea of not guilty. They were remanded for sentence till to-day. Detective Reburn worked up the evidence and had the case in good shape. They were defended by H. G. Tucker of Owen Sound.

Agnes Thomas was then put on trial for manslaughter, charged with shooting Philip Gilbert at Wiarton on Aug. 20. Walter McGibbon, one of the parties in the riot who turned King's evidence, gave testimony covering the facts already known to the public.

James Miller, Robert Lancaster, Dr. Fisher, Constable Hull and Sadie Lamont, again covered the ground, but developed nothing new.

Mrs. Thomas Testifies.

Hon. A. G. Mackay, who defended the prisoner, put his client in the box on her own behalf. Her testimony was interesting and clearly presented. She said: "I got warning that the tent was to be raided. It was fitted up as a dwelling and contained four rooms.

"I bought a revolver for protection, containing five chambers. When the crowd came, Mrs. Lamont went out to the road and I took the revolver from under the pillow. I bought the revolver at 5 o'clock that evening and fired two shots to test it. When the crowd came it had three loaded shells and two empty. I put it in my stocking and went out towards the crowd. There were about 25 or 30 of them. I counted about five with blackened faces. Others had their caps pulled down.

Tearing Tent to Pieces.

"Ten or twelve rushed past me, and also past Mrs. Lamont. From that time on I never saw Mr. Gilbert. It was fairly dark where the tent was. When I got back there the tent was down and they were tearing it to pieces. I said 'stop.' They did not stop, and I took the revolver out of my stocking and fired three shots in the air. I did not shoot at any one, and had no intention of shooting any one.

Mr. Mackay Tangled Witnesses.

Mr. Mackay tangled up the crown witnesses so that they could not tell northeast from southwest. Milton McGibbon testified that Mrs. Thomas fired four shots, and that it was the first shot killed Gilbert. She fired directly at him, he said, and that the fourth shot went into the ground beside himself. He was one of the raiders who went there at the instance of Gilbert to destroy the tent. James Miller, another of the raiders, said that it was the last shot that killed Gilbert. Mrs. Thomas fired within ten feet of him and her arm was pointed in his direction. After the last shot he partly straightened up and fell backwards.

The judge's address will be delivered this morning and a verdict may be expected to-day.

THE MODUS VIVENDI.

Comment on Premier Bond's Expression of Disgust.

London, Sept. 18.—(C. A. P.)—The Birmingham Daily Post says: "If Bond had not described the modus vivendi as a 'disgrace to British diplomacy' we should not think it worth while to revert to the subject. It is obviously his purpose to cause as much ill-feeling as he can both locally and imperially."

The Pall Mall Gazette fails to see any convincing evidence of disgraceful betrayal of Newfoundland's interests by the Imperial Government.

Third Trial For Murder.

Hopewell Cape, N. B., Sept. 18.—The third trial of Thomas Collins, charged with the murder of Miss MacAulay, cousin of Father MacAulay of New Ireland, N. B., over a year ago, was begun yesterday before Judge Hanington.

A full jury was completed last night after 160 out of 186 talesmen had been examined.

The first jury found Collins guilty, but the Supreme Court decided Judge Gregory's charge was unfair, and a new trial was granted. The second jury disagreed.

Drowned at Walkerville.

Windsor, Sept. 18.—Darius Menard, a sailor on the Merchants' Montreal line steamer City of Ottawa, was drowned off that boat at Walkerville on Monday. Menard was climbing out of a window to catch some stag-ing, when he missed his footing and fell. His home is supposed to be in Montreal. The body was recovered by Fire Chief Drury.

"WANDA," A HUMAN BOMB.

Planned to Blow Up Secret Police by Immolating Herself.

St. Petersburg, Sept. 18.—The police yesterday arrested a young girl, nicknamed Wanda, who is accused of participation in a plot to blow up the headquarters of the secret police, situated on the Moika Canal, whose torture chambers have aroused most bitter feelings on the part of the revolutionists.

The police claim that Wanda planned to become a "walking bomb" and enter the headquarters building in the middle of the day, when it is generally full of police, wearing the uniform of a gendarme officer, lined with wads of guncotton and carrying powerful bombs.

Wanda, the police add, hoped by blowing herself up to reduce the entire building to ruins and kill all the officers composing the staff of the political police. The plot was betrayed and the police, in addition to taking Wanda into custody, arrested a Jewish tailor, in whose shop they seized a half ready uniform, which was intended for the female prisoner.

In consequence of the murderous designs of the revolutionists, the secret police have decided to give up their present headquarters, removing to an isolated stone building on Kamenny Island, where an elaborate electric signal system will be installed in order to prevent undermining.

Discharged Because English.

St. Catharines, Sept. 18.—The steamer Advance was held up in Welland Canal at Thorold yesterday by High Constable Boyle, who compelled Purser MacFarland to return to the city to show cause why four English sailors, discharged without seven days' pay, should not be settled with. The case was heard by Police Magistrate Comfort, and the men told a story of seven days' wretchedness inflicted upon them by Capt. Doust, who finally discharged them because they were English. When evidence was taken MacFarland settled with the men, paid the costs and the boat proceeded.

Forty Jap Sailors Killed.

Tokio, Sept. 18.—Forty of the crew were killed and injured on board the Japanese battleship Kashima by an explosion after target practice near Kuroet, at 4 p. m. on Sept. 13.

The Kashima, under command of Capt. Koizumi, reached Kure at 6 p. m., where the wounded were placed in the hospital. The fatalities included a lieutenant, two cadets and one staff officer.

The explosion followed an attempt to remove an unexploded shell from the gun. A majority of the bystanders were fearfully mutilated.

Cape Parliament Dissolves.

London, Sept. 18.—(C. A. P.)—The Cape Town Parliament will be dissolved to-day. A continuance of the council's blocking of supplies creating a constitutional crisis.

It is probable the regained votes of the rebels disfranchised after the war will be sufficient to defeat Jameson's party and South Africa will be politically Dutch from Rhodesia to Table Bay.

The elections to the Legislative Council occur in November and the House of Assembly in February.

Expedition Lost.

Berlin, Sept. 18.—A telegram from Advent Bay, via Hammerfest, states that nothing has been heard from the William Bruce expedition, which left the base of supply almost one month ago.

As no game can be found along the coast, it is feared that the three have perished in an attempt to cross Prince Charles Bay.

Pickpockets Busy.

Brockville, Sept. 18.—Several persons were touched by pickpockets during the week of the Brockville fair. At first the victims were not inclined to make their losses known, but now the secrets are being gradually divulged. Sums ranging from $5 to $25, gold watches, etc., went the way of the light-fingered gentry.

Ald. Farrar may oppose Mayor Stewart for the Mayoralty of Hamilton.

THE MARKETS.

Liverpool Wheat Futures Close Lower —Chicago Exchange Closed—Live Stock—Latest Quotations.

Lard—Prime western, in tierces, steady, 45s; American refined, in pails, quiet, 45s 6d. Turpentine—Spirits steady, 30s 9d.

Liverpool Grain and Produce.

NEW YORK, Sept. 17.—Butter—Firm, unchanged; receipts, 15,258.

Cheese—Steady, unchanged; receipts, 4930.

Eggs—Firm, unchanged; receipts, 12,076.

CATTLE MARKETS.

Cables Steady—Hogs Rally at the Buffalo Market.

LONDON, Sept. 17.—London cables are firmer at 11½c to 12½c per lb., dressed weight; refrigerator beef is quoted at 10c per pound.

Toronto Live Stock.

TORONTO, Sept. 17.—Receipts of live stock at the City Market since Friday, as reported by the railways, were 59 carloads, composed of 950 cattle, 180 hogs, 1267 sheep and lambs and 102 calves.

Exporters.

A few export bulls sold at $3.75 to $4.65 per cwt.

Butchers.

George Rowntree, who bought eight carloads for the Harris Abattoir Company, reported prices as follows: Best loads at $4.60 to $5; medium to fair loads of steers, 1050 to 1150 lbs. each, at $4.20 to $4.50; light heifers, 900 to 950 lbs. each, at $3.65 to $4; good cows, 1150 to 1300 lbs. each, at $3.35 to $4.25; fair to common cows at $2.65 to $3.25; canners, bulls and rough cows, slow sale at $1 to $2 per cwt.

Feeders and Stockers.

Few of good quality are offered, all with any flesh on them being picked up for butchers' purposes.

William Murby reported having bought 50 steers, weighing from 850 to 900 lbs. each, at an average of $2.85 per cwt.

Mr. Halligan reported buying for distillery purposes as follows: Steers, 1000 to 1100 lbs., at $3.35 to $3.50; bulls, 1100 to 1200 lbs. each, at $2.25 to $2.50. Eastern stockers are almost unsaleable, selling around $2, and under $2 per cwt. One dealer who had a load of stockers on the Junction Market on Monday, sold the same load to-day at 25c per cwt. less than he was offered at the Junction on Monday.

Milch Cows.

The run of milkers and springers was not large, and prices ranged from $35 to $52 each.

Veal Calves.

The run of calves was light and prices were high, when the quality of these on sale is considered. Prices ranged at from $3 to $6.50 per cwt., the bulk selling at $6 to $6.50 per cwt.

Sheep and Lambs.

The bulk of the sheep and lambs offered were a scraggy, skinny lot, 30 per cent. of the lambs being rams. Prices ranged as follows: Lambs, $4.50 to $5.65 per cwt.; export ewes, $4.25 to $4.40 per cwt.; rams, $3 to $3.50 per cwt.

Hogs.

The run was the smallest of the season. Mr. Harris quoted selects at $6.12½; lights and fats at $5.87½.

East Buffalo Cattle Market.

EAST BUFFALO, Sept. 17.—Cattle—Receipts, 150 head; fairly active and steady; prime steers, $6.15 to $6.65.

Veals—Receipts, 250 head; slow and 25c lower, $5 to $8.

Hogs—Receipts, 4000 head; active and 5c to 10c higher; heavy, $6.25 to $6.40; mixed, $6.60 to $6.80; yorkers, $6.75 to $6.90; pigs, $6.50; roughs, $5.25 to $5.65; dairies, $6 to $6.75.

Sheep and Lambs—Receipts, 4000 head; slow; sheep steady; lambs 10c lower; lambs, $5 to $7.75.

New York Live Stock.

NEW YORK, Sept. 17.—Beeves—Receipts, 585; nothing doing; feeling very dull and weak. Exports, 850 cattle and 3600 quarters of beef; to-morrow, 1250 quarters of beef.

Calves—Receipts, 395; veals steady; grassers dull; veals, $5.50 to $9.50; throw-outs, $4.50 to $5; grassers, $2.75 to $3.

Sheep and Lambs—Receipts, 5610; sheep about steady; a few sales of strictly good lambs were at steady prices; market generally lower; sheep, $3.50 to $5.50; culls, $3; lambs, $6.50 to $8; culls, $5 to $5.50; four cars Canada lambs sold at $7.75.

Hogs—Receipts, 2660; feeling a trifle firmer on Buffalo advices; heavy to light state hogs, $6.75 to $7.

Chicago Live Stock.

CHICAGO, Sept. 17.—Cattle — Receipts, about 9500; market steady; common to prime steers, $5.25 to $7.35; cows, $3.30 to $5; heifers, $3 to $4.10; bulls, $2.40 to $3.25; calves, $3 to $7.60; stockers and feeders, $2.40 to $5.

Hogs—Receipts, estimated at about 18,000; market steady; choice to heavy shipping, $6.15 to $6.30; light butchers, $6.35 to $6.60; light mixed, $6.20 to $6.60; choice light, $6.60 to $6.70; packing, $5.90 to $6.10; pigs, $4.75 to $6.25; bulk of sales, $5.85 to $6.10.

Sheep—Receipts, estimated at about 25,000; market steady; sheep, $3.80 to $4.85; yearlings, $4.75 to $6.25.

MANY BARNS STRUCK.

Severe Electric Storm Passes Over Western Ontario.

Alvinston, Sept. 18.—During an electric storm Monday evening, Leslie Lovell had his barn, with season's crop and farm implement, burned. Loss about $2,500; insurance $900.

The barn of John McIntyre was also burned.

Forest, Sept. 18.—During the storm Monday night, Robert Watson of Dosanquet had his barns and contents burned. Loss $2,700; insurance $1,150.

John Hubbard of Plympton lost three barns and their contents. Loss $6,000; insurance $1,900.

Sandwich, Sept. 18.—The barn of Alexander O'Neil of Sandwich South was struck by lightning Monday night and burned, with all of the season's crop and machinery. Damage $5,000.

Killed by Fly Wheel.

Meaford, Sept. 18.—J. C. Rows, son of Reeve Rows of St. Vincent Township, was killed yesterday in the Seaman Kent factory. It is supposed that in working the engine he went too near the flywheel, which struck him on the side of the head.

Hopes for Release.

Kingston, Sept. 18.—Walsh, one of the Welland Canal dynamiters, who was in very poor health for a long time, has recovered and is at work again in the penitentiary. He is still hoping for release at an early date.

Policeman Gets 14 Years.

New York, Sept. 18.—Theodore D. Hose, a New York policeman who abducted Elizabeth Gradia, aged 14 years, was yesterday sentenced to serve 14 years and five months at hard labor in Sing Sing prison.

The Lights are Too Brilliant

Change Will be Made on the Headlights of the Cars

At the request of the Fire, Water and Light Committee, the Radial Railway Company will make a change in the headlights of their cars. Complaint has frequently been made that the lights are too brilliant and throw too wide a stream of light. In fact, the light thrown at the present time, is so strong as to be almost blinding at close range. Some time ago a change was made so that a narrower light was given out, but for some reason, however, the company again went back to the old style, the kind in use at present.

Ald. Johnston spoke to Mr. Larmonth, regarding the matter at the meeting of the Fire, Water and Light Committee last night, and the latter promised to have such changes made as would ensure a more subdued light than that used at present.

WEDDING BELLS

DENARDO—ROCCA

A wedding of much interest to the Italian residents of Peterborough was celebrated at nine o'clock this morning at St. Peter's Cathedral, when Rev. Father McColl united in marriage Mr. Martino Denardo, a widower of the city, to Mrs. Maria Rocca, who is a widow. A number of friends were present at the ceremony. Mr. and Mrs. Denardo will reside in Peterborough.

Improvements to Lighting Service

New Feeders Being Installed at the Power House

The Peterborough Light and Power Company, are improving the lighting service, particularly in the west end of the city. New feeders are being placed in at the power house, about 4,000 lbs. of copper wire being purchased. When the full load was on in the evening, it was found there was too much loss in current and that the incandescent lights in the western part of the city were rather dim. It is expected that, with the new copper feeders, there will be a decided improvement in the illumination.

The new feeders are equipped with panels and oil switches, with polyphase watt meters for measuring the current of each circuit.

LOST
If your clothing has LOST its newness send it to "My Valet" and have it Cleaned and Pressed to look like new.

Price of Milk in Peterboro'; Will it Remain Stationary?

Or Will it be Raised to 7 cents for the Winter?—One Dealer Gives His Views on the Question.

Peterborough householders are anxious regarding the price of milk. Is it going to stay at 6 cents, or will the dealers boost the figure to 7 cents for the winter months? The fact that prices are going up in almost every other city in the province is causing these questions to be widely discussed, and no wonder, for milk is a product which everyone must have, at least pretty nearly every body and an increase of a cent per quart would mean much to many people in the city.

A prominent local milkman informed the Review yesterday, that while there is not much profit in winter milk at 6 cents per quart, he was hardly in favor of raising the price to 7 cents.

"The poor have to buy milk, as well as the rich," he said, "and I believe there are many families in the city who cannot afford to pay 7 cents per quart for milk in the winter. If we charged them the higher price the chances are that we would not get our money, so it is better to sell at 6 cents and get our money than at 7 cents and not get paid. These things have to be taken into consideration in fixing a price. Winter milk is really worth 7 cents per quart, and if we could fix one price for the rich and another for the poor it would be all right. But this scheme cannot be worked out."

Milk is selling in Montreal at 10c. in Toronto at 9 cents and in Galt and several of the towns and smaller cities of the province, it has been raised to 7c. during the past two or three weeks.

Grandstand Will Not be Built Until Next Spring

The grand stand at Riverside Park will not be rebuilt this fall. It has been found impossible to get things in shape to go ahead at present, and as it would have been difficult to have the stand finished for the rugby season, it has been decided to take no action until next spring. A competent contractor has informed the syndicate who own the park, that it would cost $850 or $900 to put up another stand similar to the one destroyed. This may seem a large sum, but lumber and labor are both very high at the present time.

Next spring, however, work will be commenced on a fine new grandstand that will have much greater accommodation than the old one. It will be up-to-date in every particular and a big improvement over the structure that was recently destroyed.

No Blame to Engineer Ritchie; Verdict in Manvers' Inquest

Investigation Into the Death of Conductor Edward Wansboro, of Toronto Junction, at Manvers, Con. Concluded—Air Brakes Were Inefficient.

"The late Edward Wansboro came to his death by one train colliding with another, said collision being caused by inefficient air brakes. We exonerate Engineer John Ritchie from all blame in not being able to stop his train. We further recommend that all air brakes in future shall be thoroughly inspected at terminal points."

The foregoing is the verdict reached at the inquest held by Coroner Gray, into the death of Conductor Ed Wansboro of Toronto Junction, who met his death in a rear-end collision of two freight trains at Manvers on August 28th.

The following composed the jury, Wm. H. Johnston, foreman; John H. Byers, Jas. Thompson, Geo. H. Barnscoutt, Hugh Logan, Douglas M. Bradley, Thos. Logan, Thos. Eakins, Alex. Potts, Jas. Johnston, C. Sandy, Jos. Thompson, Jas. McRoberts, and John Kellett.

The inquest resumed yesterday afternoon at one o'clock, at Manvers Orange Hall, Mr. W. A. Kerr appeared for the Crown and Mr. Geo. A. Walker for the C.P.R. Co.

Fred Hilton, car repairer, was the first witness called. He stated that he made inspection of air brakes on train number 350, at Manvers station, right after the wreck. Out of 24 cars, in the train, ten brakes were not working. Witness considered a train of 26 cars with 10 defective ones, was a safe one to leave the yard. An engineer should have an idea of how many brakes were defective by a running test, or by stopping a train, he would know whether he had a good brake or not.

Mr. John Blake, air brake inspector at Toronto Junction, was the next witness. He inspected train No. 350 on the morning of Aug. 28th. He said that he had no memo. showing by cars what brakes were working and what were not. Witness kept a record stating that 21 cars were working and three were not, which was the report to the engineer. Witness further stated that he had inspected them carefully. Witness did not know how seven other brakes ceased to work, between Toronto Junction and Manvers.

Henry Faulkner, who came from Havelock with the auxiliary train, (sworn) said that he was not an inspector of air brakes, but in a casual way inspected a few stock cars standing on the main line. Three of them were out of condition. A train with half its air brakes out of condition would be safe to proceed if the engineer and train crew were advised of its condition.

Mr. Albion Maynes was sworn. He said that he had been engineer about ten years, and for the past seven was a road foreman between Toronto and Havelock. After leaving Toronto and arriving at Locust Hill, the engineer would be in a position to fairly understand the braking power he had. At Myrtle and Burketon, he could give a much more severe test.

Being told that three brakes are cut out, does not tell him what holding power his train has. A running test should have been made approaching Manvers. Witness said that he always considered Mr. Ritchie a good engineer. He is a man one could put confidence in.

The evidence was all in by six o'clock. The jury then retired, and after being out for about twenty minutes brought in the foregoing verdict.

Foot of Snow Fell at Calgary; The Wheat Crop Will Suffer

Mr. C. B. McAllister is registered at the National for a few days, having returned to the city on a visit after spending three months at West Kootenay, B. C., in the interests of the Nakusp Fruit Lands Co., Limited, securing titles from the Government for available sites for fruit farms. The company in turn will sell the lands to those desirous of purchasing them. Mr. McAllister says that fruit farming is rapidly becoming recognized as a very profitable pursuit in the sea coast province and says many people are taking it up as a means of livelihood. The mining and lumbering industries are also very active, and British Columbia is recognized as one of the richest gems among the provinces of Canada.

He says the fall crops on the prairies are uniformly good, but vary considerably in different localities.

Twelve inches of snow in Calgary last Tuesday was a serious calamity, practically ruining the spring crops in that locality, owing to the fact that they had been rendered more susceptible to its disastrous agencies, by reason of the severe frost that shortly preceded it.

Mr. McAllister thinks there are some great fishing spots in British Columbia, and reports having caught seven beautiful rainbow trout in fifteen minutes fishing in Whatshan Lake.

During the past summer he has resided at Needles, a small town on the shores of Arrow Lake, the nature of his work necessitating his residence in a rural locality.

GENTLEMEN:—
Who demand correct apparel made to their own order, from the finest Imported Woollens of the best British Drapers, are invited to inspect our Entensive Stock of NEW FALL SUITINGS and OVERCOATINGS, VESTINGS, etc. Our Tailoring Department has proved so satisfactory for so many years, that those whom we have fitted before come back to be fitted again.
The newest patterns decreed for the coming season are shown in shades of Browns, Catchy Stripes and Checked Effects, Fine Worsteds, Serges, Fancy Cheviots, Scotch Tweeds, etc., made up to your own particular liking, with the fullest measure of style and value.
H. LeBRUN & CO.

STRUCK BY TIE

Mr. F. Meadows, of the G.T.R. section gang, under Foreman Tom Jackson, received some painful bruises on the leg yesterday while working near the station. An English fellow workman pulled up a tie more quickly than was anticipated by Mr. Meadows, who was standing near him, the tie striking the former on the leg. Mr. Meadows was fortunately not seriously injured.

The Fall Opening of the J. C Turnbull Co.'s Millinery Parlors will be held on Thursday, Sept. 19th and and following days, when all the latest ideas in Ladies' trimmed Hats will be on exhibition and Ladies Coats, Skirts, Blouses, etc. will also be on display.

Noted Tenor Will Teach Classes

Mr. Henry J. Lautz of Toronto Added to Conservatory Staff

The Peterborough Conservatory classes are now pretty well filled up. The fall and winter work is now in full swing. It will be welcome news to the lovers of good music in Peterborough to know that the management of the Conservatory have made arrangements with Henry J. Lautz, tenor soloist in the Metropolitan church, Toronto, to give lessons in singing every Wednesday at the Conservatory. Peterborough is fortunate in having him come here, as he is recognized as one of the best teachers in vocalism in Canada. In speaking of Mr. Lautz' work, the Buffalo Courier has the following to say:—

"A distinct loss to musical circles in Buffalo is the departure of Mr. Henry J. Lautz for Toronto, where he will take up his permanent residence. He has been engaged as tenor soloist at the Metropolitan church, of which Dr. Torrington is the organist, and where there is a chorus of 100 voices. Mr. Lautz is a thorough artist, with the genuine musical temperament, and it is always a pleasure to listen to his singing. His hosts of friends in this city will wish him all success in his new field of work."

Mr. Lautz is on the staff of the Toronto Conservatory of Music.

Miss Adamson has a large number of violin pupils this year, and Miss Newman, who teaches piano, also has a big class.

CHANGES AS TO THE LIGHTING

Fire Water and Light Committee Discussed Matter With Mr. Larmonth

Arrangements are under way for a change in the lighting system of the city. For a start, two sections will be changed, one from the present arc lights to the enclosed arc lights, and another from the present lights to a new type of incandescent light that is spoken of very highly.

The question of changing a section of the lighting was discussed at the meeting of the Fire, Water and Light Committee last night, when Mr. Larmonth was present and offered to install enclosed arc lights in a section and the new incandescent lights in another section. The latter are of 50 candle power, and are so arranged that they can be used on the wires now required for the arc lights.

Mr. Larmonth was instructed to prepare a plan of where changes would be made, and to submit it at a later meeting of the committee.

It is expected that the proposed change will greatly improve the lighting of the city, and if the new lights are satisfactory, the change will likely be made throughout the whole system.

The Fair Will Be a Hummer

Over 1000 Entries Received Up to Present Time

There are over 1000 entries up to the present time for the Peterborough fair to be held on Thursday, Friday and Saturday, Sept. 26th, 27th and 28th. Taking this as a criterion the exhibition of this year will make all preceding ones look as nothing in comparison. The entries in the live stock and poultry classes are particularly large and all the other divisions will be especially well represented.

The horse races which promise to be very interesting, judging from the number of horses that have been worked out during the last month will be looked after by the Turf club.

The badges for the officials arrived here this morning and are gotten up in good taste.

THE DAYLIGHT STORE
A Favorite in Overcoats
OUR BLACK CHEVIOT, SILK FACED OVERCOATS are, perhaps, the most admired Overcoat in our entire line. There's an air of elegance about these coats not to be found in any other style.
Again, this style of overcoat is cut in medium length and is medium weight fabric which makes it an appropriate coat for all occasions—
IT'S A GARMENT FOR EACH SEASON
Coats at $13.00, $16.00, and $18.00
The man who appreciates a handsome Overcoat will be greatly interested in this special style. SEE OUR RANGE.
LANG & MAHER
CLOTHIERS AND FURNISHERS TO MEN WHO KNOW.
409-411 George Street, Peterborough.

FALL MILLINERY OPENING

THURSDAY, SEPT. 19th, 1907

Your store is ready with an exceptional comprehensive assemblage of all that is new, fashionable and worthy, Millinery, Garments and Dress Materials for the Fall and Winter of 1907, as well as a splendid showing of New Draperies, Carpets and Linens. Visit the store on the special opening days of this

AUTHORITATIVE STYLE EXPOSITION

You'll find yourself then possessed of a clear knowledge of FASHION'S most favored fancies—for they're here awaiting your approval. Preparations on a larger scale than ever before—Assortments unusually complete and varied—Styles far more beautiful and prices particularly attractive. Below are hints of the feast that here awaits you. Be sure you COME.

THE NEW MILLINERY

Special attention is invited to the New Millinery. The latest creations of those designers in Paris, London and New York, who establish the vogue the world over, are shown in a wonderful profusion of beautiful effects. These imported HATS are augmented by a splendid showing of smart designs produced in our own workrooms. This season's rule of fashion is to wear any kind of a hat you like. Probably large hats will be the most fashionable, although plenty of small shapes are in evidence. A great variety of trimmings are exhibited, including all kinds of feather effects and plumes together with large flowers and ribbons with the many different color effects. A visit to our millenery show room will prove wonderfully appealing to the eye of the lover of beautiful style effects

TAILORED SUITS AND COATS

This will be one of the greatest seasons ever known for tailor made suits. Probably the fact that the styles are particularly becoming accounts for it. All the best styles are here, from the simple mannish tailored suits to the most striking novelty. Jackets are generally longer this season. Sleeves are three-quarter and full length with the three-quarter sleeve in the lead as favorite. What ever color you fancy you'll find that too, for her are suits in all prevailing colors and materials. Skirts are generally pleated and the walking length still rules. Of Cloth Coats we have prepared a most extensive showing. Here are the long, loose-fitting and long, tight-fitting coats, medium and seam fitted coat, nobby short aud medium long coats in plain materials and fancy mixtures.

ROY

Pugsley Elected By Acclamation

Special to the Review.

St. John, N.B., Sept. 18.—Hon. Wm. Pugsley, Minister of Public Works, was today elected member of the Dominion House of Commons for St. John city, and county, without opposition.

Many Perish on Burning Steamer

Special to the Review.

London, Sept. 18.—The Japanese steamer Taifu Maru is burning at Chung Kiang. Many of the crew and passenger ware missing. A Shanghai despatch estimates the number of deaths at one hundred.

The price of milk in Ottawa has been raised to seven cents per quart.

THE CITY AND VICINITY

EVENTS TO-NIGHT

Charlotte street roller rink—Skating contest for men in couples.

Y.M.C.A.—Harriers meeting at 8 o'clock. A run afterwards.

STREET IMPROVED

McDonnel street, between Water and Harvey street is being graded.

BROTHERHOOD TEA.

A Brotherhood Tea will be given in the basement of St. John's school-house at five o'clock next Sunday afternoon.

MAKING A TOUR.

The members of the Board of Works are making a tour of the city this afternoon, to inspect certain street improvements.

PRAYER SERVICE

Mr. Thomas Black, evangelist, of Trenton, will attend the weekly prayer meeting in the Assembly Hall (under Bradburn's Opera House), George street, tonight at 8 p.m. All are welcome

EXCURSION FROM RICE LAKE

An excursion party from Stevenson's Landing and other points along the south shore of Rice Lake, came to the city today on the steamer Rainbow. There were about 100 on board, and the excursionists returned at 4.30 this afternoon.

OPEN MEETING.

St. John's No. 6 chapter, of the Brotherhood of St. Andrew, hold an open meeting for men tonight in the school house at 8 p.m. All church men are cordially invited. The regular chapter meeting will be at 7.30 p.m., instead of 8 for this evening.

WAS LIGHTLY CHARGED.

A well-known local barrister says he received a light shock the other day when he touched the fender of a street car while getting on board. He is at a loss to explain how the fender became charged and was naturally "shocked" when he found this to be the case. The day was a damp one, however, and perhaps under ordinary weather conditions, he would not have been in any way affected when his hand came in contact with the steel.

A GOOD CATCH.

Mr. E. M. Boustatte landed a nice 12 pound lunge this morning in Little Lake after fishing but a few minutes.

BOARD OF MANAGERS.

The Board of Managers of St. Paul's church met last night. Only routine business was transacted.

NEW WALK

A new granolithic walk has been laid on the south side of Romaine street.

FINISHES THE SEASON

The steamer Otonabee, after a most successful season, has concluded operations and is now at the Wolfe street wharf.

RUNNING NIGHT AND DAY

The Quaker Oats Company is now running both night and day, as the water in the river is high, affording ample power for continuous operations at the mill

BRINGING DOWN WOOD

The Ajax arrived this morning with a scow load of wood for Mr. J. E. A. Fitzgerald, from Gilchrist's Bay. The Ajax is making two trips a week, bringing down about sixty cords each trip.

ST. JOHN'S A.Y.P.A.

The annual meeting for the election of officers and discussion of the winter's programme, will be held on Monday next in the school at eight p.m. prompt. All former members also intending members are asked to attend the meeting, and a cordial invitation is extended to young people to identify themselves with St. John's Young People's Society.

WAS REMANDED.

Edith Bonnycastle, a young Campbellford woman, was arraigned before Magistrate Denison, Toronto, on a charge of stealing some silverware from William Patterson, of Niagara Falls, N.Y., and of abstracting a silver-mounted umbrella from Charles Palmer of this city. She pleaded not guilty in each case and was remanded for a week. The woman was working as an assistant housekeeper at the Palmer House. She recently resided in Ottawa.—Mail and Empire.

Falling off in Make of Cheese

Production Below That of Last Year—Prices on the Peterborough Board

There was a big drop in the offerings on the local Cheese Board today compared with those of two weeks ago. The number of boxes offered for sale today was 2,929, as compared with 4,612 boxes, at the last sale. On the same date a year ago 3,604 boxes were registered so it will be seen that there has been a falling off in the amount of cheese manufactured compared with last year. Up to the end of August this year the offerings on the local board total 1,879 boxes less than for the corresponding period in 1906. As practically the same factories are selling on the Peterborough board, as last year it will be seen that there has been a decrease in the amount of cheese produced.

The ruling price today was 12 5-16c, all the factories receiving this figure, except one, the product of which sold at 12 1-4c. Fraserville was the only factory that did not sell. The sale was put through quickly, as the majority of the factories sold when called.

President Riddell was in the chair and expressed the pleasure of the Board at seeing Mr. Fitzgerald again at the buyers' table.

The bidding was opened at 12 1-4c by Mr. Fitzgerald. Mr. Wrighton raised to 12 5-16c, and had the first call, getting Warsaw, Warminster, East Emily, Bensfort, Treewern and Indian River.

The next went to Mr. Geo. Gillespie at the same price, 12 5-16c, the following factories selling:—Buckhorn, Fleetwood, Westwood, Villiers, Keene, Central Smith, Shearer, Selwyn, Pine Grove, Otonabee Union, Young's Point, Lakefield, Oak Leaf, Maple Leaf, Myrtle and Ormonde.

Mr. Weir also offered 12 5-16c, and got the next call, buying the following:—Oakdale, Cedarville, Cavanville, Lang, Daisy D., South Burleigh, North Dummer, and Brickley.

Ormonde refused this offer.

Mr. Weir bid 12 1-4c for the balance of the board, and bought Mount Pleasant.

Fraserville refused this offer, and was the only factory that did not sell.

The boarding in detail follows:—

Keene	125
Warminster	100
Shearer	140
Central Smith	124
Selwyn	125
Villiers	70
Warsaw	85
Westwood	150
Oakdale	90
Daisy D	40
Lakefield	75
Pine Grove	90
Maple Leaf	110
Myrtle	115
Ormonde	170
Young's Point	72
Lang	100
Fraserville	60
North Dummer	30
Treewern	105
East Emily	95
Bensfort	145
Cedardale	65
Cavanville	100
Mount Pleasant	40
Fleetwood	155
Oak Leaf	30
Buckhorn	100
South Burleigh	90
Brickley	50
Otonabee Union	60
Indian River	80

PERSONAL

Mr. W. H. Morton, Tweed, is in the city.

Mr. A. P. McLean was in Lindsay yesterday.

Mr. G. F. Hart of Campbellford, is in the city.

Mr. W. Borrigan, Havelock, is at the National.

Mr. W. J. Puffer, of Norwood, was in the city yesterday.

Mr. J. F. Code went to Norwood on business this morning.

Mr. Tyrell Newman of Toronto, is in the city on business.

Mr. F. J. Metheral has returned from Toronto, where he has spent several weeks.

Mr. Blackhall, route agent of the Dominion Express Co., is in the city inspecting the local office.

Mr. and Mrs. G. R. Browning have returned home after a pleasant visit with relatives in Sherbrooke, Que.

Mr. W. J. Brennan of Dublin, Ireland, has arrived in the city and will make this place his home in the future.

Mrs. T. Cavanagh and her niece, Miss Olive, returned to the city after an enjoyable two weeks' holiday in Rochester.

Miss Hatley of Orillia, who has been the guest of her sister, Mrs. (Rev.) Langfeldt for the past three weeks, returned home today.

Mr. Harold McCrea, who has been spending a month's vacation at his home, Water street, has returned to Toronto to resume his duties with the Grip Co., Ltd.

Rev. J. A. G. Sterling of this city, who conducted the services in Bethesda, and Roseneath on the last two Sundays, will preach in the Cayuga Presbyterian church on Sunday next.

Misses Violet, Lila and Gladys Lawson, daughters of Mr. and Mrs. Geo. W. Lawson, 499 Bethune street, left for the Deaf and Dumb Institute, Belleville, this morning.

Mr. and Mrs. E. L. Goodwill have returned from Prince Edward Island, and are with Mrs. Goodwill's parents, Mr. and Mrs. S. J. Kilpatrick, University avenue.—Kingston Whig.

Rev. George T. Webb of Chicago, general secretary of the Baptist Young People's Union of America, is in the city, the guest of his brother Rev. J. R. Webb. He has recently returned from Florida, and is now on his way to Boston.

Mr. William Moffat, an employee of McKercher's delivery barns, met with a painful accident yesterday afternoon, when he slipped on a stone in a lane at the side of the barns, inflicting a nasty injury to his knee.

Mr. Jas. Stewart, McDonnel street, has returned to the city after a pleasant vacation of three weeks at Burleigh Falls. Mr. Stewart says the fishing at Burleigh is excellent and reports that he has had good luck in the piscatorial line.

A number of young ladies gathered at the home of Mrs. W. J. Scott, McDonnel street, last evening, and presented Miss Gertrude Hutchinson, a coming bride, with a handkerchief shower. A pleasant evening was spent and dainty refreshments served.

Mr. T. Butler Yeates, accountant of the local branch of the Bank of Montreal, who looked after the business of the Warsaw office during the recent illness of Manager McClellan, of that branch, has again assumed his duties in connection with the accountancy of the Peterborough office.

Mr. John Henry, wife and child, of Rochester, N.Y., returned home today after spending a pleasant two weeks' vacation at the Kawartha Lakes, Toronto, and Peterborough. While in this city they were the guests of Mr. Henry's brother-in-law, Mr. D. Hall, 267 Charlotte street.

Mr. E. Dingman, physical director of the Y.M.C.A., last night received formal notice of his appointment as physical director of the Y.M.C.A. in Owen Sound. He will leave on October 1st to spend a few days at his home in Berlin before entering upon his new duties in Owen Sound on Oct. 19th.

Mr. J. W. Richards, formerly of Peterborough, who is representative of the Summers Stock Co., which is now on a trip to the Pacific Coast, is in the city. The Summers Stock Co., will open a five night's engagement at the Grand Opera House here on Tuesday, Sept. 24th, and will appear during the fall fair week. The company is composed of 20 people, headed by Mr. George H. Summers and Miss Belle Stevenson.

Lumbering Operations Are Now In Full Swing

Mr. George Strain, Agent for Turner Lumber Company, is in the City Hiring Men—Work Was Commenced a Month Ago and Stations Are Crowded With Men on Way to Camps.

Mr. Geo. Strain, agent for the Turner Lumber Co., is in the city for the purpose of engaging men to go to the camps of the company, for the fall and winter's work. His headquarters are at the American Hotel, and he is willing to pay as high as $38 per month and board to competent men. He returned recently from Lindsay, after paying a flying business trip to that place. He is desirous of securing about 50 men to take to the shanties.

Mr. Strain says that matters in connection with lumbering are particularly [illegible] in Northern Ontario. [illegible] agents in Montreal and Ottawa have been more than ordinarily fortunate in securing men for the woods, and many of the camps on the north shore have their full complement of men at this early date and the work of cutting and skidding has been carried on for over a month. This is fully a month earlier than the date of commencement of operations last year, so it will be [illegible] that with a favorable winter, a more than ordinarily large output of logs will take place.

The trains leaving North Bay and other points along the line for the camps are literally crowded with lumbermen and Mr. Strain states that there are frequently as many as three hundred woodsmen on one train. On Wednesdays and Saturdays when the trains stop at all the small stations, there are particularly large numbers of men going to the camps, taken on board. In fact there are so many men hired that the agents supply those they engage with tickets for their hats, the name of the firm that employs them being printed on the tickets. This has to be done in order to avoid confusion at the railway station.

No diseases of any kind are reported as being prevalent in the camps, all the men being in the best of health. This state of affairs is needless to say, very satisfactory to the lumber companies, as sickness or epidemics of any kind, often result in serious losses to the companies.

Mr. Strain, takes an optimistic outlook, regarding the work to be done in the camps this winter, and reports that as far as he is personally concerned, the season up to the present time, has been a satisfactory and profitable one.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for an ycase of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

HAS SOME GOOD BIRDS

Mr. Orville King, London street, is one of the most enthusiastic young fanciers of fowl in the city, and has a number of fine black Minorcas, white Wyandottes and duckwing bantams, which he will probably show at the local exhibition.

Suspicious Characters Here; Begged on City Streets

Two young men created considerable comment on the city streets last evening by going about asking for alms. From all outward appearances these two did not look as if they were in very hard luck. Those who were accosted by them, were not at all impressed with their hard times storry, but rather considered them "slick" gents, who were trying to do some of the generous hearted citizens of Peterborough. They were spotted as strangers in the city and were looked upon as suspicious characters. They were strong, able-bodied looking men, and there is no doubt but that they were endeavoring to gain their livelihood off the public.

A well known George street merchant was held up by the two and asked for thirty-five cents. He was told a story of many misfortunes they had gone through, but he was too wide awake a business man to listen to them, and he at once notified the police. Apparently they knew the blue coats were on their track, and made good their escape.

More About the Now Famous Fire in the Sawdust Piles

Fire, Water and Light Committee Heard Statements of Mr. Larmonth and Chief Rutherford—Apparently There Was a Misunderstanding.

The Fire, Water and Light Committee had a meeting last night to deal with a letter from J. H. Larmonth, to the effect that the fire brigade had not turned out when requested to put out a fire at the sawdust piles on August 23rd. Mr. Larmonth and the Chief of the Brigade, Mr. Rutherford, were present and it turned out that there had been a misunderstanding, ana everything ended satisfactorily.

Mr. Larmonth's chief complaint was that the brigade had not turned out although an alarm was sent in over the telephone. The message, Mr. Larmonth stated, had been sent in by an employee of the Power Company's office, who had been informed by Mr. Pakenham, foreman of the fire hall, that the Chief had left orders that the brigade was not to answer a call from the sawdust piles.

Mr. Pakenham, who was present, said that the man who had 'phoned in had not requested the brigade to turn out, but stated that Mr. Larmonth had gone to the scene of the fire and would send in an alarm if the services of the brigade were wanted.

It was evident to the committee that there had been a misunderstanding, as the Chief stated that the brigade always turned out, as soon as an alarm was sent in, no matter whether by telephone, or by pulling one of the fire alarm boxes.

Ald. Johnston, chairman of the committee, presided, and explained matter to be dealt with.

MR. LARMONTH'S STATEMENT.

Mr. Larmonth on being asked to give his side of the case, stated that he had nothing to say, having given full particulars in the letter he had written to the council. However, on being pressed to give a more complete statement, he said, that on the day in question, August 23rd the fire had got the start of the man who was instructed by the company to keep it down and the fire brigade was telephoned for. From the fire station came the response that the brigade was not to respond to any alarm from the sawdust piles, these orders having been left by the chief before he had left for Chemong. The brigade turned out about an hour afterwards when a general alarm was sounded.

Chief Rutherford said that the sawdust piles had become a public nuisance, and it was the duty of the Quaker Oats Co. to have them removed. It wasn't fair to have volunteer firemen, spending their time putting out sawdust fires which most of the time did not amount to more than bonfires. At any rate the Quaker Oats Co. should bear a share of the expense of keeping the fires under control.

under control. He had been chief engineer of the fire department for 27 years, and had served the city for 40 years. When he went to a fire he was master of the situation and was not going to be instructed as to what to do by a private citizen. He was going to use his own judgment, as to how the fire should be fought. He believed that Peterborough was one of the best insurance cities in America, and he wasn't ashamed of the work he had done. If it was thought that he was not capable of performing the duties of fire chief satisfactorily, he was willing to step down and out.

We have had 27 fires there in three years," said the chief, "There were eight calls from the sawdust piles this year and we went over for four of them."

Mr. Larmonth stated that the alarm had not been sent in, until it was considered absolutely necessary. The windows in the power house had to be closed on account of the smoke and cinders that were flying. Mr. Larmonth claimed that his company considered that they were entitled to fire protection and that the brigade should turn out when the company's officials considered it was necessary that the fire should be checked.

Mr. Pakenham, on being questioned, said that the orders from the chief of the brigade to go over and see the fire, every hour. He denied having answered over the telephone that he had orders not to answer a call from the sawdust piles. He had been instructed by the chief to go over to the piles every hour and see that the fire was not dangerous.

Mr. Pakenham stated further that the employee of the Hydraulic Power Co.'s office had not asked the brigade to turn out, but had stated that Mr. Larmonth had gone over to the fire and would send in an alarm if the brigade was required.

The chief stated the brigade would turn out every time an alarm was sent in, whether by telephone or an alarm box. This had always been the rule and it had never been broken.

Mr. Larmonth was satisfied, the chief was satisfied and so were the committee so nothing further was done.

Those present were Ald. Johnston, chairman; Mayor McWilliams, Ald. Duncan, Bradburn, and Stevenson, Chief Rutherford, Mr. Pakenham, and City Clerk Armstrong.

"BLACK CLOUD" SOLD YESTERDAY

Purchased by Mr. James Kelly at the Royal Hotel

Mr. James Kelly, proprietor of the Royal Hotel, purchased Black Cloud from Mr. Bert McCollum yesterday, apaying a good figure for the animal. Black Cloud is a green horse, and in his work outs at the Driving Park has showed good form, stepping a practice mile in 2.29 1-4 the other day. Mr. Kelly has not yet definitely decided what he will do with the horse, so it is not known whether Black Cloud will be put on the track or not.

LEARN DRESS-MAKING BY MAIL
In your spare time at home, or
Take a Personal Course at School.

To enable all to learn we teach on cash or instalment plan. We also teach a personal class at school once a month. Class commencing last Tuesday of each month. These lessons teaches how to cut, fit and put together any garment from the plainest shirt waist suit, to the most elaborate dress. The whole family can learn from one course. We have taught over seven thousand dress-making, and guarantee to give five hundred dollars to any one that cannot learn between the age of 14 and 40. You cannot learn dress-making as thorough as this course teaches if you work in shops for years. Beware of imitations as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address:—

SANDERS' DRESS-CUTTING SCHOOL,
31 Erie St., Stratford, Ont., Canada.

Evening Classes Will Soon Begin

Subject Which Will be Taught at the Y.M.C.A.

The evening classes in the Y.M.C.A. will start early next month. Already numbers of young men have made enquiries at the building as to what the programme will be. The printed announcement will be issued in the course of a week giving full particulars and there is promise of a good enrollment in the school this season. The best teachers will be secured and the tuition fees will be reasonable—in fact just sufficient to meet the cost of teaching.

The debating club will be continued and promises to be even a greater success than ever. An organization meeting will be called soon. Mr. J. E. Hodgson, B.A., has, at the urgent request of the committee consented to act as critic.

THE SUBJECTS.

The following subjects will be taught:

Mechanical and Architectural drawing, in charge of a graduate of the School of Practical Science. Mr. W. H. Collier, of the Peterborough Metre Company, has been secured to teach the class in electricity.

Mr. E. C. Srigley will teach the mechanical arithemetic.

The course for employed boys in aritmetic, spelling and writing will again be conducted.

The general secretary will be pleased to meet any men who are thinking of taking up any of these courses.

LISTEN TO THIS

Thousands Will Benefit if Statement Made is Only Partly True.

It may be that some persons will be inclined to doubt the statement made by an eminent authority at a recent meeting, that with a mixture of dandelion, kargon and sarsaparilla, he would give prompt relief to any sufferer of rheumatism or the usual forms of backache, caused by inactive, clogged kidneys, yet many cases of long standing that had been entirely relieved were cited to prove the truth of his assertion. The same authority further stated that many cases which failed to yield to the healing waters of the famous health resorts, or the usual remedies as prescribed, salicylate of soda, potash, colchicum, etc.—were readily relieved by the use of this simple mixture—Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful dose after meals and at bedtime.

A well-known druggist when approached upon this subject, stated that while this prescription, as written, is new, the ingredients are continually prescribed by the best physicians, and any good prescription pharmacy, has them; they are inexpensive and harmless to use, and are mixed by shaking well in a bottle.

If the claims made for this mixture, are only partly correct, it would seem that no sufferer here could afford to leave the prescription untried.

A damaging frost passed over the West on Sunday night.

Percy O'Donnell, of Fenelon Falls, missing for over a week, is believed to be drowned.

Public Taste Improving

Much greater attention is now-a-days being paid to the interior decoration of homes. Striking and original effects are being sought for, and harmony of decoration is considered essential. Perhaps this will account for the increasing popularity of metal in place of wood, plaster and wall paper for the interior of homes. Classified Metal Walls and Ceilings have many advantages over ordinary building materials. They are fire-proof, vermin-proof, sanitary and washable. They are rich in appearance, and lend themselves to many handsome color schemes. There are designs suitable for the most expensive, as well as the more unpretentious, homes.

Where Metal Walls and Ceilings are used the insurance rates are about one-third less than the usual charges.

It is not necessary to build a new home in order to enjoy the advantages of metal instead of plaster. Both walls and ceilings may be put on over the present woodwork at very little expense.

The Metal Shingle and Siding Co., Limited, of Preston, Ont., have issued a handsome catalogue, showing many beautiful designs for homes. Those intending to build or rebuild, should send for a free copy. 58

AMUSEMENS

"LITTLE DOLLY DIMPLES."

C. Herbert Kerr's latest operatic drama, "Little Dolly Dimples," which will be seen at the Grand Opera House, Monday, Sept. 23rd, is a masterpiece, and its dainty little star, Grace Cameron, will certainly win her way to the hearts of every one who attends the performance. The music is the brightest and most spirited of any musical production this season. The book is the wittiest and most fetching kind, and the interpolations by the comedians and singers of the company leave nothing to be desired. Al. Lawrence, the man of one hundred faces, will be seen as Hi Skinner, a country kid, and is said to be a whole show in himself, and a right jolly one, too. The songs throughout the entire performance are cleverly rendered. While Grace Cameron, of course, is the bright particular star of the organization, there are many other prominent artists in the company. The principal song hits are "Bobby," "I'm an Awful Bore," "Little Dolly Dimples," "Good-bye, Dear Old Home," and "The Little Maid from Gay Paree." Another important feature is the Elm City Quartette, which will render music that will tickle your palate.

"SIS" IN NEW YORK.

"'Sis' in New York," is the title of the new series of comedy adventures that befall our old friend the funny, rural Indiana lass. The playbuilder has certainly selected a spot prolific in opportunity to get Sis and her Reuben friends in any amount of trouble, and this season's offering is said to be just a bit the best and funniest peep we have had at Sis. It comes to the local playhouse on Saturday, Sept. 21st, matinee and night.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Some Miscreant Spoiled the Lawn

Mr. Walter Stocker, Homewood avenue, who won a first prize in the lawn competition, was an indignant citizen this morning. During the night some miscreant tramped over his lawn and ruined the grass in several places, as well as throwing paper, pieces of watermelon etc. on the ground.

Elbow Fractured While Wrestling

Emmett Crough, the fourteen year old son of Michael Crough, Ennismore township, while wrestling with another boy at Tara Grove on Tuesday night, fell and sustained a fracture of the elbow. Dr. McNulty reduced the fracture, which was a very bad one.

The Grand Valley Railway will build a line to Port Dover from Brantford via Waterford and Simcoe.

CARTER'S ITTLE IVER PILLS

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

Some Phases of Life Insurance Set Forth in Admirable Address

Delivered by Mr. T. B. Macaulay, Secretary and Actuary of the Sun Life Assurance Company of Canada, at Life Underwriters' Convention Held Recently in Toronto.

Mr. T. B. Macaulay, Secretary and Actuary of the Sun Life Assurance Company, addressed the convention on "Insurance Legislation—British, American and Canadian." First addressing himself to the nature of life insurance, he pointed out that it was simply philanthropy reduced to a business basis. Life insurance was in fact the most beneficent development of modern civilization and he claimed that to restrict the operations of their life companies would be as objectionable as to restrict the operations of of charity or philanthropy. The aim of Parliament, on the contrary, should be to encourage and foster that great system which had been such a blessing to humanity. He emphasized the point that every measure which reduced the earnings of the companies or lessened the power to make legitimate profits reduced the earnings and profits of each individual policyholder and made his life assurance cost more in dollars and cents. Even policyholders were not the only ones interested. The entire public was deeply concerned. Restrictions that lessened the amount of assurance carried in a country merely increased the number of widows who would in years to come be left without protection, and the number of orphans who would have to go through life with defective education and otherwise handicapped.

RESULTS OF RECENT LEGISLATION.

The agitation of the last year or two in the United States and the subsequent legislation had already resulted in a reduction of probably over $500,000,000 in the volume of assurance carried in American companies. The loss was a national catastrophe and should be a warning as to the evils which might result from unwise legislation. But life assurance was not merely noteworthy for its beneficence. It had another equally marked characteristic, for it was also the most intricate and technical of all financial systems. In view of that difficulty, the catchword in Britain was "freedom with publicity," and certainly the results there had been gratifying.

KEYNOTE OF AMERICAN LEGISLATION.

As the keynote of insurance legislation in Great Britain was "freedom with publicity," so that of the United States might almost be said to be "restriction with publicity." Both ideals demanded publicity, and on that point there could hardly be two opinions. The recently-adopted American forms carried publicity to an extreme, but publicity was a feature which could not easily be overdone, so far as all the important details of a company's business was concerned. The distinguishing characteristic of American legislation, however, was extreme restriction and regulation. The Armstrong law was perhaps the most objectionable illustration of that. If he resided in Great Britain he would probably advocate the British system, but he was by no means sure that it would work well without modification in a rapidly-growing country like Canada. As a Canadian he thought it possible to frame an act that would, for Canada and Canadian companies at least, be superior to that of either the motherland or of their neighbor to the south.

VALUATION SLIDING SCALE ADVOCATED.

Proceeding to consider the more important points dealt with by legislation, he maintained that the case against the adoption of any one fixed standard of valuation was a very strong one, and he believed that by the adoption of a sliding scale it was possible to avoid the evils inherent in a fixed standard, and yet retain its advantages. In the opinion of the united Canadian managers, a sliding scale would for Canada, at least, have advantages over either the British or the American method. The aim should be not to drive a company into insolvency, but to bring pressure to bear upon it to either strengthen its reserves or reassure in a stronger office.

MERITS OF DEFERRED PROFIT PLAN.

Mr. Macaulay proclaimed himself as pronounced advocate of the deferred profit plan, pointing out that it had unquestionably been a powerful instrument in popularizing life assurance throughout the world. In his opinion, the deferred profit policy was the best in the world, not merely for the company but for the policyholder. At the same time he recognized that the deferred profit plan had in the past been subject to two evils—the holding out of estimates not fulfilled and the absence of any form of accounting. These two evils or dangers should certainly be removed. With regard to distribution, he thought the recommendation of the Canadian commission that the annual distribution be made compulsory showed how completely they had come under the influence of the American agitators, and particularly of the Armstrong committee.

LIMITATION OF UNDISTRIBUTED SURPLUS.

As to the limitation of undistributed surplus, the New York restrictions were sufficiently foolish and dangerous, but the Canadian commissioners had distinguished themselves by going further. The maximum contingency fund permitted to large companies by the New York law was 5 per cent.; the Canadian commissioners proposed to reduce it to 4 per cent. The New York law further provided that if a company already had a larger contingency fund than that permitted by the new scale that additional amount might still be retained. This the Canadian commissioners would refuse. Then, too, the New York law permitted companies to retain their existing surplus on deferred profit policies as an additional undistributed margin. The Canadian commissioners would require all existing deferred profit surplus to be allotted and converted into a legal liability like the reserve. If the commission desired to wreck even some of the best companies they could have devised no better means. Such recommendations bore the imprint of having been made by persons entirely unfamiliar with the subject, and he could not believe that the Government would endorse them.

POWERS OF INVESTMENT.

Dealing with the subject of investment powers, Mr. Macaulay examined at some length the influences affecting the security markets and discussed the reasons for the rise in interest. The demand for capital had become tremendous and interest had risen step by step until a crisis had at last arrived. There was not enough capital to supply the needs of the world, and retrenchment had become necessary. Whether they would have a financial crash or merely a general slow-down, who could tell? Apart from the lack of capital, business conditions were, on the whole, sound, and that would probably operate to prevent a gigantic crash. But a marked curtailment of business must and would come. The safe investment of the vast funds of their life companies called for great experience and profound consideration. The course of wisdom was to permit a wide range from which the managers could choose the best, considering the circumstances of time and place. Undue restrictions were likely to result disastrously, not merely in the way of lessening the profits of the policyholders, but even of imperilling their safety. It was difficult not to smile at the arguments of those who protested against the cost of securing business because it reduced the profits of policyholders and who in the next breath advocated such a restriction of investments as would cut off much of the profit hitherto made by the companies. For every dollar these gentlemen would save for the policyholders with the one hand they would take from them three to five dollars with the other.

CANADIAN PREMIUMS MIGHT BE RAISED.

Strange as it might appear, the very limitation of expense imposed by the Armstrong law would if adopted in Canada result in an immediate increase in the premiums charged by Canadian companies. This was one of the unexpected effects which were apt to result from reduced legislation of any kind. The premiums charged by Canadian companies were at present lower than those of the leading American offices, but it was practically certain that if the limitation of expense proposed by the commissioners were passed in Canada one of the first results would be that all Canadian premiums would be raised to at least the American level, for the Canadian companies would have to do this or be handicapped. Another result would be that the movement in favor of high surrender values would be checked. He was not sure that individually as representating of of the older companies he need particularly object to the restriction proposed by the commissioners. So far as they were concerned the law might even prove a blessing, for it would probably weed out some of the younger companies and confine the field more to the older offices. For the interests of the business as a whole, however, he was opposed to it.

AGAINST STANDARD POLICIES.

Dealing finally with the question of standard policies, he pointed out that the Armstrong law provided for a death-like uniformity in the policies of all companies, and declared that a similar measure would be a calamity to them in Canada. In any case the Privy Council had decided that legislation regarding conditions in insurance policies was a question outside the jurisdiction of the Dominion Parliament, and rested exclusively with the Provinces. How the commissioners came to overlook that fact, and to recommend Parliament to pass legislation, that would be clearly ultra vires, it was hard to understand. Concluding Mr. Macaulay said Canada had now the opportunity to enact an insurance law which would be distinctively Canadian, and a model to other countries, and that desirable end was within their grasp if the Government and companies would but thrust aside the malign influence of the New York example, and co-operate heartily and sympathetically with a single eye to the good of Canada, her people, the strengthening of her companies, the benefiting of their policyholders, and the extension of the blessings of life assurance among the greatest unassured public.

Mr. Macaulay was heartily thanked for his address.

JURY SELECTORS HELD MEETING

High and County Courts for the year 1908, held an organization meeting at the Court House on Monday. There were present Mayor McWilliams and Treasurer Adams of the city, Warden McNulty, County Treasurer Ballett, Judge Weller, and County Crown Attorney Wood.

New Branch of the Trent Canal

Victoria Road Section Formally Declared Open To-day

Superintendent J. H. McClellan, of the Trent Valley Canal, left this morning for Lindsay. There the government steamer "Bob Hall" was boarded by a party of prominent Lindsay men, and a sail enjoyed to Victoria Road, where that section of the canal, which has recently undergone considerable dredging, will be formally declared open and part of the system.

ROSELLE KNOTT AGAIN MARRIED

Hamilton, Sept. 17.—The announcement was made here this morning of the marriage of Mrs. Roselle Knott, the well known actress, to Ernest Shipman, her former manager. Both are former Hamiltonians, and are well known here. Mrs. Shipman has been married twice and her husband three times. Mr. Shipman's first wife died, after which he married Effie Hext, from whom he obtained a divorce some time later. His marriage to Mrs. Knott, who was known on the stage as Miss Knott, is his third venture. Mrs. Shipman has retired from the stage and is now in New York with her husband.

Roselle Knott appeared in Peterborough on four occasions, twice in "When Knighthood was in Flower," and twice in "The Duchess of Devonshire."

Walked Over Sixty Miles

Remarkable Performance of Peterboro' Man

Mr. Herb Cooney, of this city, has returned from a South River lumber camp after a short stay there, and claims to have walked over 60 miles of the route home.

Owing to the unsanitary conditions existing in the camp, he, with most of the other men employed, thought it advisable to relinquish their positions. Mr. Cooney says he does not feel in any way exhausted from the effects of his long walk and thinks he could again cover the distance should the necessity for doing so arise.

Harvest Reports From Every Country

Wheat and Corn Promise to be a Fair Crop

(Special to J. R. Heintz & Co.)

Liverpool, Sept. 17. — Broomhall's weekly foreign crop report says,—

United Kingdom—Owing to the continued favorable weather, harvesting has made good progress during the past week. Early threshing returns are favorable.

France—In the northern section, the crop is damp; otherwise the quality is good. There is some talk that this country will be in a position to export wheat this year.

Germany—Harvesting has made fair progress during the week. Supplies continue light, although offerings show some increase. harvest.

Hungary—The outlook for corn has improved, but the drought which continues is hindering ploughing.

Roumania—Some rains have fallen which were beneficial, but more is needed to enable ploughing to be carried on. Supplies are scarce.

Bulgaria—Good rains have fallen, but the corn crop is expected to be only half a usual one.

Russia—Some reports indicate that that supplies will be larger, but many complaints are heard, regarding the quality of threshing estivals. Reports regarding the seeding of wheat are favorable, while that for corn, still continues on the whole unfavorable.

Italy—According to harvesting indications the wheat crop of this country is splendid quality.

Australia—Late reports state that drought continues.

CLASS LEADERS HELD MEETING

Enthusiastic Gathering Held—A Large Attendance

The meeting of the class leaders of the city at the George street Methodist church last evening was characterized by much earnestness and enthusiasm. Mr. Jos. Batten occupied the chair. A large number were present and a lively discussion on several topics of interest took place. "Church Union" was discussed, and it was the opinion of those present that the work of the class leaders would be greatly aided by union. Revs. Jas. O'Hara and E. A. Pearson were present and gave short addresses. The class leaders will meet again on Tuesday, Oct. 1st.

Mayor Sears, of St. John, will not oppose Hon. Wm. Pugsley in the bye-election.

PILES CURED AT HOME BY NEW ABSORPTION METHOD

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from yourown locality if requested. His First Trip to the Dominion

Mr. Matthew Harvey of Wolsall, Eng. Was in Peterboro' Yesterday

Mr. Matthew Harvey, of the Matthew Harvey Co., of Wolsall, England, wholesale manufacturers of saddlery hardware, was in Peterborough yesterday. This firm is the largest engaged in this line of business in England, and enjoys an extensive trade, receiving many orders from the British Government. Although the firm has been doing business in Canada for the past twenty-five years, this is Mr. Harvey's first trip to this country, and he is more than pleased with what he has already seen. He is accompanied by Mrs. Harvey, and they are going through to the Pacific Coast. They spent yesterday in Peterborough, and last evening Mr. Harvey expressed the opinion that this city was one of the busiest places for its size that he had ever visited. He called upon Mr. B. E. Ackerman, who has been a customer of the Harvey firm for several years. Mr. Harvey and Mr. Ackerman are also personally acquainted, having met when Mr. Ackerman was in England with the Canadian manufacturers a couple of years ago.

Mr. and Mrs. Harvey left for the West this morning.

PORT HOPE CELEBRATED.

Port Hope, Sept. 16. — The local baseball club were given a public demonstration on their return from Cobourg Saturday evening, where they defeated Peterborough in the final game for the championship of the Midland League by a score of 4 to 3.

Fred Hickey of the Toronto Wellingtons, who pitched for Port Hope, was given a warm welcome. Hickey's work was of the gilt-edge variety. He struck out fourteen men, and allowed only two hits. His pitching was perhaps the best witnessed in the Midland League. Port Hope will now play the Wellingtons of Toronto for the amateur championship of Ontario.

TENNIS

St. John's A.Y.P.A. Tennis Club had a good number of members up last night and three more tournament games were decided.

The draw for the ladies' singles is as follows,—

Mrs. R. J. Devey vs. Miss M. Roberts.

Mrs. Barber, vs. Miss F. Drury.

The games are to be played Thursday, 4 p.m.

The games in the mixed doubles are to be played on Saturday are,—

Mr. Corsey and Miss L. Wesley vs. Mr. J. S. Bell and

Mr. W. Coleman and Mrs. Haliburton, vs. Mr. and Miss Whitcroft.

Mr. Downs and Miss M. Roberts vs. Mr. and Mrs. J. Barber.

Gentlemen's singles,—

Gentlemen's singles—Mr. C. Corsey vs. Mr. Barber. The winner of this game plays Mr. W. Coleman in the final.

SPORTING COMMENT

Under a big three column heading displayed in billboard type the Ottawa Journal gives the Capitals an extensive quantity of hard, hard, knocks. The sporting editor has taken upon himself the responsibility of signing the article "the people who pay at the wicket."

Ralph Rose, of the Olympic Club, San Francisco, at the recent meet of the New York Athletic Club, at Travers Island, smashed six world's records. Rose is a young giant and it will be remembered, was the man that was said to be willing to meet Jeffries. Somehow the two never met.

"Doc" Sheriff and Eddie Phillips, two prominent Ottawa rugbyists, will leave the capital city shortly.

They're breaking ground for a race track in Zion City. The Doweyites must be backsliding.

There is some talk, probably idle, about a matched race, between Burns, champion of the western coast, who spent some time here getting fat pickings from the gullibles, and Longboat, the Indian speed machine. Out west Burns is looked upon as a world beater, but the first thing the coast dwellers know, he will be pocketing considerable of their paper, and leaving for parts unknown. Around here, he was considered to be about as straight as a corkscrew.

The English runner, Alfred Shrubb, seems to be a lemon bush to most of his competitors.

Roller hockey is getting to be quite the thing, and is played in several Ontario towns this year.

RUGBY

Season tickets at $1 each will be on sale in a couple of weeks. It is up to you to buy one and help the team along.

The drawing contest for the $8 pair of pants so generously donated the club by Mr. Ed. Huff will open on Oct. 1st. The tickets are 25c each and may be obtained from any member of the club.

The Crescents practice on the Oval tonight at eight o'clock. They meet at Central Park at seven o'clock.

RUNNING

Mr. Jas. Bennett of the National Hotel staff, who ran first in the five-mile track event at the last meet of the Turf Club is in active training for the five mile race at the Lindsay Fair, Saturday.

THE TURF

Brown Gyp, owned by Dr. J. Johnson, Lakefield, will start in the races at the Lindsay fair.

The Sign of Value

People instinctively give attention and preference to the man who displays good taste and judgment in his dress. The quality of the man, real and yet indefinable, stands out from the back-ground, and enforces the advantage of good form.

Semi-ready clothes are designed by men of artistic taste, and are tailored from fabrics chosen by men of cultured experience from the British makers of fine woollens.

Send to-day for the authoritative book on men's fashions, "As Seen by Him." If you cannot call, tell us what you want and we will show you how you can get it from the book.

The price on a Semi-ready Suit—whether it be $18, $20 or $25—is as fixed a sign of value as the numerals on a government money bill.

Eight Months in Central Prison

Penalty of Three Brothers Who Took Part in Wiarton Riot

Special to the Review.

Walkerton, Sept. 18.—The three Lancester brothers, found guilty of rioting at Wiarton on Aug. 20, were each sentenced today to eight months in the Central Prison. Mrs. Thomas, charged with killing Phillip Gilbert, on the same occasion, was found not guilty and discharged.

Six Witnesses Are Subpoenaed

In the Case of Chas. Bunton, Who is Charged With Theft

County Constable Cochrane went to North Monaghan today to subpoena six witnesses in the case of Charles Bunton, who, it is alleged, stole thirty-six dollars from the trouser pockets of Charles Payne, a North Monaghan farmer. Bunton was arrested yesterday at his home in Claremont and will come up before Magistrate Edmison on Friday afternoon at three o'clock, at the Court House.

Two Truants Run Away From Home

Truant officer George Cochrane is on the hunt for two school boys, who left home yesterday morning to go to school, and have not been seen since. They remained away all day. It was thought they would return home at night, but they failed to do so, and have not been seen today. Where the boys have gone to is not known. Their parents are in a state of uneasiness.

The annual harvest festival of St. Luke's church will be held on Thursday evening next. The Very Rev. Dean Farthing of St. George's cathedral, Kingston, will preach the sermon.

HELD GOOD MEETING.

Otonabee lodge, No. 13, I. O. O. F., met Monday evening. There was a good attendance and the degree team had a splendid practice. Several propositions for membership were received.

Toronto News Makes Amende Honorable

Admits That it Has Badly Treated Dr. Coughlin

Last night's Toronto News contains the following apology, in reference to its editorial of Saturday last:

The News has received this despatch from Dr. Coughlin, superintendent of the Deaf and Dumb Institute at Belleville, "I was not on the platform at Mr. Borden's Peterborough meeting. I was not at the meeting. I was not in Peterborough on that day. Why write an editorial without enquiry as to the truth of the statement. Was it proper? Was it decent? Will you now expose your Peterborough purveyor of falsehood?"

The News has only to say in reply that Dr. Coughlin has been badly treated and that it should have made more careful enquiry before printing the statement of its Peterborough correspondent. It had, however, no reason to doubt that the statements of its correspondent were accurate and it cannot imagine what possible motive he could have in writing a falsehood which could be so easily exposed. All the same, The News admits that it should have withheld judgment, until it had interviewed or communicated with Dr. Coughlin and while it was deceived by its correspondent, it is bound to take upon its own shoulders a good measure of the blame for the injustice with which Dr. Coughlin has been treated.

FINE LECTURE AT ENNISMORE

Dr. O'Brien Spoke on His Recent Trip Abroad

Yesterday was a gala day for Ennismore. In the afternoon there was a social held under the auspices of St. Mark's church and in the evening an interesting and instructive lecture was given by Rev. Dr. O'Brien of the Cathedral staff, supplemented by an entertaining musical programme. Rev. Father Brotherton, Hastings, was in the chair, and the other members of the clergy present were Rev. Fathers Fitzpatrick, parish priest of Ennismore, McGuire, Downeyville; O'Leary, Galway; Collins, Lindsay; and Galvin, Kelly and M. J. O'Leary of St. Peter's, Peterborough.

There were about five hundred on hand to hear Dr. O'Brien's discourse and it proved a decided treat. The speaker dealt with his recent visit to Ireland and Rome, and told interestingly of the prevailing conditions in the Emerald Isle, and of the hopes for its future. He also spoke of the honor of being a Canadian citizen, and said that the land of the Maple Leaf was the greatest country under the sun. His remarks were listened to with great attention and his patriotic references drew forth enthusiastic applause.

Miss Agnes Scollard had charge of the musical portion of the programme and the splendid manner in which this feature of the entertainment was carried out, reflects great credit upon that lady, as well as upon the talent that contributed.

New Wharf is Nearing Completion

All the piles have been driven for the new government wharf at the foot of the street car line. The work of building the dock is being rushed. It will be completed in a few days. Mr. John Robson has charge of operations.

Day of Atonement Among the Jews

Being Observed To-day—All Business Suspended

From five o'clock last evening until seven to-night the Jewish population of Peterborough are observing what they call the day of Atonement. Every Hebrew all over the universe observes these twenty-six hours in fasting and praying and following other religious obligations characteristic of the Jewish customs. All business is suspended at this time and they go about without shoes. This is one of the holy days of the Jewish new year and has been observed by them since the time of Moses.

Will Wait Till Courts Decide

Action of the License Commissioners in Regard to Kelly-Flaherty Transfer

The License Commissioners at a meeting last night decided to recommend the transfer of the American hotel license from Mr. David J. Flynn to Mr. Geo. Long, of east city. According to the new license act notice that a license is to be transferred has to be published for fourteen days before the transfer can take place and this will be done in this case. Mr. Flynn has been proprietor of the American hotel for the past nine months and has conducted it in a very creditable manner. He retired from its control with the good opinion of everybody.

In connection with the transfer of the Royal hotel license from the present holder, Mr. Jas. Kelly to Mr. Ed. Flaherty, the Commissioners decided to take no action until the courts deal with the complications that have arisen in connection with the matter. An injunction has been taken out to prevent the transfer and the commissioners will do nothing until the courts straighten out the difficulty.

Those present at the meeting were Dr. Morrison, chairman, Messrs. Jas. Kendry, H. LeBrun and License Inspector Stewart.

"VETERINARY" IS THE WORD

A Well Known Local V. S. Has Something to Say

A prominent local veterinary surgeon in conversation with the Review this morning concerning an article published yesterday about the inspection conducted at the premises of The Geo. Matthews Co. by Dr. Ransome, wanted to know why the word veterinary had not been used in the article written while references were being made to the work of Dr. Ransome. "As a matter of fact," he said, "he is not a doctor but a veterinary surgeon and it seems to me only proper that this fact should be noted."

Children's Shelter Had Narrow Escape

The Children's Shelter at the corner of Charlotte and Stewart street, had a narrow escape from being burned to the ground yesterday. The flue of the chimney burned out and for awhile there was quite a blaze. Fortunately Mr. Henry noticed it in time and had it extinguished. The chimney is very old and needs cleaning out.

WEDDING BELLS

PEARSON—ISBISTER

An exceedingly pretty wedding was solemnized this afternoon at 2.30 o'clock at 200 London street, when Miss Margaret A. Isbister, third daughter of Mr. Jacob Isbister, was united in marriage to Mr. Andrew Pearson of this city, son of Mr. Richard Pearson of Barrie. The ceremony was performed by Rev. H. J. Keith, pastor of Knox church in the beautifully decorated drawing room. The bride was given away by her father, and was becomingly dressed in a costume of cream colienne. She carried white asters. She was attended by her sister, Miss Nettie Isbister, who was prettily gowned in white. She carried pink asters. The groom was ably supported by Mr. W. Leonard of Lakefield.

After the ceremony and hearty congratulations had been bestowed bestowed on the bride and groom, about thirty guests sat down to a sumptuous wedding repast. Among the out-of-town guests were Mrs. Jas. and Mrs. John McDonald of Barrie; Miss L. Shannon, of Tweed, and Mrs. S. Ridpath, Toronto.

The bride was the recipient of many beautiful and costly presents.

Mr. and Mrs. Pearson left on the 4.48 train for Toronto, Barrie and points west, and on their return will reside on Chamberlain street. The bride travelled in a brown suit with hat to match.

Judge St. Pierre, of Montreal, fined two jurors on Monday for drunkenness.

The beginning and the end of the meals of the day should be Chase & Sanborn's SEAL BRAND COFFEE. It's the first thing for breakfast—the last for dinner—and the "best thing" in every meal.

Cressman's

Street Delivery of Mail Matter Will Start Within Two Weeks

General Superintendent Ross in the City Making Arrangements—All the Routes Have Been Laid Out —How the System Will be Conducted.

Mr. George Ross, General Superintendent of Post Offices for Canada, arrived in the city last night, and spent a busy evening in connection with the completion of the arrangements for the installation of a free postal delivery system in Peterborough, leaving this morning for Toronto.

An interview was kindly accorded the Review, Mr. R. Durston, Deputy Superintendent, who is here attending to the technical details in connection with the establishment of the system, the principal features of which were explained in a former issue of the Review.

To begin with, the most satisfactory information to the citizens of Peterborough that Mr. Durston had to give was that the system would be in working order in about eight or ten days. While the Post Office Department and its officials have done their share, Mr. Durston pointed out it would be necessary, if the people were to get the full benefit of the system, to have all their correspondence addressed to their street and residence number.

Of course, an essential part of the system are the carriers themselves, who are selected with reference to certain standards of physical, moral, educational efficiency. One of the requirements are that the men must not be under thirty years of age upon enrollment. They must also be able to read and write, and are given elementary problems in arithmetic to solve. In connection with the examination as to his grammatical knowledge, each applicant has to write in proper English a paragraph mutilated to such an extent that it would do credit to the most original puzzle compiler in existence. He also has to be supplied with a testimonial from a prominent business man and clergyman as to his reliability, and has to take an oath of allegiance to the Crown.

There will be seven men on the staff of carriers, and two deliveries a day will be made, one beginning at 7.30 a.m., and the other at 1 p.m.

The uniforms of the men, which have been described in detail in these columns, will be neat in appearance, and very serviceable, and the men will be obliged to keep them in good condition, being amply provided with brushes, polish, etc., for that purpose.

The initial salary the carriers will receive will be $400 per annum with an increase of $50 each year until the maximum salary of $720 per year, or $2.25 per day is reached. There is also a yearly bonus of $30 granted to the carriers for general efficiency.

The hours for the distribution of mails in all cities have of course to be regulated according to the time the mail trains arrive. In Peterborough nearly all the mail trains reach here in the morning and for that reason the mails will be distributed early and the men will only have a day of about seven hours.

The public are asked to assist the carriers in giving any legitimate information they can that would be of assistance to them. They are also requested to be lenient with them until they have become familiar with their duties.

The beats or walks of the men as mapped out are:

No. 1.—George street to Water on on the east commencing from Hunter and continuing to extreme southern limit.

No. 2.—Hunter street and north-east city, in the forenoon and Hunter street and south-east city in the afternoon.

No. 3.—Brock, Hunter and Simcoe, west of George to Monaghan Road and all intersecting streets and Weller, Homewood avenue and Gilmour.

No. 4.—Murray, McDonnell, London, Dublin and all cross streets from Water to Monaghan road.

No. 5.—From Water north from Dublin following Water to River road, to city limits.

No. 6.—Charlotte, King, Sherbrooke, Dalhousie, Bolivar, from George-st., on the east to Monaghan Road on the west.

No. 7.—Wolfe, Townsend, Rink, Parry, Lake, Romaine, Park and all intersecting streets.

The price of milk in Ottawa has been raised to seven cents per quart.

PHYSICALLY EXHAUSTED?

You're out of joint with everything—lacking in courage—no nerve—scarcely on speaking terms with yourself. Such low spirits are pitiable. Your brain is fagged, vitality exhausted till your nerve-wracked body has gone all to the bad. FERROZONE is what you need.

FERROZONE
IS A BODY-BUILDER, A VITALIZER, A NUTRITIVE TONIC.

It's by making flesh and blood, by infusing iron and oxygen into the system that FERROZONE helps. It repairs the weak spots, instils energy, vim and endurance into worn-out organs—makes you feel like new. Why not use this grand restorative? It lifts age from the old, brings new resiliance and buoyancy of spirits to the depressed. Be vigorous, manly, ruddy-colored, cast aside weakness and enter into that happy life that follows the use of FERROZONE.

Ferrozone is sold everywhere in 50c boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Mrs. Thomas Goes Free; End of the Wiarton Case

Jury Refuse to Convict on Charge of Killing Gilbert.

Three Rioters Sentenced to Eight Months in Central Prison—Deputation Pleads For Leniency—Chief Justice Mulock's Scathing Remarks—Attack Not Only Illegal But Unmanly—Sentence Causes Comment.

Walkerton, Sept. 19—Agnes Thomas, who shot Philip Gilbert in the Wiarton riot, is free. The jury, after being out an hour, found her not guilty of manslaughter, and she took the first train to London.

Mrs. Thomas burst into tears when the verdict was announced.

Chief Justice Mulock expressed the hope that the tragic nature of the incident would cause her to lead a better life.

John Lancaster, William Lancaster and Walter Lancaster, charged with unlawful assembly and rioting, and who pleaded guilty, were each sentenced to eight months in the common jail.

In addressing the prisoners the judge referred to the seriousness of the offence.

He styled the attack on the two women as not only illegal, but unmanly.

The sentence of the Wiarton men was a source of much surprise. Nothing of the kind had been anticipated. The prisoners themselves seemed almost stunned by his lordship's decision.

After hearing Chief Justice Mulock's charge, the jury retired at 10.30.

"It is commonly said," remarked his lordship, "that a man's house is his castle and that he may kill persons entering forcibly without his permission, but that is altogether too broad an interpretation of the law. No man is justified in shooting another unless he fully believes his life or the life of some inmate of his house to be in danger. If Mrs. Thomas had reasonable grounds to fear bodily harm at the hands of her assailants, her case should not be prejudiced by the manner of woman she was. The fact that she was there for immoral purposes has nothing to do with the case except as affecting the credibility of the witness."

Mr. McKay, counsel for Mrs. Thomas, objected to his lordship's charge, holding that the law did justify Mrs. Thomas in shooting persons forcibly entering her home, even though she did not fear personal injury. His lordship overruled the objection, however.

Wiarton Sends Deputation.

The [illegible] to the three Lancasters, who pleaded guilty to the charge of rioting, took another unexpected turn yesterday morning, when a deputation from Wiarton, composed of Mayor McEwen, Rev. Mr. Smythe, Methodist minister; James Walmsley, George Dawson, foreman of the Dominion Fish Co., and several others waited on Chief Justice Mulock and asked that he be as lenient as possible with the prisoners. Every member of the deputation certified to the good character of the prisoners. Rev. Mr. Smythe was asked by the chief justice to state how lenient he thought he should be. After some hesitation, the minister suggested that the prisoners should be let off on suspended sentence. His lordship promised consideration.

Sentence Regarded Severe.

Walkerton, Sept. 19.—The sentence meted out to the three Lancaster brothers for the part they took in the rioting on the night when Philip Gilbert forfeited his life at the hands of Mrs. Thomas, for attempting to destroy her home, which consisted of a tent, has caused much dissatisfaction and adverse comment here on British justice.

Madman Kills Wife.

New York, Sept. 19.—Following his discharge as sane from the psychopathic ward at Bellevue Hospital, Frank Moulton, 43 years old, once a prosperous real estate promoter, murderously assaulted his wife, Delia, aged 22, and frightfully injured himself.

When she had fallen fast asleep he beat her with a hammer and slashed her with a razor, with which he also cut himself.

German Balloon Wins.

Brussels, Sept. 19.—The long distance prize in the international balloon race has been won by the German balloon Pommern, piloted by Herr Erbsloh. The Pommern came down at Bayonne, France, 681 miles from Brussels.

The Swiss balloon Cosma, and the English balloon Zephyr probably will tie for second place. All the balloons have been accounted for.

New Bodyguard For Czar.

St. Petersburg, Sept. 19.—For the further protection of his own person, Emperor Nicholas has ordered the creation of a new regiment of life guards, composed of specially selected officers, non-commissioned officers and soldiers, drawn from regiments throughout the entire Russian army, on the personal recommendation of the commanders of the various corps.

Troops Clash With Rioters.

Rome, Sept. 19.—Agrarian troubles have broken out again in Southern Italy. The troops present are insufficient to cope with the rioters, who already have done much damage to property.

There have been frequent conflicts among the strikers, the non-strikers and the troops, in which the soldiers have used their bayonets freely.

Abductor Sentenced.

Chatham, Sept. 19.—Raymond Touloose, of Big Point, a married man, who was accused of running away with 14-year-old Maggie Bellaire of Chatham, was sentenced to one year in Central Prison by Judge Houston yesterday.

BOY'S TERRIBLE DEED

Murders His Two Companions While Hunting.

Tragic Ending of a Day in the Woods—Dispute as to Right of Way Resulted in Scuffle—Guy Tardis Discharged His Gun With Fatal Effect — Brothers Were Instantly Killed.

Woodstock, N. B., Sept. 19.—Two boys, Guy and Oscar Downing, brothers, were shot in the woods near here Tuesday by Guy Tardis, who was hunting with his cousin, Fred Tardis. The parties met in the woods and a dispute arose over the right of each party to hunt there.

Guy Downing stood his rifle against the fence and ordered Fred Tardis to do the same. He then seized Tardis by the collar.

Oscar Downing started toward Guy Tardis, who fired his gun, the bullet piercing Downing's lung and coming out at the shoulder blade. He dropped dead.

Guy Downing started to run, but Guy Tardis fired at him, striking him on the top of the head, the bullet plowing its way through the brain and killing him instantly.

The Tardis boys were arrested. The boys were all about 17 and sons of respectable and prosperous farmers.

KELPIE WINS DURHAM CUP.

Captures Trophy For Canadian-Bred Horses in Fine Style.

Woodbine Track, Sept. 19.—The results of yesterday's racing were as follows:

First race—Purse, $400 added, three-year-olds and up, selling, 3-4-mile: 1, Cloten; 2, Donna Elvira; 3, Cousin Kate. Time, 1.14 2-5.

Second race—Michaelmas Handicap, 3-4-mile, purse, $1,000 added, two-year-olds: 1, Stanley Fay; 2, Terah; 3, Petulant. Time, 1.14 2-5.

Third race—Doncaster Plate, 1 mile, purse, $500 added, three-year-olds and up: 1, Royal River; 2, Merry England; 3, Ballot Box. Time, 1.41 3-5.

Fourth race—Roysterer Steeplechase, 2 miles, purse, $500 added, three-year-olds and up, selling: 1, Pioneer; 2, The Chef; 3, J. G. C. Time, 4.08.

Fifth race—Durham Cup (Canadian-bred), 1 3-4 miles, purse, $1,500 added, three-year-olds and up: 1, Kelpie; 2, Glimmer; 3, Sea Wall. Time, 3.05 4-5.

Sixth race—Purse, $400 added, four-year-olds and up, selling, 1 1-16 miles: 1, Henry O.; 2, Factotum; 3, First Mason. Time, 1.49.

Seventh race—$400 added, three-year-olds and up, 3-4-mile: 1, Wabash Queen; 2, Fiat; 3, Marimbo. Time, 1.15.

FOR STATE-OWNED RAILROADS.

Lord Brassey Advocates Operation Solely in Interest of Public.

Liverpool, Sept. 19.—Presiding at a meeting of the Associated Chambers of Commerce here yesterday, Lord Brassey appeared in a new relation, that of an advocate of the state ownership of railroads.

He referred to the growing demand that the railroads should be managed solely in the interests of the public service and not for the benefit of the shareholders, and declared that if a change of policy was seriously proposed there could hardly be a doubt that it would receive the support of Parliament.

In continental Europe, he added, where the railroads were the property of the state, the requirements of the public were fully considered and the results to the treasury were satisfactory, while in Great Britain competition was carried to excess, an immense amount of capital was wasted, shippers were dissatisfied with the [illegible] rates and the employes were discontented with their wages and hours of labor.

NEWFOUNDLAND'S POSITION.

Where Would Colony Be as An Independent State?

London, Sept. 19.—(C. A. P.)—Where, indeed, asks The Manchester Guardian, would Newfoundland stand in any negotiations with the United States which she conducted as an independent self-supporting state instead of as a colony of the Empire?

She would stand pretty much where Venezuela or Columbia stands—at the mercy of Washington. The difference between that and her present position is one Bond should not forget. It is due to a very tangible "Imperial contribution" made at no small cost and risk by the people of this island.

Jail 'Em, Says Clewes.

Louisville, Ky., Sept. 19.—A plea for the punishment by imprisonment of dishonest corporation officials and a protest against the tendency in certain quarters to attribute the recent decline in the stock market to President Roosevelt's policies were made by Henry Clewes, the noted New York banker, in an address before the Kentucky Bankers' Association here yesterday.

Caused a Collision.

Montreal, Sept. 19.—In his decision on the Prescott-Havana collision on July 2, Commander Spain censures Capt. Dunlop of the Prescott and J. K. Nasl, inspector of hulls.

The evidence showed that the signal wires of the Prescott were out of order and she was not provided with a speaking tube to the engine-room.

300 Assassinations.

St. Petersburg, Sept. 19.—The police statistics for the month of August record the carrying out of 31 sentences of death, the assassination of 300 persons, of whom 107 were Government officials and 202 were citizens, and the wounding of 175 people in various encounters.

Canada Will Show Them.

Paris, Sept. 19.—Canada has obtained 120,000 feet of space in the Franco-British exhibition of 1908, and Australia 40,000.

Alex. Cohen, proprietor of the Lansdowne Hotel, Regina, was shot and killed while shooting.

RAILWAY MEN IN COURT.

Hodge and Grimes Will Stand Trial For Caledon Wreck.

Toronto, Sept. 19.—George Hodge and Matthew Grimes, engineer and conductor of the C. P. R. train wrecked at the Horseshoe Curve, for whose arrests warrants were issued by Chief Coroner A. J. Johnson, at the close of the inquest at the City Hall Tuesday night, gave themselves into custody at an arranged court held by Magistrate Ellis at Toronto Junction last night.

Chief Flint of the Junction police served the coroner's warrants, as the men entered the court room. These warrants placed them in legal custody upon the finding of the jury, which charges criminal negligence resulting in death.

Each was admitted to bail in his own and one other surety of $2,000 each, by consent of Crown Attorney Corley, under arrangement with the Attorney-General's Department, made yesterday afternoon.

The men were remanded till Saturday morning at 11 o'clock, and on appearing there T. C. Robinette, K.C., attorney for the accused, says that they will waive examination and consent to be bound over to stand their trial before Justice Magee at the fall Assizes at Brampton, which opens Nov. 11.

Before the men can be committed for trial a formal charge must be laid. The charge will be manslaughter.

Grimes was exonerated by the C. P. R.'s own investigation and has been back on the road again.

Attorney-General Foy has ordered several indictments to be preferred at the Whitby Assizes, commencing on the 23rd inst., by Frank Arnoldi, K. C., who is to conduct the crown business there against several officials of the C. P. R., for breach of duty under sections of the criminal code applicable. The whole circumstances and the responsibility for the Myrtle accident last April, in which two men's lives were sacrificed and numerous lives endangered, will be sifted.

ENGINEER REID GUILTY.

Jury at Guelph Find Collision Was Due to Negligence.

Guelph, Sept. 19.—Engineer Mark Reid, who was concerned in the wreck at Gourock a year ago, was found guilty by the jury of negligence and will receive sentence to-day.

Some difficulty was experienced in getting a jury to sit on the case, but after a dozen jurors had been challenged the requisite number were finally secured. Very little evidence was taken at the first sitting, the witnesses being Conductor John Hunt of the mixed train which figured in the collision; Lorne Palmer, and Night Operator Aylesworth of Guelph Junction.

The evidence of Reid himself told in part the story of the trip until the accident occurred. He admitted that he should have kept clear of No. 41 by five minutes, but he did not consider himself to blame for running into Hespeler, although he admitted that it was his duty to side there.

Thrown Off Load of Wood.

Kingston, Sept. 19.—W. L. Allan, a coal and wood merchant of Wolfe Island, met with a serious accident yesterday. He had delivered a load of wood to the summer cottage of G. E. Hague, manager of the Merchant's Bank of this city, and was returning with Mrs. Hague in the wagon to Marysville.

Suddenly the horses balked going down hill and threw Mr. Allan out. He alighted on his head, sustaining a scalp fracture. He was carried unconscious and bleeding freely to his home, and it will be several days before it is known whether he will recover.

Mrs. Hague escaped without serious injury.

"Sherlock Holmes" Married.

London, Sept. 19.—Sir Arthur Conan Doyle and Miss Jean Leckie were married in St. Margaret's Church, Westminster, yesterday. The ceremony was quiet and the name of the church at which it was performed was kept secret in order to avoid the presence of a crowd of persons who otherwise would have flocked to see the wedding of the author of "Sherlock Holmes."

Sir Arthur is 48 years old and was regarded as a confirmed bachelor. Miss Leckie lived with her parents at Blackheath.

STEAMER STONY LAKE or MAJESTIC

The steamer Stoney Lake will leave Lakefield for the lakes on arrival of the morning train, returning in time to connect with 4.50 train for Peterborough.

Steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

Peterborough Big Fall Fair Will be in Full Swing Next Week

Will be Twenty Five Per Cent More Exhibits Than Last Year—Large Number of Tent Shows and Splendid Grandstand Performance—Big List of Live Stock and Poultry Entries.

Secretary F. J. A. Hall, of the Peterborough Industrial Fair, is worked "for fair" these days, and in all his experience in the position he occupies in connection with the exhibition, he has never been so overwhelmed with entries as he has been this year.

"The fair grounds on the days the fair will be held, Thursday, Friday and Saturday, Sept. 26th, 27th and 28th, will be a veritable white city," he said to the Review this afternoon, "as we have let concessions to numberless tent shows and refreshment booths."

"How about the different exhibits?"

"Well, the classes are all well filled up," he replied, "and there will be a particularly large number of live stock and poultry shown. There will undoubtedly be an increase of 25 per cent over last year in all lines of exhibits, and, judging from the interest shown and the worth of the exhibition, we shall have the most liberal patronage this year that has ever been accorded to the Peterborough exhibition since its opening season. Peterborough is one of the most progressive places in Canada, and the directors and officials of the exhibition have labored hard this fall to make the Peterborough fair worthy in every respect of the city in which it will be held."

The speeding in the ring events give promise of being particularly fast as the track is in good shape, and the horses entered much above the average of fall show trotters and pacers. The grand stand performance will also be clever and entertaining.

The 57th Regiment Band, which carried off the honors among provincial bands at the Toronto exhibition this year, will supply music during the entire three days of the fair.

Below is the complete programme as arranged by the directors;—

Judging roadsters horses in harness, class 25 to 32.

Judging special classes, horses in harness, classes 33 to 35.

Judging in Merrell & Meredith's special, best pair of roadster horses.

Judging in Grafton & Co.'s special, best pair of agricultural horses.

3 p.m., thrilling performance in front of the grand stand. Special amusement features of superior excellence, and well worth the price of admission to see the entire exhibition. Something new continually on the move. Music by the 57th Regt. band.

SPEEDING IN THE RING.

2.18 class.—Trot or pace, half mile, prize $100.

2.30 class.—Trot or pace, half mile heats, prize $100.

The 57th Band has been engaged for the last two days of the fair, and will be on the grounds during both afternoons to furnish music.

In order to accommodate the crowd which is expected the street railway will give a five minute service to the grounds during the two days, and those who depend on this means of reaching the Fair grounds will not be disappointed.

SECOND DAY—FRIDAY, SEPT. 27.

10 a.m.—Judging the exhibits inside the main building and the poultry classes.

1 p.m. — Judging classes 1 to 16, in "Breeding Class," also judging "Special Class" No. 34, and Lang & Maher's special prize for the best pair of carriage horses.

1.30 p.m.—Official opening of the Fair.

2.35 p.m. — Judging the cattle, sheep and swine.

3 p.m.—Rare performances, varied and attractive in character in full swing in front of the grand stand Extra special engagement by the Fair Directors of the following renowned artists, Madame Victoria and her Western Trained Dogs "George" and "Georgie" in their four sensational acts, Bounding Wire, Bounding Billiard Table, Double Trapese and Revolving Ladder. Bertha Phillips, the Bewildering Lady Contortionist.

SPEEDING IN THE RING.

2.50 Class—Half mile, purse $75.

Carter's race, quarter mile, purse $25.

2.24 class—Half mile, purse $100.

SATURDAY, SEPT. 28.

10.30 a.m.—Judging in "Special Classes for Farmers" as follows,—

Best roadster, trotter, mare or gelding, 15.8 or over.

Best roadster, trotter, mare or gelding, under 15.3.

Pair roadsters, trotters, mares or geldings.

"D. Hughes-Charles' Special." Best pair of agricultural horses, mares or geldings.

1.30 p.m.—Judging draught horses, class 17 to 21.

A Million Sandstone Brick Being Used in the Armoury

Local Concern Has Big Contract in Connection With New Building—Plant is Kept Busy.

"Made in Peterborough" products are entering largely into the construction of the new armory at Central Park. Perhaps the average citizen does not know that practically all the brick being used is the product of local concerns, but this is the case, nevertheless. The Sandstone Brick Company, a comparatively new industry, has an order from Mr. Proctor, the contractor for the armory, for a million brick, and they are now being delivered. The order is the largest ever received by the firm, and goes to show that sandstone brick is rated highly by those engaged in the building line. At the armory they will be used on the inside of the walls where there appearance gives them an advantage over the ordinary red brick.

Incidentally it may be stated that there has been a big demand for sandstone brick in Peterborough this season. Many new houses have been built with them especially in the south end of the city. Sandstone brick houses are numerous in that locality and they present a very pleasing appearance. The company have their plant working to its fullest capacity to fill their orders.

The Rugby Team Needs Support of the Public

Everyone who takes an interest in the welfare of the Rugby Club should buy a season's ticket. Those who secured tickets are entitled to admission to all games without any expense other than that incurred in the purchase of a ticket, and that's only a matter of $1.

The rugby team needs your support, both moral and financial, and you owe it to the boys that are going to chase the pigskin this season, and that will endeavor to bring the silverware to Peterborough. It's been here before, and as there are about fifty men,—no exaggeration — to choose from, the chances are good for bringing it back, if the team is given the assistance it deserves. Last year the gates were small on account of the weather man being out with the sprinkler, on nearly all occasions when matches were played. As a result the team wound up with anything but a standard oil balance on the right side of the ledger. With the co-operation of the public, the boys hope to do better this year, however, and from an ante-season standpoint, things look exceedingly roseate. Tickets may be secured from any members of the Club.

Contest at the Roller Rink

Messrs. Sidney Gibbs, and Charles Little were the winners of the prizes in the skating contest last evening a the roller rink. The event was for gentlemen skating in couples, and a large number entered. Misses N. Logan, G. Brooks and H. Craig, acted as judges, and their task was certainly no easy one, but their decision won the approval of the large number of spectators. The band was in attendance throughout the evening, and furnished excellent music.

BANKERS TO HAVE BOWLING TEAM

Money Jugglers Going After Ten Pin League Championship.

Thanks to the activity of one of their number the bankers of the city will have a team in the ten pin league which will be organized at a meeting at the Majestic Alleys tomorrow night. The money handlers expect to have a championship aggregation, and many of them have been hard at practice for some time The fact that the bankers will have a bowling team is due largely to the efforts of Mr. Donald George G. Cameron, of the Bank of Commerce staff. Mr. Cameron is an enthusiastic bowler, and has done much to foster the game among the bank clerks since coming to Peterborough from Scotland a few months ago. He learned the game in the "land of brown heath, and shaggy wood," but his transplanting to Canadian soil has not diminished his love for the great alley pastime

SPORTING COMMENT

Port Hope plays in Toronto on Saturday next with the Wellingtons, of Toronto, for the championship of Eastern Ontario. It is safe to bet on the men from the Lake Ontario burg, and that's a tip that works both ways.

Alfred Shrubb, the Englishman, will not be able to start in the Examiner road race as he cannot qualify from either an amateur or residential standpoint.

From all appearances Mr. Jas. Kelly, of the Royal Hotel, has a stepper of promise in Black Cloud, the horse he purchased from Mr. Bert McCollum on Monday.

The Peterborough Rugby team should have the whole-hearted support of the public. The boys are in the game simply for the love of it, and should be given every assistance by all who take a stand for amateur sport.

It has been suggested that all cheap jokes be laid aside by the Peterborough sporting editors in referring to the coming annual hockey match between the Examiner and the Review cut-ups. The suggestion appears a reasonable one, and in case it is carried out, nothing of course will be said by the local papers concerning the game.

RUGBY

"This ticket entitles the holder to one draw on a pair of $8 trousers, donated by Ed Huff, to the Peterborough Rugby Club, to be drawn for on Oct. 1st, 1907. Tickets 25 cents." If you buy a ticket with the above written on it you swell the finances of the Rugby Club by 25 cents—and every little helps—and, besides, you have a possible chance of getting a first class pair of trousers.

THE TURF

Mr. Frank Burke, the well known local horseman, is being congratulated by his fellow horsemen on his approaching marriage.

Mr. John A. Sprague, of Picton, died suddenly on Saturday, aged 63.

LAKEFIELD FAIR

The Annual Exhibition of the Lakefield Agricultural Society will be held in the fine new grounds of the Society in Lakefield, on Tuesday and Wednesday, September 24 and 25.

The buildings and grounds have been much improved during the present summer and the track for speeding has been put into excellent shape.

The speeding in the ring promises to be first-class and the Society has granted good purses in the Free-for-All and 2.50 Class.

For prize lists and entry forms, etc. address W. SHERIN, Sec'y., Lakefield Ont.

Given 24 Hours To Leave City

Wm. Ferguson, Charged With Theft, Allowed to Go

Wm. Ferguson, an old man, who was seized with an epileptic fit in police court last week, appeared before His Worship Magistrate Dumble again this morning. He was given 24 hours to leave the city.

He was charged with stealing three augur bits, from Charles Nixon, but as the complainant is ill, the case was dropped.

During the past week, Chief Roszel communicated with Chief Bond at Port Hope, and received list of a number of convictions against Ferguson. The prisoner's failing, evidently has been a craving for strong drink, as most of the convictions have been for being drunk, and on the following dates, Nov. 14, 1906; Sept. 2, 1903; Oct. 27, 1902; June 1, 1901; Oct. 19, 1900, he was sentenced to six months in the Cobourg gaol at hard labor for the same offence. He also served a like term for vagrancy on Nov. 8, 1904. On Nov. 12, 1898, he served two months for neglect of his family, and on Aug. 30, 1897, his wife applied for an order of protection which was granted her. From the above convictions it will be seen that Ferguson had spent the greater part of the past few years in gaol. The offences were not serious and all were more or less attributed to the fact that he was a victim to the demon, drink.

Chief Roszel stated today, that 21 days was the maximum sentence for being drunk, and the Port Hope magistrate had far exceeded it.

STOLE A GOLD WATCH.

John Barrie was arraigned before His Worship, charged larceny of a gold watch from a young man on Parnell street. Prisoner had to make an election as to how he would be tried. He decided to be tried by jury. He pleaded not guilty and was remanded for a week.

It appears that Barrie stole the watch and then got on a drunk. Someone then robbed him of the timepiece and he has not the faintest idea where it is.

Anyone knowing anything of the finding of a gold watch will please communicate with Chief Roszel.

Brought Back to the Shelter

Frank Swartz Who Was in Industrial School, Returns to Peterboro'

It will be remembered that some months ago, Frank Swartz was taken from his parents by the Children's Aid Society and sent to an Industrial School, under the direction of the Society. Mr. J. J. Kelso, superintendent of the Children's Aid Society, considered that the lad was not doing very well in Toronto, and he was sent back to the Shelter here. The boy was out on the street last night after school hours, and his mother who saw him, took him home with her. Mr. George Cochrane, was notified and, in company with a policeman, went to the home in the north end of the city, and brought the youth back to the Shelter.

CHURCH WILL BE RE-OPENED

Presbyterians of Bethany Have Renovated Their Place of Worship

The Presbyterian church at Bethany has been undergoing repairs, which have now been completed, and the church will be re-opened on Sunday of this week. Mr. Gilbert Gonn, of Hamilton, who is a guest at the Springville Manse, will preach in the morning, and Rev. Dr. Marsh will officiate in the evening. Mr. Gonn will preach at Springville in the evening.

In connection with the re-opening services there will be a "Ye Olde Days" entertainment in the town hall on Monday night. It promises to be very successful.

MEETING OF QUEEN ALEXANDRA CIRCLE

The quarterly meeting of Queen Alexandra Circle, No. 136, A.O.F., was held last night, in the S.O.E. Hall There was a large attendance of members. The C.C., Mrs. Stevens, presided and two candidates were duly initiated into the Circle and one proposition was received for membership. After the usual business had been concluded a social time was spent, when the following supplied instrumental music, etc.;—Miss. A. Howell, Miss E. Bullock and C. Regan.

CRESSMAN'S RE-OPENING

To-morrow Evening the Big Store Will be Open for Visitors

To mark the general rejoicing of the staff at the completion of the changes and rebuilding operations at Cressman's the "re-opening' will be celebrated to-morrow, Friday, evening.

Everybody is invited to view the new and enlarged store from the ground floor to the upper floors. The orchestra engaged for the occasion will enliven the atmosphere and aid in the spread of that "at home" feeling which has always been a feature of the Cressman store.

The chief feature in the re-opening will be found on the first and second floors, where two shoe departments have been opened. Mr. Cressman will present for the first time the "Dolly Varden" shoe for dainty ladies, and the "Foot-rite" shoe for men.

These two shoe companies entered the Canadian market simultaneously and from their Boston offices they conceived and carried out a plan whereby they could sell shoes in Canada, the United States and Great Britain at exactly the same prices.

Cressman's is not altogether a ladies' store, for the new store taken in is devoted almost entirely to gentlemen. Besides the "Foot-rite" shoe a full line of Semi-ready tailoring is shown. "We have the two top-notchers," said Mr. Temple.

MUSICAL PROGRAMME.

The Grand opera house orchestra will furnish music to-morrow evening. The following excellent programme will be contributed.:

March—Old Faithful.
Dance Caprice.—Fairy Flirtations.
Overture.—Couronne D'Or.
Two Step.—The Trickster.
Medley Overture.—Arrah Wanna.
Waltz.—Estudiantina.
Overture.—Tancredi.
Two-step.—Since Arrah Wanna married Blarney Carney.
Medley Overture.—Rialto.
Waltz.—Casino Tanse.
Two-step March.—Arrah Wanna.

Conference Held This Afternoon

Representatives of City Meet the Water Commissioners

A conference between Mayor McWilliams and Ald. Duncan, chairman of the Board of Works, and the Peterborough Water Commissioners, is being held this afternoon. The Mayor and Ald. Duncan were appointed a committee at a recent meeting of the Board of Works to interview the Water Commissioners, with a view of securing an extension of the time in which water can be secured for street watering. A conference was arranged for this afternoon and it is likely that some arrangement will be reached whereby the sprinkling of the streets may be kept up later in the fall than in past years.

Miss Mable Curtis Arrives Safely

At Hazelton B. C.—Telegram Received To-day

A telegram was received in the city this morning, by Mrs. Charles Curtis, Aylmer street, informing her that her daughter, Miss Mabel, who left a few weeks ago, for Hazleton, B. C., to take up missionary work, has safely arrived at her destination. Mrs. Curtis was very anxious to know whether her daughter had got there safely, as a few days ago, a report appeared in the papers to the effect that the steamer "Northwest," plying on the Skeena river had sunk and several lives were lost. This was the same steamer that Miss Curtis travelled on, but fortunately she arrived at Hazleton two days before the wreck. Her many friends in this city will be pleased to learn that she arrived at Hazleton, without mishap.

Horse Shoe Four Feet in Ground

Discovered by Mr. Bernard Corigan While Digging Trench on George Street

There seems to be an epidemic in the city at the present time for unearthing things. Only a few days ago a gang of men in the employ of the Waterworks Commissioners when they were digging on Aylmer street, found an old Lower Canada "un sou" and now Mr. Bernard Corrigan of Otonabee, while engaged in the work of excavation for the Bell Telephone Company, on George street, found a horse shoe about four feet beneath the surface. The shoe judging from the depth it was imbedded had been cast there by some horse many years ago. It was in a state of perfect preservation, not being eight rusty or battered in any way. All conjectures, however, as to its age are mere speculations, but there is no doubt that it belonged to a quadruped of the horse species, as it was found four feet underground.

ENTERTAINED AT THE MANSE

Young People of Springville Guests of Rev. Dr. and Mrs. Marsh

About seventy young people were entertained by Rev. Dr. and Mrs. Marsh at the Presbyterian manse, Springville, last night. Complete preparations had been made for the entertainment of the numerous guests and a most enjoyable time was spent. Music, instrumental and vocal, games, charades, and other forms of amusement made the evening one of rare pleasure and needless to say those present were loud in their praises of their host and hostess. Gramaphone selections also enlivened the evening and incidentally it may be stated that Mr. Gonn of Hamilton, who is a guest at the manse, took an active part in entertaining the company.

Coal May go to $8 per Ton

This is the Prediction of a Peterboro' Coal Merchant

Coal has advanced 25 cents per ton in Toronto if you pay cash, and 50 cents if you do not.

The quotations for coal in the Queen city now are cash $7.35 per ton, and credit $7.50.

At present the dusky diamonds are being disposed of in Peterborough at $7.30 per ton. This was the highest figure reached last year. "I tell you" said a well known coal merchant of Peterborough to-day, "I would not be surprised to see the figure advance to $8 in this city before the winter is over. We are compelled to pay 65 cents more freight per ton than Toronto men. The cost of living is dearer than last year, hay is much higher in price and we have to pay a greater rate of interest to the banks for the money we borrow. Yes, sir, we will be perfectly justified in making the advance to $8. If the Toronto price is $7.50 per ton to make as much profit as the dealers in the Queen city do, we should be selling coal at $8.15 per ton as we have, owing to our location here to whack up 65 cents per ton more in freight charges than they do in Toronto.

ADAM'S

Popular Priced Mantles, Suits, Skirts, Etc.

Our styles for the Fall, 1907 in Ladies' Misses and Children's Coats are up to the minute in cut and trimming and are all popular priced. There are quite a number of different models, loose, tight fitting and semi-fitting, each a distinct fashion product by itself.

To Look After The Finances

Finance Committee in Connection With Mark St. Church

The finances of Mark street church will receive more attention in the future than has been the case in the past. At the meeting of the Trustee Board last night the establishment of a finance committee was discussed and it was practically decided to organize such a committee. Another meeting will be held shortly to deal with the matter further. It is felt that the finances would be looked after in better shape if they were in the hands of a well organized committee.

NEW JANITOR NOW AT WORK

Mr. Robert Wilson, the new janitor, has commenced work at the city buildings, and is certainly finding plenty to do. He will be very busy for a few days, but after he gets everything in shape, his duties will be less strenuous.

Making Way for The New Church

The removal of Park street Baptist church from the present site in order to make way for the splendid new edifice has been commenced. The Sunday school room has been moved to a lot across the street and the main part of the church will be moved across later.

PERSONAL

Mr. Wm. Johnson, of Belleville, district inspector of weights and measures, is in the city.

Mrs. R. M. Dennistoun, who has been spending the past few weeks in the city, has returned to her home in Winnipeg.

Mr. Fred W. Skitch has returned to the city, after an extended holiday, and resumed his duties at the Canadian Express Company.

The Grand Valley Railway will build a line to Port Dover from Brantford via Waterford and Simcoe.

CASE GOES TO COMMISSION

The Grand Trunk and the Lord's Day Act.

Special to the Review.

Toronto, Sept. 19.—The taking of evidence in the prosecution of the Grand Trunk Railway for alleged breach of the Lord's Day Act, in moving trains at its York yards, on Sunday, April 21st, was concluded this morning.

Counsel for the railway submitted that the work done was necessary, and, moreover, that it was not within the province of the magistrate to define what was necessary Sunday work, but that this lay with the Railway Commission. The County Crown Attorney agreed that it might be advisable to go to the Railway Commission, and the magistrate consented to reserve judgment for a week till the Commission was consulted.

DR. BROWETT'S DATES

For September at his Home Office, 390 George Street, Peterborough, Wednesday 11th to Saturday 14th inclusive; for October, 9th to 12th. Dr. Browett is teaching Opticians all over Ontario the modern methods of eye examination for Glasses, the fitting of Artificial Eyes, etc. Appointments are only made at

McDermid & Jury's Drug Store, Peterborough

THE DAYLIGHT STORE

A Favorite in Overcoats

OUR BLACK CHEVIOT, SILK FACED OVERCOATS are, perhaps, the most admired Overcoat in our entire line. There's an air of elegance about these coats not to be found in any other style.

Again, this style of overcoat is cut in ium length and is medium weight fabric which makes it appropriate coat for all occasions---

IT'S A GARMENT FOR EACH SEASON

Hamilton Paper Critizes Dr. Gray's Proposed Tariff

Does Not Think He Will be Successful in His Campaign Against Reporting Contagious Diseases Unless Paid for it.

Under the heading "Must Physicians Report," the Hamilton Times gets after Dr. Gray of this city, who recently formulated a tariff to govern the reporting of contagious disease cases to the Board of Health. The Times says,—

"The course decided upon by Dr. Gray, of Peterborough, in making conformity to the law conditional on being paid so much per case for reporting contagious diseases, will probably tend to a better understanding of the rights and duties of a profession favored in many ways by the law, and of the public to which it gives much valuable service. That Dr. Gray sees one side of the case with great perspicacity, but that he has no very high estimate of the privileges and protection, which the public grants the medical profession is made evident in his public statement of his views from which we quote,—

"The medical profession owes nothing and is under no obligation to any government, city or municipality under the sun; but on the contrary it is persecuted and taxed by all these bodies to the last farthing for being in a position to give the information demanded of them.

"The ability to give this information, we the medical profession, acquired by incessant night and day toil, and in acquiring this information some of us have spent a life-time, and not at the expense of any government, city or municipality, but at our own, and as we have to bear our share of all other expenses in connection with the government of the city or municipality, we are quite willing to bear our share of the expense of obtaining what the city has demanded and what it must pay for."

Dr. Gray's proposed scale of charges for reporting cases as required by the health authorities call these fees per case: Typhoid fever $10, and attendance and medicine $4 per day; diphtheria, $50 and daily attendance and medicine $12; scarlatina and measles $10, and attendance and medicine $12 per day; smallpox $100, attendance $100 per day, and medicine $5. Night tariff very much higher.

This scale of charges for filling in the necessary blanks, may fairly be said to be a generous one, from the physician's point of view. The proposed fees for attendance does not concern the immediate question of reporting. The statute, it is plain, does not contemplate remunerating the physician for the performance of the duty thus laid upon him by the Public Health Act, treating it as a trivial matter, and one for the public benefit, as is the registration of births, marriages and deaths. Sec. 89 of the Public Health Act imposes on physicians the duty of reporting all cases of smallpox, scarlet fever, diphtheria, typhoid fever and cholera within twenty-four hours of their coming to his notice under a penalty of neglect or refusal to do so of $20. Evidently there was no intention on the part of the Legislature to pay a fat fee in each case in which the Board of Health is notified.

DR. J. W. GRAY

But we do not think Dr. Gray will succeed in his campaign against reporting contagious diseases unless paid for it. Moreover, we do not think that in this matter he has the sympathy of the profession with him. No body of men is given greater powers or protection under the law than the physicians, and none is called upon to do so much for the public in a variety of ways. Seldom do we hear of a physician refusing his services to the poorest, even when to hope for reward would be folly, and when the greatest of skill and care have to be exercised. They render valuable services to the community in the protection of the public health. The sacrifices made by the profession have resulted in advances in knowledge which save thousands of lives annually, and the secrets which cost millions and years of toil are freely given up to the benefit of mankind. The poor are treated freely in our public institutions, and in many ways the battle against disease is waged at the physicians expense. There has been no general disposition shown to ignore or defy the law as to reporting diseases as provided by the Public Health Act, and we do not believe that the men who give so freely of skill and time and material in the public interest will seek a reputation for ungenerousness over the trivial matter of the mere reporting of cases to the Board of Health. To do so would be the rankest folly.

IMPORTANT NOTICE

Owing to preparations for the Formal Opening of our New Store To-morrow (Friday) Evening, our premises will be closed from One to Seven O'Clock in the Afternoon.

A. W. CRESSMAN

The Man Behind Great Enterprises

Mr. Alfred Wood of Montreal Pays Business Visit to Peterboro'

Mr. Alfred Wood of Montreal, is in the city in connection with the re-opening of Mr. A. W. Cressman's palatial new store. Mr. Wood is a widely known newspaper man, and eighteen years ago, resided for some time in Peterborough. He is now prominently identified with the Semi-ready Company of Montreal, as well as many other leading concerns. He directs all the advertising matter for Semi-ready Co., the Foot-Rite Shoe and the Dolly Varden shoe, all of which lines are handled exclusively in Peterborough by Mr. Cressman.

Mr. Wood is an advertising expert and conducts the publicity department of the famous Slater shoe. He is sponsor at the present time, of one of the foremost and effective advertising campaigns ever carried on in Canada. Mr. Wood was for many years with the Toronto World and for two years was proprietor of the Ottawa Free Press. After disposing of the latter journal, he removed from the capital to Montreal, and is now devoting his energies to advertising work, of which he has made a signal success. He is original in method, striking in ideas and progressive in planning, as is evident by the fact that the superior goods which are backed by his publicity propagandas are known, and find a ready market from ocean to ocean.

Mr. Wood notes great changes in Peterborough since his last visit here and believes that this city has an exceptionally bright future ahead of it.

PERSONAL

Mr. J. A. Kerr, of Perth, is in the city.

Mr. W. B. Screaton, Lindsay, is at the Oriental,

Mr. W. R. Deeton, Hanover, is at the Oriental.

Mr. D. G. O'Brien, of Rochester, N. Y., is in the city today.

Mr. W. T. Dockrill, of Toronto, travelling passenger agent, was in the city today.

Mr. Gilbert Gonn, of Hamilton, is a guest at the Presbyterian Manse, Springville.

Miss Gertrude York, of Edmonton, is the guest of Rev. Dr. and Mrs. Marsh, at Springville.

Dr. Cameron Hoggan, of Walkerville, who has been visiting in the city, left for Toronto yesterday.

Mr. Jos. O'Brien, Downie street, has accepted a position in the moulding department of a Belleville firm.

Mr. and Mrs. A. A. Fowler, who have been spending a few days at Chemong Park, have returned to the city.

Rev. R. C. Blagrave rector of Christ church, Belleville, is in the city, the guest of Dr. and Mrs. Frederick, George street.

Mr. and Mrs. H. O. Fisk, Water street, who have been spending a few days in Montreal, have returned to the city.

Mr. and Mrs. John Williams and daughter, Boswell avenue, have returned from an extended visit to England and Wales.

Miss Bella Thompson, book-keeper for Messrs. R. Fair & Co., has returned from a fortnight's holiday spent in Toronto and vicinity.

Mr. S. J. T. Brown, of Hamilton, assistant superintendent of construction for the Bell Telephone Company, was in the city to-day inspecting the underground work of the company.

The many friends of Miss Mabel Curtis will be pleased to learn of her safe arrival at Hazleton, B. C., on Wednesday, Sept. 11th, after a very pleasant trip.

The Very Rev. Dean of Ontario, Dr. J. C. Farthing, of Kingston, who will preach the Harvest Home sermon in St. Luke's church this evening, arrived in the cityi this afternoon.

Mr. Ira Stratton, of Stonewall, Manitoba, the well known founder and father of the Rural Postmasters' Association of Canada, is in the city. He is staying at the National.

Mr. Charles Garside and Mr. Frank Edwards of Hamilton, have returned to their home, after spending their holidays around the upper and lower lakes, and at Mr. Garside's father's, Mr. Jas. Garside, 199 Reid street.

Mr. J. J. Turner, Peterborough, District Deputy Grand Master of the Ancient Order of United Workmen, is in town to visit the Port Hope (Safety) Lodge tonight, in an official capacity.—Port Hope Guide.

Night School to-night at the Business College.

THE PETERBORO' COLLEGE OF MUSIC

Board of Works Makes an Extensive Tour of the City

Inspects Streets Where Work Has Been, is Being, or Has Yet to be Done—Much Valuable Information Secured--The Places Visited.

The Board of Works of Peterborough is generally considered a pretty live organization, but yesterday the members were "on the move" in the real sense of the word. The Board made a tour of inspection of the city and travelled from 1.30 in the afternoon until nearly six o'clock. Streets and other places where work has been done this season or is being done at present were visited and an inspection made. Streets where work has still to be done were also included on the calling list and to reach the different places necessitated a lot of travelling. It was a profitable afternoon for the members of the Board as they secured information in a few hours that will be of more service to them than the information they could secure second hand in six months. As a result of the knowledge secured the Board will be able to deal with questions that come up better than they otherwise could do, although there has not been much kicking about the work the Board of Works has been doing this year.

THE PARTY.

The party which made the tour of inspection yesterday consisted of Ald Duncan, chairman, of the Board of Works, Mayor McWilliams, Ald. Johnston and Bradburn, City Engineer Hay, City Clerk Armstrong and Street Commissioner Evans. Ald. Wilson was also picked up before the day's journey was over and was on hand for the last part of the trip. The party left the city hall in a bus at 1.30 and travelled west on Charlotte street, the first stop of any importance being at Maitland avenue. This is a comparatively new thoroughfare running south from Charlotte street. There is no sidewalk on it yet, but there is a petition in for a granolithic walk on the west side of the avenue and it will be put in before the snow flies. Work will be commenced on it as soon as possible.

Passing west along Charlotte, the next stop was at Margaret street, which runs between Charlotte and King streets. This is a new street, but there several substantial new houses on it. The street is in a somewhat rough condition at present, but it will be graded this fall. It will have to be cut down considerably at the south end where it joins King-st. No sidewalks will be built till next year.

The party stopped for a short time at Pearl avenue and admired this well laid out residential thoroughfare. New granolithic sidewalks have been laid on it this summer and they present a highly creditable appearance. The same may be said of the whole avenue.

After travelling north along the boundary road, the delegation turned east along Gilmour street and the city engineer jotted down a few improvements that will have to be made Homewood avenue came next and it may be stated incidentally that this is one of the prettiest highways in the city. There has been some complaints that the roadbed is graded too sharply, but the city engineer is of the opinion that it will soon settle down and be alright. However, it was decided to put some gravel along the sides and have the roadbed rolled again. Some improvements will be made to the drainage on the north side of Weller street as the ditch has been blocked in several places. The obstructions will be removed and then it is is expected everything will be alright. Some gravel will be put on at the corner of Weller and Park streets. Proceeding towards the north the party came to the point where a new bridge has to be built on London street, west of Park. First however, a stop was made at McDonnel street, and it was decided that something would have to be done to improve the roadbed along McDonnel street west of Park. The road lies close to the street railway tracks and is in a very rough condition. It will be improved as soon as possible.

THE DOWNIE-ST. CREEK.

At Dublin street an inspection was made of the famous Downie street creek diversion and the bridge recently constructed on Dublin street was examined. Considerable time was spent here as the further diversion of the creek is a matter which will come up shortly. The aldermen went over the ground thoroughly in order to get a good understanding of what the conditions are.

On Reid street, north of Smith, it was found that the new sewer was nearly completed and that the work had been done in a very satisfactory manner.

AT THE NORMAL SCHOOL.

The new Normal School next came in for consideration and some time was spent there going over the ground and discussing the best location for the sewer. Incidentally it may be stated that the new school is a handsome, commodious building and that good progress is being made on the work of erection. The location is excellent, the only objection being that it is somewhat removed from the centre of the city.

Leaving this part of the city the inspection party travelled across the Smith street bridge and down Ross street from Nicholls Oval to Ashburnham. The extension of Ross-st. to the Oval, the land for which was donated by the Nicholls estate, has been graded and put in good shape. It makes a big improvement and "certainly was needed," as one alderman remarked.

ASHBURNHAM CREEK.

The work of diverting the Ashburnham creek was next inspected and it was found that it would be completed in a few days. Foreman Tivey has a large gang of men at work and they have made excellent progress. A large underground drain runs from the river towards the east for several hundred feet, but the last part of the diversion will be open. This latter part is now being dug.

TO THE LIFT LOCK.

The fine grading on the road leading to the lift lock was also commented upon most favorably. The road has been cut right through the big hill, the cut being ten feet deep at some places and the sides have been nicely graded. The improvement is most pronounced and one is not likely to hear anything more about the bad condition of the road leading to the lift lock. This thoroughfare is now one of the best in the city.

Before leaving east city an inspection was made of the new sewer being put in on Rogers street, connecting with Hunter. At the intersection with Hunter street the sewer is 19 feet below the surface and those who are working on the job state that it was one of the most difficult pieces of sewer construction ever done in Peterborough. It is nearly completed now, however, and no doubt will be greatly appreciated by the residents of the street.

ROMAINE-ST. SEWER.

Leaving east city, the party were driven to the south end where the Romaine street sewer was inspected. It is working quite satisfactorily. The only place where the flow is not as fast as it should be is in the portion near the school, but it is expected that this will be alright once the sand is washed out.

This ended the tour, it being nearly six o'clock. The return home was made by way of Park street where several minor repairs have to be made. The new granolithic sidewalk along the east side of the street is about completed.

The trip was made in Mr. R. Gibbs' bus, the teamster being Mr. E. Lawrence.

It was noticed during the tour that the streets where sewers had been put in have been left in much better condition than was often the case in past years. This action is indeed commendable.

St. Luke's Church Harvest Festival

Will be Observed This Evening—Rev. Dr. Farthing Will Preach

The annual harvest festival of St. Luke's church will be observed this evening. The pretty edifice has been tastefully decorated with the products of the farm, field and garden. Special music will be rendered. The preacher will be the Very Rev. Dean of Ontario, Rev. Dr. Farthing, of Kingston. He is one of the foremost divines in the province, and St. Luke's church this evening will doubtless be filled to the doors with worshippers, who will participate in the glad and impressive service of thanksgiving.

Goes to Dundas On Saturday

Mr. Bert Cameron, the fast outside wing man, goes to Dundas on Saturday, and will be on the line of the pigskin artists in the Valley Town this season. Mr. Cameron seems to like Dundas, and Dundas seems to like him. He is one of the gamest and steadiest outside wings in the business.

Busy Stringing Telephone Wires

Communication Being Established Between Drummond's and Lakefield

A gang of twenty men, under Mr. Levi Binkley, are stringing wires between here and Drummond's Station, a distance of seven miles. The work is not progressing as rapidly as could be hoped for, owing to the scarcity of materials. It is expected that it will be completed in about two weeks. The operations are under the supervision of Mr. Ernie Bruce, the Bell Telephone Company's superintendent. The connections are being made for the purpose of establishing telephone communication between the clay beds at Drummond's, from which the Lakefield Portland Cement Company are obtaining clay, and the offices of the Company at Lakefield.

Formal Opening of Peterboro's Palatial Departmental Store

Will Take Place To-morrow Evening--The Artistic and Attractive Business Home of Mr. A. W. Cressman---Bright, Beautiful and Modern in Every Respect—How "The Store That Never Disappoints" Has Won its Commanding Position in the Confidence and Esteem of Great Purchasing Public.

Tomorrow evening at the hour of seven o'clock, Peterborough's attractive and spacious departmental store will be thrown open to the public, complete in every particular.

This extensive mercantile establishment, under the direction and foresight of its wide-awake proprietor, Mr. A. W. Cressman, has during the past three months, been undergoing extensive alterations.

Tomorrow will not only mark the grand re-opening of this elegant and admirable business house, but it will also signalize the ninth anniversary of Mr. Cressman's splendidly successful business career in the thriving and go-ahead city of Peterborough.

Carpenters, plasterers, bricklayers, painters and glaziers, have all been at work, and wonderful has been the transformation, marvellous the effect produced.

"The store that never disappoints" will prove a pleasing revelation to its many patrons and friends, who will scarcely recognize the former premises, so sweeping have been the alterations, and so admirable the appointments and equipment.

It is now one of the most complete, up-to-date and palatial retail houses in Canada. Words do not convey an adequate conception of all that has been wrought. The eye must rest upon the transformation and extensions, the superb re-arrangements and conveniences that characterize the premises throughout, which stand as a monument to the genius and foresight, the enterprise and energy of the esteemed proprietor, who has faith in Peterborough, and believes in giving the city a departmental store, which may be pointed out and visited with every sense of pride and satisfaction.
first began business in Peterborough.

It is nine years, since Mr. Cressman His watchword has been "Progress"—Staring on a modest scale, so steadily has this business increased that each successive year, more floor space has been required, and now his premises constitute one of the largest mercantile houses in the province. His motto has been "Onward and upward." Each year his volume of trade has greatly increased, until now four floors are occupied, and what formerly comprised three large stores, has been converted into one—magnificent in proportion, admirable as to lay-out, and most inviting and artistic in appearance.

Mr. Cressman's immense business has not been built up in a day. He has surrounded himself with a bright and capable staff; he has constantly added new lines, and incorporated new ideas. He has kept abreast of the times and has supplied the purchasing public with a wide variety, and carefully selected stock of goods, purchased from the world's leading centres. He has been a liberal patron of printer's ink; he has inaugurated many new departures and has faithfully lived up to the reputation of his splendid and admirably conducted establishment as "The Store that Never Disappoints."

He has struck out on original pathways and has never faltered in a step once taken. He has implicit confidence in the great buying masses and his relations with his thousands of patrons are extremely pleasant, being based on mutual confidence and co-operation.

Today "The Store that Never Disappoints," occupies just nine times as much flooring space as it did nine years ago.

Today, so rapid has been the growth of the business that seventy persons find steady employment on the premises; nine years ago there were only sixteen.

These figures certainly tell an interesting and impressive story—a tale of progress and achievement, of expansion and development.

A few months ago Mr. Cressman acquired the lease of the premises occupied by Mr. John Nugent. This has added greatly to his ground floor space. The intervening wall has been torn down. The premises were not only extended at the rear, but completely overhauled and modernized. The Semi-ready Clothing and Gentlemen's Furnishings department now occupy those spick and span quarters.

What particularly appeals to the visitor on entering this store, is its exceptional brightness. Nowhere in in the building is it dark. Brightness is one feature that customer's particularly desire, that they may see to advantage the goods they are purchasing. New prism lights have been put in over the windows, which is a great improvement. The solid plate glass front arrests the attention of all. The front and side windows, have a light, airy, cheerful appearance, polished brass rods, forming the junction. The beauty of the various entrances is enhanced by splendid specimens of tile flooring, in which the word, "Cressman's" is artistically displayed in colored letters.

The entire establishment is heated throughout by steam and thus the comfort of the employees and patrons, is assured.

There are three entrances to the store, one leads to the men's furnishing and Semi-ready clothing department and the other two into the main building. The show windows are spacious and display the goods to fine advantage.

MEN'S DEPARTMENT.

The men s department is one of the most important and any young man who cannot be satisfied here in the way of toggery would indeed be hard to please. It is certainly the spot for the young men who are particular as to their appearance.

The fittings in this department are most modern and are the style that is adopted by up-to-date haberdashers. The wall cabinets are certainly a step in advance of anything yet seen in this city. By these a customer may enter the store and pick out what he wants without the aid of a clerk. The drawers open out and the neckwear is conveniently displayed for the inspection of the caller. Silent salesmen also exhibit the goods to advantage. The Semi-ready suits and overcoats are kept in neat wardrobes which is the distinctive feature of all stores keeping the celebrated Semi-ready brand of clothing. In this department also is kept men's stylish high-class footwear. Mr. Cressman has the exclusive agency for the famous "Foot-Rite" shoe, and incidentally it might be stated that he has the exclusive agency for many novelties in this department. The complete and varied line of goods in stock is in keeping with the up-to-date store. The lay out of men's toggery can nowhere be excelled.

DRY GOODS DEPARTMENT.

The dry goods department is situated on the ground floor and the various classes of goods are shown at separate counters. Here too a number of silent salesmen display the materials to decided advantage.

In the centre of the floor is a circle of silent salesmen showing ribbons, laces, etc. There are over 100 feet of illuminated silent salesmen and at night they make a very pretty display. Every department is conducted by a special clerk who devotes all his or her time exclusively to each department.

LADIES' READY-TO-WEAR.

A visit to the second floor reveals one of the most fashionable and up-to-date of show rooms. Here may be seen all the latest and nattiest designs and effects in ladies coats, millinery and footwear. Mr. P. J. Rowan, formerly of Toronto, has taken charge of the "Dolly Varden" shoe department—the exclusive shoe for women. Beautiful new show cases have been placed in the millinery department and cosy private departments have also been fitted up for ladies who wish to try on hats.

The "rest room" on this floor is something new in Peterborough stores. It is equipped with tables and easy chairs, and is a convenience that will be appreciated by shoppers.

CARPETS & HOUSEFURNISHINGS.

House furnishers or young people going housekeeping when paying a visit to the third floor of this store and inspecting the excellent line of carpets and housefurnishings will be charmed and delighted. Mr. J. Titterson has charge of this department. On this flat is situated the advertising department conducted by Mr. J C Edwards, who has a neat private office for show card writing and advertising.

BARGAIN ANNEX.

The Bargain Annex of Mr. Cressman's business was instituted nearly two years ago, in order to dispose of remnants and special lines, but since its inception it has grown to such proportions that it has now become a permanent adjunct under a competent buying manager. This department is situated on the fourth floor and is open every Wednesday.

NEW CASH SYSTEM.

An entirely new cash carrier system has been installed throughout the whole building, each department being connected with the main office on the ground floor. Telephones have also been placed on each floor. Special attention will be given to mail orders and this department has grown at a rapid rate.

DELIVERY OF GOODS.

Prompt delivery of all goods purchased at this store is another important feature of the splendid system. Three delivery waggons will be placed at the disposal of customers. A special parcel counter with a lady in charge is fitted up for the checking and delivery of all parcels.

The entire building has been repainted and re-papered and presents a bright, attractive appearance. This up-to-date store is an evidence of the enterprise and progressiveness of Mr. Cressman as a business man.

An orchestra will also be in attendance to-morrow, Friday night, as well as Saturday evening and hundreds of citizens will doubtless flock to the great store to inspect the magnificent displays in all lines and witness what has been accomplished by Mr. Cressman in affording the citizens of Peterborough a splendid object lesson in a great, attractive and spacious departmental store. Every one will be made welcome and a visit cannot fail to be a source of infinite pleasure and delight.

The contract for the alterations and extensions of "The Store that Never Disappoints," were carried out in a prompt and most workmanlike manner by Ald. W. J. Johnston, the widely known contractor.

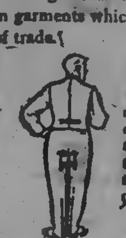
Semi ready
"The Signet of Surety"

If you want style, and want it to last, be sure you get all-wool fabrics which are fashioned to shape by needlework—the only permanent shaping.

The way to be sure is to find the "Signet of Surety"—it is the Safety Trade Mark—a small thing to look for but a big thing to find.

Helps to success of the Semi-ready system of tailoring have been the knowledge that honest goods and honest prices must prevail in garments which appeal to the better class of trade.



If you can't call send for a self-measurement blank, and order one of our Blunce Serge Suits at $20. They will be $24 very soon. Brindlebloom Serge Suits $25. Chesterfield Overcoats $20.

Cressman's

Peterborough

BUILDING BY-LAWS

This has been a satisfactory building season in Peterborough, in spite of the increased cost of material and of labor.

So far over $650,000 in building permits have been issued, and this promises to constitute a record among the smaller cities of the province. It demonstrates that the people have not lost faith in the great future which awaits Peterborough. After all, the best index to a city's material growth, is in the extent of the structural operations. The building bylaws of Peterborough have been revised and improved, but there is still room for more alterations. Greater stringency could profitably be exercised. The inauguration of the building permit system was a decided improvement. It has enabled the city to keep tab on what is going on, to easily ascertain what sections are growing the most rapidly, and along what particular lines the most advancement is being made.

The examination of the permits shows that a superior class of houses is being erected and that many residents are erecting dwellings for themselves in various quarters of the city. The improved character of the structures and the regulations pertaining to thickness of walls, etc. cannot fail to have a beneficial effect, which will in time result in less fire hazard, and it is hoped in a reduction of present fire insurance rates.

The average fire loss in the United States is said to be more than $2 per head of the population, as compared with only one-third of a dollar in six of the leading European countries. The difference is ascribed ot less rigid enforcement of the building laws. It has an effect on the cost of business in the United States and Canada. There is a lesson to be learned from the foregoing and the day will yet dawn when fire losses in Peterborough, small as they have been in the past, will be even less. Insurance rates will take a decided drop. But that day will not arrive until the building bylaws are thoroughly revised, the fire limit area extended, and rigid enactments as to the inspection of electric wiring, etc., carried out in a strictly impartial manner.

PEN POINTS

Have you joined the Canadian club?

If milk keeps advancing in price it will soon be dearer than coal.

How do you like the site for Peterborough's new isolation hospital—the third story of the city hall.

A week from to-day Peterborough's big fall fair will be in full swing. It promises to be "the greatest ever."

Some of the aldermen received a rude jolt yesterday while driving over the back streets.

"Six in New York," which appears at the Grand opera house on Saturday night is not a companion play to the "Bad Boy in Peterborough," as dramatized at the police court nearly every day.

Some people complain that picture postcards which they get through the post office, are spoiled by being tampered on the face. Is this necessary? If not it would be a favor to many people were the practise stopped.

Mr. Borden's tour in Ontario was a pronounced success. His reception at every point was most enthusiastic. His platform was universally approved and large crowds flocked to hear the talented chieftain, who stands for the moral elevation of public life, national ownership and civil service reform.

The Windsor Record says that it costs between one and two cents a quart to produce milk on the farm. There are a good many people in this neighborhood, says the Hamilton Spectator, who would be exceedingly grateful to the Record if that journal would kindly show them how it is done. Sure. And why doesn't the Windsor Record include the cost of water in its reckoning? Water costs something, especially in a dry season.

The News That Interests Keene

Personal Items From the Hub of Otonabee

Keene, Sept. 17.—Dr. V. H. McWilliams and Mr. J. R. McIntyre spent Sunday at Burleigh Falls.

Confirmation services were held in the Catholic church Sunday. Bishop O'Connor officiated.

Mr. F. M. Dean spent Sunday in Campbellford.

Mr. A St. A. Smith and Mr. Harry Smith visited friends in Peterborough Sunday.

Miss Aggie Campbell left Tuesday for Ottawa where she will attend Normal school.

Mr. Porter, Peterborough, spent a few days last week in the village, the guest of Mr. Harry Smith.

A tea meeting and concert will be held Friday in Villier's school, the proceeds of which will be applied towards the library fund of the Villier's Sabbath school.

Mr. Milne, Toronto, is the guest of Mr. John Moore.

Mr. P. T. Pilkie is visiting in the village.

Mr. and Mrs. George Hunter are visiting friends in Percy township.

Mrs. James Weir, Berlin, is visiting at Mr. Robert Weir's.

Mrs. Archibald Davidson, is visiting in the village.

Mr. Keir of Villier's, left last week for British Columbia.

Dr. and Mrs. Lawreson and family are visiting at the home of Mr. and Mrs. Richard Short.

Mrs. Pearse, Peterborough, is visiting in the village.

Mr. Bruce McFee left this week for Ottawa to attend Normal School.

Rev. Mr. Menzies of Point Aux Trembles, Presbyterian Mission School, preached Sunday in the Presbyterian church and also spoke in the Christian Endeavor Society meeting in the evening. Mr. Menzies is spending the week in the vicinity, and has secured a considerable sum of money in subscriptions for the schemes of the French Evangelization Mission.

A number of Indians from Alderville Reserve are camping on Sugar Island and gathering wild rice.

Mr. J. C. Read attended the Borden meeting in Peterborough Wednesday.

Mr. and Mrs. Esau Tucker, and Mr. and Mrs. Z. Tucker, Apsley, visited relatives in Keene last week.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

AMUSEMENTS

GREAT PLAYS.

The following great plays will be presented by the Summers Stock Company during their week's engagement in the Grand Opera House, which begins Tuesday, Sept. 24th:—"The Price of Silence," one of the grandest melodramatic comedies in contemporaneous stage literature. "A play with a purpose," exceptionally strong in comedy and sensation. Miss Stevenson and Mr. Smithers will appear at their best in this production. "The Brixton Burglary," a famous farce of the refined order, full of laugh-provoking complications that fairly convulse the audience. It ran for two solid years in New York. "Her Lord and Master," a play that tests the capacity of every theatre where it is produced. A dramatization of Charlotte M. Braeme's great novel. Fine costumes and stage settings. The feature play of our repertoire. They also produce "A Bachelor's Honeymoon," "New England Folks," "The Root of All Evil," "Hazel Kirke," "Marrying Kitty," and other successes. They carry a special baggage car full of scenery, costumes, and effects to properly produce the above plays. Opening production, "His Other Wife."

PETERBOROUGH RAG AND METAL COMPANY

D. FLORENCE & SON

ZAM-BUK SAVED THIS BABY

Mrs. M. Barrett, 602 Moreau St., Montreal, says:—"A horrid rash came out all over my baby's face and spread until it had totally covered his scalp. It was irritating and painful, and caused the little one hours of suffering. We tried soaps and powders and salves, but he got no better. He was so fretful all day long that it made it very hard for me. He refused his food, got quite thin and worn, and was reduced to a very serious condition. I was one day advised to try Zam-Buk, and did so. It was wonderful how it seemed to cool and ease the child's burning, painful skin. He gradually became more easy and able to sleep. Zam-Buk from the very commencement seemed to go right to the spot, and the pimples and sores and the irritation grew less and less. Within a few weeks my baby's skin was healed completely. He has now not a trace of rash, or eruption, or eczema, or burning sore. Not only so, but cured of the tormenting skin trouble, he has improved in general health. He has got fat and plump, weighs no less than 32 lbs., although only 7 months old, and is in first-class condition."

Zam-Buk is sold at all stores and medicine vendors, [illegible], or post free from Zam-Buk Co., Toronto, [illegible] price, 3 boxes for $[illegible].

CURES HEAT SORES, ITCH SUMMER ECZEMA, CHAFED PLACES SORE FEET, SUNBURN, STINGS, Etc.

Bright Prospects For Havelock

Cheap Power for Factories—Colony of Beaver Near Village

Havelock, Sept. 18.—That Havelock may become a very important manufacturing town in the near future is a prophecy that is likely to come true. Following upon the news that the Northumberland-Durham Power Company will build an electric power line to Havelock, comes the important notice that the Havelock Electric Light and Power Co. have made a very important addition to their property, which will supply about 800 horse power. The company have just completed the purchase of 100 acres from Mr. Thos. Taylor, of Belmont, at Taylors' mill. The purchase also includes Mr. Taylor's residence, mill and water power privilege.

By the erection of a dam and power house at Taylor's mill, which is situated on North River, near Belmont Lake, about nine miles from Havelock, the Electric Light Company will be able to develop between 700 and 800 horse power, and, thus being able to furnish lights for the village at a cheap rate, they will be in a position to furnish cheap power to manufacturers who wish to locate in Havelock. One thing that will allow the power to be cheap is that only about two miles of poles need to be laid, as they can join the line from burnt dams, which is owned by the Electric Company.

COLONY OF BEAVERS.

A very large colony of that very rare animal, the beaver, have been discovered between Round Lake and the North River bridge, about six miles north of Havelock. Steps are being taken to protect these most interesting and scarce animals from the gun of the hunter. The penalty for shooting beaver is very heavy, and an infraction of the law will be closely followed by the authorities in this district.

Mr. R. Lees, P.S.I. for Peterborough County, was in town on Wednesday.

Mr. Ben Chambers has left on a trip to the Pacific Coast.

Miss Maud Wagar is spending a few weeks with friends in Toronto.

Misses Stella and Dollie Voyer have returned from visiting friends in Detroit.

Messrs. Jas. Thompson and S. S. Joyce, of town, and Mr. John Anderssmith, of Belmont, attended the Borden mass meeting in Peterborough on Wednesday.

TO QUASH BY-LAW.

There is considerable talk among the Old Havelock citizens of quashing the recent school bylaw to raise $4,000 to build an addition to the school because because they did not have a vote on it. At the time the bylaw was voted on the Old Havelockers were in the Belmont school sections, and could not vote on it, and three days afterwards they were brought into the Havelock school section, and will now have to pay taxes on the new school when they had nothing to say on the matter of whether it should be built or not. Both the Havelock and Belmont councils are quite satisfied with the new arrangements.

Contractor James Scott leaves on Monday to erect a $7,000 dwelling for the manager of the Delora mine.

Mr. Harry Toman is on a few weeks' trip to the Pacific Coast.

Miss Lillian Campbell, of Toronto, spent last week the guest of her mother, Mrs. Jas. Campbell.

Mr. Bruce Brooks, of Norwood, spent Saturday in town.

Mr. and Mrs. W. J. Boyd are visiting friends in Montreal.

Miss L. Bennett has returned after a two weeks' visit with friends in Ottawa.

Mrs. (Dr.) Jas. Holdcroft and family have returned from their summer cottage at Kosbabogamog Lake

Mr. A. B. McGuire has returned from visiting friends in Woodstock.

The total immigration to Canada from April to July inclusive was 153,-000.

REVIEW LETTER BOX

GATES ARE NEEDED

To the Editor of the Review.

Sir,—I believe the time has come when gates should be installed on the Reid and King street crossings of the Grand Trunk Railway.

These level crossings are dangerous and many mishaps of a serious nature have narrowly been averted at these points. It is time the city council took up this matter, or else one of these days there will be a fatality to record.

Yours, etc.,
WARNING.

Peterborough, Sept. 19, 1907.

WHATS THE DIFFERENCE?

To the Editor of the Review.

Sir,—I see that complaints are made about boys playing baseball in the south end of the city on Sunday. I would like to ask, sir, if there is any more harm in the boys doing this than there is in their seniors indulging in golf on the Lord's day? I drove by the links last Sunday afternoon and noticed fully a dozen adults, golf sticks in hand, having a "quiet" game.

The difference between Sunday baseball and Sunday golf appears to me to be one only in the size of the players.

Yours,
OBSERVER.

Peterborough, Sept. 18th. 1907.

WEDDING BELLS

BARRIGAN—MARCHAND

A quiet wedding took place yesterday afternoon at the Charlotte street Methodist church Parsonage, when Mr. Wm. Barrigan, of Havelock, was united in marriage to Miss Mary Merchand, of Hastings. The ceremony was performed by Rev. E. A. Pearson, of George street church, who officiated in the absence of Rev. H. M. Manning, of Charlotte street church, who is on his holidays.

Pretty Decoration of Autumn Leaves

Handsomely Dressed Windows of R. Hall & Son Attracts Attention

The fall opening of Peterborough's up-to-date dry goods stores, are attracting a great many ladies to see the beautiful display of fall goods and millinery, that is being shown. It is a time when the show windows are arranged in all their splendor and are particularly inviting to ladies to come in and inspect the newest things.

The windwos of Richard Hall & Sons are exceedingly pretty, and throughout the whole store, autumn is suggested. Leaves tinged with red and yellow, are the predominant features of the decorations. The whole store presents a very bright and attractive appearance. The south window is very prettily arranged. Grape vines and clusters of green and blue grapes are hung artistically on a lattice work of gold. The grape leaves have turned a golden shade and leading up to the vines is a ladder on which a doll represents a little girl, as standing, picking the fruit. The new millinery is shown in this window.

In the next window are three golden prongs on which are strung bunches of foliage. Here are displayed the new fall mantles. In the north window, little saplings with grape vines form a very artistic arbor. The beautiful draperies and carpets are shown in this window.

Mr. H. C. MacDonald is the window dresser for R. Hall & Son, and the showing is certainly a credit to his ability and originality as a decorator.

LOCAL TEACHER IS BEREAVED

Mrs. Bauer, Mother of Miss Bauer of Collegiate Staff, Passed Away in Hamilton

Many Peterborough friends will extend sympathy to Miss Bauer of the local Collegiate Institute staff in the bereavement she has sustained by the death of her mother. Mrs. Bauer passed away in Hamilton on Friday after an illness of somewhat long duration. Miss Bauer was in Hamilton several days before her mother passed away, and has not yet returned to Peterborough. Miss McConnell is supplying at the Collegiate during her absence.

During his stay in London the Bishop of London will be the guest of Bishop Williams.

Thomas B. Wright, of St. Thomas, ex-Alderman, died on Monday, aged 75.

A BUSINESS VISITOR

Mr. Glass a Scottish Traveller Calls on Firms Representatives Here.

Mr. Glass, representing the Jas. Templeton Co., of Glasgow, Scotland, was in the city yesterday, and paid a visit to the firm of Richard Hall & Son. The Jas Templeton Co., manufacture rugs and carpets, and their goods are looked upon as the best that is turned out. Mr. Glass is making a trip around the world and having heard of Peterborough decided to visit it and see the great lift lock. While here he called on Mr. Hall and took occasion to congratulate him on the immense amount of business done for them in this city. Mr. Hall is the exclusive buyer of this company's goods. The firm sell in China, India, and South Africa.

FOUND.

A boy's blue velvet cap with white dots on it, is awaiting an owner at the police station.

LINDSAY FAIR.

Lindsay fair opened today, and terminates on Saturday night. A number from Peterborough are in attendance.

MAKES ASSIGNMENT

B. Y. Moyes, dry goods and fancy goods store, at 817 Queen street west, Toronto, formerly of Peterborough, assigned to Mr. Osler Wade, assignee, on Thursday. The liabilities are about $10,000.

TO WORK ON NEW DAM.

A gang of about fifteen Italians arrived in the city yesterday form outside points to go to Buckhorn to work on the construction of the Buckhorn Dam, for which Mr. D. Conroy, East City, has the contract.

BEATS THE BAND

"That scarlet fever case certainly beats the band," remarked a citizen when he heard that the musicians were removing their instruments from the band room on account of the isolation hospital at the city hall.

BIBLE STUDY RALLY

A Bible study rally will be conducted at the Y.M.C.A. on Sunday afternoon next at 4.15 o'clock. Rev. Elmore Harris, D.D., of Toronto, will be in charge. All are cordially invited.

PLEASE LEAVE UNIFORMS.

Only a few members of the 24th Field Battery have turned in their uniforms up to the present time. Those who have not yet done so are requested to leave them at once at either Lieut. Leary's, at Storey & Leary's, Water street, or at Mac's Cigar Store, George street.

BOARD OF TRADE.

A meeting of the Manufacturers Committee of the Board of Trade was held last night to discuss matters of interest in connection with the welfare of a well-known local industry. A sub-committee was appointed to deal with the matter and report at a future meeting.

HAS GONE TO DETROIT.

Mr. Frank Steele, who has been a resident of this city for 16 months, being employed for some time past at McCollum's livery barns, left this morning for Detroit, where he has secured employment at the livery stables, conducted by Mr. Fred Wood of that place. Mr. Steele will act in the capacity of manager of the Wood's stables.

A BIRTHDAY PARTY.

The many friends of little Miss Olive Kennedy will be pleased to know that she has so much improved from her serious illness as to be able to go out for an hour's drive with Miss Lundy of east city, to celebrate her eighth birthday. On the same evening, Tuesday, September 17th, she gave a party from four to eight p.m., to about twenty of her little friends. Those present were Misses Rhea and Jean Potter, Gladys and Grace Patterson, Alberta and Pearl Rehill, Maggie and Josie Moroney, Grace Stephens, Elsie Parks, Phyllis English, Merrel Cornell, Greta Lever, Hazel Fanning, Cora Peters, Thelma Darke, Pearl Armstrong, Olive McKinley, and Myrtle Kennedy.

MANLEY VS. MANLEY

Judgment Delivered Confirming Agreement Between the Adults.

The following of local interest appears in today's Osgoode Hall reports:—

Manley vs. Manley.—R. E. Wood (Peterborough), for plaintiff, moved for judgment pursuant to agreement between the adults. F. W. Harcourt, for infant, and adult defendants. Judgment confirming the agreement and sanctioning the sale of the farm for $5,300. The debts to be paid out of the proceeds, and the balance to be paid into court; $100 per year out to mother for maintenance of infant. Costs of all parties out of the estate.

The funeral took place to-day on the arrival of the 11.45 G.T.R. train to the Little Lake cemetery.

Immigration Work of Salvation Army

Staff Captain Creighton of Kingston, who is connected with the immigration work in Canada of the Salvation Army, was in the city yesterday and had a conference with Adjutant Wiggins and the local officers. He will shortly leave on a visit to England. Staff Captain Creighton says that the Salvation Army expects to bring out 25,000 people to Canada next year from the Old Country. Col. Lamb, head of the work in Great Britain, is at present in Canada on business.

Fall Fair of North Victoria County

Mr. J. H. McClellan attended the fall fair of North Victoria county held at Victoria Road yesterday. He with a number of others took the "Bob Hall" at Portage Road where Grass River enters the canal and sailed down the stream a distance of four miles to the fair grounds. They made the four miles in half an hour. The Woodville brass band welcomed the visitors. Over two thousand people were on the grounds. The president of the North Victoria Agricultural Society, Mr. Taylor, officiated as chairman and among those who spoke were Messrs. R. J. McLaughlin, T. Stewart, S. J. Fox, M.P.P., of Lindsay, E. Weeks and Reeve Grant, Woodville, and J. H. McClellan. The fair was a great success from every standpoint.

Flour is Still Higher in Price

Flour is now $5.95 per barrel wholesale and $5.35 per barrel for bakers strong. This is a decided jump in price and local merchants say the market is firm.

BASKETBALL

The Arrows did not practise last night, but will hold a practise on Tuesday next at seven o'clock.

TURF

The Lindsay Fair opens today and promises to break the records of all exhibitions held in the Scugog town. Some Peterborough horses will start in the speeding in the ring events.

North End Family Have Strange Pet Chained Up in Back Yard

Neighbors are Not Altogether Pleased With the Presence of the Animal and are Complaining.

People's tastes as regards pets differ widely, but a family who live on the Douro road, near Auburn, have something in the pet line that is somewhat unique. It is nothing more or less, than a skunk, an ordinary black and white striped skunk, and furthermore, this same skunk is regarded by the neighbors as a somewhat of a nuisance, and complaints about the presence of the animal are becoming frequent.

The skunk is tied up in the back yard and has been there for about three weeks. What methods were adopted to capture the animal are not known, but anyway it seems firmly attached to the place — by means of a chain.

The neighbors state that the odor that sometimes emanates from the backyard domicile of the strange would-be pet is not of the most pleasant kind, and considerable complaining is being done. The animal, since it was placed in captivity has had considerable territory to itself as no one seems very anxious to approach within speaking distance.

New Physical Director For Peterborough Y.M.C.A.

Mr. C. H. James, of This City, Gets the Position—Is Highly Recommended.

Mr. Evert Dingman will be succeeded as physical director of the Y.M.C.A. by Mr. C. H. James, who is well qualified for the position. Mr. James has been a resident of Peterborough for the past year, and a half, coming here from the Old Country, where he had considerable experience, as a physical director. His appointment was made at a meeting of the Y.M.C.A. Board of Directors last night and he will take charge of the physical department about October 1st.

Mr. James was a teacher in the Sandon school of physical culture of London, Eng., and also instructed the boys at Eton and other colleges. He

House Work
Need Not Wear Her Out

The drudgery of house work seems never ending to tired-out, dispirited women who suffer from female complaints or irregularities. Inflammation and ulceration cause fearful bearing-down pains which are aggravated by much standing on the feet, and lifting necessary in house work.

But let no woman despair of relief from this torture. That famous tonic reconstructor of diseased or disordered female organism.

Lydia E. Pinkham's Vegetable Compound

has cured more than one million American women, and it will cure you. When troubled with painful irregularities, when backaches and headaches drive out all ambition, Lydia E. Pinkham's Vegetable Compound will bring back health, strength, and happiness.

It Made Me a Well Woman

Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has done more for me than doctors or medicines. I suffered for four months with suppression of monthly periods. Headaches were a daily occurrence. Pains in my back and limbs made it hard for me to attend to my domestic duties.

The medicines I had taken did not help me, and I was in misery and despair until one day I read an account of your Vegetable Compound, and decided to try it, and I thank God that I did so, for it not only regulated my monthly periods, but made me a well woman.

MADAME CAROLINE MARTINEAU, 33 La Chapelle St., Quebec, Que.

Do not let disease make headway. Write at once to Mrs. Pinkham, Lynn, Mass. Her advice is free and will contain information of great value to you. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction and since her decease, she has been advising sick women free of charge.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

Grand Trunk Engineer Goes To Prison for Nine Months

Penalty For Disobeying Rules and Causing Fatal Wreck.

Judge Disregards Thompson Case—Says Engineer Not a Criminal—But Public Must Be Protected—Sentence Reduced by Three Months—Counsel Contended Orders Were Wrong—Goes to County Jail.

Guelph, Sept. 20.—Engineer Mark B. Reid, who was in the collision at Gourock, where three men were killed, was found guilty on the charge of breaking the rules of the G. T. R. and was sentenced to nine months in prison.

Justice Anglin expressed regret at having to deliver judgment, but it was a duty imposed upon him, and he could not escape it.

He originally intended to sentence him to one year, but, taking into consideration that the accused had already suffered mentally and physically, and had lost his position, he had decided to reduce the sentence by three months, and he would see if he could not be confined to the county jail instead of being sent to the Central and herded with criminals, amongst whom the prisoner certainly did not belong.

Reid was visibly affected.

Thompson, the conductor, sentenced to three years, was released from the penitentiary after serving nine weeks, and it is expected Reid will also be paroled before long.

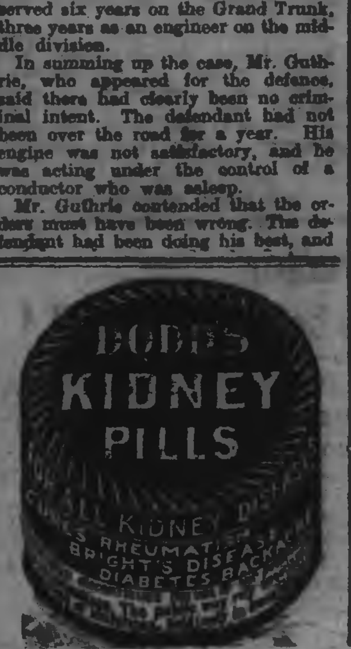
Reid, who lives in Hamilton, has served six years on the Grand Trunk, three years as an engineer on the middle division.

In summing up the case, Mr. Guthrie, who appeared for the defence, said there had clearly been no criminal intent. The defendant had not been over the road for a year. His engine was not satisfactory, and he was acting under the control of a conductor who was asleep.

Mr. Guthrie contended that the orders must have been wrong. The defendant had been doing his best, and had been forced to stay too long on duty.

"In making my decision," said his lordship, "the Thompson case and the decision rendered there has been disregarded."

In order to keep him clear of criminal association the term was not made in Central Prison.



MUST STRAIGHTEN CURVE.

Inspector Makes Report on Disaster at Caledon Horseshoe.

Ottawa, Sept. 20.—The Railway Commission inspector, John McCall, has made a report upon the Caledon disaster.

He says the accident was caused by the high rate of speed at which the train was running on a sharp curve.

If this curve is not straightened out then the board will likely order a change in route.

Irish Face on U. S. Coins.

Harrisburg, Pa., Sept. 20.—The Independent Order of Americans in annual session here has adopted a protest against the proposed placing of the face of Miss Mary Cunningham, an Irish born girl, upon the United States gold coins, and has authorised the state councillor to forward the protest to the United States Government at Washington.

The new coins were designed by St. Gaudens, who modeled the face thereon from Miss Cunningham, a pretty Irish waitress.

New Monster Battleship.

Portsmouth, Eng., Sept. 20.—The plans of the Admiralty for a new and larger vessel of the Dreadnought class have been received at the construction department here, accompanied by orders to commence building the warship immediately. The displacement of the new vessel will be 19,250 tons. The ship here will be launched before the one to be built at Devonport, orders for the construction of which were announced Sept. 18.

Meet Again at The Hague.

The Hague, Sept. 20.—The heads of the various delegations present at the International Peace Conference yesterday adopted this resolution:

The conference recommends to the powers the convocation of a third conference within a period similar to that which elapsed between the former conferences, leaving the exact date to be fixed in common accord by the powers.

Killed Waitress; Shot Himself.

New York, Sept. 20.—Johanna Haefer, aged 23 years, a waitress in a Tenth avenue bakery, yesterday was shot and instantly killed by John Fischner, a former employe of the store, because she had refused to marry him. Fischner then shot himself and was removed to a hospital in a dying condition.

PLATE WASN'T CRACKED.

Workman Was Mistaken in Regard to Quebec Bridge.

Quebec, Sept. 19.—Yesterday Raoul Lafrance, one of the witnesses heard by the commission on the collapse of the Quebec bridge, located pursuant to instructions at the scene of the wreck the steel plate, which he declared was cracked before the disaster. Upon examination it was found that the plate contained no crack at all. Nor was any to be found upon the shoe plate, which had been described by some witnesses as cracked prior to the disaster and by others as having been crimped.

While these facts assist the commissioners to clear up a good deal of the contradictory evidence, they apparently add very much to the difficulty of the task before the commissioners of ascertaining the actual cause of the disaster.

Yesterday the commissioners visited the storage yard for the bridge steel at Belair on the line of the Canadian Pacific Railway, some nine miles from Cape Rouge. Here they found nine thousand tons of steel from the works at Phoenixville intended for the north or Quebec end of the bridge and for that portion of it known as the anchor arm. The material for the cantilever arm of that side has not yet been delivered.

The commissioners also visited and inspected the portion of the structure already erected at Cape Rouge on the north side, where the disaster occurred, and as the material at Belair is also identical with that in the wrecked anchor arm the commissioners believe that they have succeeded in putting in a very useful day's work of inspection.

Have Closed Relief Fund.

Quebec, Sept. 19.—For relief of the victims of the Quebec bridge disaster $11,506 was collected. The fund has served the immediate needs of the situation and has been closed.

Illness, Worry, Suicide.

Woodstock, Sept. 19.—Catherine Sarah Howell, aged 54 years, the wife of George H. Trafley, who lives two miles east of Hawtry, committed suicide by swallowing the contents of a four-ounce bottle of carbolic acid. The rash deed was the result of worry, as the deceased's husband had been ill for a long time. An inquest is deemed unnecessary.

Boy Injured in Runaway.

London, Ont., Sept. 19.—Tuesday evening Robert Henderson, aged 14, was driving from his home in the city to Westminster, when his horse was frightened by an automobile, and ran away.

Henderson was thrown out and got entangled in the reins and was dragged 30 yards, sustaining a fracture of the leg.

Sign Arbitration Treaty.

The Hague, Sept. 19.—The general treaty of arbitration negotiated here by the delegates of Italy and Argentina to the Peace Conference, was signed in the Hall of Knights here yesterday by the delegations of the two countries.

CONFESSED HIS CRIME

But Police Thought It Was Only a Delusion.

David Glass Under Arrest at Washington—Says He Burned Two Barns and Tried to Murder His Cousin—Escaped From Jail at St. Johns Four Years Ago—Joined the United States Army.

Washington, D.C., Sept. 20.—Daniel Glass, a former resident of Canada and member of the United States Hospital Corps, who was locked up on Monday by Detective Weedon and Detective Portney, after he had confessed that he burned two barns belonging to his cousin, Frank Miller, and had attempted to murder him, while living near Roxham, Que., was re-arrested Wednesday night upon the request of the police. Additional messages from Canadian authorities had been received, requesting that he be taken into custody.

The story told by Glass of his crimes near Roxham, Quebec, and of his subsequent escape from jail at St. Johns four years ago, was not credited by the police. They believed the young man, who had suffered from attacks of nervousness, imagined he had committed the crimes alleged, but a message from Canadian officials gave information that he had told the truth. The same message also stated that the authorities would not stand the expense of returning him there for trial, and he was released.

The Canadian authorities, however, seem to have changed their minds in the matter of his return, two messages received by Inspector Boardman Wednesday night indicating that he is wanted there, and that an officer will come for him.

Upon receipt of the messages, Inspector Boardman sent word to the barracks to have the military authorities detain him. Capt. Ashford had arranged for the formal discharge of the Canadian, saying he wanted nobody in his command who was under such charges, but the discharge papers had not arrived, and Glass was still in the service. It was expected that Glass would be turned over to the police authorities yesterday, but when Detective Weeden went to get him he was informed that an enlisted man could not be extradited until he had been discharged. He will be given his discharge in about a week or ten days, and the police will then take him into custody. Meanwhile he is being kept under guard at the barracks.

WINNERS AT WOODBINE.

Marster Annexes the Dufferin Plate—Several Long Shots First.

Woodbine Race Track, Sept. 20.—Yesterday's races were well attended. The feature event, Dufferin Plate, $1,000 added, was taken by Marster, owned by J. J. Walsh. Several long shots also won. Results:

First race—Purse, $400 added, 3-year-olds, selling, 3-4 mile: 1, Muck Rake; 2, Temeraire; 3, Zelina. Time, 1.14.

Second race—Purse, $500 added, 2-year-olds, Canadian-bred, 5-8 mile: 1, Cannie Maid; 2, Excise; 3, Archie White. Time, 1.03.

Third race—Purse, $400 added, 3-year-olds and up, 1 1-16 miles: 1, Miniota; 2, Col. Jack; 3, Geo. S. Davis. Time, 1.47 3-5.

Fourth race—Purse, $400 added, 3-year-olds and up, selling, 1 mile and 70 yards: 1, Dick Redd; 2, Prince of Orange; 3, Annie Berry. Time, 1.47 4-5.

Fifth race—Brockenhurst Steeplechase Handicap, 2 miles, purse, $600 added, 3-year-olds and up: 1, Butwell; 2, Billy Ray; 3, Dawson. Time, 4.07 2-5.

Sixth race—Dufferin Plate, 1 1-8 miles, purse, $1,000 added, 3-year-olds and up, selling: 1, Marster; 2, Restoration; 3, Dele Strome. Time, 1.54.

Seventh race—Purse, $400 added; 3-year-olds and up, selling, 1 mile and 70 yards: 1, Rip Rap; 2, Marimbo; 3, Fiat. Time, 1.47.

Boy Swallows Pin.

London, Sept. 20.—The young son of Richard Christopher, accidentally swallowed a hat pin a few days ago which became lodged in the throat and has remained there since.

The child's condition has gradually grown worse and the doctors being unable to locate the pin it will be necessary to resort to an operation under the X-rays in order to locate it.

Only one operation similar has ever been attempted before in the city, but the young woman in that case succumbed to the operation.

In Debt; Committed Suicide.

St. Catharines, Sept. 20.—Loaded down with debt which he was unable to meet, Malone Frank, a young man of 27, with a wife and two children, took a dose of strychnine and died before a doctor could get to his assistance.

Charged as Pickpocket.

Ottawa, Sept. 20.—John Stanley of New York, manager for the "Blonde Typewriter Girls," a vaudeville troupe, was arrested here yesterday afternoon at the Central Canada Fair, on a charge of picking pockets.

MAY ORGANIZE THIRD PARTY.

Labor Congress Indignant at Sir Wilfrid Laurier's Supineness.

Winnipeg, Sept. 20.—The refusal of Premier Laurier to answer the urgent memorial of the Labor Congress on the question of having the Japanese treaty abrogated has stirred the labor delegates now assembled in Winnipeg.

While the convention understands that it is a matter for Imperial authority alone, they feel that the situation is so critical in the Canadian west that Sir Wilfrid could at least forecast "sympathetic" discussion. His silence has mystified the delegates and they are displaying their resentment by placing an order for to-day's executive session for the consideration of united political action by labor interests.

This means, possibly the formation of a third party and is of special interest in view of the fact that a Dominion election is approaching.

The convention yesterday by 81 to 78 endorsed the Lemieux Industrial Disputes' Act.

Cannot Abrogate Treaty.

Ottawa, Sept. 20.—"They cannot do it. That treaty was not to be abrogated for four years," emphatically said T. Nosse, the Japanese consul-general, yesterday, commenting on the Trades Congress requisition. The treaty was signed about a year ago and cannot become inoperative for three years. It would mean the reducing of Canada's trade with Japan.

FATHER AND SON DROWNED.

Bodies Found Tightly Clasped Together In Embrace of Death.

Clark's Harbor, N. S., Sept. 20.—Wednesday evening Jason Nickerson and his 10-year-old son were drowned by the capsizing of a boat in this harbor.

Nickerson, who was employed in building the Government wharf there, went after supper to the wharf in his skiff to get some log ends and took his little boy with him. Not returning in the morning, search began, and in a short time both bodies were discovered in about five feet of water. Father and son were brought to the surface clasped so tightly in each other's arms that it took quite an effort to separate them.

It is supposed the boat tipped over while taking in log ends alongside the wharf.

WOULD LIBERATE LANCASTERS.

Deputation From Wiarton to Wait Upon Minister of Justice.

Wiarton, Sept. 20.—At an enthusiastic meeting of the citizens of Wiarton, held last night, in commiseration with the fate of the three Lancasters, who were sentenced at Walkerton for routing Ag. Thomas' tent, the following representative gentlemen were appointed a committee to circulate a petition for the liberation of the Lancasters: Mayor McEwen, D. M. Jermyn, Dr. Hoka, Dr. Fisher and Gideon Cartner.

The committee will meet to-night to appoint a deputation to wait on the Minister of Justice to try and get the Lancasters out of jail.

THIRTY KILLED, MORE INJURED.

Terrible Consequences of Wreck on Mexican Central.

Mexico City, Sept. 20.—There has been a disastrous wreck on the Mexican Central Railway. A freight train and a passenger train came into collision at Encarnacion, near the City of Aguas Calientes.

Authentic reports received here say that thirty persons were killed and thirty-three sustained injuries. There are no prominent persons among the killed or wounded.

Material Is Good.

Quebec, Sept. 20.—The Royal Commission in the Quebec bridge disaster have returned to town after a strenuous day's work at the Belair yard, and at the bridge works on the north side of the St. Lawrence at Cape Rouge.

The material inspected at the Belair yards is estimated at fully 9,000 tons, all of which was inspected and all found satisfactory.

Drowned by Cloudburst.

Durango, Cal., Sept. 20.—The three young daughters of Samuel Cook were drowned by a cloudburst which filled a gulch in which they had taken refuge.

The girls entered a cave for shelter, and the gulch became filled with water, which rushed into the cave.

The water caused the roof of the cave to fall and bury the children.

STEAMER STONY LAKE OF MAJESTIC

The steamer Stoney Lake will leave Lakefield for the lakes on arrival of the morning train, returning in time to connect with 4.30 train for Peterborough.

Steamer Majestic will leave Lakefield on the arrival of the noon train, returning will leave the lakes in time to connect with the next morning's train from Lakefield.

Aylesworth Renews Attack On the Conservative Leader

Wants to Hear Hon. R. L. Borden in Cross-Examination.

Liberals of Essex Demonstration Are Startled at Violent Tone of Minister of Justice—Too Many Personalities—Matches Gamey Charges With Land Deals—Meets Scandal With Scandal.

Essex, Sept. 20.—Hon. A. B. Aylesworth was in fighting trim yesterday afternoon when he addressed the Liberals of Essex.

"Mr. Robert L. Borden," he said, "wants me to explain my connection with the Gamey case. I call upon him to explain his connection with the Lefurgey-Fowler-Pope syndicate.

Mr. Aylesworth distinctly intimated that the coming contest would resolve itself into "fighting scandal with scandal."

His attack was so violent and evidently so tinged by personal pique, that his auditors were puzzled, interested, and yet uncertain what to do. He reached the climax by stating that, although Mr. Borden might deny the personal charges brought against him in the Halifax election cases, yet he (Mr. Aylesworth) would not regard such denial as conclusive until Mr. Borden had passed through the ordeal of a cross-examination.

Features of the meeting are to be found in the initial announcement by the members of the Legislature present that A. G. MacKay will be chosen as leader of the Provincial Opposition, and in Mr. Derbyshire's positive statement that Parliament will assemble on Nov. 11.

Hon. A. B. Aylesworth.

Hon. A. B. Aylesworth was introduced as a man who "would one day be the Premier of Canada." He said that the issue being to-day presented by the Conservatives, as he understood it, was to the effect that the present Ministers of the Crown were a band of plunderers. Was this fair? Did it appeal to anybody of sense? The Tory party in the House was a mere remnant. It amounted to little outside of Ontario. There were but six Conservative members west of Lake Superior. There were none at all from the Provinces of Nova Scotia and British Columbia, yet, notwithstanding their Waterloo in 1904, the Conservatives were losing ground. Last fall North Bruce had deserted the Conservatives and joined the Liberal column. Wednesday the great Conservative riding of St. John, N. B., had declared itself in favor of the Laurier Government.

There had been a great outcry, the Minister said, about his "attack" upon Mr. Borden. He had merely said what he now repeated, namely, that the petitioners in the Halifax election cases had submitted to him their case. As a lawyer he told them that if they could prove that case they would not only win, but they would disqualify Mr. Borden for eight years.

Mr. Borden has lived all his life in Nova Scotia, yet in 1904 he was discredited by every count in that province. He had never forgiven Mr. Fielding for that castigation.

The Gamey Case.

Mr. Borden had referred to the Gamey case. What was there in that? Take the recent account in The Mail and Empire. What does it amount to? It simply comes to this, that Mr. Gamey, who was looking for a purchaser, had come to him (Mr. Aylesworth), and he had ordered him out of his office. Mr. Aylesworth then referred to the Graham testimony at Montreal. Mr. Graham had given $30,000 for the Quebec City district alone. Was this given for legitimate purposes?

Mr. Aylesworth recalled that his own election in West Durham had amounted to $1,400 in North York, or a little more.

"Mr. Borden has condescended to deny that he wrote this letter," Mr. Aylesworth admitted, "but this, after all, merely creates an issue between him and his friend, Mr. Graham. Can Mr. Graham be mistaken? He is corroborated by all the surrounding circumstances. His testimony is given under the sanction of an oath."

A Hunt For Husbands.

Liverpool, Sept. 20.—The remarkable exodus of marriageable young women from England to America and Canada is emphasized by the departure of a thousand unmarried women on the steamer Baltic, while several hundred more were among the total of 5,000 passengers carried on the three steamers which sailed yesterday.

Burned In Lake Erie.

Buffalo, N. Y., Sept. 20.—The steamer Majestic, for Chicago in ballast, was burned early yesterday in Lake Erie, about 75 miles west of Buffalo. The Majestic was a wooden vessel owned by J. and T. Hurley of Detroit, and valued at $60,000. The crew of 16 men were picked up.

Famous Medical Man Ill.

Montreal, Sept. 20.—Sir Lauder Brunton, the famous London medical man, who arrived here after a tour in Canada Wednesday night, and intended sailing for home on the steamship Corsican, which leaves port today, was taken seriously ill and will be unable to travel further.

Twenty Sentenced to Die.

Riga, Russia, Sept. 20.—Twenty-two out of fifty-eight men, who have been under court-martial here, charged with participation in the revolt in the Baltic Provinces in 1905, have been condemned to death.

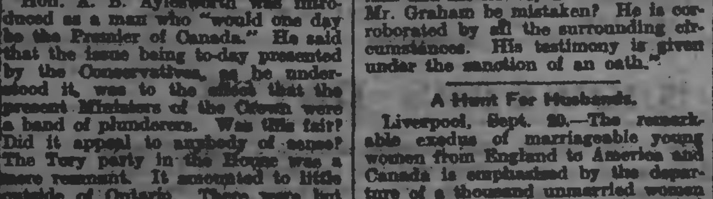
Coalition Probable.

London, Sept. 20.—It is believed here that racial feeling will play no part in the Cape Colony elections. It is anticipated that the result will be a coalition government.

Countryside in Terror.

Canosa, Italy, Sept. 20.—The agrarian strike is growing in this vicinity, and the whole countryside is in a state of terror.

A Sunday street car campaign will be opened in London shortly.



CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

SMASH AT VAUDREUIL

Brakeman Robertson Killed and Fireman Badly Hurt.

Three Freight Trains Mixed Up in a Rear-End Collision—Six Cars Damaged—One Tumbles Off Bridge Into River—Engine Remained on the Track Preventing Greater Loss of Life.

Montreal, Sept. 19.—One brakeman was killed and a fireman badly injured in a rear-end collision near Vaudreuil station at 9.30 o'clock last night, in which three freight trains were mixed up, six or seven cars damaged and one knocked into the river off the Vaudreuil bridge.

That the loss of life was not greater is due to the fact that the train which caused the collision was not going fast, and her engine did not leave the track.

The dead man is Brakeman Robertson of freight train No. 893, which was moving east up to Vaudreuil station, and dashed into the rear of No. 1,[illegible], which had stopped on the bridge and was just starting up again. At the same time No. 95, the fast Toronto freight, was stationary on the adjoining track, having stopped for a hot-box. None of the cars attached to engine No. 893 left the track after colliding with the freight train ahead, but four or five cars of the latter train were derailed and knocked against No. 95 on the adjoining track, causing one car attached to the latter train to be knocked into the river. Robertson, the brakeman, who succumbed to his injuries, had both legs severed, and died before he could be brought to Montreal on a C. P. R. train.

Fireman William Maier of Montreal was caught between two cars, but is not thought to be fatally injured.

Charged With Cattle Stealing.

Ingersoll, Sept. 19.—Frederick Hopkins, arrested here for the Brampton authorities, was taken to that town yesterday afternoon by High Constable Broddy. Hopkins is charged with the theft of two cattle belonging to John Wilson, a Dereham farmer.

Fell Downstairs; May Die.

Hamilton, Sept. 19.—Ardon Lane, while walking downstairs at home, missed his footing and fell to the bottom, striking his head against the wall. His skull is fractured. He will likely die.

More Japanese Coolies.

Victoria, B.C., Sept. 19.—The steamer Indiana, chartered by emigration agencies in Honolulu, passed through quarantine yesterday afternoon, bound for Vancouver with 280 Japanese coolies on board.

LARDER LAKE INVESTERS MAKING MONEY

Larder Lake Gold District Proving the Greatest in the World

Eminent engineers from England, Germany and France have recently made searching examinations of the Larder Lake gold fields, and without a single exception have endorsed the reports of United States and Canadian engineers and experts as to the Larder Lake district being the mining wonder of the world.

The fact that eminent English, German and French engineers who are familiar with and have examined many mines in the great mining camps in South Africa, Australia, Siberia, and in fact all the mining districts of the world, report that the Larder Lake district outclasses them all speaks wonders and promises much for Ontario and all capital invested there.

One of the most prominent engineers of London, who has just returned from Larder Lake after making a six weeks examination of the district in the interest of English bankers, stated that hundreds of millions of dollars had been made by the investing public of Great Britain in the shares of companies in the gold fields of South Africa during the past five years, but the prospects and opportunities were never so inviting nor as safe and secure in Africa as they are at the present time at Larder Lake. Hundreds of millions will be realized by the investors in Larder Lake mines. It requires faith and patience on the part of investors and now is the proper time; several hundred dollars or even less invested now will return thousands, and, as in England, thousands of investors of comparatively small amounts will become independent.

It is reported from London that engineers gave gone to examine the Blue Bell and Lucky Boys mines at Larder Lake and that well known mining interests of England and France are to become strongly identified therein and that a great plant is to be installed. The price at which these interests will become interested is reported to be considerably above par and is not from private holding but from the treasury stock of the companies. The shares of these companies were first placed upon the market during the past six months by Law & Co., brokers, of Toronto, at the price of 6 cents for Lucky Boys and 10 cents for Blue Bell. The development of the properties of these companies has been extensive. Many veins running in width from 4 feet to 140 feet have been developed and it is estimated that the amount of ore in sight and available of these two companies now exceeds thirty millions of dollars which only awaits the installation of machinery to be produced.

The large display advertisements of Law & Co. offering Blue Bell and Lucky Boys at 6 and 10 cents per share will be remembered by the Canadian public. The outcome of these mines establish and stamp these brokers as reliable and indicates that they knew what they were about. Engineers and miners who have examined and are familiar with the properties claim the shares of Blue Bell and Lucky Boys will be worth ten dollars per share within the next year.—Toronto World, Sept. 16.

THE MARKETS.

Liverpool Wheat Futures Close Lower, Chicago Higher—Live Stock—Latest Quotations.

Thursday Evening, Sept. 19.

Exporters.

Two loads of export cattle were bought by Alex. McIntosh, 1250 lbs. each, at $4.90 per cwt. Maybee, Wilson & Hall sold an extra quality load of exporters to Coughlin of Montreal at $5.40 per cwt.; export bulls sold at $3.90.

Butchers.

Prime picked lots sold at $4.75 to $5 per cwt., and one lot of 4 at $5.25; best loads $4.25 to $4.50; medium, $3.75 to $4; common, at $3 to $3.50; cows, at $2.25 to $3.75; canners, $1 to $2 per cwt.

Feeders and Stockers.

Harry & W. Murby report the feeder trade as not being heavy. The common light stockers are hard to sell, but there is a demand for steers, 1000 to 1100 lbs. each, principally for the distilleries. Messrs. Murby handled about 200 during the week, as follows: Steers, 700 to 800 lbs. each, at $2.25 to $2.60; steers, 950 to 1050 lbs. each, $3 to $3.65. They sold one load of steers, 1050 lbs., at $3.65 per cwt., for distillery purposes.

Milch Cows.

Montreal buyers were on hand, therefore, trade in milkers and springers was better. Prices ranged from $35 to $50 each. Two Montreal buyers bought a load each, at an average of $47 and $50 each.

Veal Calves.

The market for veal calves still remains strong at $3 to $7 per cwt, the latter price being paid for properly fed, new milk calves.

Sheep and Lambs.

The run was large, and prices easy. Export sheep sold at $4.25 to $4.50; rams, $3 to $3.50; lambs, $4.50 to $5.65 for the bulk, but there were some selected lots sold for more money, as will be seen by sales quoted below.

Hogs.

About 1000 hogs were on sale. Mr. Harris reports prices unchanged at $6.12½ for selects, and $5.87½ for lights and fats.

East Buffalo Cattle Market.

EAST BUFFALO, N.Y., Sept. 19.—Cattle—Receipts, 75 head; slow; prime steers, $6.15 to $6.85.

Veals—Receipts, 250 head; active and steady; $5 to $9.25.

Hogs—Receipts, 2000 head; active; 5c to 10c higher; heavy, $6.50 to $6.60; mixed, $6.50 to $6.90; Yorkers, $6.85 to $7; pigs, $6.90; roughs, $5.25 to $5.75; stags, $4.25 to $4.75; dairies, $6 to $6.90.

Sheep and lambs—Receipts, 1400 head; active; sheep steady; lambs, 25c higher; native lambs, $5 to $8.10; Canada lambs and others, unchanged.

New York Live Stock.

NEW YORK, Sept. 19.—Beeves — Receipts, 605. Steers, steady; bulls, 10c lower; cows, 10c to 20c lower. Several cars unsold. Common Vermont and state steers sold at $4 to $4.50; bulls, $2.25 to $3; cows, $1 to $3.50; dressed beef steady at 6c to 9½c per lb., native side; exports to-day, 600 cattle to London, and 4150 quarters of beef to Liverpool.

Calves—Receipts, 100; market steady; veals, $5.50 to $9.50; culls at $5; grassers at $3.10 to $3.37½; western calves at $6; city-dressed veals, steady at 9½c to 14c per lb.; country-dressed at 7c to 13c.

Sheep and lambs—Receipts, 2578; sheep and good lambs, steady; common lambs at 25c lower; sheep, $3.50 to $5; culls, $2 to $3; lambs, $5.50 to $8; culls, $5.

Hogs—Receipts, 1305; market steady.

Chicago Live Stock.

CHICAGO, Sept. 19.—Cattle—Receipts, estimated about 4000; market steady; good to prime steers, $5.25 to $7.25; cows, $2.65 to $4.50; heifers, $3 to $5.75; calves, $3 to $8; bulls, $2.40 to $5; stockers and feeders, $2.40 to $5.

Hogs—Receipts, about 16,000; market steady; choice heavy shipping, $6.10 to $6.25; light butchers, $6.00 to $6.50; light mixed, $6.20 to $6.40; choice light, $6.45 to $6.57½; packers, $5.90 to $6; pigs, $4.75 to $6.25; bulk of sales, $5.90 to $6.

Sheep—Receipts, about 12,000; market weak with prices slightly lower; sheep, $3.80 to $5.75; yearlings, $5.75 to $6.10; lambs, $6 to $7.60.

Cheese Markets.

KINGSTON, Sept. 19.—At the Frontenac cheese board this afternoon 245 white and 568 colored were boarded. The price ran up to 12⅝c for colored and 12⅝c for white.

Farmer Killed by Bull.

Smith's Falls, Sept. 20.—Peter Shields, one of the wealthiest farmers of this section, was killed by a bull yesterday. He sold the animal to a drover, who left Mr. Shields in the field. A few minutes later a neighbor working in an adjoining field saw the bull attack Mr. Shields. With the aid of a dog he succeeded in driving it off, but he was too late to save Mr. Shield's life. He had been trampled to death.

R. A. Graham was nominated for the Legislature by Centre Simcoe Liberals at Elmvale on Wednesday.

IMPORTANT ARRESTS.

Men Carried Nitro-Glycerine, Were Armed to the Teeth.

Niagara Falls, Ont., Sept. 19.—Chief Mains and Officers Kelly and Greenwood of the Ontario police force made an important arrest yesterday.

Three men, named William Pasquay of Niagara Falls, N. Y., and "Harding" of Toledo and a third man, name unknown, were standing at the southwest corner of the depot.

The chief drew his gun on Pasquay and threatened to shoot and made him stop and arrested him. The unknown, who got a good start, made his escape. The two men arrested held tickets for Hagersville.

Harding had in his possession an eight-ounce bottle of nitro-glycerine, while Pasquay had a cake of soap to do the loading of the nitro-glycerine in safe combinations.

NEW MINISTERS UNOPPOSED.

Hon. Geo. P. Graham and Hon. Wm. Pugsley Returned by Acclamation.

Brockville, Sept. 19.—At the nominations for the bye-election to fill the vacancy in the House of Commons caused by the resignation of Mr. D. D. Derbyshire, Hon. Geo. P. Graham, the new Minister of Public Works, was the only nominee, and was accordingly declared elected by acclamation by the returning officer, Sheriff Dana.

St. John, N. B., Sept. 19.—Hon. William Pugsley, Minister of Railways and Canals, was yesterday elected a member of the House of Commons for St. John City and County without opposition.

CHARGE AGAINST A PRIEST.

Pastor of Detroit Church Alleged to Be Defaulter For $50,000.

Detroit, Sept. 19.—That Rev. Father Charles Grunewald obtained $13,000 from Mrs. Christian Wagner, and is a defaulter to the extent, perhaps, of $50,000, is the charge made against the pastor of St. Mary's Church of this city.

The facts came out yesterday when a suit was entered to have a guardian appointed for Mrs. Wagner, who is a widow. Father Grunewald is known in some of the German Catholic churches of Western Ontario, where he is said to have been a popular occasional visitor.

No Abrogation of Treaty.

Ottawa, Sept. 19.—The request of the Dominion Trades and Labor Congress for the abrogation of the treaty between Canada and Japan has not yet been transmitted to Sir Wilfrid Laurier, but when it is there can be but one answer.

The desire of the Dominion Cabinet is for an understanding not only with Japan, but with India, too, which will prevent the flooding of the labor market in British Columbia with Japanese or Hindoos.

There is good ground for believing that through the exercise of a little patience this object will be shortly accomplished.

Elgin's Thanks.

Ottawa, Sept. 20.—Lord Elgin, Colonial Secretary, has sent a message to the Canadian Ministers, thanking them on behalf of the British Government for the manner in which Canada entertained Prince Fushimi.

Babe Smothers In Shawl.

Havelock, Sept. 20.—While driving from Gelert station to visit her mother, Mrs. Russell of Toronto wrapped her shawl about her baby. On reaching the house she found the baby dead in her arms from suffocation.

THE ARCHITECT DESERVES CREDIT

Mr. F. Bartlett's Good Work in Connection With Alterations at Cressman's

In the descriptive article, which appeared in yesterday's Review referring to the improvements made in the store of Mr. A. W. Cressman, mention was made of the services of Mr. F. Bartlett, architect, which deserves favorable comment. The work involved, required extreme care and planning, necessitated by the change in the interior of the building, the weight to be shifted and carried by new supports, required by the taking down of the walls. Few appreciate the responsible nature of the change, where alterations to such an extent are made while business is carried on from day to day, and the premises open to the public. The general design of the new attractive and handsome front is to be credited to Mr. Bartlett, as well as details of the interior finish on several of the floors. Men from the city have expressed most favorable comment on the work and its successful completion.

CAVAN FARMER RELIEVED OF $19

Money Taken From His Vest Pocket While He Was Asleep

Robberies are of common occurrence these days and several persons have been "touched" for large sums of money. Evidently there are some who get a better living by stealth than by earning their daily bread by the sweat of their brow.

Edward Shields, a Cavan farmer is mourning the loss of nineteen dollars to-day. He claims that someone took the wad from his vest pocket. Shields came to the city on Wednesday with about sixty dollars, but now he is a poorer man. He has a liking for strong drink, it is said, and was discharged yesterday morning in the police court for being drunk. He promised to go back to Cavan, but the city apparently had more attractions for him than the farm and he did not go.

A good friend was keeping nineteen dollars for Shields, but gave it back to him yesterday at noon. He promised not to spend the money foolishly. It was pinned in his vest pocket where it was thought it would be in safe keeping. He went directly and got drunk and about five o'clock last evening returned to his friend, telling him that he had lost all his money. It is thought likely that Shields laid down and went to sleep somewhere only to awake to find his money gone. Someone taking advantage of the drunken man went through his pockets and robbed him of his wealth.

Dust Will Not Fly This Fall

Sprinkling Will be Kept up Later Than Former Years

As a result of a conference held between representatives of the City Council and the Water Commissioners yesterday afternoon, the watering carts will be able to be kept going much later in the season than in former years. This will be welcome news to citizens generally as in past years great inconvenience has been caused by the dust in the latter part of September and October, when the watering carts were not in service. The trouble has been that the water was turned off in the standpipes as soon as the nights became frosty as the valves would burst if the water was left in the pipes.

Mayor McWilliams and Ald. Duncan, chairman of the Board of Works, interviewed the Water Commissioners at a meeting yesterday afternoon and after discussing the matter fully the commissioners agreed to have underground valves placed in four or five standpipes in the central section of the city which will enable them to be used until late in the fall. This means that the streets will be sprinkled as long as there is any dust.

"Justice" Objects to the Way Crime is Dealt With

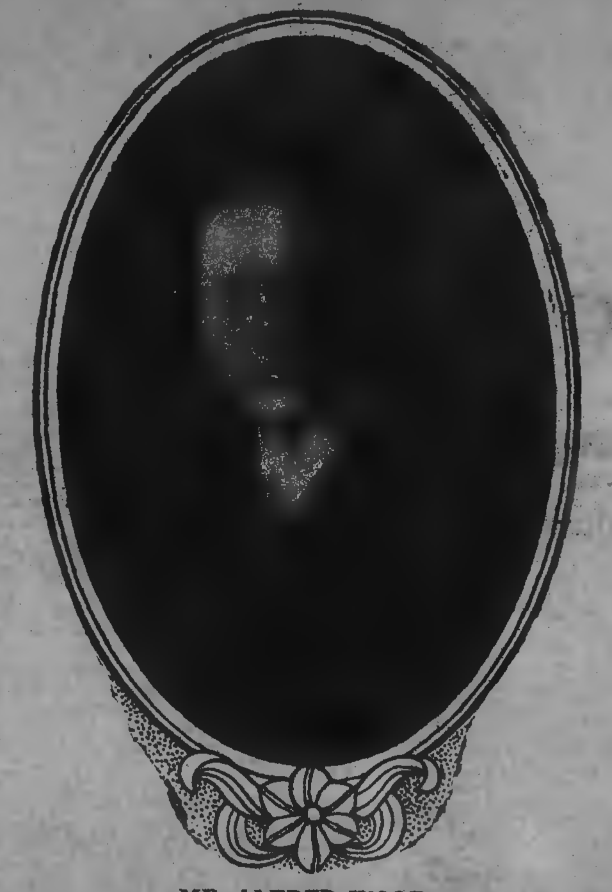
The Review today received the following letter with a request that it be inserted in tonight's issue:—

To the Editor of the Review,

Sir,—A few months ago a bank manager got away with a cool million, and a five year term with a clerkship. A little later a city youth of tender years stole thirty cents and was handed out five years and a bucksaw to while away the weary days. Now, if five years for stealing thirty cents was a merciful and proper sentence, how many years should the capitalist have got for stealing a million and a half on the same basis?

Of course it doesn't work out that way in actual practice. Common people—people without pull, influence or money—unfortunate enough to stray from the paths of strict morality, must be ground down by the iron heel of justice. This week a youth under nine years of age crawled through the back window of an Italian fruit store—lured by a bunch of bananas—and while inside picked up some loose change, fifteen cents, or possibly less. The following morning, we are told, a policeman walked in to a crowded school room and arrested him. Surely some other way could have been devised of securing this boy, without all this publicity, and more especially when it is considered that this lad's parents are respectable and industrious citizens. As a result this unfortunate child will fear to face his school mates again, and the incident is bound to have a baleful influence on his future.

Yours truly,
JUSTICE.



MR. ALFRED WOOD
A Montreal Manufacturer who is Interested in Two of the Largest Enterprises and Who Came to Visit and See A. W. Cressman's Fine New Store, the Formal Opening of Which Takes Place This Evening.

Fallen Live Wire Sizzled on Street at 2 O'clock in Morning

For a short time about two o'clock this morning a live wire sputtered and sizzled on the sidewalk, at the corner of Water and Charlotte street. The lights in the vicinity went out and there was considerable excitement for a few minutes. The trouble was caused by a wire belonging to the Peterborough Light & Power Co. falling, having broken from some cause or other. In falling it came in contact with one of the Otonabee Company's wires with the result that the lights of both systems were put out. The broken wire fell to the sidewalk, where it sizzled loudly but did no damage. Fortunately there was nobody passing at the time the wire dropped, or there might have been a loss of life. The company was notified of what had happened and the power was shut off in that section. The necessary repairs were made early this morning and everything is all right again.

WHERE'S LITTLE PETER O'SHEA?

Has Been Missing Since Yesterday Noon—Much Anxiety Felt

Peter O'Shea, a boy of seven years of age, who has lived at the House of Providence for the past two years, left the home yesterday at noon for school and has not been seen since. His whereabouts are not known, and the Sisters at the House of Providence are at a loss to know what has become of the little lad. When he did not return from school with the other children, at first, no alarm was felt, as it was thought he would be home at tea time, anyway. When evening came and the youngster was not to be found, considerable anxiety was felt by the Sisters. The police were notified, but they have been unable to locate the child. Up to noon today he had not returned. Anyone knowing anything of the lad's whereabouts will please communicate with the House of Providence or the police station.

SMITH OF BOSTON

Representative of Famous Dolly Varden Shoe Here to Attend Cressman's Opening

C. De Forest Smith, general sales agent for the Dolly Varden Shoe Company, is at the Oriental. Mr. Smith came from Boston to attend the opening of the Dolly Varden Shoe Department at Cressman's.

"We work in close alliance with the Foot-rite Shoe Company in Canada," said Mr Smith, "but we deny the allegation that ours is an American shoe combine. Our alliance was made along the lines of the modern business organization, where great expense is saved in selling cost and better value can be given in the shoes. We are able to sell our shoes at the same price in Canada, the United States and Great Britain. By granting exclusive agencies, such as that secured by A. W. Cressman, we are able to present a better representation of styles in a line shoe than a general store could carry."

SUTURDAY
LIFT LOCK TRIP
Str. Water Lily will make Special Trip over the Lift Lock To-morrow, leaving Wolfe Street Wharf at 10:30 and returning at 12 o'clock. Tickets, return, 25 cents.

FOUND HOME SATISFACTORY

And Child Will Not Likely be Taken to Shelter

Mr. George Cochrane, agent of the Children's Aid Society, and P.C. McGinty went to the home of Hector Baker, College street, yesterday, afternoon to take his little girl to the Shelter. Reports have frequently been made to officials of the Shelter that the child's surroundings were detrimental to her proper bringing up.

She was not found yesterday, when the officers called, being at school. Her home was found to be clean and everything in good order.

Now that it has been ascertained that the child's home is in good condition, it is not likely she will be taken to the Shelter.

More About the Coal Situation

New York Coal Man Says There May be Trouble at Mines

Mr. J. W. F. McLean, representing a New York coal company was at the Oriental yesterday. Mr. McLean predicts a continued increase in the price of coal and thinks there is a possibility of some trouble at the mines as the relations between the mine owners and the miners are not as harmonious as they might be.

Parliament will resume either the third or fourth week in November.

Passing of an Esteemed Lady

Death of Mrs. Earnest Carveth at McCracken's Landing

The death occurred at McCracken's Landing, Stony Lake, yesterday, of Mrs. Ernest Carveth, wife of the well known proprietor of the Victoria house. Deceased was only 23 years years of age and was a daughter of Mr. Robert McCracken, of McCracken's Landing, her maiden name being Lillian Lavida McCracken. Besides her husband she is survived by her parents and two sisters, Mrs. John Freeman and Miss Maggie McCracken, both of McCracken's Landing.

The late Mrs. Carveth was highly esteemed by a large number of friends and her death will be greatly regretted.

The funeral takes place to-morrow at two o'clock to Warsaw cemetery.

MacKay Succeeds Graham as Leader

Member for North Gray Was Elected To-day

Special to the Review.

Toronto, Sept. 20.—Hon. A. G MacKay, M.P.P., for North Gray, was elected leader of the Liberal party in Ontario at the meeting of Liberal members of the Legislature held here this morning.

Mr. Mackay was the only name mentioned and he accepted on condition that his selection should go to the county organizations for approval. There was a large attendance of members.

Frost Will Affect Saskatchewan Yield

Mr. Ira Stratton, of Stonewall Man. Tells of Conditions in the West

Mr. Ira Stratton, general secretary of the Postmasters' Association, who was here yesterday presiding over the meeting of the County postmasters held at the National hotel, is a man of much prominence in western Canada and postmaster of Stonewall, Man. He also has large land interests in the west and is naturally in touch with affairs relative to the prairie provinces.

He says that the past spring and summer seasons have been prosperous ones in western Canada and the farmers and city residents are in a good position financially.

Last winter was one of the hardest in the history of Western Canada on account of the coal famine. Steps have been taken this year, however, to guard against the recurrence of a coal shortage.

"The frosts in Northern Saskatchewan," said Mr. Stratton, "have been disastrous in their effects on the wheat crop and in fact the wheat crop, generally will not be as bountiful as was hoped for earlier in the season."

Mr. Stratton said that live stock prices were good out west, although there is considerable depression in the horse market. The real estate prices have kept up well and there has been lots of money realized by real estate men on good city property.

Mr. Stratton is a true westerner both in type and sentiment and is conversant with political and municipal affairs in the prairie country.

He is well acquainted with several people in these parts and being born educated in Northumberland county, knows many people in Port Hope, Cobourg and other towns in that vicinity.

Charlotte street roller rink.—Band concert.

AUBURN EMPLOYEES' OUTING.

As the number of tickets on sale for the Auburn Employees' excursion to Cobourg tomorrow, is limited, friends who purpose going, are urged to secure tickets early.

ST. JOHN'S EXECUTIVE.

The Executive of St. John's Anglican Young People's Association will meet at the home of Mr. R. J. Devey, 287 Park street, tonight at 8.30 prompt.

BIBLE STUDY RALLY

A Bible study rally will be conducted at the Y.W.C.A. on Sunday afternoon next at 4.15 o'clock. Rev. Elmore Harris, D.D., of Toronto, will be in charge. All are cordially invited.

BANK EXTENSION.

Work on the extension of the Bank of Ottawa premises has begun. The premises immediately north, formerly occupied by Mr. Peter Simons, will be taken in, and the flooring space of the bank, will be practically doubled.

PROF. DORENWEND COMING

Ladies and Gentlemen, see Prof. Dorenwend's beautiful Wigs, Toupees, Bangs, Wavy and Plain Fronts, Switches in every length and shade, etc.

His Hair Goods Styles, when properly adjusted, protect and ornament the head, soften and beautify the expression of the face, and consequently tone up aged appearance. Prof. Dorenwend has for this season many new and pretty Designs. He has added a number of New York, London and Paris patterns.

Be sure to see them and not forget day and date. Oriental Hotel, Peterborough, Friday and Saturday, Sept. 27 and 28.

BIRTH

KENNEDY—In Otonabee, on Sept. 15th, 1907, to Mr. and Mrs. Fred Kennedy, a daughter.

HAND CUT AT SAW MILL

Painful Injury Sustained by Young Lad

Yesterday afternoon a young lad by the name of Butler, a son of Mr. John Butler, 55 Locke street, had his hand painfully cut, while working at McDonald's saw mill. The injured member was dressed by Dr. McGrath.

GOOD PROGRESS IS REPORTED

Installation of Machine 'Phone System at Brantford and Lindsay

The installation of the automatic telephone system is going ahead rapidly in Brantford and Lindsay. Mr. F. D. MacKay, general manager of the Machine Telephone Co., is in the city today and is well satisfied with the progress that is being made. The undergrounding of the wires is going ahead rapidly in Brantford, while in Lindsay the poles are being put in shape and everything got in readiness. At Brantford about sixty men are employed and Mr. Wm. Lytle of Peterborough, is in charge of the operations.

A Small Fire in East City

A small blaze at the house of Mr. R. Tivey, east city, this afternoon was the occasion for a run of one of the waggons of the fire department. It was extinguished, however, before the services of the brigade were required. At the time of going to press the origin of the fire could not be learned.

WHAT'S THE DIFFERENCE?

To the Editor of the Review.

Sir,—I notice "Observer" was driving past the golf links last Sunday. Now I prefer to use a golf club to a horse for my exercise on Sunday, what's the difference?

Yours,
BRASSEY.
Peterborough, Sept. 20, 1907.

ROUTLEY'S COMFORTING PRICES

Building Permits During the Week

Addition to St. Joseph's Hospital to Cost $12,000

Building permits to the value of $15,925 have been issued during the present week. The addition to St. Joseph's hospital, alterations to the Bank of Ottawa premises, and a new dwelling house are included in the list which is as follows,—

Anthony Taylor, stable on Westcott street, $125.

W. G. Westlake, brick veneer dwelling on King street, $1,800.

Bank of Ottawa, tearing down wall between present premises and shop on north; putting down new floors, taking out present fronts, and replacing same by stone and brick painting exterior, etc., $2,000.

Addition to St. Joseph's hospital, $12,000.

Men are Not Chosen Yet

Deputy Supt. Looking Over the Walks

As a couple of applicants for the positions of mail carriers have been rejected, the work in connection with the appointment of the men has not yet been concluded. It was expected that the names of those selected would be given out for publication today. This afternoon, Mr. Durston, the deputy superintendent of post offices is looking over the walks or beats that have been mapped out.

Strong Words On Corruption

In the course of his sermon in St. Luke's church last evening, Rev. Dr. Farthing of St. George's cathedral, Kingston, said: "The people of this fair Dominion today, have to hold their nostrils to escape the stench of political corruption and the degradation of public life."

THE TURF

Queen's Baron, 2.18 1-4, will be one of the entries in the free-for-all class at the local exhibition. Queen's Baron is the property of Dr. Johnston and can show a good burst of speed.

Joe Allen, owned by Joe Simpson, Lindsay, and Pathfinder, the property of Mr. Bennett, Port Hope, are possible starters in the races to be held at the Peterborough fair.

Hazel Belle owned by Dr Johnston, Harry Direct, the property of J. C. Cottingham, Peterborough, Brown Gyp, owned by Dr. Johnston, Lakefield, and Lady Gothard, the property of Mr. Martin Connors, of the City hotel, were all shipped to Lindsay last night and start in the races at the fair in the Scugog town. Harry Direct will start in the free-for-all, Hazel Belle and Lady Gothard in the 2.20 class, and Brown Gyp in the 2.40 class. Messrs. Dr. Johnston and Martin Connors went to Lindsay today.

RUGBY

The lights will probably be installed at Riverside park by Saturday, and the team will thus be enabled to practice there at night.

All players are asked to turn out for the practice next Saturday afternoon.

BOWLING

The bowlers will hold an important meeting to-night at the Majestic Bowling Alleys.

TENNIS

ST. JOHN'S TOURNEY.

St. John's Tennis Club Tournament will be closed on Saturday, Sept. 28th. Players in the mixed doubles are requested to arrange at once with Secretary Richardson, as to the days they can play.

PERSONAL

Mr. Percy Skinner, of Keene, is in the city to-day.

Mr. Alfred Bucknell, barrister, of Toronto is in the city.

Miss Lillian Summerville, Parkdale, Toronto, is the guest of Miss Jenkins, 384 Stewart street.

Mr. E. C. Mevers of the Toronto Trusts and Guarantee Co. is in the city on business today.

Mrs. D. A. Jordan and children left today to visit Mrs. Jordan's sister, Mrs. O. A. Cragg, Brighton.

Messrs. Bert McCollum and C. Chown are in Lindsay to-day attending the races at the Lindsay fair.

Mr. F. W. Clarke, of Millbrook, has returned home after spending several days the guest of Mrs. G. A. Reid, Smith street.

The many friends of Mrs. (Dr.) Langfeldt will regret to learn that she is seriously ill.

Mr. Bert Turnbull of the C.P.R. telegraph staff, has returned from spending his holidays in Galt and other places.

Mrs. Richard Collinge of Peterborough, is spending a few days with her sister Mrs. Fred Broadworth, Minto,—Stirling News-Argus.

Rev. Canon Spragge, of Cobourg, who will preach the harvest home sermon in All Saints' church this evening, is in the city.

Mr. George H. Hewson, inspector of weights and measures, has returned from a business trip through Addington county.

Rev. William Major of All Saints' church, who has been ill for several days, is improving. The service in All Saints' church will be conducted on Sunday next by Rev. R. B. Grobb, M.A., of St. John's church, Port Hope.

Mr. and Mrs. R. J. Winch, who have been spending the summer at "Yarrow Brae," Stony Lake, returned to the city that evening, having closed up their cottage for the season. Mrs. Pentland and her daughters, Misses Irene, Viola and Aggie, who have been staying with Mr. and Mrs. Winch have also returned.

Mrs E. Williams and son, Leonard, Messrs. A. W. Darling, A. Latimer and A. Lane and family left the city yesterday via C.P.R. en route for the Old Country. Mrs. Williams and son and Mr. Latimer sail from Halifax on the C.P.R. Atlantic Line S.S. Empress of Britain, the destination of the former two being London and Liverpool is the objective point of of Mr. Latimer. Mr. A. Gant and family will sail for Glasgow from Halifax on the S.S. Corinthian of the Allan Line.

Mr. Frank Mercer, of Toronto, formerly of Peterborough, is in the city to attend the re-opening this evening of Mr. Cressman's big remodelled departmental store. Mr. Mercer is the popular and aggressive manager of the Dolly Varden and Foot-rite shoe establishment on Yonge street, Toronto. These famous shoes are handled exclusively by Mr. Cressman in this city, and both the ladies' and men's departments will be thrown open to the public for the first time tonight.

All Saints' Church Harvest Festival

Rev. Canon Spragge Will Preach the Sermon This Evening

All Saint's church will hold its annual harvest festival this evening at eight o'clock. Rev. Canon Spragge of Cobourg, will be the special preacher. There will doubtless be a large attendance. The interior of the sacred edifice has been appropriately decorated for the festival.

324 GEORGE STREET

FOR CREATING DISTURBANCE

Hugh Gibb Was Fined $6.15 in Police Court This Morning

For disorderly conduct at the corner of Sherbrooke and George streets on Tuesday evening, Hugh Gibbs was fined two dollars and costs, amounting to $6.15 at the police court this morning. Gibbs pleaded guilty to the charge.

A gentleman residing next door to where the disorder occurred, stated that the language used, was something terrible. The people residing in this corner house are continually fighting and the other evening, threats to knock each other's brains out with an axe were heard. The rows can be heard on the street and people passing by have often complained of the disgraceful conduct. His Worship imposed the above fine giving him ten days to pay it in.

New Officers of The Cadet Corps

Those in Charge of Different Companies at the Collegiate Institute

The following new officers have been appointed by the teachers of the Collegiate Institute to take charge of the three companies in the Cadet Corps.

Several of the officers of last year have graduated from the school and it has been found necessary, to fill not a few vacancies;—

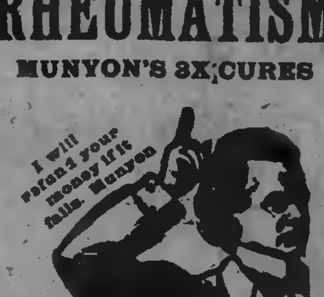
No. 1—Capt., F. Austin; Lieuts., S Anderson, A Roseboro. Sergts., D Denham, P Hooper, M Dobbin, S. Waterman.

No. 2 Co.—Capt., M. O'Brien. Lieuts. —S Pringle, C Lees. Sergts.—A Bravender, Brightman, Blackwell, McGill.

No. 3 Co—Capt., H. Hall. Lieuts.—H Wallis, B Clegg. Sergts.—H Matthews, Brown, Richardson, Johnson.

Two drills are held each week, under the instruction of Lieut. J. E. Hodgson, of the 57th Regiment, and the corps is rapidly founding into shape.

The selection of a Major to command the Cadet Corps will be made in a couple of weeks. The officer, who in the meantime brings his company up to the highest state of efficiency will likely be appointed Major.



I will refund your money if it fails. Munyon

RHEUMATISM
MUNYON'S 3X CURES

Think of a remedy that relieves sharp, shooting pains in any part of the body in from one to three hours and effects a perfect cure in a few days.

It purifies the blood. It neutralizes the acid and takes all inflammation and soreness away. Have you a lame or aching back, lumbago or sciatica?

Have you stiff or swollen joints, no matter how chronic? Ask your druggist for Munyon's 3x Rheumatism Cure and see how quickly you will be cured.

If you have any kidney or bladder trouble get Munyon's Special Kidney Cure. Money back if it fails. Munyon's Vitalizer makes weak men strong and restores lost powers.

All the new things---all the "fetching" styles, as the London lady would say, are ready at Cressman's for the Fall Fashion Opening of Men's Modes.

Another feature of the Grand Re-opening at Cressman's this week.

If you have not yet learned how superior is Semi-Ready tailoring to the old-fashioned Custom tailoring---you may do so without feeling at all obliged to buy. It is the people who want to know the reason why whom we are glad to meet at

Cressman's

The Postmasters Desire Still Higher Commission

Not Entirely Satisfied With New Schedule—Mr. Ira Stratton, General Secretary of Postmasters' Association, Presided at Meeting of Rural Postmasters of This County.

A meeting of the country postmasters of Peterborough county was held yesterday afternoon at the [illegible] Hotel for the purpose of discussing the recent schedule granted the postmasters by the Government and other matters of moment. Mr. Ira Stratton, general secretary of the postmasters association, presided, and the postmasters of Warsaw, Indian River, Minden, Havelock and Lakefield were in attendance. Mr. A. F. Choate, postmaster at Warsaw, was appointed secretary of the organization for the county.

Mr. Stratton, who is an able advocate of the cause of the postmasters and who has a wide knowledge of affairs, being editor of the Postal Current, and of the Stonewall [illegible], when seen by The Review last night, said of the purpose of the Postmasters Association. "The organization was not a selfish one, belonging only in the interests of its members, but had also the welfare of the public at heart, in the matter of postal service. The public are beginning to understand our motives better," said Mr. Stratton, "and realize our agitation for greater facilities will affect them just as much as it does us. When the postmasters of Canada have every means at their disposal to give quicker and more efficient service, and that to a great extent is what they are agitating for, the public will naturally be greatly benefitted, as well.

"What special means do you purpose to adopt, Mr. Stratton, to have the system of better service established throughout the country," was asked.

"Well" he replied, "Our appeals to the Government in that respect have been productive of good results. We also hope in time to have an organiser or organisers, thoroughly familiar with all the details of post office equipment and conduct, travelling throughout the country and inspecting the various postoffices. By doing this the organizer will be able to advise postmasters, in any cases when such counsel is necessary, if improvements should be made to their system of handling the mails or on any other matters in connection with the service."

Mr. Stratton came east to attend the meeting of the Ontario Postmasters Association in Toronto on Sept. 3rd, and as he has not been in the prairie provinces since the new schedule has been granted, he does not know the exact feeling of western postmasters as to its scope and justice.

The lowering of the postal rate from three to two cents, has deprived the postmasters of a considerable source of revenue, and now the sales have to be much greater than they were before to make the same profit for the postmasters.

"The commission the postmasters receive is twenty-five per cent. greater than it was four years ago." Mr. Stratton remarked, "but then the cost of living has increased very much and the postal rate has been lowered. Thus you will see that the postmasters are justified in their agitation for a schedule granting a higher commission."

Mr. Thompson left this morning for Belleville, Napanee, Kingston, and other points in Ontario, and will then go east to Quebec, and the maritime provinces in the interests of the association.

"By the end of the year," he said, "we expect to have good solid organization throughout all the provinces of Canada."

Development of Golden Fleece Mine a Certainty

The development of the Golden Fleece mine, east of Flinton, is now a certainty. The present owners Messrs Gould and Ingram have had a six months option on this mine, which expired on Thursday last, when they paid for the property in full. The cash consideration is said to be $13,000. For several months these gentlemen have had extensive operations under way at the mine, and have made a thorough test of the possibilities of the ore found there, and the fact that they have now closed the deal, shows decidedly that they consider the full development well worth while. The product is said to be a fine quality of gold, but in order to secure the full wealth from the ore, the owners have shipped four tons of the rock to the School of Mines, Kingston, where tests will be made, with the view of developing a system to secure even a greater percentage of gold and by products from the Golden Fleece ore.

Mr. F. W. Morse, of Buffalo, N.Y., is developing some claims north of the Golden Fleece property, and although little can be learned of the output, it is believed to be rich in the same ore that makes the other mine valuable.

Another gold mine development that is under active way is on the Barry farm in Elzevir township. Mr. Scrymgour and a gang of men are busy there, and the prospects of rich returns are very good.—Tweed News.

Reverence is Lacking in Many Present Day Churches

Statement of Very Rev. Dean Farthing at St. Luke's Harvest Festival—A Successful Event.

The annual harvest festival of St. Luke's church east city, was held last evening, when a large and devout congregation, gathered to return thanks to God for the bountiful harvest bestowed upon His people. The service was bright and everyone joined heartily in the singing. The hymns were suitable for a harvest festival, and special music was also rendered by the choir. Mr. R. Sutcliffe, choirmaster, and Miss C. English, organist, are to be congratulated upon the excellent class of music presented.

The occasion was graced with the presence of the Very Rev. Dean of Ontario, Rev. Dr. Farthing, of Kingston, who preached an eloquent sermon. Other clergy present were Revs. Canon Davidson, T. H. Perry, B. A., and the rector, Rev. Dr. Langfeldt.

The church looked very pretty in its decorations, symbolical of the harvest season. Wreaths of wheat were twined around the choir seats and hung throughout the church, and the windows and vestibule were banked with fruit and vegetables.

Dr. Langfeldt is to be congratulated on securing Rev. Dr. Farthing as special preacher. His sermon was an eloquent one, and in keeping with the special character of the service He based his discourse on the 8th verse of the fourth chapter of Revelations, "And they rest not day and night, saying holy, holy, holy, Lord God Almighty, which was, and is, and is to come." The reverend speaker pictured to his hearers, the lonely isle of Patmos, and St. John the disciple of love, who in spirit, looks up through the open door of Heaven and sees the throne of God. In beautiful metaphors and symbolism St John tells what he saw. Probably it is not easy to understand, but by the symbolism of the old testament, He tries to bring before men his vision. "The door of Heaven is still open," continued the speaker, "for those who in spirit may still see that which St. John speaks of. The first St. John saw, was the vision of the throne of God. He describes the one who sat on the throne as being like a Jaspar. The Jaspar is significant of whiteness, and the Sardine stone is red and represents fire. The fire brings before us the thought of cleansing. It destroys all that is corrupt and it represents the tests men are put to. "He who is on the throne is God, who is our Judge," said the reverend speaker. "What a mercy that we are not to be judged at the last great day by our fellow-men. We cannot judge each other. We do not know of the inner motives of our fellows, and we are hasty in our judgment. God, who knows the secrets of all hearts, the weakness of our nature, and all other things that go to form character will pass judgment on us."

The next thing in the vision that the disciple describes is the rainbow encircling the throne. The "Rainbow" said the speaker was symbolical of God's pledge for the deliverance of Noah. "We have still the pledge of His faithfulness. "We plough the fields and sow the seed," said the speaker, "but it is God that gives the rain and sunshine to bring forth the harvest. God fulfilled his promise when He said that "seed time and harvest shall not fail," and we look with hopefulness that He will again give us the increase. We are said to be passing through a great crisis," said the noted divine. "There is strife between capital and labor, and there are signs and rumors of discontent in many parts of the world. But apart from national affairs, in personal experiences, we are distracted with cares and anxiety. There are divisions among friends and several other things that disturb the quiet order of life. In these troubles when men are unable to help you, look to the open door of Heaven. There the 'King of kings,' is able to bring peace to our troubled souls. There is the perfect peace, and the nearer we are in spirit, the more we shall know of that blessed peace of God."

"Around this great throne are four and twenty other thrones, with four and twenty elders. While there have been many expositions advanced as to what these represent, Dr. Farthing looked upon them as symbolical of the church of the living God. These men are reigning with God. He brings men close to Him. We do not realize the dignity of manhood or our relationship to God. The Son of Man was human. He lived our life in purity. He went down to the grave and rose again, and showed us that which is beyond the grave."

"Heaven is not an eternal place of idleness," continued the reverend gentleman. "No man knows the joy of earth until he knows work. It is no place for idleness, but each one is a co-worker with God."

"In the midst of this great throne the disciple says there are four beasts. They represent creation and teach us the worship of Heaven. 'With twain they covered their face,' representing to us intense reverence to their God, and 'with twain they covered their feet,' showing us their humility. Then 'with twain they did fly.' They are ready to go forth in the service of God."

"Reverence is what is lacking in the churches today," said the speaker. "You see persons in the House of God, lounging and inattentive. It is the vilest irreverence."

"Let us surrender ourselves to God and worship reverently and obediently to His will. Everything belongs to God. Nothing is ours. Our lives are lived as it were in compartments. There is church, the family, the business and the public life. The public life of today in our own country, the speaker said, is foul and much wrong doing existed. He urged his congregation not to live the compartment life, where one lived to his own interests only. "Consecrate your lives to God, throwing yourselves in submission to Him, go forth in His service," were the concluding remarks of an inspiring sermon.

During the offertory, which was devoted to missions, Miss Ruth Dawson, sang "The Reaper's Harvest Song."

BOTH CHARGES WERE DISMISSED

Yesterday afternoon at four o'clock at the offices of Messrs. Edmison and Dixon, the charges against W. H. Darcy of Burleigh Falls of selling liquor to an Indian and the one against Jas. A. Lawless, Lakefield, for selling liquor in that village was dismissed by Magistrate Edmison. Jacobs, the man to whom the liquor was sold at Mr. Darcy's bar, does not belong to any particular band of Indians and it was held that he was not an Indian within the meaning of the Act. The charge against Mr. Lawless was dismissed on the ground that he was not proprietor of the hotel on the date the information was laid.

Young Men's Clubs Are Re-organizing

Annual Meeting of St. Paul's Called—New Officers St. Andrew's

The young men's club in the different churches are reorganizing for the season. Already some have elected officers and it is expected the others will soon follow.

The annual meeting of St. Paul's Young Men's Guild is called for next Thursday evening, Sept. 26th. It is expected that there will be a large attendance. Mr. E. S. Clarry is the retiring president and Mr. Maurice Rosenburg, vice-president, will likely be elected president. Reports for the past year will be presented and a full attendance is requested.

ST. ANDREW'S GUILD.

St. Andrew's Young Men's Guild reorganized this week with the following officers:

Honorary President.—Rev. J. G. Potter.
Hon. Vice-President.—T. C. Elliot.
President.—W. S. Campbell.
Vice-President.—R. M. Glover.
Rec.-Sec.—V. Tully.
Cor. Sec.—C. Anderson.
Treasurer.—E. Reid.
Councillors.—D. Menzies, Wm. Mellis, D. Hall Geo. McDonald.

Plenty of Work in Peterborough

Recent Arrival Was Offered Two Jobs Within an Hour

"I had two jobs offered me within an hour after I arrived here," said a recently arrived Englishman to a Review representative to-day. The fellow has only been in Peterborough for two weeks, coming direct from the Old Country, and he has steady employment and is well pleased with his prospects. "And if I lost my present position," he continued. "I could have another job within twenty minutes."

This goes to show that there is plenty of work in Peterborough for the man who is not afraid to dig in. However, the trouble is to provide employment for people who do not want to work. There are some of that class in Peterborough.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. E. F. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

LEARN DRESS-MAKING BY MAIL

in your spare time at home, or

Take a Personal Course at School.

To enable all to learn we teach on cash or instalment plan. We also teach a personal class at school once a month. Class commencing last Tuesday of each month. These lessons teaches how to cut, fit and put together any garment from the plainest shirt waist suit, to the most elaborate dress. The whole family can learn from one course. We have taught over seven thousand dress-making, and guarantee to give five hundred dollars to any one that cannot learn between the age of 14 and 40. You cannot learn dress-making as thorough as this course teaches if you work in shops for years. Beware of imitations as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address:—

SANDERS' DRESS-CUTTING SCHOOL,
31 Erie St., Stratford, Ont., Canada.

Annual Outing of Auburn Employees

Will be Held to Cobourg To-morrow—Baseball Match

The annual outing of the employees of the Auburn Woollen Mills Company will be held to Cobourg tomorrow. The special G.T.R. train will leave Auburn at 8.30 o'clock and the G.T.R. station at 9 o'clock. The day will be spent in the lakeside town, and the excursionists will reach home at 7.30 o'clock in the evening.

The committee in charge is composed of Messrs. James Burnett, Robert Mann, Wm. Hartley and others. At Cobourg a baseball match will be played between a team from the Auburn Woollen Mills and Cobourg.

The outing to-morrow is the annual one tendered the employees by Mr. James Kendry, who generously bears all expenses connected with the trip.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Canada's imports for the fiscal year ending August, totals $165,723,630, and exports $100,164,001.

The Livingstone Flax Mills, one of the oldest landmarks of Brussels, was burned Tuesday.

Cressman's PETERBOROUGH

Owners of Power Yachts To Have an Organization

Preliminary Steps Taken at Meeting Last Night—An Addition May be Built to Otonabee Boat House

A well attended meeting was held last evening comprising owners of power yachts for purposes of organization as the Peterborough Launch Owner's Association. The number of power boats is increasing very rapidly, and several will be added to the fleet early next spring.

Dr. T. N. Green was chosen chairman of the meeting and Mr. H. War[illegible] secretary. Matters of interest were discussed, and arrangements entered into with Mr. Harold Rye, the owner of the boat house on the river, at end of street car line, for the storage and care of craft during the winter. At a meeting to be held next Thursday evening, Mr. Rye will advise the committee of full details, which may involve the erection of an additional building to afford sufficient accommodation. By close of the season there will be upwards of twenty boats awaiting storage.

As it is likely that before the next season opens up some system of inspection will be insisted on, under provincial auspices this feature was discussed and owners advised to set their boats in order during the winter. Regulations will be issued to which private owners, as well as boats plying in a public capacity, will be required to conform, and anticipating such improvements can be made and changes instituted.

At the adjourned meeting on Thursday night, next the organization will be completed, and the Association launched. The secretary has issued a circular to all owners of boats using these waters, inviting co-operation and membership.

Aftermath of the Wreck on C. P. R. at Myrtle Last March

Conductor J. P. Cooke, who had charge of the eastbound train in the head-on collision at Myrtle station on March 25th, in which two men were killed, and several injured, will be tried at the Whitby Assizes on the 23rd, on a charge under the criminal code, and indictments will be laid against other railway officials. Mr. Frank Arnoldi, K.C., who will conduct the prosecution, declined to give the names of the other defendants.

The charge preferred is not one of manslaughter, but it is laid under 283 and 284 of the Criminal Code. No. 283 says that anyone is guilty of an indictable offence and liable to two years' imprisonmenrt who by any unlawful act or by wilful omission of duty endangers the lives of passengers. This section specifies railway transportation, but 284 is more general, "An unlawful act, or doing anything, or omitting to do anything, causing bodily injury."

Cartridge Exploded and Tore Big Hole in Hunter's Canoe

Exciting Experience of a Lakefield Man at the Lakes—News of Interest From Lakefield and Vicinity.

Special to the Review.

Lakefield, Sept. 20th.—Miss Clara Davis, of the local telephone staff, is spending a two weeks' well earned holiday visiting friends in Toronto, Galt and Niagara Falls. During her absence Miss Grace Baldson is fulfilling her duties.

Rev. S. S. Burns left on Tuesday for Ottawa on a visit to his old home. Mr. Burns will return in time to take up his parochial duties on Sunday next.

Mrs. Burns is spending a few days at Stony Lake visiting Miss Ray, at her cottage.

His many friends will regret to hear that Mr. Couch Grylls, engineer of the Empress during the past season, is lying seriously ill at his home in the village.

A BAD ACCIDENT.

Mr. Sam Trude, son of Mr. W. F. Trude, met with a very unpleasant, not to say dangerous experience on Saturday last. Mr. Trude was on his way up the lake in a canoe, and in entering the Narrows attempted to place a cartridge in his gun. In some unaccountable manner the cartridge exploded, tearing a hole a foot long in the canoe and carrying away three of its ribs. The canoe filled with water at once. Luckily he saw some logs were close at hand, and by clambering on to these the young man was enabled to reach the shore in safety.

Mr. Franklin Jory, of Dummer, was in Lakefield on Monday last on a business trip in connection with his veterinary calling.

A meeting of the Board of Trade has been called for Wednesday, 18th inst., at 8.30 p.m., in the town hall, for the discussion of general business in connection with this district.

Mr. Mark Butchart, of Owen Sound, who has been spending a few days with his brother, Mr. A. S. Butchart, returned home on Monday last.

Miss Louise LeFevre spent Monday last in Peterborough, visiting her sister, Mrs. Evans Atwood.

The Grove School re-opened for the fall term on Thursday last with a record number of pupils.

Miss Pearl Northcott, who has been confined to her home with an attack of typhoid fever, is, we are glad to say, able to be out again.

NEW HOUSES.

Mr. Sidney Hunter's new house on Chippewa street, and also that of Mr. Chas. Nixon on the same thoroughfare, are both rapidly approaching completion, and when finished will add two more substantial and comfortable dwellings to the streets of Lakefield. There are now about twelve houses in course of construction in this village.

Dr. Gibson is building a very complete looking residence on Bridge street, on the west side of the river. With so many buildings going up, there wil soon b no cause for complaint as to the lack of accommodation in buildings.

Mr John Dinwoodie leaves on Monday for Thorold.

Mr. Charles McBride, of the Commercial House, has decided to retire from the hotel business. We understand, however, that Mr McBride intends to make Lakefield his home.

Mr. D. O. Thomas, a late resident of Lakefield, accompanied by Mrs. Thomas, arrived from England on Tuesday. Mr. and Mrs. Thomas intend spending a few days here prior to their departure for their home in Nelson, B.C.

Mr. Gus Walker, one of the oldest pupils of the Grove School, paid a brief visit to his old school on Tuesday. Mr. Walker was a pupil at the Grove under the late Mr. Sparham Sheldrake in 1887.

It will be a matter of general interest to know that after October 1st a daily mail service will be inaugurated between Lakefield, Lakehurst, Selwyn and Buckhorn. This will be of great benefit to the settlers living in these sections, as well as to the many tourists who patronise these parts during the summer and fall.

Mr. P. H. Unwin, who has been paying a visit of some weeks to Mr. and Mrs. Hilton Jones, at Young's Point, sailed for England on Saturday last.

Mr. and Mrs. Levi Payne are spending a few days this week at their cottage on Stony Lake.

Mr. Tom Colledge is spending a few days in the village. We understand that Mr. Colledge intends to spend the fall and winter in Peterborough. If so he will be a valuable acquisition to the Peterborough football team.

Ardon K. Lane, of Hamilton, fell down stairs yesterday and fractured his skull.

London machinists are organizing to demand 26 cents per hour, an increase of 3 cents.

Mrs. George H. Treffey, of Hawley, Ont., committed suicide by drinking carbolic acid.

Secretary of Local Y.M.C.A. Has Resigned From Position

Mr. Geo. H. Williamson to Become First General Secretary of the Fort William Association—Resignation Has Been Accepted.

Mr. George H. Williamson, for the past ten years secretary of the Young Men's Christian Association of this city, has resigned the position to become the first general secretary of the Association at Fort William. His resignation was accepted at a meeting of the Y.M.C.A. Board of Directors last night, after due consideration. Incidentally a resolution expressing confidence in Mr. Williamson and appreciation of his ten years' of service, was unanimously passed.

Mr. Williamson's retirement from the local Association will be learned of with regret, as he has worked hard and has proved a most efficient secretary. Fort William is one of the coming Canadian cities, and there is an excellent field there for Y.M.C.A. work. It is understood that the remuneration attached to Mr. Williamson's new position is considerably larger than is being paid in Peterborough.

Mr. Williamson became secretary of the Peterborough Y.M.C.A. in May, 1897, and has given the Association ten years of faithful service. In his removal to Fort William Peterborough loses an estimable and public-spirited citizen. His loss will be severely felt in many circles. He will leave for Fort William at an early date.

MR. GEO. H. WILLIAMSON

A committee, consisting of Messrs. Harding, Roger, Howden and Connal was appointed to secure a successor for the position which Mr. Williamson is vacating.

"Few Public Water Supplies Above Suspicion"--Dr. Hodgetts

A Toronto despatch says:—The Provincial Board of Health held a meeting yesterday afternoon, and Dr. Hodgetts, the secretary, read a report, in which he urged the Board to take some vigorous action to safeguard the public as to the housing of cattle, the collection, storage, and transportation of the milk, and also endeavored to control the system of delivery.

Dr. Hodgetts also advanced vaccination as a means of stamping out small pox, and ridiculed anti-vaccination, saying: "The misstatements and distorted facts of a small coterie has lulled a small portion of the public into a hypnotic state, from which they and the rest of the neglected public will be rudely awakened by an outbreak of variola."

Dr Hodgetts said municipalities were ignoring the decisions and recommendations of the board in respect to the installation of public water supplies, and he suggested legislation making it impossible for municipal councils to float their bonds unless such water schemes have been approved of by the board.

"I wish to sound a note of warning to municipal authorities," said the report, "in respect to the doubtful quality of many of the public water supplies in this province. Personally, I know of but few water supplies in this province that are above suspicion."

The efforts put forth to cope with consumption have been entirely inadequate, continues his report. Municipal authorities must enter into the work and help it on.

Record to Review With Satisfaction

Lt. Col. Miller Speaks of His 43 Years Connection With 57th Regiment

It is expected that Militia Orders issued this week will contain the announcement that Lt.-Col. J. W. Miller, for the past five years Officer Commanding the 57th Regiment, Peterborough Rangers, has been transferred to the reserve of officers, and that Major A. Stevenson will succeed him.

"Yes," remarked Col. Miller today, in a reminiscent mood, "I have been connected with the 57th Regiment for forty-three years. It was in the fall of 1864 that I joined—three years before Confederation. I have been an officer for thirty years, and have filled every position in the corps from private to commanding officer, except surgeon and paymaster. There are only two men now connected with the regiment who were born when I joined. They are Lieut.-Col. Halliday, Surgeon, and Major Hayes, Paymaster. Yes, sir, I will never lose interest in the 57th or the boys thereof. I look back upon all these years as the most pleasant in my life, and bespeak for my successor, Col. Stevenson, the same kindly and helpful treatment and support as I have always received. A finer class of men I have never met than those who constitute the staff, officers, rank and file of the Peterborough Rangers."

New buildings will be built for Belleville Fair.

REVIEW LETTER BOX

AFTER FRUIT DEALERS

To the Editor of the Review.

Sir,—In your issue of Monday you report the case of two boys having stolen fruit from a fruit store. This thing has become very prevalent among the boys in this city, and it is because of the laxity in enforcing our bylaws that the boys are tempted. It is a well known fact that, with the exception of Mr. Oke, the fruit dealers trespass upon the streets with their fruit stands, contrary to the bylaw, and thus afford the boys every opportunity of stealing. If Mr. Oke observes the law there is no reason why the others should not be made to do so, and thus remove the temptations placed before the boys.

Yours, etc.,
RESIDENT.

Sept. 17th, 1907.

PULPIT AND ITS USE

"Observer" Thinks That Preachers Should Keep Out of Politics.

To the Editor of the Review.

Sir,—In its Monday issue your contemporary reports, with unction, the sermon of Rev. J. R. Webb, delivered in his pulpit last Sunday night. The reverend gentleman, who has lately come amongst us, is evidently a bright and shining light, not in the salvation of souls, for which he draws his salary, but in the realm of politics. He took occasion to praise Sir Wilfrid Laurier for expressing a wish to live a long time, so long that he might live to see the completion of the All Red Line and the Quebec bridge, who no doubt thus tried to convey the false impression that the one was of his own conception, and the other the product of his own genius. But, alas! The nebulosity of the one and the submerged ruins of the other, like the hand-writing on the wall, are portentous of coming events. Sir Wilfrid, recognizing his failure as a statesman, and seeking to keep up the delusion among his followers, resorts to such tactics to carry him through.

When preachers make such a use of their pulpits, it is no wonder that their flocks look askance at the hollowness of it all. Had the learned divine heard Mr. Bergeron's exposure of Sir Wilfrid at Mr. Borden's meeting last Wednesday night, we might have been spared the sentimental vaporings of himself and a re-hash of those attributed to Sir Wilfrid.

Yours, &c.,
OBSERVER.

Peterborough, Sept. 17, 1907.

THE REPORT DENIED

To the Editor of the Review.

Sir,—A Harrietsville despatch in your issue of the 11th, re the inquest into the death of James Jelly of that village, who was a Christian Scientist, states that many witnesses swore that deceased was refused medical attendance. This statement is nothing more or less than a malicious falsehood, as the witnesses swore to the very opposite, that they had asked Mr. Jelly, if he did not want a doctor, and he refused to have one. The Coroner, Dr. Doan, had known Mr. Jelly for years, and knew that the doctors had long ago, given him up as a hopeless case, and why such a stir should be made is a mystery. Mr. R. R. Jelly, brother of the deceased, wrote as follows to the London Free Press, his letter being published in that paper, Sept. 13th,—

"Editor Free Press: Your first page news item in issue of the 7th inst., from Dorchester, evidently refers to my brother, the late James E. Jelly, and it would no doubt be interesting to your readers to know that his case was diagnosed about twelve years ago, by several prominent physicians both in this country and the United States, as locomotor ataxia, an incurable disease, and the case given up as hopeless with the statement that it would run its course in approximately six years.

"It was at this time he took up Christian Science, and through it secured a prolonged lease of life.

"He persistently refused medical treatment on account of its acknowledged uselessness in his case, and clung to Christian Science, from which he received many benefits.

"Thanking you for the space,—R. R. Jelly."

In view of the above facts, the jury brought in an open verdict, placing the blame on no one for Mr. Jellly's death.

A well-known conductor on the C. P. R., for which company, Mr. Jelly formerly worked, and who knew the deceased for many years, characterized it as an outrage for the doctors to cause so much trouble over this case, when they themselves had acknowledged for years that the man's case was hopless, and medicine could not help him.

Yours respectfully,
C. R. MUNRO.

Toronto Sept. 14th, 1907.

Tells us How to Make Mixture

Splendid Remedy for Stomach and Kidneys and Rheumatism

"The people here do not drink enough water to keep healthy," exclaimed a well-known authority. "The numerous cases of stomach trouble, kidney and bladder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medicine, has been neglected.

Stop loading your system with patent medicines and cure-alls; but get on the water wagon. If you are really sick, why, of course, take the proper medicines—plain common vegetable treatment, which will not shatter the nerves or ruin the stomach."

When requested for such a prescription for the cure of rheumatism and kidney trouble the answer was: "You must make the kidneys do their work; they are the filters of the blood. They must be made to strain out of the blood the waste matterr and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and, most of all, you must keep these acids from forming ing in the stomach. This is the cause stomach trouble and poor digestion. For these conditions I would suggest the following prescription, which is composed of only vegetable ingredients, which can be obtained from any good prescription pharmacy. Any one can mix them by shaking well in a bottle. Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. To be taken in teaspoonful doses after each meal and at bedtime but don't forget the water. Drink plenty and often." This valuable information and simple prescription should be posted up in each household and used at the first sign of an attack of rheumatism, backache or urinary trouble no matter how slight.

Large Attendance At Fall Openings

The Centres of Fashion Thronged With Admirers of Autumnal Styles

The millinery openings are now going on, and are being favored with fine weather.

The ladies have turned out in large numbers to view the neat, fetching and fascinating autumnal styles in hats, mantles, etc. Today many of the fair six visited the different centres of fashion. Messrs. R. Hall & Son began their fall opening last evening. The big store was thronged and the interior never appeared to more pleasing advantage.

The 57th Regiment band, under the leadership of Mr. R. Gliddon, took up its stand on the main floor and, during the evening discoursed an excellent programme of popular music, which was much appreciated by the large attendance.

This evening at seven o'clock Mr. A. W. Cressman will re-open his enlarged and remodelled departmental store. Great preparations have been made for the auspicious event. The Grand Opera House orchestra will contribute a pleasing musical programme.

London will have a labor candidate for the Commons bye-election.

¶ When Fashion calls—for greys, or greens, or browns—you are always sure of getting them at their best in "Fashion-Craft" clothes.

¶ Your attention is called to a 3 button blue serge D. B. suit at $25.00.

To Herald the Coming of the
Two Shoe Prizes of the World

Dolly Varden Shoe

For Women

In the shoes which we intend handling in future we have had the good fortune to find the ideal combination so ardently sought by the earnest shoe dealer.

This is the shoe ideal :

Parisian Elegance.
American Finish.
British Comfort.
Canadian Sturdiness.

Without the latter quality to withstand the wear of the Canadian weather conditions, our ideals would not permit that real test of worth — the maker's name and the maker's price stamped on each shoe.

Foot-Rite Shoe

For Men

That this shall be the high-class shoe store of this city is our purpose in securing the exclusive agency for the two finest shoes made in the world.

The advanced cost of leather makes it imperative on the part of both the dealer and his customer to insist that the maker's name shall be stamped on the shoe as an evidence of the faith that is in it.

Good Leather—true leather and genuine material within the hidden parts of the shoe, and the maker can stamp the name, and the price he makes must be the actual worth price

The Dolly Varden for dainty women is the standard by which all other fine shoes must be judged. With fourteen new features the Dolly Varden presents in one shoe all the desirable and attractive qualities which appeal to ladies. It is sold at $4 to $5—the same price in Canada as in the United States. This is the Shoe for which we make way—

We can safely make the claim for the Foot-Rite Shoe that its 20 improvements are 20 arguments in its favor.

It is not a fad shoe—but is sensible, attractive and stylish, with the added advantage of having been made in the shoe factory which is the best exponent of the famous Goodyear Welt system of making shoes—the tireless, perfect system which finally vanquished the custom bootshop.

There are styles, shapes and sizes to fit all manner of feet, and fit them so perfectly that walking exercise will be one joyous march of Napoleonic activity.

There will always be a glad welcome for the customer who comes frankly to see our shoes — whether it be to buy or but to see them.

Because we believe in these shoes—because we know their parentage and their every excellence we intend to give them the foremost place in our store.

There are to-day 27 Foot-rite shoe stores and exclusive agencies in Canada, and their success has been without parallel in the history of the shoe trade. Applications are being made every day to the Canadian head offices of the Foot-rite Shoe Company, in Montreal, for exclusive franchise.

Foot-rite Shoes are sold at $4, $5 and $6 the same prices in Canada as in the United States.
